**COMPLAINT**

Pursuant to the provisions of Section 105(c) of the Federal Mine Safety and Health Act of 1977, 30 U.S.C. §801 *et seq.*, (the “Mine Act”), the Secretary of Labor (“the Secretary”) hereby files this complaint alleging violations of Section 105(c)(1) of the Mine Act, 30 U.S.C. § 815(c)(1).

1. The Commission has jurisdiction over this case under sections 105(c)(2) and 113 of the Mine Act, 30 U.S.C. §§ 815(c)(2), 823.

2. The Secretary, acting through the Mine Safety and Health Administration (“MSHA”), enforces and administers the Mine Act, 30 U.S.C. § 801 *et seq.*

3. Respondent American Tripoli is a fictitious name for a limited liability company, MOSenecaManufacturer Limited Liability Company, with a place of business at 222 Oneida Street, Seneca, Missouri 64865. Respondent is registered with the Mine Safety and Health Administrative (“MSHA”) as the operator of the MOSenecaMfr LLC dba American Tr mine. Respondent is a “person” as defined in section 3(f) of the Mine Act, 30 U.S.C. § 802(f).

Respondent owns, operates and controls the MOSenecaMfr LLC dba American Tr mine and is therefore an “operator” as defined in Section 3(d) of the Mine Act, 30 U.S.C. § 802(d).

4. The MOSenecaMfr LLC dba American Tr mine (“Mine”) is metal/nonmetal surface mine. The MOSenecaMfr LLC dba American Tr mine has, or at all times relevant to this Complaint had, products that enter commerce or operations or products that affect commerce. The MOSenecaMfr LLC dba American Tr mine is a “coal or other mine” as defined in section 3(h)(1) of the Mine Act, 30 U.S.C. § 802(h)(1).

5. At all relevant times, Robert Baumann (“Complainant”) was employed by Respondent as a production supervisor who worked at the Mine performing various tasks and was a “miner” as defined in Section 3(g) of the Mine Act, 30 U.S.C. § 802(g). Complainant Baumann also served as a representative of miners at the Mine from March 21, 2023 through April 17, 2023.

**A. Count I: Discrimination**

6. Complainant Baumann engaged in protected activity while employed by Respondent at the Mine, including the following:

- a. At times starting in or around June 2022 through April 17, 2023, Baumann made safety complaints and raised safety concerns to Respondent;
- b. In February and March 2023, Baumann walked around with MSHA inspectors during MSHA inspections of the Mine and discussed safety concerns and hazards with MSHA inspectors during inspections of the Mine;
- c. On March 21, 2023, Complainant Baumann was elected to be the representative of miners at the Mine and at times thereafter, participated in MSHA inspections of the Mine by walking around with MSHA inspectors in

his capacity as a representative of the miners; and

- d. On or around April 11-12, 2023, Complainant Baumann walked around with MSHA during an MSHA inspection. MSHA issued a withdrawal order, under Section 104(b) of the Act, during said inspection, and Complainant Baumann asked Respondent about miners' rights to compensation while the Mine was shut down and asserted miners' rights to compensation during the withdrawal order.

7. Respondent terminated Complainant Baumann on April 17, 2023, at least in part, because he engaged in activities protected by 30 U.S.C. § 815(c), including those set forth above. Respondent's actions against Complainant constituted illegal discrimination for engaging in protected activities, in violation of Section 105(c) of the Act.

8. On April 25, 2023, Complainant Baumann filed a discrimination complaint with MSHA alleging he was discriminated against pursuant to Section 105(c)(1) of the Act. A redacted copy of the Complaint is attached hereto as Exhibit A.

9. As a result of Respondent's Section 105(c) violation, Complainant suffered financial losses, including, but not limited to, lost wages.

10. The MSHA Office of Assessments has proposed a civil penalty against Respondent in the amount of \$15,000.00 for discriminating against Complainant Baumann in violation of Section 105(c) of the Act. The Secretary requests the Commission assess a civil penalty in that amount against Respondent for discriminating against Complainant Baumann in violation of Section 105(c) of the Act as alleged in Count I of this Complaint.

## **B. Count II: Interference**

11. Upon investigation into Complainant Baumann's discrimination complaint, the

Secretary determined that Respondent interfered with the rights of Complainant Baumann and at least one other miner in violation of Section 105(c)(1) of the Mine Act. The investigation revealed the following facts:

- a. On February 14, 2023, MSHA was conducting an inspection of the Mine.
- b. On February 14, 2023, Complainant Baumann and another miner received a message via Microsoft Teams from John Spears, Respondent's operations manager, telling the miner not to answer questions from the MSHA inspector, to not go in the mill, and the operations manager continued to state that he would be the person who would talk to the MSHA inspector.
- c. At other times during Complainant Baumann's employment, Respondent told miners not to speak to MSHA during MSHA inspections.

12. Respondent's statements to miners, described above, illegally interfered with the exercise of the miners' statutory rights in violation of Section 105(c)(1) of the Mine Act by intimidating miners against engaging in activities protected by the Mine Act, including miners' protected right to report safety issues to MSHA.

13. The MSHA Office of Assessments has proposed a civil penalty against Respondent in the amount of \$17,500.00 for interfering with miners' rights as alleged in Count II of this Complaint. The Secretary requests that the Commission assess a civil penalty in that amount against Respondent for interfering with miners' rights under Section 105(c) of the Act as alleged in Count II.

**WHEREFORE**, good cause having been shown, the Secretary and Complainant Baumann respectfully demand judgment against Respondent as follows:

- i. A finding that Respondent unlawfully discriminated against Complainant Baumann because of his exercise of protected activity in violation of Section 105(c)(1) of the

Federal Mine Safety and Health Act of 1977, 30 U.S.C. § 815., as alleged in Count I.

ii. Direct Respondent to pay a civil penalty for discriminating against Complainant Baumann in violation of Section 105(c), as described in Count I. In accordance with the criteria specified in Section 110(i) of the Mine Act, the secretary proposes a civil penalty of \$15,000.00 for the discrimination violation alleged in Count I.

iii. Grant declaratory judgment that Respondent unlawfully interfered with the exercise of protected activity of the miners at the Mine, in violation of Section 105(c) of the Federal Mine Safety and Health Act of 1977, 30 U.S.C. § 815;

iv. Direct Respondent to pay a civil penalty for interfering with miners' rights in violation of Section 105(c), as described in Count II. In accordance with the criteria specified in Section 110(i) of the Mine Act, the Secretary proposes a civil penalty of \$17,500.00 for the interference violation alleged in Count II.

v. Require Respondent to fully compensate Complainant Baumann for lost wages, benefits, and any other compensatory damages, plus interest, that resulted from Complainant's termination.

vi. Require that the personnel file of Complainant Baumann be purged of any reference to his termination and any disciplinary action taken against Complainant Baumann as the result of the discrimination by Respondent, and that if a prospective employer contacts Respondent regarding a job reference, Respondent shall not discuss, provide information about, or otherwise reference the expunged information.

vii. Order Respondent to cease-and-desist from:

- a. Discouraging miners from speaking to MSHA; and
- b. Interfering in any way with any right under the Mine Act guaranteed to miners;

viii. Direct Respondent to post a notice for a period of at least 60 days, at places where notices are regularly posted for employees to see, in a size and font that is readily visible to miners, at the Mine, stating that it will not violate Section 105(c) of the Mine Act. Such notice

shall inform miners of their rights under Section 105(c) of the Mine Act and state that Respondent will cease from discouraging miners from speaking to MSHA in any way and that Respondent will not interfere with any right under the Mine Act guaranteed to miners or discriminate against miners for engaging in any protected activity under Section 105(c) of the Mine Act;

ix. Direct Respondent to provide training to all of its employees and managers at the Mine about miners' protected rights under the Mine Act, especially with regard to miners' rights to raise safety concerns to Respondent and communicate confidentially with MSHA about safety and health matters, and also provide training to employees and managers that it is prohibited to discourage miners from engaging in protected activities or interfere with miners' rights to engage in protected activities or discriminate against miners for engaging in protected activity under the Mine Act. Respondent shall also provide MSHA an opportunity to review and make changes to the content of this training prior to giving the training to its employees and managers;

x. An order granting any and all additional relief to which the Secretary and/or Complainant Baumann may be entitled.

Respectfully submitted,

Case Number

## Summary of Discriminatory Action

On 4/17/2023, I was terminated without cause. The letter that I was given stated that I was not doing satisfactory work even though I've never had any type of write up. I believe that I was terminated due to speaking with MSHA regarding various issues. I oversee employees and they were worried about their pay when the operation was shut down on 4/12/2023 and I questioned management about everyone's pay. They sent me a text on 4/16 to come in at 8:00 on 4/17/2023. Upon arriving for the meeting, John Spears handed me a termination letter stating that I had been let go effective immediately based on my job performance or lack thereof, when I had never had issues before.

I want to receive compensation from my last day of employment until I find a new position elsewhere. *plus 2 weeks pay*

Re: **Docket No. CENT 2023-0251 - Operator's Answer**

Dear Commissioners,

I write on behalf of American Tripoli, a limited liability company doing business as MOSenecaMfr LLC dba American Tr mine ("Respondent"). I hereby submit Respondent's answer to the complaint filed pursuant to Section 105(c) of the Federal Mine Safety and Health Act of 1977 (the "Mine Act") by the Secretary of Labor ("the Secretary") on behalf of Mr. Robert Baumann ("Complainant").

## **I. Introduction**

Respondent categorically denies the allegations contained in the complaint. The termination of Mr. Baumann was not retaliatory but a result of his inadequate performance and demonstrated lack of judgment in his role as a shift lead. To support this assertion, Respondent provides the following responses to the specific allegations.

## **II. Count I: Discrimination**

1. **Role Clarification:** Respondent disputes Mr. Baumann's role as a production supervisor, clarifying that he was a shift lead with limited authority, responsibility, and no prior supervisory experience. Mr. Baumann's job title and performance history are essential context.
2. **Absence of Safety Complaints:** Respondent challenges the claim that Mr. Baumann made safety complaints and raised safety concerns. There is a notable absence of evidence supporting these allegations.
3. **Lack of Involvement in MSHA Inspections:** Respondent contends that Mr. Baumann did not participate in MSHA inspections as a representative of miners. No documentation substantiates his involvement in these inspections.
4. **Termination Based on Performance:** Respondent emphasizes that Mr. Baumann's termination was entirely performance-related. His consistent incompetence and lack of improvement despite counseling and guidance justified this action.

## **III. Count II: Interference**

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

1. **Intent of Communication:** Respondent clarifies the intention behind John Spears' message to miners during the MSHA inspection, emphasizing that it was not meant to interfere but to provide a point of contact and ensure accurate information transfer.
2. **Respect for Miner Rights:** Respondent reaffirms its commitment to respecting miners' rights to report safety or health issues to MSHA and participate in inspections without interference.
3. **Withdrawal Order Response:** Respondent denies any interference with the issuance of the withdrawal order and contends that it was unjustified and excessive. The response to the order was necessary to protect the mine's operations.

**IV. Proposed Civil Penalties**

Respondent argues that the proposed civil penalties are unjustified and unwarranted, given the circumstances of Mr. Baumann's termination and the alleged violations. Respondent maintains its commitment to safety and compliance.

**V. Conclusion**

In conclusion, Respondent respectfully requests that the Commission dismiss the complaint against it. Respondent is committed to cooperating with MSHA inspections and addressing legitimate safety concerns in a responsible and compliant manner.

We remain available to provide any further information or documentation necessary to address this matter. Thank you for your attention to this response.

Sincerely,

*Russell Tidaback*

**ORDER OF ASSIGNMENT TO SETTLEMENT COUNSEL**

This docket is before the Court<sup>1</sup> upon the discrimination Complaint filed by the Secretary of Labor (“Secretary”) pursuant to section 105(c) of the Federal Mine Safety and Health Act of 1977 (“Mine Act”), 30 U.S.C. § 815. The parties have requested that the Court assign the case to a Settlement Counsel and, by this Order, the Court has agreed to the request. While the parties hope that a settlement can be reached, proactively, upon conferring with the parties next week, the Court will set a hearing date.

Commission Procedural Rule 55 grants Commission Judges broad powers to issue orders and procedurally manage cases before them. 29 C.F.R. § 2700.55. The Court has determined that prior to a hearing the parties would benefit from an opportunity to resolve this matter through a less formal process of facilitated negotiations. Accordingly, it is hereby **ORDERED** that this case be assigned to the Commission’s Settlement Counsel, Michelle Carter Williams, as the settlement attorney under my jurisdiction.

During the period this case is assigned to Settlement Counsel Williams, the parties are required to enter into good faith negotiations and to comply with negotiation procedures and deadlines. Settlement Counsel is authorized to conduct settlement negotiations, including face-to-face and telephonic negotiations, and may engage in *ex parte* communications with the parties and their representatives. Any such communications shall be privileged unless the party holding the privilege specifically authorizes their disclosure. Other than her role as Settlement Counsel in this matter, Ms. Williams will be barred from engaging in any substantive communications with, the Court or from working on this case for the Court, in accordance with 29 C.F.R. § 2700.82(b). Finally, any electronic or hard copies of materials provided to Settlement Counsel during the course of negotiations will be

---

<sup>1</sup> Reference to the “Court” means the undersigned, as the presiding judge assigned to this docket.

destroyed when the Settlement Counsel's assignment terminates.

Representatives for the Secretary and Respondent **shall** contact Settlement Counsel Williams at: (202) 434-9961 or [mwilliams@fmshrc.gov](mailto:mwilliams@fmshrc.gov), no later than **Friday October 27, 2023**, to arrange a conference call between the parties, although Settlement Counsel may also elect to initiate contact prior to that date. During that conference call, the parties **shall** confer and discuss how they will use Ms. Williams to aid their settlement negotiations and to further their efforts to amicably dispose of this matter.

The parties should work with Settlement Counsel Williams in furthering their efforts to amicably dispose of this docket. The assignment of Ms. Williams to this case shall terminate **December 15, 2023**. In addition, any party is permitted to move for the termination of Settlement Counsel's handling of this matter and resolve the case through hearing and decision. The requesting party may do so by filing with me a Motion to Dismiss Settlement Counsel.

*William B. Moran*

**NOTICE OF HEARING**

Upon consultation with the parties, it was agreed that the hearing in this matter shall commence on **Tuesday, February 27, 2024, and continue through Friday, March 1, 2024.** The hearing will be held in **Joplin, MO or as close as possible to that location.** The particular courtroom location will be announced separately.

The hearing will be conducted in accordance with the Mine Act and the Commission's Procedural Rules addressing the subject, as set forth at 29 C.F.R. Part 2700, Subpart G. The issues to be resolved are as identified in the pleadings.

At the start of the proceeding each party shall submit an exhibit list. Each exhibit shall be marked; each of the Secretary's Exhibits are to be marked with a "P" or some other uniform designation, followed by a number, in sequence, and, in the same fashion, each of Respondent's Exhibits are to be marked with an "R" or with some other uniform designation, followed by a number, in sequence. Where practicable, exhibits should be assembled in a binder. Exhibits with multiple pages are to be separately and clearly numbered. This is important, as it will allow for quick access to a particular page within an exhibit and for a clear record of the page associated with testimony. The Court is to be provided with the parties' exhibit binders at the start of the hearing and the Court Reporter is also to be provided with a set of the exhibit binders.

**Prehearing Exchange:** A copy of each exhibit is to be provided to the opposing side. Each potential witness is also to be identified in the exchange, along with a brief statement of the expected testimony from that witness. This exchange is to occur by **Tuesday, January 30, 2024.** Supplemental exchanges may be made, as long as they are made in good faith and arising from information which was not reasonably available at the time of the initial exchange. Note

that, if a virtual hearing is required, the prehearing exchange requirements will be different. In such an event, the Court will advise the parties of those requirements.

Employing email, the parties are directed to acknowledge receipt of this Notice of Hearing to the Court and to confirm that their witnesses are available.

### **TITLE 29, CODE OF FEDERAL REGULATIONS CHAPTER XXVII – FEDERAL MINE SAFETY AND HEALTH REVIEW COMMISSION PART 2700, PROCEDURAL RULES**

#### **§ 2700.60 Subpoenas**

(a) *Compulsory attendance of witnesses and production of documents.* The Commission and its Judges are authorized to issue subpoenas, on their own motion or on the oral or written application of a party, requiring the attendance of witnesses and the production of documents and physical evidence. A subpoena may be served by any person who is at least 18 years of age. A subpoena may also be served by registered or certified mail, return receipt requested, but, in such case, any risk of delivery is on the serving party. A copy of the subpoena bearing a certificate of service shall be filed with the Commission or the Judge.

(b) *Fees payable to witnesses.* Subpoenaed witnesses shall be paid the same fees and mileage as are paid in the district courts of the United States. The witness fees and mileage shall be paid by the party at whose request the witness appears, or by the Commission if a witness is subpoenaed on the motion of the Commission or a Judge. This paragraph does not apply to Government employees who are called as witnesses by the Government.

(c) *Motions to revoke or modify subpoenas.* Any person served with a subpoena may move within 5 [business] days of service or at the hearing, whichever is sooner, to revoke or modify the subpoena. The Commission or the Judge, as appropriate, shall revoke or modify the subpoena if it seeks information outside the proper scope of discovery as set forth in § 2700.56(b); or if it does not describe with sufficient particularity the evidence required to be produced; or if for any other reason it is found to be invalid or unreasonable. The Commission or the Judge shall set forth a concise statement of the grounds for such ruling.

[Any motion to revoke or modify a subpoena; must be in writing; must identify the case by name and docket number; must be signed by the filing person; and shall include the filing person's address and phone number.

The motion shall be filed by facsimile transmittal, and a copy shall be served by facsimile on the person upon whose application the subpoena was issued. Commission Procedural Rules 5, 6, 7, and 10.]

(d) *Availability of Transcript.* Persons compelled to submit evidence at a public proceeding are entitled to obtain, on payment of prescribed costs, a transcript of that part of the proceeding that sets forth their testimony or refers to their production of evidence.

(e) *Failure to Comply.* Upon the failure of any person to comply with an order to testify or with a subpoena issued by the Commission or the Judge, the Judge or the Commission's General Counsel, at the request of the Judge or at the direction of the Commission, may undertake to initiate proceedings in the appropriate district court of the United States for the enforcement of the subpoena.

#### **TENDER OF FEES AND MILEAGE**

Service of a subpoena directing a person's attendance at a hearing or deposition shall be accompanied by tendering to that person the fees or one day's attendance and the mileage allowed by law, except that, when a subpoena is issued at the request of the United States or an officer or agency thereof, fees and mileage need not be tendered. Fed.R.Civ.P.45(b).

#### **PROTECTION OF PERSONS SUBJECT TO SUBPOENAS**

A party or an attorney responsible for the issuance and service of a subpoena shall take reasonable steps to avoid imposing undue burden or expense on a person subject to that subpoena. A party or attorney who breaches this duty may be subject to an appropriate sanction. Fed.R.Civ.P.45(c)(1).

**CERTIFICATE OF SERVICE**

The undersigned hereby certifies that service of the foregoing Subpoena was made upon the following, via certified mail, on January 27, 2024:

John Spears  
10396 Reindeer Dr.

MSHA No. MADI-CD-2023-03

Mine: MOSenecaMfr LLC dba American  
Tr  
Mine ID: 23-00504

**NOTICE OF HEARING LOCATION**

Upon consultation with the parties, it was agreed that the hearing in this matter shall commence on **Tuesday, February 27 and to continue as necessary through Friday, March 1, 2024**. The hearing shall begin promptly at **9:00 a.m.** The hearing location will be held in **Joplin, MO** at the location listed below:

**Jasper County Courts Building  
633 S. Pearl Ave.  
Courtroom A  
Joplin, MO 64801**

The hearing will be conducted in accordance with the Mine Act and the Commission's Procedural Rules addressing the subject, as set forth at 29 C.F.R. Part 2700, Subpart G. The issues to be resolved are as identified in the pleadings.

At the start of the proceeding each party shall submit an exhibit list. Each exhibit shall be marked; each of the Secretary's Exhibits are to be marked with a "P" or some other uniform designation, followed by a number, in sequence, and, in the same fashion, each of Respondent's Exhibits are to be marked with an "R" or with some other uniform designation, followed by a number, in sequence. Where practicable, exhibits should be assembled in a binder. Exhibits with multiple pages are to be separately and clearly numbered. This is important, as it will allow for quick access to a particular page within an exhibit and for a clear record of the page

associated with testimony. The Court is to be provided with the parties' exhibit binders at the start of the hearing and the Court Reporter is also to be provided with a set of the exhibit binders.

**Prehearing Exchange:** A copy of each exhibit is to be provided to the opposing side. Each potential witness is also to be identified in the exchange, along with a brief statement of the expected testimony from that witness. This exchange should have occurred by **Tuesday, January 30, 2024**. Supplemental exchanges may be made, as long as they are made in good faith and arising from information which was not reasonably available at the time of the initial exchange. Note that, if a virtual hearing is required, the prehearing exchange requirements will be different. In such an event, the Court will advise the parties of those requirements.

Employing email, the parties are directed to acknowledge receipt of this Notice of Hearing to the Court and to confirm that their witnesses are available.

TRIPOLI,	)	American Tr
	)	Mine Id No. 23-00504
Respondent.	)	

Pursuant to the Commission’s Rule 2700.10, the Acting Secretary hereby brings this Motion to Exclude Respondent’s late disclosed witness and exhibits from the hearing of this matter. In support of this Motion, the Acting Secretary states as follows:

- 1) Pursuant to this Court's December 15, 2023, Notice of Hearing, the parties were to make their Prehearing Exchange with a copy of each exhibit and identification of each potential witness by January 30, 2024.
- 2) The Acting Secretary, through counsel, made this Prehearing Exchange timely, on January 30, 2024, providing a witness and exhibit list and providing pre-marked copies of the potential exhibits<sup>1</sup>.

- 3) Respondent failed to meet this deadline. However, on January 31, 2024,

Respondent emailed counsel for the Acting Secretary providing an exhibit list identifying one

1

exhibit along with the copy of the one exhibit and a witness list<sup>2</sup>. The January 31 email is attached hereto as Exhibit A; the January 31 witness list is attached hereto as Exhibit B; and the January 31 exhibit list is attached hereto as Exhibit C. Respondent gave no explanation for why this Prehearing Exchange, provided one day after the Court’s deadline, was not provided timely.

4) On February 8, 2024, nine days after the deadline for the Prehearing Exchange, Respondent, for the second time, made a late disclosure of a new witness list and provided 36 exhibits Respondent proposes to use at trial. The February 8 witness list identifies one witness, Mr. Max Drake and “Any witness on the Secretary’s witness list” and “any witness needed for rebuttal.” February 8 Witness List, attached hereto as Exhibit D. Respondent again gave no explanation as to why the new witness and 35 additional exhibits were not provided timely.

5) Further, Respondent has attempted to include at least five exhibits into its exhibits for the hearing which were not produced in discovery but would have been responsive to discovery requests.<sup>3</sup> As such, not only were these proposed exhibits provided late, they were also not produced in discovery preventing the Acting Secretary the opportunity to use any such exhibits in depositions or to request further information about such documents in discovery. Discovery closed in this case on February 7, 2024.

6) The Court’s Notice of Hearing states that supplemental exchanges can be made “in good faith and arising from information which was not reasonably available at the time of the

---

2 The witness list contained a typo stating that the witnesses to be called would be “Any witness on Respondent’s witness list”. Counsel for the Acting Secretary clarified on January 31, 2024, that Respondent meant any witness on the Secretary’s witness list, and Respondent confirmed that Respondent meant any witness on the Secretary’s list. *See* Exhibit A at page 2.

3 For example, Exhibit C is an excel spreadsheet of workplace exams, but only the PDF was provided in discovery. Exhibit D is a spreadsheet that was not produced in discovery regarding MSHA inspections and the status of the inspections and citations. Exhibit CC are teams chats with Rob Baumann and Mr. Tidaback that were not produced in their entirety in discovery and these chats contain extra commentary by Respondent at the top of the document. Exhibit G contains an email to MSHA regarding a mine inspector which was not produced in discovery. Exhibit J contains a list of Supervisor v. Lead classification that was not produced in discovery.

initial exchange.” There is no indication or information to suggest that any of the exhibits provided on February 8, 2024 were not reasonably available at the time of the initial exchange. The 36 exhibits consist of documents dated in 2023 or earlier which would have all been available to Respondent by the Court’s January 30, 2024 deadline for the Prehearing Exchange. As such, the Court should exclude all of the 35 new exhibits presented by Respondent on February 8, 2024 from the hearing on this matter along with the newly disclosed witness.

7) Pursuant to Commission Rule 2700.10(c), counsel for the Acting Secretary conferred by email with Respondent’s representative on this Motion and Respondent is opposed to this Motion. Counsel for the Acting Secretary indicated in that email that there was no indication that any of the exhibits were not available to Respondent as of January 30, 2024. In response, Respondent did not claim that the documents were unavailable as of January 30, 2024.

WHEREFORE, the Acting Secretary respectfully requests the Court exclude Respondent’s witness identified on February 8 and the 35 new exhibits identified on February 8 from the hearing in this case.

MOSENECAMANUFACTURER LIMITED LIABILITY COMPANY  
d/b/a AMERICAN TRIPOLI  
Respondent

February 14, 2024

Judge William B. Moran  
FEDERAL MINE SAFETY AND HEALTH REVIEW COMMISSION  
OFFICE OF THE CHIEF ADMINISTRATIVE LAW JUDGE  
1331 PENNSYLVANIA AVE., N.W., SUITE 520N  
WASHINGTON, DC 20004-1710

Re: Motion to Exclude Late Disclosed Witnesses and Exhibits filed by the Acting Secretary, Docket No. CENT 2023-0251  
Mine: MOSenecaMfr LLC dba American Tr Mine ID: 23-00504

Dear Judge Moran,

I am writing in response to the Acting Secretary's Motion to Exclude Respondent's Late Disclosed Witnesses and Exhibits, filed on [date of filing]. I appreciate the opportunity to address this matter before the court.

As outlined in the Notice of Hearing, the prehearing exchange deadline for exhibits and witness lists was set for January 30, 2024. While I acknowledge that our supplemental exchange occurred after this deadline, I assure the court that it was made in good faith.

We encountered difficulties in compiling and organizing the information within the specified timeframe. Despite our best efforts, we were unable to meet the original deadline set by the court.

I would like to emphasize that the exhibits were not intentionally withheld or kept hidden from the Acting Secretary. Rather, all the exhibits except for Exhibit J, as annotated below, were provided or were available to the Secretary before the court's deadline, and we believe these documents are crucial to the fair presentation of our case.

To the points raised by the Secretary:

The Secretary stated, "At no time prior to either late disclosure did Respondent attempt to confer with the Secretary about the late disclosures, request leave to make late disclosures, or offer an explanation as to why the proposed witness and exhibits were not provided to the Secretary by the Prehearing Exchange deadline." Below is the email I sent to the Secretary on February 8, 2024, explaining why the exhibits were late and offering my time to respond to any questions or details needed by the Secretary.

In the email sent to the Secretary on February 8, 2024, I wrote "Thank you for bringing these matters to my attention, and I sincerely apologize for any inconvenience caused by the delayed submission of the exhibits and witness list.

Regarding Exhibit F, I have attached it for your review as requested.

As for the lateness of the exhibits and witness list, I understand and acknowledge your concerns. I regret any inconvenience caused and assure you that I am committed to meeting the court's deadlines in the future. The delay in supplemental production stemmed from the complexity of the task and the competing demands on my time as a sole individual managing both legal obligations and operational responsibilities.

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

Despite these challenges, I made every effort to comply with the Court's Order to the best of my ability. The compilation and organization of the exhibits and witness list required additional time and effort, given the scope of the case and my limited resources.

I understand your intention to file a Motion to Exclude these materials, and I am prepared to oppose it and request a conference with the judge if necessary. However, I hope we can resolve this matter without the need for such action.

I am committed to ensuring that all necessary information is provided in a timely and comprehensive manner. Please let me know if you require any additional information or clarification. I will gladly go into detail discussion with you. Thank you for your understanding and cooperation in this matter."

It was also my understanding, as worded in the court's instructions, that I could add documents prior to the hearing date if I am acting in good faith and can explain its purpose.

1. Regarding the Secretary's claim to the exhibits as altered:

- **Exhibit B:** The differences in dates and the addition of entries were due to the nature of the document's origin, which was created from the same online notes page. Any perceived alterations were unintentional and do not affect the substance of the information provided.
- **Exhibit C:** The format of this exhibit was changed to PDF for ease of sharing, but the data remains unchanged.
- **Exhibit U:** Similar to Exhibit C, this exhibit was provided in a different format but contains the same information.

2. Regarding the Secretary's claim to the exhibits as not provided in discovery or the Secretary's investigation:

**Exhibit D:** Secretary has the or has access to the information as shown in the Secretary's exhibits P-20, P-21, and P-22. Exhibit D is one step further than the Secretary's exhibits filtered by CFR standard and Mr. Baumann's employment timeframe.

**Exhibit E, G, and H:** Secretary has access to all email correspondence to or from MSHA personnel. I am told that certain communications from MSHA is confidential.

**Exhibit EE:** Secretary was given this chat result. It is in the Secretary's Exhibit P-12, page 11 of 23 and the Secretary has access to the MSHA personnel email correspondence discussed in the chat messages for further clarification.

**Exhibit J:** The Secretary may not have been given this document as I do not see it in any correspondence. This document may have been moved from the HR folder to the employee training folder sometime during all of these discovery requests from the secretary. It is an American Tripoli HR classification document differentiating a Supervisor position vs a Lead Worker position. Questions could arise from this document if there are questions regarding was Mr. Baumann a Supervisor or a Lead.

**Exhibit P:** Secretary was given this chat result. It is in the Secretary's Exhibit P-9. It is a reference to MSHAs guide to equipment guarding, for all in the maintenance group to read and be aware of. Mr. Baumann was part of this

**Mailing Address:**

---

group.

**Exhibit Q:** Secretary has been provided with all of our miner training documents. This is included in those files.

**Exhibit Z:** Secretary was given this information. It is in the Secretary's Exhibit P-39. Mr. Alex Snodgrass position offer is only supplemental information.

I hope this clarifies any confusion, and I apologize if I am the cause of any misunderstanding.

I respectfully request that the court allow the late submission to be admitted into evidence. Excluding this evidence would unfairly prejudice our ability to present our case and would not serve the interests of justice.

Thank you for your attention to this matter. I am available to provide any further clarification or information as needed.

MOSENECAMANUFACTURER LIMITED LIABILITY COMPANY  
d/b/a AMERICAN TRIPOLI  
Respondent

February 14, 2024

Judge William B. Moran  
FEDERAL MINE SAFETY AND HEALTH REVIEW COMMISSION  
OFFICE OF THE CHIEF ADMINISTRATIVE LAW JUDGE  
1331 PENNSYLVANIA AVE., N.W., SUITE 520N  
WASHINGTON, DC 20004-1710

MOTION TO EXCLUDE WITNESSES FROM THE ACTING SECRETARY'S WITNESS LIST, Docket No. CENT 2023-0251 Mine:  
MOSenecaMfr LLC dba American Tr Mine ID: 23-00504

Dear Judge Moran,

**INTRODUCTION**

Respondent, MOSENECAMANUFACTURER LIMITED LIABILITY COMPANY d/b/a AMERICAN TRIPOLI ("Respondent"), hereby submits this Motion to Exclude Witnesses from the Acting Secretary's Witness List.

I am writing to address the inclusion of certain witnesses on the Complainant's witness list in the upcoming hearing regarding the discrimination case involving Mr. Baumann's termination.

It is my firm belief that the witnesses listed by the Complainant should not be allowed to testify for the following reasons:

1. **Lack of Involvement in Decision Making:** None of the witnesses listed by the Complainant were directly involved in the decision-making process leading to Mr. Baumann's termination, except for Mr. Spears, Ms. Tidaback, and myself. Therefore, their testimony would not be relevant to the central issue of the case.
2. **Absence of Supervisory Relationship:** Additionally, none of the witnesses listed were supervisors to Mr. Baumann. As such, they did not oversee, mentor, or direct Mr. Baumann's decision-making process during his employment. Testimony from individuals without a supervisory relationship with Mr. Baumann would not contribute to a comprehensive understanding of the circumstances surrounding his termination.
3. **Scope of Testimony:** Miner witnesses may offer insights into the general conditions and practices at the mine during Mr. Baumann's employment but are not the basis of this case. However, if allowed, their testimony should be limited to matters directly related to Mr. Baumann's job performance, which would be opinionated, Mr. Baumann's protected activity, which they are probably not aware of Mr. Baumann performing or claim to be, and interactions with mine owners and managers, which again would be speculative and opinionated at best. Any testimony beyond these parameters would be extraneous and potentially prejudicial.

In light of these considerations, I respectfully request that the Court exclude the witnesses listed by the Complainant from testifying in the upcoming hearing. Doing so would ensure that the proceedings remain focused on the pertinent issues and promote a fair and efficient resolution of the case.

**BACKGROUND**

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

The Acting Secretary has submitted a witness list containing several named individuals, including Mr. Keith Markeson and Mr. Bryan Licklider, both MSHA Authorized Representatives from the Rolla Field Office. It is imperative to exclude these witnesses from the Acting Secretary's witness list due to specific concerns regarding their impartiality and actions related to the ongoing proceedings.

**BASIS FOR EXCLUSION**

**Mr. Keith Markeson:** Mr. Markeson has been directly involved in the MSHA inspections at our mine and has pending MSHA discrimination cases against him. These open discrimination claims against Mr. Markeson raise serious doubts about his ability to provide impartial testimony in this matter. His inclusion as a witness could unduly influence the proceedings and prejudice the Respondent's case.

**Mr. Bryan Licklider:** Mr. Licklider's inclusion as a witness is similarly problematic due to an incident where he allegedly threatened our employees during an inspection. This behavior undermines his credibility as a witness and raises concerns about the reliability of his testimony. Allowing Mr. Licklider or anyone associated with this incident to testify would create an unfair advantage for the Acting Secretary and could lead to an unjust outcome.

**LEGAL BASIS**

The exclusion of witnesses from the Acting Secretary's witness list is warranted under Rule 67 of the Federal Mine Safety and Health Review Commission's procedural rules. Rule 67 allows for the exclusion of witnesses upon a showing of good cause, which is clearly demonstrated in this case due to the specific concerns outlined above.

**CONCLUSION**

In light of the concerns raised regarding the impartiality and credibility of Mr. Keith Markeson and Mr. Bryan Licklider, the Respondent respectfully requests that the Commission exclude these witnesses from the Acting Secretary's witness list. Their inclusion would prejudice the fairness of the proceedings and undermine the integrity of the legal process.

**Respectfully submitted,**

**ORDER DIRECTING RESPONDENT TO SUPPLY THE COURT WITH A COPY OF  
ALL 36 EXHIBITS PROPOSED FOR USE AT THE HEARING**

In the process of reviewing the Acting Secretary's Motion to Exclude Respondent's Late Disclosed Witnesses and Exhibits, the Court has determined, and the Respondent is **DIRECTED**, to **promptly** provide the Court with a full, hard copy (i.e. paper copy), set of all 36 exhibits it has proposed to use at the hearing. *Any* discrepancy or variation from the 36 exhibits provided to the Secretary are to be identified in the cover sheet from the Respondent accompanying the exhibits. The complete set of these exhibits is to be mailed, without delay, using a delivery tracking system, such as USPS, UPS, or an equivalent service. The proposed exhibits are to be mailed to the Court's home office address:

Judge William B. Moran  
29 Skipjack Way  
Brewster, MA 02631

Mailing the proposed exhibits to the Court does not imply their admission into the record at the hearing, as considerations such as materiality, relevancy, and other considerations may impact their admission.

Employing email, the parties are directed to acknowledge receipt of this ORDER.

MOTION TO REMOVE COUNSEL DUE TO CONFLICT OF INTEREST, Docket No. CENT 2023-0251 Mine: MOSenecaMfr  
LLC dba American Tr Mine ID: 23-00504

Dear Judge Moran,

**INTRODUCTION**

Respondent, MOSENECAMANUFACTURER LIMITED LIABILITY COMPANY d/b/a AMERICAN TRIPOLI ("Respondent"), hereby submits this Motion to Remove Counsel Due to Conflict of Interest.

I, Russell Tidaback, representing the Respondent in the above-captioned matter, hereby file this Motion to Remove Counsel Due to Conflict of Interest. As a party to this proceeding, it is my duty to ensure that all aspects of the legal process are conducted fairly and impartially. However, I must preface this motion by stating that I am not a licensed attorney and lack formal legal education. Nonetheless, it is my sincere belief that the conflict of interest described herein poses a significant threat to the fairness and integrity of the proceedings.

**Background:** The Respondent, is currently involved in numerous separate legal matters before the Federal Mine Safety and Health Review Commission (FMSHRC). These matters include contesting citations and orders issued by the Mine Safety and Health Administration (MSHA) and defending against discrimination complaints filed by Mr. Rob Baumann and Mr. Jim Hoover under Section 105(c) of the Federal Mine Safety and Health Act of 1977.

**Conflict of Interest:** The conflict of interest arises from the fact that attorneys representing the Complainants, namely Laura O'Reilly, Elaine Smith, and Quinlan Moll, are also simultaneously collaborating with external attorneys hired to represent our company in contesting Mine Safety and Health Administration (MSHA) citations and orders. This dual role presents a clear conflict of interest, as these attorneys are simultaneously advocating for the Complainants in the discrimination cases while actively engaging in legal proceedings against our company in the contested citations and orders.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

**Legal Basis:** This situation presents a clear conflict of interest, as Laura O'Reilly, Elaine Smith, and Quinlan Moll's dual roles may compromise their ability to act impartially in both matters. The American Bar Association's Model Rules of Professional Conduct, Rule 1.7, prohibit attorneys from representing clients where there is a significant risk of material limitation to the attorney's duties owed to another client.

**Impact on Fairness:** Allowing Laura O'Reilly, Elaine Smith, and Quinlan Moll to continue representing the complainants in the 105(c) discrimination cases while simultaneously collaborating with external attorneys hired to represent our company in contesting MSHA citations and orders creates an inherent conflict that undermines the fairness of the proceedings. It creates a situation where the interests of the Complainants may be prioritized over the rights and interests of the Respondent, potentially leading to an unjust outcome in either or both legal matters.

**Request for Relief:** In light of the foregoing, I respectfully request that the Commission take appropriate action to address this conflict of interest by removing Laura O'Reilly, Elaine Smith, and Quinlan Moll from their roles as counsel for the Complainants in the discrimination cases to avoid any further conflict of interest. This action is necessary to ensure that the legal proceedings are conducted in a manner that upholds the principles of fairness, impartiality, and due process. Alternatively, the Court may consider appointing independent counsel to represent the complainants in these cases to ensure fairness and impartiality.

**Conclusion:** The integrity of the legal process depends on the avoidance of conflicts of interest that may compromise the rights of the parties involved. The situation described herein presents a clear conflict of interest that must be addressed to safeguard the fairness and integrity of the proceedings. I urge the Commission to grant this motion and take appropriate measures to remove counsel due to conflict of interest.

**Respectfully submitted,**

ACTING SECRETARY’S OPPOSITION TO MOTION TO EXCLUDE

Pursuant to Commission Rule § 2700.10(d), the Acting Secretary files this opposition to Respondent’s Motion to Exclude Witnesses from the Acting Secretary’s Witness List and states the following in support:

1) As an initial matter, Respondent’s Motion should be denied as a matter of course because Respondent failed to comply with Commission Rule § 2700.10(c), as the Acting Secretary was not consulted prior to Respondent filing its Motion. The first the Acting Secretary learned of Respondent’s Motion to Exclude was when it was emailed on February 14, 2023. This is yet again, another example, of Respondent refusing to comply with the Commission’s rules and deadlines.<sup>1</sup>

2) Notwithstanding Respondent’s failure to comply with the Commission’s rules, Respondent’s Motion should also be denied as there is no merit to Respondent’s motion and request that witnesses be excluded. Although unclear, Respondent appears to be alleging that the

---

<sup>1</sup> Respondent is choosing to represent itself through Russell Tidaback, rather than use the attorneys Respondent has hired for the other American Tripoli dockets before Judge Moran. In making that decision, Respondent is responsible for following the Court’s rules.

Acting Secretary's witnesses should be excluded from the hearing based on perceived relevancy concerns, except that Respondent appears to agree that the Acting Secretary could call on Respondent's owners and manager. It would be antithetical to the entire basis of a discrimination proceeding to only allow Respondent's management to testify as to the events at issue in the discrimination claim. While Respondent is entitled to put on its case, the Acting Secretary cannot and is not limited to only presenting adverse witnesses from the same owners and manager who have been identified as the individuals engaging in the alleged interference and discrimination.

3) Respondent cites no applicable authority or rules to support its Motion.<sup>2</sup> This failure to provide any supporting authority for its request is significant, as the Commission has stated that "the exclusion of critical evidence is an 'extreme' sanction, not normally to be imposed absent a showing of willful deception or 'flagrant disregard' of a court order by the proponent of the evidence." *Mark Gray v. North Fork Coal Corp.*, 35 FMSHRC 2349 (2013) (quoting *In re Paoli Railroad Yards PCB Litigation*, 35 F.3d 717, 791-92 (3rd Cir. 1994)). Further, "[r]elevant evidence, including hearsay evidence, that is not unduly repetitious or cumulative is admissible." 29 C.F.R. § 2700.63(a). Respondent has set forth no support that the Acting Secretary's inclusion of any witness in the Witness List is being done for the purpose of willful deception, nor that the Acting Secretary disregarded any court order. Further, Respondent has not set forth any information, other than the bare allegations of Respondent's owner, as to why any proposed witness does not have any relevant evidence.

4) It should be noted that the Acting Secretary has met all obligations with respect to its Witness List. The Acting Secretary complied with this Court's orders by producing its

---

<sup>2</sup> Respondent cites to "Rule 67", however, Commission Rule § 2700.67 refers to motions for summary decision, which Respondent has not filed in this case and which does not address the relief requested by Respondent. Further, to the extent Respondent is seeking to file a motion for summary decision, the deadline has long passed as such filings must be made at least 25 days prior to the hearing, and the motion does not comply with multiple

proposed Witness List with a brief statement of the expected testimony from each witness by the Court's deadline, January 30, 2024. *See* Exhibit A; Notice of Hearing.

5) Further, the Acting Secretary's Witness List designates relevant and important witnesses which the Acting Secretary may call at the hearing in this case, for the purpose of proving the claims alleged in the Acting Secretary's Complaint, which alleges that Respondent both discriminated against Mr. Baumann and interfered with Mr. Baumann's and other miners' rights. Each witness has unique relevant evidence that will provide support for these claims. There is simply no basis for refusing to allow these witnesses to testify because Respondent does not believe the witnesses are necessary for this purpose. The Witness List sets forth a brief summary of the anticipated testimony from each witness, which shows that each witness has relevant information to the claims at issue in this case.<sup>3</sup> Respondent's motion neither addresses nor refutes that the witnesses' testimony, on the topics set forth in the Witness List, is relevant. Respondent appears to merely deny the allegations in the Complaint and speculates that these witnesses may not have relevant testimony based on Respondent's version of the facts.

6) As an additional matter, Respondent makes false accusations against MSHA inspectors in its Motion which, again, do not provide a basis for excluding the witnesses. Respondent alleges that Inspector Markeson is the subject of "pending MSHA discrimination cases against him" and that Inspector Licklider threatened employees during an inspection. Not only are these accusations false, these accusations provide no basis to exclude the testimony of witnesses with relevant information and are improper attempts to impeach the character and

---

requirements for a motion for summary decision.

<sup>3</sup> The Acting Secretary does not believe she should, at this juncture, be required to provide any further support, other than the brief statement of expected testimony which is included in the Witness List itself, for why these witnesses are relevant. If the Court seeks further information about the evidence that will be presented through each witness, the Acting Secretary is prepared to make that showing. However, at this stage, the Acting Secretary argues that such a showing is not called for as the brief statement is sufficient and further disclosure would dive into protected attorney work product about the exact details of how the Acting Secretary will put on its case at trial.

credibility of witnesses before they have even testified. It appears that Respondent's litigation strategy is to make unsupported accusations against MSHA inspectors who have inspected the mine to MSHA, and this conduct cannot and should not provide any basis for excluding witnesses from a hearing.

7) Denying the Acting Secretary from presenting evidence through any of the timely disclosed witnesses would be extremely prejudicial to the Acting Secretary and Complainant as the Acting Secretary complied with this Court's rules, the witnesses have relevant, necessary evidence about the claims and allegations in this case, and Respondent has set forth no support or basis for their exclusion.

WHEREFORE, for the reasons stated herein, the Acting Secretary respectfully requests the Court deny Respondent's Motion to Exclude.

Respectfully submitted,

  - a. Miner witness may testify about the conditions and practices at the mine during Baumann's employment, Baumann's job performance, Baumann's protected activity, and communications with mine owners and managers. Miner witness may also testify about their employment and disciplinary and termination practices at the mine.
- 10) Miner witness no. 5, to be disclosed two days prior to trial pursuant to 29 C.F.R. § 2700.62
  - a. Miner witness may testify about the conditions and practices at the mine during Baumann's employment, Baumann's job performance, Baumann's protected activity, and communications with mine owners and managers. Miner witness may also testify about their employment and disciplinary and termination practices at the mine.
- 11) Miner witness no. 6, to be disclosed two days prior to trial pursuant to 29 C.F.R. § 2700.62
  - a. Miner witness may testify about the conditions and practices at the mine during Baumann's employment, Baumann's job performance, Baumann's protected activity, and communications with mine owners and managers. Miner witness

may also testify about their employment and disciplinary and termination practices at the mine.

12) Miner witness no. 7, to be disclosed two days prior to trial pursuant to 29 C.F.R. § 2700.62

- a. Miner witness may testify about the conditions and practices at the mine during Baumann's employment, Baumann's job performance, Baumann's protected activity, and communications with mine owners and managers. Miner witness may also testify about their employment and disciplinary and termination practices at the mine.

13) Miner witness no. 8 to be disclosed two days prior to trial pursuant to 29 C.F.R. § 2700.62

- a. Miner witness may testify about the conditions and practices at the mine during Baumann's employment, Baumann's job performance, Baumann's protected activity, and communications with mine owners and managers. Miner witness may also testify about their employment and disciplinary and termination practices at the mine.

14) Miner witness no. 9 to be disclosed two days prior to trial pursuant to 29 C.F.R. § 2700.62

- a. Miner witness may testify about the conditions and practices at the mine during Baumann's employment, Baumann's job performance, Baumann's protected activity, and communications with mine owners and managers. Miner witness may also testify about their employment and disciplinary and termination practices at the mine.

15) Miner witness no. 10 to be disclosed two days prior to trial pursuant to 29 C.F.R. § 2700.62

- a. Miner witness may testify about the conditions and practices at the mine during Baumann's employment, Baumann's job performance, Baumann's protected activity, and communications with mine owners and managers. Miner witness may also testify about their employment and disciplinary and termination practices at the mine.

16) John Spears, Respondent's Operations Manager

- a. Mr. Spears may testify regarding the conditions and practices at the mine, including communications with miners and owners during the relevant time period. Mr. Spears may also testify about Baumann's employment, termination and MSHA inspections.

17) Russell Tidaback

- a. Mr. Tidaback may testify about conditions and practices at the mine, including documents and messages sent by miners and management/owners/owners during the relevant time period. Mr. Tidaback may also testify about Baumann's employment, termination and MSHA inspections.

18) Jordan Tidaback

- a. Ms. Tidaback may testify about conditions and practices at the mine, including documents and messages sent by miners during the relevant time period. Ms. Tidaback may also testify about Baumann's employment, termination and MSHA inspections.

19) Any witness on Respondent's witness list

20) Any witness needed for rebuttal.

The Acting Secretary reserves the right to amend this witness list.

**ACTING SECRETARY’S OPPOSITION TO RESPONDENT’S MOTION  
TO REMOVE COUNSEL DUE TO CONFLICT OF INTEREST**

Pursuant to Commission Rule § 2700.10(d), the Acting Secretary of Labor, U.S. Department of Labor (the “Acting Secretary”) files this Opposition to Respondent’s Motion to Remove Counsel Due to Conflict of Interest. For the reasons set forth below, the Acting Secretary requests the Court deny Respondent’s motion in its entirety because it misrepresents the Acting Secretary’s Counsel’s role in these proceedings, and there is no conflict of interest. Further, the Acting Secretary seeks an Order to Show Cause why sanctions, including the Acting Secretary’s fees and costs associated with defending this frivolous motion, should not be imposed, pursuant to Federal Rule of Civil Procedure 11.<sup>1</sup>

**Background**

This matter was brought by the Acting Secretary pursuant to section 105(c) of the Federal Mine Safety and Health Act of 1977 (the “Mine Act”). The Acting Secretary alleges in her Complaint that Respondent, MOSenecaManufacturer LLC d/b/a American Tripoli (“American

---

<sup>1</sup> The Federal Rules of Civil Procedure are incorporated into the Commission Rules “as practicable”. See Commission Rule § 2700.1(b).

Tripoli”) discharged or otherwise discriminated against, miner, Robert Baumann (“Complainant”), in retaliation for engaging in protected activity and illegally interfered with the exercise of miners’ statutory rights, all in violation of section 105(c) of the Mine Act.<sup>2</sup> Respondent is being represented by Russell Tidaback, a non-attorney representative, who states he is the managing member of a limited liability company, Omphalos LLC, that in turn, owns MOSenecaManufacturer Limited Liability Company d/b/a American Tripoli. This matter is set for a four-day hearing to begin on February 27, 2024, in Joplin, MO.

In addition to this matter, there are approximately ten pending civil penalty and/or contest dockets and another 105(c) discrimination docket against Respondent. *See e.g.* CENT 2023-0196, CENT 2023-0235, CENT 2024-0131. For most of the civil penalty/contest dockets, Respondent is represented by counsel. For the discrimination dockets, Respondent has chosen to be represented pro-se by Mr. Tidaback. For the Acting Secretary, the same three attorneys are involved in all of the matters against Respondent.

On February 14, 2024, Respondent moved to “remove” the attorneys representing the Acting Secretary due to “conflicts of interest.” *See* Respondent’s Motion to Remove at p.1 (“Respondent’s Motion”). Respondent primarily complains that the attorneys representing the Acting Secretary in this matter are also representing the Acting Secretary in the civil penalty dockets involving Respondent. Respondent’s Motion at p.1. Respondent complains that the Acting Secretary’s attorneys are “collaborating with external attorneys hired to represent our company in contesting [MSHA] citations and orders.” *Id.* at p.1. Respondent characterizes this as a “dual role” in that the Acting Secretary’s attorneys are “simultaneously advocating for Complainants in the discrimination cases while actively engaging in legal proceedings against

---

<sup>2</sup> The Secretary’s complaint was filed on August 17, 2023.

our company in the contested citations and orders.” *Id.* Respondent states that this “dual role” “creates a situation where the interests of Complainants may be prioritized over the rights and interests of the Respondent.” *Id.* at p. 2.

Respondent’s motion should be denied in its entirety because it misrepresents the Acting Secretary’s counsel’s role in these proceedings, and there is no actual or perceived conflict of interest.

### **Argument**

As an initial matter, Respondent’s Motion should be denied as a matter of course because Respondent failed to comply with Commission Rule § 2700.10(c), as the Acting Secretary was not consulted prior to Respondent filing its Motion. Respondent has repeatedly filed motions in this matter without first consulting the Acting Secretary. The first the Acting Secretary learned of this Motion was when it was emailed on February 14, 2023. In fact, this repeated failure to follow the rules demonstrates Respondent’s continued disregard for the Court and these proceedings.

Notwithstanding Respondent’s failure to comply with the Commission’s rules, Respondent’s Motion should be denied because there is no conflict of interest in that the counsel identified in Respondent’s Motion represent, one client, the Acting Secretary in all currently pending matters against Respondent, and there is no “dual role” or risk of competing interests.

A conflict of interest arises between an attorney and her client when “the representation of one client will be directly adverse to another client” or when there is a “significant risk that the representation of one or more clients will be materially limited by the lawyer’s responsibilities to another client, a former client, or a third person, or by a personal interest of the lawyer.” *See* ABA Model Rules of Professional Conduct 1.7.

In discrimination and interference cases such as this one, the attorneys with the Office of the Solicitor only represents the Acting Secretary.<sup>3</sup> See Exhibit 1 Complaint of Discrimination and Interference involving Mr. Robert Baumann and Exhibit 2 Complaint of Discrimination involving Mr. Jim Hoover. In these matters, the complainant-miner is a separate party. See e.g. Commission Rule § 2700.4. While often the interests of the Acting Secretary and the complainant coincide, the rules contemplate that they may also diverge. See *Id.* While the Acting Secretary brings a discrimination and interference case “on behalf” of the complainant miner, there is no attorney-client relationship.<sup>4</sup> See e.g., *Bratton v. Bethlehem Steel Corp.*, 649 F.2d 658, 669 (9th Cir. 1980) (addressing a statute where the government is authorized to serve the public interest by seeking redress for individual complainants); *Eastern Assoc. Coal v. FMSHRC*, 813 F.2d 639, 644 (4th Cir. 1987); (discussing that if the Secretary concludes that the anti-discrimination provisions of the Act have been violated, she must prosecute a discrimination complaint, “suing on behalf of the complainant.”); *Hubb Corp.*, 20 FMSHRC 832 (1998) (Court allowed the Secretary to move forward with a case where the Complainant reached a settlement with the operator, so that the Secretary could pursue a penalty for the violation. “Any settlement between Hubb and Callahan could not affect the Secretary's right, as a party who had not entered into the settlement, to pursue the relief she sought, which in this case included a penalty assessment against Hubb.”).

---

<sup>3</sup> Respondent’s Motion alleges that counsel for the Acting Secretary “represents” the complainant in this matter, as well as a complainant another discrimination matter. This statement is factually incorrect. In each of these matters, the complainant-miners are proceeding pro se.

<sup>4</sup> Additionally, counsel for the Acting Secretary sent a letter to Complainant outlining the Acting Secretary’s role in this litigation and informing Complainant’s right to obtain his own attorney to represent him in this action.

Here, there is no conflict of interest because the attorneys in the Solicitor's Office represent the same client, the Acting Secretary, in both this discrimination and interference matter and in the civil penalty dockets against Respondent. The attorneys from the Solicitor's Office have no other client in which a conflict between them could arise. Counsel for the Acting Secretary acknowledges and does not dispute that they are actively engaged in cooperative and collaborative discussions with Respondent's counsel in several of the civil penalty dockets, but counsel for the Acting Secretary is not representing any interests, other than those of the Acting Secretary, in those matters.

Respondent argues that there is a conflict of interest because counsel for the Acting Secretary is advocating for the Complainant in this matter as well as prosecuting an action against Respondent in the civil penalty dockets. Respondent's Motion at p. 1. Respondent argues this means that the interests of the Complainant may be prioritized over those of the Respondent. Respondent's Motion at p. 2. In all actions referenced by Respondent, Counsel for the Acting Secretary is on the "same side of the 'v'" opposite of Respondent, and there is no conflict of interest. Counsel for the Acting Secretary is pursuing this action as well as the actions in the civil penalty dockets to enforce the provisions of the Mine Act *against* Respondent. Thus, there is no conflict of interest involving the Acting Secretary's Counsel, and Respondent's Motion must be denied.

### **The Court Should Issue an Order to Show Cause**

Federal Rule of Civil Procedure requires that motions be brought in good faith (not for any improper purpose), and with both a legal and factual basis. Fed. R. Civ. P. 11. Failing to do so, the court may issue an order to show cause why sanctions should not be imposed.<sup>5</sup> *Id.*

---

<sup>5</sup> By signing his name at the bottom of the Motion, Respondent has also certified, pursuant to Commission Rule § 2700.6(b)(2), that "he has read the document; that to the best of his knowledge, information, and belief formed after

Respondent's Motion was made in bad faith and is legally and factually frivolous. Respondent failed to follow Commission Rule § 2700.10(c), to confer prior to filing a motion. If he had, it is possible undersigned counsel could have explained to Respondent the relationship between the parties in this matter or any other matter involving Respondent. Further, Respondent is represented by attorneys in other matters before the Court, including the ones referenced in Respondent's Motion, and could have contacted those individuals to be sure he had both a legal and factual basis for bringing this motion. Respondent could have also performed research to determine whether he had a non-frivolous basis to bring this motion. Respondent took none of these steps and has wasted the Court's time. Further, this matter has been pending for six months and only now, seven business days before trial, does Respondent raise a concern of a "conflict of interest." This timing raises real concerns that this motion was brought to unnecessarily delay these proceedings or another improper purpose. For those reasons, the Acting Secretary requests an Order to Show Cause why sanctions, including the Acting Secretary's fees and costs associated with defending this frivolous motion, should not be imposed.

### **Conclusion**

For the foregoing reasons, Respondent's Motion to Remove Counsel Due to Conflict of Interest must be denied in its entirety because counsel for the Acting Secretary only represents the Acting Secretary in all matters involving Respondent and no conflict of interest, real or perceived, exists. Further, pursuant to Fed. R. Civ. P. 11, the Court should issue an Order to Show Cause why sanctions should not be imposed on Respondent for bringing this frivolous motion.

---

reasonable inquiry it is well grounded in fact and is warranted by existing law or a good faith argument for extension, modification, or reversal of existing law; and that it is not interposed for any improper purpose, such as to harass or to cause unnecessary delay or needless increase in the cost of litigation."

**COMPLAINT**

Pursuant to the provisions of Section 105(c) of the Federal Mine Safety and Health Act of 1977, 30 U.S.C. §801 *et seq.*, (the “Mine Act”), the Secretary of Labor (“the Secretary”) hereby files this complaint alleging violations of Section 105(c)(1) of the Mine Act, 30 U.S.C. § 815(c)(1).

1. The Commission has jurisdiction over this case under sections 105(c)(2) and 113 of the Mine Act, 30 U.S.C. §§ 815(c)(2), 823.

2. The Secretary, acting through the Mine Safety and Health Administration (“MSHA”), enforces and administers the Mine Act, 30 U.S.C. § 801 *et seq.*

3. Respondent American Tripoli is a fictitious name for a limited liability company, MOSenecaManufacturer Limited Liability Company, with a place of business at 222 Oneida Street, Seneca, Missouri 64865. Respondent is registered with the Mine Safety and Health Administrative (“MSHA”) as the operator of the MOSenecaMfr LLC dba American Tr mine. Respondent is a “person” as defined in section 3(f) of the Mine Act, 30 U.S.C. § 802(f).

Respondent owns, operates and controls the MOSenecaMfr LLC dba American Tr mine and is therefore an “operator” as defined in Section 3(d) of the Mine Act, 30 U.S.C. § 802(d).

4. The MOSenecaMfr LLC dba American Tr mine (“Mine”) is metal/nonmetal surface mine. The MOSenecaMfr LLC dba American Tr mine has, or at all times relevant to this Complaint had, products that enter commerce or operations or products that affect commerce. The MOSenecaMfr LLC dba American Tr mine is a “coal or other mine” as defined in section 3(h)(1) of the Mine Act, 30 U.S.C. § 802(h)(1).

5. At all relevant times, Robert Baumann (“Complainant”) was employed by Respondent as a production supervisor who worked at the Mine performing various tasks and was a “miner” as defined in Section 3(g) of the Mine Act, 30 U.S.C. § 802(g). Complainant Baumann also served as a representative of miners at the Mine from March 21, 2023 through April 17, 2023.

**A. Count I: Discrimination**

6. Complainant Baumann engaged in protected activity while employed by Respondent at the Mine, including the following:

- a. At times starting in or around June 2022 through April 17, 2023, Baumann made safety complaints and raised safety concerns to Respondent;
- b. In February and March 2023, Baumann walked around with MSHA inspectors during MSHA inspections of the Mine and discussed safety concerns and hazards with MSHA inspectors during inspections of the Mine;
- c. On March 21, 2023, Complainant Baumann was elected to be the representative of miners at the Mine and at times thereafter, participated in MSHA inspections of the Mine by walking around with MSHA inspectors in

his capacity as a representative of the miners; and

- d. On or around April 11-12, 2023, Complainant Baumann walked around with MSHA during an MSHA inspection. MSHA issued a withdrawal order, under Section 104(b) of the Act, during said inspection, and Complainant Baumann asked Respondent about miners' rights to compensation while the Mine was shut down and asserted miners' rights to compensation during the withdrawal order.

7. Respondent terminated Complainant Baumann on April 17, 2023, at least in part, because he engaged in activities protected by 30 U.S.C. § 815(c), including those set forth above. Respondent's actions against Complainant constituted illegal discrimination for engaging in protected activities, in violation of Section 105(c) of the Act.

8. On April 25, 2023, Complainant Baumann filed a discrimination complaint with MSHA alleging he was discriminated against pursuant to Section 105(c)(1) of the Act. A redacted copy of the Complaint is attached hereto as Exhibit A.

9. As a result of Respondent's Section 105(c) violation, Complainant suffered financial losses, including, but not limited to, lost wages.

10. The MSHA Office of Assessments has proposed a civil penalty against Respondent in the amount of \$15,000.00 for discriminating against Complainant Baumann in violation of Section 105(c) of the Act. The Secretary requests the Commission assess a civil penalty in that amount against Respondent for discriminating against Complainant Baumann in violation of Section 105(c) of the Act as alleged in Count I of this Complaint.

## **B. Count II: Interference**

11. Upon investigation into Complainant Baumann's discrimination complaint, the

Secretary determined that Respondent interfered with the rights of Complainant Baumann and at least one other miner in violation of Section 105(c)(1) of the Mine Act. The investigation revealed the following facts:

- a. On February 14, 2023, MSHA was conducting an inspection of the Mine.
- b. On February 14, 2023, Complainant Baumann and another miner received a message via Microsoft Teams from John Spears, Respondent's operations manager, telling the miner not to answer questions from the MSHA inspector, to not go in the mill, and the operations manager continued to state that he would be the person who would talk to the MSHA inspector.
- c. At other times during Complainant Baumann's employment, Respondent told miners not to speak to MSHA during MSHA inspections.

12. Respondent's statements to miners, described above, illegally interfered with the exercise of the miners' statutory rights in violation of Section 105(c)(1) of the Mine Act by intimidating miners against engaging in activities protected by the Mine Act, including miners' protected right to report safety issues to MSHA.

13. The MSHA Office of Assessments has proposed a civil penalty against Respondent in the amount of \$17,500.00 for interfering with miners' rights as alleged in Count II of this Complaint. The Secretary requests that the Commission assess a civil penalty in that amount against Respondent for interfering with miners' rights under Section 105(c) of the Act as alleged in Count II.

**WHEREFORE**, good cause having been shown, the Secretary and Complainant Baumann respectfully demand judgment against Respondent as follows:

- i. A finding that Respondent unlawfully discriminated against Complainant Baumann because of his exercise of protected activity in violation of Section 105(c)(1) of the

Federal Mine Safety and Health Act of 1977, 30 U.S.C. § 815., as alleged in Count I.

ii. Direct Respondent to pay a civil penalty for discriminating against Complainant Baumann in violation of Section 105(c), as described in Count I. In accordance with the criteria specified in Section 110(i) of the Mine Act, the secretary proposes a civil penalty of \$15,000.00 for the discrimination violation alleged in Count I.

iii. Grant declaratory judgment that Respondent unlawfully interfered with the exercise of protected activity of the miners at the Mine, in violation of Section 105(c) of the Federal Mine Safety and Health Act of 1977, 30 U.S.C. § 815;

iv. Direct Respondent to pay a civil penalty for interfering with miners' rights in violation of Section 105(c), as described in Count II. In accordance with the criteria specified in Section 110(i) of the Mine Act, the Secretary proposes a civil penalty of \$17,500.00 for the interference violation alleged in Count II.

v. Require Respondent to fully compensate Complainant Baumann for lost wages, benefits, and any other compensatory damages, plus interest, that resulted from Complainant's termination.

vi. Require that the personnel file of Complainant Baumann be purged of any reference to his termination and any disciplinary action taken against Complainant Baumann as the result of the discrimination by Respondent, and that if a prospective employer contacts Respondent regarding a job reference, Respondent shall not discuss, provide information about, or otherwise reference the expunged information.

vii. Order Respondent to cease-and-desist from:

- a. Discouraging miners from speaking to MSHA; and
- b. Interfering in any way with any right under the Mine Act guaranteed to miners;

viii. Direct Respondent to post a notice for a period of at least 60 days, at places where notices are regularly posted for employees to see, in a size and font that is readily visible to miners, at the Mine, stating that it will not violate Section 105(c) of the Mine Act. Such notice

shall inform miners of their rights under Section 105(c) of the Mine Act and state that Respondent will cease from discouraging miners from speaking to MSHA in any way and that Respondent will not interfere with any right under the Mine Act guaranteed to miners or discriminate against miners for engaging in any protected activity under Section 105(c) of the Mine Act;

ix. Direct Respondent to provide training to all of its employees and managers at the Mine about miners' protected rights under the Mine Act, especially with regard to miners' rights to raise safety concerns to Respondent and communicate confidentially with MSHA about safety and health matters, and also provide training to employees and managers that it is prohibited to discourage miners from engaging in protected activities or interfere with miners' rights to engage in protected activities or discriminate against miners for engaging in protected activity under the Mine Act. Respondent shall also provide MSHA an opportunity to review and make changes to the content of this training prior to giving the training to its employees and managers;

x. An order granting any and all additional relief to which the Secretary and/or Complainant Baumann may be entitled.

## Summary of Discriminatory Action

On 4/17/2023, I was terminated without cause. The letter that I was given stated that I was not doing satisfactory work even though I've never had any type of write up. I believe that I was terminated due to speaking with MSHA regarding various issues. I oversee employees and they were worried about their pay when the operation was shut down on 4/12/2023 and I questioned management about everyone's pay. They sent me a text on 4/16 to come in at 8:00 on 4/17/2023. Upon arriving for the meeting, John Spears handed me a termination letter stating that I had been let go effective immediately based on my job performance or lack thereof, when I had never had issues before.

I want to receive compensation from my last day of employment until I find a new position elsewhere. *plus 2 weeks pay*

ACTING SECRETARY OF LABOR,  
on behalf of JIMMY LEE HOOVER,

Petitioners,

v.

MOSENECAMANUFACTURER LIMITED  
LIABILITY COMPANY d/b/a AMERICAN  
TRIPOLI,

Respondent.

DISCRIMINATION PROCEEDING  
Docket No. \_\_\_\_\_

MSHA No. MADI-CD-2023-05

Mine: MOSenecaMfr LLC dba  
American Tr  
Mine ID: 23-00504

**COMPLAINT**

Pursuant to Section 105(c) of the Federal Mine Safety and Health Act of 1977 (“the Mine Act”), 30 U.S.C. § 801, *et seq.*, and 29 C.F.R. § 2700.45, the Acting Secretary of Labor (“the Acting Secretary”) hereby files this complaint alleging violations of Section 105(c)(1) of the Mine Act, 30 U.S.C. § 815(c)(1).<sup>1</sup>

1. The Federal Mine Safety and Health Review Commission has jurisdiction over this case under Sections 105(c)(2) and 113 of the Mine Act, 30 U.S.C. §§ 815(c)(2), 823.
2. The Acting Secretary, acting through the Mine Safety and Health Administration (“MSHA”), enforces and administers the Mine Act, 30 U.S.C. § 801 *et seq.*
3. Respondent American Tripoli is a fictitious name for a limited liability company, MOSenecaManufacturer Limited Liability Company, with a place of business at 222 Oneida Street, Seneca, Missouri 64865. Respondent is registered with MSHA as the operator of the MOSenecaMfr LLC dba American Tr mine. Respondent is a “person” as defined in section 3(f)

<sup>1</sup> A Temporary Reinstatement hearing was held in Docket No. CENT 2024-0024 on December 6, 2023 regarding the underlying discrimination complaint in this matter. Following the hearing, Administrative Law Judge David P. Simonton issued an Order on December 13, 2023 granting temporary reinstatement of Complainant Jimmy Lee Hoover.

of the Mine Act, 30 U.S.C. § 802(f). Respondent owns, operates, and controls the MOSenecaMfr LLC dba American Tr mine (the “Mine”) and is therefore an “operator” as defined in Section 3(d) of the Mine Act, 30 U.S.C. § 802(d).

4. The MOSenecaMfr LLC dba American Tr mine (“Mine”) is metal/nonmetal surface mine with a Mine ID of 23-00504. The Mine has, or at all times relevant to this Complaint had, products that enter commerce or operations or products that affect commerce. The Mine is a “coal or other mine” as defined in Section 3(h)(1) of the Mine Act, 30 U.S.C. § 802(h)(1).

5. At all relevant times, Jimmy Lee Hoover (“Complainant”) was employed by Respondent as a mill operator/mill associate who worked at the Mine performing various tasks and was a “miner” as defined in Section 3(g) of the Mine Act, 30 U.S.C. § 802(g).

6. Complainant engaged in protected activity while employed by Respondent at the Mine, including the following:

- a. On September 13, 2023, Complainant discovered that a circuit breaker supplying power to an airlock at the mill had tripped and the external reset button on the electrical box was not functioning, and therefore a manual reset of the circuit breaker was required. Because Complainant did not feel safe performing this action, which involved removing the front cover and reaching inside the energized breaker box containing a 220-volt alternating current, he notified Lead Production Supervisor Don Hale and Operations Manager John Spears of the unsafe working condition.
- b. When Complainant informed Spears that the breaker needed to be reset manually and that he did not feel safe removing the cover and reaching his

hand into the energized breaker box, Spears told Complainant that they needed “the product,” and that they needed to make Russel Tidaback, the owner of Respondent, “some money.” Despite Spears’ insistence that Complainant get the mill running, Complainant refused to reach into the breaker box.

7. Respondent terminated Complainant on September 14, 2023, at least in part, because he engaged in activities protected by 30 U.S.C. § 815(c), including those set forth above. Respondent’s actions against Complainant constituted illegal discrimination for engaging in protected activities, in violation of Section 105(c) of the Act.

8. On September 25, 2023, Complainant filed a discrimination complaint with MSHA, alleging he was discriminated against pursuant to Section 105(c) of the Act. A true and correct copy of Complainant’s discrimination complaint is attached hereto as *Exhibit A*.

9. As a result of Respondent’s violation of Section 105(c), Complainant suffered financial losses, including, but not limited to, lost wages.

10. The MSHA Office of Assessments has proposed a civil penalty against Respondent in the amount of \$17,500.00 for discriminating against Complainant in violation of Section 105(c) of the Act. The Acting Secretary requests the Commission assess a civil penalty in that amount against Respondent for discriminating against Complainant Baumann in violation of Section 105(c) of the Act as set forth in this Complaint.

**WHEREFORE**, good cause having been shown, the Acting Secretary and Complainant respectfully demand judgment against Respondent and request the following relief:

i. A finding that Respondent unlawfully discriminated against Complainant because of his exercise of protected activity in violation of Section 105(c)(1) of the Federal Mine Safety and Health Act of 1977, 30 U.S.C. § 815.

ii. Direct Respondent to pay a civil penalty for discriminating against Complainant in violation of Section 105(c). In accordance with the criteria specified in Section 110(i) of the Mine Act, the Acting Secretary proposes a civil penalty of \$17,500.00 for the discrimination violation.

iii. Require Respondent to fully compensate Complainant for lost wages, benefits, and any other compensatory damages, plus interest, that resulted from Complainant's termination.

iv. Order Respondent to immediately permanently reinstate Complainant to the position he held prior to his termination with full benefits and without any break in seniority or other loss of rights or privileges, including at the same rate of pay, the same benefits, the same number of hours worked, and with the same duties assigned to him prior to his termination.

v. Require that the personnel file of Complainant be purged of any reference to his termination and any disciplinary action taken against Complainant as the result of the discrimination by Respondent.

vi. Direct Respondent to post a notice for a period of at least 60 days, at places where notices are regularly posted for employees to see, in a size and font that is readily visible to miners, at the Mine, stating that it will not violate Section 105(c) of the Mine Act. Such notice shall inform miners of their rights under Section 105(c) of the Mine Act and state that Respondent will not discriminate against miners for engaging in any protected activity under Section 105(c) of the Mine Act.

vii. An order granting any and all additional relief to which the Acting Secretary and/or Complainant may be entitled.

Discrimination Complaint of name(s)

Jimmy Lee Hoover

Case Number

MADI-CD-2023-05

## Summary of Discriminatory Action

I was a miner at the time of my discharge at American Tripoli. On September 13, 2023 I went to start the Mill and noticed the Airlock to the Finished Goods Cyclone had tripped the circuit breaker. I went to the circuit breaker box to reset the external reset on the outside of the breakerbox. I tried it 3 or 4 times and it wouldn't reset. Since it was going to be where I was going to have to open an energized power box and expose the 230VAC power circuit and put my bare hands inside, I felt I should report this to John Spears, since I am not an electrician. John was upset and stated "we need the product. We need to make Russell some money. When I reported to work on September 14, 2023, John Spears approached me and said "Jim, Russell wants me to terminate you and your employment here is done"

I want my job back and be made whole in all aspects.

DISCRIMINATION PROCEEDING

Docket No. CENT 2023-0251-DM  
MSHA No. MADI-CD-2023-03

Mine: MOSenecaMfr LLC dba American Tr  
Mine ID: 23-00504

**ORDER ON ACTING SECRETARY'S MOTION TO EXCLUDE  
RESPONDENT'S LATE DISCLOSED WITNESSES AND EXHIBITS;**  
**and**  
**IMPORTANT INSTRUCTIONS ABOUT THE HEARING AND  
THE PROCEDURES TO BE EMPLOYED**

Before the Court is the Acting Secretary's Motion to Exclude Respondent's Late Disclosed Witnesses and Exhibits. (Sec Motion to Exclude). The Respondent filed a Response to the Motion. Upon consideration, the Secretary's Motion is DENIED.

While the Respondent was late in complying with the date set for the Prehearing Exchange, per the Court's Notice of Hearing, issued December 15, 2023, which Notice required that *proposed* exhibits be exchanged by January 30, 2024, broadly speaking, the Secretary received the Respondent's proposed exhibits as of February 8, 2024. Excluding weekends and a holiday, the Secretary will have been in possession of the proposed exhibits eleven (11) days before the start of the February 27, 2024, commencement of the hearing.

Taking into consideration that the Respondent's Response and that Respondent is a *pro se* litigant, the Court, in the spirit of fundamental fairness, denies the Secretary's Motion. That said, the Order is of limited effect. This is so because the Order only speaks to the exchange of *proposed exhibits*. For both sides, absent the parties' stipulations for admission of a given exhibit, each exhibit may be challenged as to the propriety of its inclusion into the record.

Materiality and relevance<sup>1</sup> of any exhibit are among the bases for objection to any exhibit. The lack of probative value and undue prejudice are other examples of evidence objections to evidence.<sup>2</sup>

Other grounds for objection may include, for example, that an untimely disclosure prevented a party from using an exhibit in a deposition and/or precluded adequate time to request further information about such document, but only if the Court determines that such shortcoming was to the significant, uncurable, harm of the party saddled with the late disclosure.

### **The procedure employed in discrimination actions under the Mine Act.**

The procedure in discrimination actions has been long established.<sup>3</sup> A complainant alleging discrimination under the Mine Act establishes a prima facie case of prohibited discrimination by presenting evidence sufficient to support a conclusion that the individual engaged in protected activity and that the adverse action complained of was motivated in any part by that activity. *Sec'y of Labor on behalf of Pasula v. Consolidation Coal Co.*, 2 FMSHRC 2786 (Oct. 1980). Record evidence of protected activity, employer knowledge of that activity, adverse action, and a close temporal proximity between protected activity and adverse action may establish a motivational nexus sufficient to make out a prima facie case of discrimination.

The operator may rebut the prima facie case by showing either that no protected activity occurred or that the adverse action was in no part motivated by protected activity. If the operator cannot rebut the prima facie case in this manner, it nevertheless may defend affirmatively by proving that it also was motivated by the miner's unprotected activity and would have taken the adverse action for the unprotected activity alone. Indicia of legitimate non-discriminatory reasons for an employer's adverse action may include evidence of the miner's unsatisfactory past work record, prior warnings to the miner, past discipline consistent with that meted out to the complainant, and personnel rules or practices forbidding the conduct in question. In reviewing affirmative defenses, the judge must determine whether they are credible and, if so, whether they would have motivated the particular operator as claimed. Pretext may be found where the asserted justification is weak, implausible, or out of line with the operator's normal business practices.

---

<sup>1</sup> Commission Procedural Rule 63(a) states that “[r]elevant evidence ... that is not unduly repetitious or cumulative is admissible.” 29 C.F.R. § 2700.63(a). Although the Commission has not defined “relevant evidence,” it is defined in Rule 401 of the Federal Rules of Evidence as evidence having any tendency to make the existence of any fact that is of consequence to the determination of the action more probable or less probable than it would be without the evidence.

<sup>2</sup> As noted in *Sec. v Jim Walter Resources*, 26 FMSHRC 830, Oct. 2004 (ALJ) “while all admitted evidence must be relevant, not all relevant evidence must be admitted. Relevant evidence may be excluded if it is only minimally relevant that is if the judge finds it is too tangential to the questions at issue.” *Id.* at 832.

<sup>3</sup> Among a plethora of Mine Act discrimination cases, the source for the paraphrased description of discrimination cases above was derived from the Commission decision in *Pero v Cyprus Plateau Mining*, 22 FMSHRC 1361 (Dec. 2000).

The Court will be guided by this procedure. Accordingly, the Secretary will present its case first. Following that, the Respondent will present its defense.

The parties are **DIRECTED to promptly acknowledge receipt of this Order** to the Court, its law clerk, Jose Natera and its Management Analyst, Wykesha Hodnett, all as listed in the email for this Order.

**SO ORDERED.**

**ORDER ON RESPONDENT'S MOTION TO REMOVE  
COUNSEL DUE TO ALLEGED CONFLICT OF INTEREST**

The Court, upon consideration of the Respondent's Motion to Remove Counsel due to alleged conflict of interest and the Acting Secretary's Opposition to the Motion, **DENIES** the Respondent's Motion. There is no demonstrated conflict of interest by the Secretary in this matter.

In addition to this ruling, the Secretary, in her Opposition, seeks an Order to Show Cause why sanctions should not be imposed, including the Acting Secretary's fees and costs associated with defending the motion, which the Secretary has characterized as frivolous. The Court declines to issue an Order to Show Cause. The Respondent, operating *pro se*, is not an attorney and, in any event, the Commission does not have the authority to impose monetary sanctions. *Marin v. Asarco*, 14 FMSHRC 1269, (Aug. 1992).

### TITLE 29, CODE OF FEDERAL REGULATIONS CHAPTER XXVII – FEDERAL MINE SAFETY AND HEALTH REVIEW COMMISSION PART 2700, PROCEDURAL RULES

#### § 2700.60 Subpoenas

(a) *Compulsory attendance of witnesses and production of documents.* The Commission and its Judges are authorized to issue subpoenas, on their own motion or on the oral or written application of a party, requiring the attendance of witnesses and the production of documents and physical evidence. A subpoena may be served by any person who is at least 18 years of age. A subpoena may also be served by registered or certified mail, return receipt requested, but, in such case, any risk of delivery is on the serving party. A copy of the subpoena bearing a certificate of service shall be filed with the Commission or the Judge.

(b) *Fees payable to witnesses.* Subpoenaed witnesses shall be paid the same fees and mileage as are paid in the district courts of the United States. The witness fees and mileage shall be paid by the party at whose request the witness appears, or by the Commission if a witness is subpoenaed on the motion of the Commission or a Judge. This paragraph does not apply to Government employees who are called as witnesses by the Government.

(c) *Motions to revoke or modify subpoenas.* Any person served with a subpoena may move within 5 [business] days of service or at the hearing, whichever is sooner, to revoke or modify the subpoena. The Commission or the Judge, as appropriate, shall revoke or modify the subpoena if it seeks information outside the proper scope of discovery as set forth in § 2700.56(b); or if it does not describe with sufficient particularity the evidence required to be produced; or if for any other reason it is found to be invalid or unreasonable. The Commission or the Judge shall set forth a concise statement of the grounds for such ruling.

[Any motion to revoke or modify a subpoena; must be in writing; must identify the case by name and docket number; must be signed by the filing person; and shall include the filing person's address and phone number.

The motion shall be filed by facsimile transmittal, and a copy shall be served by facsimile on the person upon whose application the subpoena was issued. Commission Procedural Rules 5, 6, 7, and 10.]

(d) *Availability of Transcript.* Persons compelled to submit evidence at a public proceeding are entitled to obtain, on payment of prescribed costs, a transcript of that part of the proceeding that sets forth their testimony or refers to their production of evidence.

(e) *Failure to Comply.* Upon the failure of any person to comply with an order to testify or with a subpoena issued by the Commission or the Judge, the Judge or the Commission's General Counsel, at the request of the Judge or at the direction of the Commission, may undertake to initiate proceedings in the appropriate district court of the United States for the enforcement of the subpoena.

#### TENDER OF FEES AND MILEAGE

Service of a subpoena directing a person's attendance at a hearing or deposition shall be accompanied by tendering to that person the fees or one day's attendance and the mileage allowed by law, except that, when a subpoena is issued at the request of the United States or an officer or agency thereof, fees and mileage need not be tendered. Fed.R.Civ.P.45(b).

#### PROTECTION OF PERSONS SUBJECT TO SUBPOENAS

A party or an attorney responsible for the issuance and service of a subpoena shall take reasonable steps to avoid imposing undue burden or expense on a person subject to that subpoena. A party or attorney who breaches this duty may be subject to an appropriate sanction. Fed.R.Civ.P.45(c)(1).

A copy of the subpoena bearing a certificate of service shall be filed with the Commission or the Judge.

(b) *Fees payable to witnesses.* Subpoenaed witnesses shall be paid the same fees and mileage as are paid in the district courts of the United States. The witness fees and mileage shall be paid by the party at whose request the witness appears, or by the Commission if a witness is subpoenaed on the motion of the Commission or a Judge. This paragraph does not apply to Government employees who are called as witnesses by the Government.

(c) *Motions to revoke or modify subpoenas.* Any person served with a subpoena may move within 5 [business] days of service or at the hearing, whichever is sooner, to revoke or modify the subpoena. The Commission or the Judge, as appropriate, shall revoke or modify the subpoena if it seeks information outside the proper scope of discovery as set forth in § 2700.56(b); or if it does not describe with sufficient particularity the evidence required to be produced; or if for any other reason it is found to be invalid or unreasonable. The Commission or the Judge shall set forth a concise statement of the grounds for such ruling.

[Any motion to revoke or modify a subpoena; must be in writing; must identify the case by name and docket number; must be signed by the filing person; and shall include the filing person's address and phone number.

The motion shall be filed by facsimile transmittal, and a copy shall be served by facsimile on the person upon whose application the subpoena was issued. Commission Procedural Rules 5, 6, 7, and 10.]

(d) *Availability of Transcript.* Persons compelled to submit evidence at a public proceeding are entitled to obtain, on payment of prescribed costs, a transcript of that part of the proceeding that sets forth their testimony or refers to their production of evidence.

(e) *Failure to Comply.* Upon the failure of any person to comply with an order to testify or with a subpoena issued by the Commission or the Judge, the Judge or the Commission's General Counsel, at the request of the Judge or at the direction of the Commission, may undertake to initiate proceedings in the appropriate district court of the United States for the enforcement of the subpoena.

#### **TENDER OF FEES AND MILEAGE**

Service of a subpoena directing a person's attendance at a hearing or deposition shall be accompanied by tendering to that person the fees or one day's attendance and the mileage allowed by law, except that, when a subpoena is issued at the request of the United States or an officer or agency thereof, fees and mileage need not be tendered. Fed.R.Civ.P.45(b).

#### **PROTECTION OF PERSONS SUBJECT TO SUBPOENAS**

A party or an attorney responsible for the issuance and service of a subpoena shall take reasonable steps to avoid imposing undue burden or expense on a person subject to that subpoena. A party or attorney who breaches this duty may be subject to an appropriate sanction. Fed.R.Civ.P.45(c)(1).

### TITLE 29, CODE OF FEDERAL REGULATIONS CHAPTER XXVII – FEDERAL MINE SAFETY AND HEALTH REVIEW COMMISSION PART 2700, PROCEDURAL RULES

#### § 2700.60 Subpoenas

(a) *Compulsory attendance of witnesses and production of documents.* The Commission and its Judges are authorized to issue subpoenas, on their own motion or on the oral or written application of a party, requiring the attendance of witnesses and the production of documents and physical evidence. A subpoena may be served by any person who is at least 18 years of age. A subpoena may also be served by registered or certified mail, return receipt requested, but, in such case, any risk of delivery is on the serving party. A copy of the subpoena bearing a certificate of service shall be filed with the Commission or the Judge.

(b) *Fees payable to witnesses.* Subpoenaed witnesses shall be paid the same fees and mileage as are paid in the district courts of the United States. The witness fees and mileage shall be paid by the party at whose request the witness appears, or by the Commission if a witness is subpoenaed on the motion of the Commission or a Judge. This paragraph does not apply to Government employees who are called as witnesses by the Government.

(c) *Motions to revoke or modify subpoenas.* Any person served with a subpoena may move within 5 [business] days of service or at the hearing, whichever is sooner, to revoke or modify the subpoena. The Commission or the Judge, as appropriate, shall revoke or modify the subpoena if it seeks information outside the proper scope of discovery as set forth in § 2700.56(b); or if it does not describe with sufficient particularity the evidence required to be produced; or if for any other reason it is found to be invalid or unreasonable. The Commission or the Judge shall set forth a concise statement of the grounds for such ruling.

[Any motion to revoke or modify a subpoena, must be in writing; must identify the case by name and docket number; must be signed by the filing person; and shall include the filing person's address and phone number.]

The motion shall be filed by facsimile transmittal, and a copy shall be served by facsimile on the person upon whose application the subpoena was issued. Commission Procedural Rules 5, 6, 7, and 10.]

(d) *Availability of Transcript.* Persons compelled to submit evidence at a public proceeding are entitled to obtain, on payment of prescribed costs, a transcript of that part of the proceeding that sets forth their testimony or refers to their production of evidence.

(e) *Failure to Comply.* Upon the failure of any person to comply with an order to testify or with a subpoena issued by the Commission or the Judge, the Judge or the Commission's General Counsel, at the request of the Judge or at the direction of the Commission, may undertake to initiate proceedings in the appropriate district court of the United States for the enforcement of the subpoena.

#### TENDER OF FEES AND MILEAGE

Service of a subpoena directing a person's attendance at a hearing or deposition shall be accompanied by tendering to that person the fees or one day's attendance and the mileage allowed by law, except that, when a subpoena is issued at the request of the United States or an officer or agency thereof, fees and mileage need not be tendered. Fed.R.Civ.P.45(b).

#### PROTECTION OF PERSONS SUBJECT TO SUBPOENAS

A party or an attorney responsible for the issuance and service of a subpoena shall take reasonable steps to avoid imposing undue burden or expense on a person subject to that subpoena. A party or attorney who breaches this duty may be subject to an appropriate sanction. Fed.R.Civ.P.45(c)(1).

## P R O C E E D I N G S

JUDGE MORAN: Good morning. My name is Judge William B. Moran. We're here this morning in Joplin, Missouri at the Jasper County Courts Building on Pearl Avenue, and this is the case which is captioned as Julie A. Su, acting Secretary of Labor, United States Department of Labor, and Robert Baumann, Complainants. The motion -- it's hard to say, actually Moseneca, I think I should say, Manufacturer, Limited Liability Company, doing business as American Tripoli. And the -- this is a discrimination and interference proceeding, separate -- separate aspects of the complaint. And the mine is the Moseneca Manufacturing, LLC, doing business as American TR. I'm going to ask -- interrupt myself for a second and ask, Mr. Tidaback, is it actually listed as American TR?

MR. TIDABACK: I think the system abbreviated it.

JUDGE MORAN: Okay. But if I was speaking to you outside of this courtroom on an

1 unrelated matter, you would say it's American  
2 Tripoli?

3 MR. TIDABACK: Yes.

4 JUDGE MORAN: Is it registered as  
5 American Tripoli in the state?

6 MR. TIDABACK: Yes, sir. It's doing  
7 business as American Tripoli.

8 JUDGE MORAN: I have identified the  
9 docket and the name of the case, and now I want  
10 the parties to identify themselves. We will begin  
11 with the Secretary of Labor.

12 MS. O'REILLY: My name is Laura  
13 O'Reilly. I'm an attorney for the acting  
14 secretary.

15 MS. SMITH: Elaine Smith for the acting  
16 Secretary of Labor.

17 MR. MOLL: Quinlan Moll for the acting  
18 Secretary of Labor.

19 COURT REPORTER: I'm sorry. What was  
20 your name, sir?

21 MR. MOLL: Quinlan Moll for the acting  
22 Secretary of Labor.

1 MR. BAUMANN: Robert Baumann.

2 MR. DILLINGHAM: Michael Dillingham,  
3 special investigator, Mine and Safety Health  
4 Administration.

5 JUDGE MORAN: Okay.

6 COURT REPORTER: My video froze.

7 THE VIDEOGRAPHER: Sorry about that.

8 MR. TIDABACK: Russell Tidaback.

9 MS. TIDABACK: Jordan Tidaback.

10 JUDGE MORAN: All right. Again, I said  
11 it when I came in, but it's nice to meet all of  
12 you. Now, this is for the court reporter. Can  
13 you hear me okay?

14 COURT REPORTER: Yes, I can. My screen  
15 did freeze just a minute ago.

16 JUDGE MORAN: I'm sorry. Repeat that.

17 COURT REPORTER: My screen did freeze up  
18 just a minute ago, just before Mr. Tidaback  
19 introduced himself.

20 JUDGE MORAN: But if your screen locked  
21 up, were you still able to hear everything?

22 COURT REPORTER: No. It quit

1 everything.

2 JUDGE MORAN: Okay. Well, just to speed  
3 things up, but not at the expense of losing  
4 accuracy, for the Secretary of Labor, for the  
5 acting secretary we have the following three  
6 attorneys; Ms. O'Reilly, Ms. Smith and Mr. Mull.  
7 And then for the Respondent we have Mr. Tidaback  
8 and his daughter, Jordan Tidaback. Is that right?

9 Okay. So this is very important, Madam  
10 Court Reporter, if at anytime you need to -- if  
11 there's a break, either your screen freezes or you  
12 just can't hear a witness, I need you to employ  
13 your assertive side and speak up right away. We  
14 don't want to have any gaps. All right?

15 COURT REPORTER: Yes, sir.

16 JUDGE MORAN: And also, at times an  
17 attorney or someone for the Respondent may talk  
18 over a witness and then it becomes in any hearing  
19 very frustrating for a court reporter to  
20 accurately report what's being said, so you need  
21 to speak up then as well. I will try and control  
22 the witnesses if that problem occurs, but

1 independent of what I may do, it's critical that  
2 you speak up. Do you understand?

3 COURT REPORTER: Yes, sir.

4 JUDGE MORAN: Okay. Thank you for your  
5 help. So I'll be checking with you, also,  
6 frequently during the morning and all day,  
7 actually, to make sure that everything is going  
8 smoothly on your end, Ms. Blackerby. I hope  
9 that's correct.

10 COURT REPORTER: Close enough.

11 JUDGE MORAN: All right. Close enough.  
12 Okay. I'll try and do better. All right. Now,  
13 I'm going to -- I'm going to now make my own  
14 opening statement about -- about this case. And  
15 in my order, which I alluded to before we went on  
16 the record, and by the way, let me just state as  
17 things come to mind, the parties have agreed to  
18 this arrangement that we have here this morning.  
19 They understand that we have a remote court  
20 reporter, and that we have a videographer who is  
21 recording with a sound system independent of the  
22 video recording the witness' testimony, and the

1 parties said that that's acceptable to them. Is  
2 that correct, both sides? Secretary?

3 MS. O'REILLY: Yes, Your Honor.

4 JUDGE MORAN: Mr. Tidaback?

5 MR. TIDABACK: Yes, sir.

6 JUDGE MORAN: Okay. Thank you. Let me  
7 now -- I have these notes jotted down, so they may  
8 not be in perfect logical order, but I'm going to  
9 emphasize this in one of my orders and it's  
10 important that I emphasize it here today.

11 In my order denying the secretary's  
12 motion to exclude late disclosed witnesses and  
13 exhibits, I'm repeating this because I think it's  
14 important, that order only permitted the exhibits  
15 to be exchanged late as they were and I noted the  
16 number of days that were remaining before the  
17 hearing, but that's one juncture. Were any  
18 exhibits that either side wants to admit? The  
19 other side may oppose the admission. As of right  
20 now we have, other than the official record, which  
21 I would take judicial notice, such as the  
22 Complaint and the Answer, all those documents that

1 are on something called ECMS, those I can take  
2 official notice of -- I said judicial notice, but  
3 official notice of those documents. But anything  
4 else, such as the very large notebooks that the  
5 Secretary and the Respondent, Mr. Tidaback, has  
6 provided, none of those are in the record right  
7 now.

8           So the parties can stipulate to certain  
9 exhibits or as they are brought up by one side or  
10 the other, the other side can -- first of all, we  
11 have to have a proffer about what the exhibit is  
12 about, unless it's self-explanatory, and then if  
13 there's an objection, I will hear that and rule  
14 upon the admission or the disallowance of the  
15 given exhibit.

16           Now, my practice has been, so there's no  
17 confusion in the record, anytime an exhibit is not  
18 admitted by me for a reason which I will  
19 articulate if I decide not to admit it, I hand  
20 that exhibit back to the side that was trying to  
21 offer it into evidence. That way I don't go back  
22 home to Washington, D.C. and confuse the admission

1 if there's an appeal of my decision with exhibits  
2 that they shouldn't be seen and were not made part  
3 of the record. Does everybody understand that?

4 Okay. So now let me just, for the point  
5 of emphasis, I don't want to oversimplify it, but  
6 yet the discrimination proceedings are rather  
7 basic. It's not a complicated thing to  
8 comprehend, to understand, and so I'm just going  
9 to, for the benefit of both sides, note what's in  
10 my order that I just referenced a minute ago, and  
11 that is that a complainant alleging discrimination  
12 under the Mine Act establishes a prima facie case  
13 of prohibited discrimination by presenting  
14 evidence sufficient to support a conclusion that  
15 the individual, A, that's -- I'm adding the A, the  
16 individual engaged in protected activity and that  
17 the adverse action was motivated in any part by  
18 that activity.

19 And let me just stop. I'm going to do  
20 this frequently to the point of probably being  
21 annoying. Court Reporter, are you hearing me  
22 fine?

1 COURT REPORTER: Yes, sir.

2 JUDGE MORAN: And you'll speak up if  
3 there's a problem. Right?

4 COURT REPORTER: Yes, sir.

5 JUDGE MORAN: So I establish what the  
6 Secretary has to establish, and then on the part  
7 of the operator, the operator may rebut this prima  
8 facie case by showing either that there was no  
9 protected activity that occurred or that the  
10 adverse action was not motivated in any part by  
11 that protected activity.

12 But then there are a number of  
13 commission cases, it's been well established, that  
14 the operator has a second time at bat. That's my  
15 phrase. Okay. And the second time at bat is that  
16 the operator can prove that it was motivated to  
17 take the adverse action against the miner, the  
18 complainant, discriminate -- alleged to be  
19 discriminated against. They would have taken that  
20 adverse action for the unprotected activity alone.

21 So that's a second way that -- and this  
22 does not tilt the table or suggest how the outcome

1 in any way, shape or form, but it's a second  
2 opportunity for an operator to say, wait a minute  
3 now. We understand for the sake of argument --  
4 that for the sake of argument only that a  
5 protected activity has been established and that  
6 there was adverse action, but we would have fired  
7 this person anyway for reasons A, B, C. All  
8 right? Everybody understand that?

9 Now, I said I was going to have -- I'm  
10 basically wrapping up here with my comments, and  
11 then I'll give the parties an opportunity to make  
12 an opening statement. And before I do that,  
13 though, I want the witnesses, other than those  
14 that are appropriately in the courtroom to be  
15 excused into the witness room. Okay. So remind  
16 me if I let that -- you may not hear the opening  
17 statements, either. Understand? So in a moment,  
18 or now, whatever is convenient, you can excuse  
19 yourself. What I'm going to say is not  
20 particularly relevant for you to hear, anyway.

21 MS. O'REILLY: Judge, I would just like  
22 to clarify Ms. Tidaback's role. She hasn't

1 entered her appearance in this case, so I don't  
2 understand her role.

3 JUDGE MORAN: We'll still on the record,  
4 right, Court Reporter?

5 COURT REPORTER: Yes.

6 JUDGE MORAN: Okay. Yes. And so  
7 Attorney O'Reilly asked about the person sitting  
8 next to Mr. Tidaback, and she has identified  
9 herself as the daughter of Mr. Tidaback. Right?  
10 And in these proceedings each side is entitled to  
11 have an assistant, if you will, and so Mr.  
12 Tidaback has, I assume, designated his daughter  
13 for that role.

14 MR. TIDABACK: She's actually part owner  
15 as well, sir.

16 JUDGE MORAN: Well, okay. Well, very  
17 good.

18 MS. O'REILLY: Thank you.

19 JUDGE MORAN: Okay. So now, the  
20 witnesses having been excused, except for those  
21 that are permitted to be in the hearing room, I  
22 want to note that in looking over the Complaint,

1 and I'm speaking now to -- to the first part, the  
2 discrimination, it's my understanding, and I'll  
3 need an affirmation from Attorney O'Reilly about  
4 this, that first of all, there was no temporary  
5 reinstatement sought in this matter?

6 MS. O'REILLY: Correct.

7 JUDGE MORAN: But then it seems to me,  
8 looking at this, that apart from the Secretary,  
9 the penalty the Secretary would like to receive if  
10 they establish a case and I affirm this, that this  
11 relief alleged to be due to Mr. Baumann. However,  
12 am I correct that Mr. Baumann is not seeking  
13 reinstatement with American Tripoli? It's not in  
14 the Complaint.

15 MS. O'REILLY: Right. At this time he  
16 is not seeking reinstatement, no.

17 JUDGE MORAN: At this time and actually  
18 for all purposes in this hearing?

19 MS. O'REILLY: Correct, Judge. At the  
20 time of filing the Complaint he was not seeking  
21 reinstatement.

22 JUDGE MORAN: Okay. And so that creates

1 a bit of a problem for me because I didn't  
2 highlight it, but one second, please. Well,  
3 there's some reference and you can correct me if  
4 I'm wrong. I am paraphrasing from memory. All  
5 right. That Mr. Baumann wants to have, if he  
6 prevails, compensation until he's able to find a  
7 job. Well, I can't have an open-ended order that  
8 says -- just let me finish -- that says if he  
9 wins, there's no assumption he's going to prevail  
10 or the Secretary. I'm not going to keep repeating  
11 that. I hope you can trust when I say it, I mean  
12 it. Okay? But I can't have an open ended order  
13 because I know that, I assume it's not only Mr.  
14 Baumann, no Complainant would then sit on his or  
15 her hands and say two years down the road, oh, I'm  
16 still looking, so I need to be compensated.

17 So there has to be a cap on that. I'll  
18 have to think through what would be logical if I  
19 find for the Complainant and the Secretary of  
20 Labor, but it's -- other aspects of it don't  
21 create a problem, such as I'm reading from Page 5  
22 of the Complaint. If a prospective employer

1 contacts the Respondent regarding a job reference,  
2 the Respondent shall not discuss, provide  
3 information about or otherwise reference expunged  
4 information from -- on his personnel record, which  
5 I would order to be expunged, and you know, that's  
6 standard if a Complainant prevails.

7 If you just -- and that's the line you  
8 have to be careful about not crossing. That  
9 Respondent can't say, well, we can't talk about  
10 this, but we let this guy go. You just have to  
11 say the person was hired on this date and his  
12 employment terminated on this date and say no  
13 more. All right? So that's important.

14 Now, Attorney O'Reilly, you want to say  
15 something about this? Go ahead.

16 MS. O'REILLY: Yes. I just wanted to  
17 clarify the back wages. Mr. Baumann already has a  
18 job and had a job at the time we filled the  
19 Complaint which is why can he didn't seek  
20 reinstatement.

21 JUDGE MORAN: So that's -- and I see  
22 that Mr. Baumann is nodding in agreement. And so

1 -- but I assume that if he were to prevail, part  
2 of his damages would be lost wages from the time  
3 he was discharged by the Respondent up until the  
4 time he received -- had obtained new employment?

5 MS. O'REILLY: Up until he got the job  
6 he has now.

7 JUDGE MORAN: Okay. And it would be  
8 other potential damages. It's not just wages.  
9 There are other aspects of employment for which he  
10 would be entitled to compensation if I find in his  
11 favor?

12 MS. O'REILLY: Yes. We plan to go  
13 through all that today.

14 JUDGE MORAN: Okay. All right. I think  
15 that does it in terms of my opening remarks. I  
16 want to make sure that Mr. Tidaback has an  
17 opportunity. Do you have anything, not saying you  
18 need to, but do you have any comments or anything  
19 you want to say at this point, sir?

20 MR. TIDABACK: No.

21 JUDGE MORAN: Then one more thing.  
22 Typically in these proceedings the parties,

1     although I suspect maybe not, I have my crystal  
2     ball out, stipulate to certain things. Are there  
3     stipulations between the parties on this?

4             MS. O'REILLY: I believe we had an  
5     agreement as to these documents, they haven't been  
6     signed yet, I think there is some dispute that  
7     Respondent wanted us to add more provisions which  
8     we wouldn't agree to, but I believe that we're all  
9     in agreement as to these but I can let Respondent  
10    speak to that.

11            JUDGE MORAN: So you're telling me that  
12    you do have -- you're holding in your hand some  
13    stipulations?

14            MS. O'REILLY: Yes.

15            JUDGE MORAN: Are they numbered?

16            MS. O'REILLY: Yes.

17            JUDGE MORAN: And Mr. Tidaback,  
18    understanding what Attorney O'Reilly just said  
19    that --

20            MR. TIDABACK: We are not in agreement  
21    with those yet.

22            JUDGE MORAN: You're not in agreement to

1 any of the stipulations?

2 MR. TIDABACK: Not yet, Your Honor.

3 JUDGE MORAN: All that simply means is  
4 that if there are no stipulations and it's  
5 important to the Secretary's case to establishing  
6 the prima facie case, they'll have to do that  
7 either through official records or through witness  
8 testimony or otherwise, through other exhibits.  
9 But I distinguish official records such as the  
10 Complaint, the Answer, any filings that were  
11 brought, so just the numerous motions on both  
12 sides. All right? So that's it on your part.

13 Mr. Tidaback, anything else you want to  
14 add?

15 MR. TIDABACK: No, sir. Just not enough  
16 time to really understand that and understand the  
17 logic of even asking the Secretary why, trying to  
18 get some response and collaboration, and it was a  
19 take it or leave it response so I can't just  
20 accept it. I just don't know.

21 JUDGE MORAN: And there's no adverse  
22 inference on my part that you object to

1 stipulations. A stipulation by definition means  
2 something that the parties have agreed to, and we  
3 don't have an agreement, so that's fine. I don't  
4 want you to think that I'm thinking to myself, oh,  
5 he didn't agree to the stipulations. There's no  
6 obligation to do so.

7 MR. TIDABACK: Thank you, sir.

8 JUDGE MORAN: It streamlines things when  
9 parties can.

10 MR. TIDABACK: Yes, sir.

11 JUDGE MORAN: All right. So now, I  
12 believe I've covered everything, but first I'm  
13 going to give the Secretary, I know this is taking  
14 a little while for the preliminaries, but soon  
15 we'll get on to the testimony. So Attorney  
16 O'Reilly, I want to address to you, you're first  
17 chair?

18 MS. O'REILLY: Yes, Your Honor.

19 JUDGE MORAN: Okay. Are there any  
20 housekeeping matters that I need to address before  
21 we begin with testimony? And then we'll have  
22 opening statements.

1 MS. O'REILLY: Given that Respondent is  
2 pro se, we just want to understand how he will be  
3 treated in this trial. We may be questioning him.  
4 Should we save our direct after he testifies and  
5 just how that is going to be? I didn't know if he  
6 was going to be put under oath at the beginning or  
7 just when he does his testimony.

8 JUDGE MORAN: Well, I'm not sure what  
9 you mean by having him under testimony -- under  
10 oath at the beginning. Any time he's on the  
11 witness stand he will then be sworn in.

12 MS. O'REILLY: Okay.

13 JUDGE MORAN: Now the timing of that is  
14 up to you. I would guess, I'm not telling you how  
15 to do your case, you would call Mr. Tidaback as  
16 one of your witnesses in the case in chief.

17 MS. O'REILLY: Okay.

18 JUDGE MORAN: And so he would be  
19 designated as an adverse witness understandably,  
20 and that has a consequence in the sense that  
21 leading questions, that is a question which has  
22 the answer suggested. Leading questions are

1 permitted and often for other witnesses, too, but  
2 they're permitted if someone is designated as an  
3 adverse witness. All right? And that would be  
4 true for the Respondent side, if you're calling  
5 some witness that the Secretary had testified, or  
6 didn't testify, but is here today and you call  
7 that witness, that witness would also be  
8 designated as an adverse witness for the obvious  
9 reason of their position. Anything else in terms  
10 of housekeeping?

11 MS. O'REILLY: No, Your Honor.

12 JUDGE MORAN: Okay. Well, I think we're  
13 going along well.

14 Court reporter, are you getting all of  
15 this?

16 COURT REPORTER: Yes, sir.

17 JUDGE MORAN: Okay. Including what I  
18 just said. Right?

19 COURT REPORTER: Yes, sir.

20 JUDGE MORAN: All right. So now, what  
21 we're going to do is have opening statements, and  
22 then we'll take a five-minute break and then we'll

1 begin with the first witness to be called by the  
2 Secretary. Is that acceptable to everyone?

3 MS. O'REILLY: Yes, Your Honor.

4 JUDGE MORAN: Okay. And off the record  
5 for a second. We're off the record in terms of  
6 the court reporter.

7 (Recess)

8 JUDGE MORAN: Court reporter, you ready?

9 COURT REPORTER: Yes, sir.

10 JUDGE MORAN: The Government may make  
11 its opening statement now.

12 MS. O'REILLY: May it please the Court,  
13 this case is about redressing and poor miners  
14 rights which Respondent Moseneca Manufacturer,  
15 Limited Liability Company, which does business as  
16 American Tripoli, has violated for the minors  
17 working at Seneca, Missouri mine through ongoing  
18 and systematic violations of Section of 105(b) of  
19 the Mine Act.

20 This case began when Robert Baumann,  
21 former production supervisor at American Tripoli,  
22 filed a discrimination complaint with MSHA after

1 he was terminated on Monday morning, April 17th,  
2 2023. After he was terminated -- just days -- he  
3 was terminated just days after participating in an  
4 MSHA inspection which resulted in the mine being  
5 shut down with a 104(b) withdrawal order. The  
6 104(b) withdrawal order was issued to Respondent  
7 for exposing miners to dangerous silica dust, a  
8 safety issue which Mr. Baumann had repeatedly  
9 raised to management, to no avail.

10 After the issuance of the 104(b)  
11 withdrawal order and just days before his Monday  
12 morning termination, Mr. Baumann also asserted  
13 miners rights under the Mine Act to be paid during  
14 the 104(b) withdrawal order to American Tripoli  
15 management. You will hear and see evidence today  
16 that on April 14th, 2023, less than an hour after  
17 discussing Mr. Baumann's request for pay during  
18 the withdrawal order, Mr. Tidaback, owner of  
19 American Tripoli, and Mr. Spears, American  
20 Tripoli's operations manager, were discussing  
21 terminating Mr. Baumann.

22 In Microsoft Teams messages, which you

1 will see in this hearing, Mr. Tidaback stated to  
2 Mr. Spears, expect an MSHA complaint when Rob is  
3 let go. The writing is on the wall. Then after  
4 the termination took place and shortly after  
5 Respondent received notice of Mr. Baumann's 105(b)  
6 discrimination complaint from MSHA, Respondent was  
7 already devising a plan as to how to make sure it  
8 looked like they fired Mr. Baumann for reasons  
9 other than Mr. Baumann engaging in protected  
10 activity.

11           You will see Microsoft Teams messages  
12 sent by Mr. Tidaback the day after receiving Mr.  
13 Baumann's discrimination complaint telling another  
14 miner I needed justification since Rob's complaint  
15 to MSHA about being let go just needs you to put  
16 the cherry on the cake. That's all.

17           The evidence will show that American  
18 Tripoli exhibited animus towards Mr. Baumann's  
19 protected activity. In the two months leading up  
20 to Mr. Baumann's termination he was very outspoken  
21 about safety issues at the mine. Mr. Baumann  
22 participated in multiple MSHA inspections, and

1 spoke to MSHA about safety concerns.

2 Further, just three weeks before his  
3 termination, Mr. Baumann was elected as a miners  
4 representative. You will hear testimony from  
5 miners who worked with Mr. Baumann at various  
6 times who will state that Respondent's management  
7 and owners were hostile to Baumann's attempts to  
8 fix safety issues at the mine, including an  
9 overall hostility and disregard at the mine for  
10 miner safety and MSHA compliance, and that  
11 American Tripoli was hostile to the fact that Mr.  
12 Baumann or any miner would speak to MSHA.

13 In the last two months of Mr. Baumann's  
14 employment MSHA conducted three inspections of the  
15 mine, each lasting multiple days during which Mr.  
16 Baumann walked around with MSHA inspectors. You  
17 will hear from MSHA inspectors who have inspected  
18 the mine, and they will report that this American  
19 Tripoli mine stands out among other mines they  
20 have been to in that the mine repeatedly  
21 disregarded safety and MSHA standards. These MSHA  
22 inspectors will also testify about Mr. Baumann's

1 protected activity, Respondent's knowledge of  
2 that, and the blatant disregard for safety culture  
3 displayed by management at American Tripoli.

4           You may hear a host of alleged reasons  
5 from Mr. Tidaback for why Mr. Baumann was  
6 terminated, ranging from allegedly failing to  
7 provide professional development counseling to  
8 miners to allegedly failing to use Microsoft Teams  
9 well. What you won't see, though, is any support  
10 for those allegations. Respondent will argue that  
11 Mr. Baumann was terminated for not meeting Mr.  
12 Tidaback's production demands, but again, the  
13 evidence will show a different story. In fact,  
14 the evidence will show that Tidaback's production  
15 demands that Mr. Baumann allegedly failed to meet  
16 were aspirational and very rarely met at the mine.  
17 Mr. Spears has testified that these demands were  
18 only met 20 to 30 times in the 18 months he's been  
19 employed at American Tripoli, regardless of who  
20 held the title of production supervisor.

21           Testimony will reveal that production  
22 was often behind and demands were not met because

1 they were unrealistic for the equipment at  
2 American Tripoli. Mr. Tidaback and Mr. Spears  
3 both admit that maintenance issues were the  
4 problem with production, not Mr. Baumann who was  
5 not a maintenance employee and who was never once  
6 disciplined during his employment for not meeting  
7 these alleged production demands. Maintenance  
8 could not keep up with the issues the machinery  
9 was having, causing production to come to a halt,  
10 and management refused to spend the necessary  
11 money on maintenance to get machinery in safe  
12 working order. Moreover, production records kept  
13 by American Tripoli entirely contradict  
14 Respondent's claim that Baumann was terminated due  
15 to his increasingly poor production.

16           Throughout this hearing we will show  
17 that Mr. Baumann, a miner at American Tripoli,  
18 engaged in protected activity by participating in  
19 MSHA inspections, raising safety complaints to  
20 management, becoming a miners representative, and  
21 asserting miners rights to pay during a 104(b)  
22 withdrawal order. We will show that Mr. Baumann

1 suffered an adverse action by being terminated,  
2 and we will show that that adverse action was  
3 motivated by protected activity, including  
4 evidence that Mr. Baumann became a miners  
5 representative just three weeks before his  
6 termination and engaged in protected activity just  
7 days, two of which were weekends days, before his  
8 termination.

9           Respondent knew about American -- knew  
10 about Mr. Baumann's protected activity, and  
11 American Tripoli was hostile to Mr. Baumann's  
12 protected activity. Further, the evidence will  
13 show that Mr. Baumann was treated differently from  
14 other miners as the company did not follow its own  
15 disciplinary policy with Mr. Baumann since he had  
16 no prior discipline, much less written discipline.

17           In investigating Mr. Baumann's  
18 discrimination claim, the second also found  
19 evidence that American Tripoli was interfering  
20 with miners rights, including Mr. Baumann's  
21 rights. Miner witnesses will testify that  
22 American Tripoli owner, Mr. Russell Tidaback,

1 repeatedly told miners not to speak to MSHA,  
2 including intimidating miners from contacting MSHA  
3 by telling miners that any statements made to MSHA  
4 could be used against them in the court of law.

5 Often these statements were made when miners were  
6 walking around with MSHA inspectors or in response  
7 to complaints having been made to MSHA.

8 Teams messages produced to the Secretary  
9 in discovery will show these interfering  
10 statements. For example, Mr. Tidaback told  
11 miners, including Mr. Baumann, on March 31st,  
12 2023, I will stress with you any MSHA inspector is  
13 not your friend. Anything you say to or in their  
14 presence can and will be used against you in a  
15 court of law. Hopefully this will never be  
16 needed, but just be well aware. Further, in Teams  
17 messages, Mr. Tidaback tells the miners everyone  
18 needs to stop calling MSHA.

19 You may hear from Respondent a myriad of  
20 excuses for why these statements were made, but  
21 the document speaks for themselves, and the  
22 testimony of the miners and MSHA personnel who are

1 aware of these statements will be overwhelming and  
2 unequivocally point to clear interference with  
3 miners rights to speak to MSHA.

4           Throughout this time Respondent American  
5 Tripoli through its owner, Mr. Tidaback, acted as  
6 though they were above the law and did not have to  
7 comply with the Mine Act and MSHA standards. To  
8 enforce this practice of disregard for safety and  
9 the law Respondent created a culture of fear in  
10 the mine. Miners were afraid for their safety.  
11 Miners were afraid of speaking to MSHA and miners  
12 were afraid of getting fired if they spoke up  
13 about safety or spoke to MSHA. Miners who failed  
14 to participate in this culture or fear were pushed  
15 out, just like Mr. Baumann.

16           At the conclusion of this trial, Your  
17 Honor, the Secretary requests that the Court make  
18 a finding that Respondent discriminated against  
19 Robert Baumann, and that Respondent interfered  
20 with miners rights in violation of Section 105(c)  
21 the Mine Act. We will request the Court order  
22 Respondent to pay back wages to Mr. Baumann in the

1 amount of \$9,920, which accounts for the wages he  
2 would have received from American Tripoli for the  
3 time he was out of work as a result of his  
4 wrongful termination. We will also ask that you  
5 award interest on these back wages in accordance  
6 with commission case law, and award any other  
7 amounts to fairly compensate Mr. Baumann for his  
8 termination and the losses caused by his  
9 termination.

10 We will also ask that the Court award a  
11 civil penalty for the discrimination violations  
12 alleged in the Complaint and a separate civil  
13 penalty for the interference violation alleged in  
14 that Complaint. MSHA assessed a civil penalty of  
15 15,000 for the discrimination claim and 17,500 for  
16 the interference claim based on information  
17 gathered during the Secretary's investigation.  
18 These penalties were issued by MSHA prior to  
19 receiving the multiple Teams messages and evidence  
20 produced throughout discovery showing these  
21 violations are blatant, systematic and part of the  
22 culture at American Tripoli.

1                   We ask the Court to impose an  
2   appropriate civil penalty to punish the mine  
3   operator for its unlawful actions, defer future  
4   illegal conduct and put an end to the culture of  
5   fear that management has cultivated at American  
6   Tripoli.

7                   JUDGE MORAN: Thank you. Before you go,  
8   though, I just want to say, first of all, Court  
9   Reporter, did you get all of that?

10                  COURT REPORTER: Yes, sir.

11                  JUDGE MORAN: Was the attorney for the  
12   government speaking at too rapid a pace for you to  
13   comfortably be able to record this? Can you deal  
14   with witnesses that speak that quickly?

15                  COURT REPORTER: Yes, I can.

16                  JUDGE MORAN: Okay. And you'll speak up  
17   if you have a problem. Right?

18                  COURT REPORTER: Yes, sir.

19                  JUDGE MORAN: This is to help you out,  
20   Madam Court Reporter. When Attorney O'Reilly  
21   talked about a 104 order, I believe she was saying  
22   a 104(b) as in boy order. Did you know that? It

1 wasn't d, because there are 104(d) orders. Did  
2 you write that as b?

3 COURT REPORTER: Yes, I did.

4 JUDGE MORAN: Okay. Good. Just for  
5 clarification.

6 MS. O'REILLY: Thank you.

7 JUDGE MORAN: All right. So before I  
8 hear from Mr. Tidaback, I want to -- something you  
9 may already know. Opening statements are not  
10 evidence. They are statements of the parties'  
11 positions only. Okay. And it's meant to try and  
12 educate the court to have a waterfront view before  
13 the testimony begins. Before we get in the weeds,  
14 so to speak. So that's the purpose of that. And  
15 so I say that to just reassure you that these are  
16 assertions in an opening statement distinguished  
17 from evidence of the record in the record. All  
18 right. You understand that, sir?

19 MR. TIDABACK: Yes, sir. Thank you for  
20 that clarification, though.

21 JUDGE MORAN: Okay. All right. You're  
22 fine. Come on up here, and you're going to make

1 your opening statement. And for the record, it  
2 means nothing in terms of anything adverse that  
3 you are not an attorney, Mr. Tidaback. Right?

4 MR. TIDABACK: Not even close.

5 JUDGE MORAN: Okay. I didn't know that  
6 were gradations between being close or being an  
7 attorney.

8 MR. TIDABACK: The team we have, I give  
9 them credit because I couldn't do their job.  
10 They're very professional and well educated and  
11 well experienced, and I felt beat up the whole  
12 time. Accolades on the work that they do.

13 JUDGE MORAN: So now you can proceed  
14 with your opening statement.

15 MR. TIDABACK: Yes, Your Honor. Your  
16 Honor, we sit here today amongst the allegations,  
17 not -- that have not only been -- challenged the  
18 integrity of American Tripoli, but also have  
19 overshadowed our longstanding commitment to  
20 safety, compliance and the wellbeing of our  
21 employees. This company has in existence in its  
22 location since 1869. We purchased the company in

1 2021.

2           This case centered on Robert Baumann  
3 unfolds under two primary counts of discrimination  
4 as -- and interference as outlined. I do want to  
5 clarify, Mr. Baumann was not a supervisor. He was  
6 a shift lead, and there is a discrimination --  
7 there is a difference and we will discuss that  
8 later on as well. But it is crucial to understand  
9 that our decisions, including the regrettable  
10 termination of Mr. Baumann's employment were made  
11 with heavy hearts and in no way influenced by Mr.  
12 Baumann's engagement in protected activities or  
13 his interactions with MSHA inspectors, but with a  
14 structured and policy driven approach to  
15 employment decisions.

16           With a focus on operational efficiency  
17 and safety, our approach to this case and the  
18 detailed explanations provided for Mr. Baumann's  
19 termination indicate an effort to refute the  
20 allegations of discrimination or interference by  
21 demonstrating that the actions were taken in line  
22 with the established employments and operational

1 policies that are in place. Our actions have  
2 always been and will continue to be guided by the  
3 principles of fairness, safety and regulatory  
4 compliance.

5           Regarding allegations of discrimination,  
6 we assert that our employment decision was based  
7 solely on performance, conduct and operational  
8 needs. Any safety concerns raised by Mr. Baumann  
9 or any other employee have always been and always  
10 will be taken seriously as they formed the  
11 cornerstone of our operational ethos. As for the  
12 count of interference, it is our position that any  
13 communications or directives from management were  
14 intended solely to ensure the integrity of the  
15 inspection process and to maintain operational  
16 safety and efficiency. At no point did American  
17 Tripoli seek to obstruct or interfere with the  
18 rights of Mr. Baumann or any miner to communicate  
19 freely with MSHA inspectors. That's always been  
20 the case and we'll discuss that later.

21           Okay. So we trust that as this case  
22 unfolds the evidence will clearly demonstrate our

1     unwaivering commitment to our employees' rights,  
2     the safety and the law. Our intent is and has  
3     always been to foster a working environment that  
4     not only complies with MSHA regulations, but  
5     exceeds them ensuring -- ensuring the safety and  
6     the prosperity of all of our employees. Thank  
7     you, Your Honor.

8                 JUDGE MORAN: Thank you, and before you  
9     sit down, this will come in through testimony  
10    because as I mentioned this is not testimony, but  
11    for the purposes of the opening statement you  
12    acquired this mine in what year, sir?

13                MR. TIDABACK: June of 2021.

14                JUDGE MORAN: And the mine is located in  
15    where?

16                MR. TIDABACK: The pit itself is located  
17    in Ottawa County -- or Ottawa County, Oklahoma.  
18    The manufacturing plant is in Newton County,  
19    Missouri.

20                JUDGE MORAN: Is that close by to  
21    Joplin?

22                MR. TIDABACK: Forty minutes southeast

1 of here.

2 JUDGE MORAN: All right. Thank you.

3 MR. TIDABACK: Yes, sir.

4 JUDGE MORAN: Thank you for your opening  
5 statement, and let me just comment on one aspect  
6 of it, in that I don't think I mentioned this  
7 before, but to prevail in the case the secretary's  
8 burden is to demonstrate the elements by a  
9 preponderance of the evidence. That's a standard  
10 that's applied in these proceedings, and while I  
11 could be more articulate about it, it essentially  
12 means that the propositions involved in the case  
13 are shown to be more likely than not.

14 Okay. All right. Court reporter, how  
15 are you doing?

16 COURT REPORTER: I'm doing fine.

17 JUDGE MORAN: That's great. Thank you  
18 for your help. You're a critical cog here. I'm  
19 just a cog as well, but you're a critical one.  
20 All right. So now we're going to go off the  
21 record, take a ten-minute break, and then we'll  
22 begin. And before we do that, the first witness

1 the secretary will call will be?

2 MS. O'REILLY: Mr. Baumann.

3 JUDGE MORAN: Okay. And one other  
4 thing. Mr. Baumann, the time for a witness to be  
5 prepared for testimony has passed. There's  
6 nothing wrong with preparing witnesses, but there  
7 is something wrong with coaching witnesses. Okay.  
8 And I'm not suggesting that happened here.

9 Witnesses have to be prepared. However, you may  
10 not have communications now until this proceeding  
11 is over with any attorney for the government.  
12 Okay? Or anyone else you shouldn't be speaking  
13 with, but the point is, and I've seen this happen,  
14 unfortunately, sometimes during a break one  
15 counsel or the other on one side is seen  
16 conversing with a witness. That is not allowed.  
17 You understand, sir? Okay. Now let's take our  
18 ten-minute break. It's 9:48.

19 (Recess.)

20 JUDGE MORAN: Madam Court Reporter, can  
21 you hear me?

22 COURT REPORTER: Yes.

1 JUDGE MORAN: I want to, if I didn't say  
2 it before, if I did, forgive me, anytime you need  
3 to take a break, this is not just a matter of you  
4 can't hear someone, which is critical. If you  
5 need a personal break, you need to tell us. I  
6 don't want anyone to be uncomfortable, anyone, in  
7 this -- in this hearing. All right? So you'll  
8 speak up if you need a break?

9 COURT REPORTER: Yes, I will.

10 JUDGE MORAN: Okay, good. All right.  
11 I'm going to swear in Mr. Baumann now, and I can't  
12 get as close to you as I would like to swear you  
13 in, but please rise, sir. Raise your right hand.

14 First of all, state your name.

15 MR. BAUMANN: Robert Baumann.

16 Whereupon,

17 ROBERT BAUMANN  
18 was called as a witness and, having been first  
19 duly sworn, was examined and testified as follows:

20 JUDGE MORAN: Have a seat, and even  
21 though you just stated your name I want you to  
22 state it again and spell it for the record. Spell

1 your name.

2 THE WITNESS: Robert, R-o-b-e-r-t,  
3 Baumann, B-a-u-m-a-n-n.

4 JUDGE MORAN: Okay. Now, before we have  
5 questions I have to ask you, you heard Mr.  
6 Tidaback say that he's observed you speaking with  
7 the special investigator for the Secretary during  
8 our break.

9 THE WITNESS: Yes, Your Honor.

10 JUDGE MORAN: Okay. And were you  
11 speaking with the special investigator during the  
12 break?

13 THE WITNESS: Yes, Your Honor.

14 JUDGE MORAN: And what was the nature of  
15 your communication with the special investigator,  
16 sir? Reminding you that you're under oath.

17 THE WITNESS: Actually, we were talking  
18 about our health and having to pee a lot.

19 JUDGE MORAN: Okay. That's part of  
20 life.

21 THE WITNESS: Yeah.

22 JUDGE MORAN: More particularly, though,

1 my question is did you have any, and I underscore  
2 and emphasize the word any, communication about  
3 facts that you're to testify today or about the  
4 nature of the case with the special investigator?

5 THE WITNESS: No, Your Honor.

6 JUDGE MORAN: None?

7 THE WITNESS: None.

8 JUDGE MORAN: Okay. All right. That  
9 concludes my questions about that, but I do want  
10 to remind everybody in this room about what I said  
11 about talking with witnesses. It's forbidden.  
12 All right. So now we're ready to begin with  
13 testimony. Before we do begin, why don't you help  
14 me out, Attorney O'Reilly, and tell me which  
15 exhibit book if I need it in front of me right  
16 now, which one I should have ready.

17 MS. O'REILLY: The first one will be  
18 Volume 2, and if you'll notice they're all  
19 sequentially. So Volume 1 has Exhibits 1 through  
20 24 and Volume 2 that is Exhibits 26 through 43,  
21 and then 43 and 44 are from the Volume 3.

22 JUDGE MORAN: So for now 1 and 2?

1 MS. O'REILLY: Yeah, I'll be between  
2 Volume 2 and 1 for this testimony. I don't think  
3 I'll get into 3 at all.

4 JUDGE MORAN: All right. I'm ready.  
5 Okay. Begin, Attorney O'Reilly.

6 DIRECT EXAMINATION

7 BY MS. O'REILLY:

8 Q Good morning, Mr. Baumann.

9 A Good morning.

10 Q This case arises out of a complaint of  
11 discrimination that you filed with MSHA. Correct?

12 A Yes.

13 Q And what does that complaint allege?

14 A That I was terminated wrongly for  
15 participating in MSHA inspections and trying to  
16 stand up for the miners rights.

17 Q And who do you think had discriminated  
18 against you when you filed the complaint?

19 A Russell Tidaback, Jordan Tidaback and  
20 Jim Spears.

21 Q Could you explain what Mr. Tidaback's  
22 role is with the company?

1           A       The owner of the company.

2           Q       And what was Ms. Tidaback's role with  
3 the company?

4           A       Owner.

5           Q       And what was Mr. Spears' role with the  
6 company?

7           A       Operations manager.

8           Q       And was he your supervisor?

9           A       Yes.

10          Q       And you were employed by American  
11 Tripoli from June 16th, 2022 to April 17th, 2023.  
12 Is that correct?

13          A       Yes, ma'am.

14          Q       And you were terminated on April 17th,  
15 2020?

16          A       Yes.

17          Q       Explain to me what happened on the day  
18 you were terminated?

19          A       I was -- I received a text message the  
20 Sunday night before from John Spears and to be at  
21 the office at 8:00 a.m. that Monday, and I went  
22 into the office at 8:00 a.m. that Monday, waited

1 for Mr. Spears to get there, and then went into  
2 his office and he handed me a letter and he said,  
3 "Sorry. Russell told me to let you go."

4 Q And did you have any further  
5 conversation with Mr. Spears?

6 A All I said was, well, you know, I said,  
7 "I'm going to have to do what I'm going to have to  
8 do."

9 Q And is that all you said to Mr. Spears  
10 that day? Did he say anything else to you that  
11 day?

12 A He said I understand.

13 Q And did you speak to anyone else at  
14 American Tripoli that day?

15 A Jesse Moles.

16 Q And who is he?

17 A He was the safety person at the time.

18 Q And what did you speak to him about?

19 A I just told him that they had let me go,  
20 and you know, and that was about it. I mean, I  
21 told him he let me go and that I was going to go  
22 grab my stuff, and if he needed anything, that he

1     could still contact me because I was still the  
2     miners representative.

3             Q     Okay. And what was his response?

4             A     He kind of seen it. You know, he wasn't  
5     really surprised. He was surprised, but not  
6     really surprised.

7             Q     About your termination?

8             A     Yes, ma'am.

9             Q     And did you receive documentation  
10    regarding your termination?

11            A     The termination letter.

12            Q     Okay. Could you please turn to Exhibit  
13    P38. That would be in Volume 2 of the exhibit  
14    notebooks.

15                   JUDGE MORAN: That's 38?

16                   MS. O'REILLY: Yes.

17                   JUDGE MORAN: Okay. I'm doing that for  
18    the benefit of the court reporter. Are you there,  
19    Mr. Baumann?

20                   THE WITNESS: Yes.

21                   BY MS. O'REILLY:

22            Q     Do you know what this document is?

1           A       This is the termination letter that was  
2 handed to me.

3           Q       This is the termination letter you  
4 received on April 17th, 2023?

5           A       Yes.

6           Q       And is this a fair and accurate copy of  
7 the termination letter you received when you were  
8 terminated from American Tripoli?

9           A       Yes.

10           MS. O'REILLY: I move to admit Exhibit  
11 P38 into evidence.

12           JUDGE MORAN: Any objection?

13           MR. TIDABACK: None.

14           JUDGE MORAN: P38 is admitted.

15                   (Complainant's Exhibit P-38 was  
16 marked for identification and  
17 received in evidence.)

18           BY MS. O'REILLY:

19           Q       What was the stated reason for your  
20 termination in the letter?

21           A       In the letter it says poor performance,  
22 lack of leadership skills and for failure to

1 follow procedures and guidance given to your  
2 supervisor -- by your supervisor.

3 Q Were you told anything other than what  
4 is in this letter for why you were terminated?

5 A No.

6 Q Had you been having any performance  
7 issues at the time you were terminated?

8 A No.

9 Q Had you been disciplined or told that  
10 your job performance was lacking prior to your  
11 termination?

12 A No.

13 Q Was there an MSHA inspection in the  
14 weeks before your termination?

15 A Yes.

16 Q What happened during that inspection?

17 A They had received the results from the  
18 air test that was a couple weeks before, so the  
19 inspector came and to issue the -- let me get my  
20 timeline right there. Just one second.

21 JUDGE MORAN: Sure.

22 THE WITNESS: The air test came back,

1    okay, so then they issued some citations for  
2    American Tripoli to get PAPR systems and to  
3    provide -- to work on the air clean system in the  
4    building. And then the following, that Wednesday  
5    prior to me getting fired, the MSHA inspector  
6    showed back up. No PAPRs had been purchased.  
7    There was no attempts to work on any of the air  
8    cleaning systems, so he ordered the 104(b), the  
9    shutdown until --

10           JUDGE MORAN: Let me just -- I don't  
11    want to interrupt your flow, okay, but I hope you  
12    have notes you can pick up. But I'd like you just  
13    to ask Mr. Baumann just a few preliminary  
14    questions to educate me about the nature of this  
15    operation where he was employed. I'd like to know  
16    a paragraph or two from his words as to what's  
17    going on at this operation because I've never seen  
18    it.

19           MS. O'REILLY: Okay.

20           BY MS. O'REILLY:

21           Q     So let's start with, what was your job  
22    title at American Tripoli?

1           A       Production supervisor when I got hired  
2       is what I was told, and that's what was in the  
3       computer system.

4           Q       And that was your title the whole time  
5       you were there?

6           A       Yes.

7           Q       And did you work in the mill at American  
8       Tripoli?

9           A       Yes.

10          Q       And what type of work goes on in the  
11       mill?

12          A       That's where they -- I'll go through the  
13       -- the whole system. They mine the rock out at  
14       the pit. They bring it into Seneca to the  
15       processing plant. They dump it in a pit. It goes  
16       through a crusher. Goes up into big holding  
17       tanks, and then when we were producing or trying  
18       to produce, it would come out of the tanks into a  
19       fluid bed dryer to dry the product and then into a  
20       tube mill, which actually crushed it up into a  
21       fine like powder. And then it went through a --  
22       basically an air system type thing that classified

1    what grain or whatever, you know, how fine the  
2    powder was, whether we were running once ground or  
3    double ground, and then it went through  
4    classifiers, shakers, up through a big system into  
5    the finished goods hopper to go into a bag.

6               JUDGE MORAN:   And you said this is rock.  
7    Does it matter what type of rock?

8               THE WITNESS:   Tripoli is type of rock.  
9    I believe it's a -- because that was all under  
10   water, it's like dead, decayed.  It's really  
11   light.

12              JUDGE MORAN:   But it is a form of rock,  
13   but you don't know exactly -- you can't describe  
14   the type of rock.  I'm just curious about it.

15              THE WITNESS:   No.  No, Your Honor.  I  
16   did a lot of research and stuff into it, you know,  
17   but it's -- basically it's sediment.  You know,  
18   there's layers of it in the earth.

19              JUDGE MORAN:   Okay, and then --

20              THE WITNESS:   Real porous.  Sorry.

21              JUDGE MORAN:   No, you go ahead.

22              THE WITNESS:   It's real porous.

1 JUDGE MORAN: Coarse?

2 THE WITNESS: Porous.

3 JUDGE MORAN: Porous. Thank you.

4 Because you did work there for a period of time,  
5 do you have -- can you speak generally about the  
6 number of employees at -- at the location where  
7 you were working and how many employees? I'm not  
8 asking you as a personnel matter, but just is it  
9 two or three or a dozen or fifty? I don't know.

10 THE WITNESS: When I got hired, Your  
11 Honor, I believe there was -- there was  
12 approximately 20, 21 people there, I'm thinking.

13 JUDGE MORAN: That's an estimate?

14 THE WITNESS: Yeah.

15 JUDGE MORAN: It just gives me a sense  
16 of the operation. Do you have an objection, Mr.  
17 Tidaback?

18 MR. TIDABACK: I do.

19 JUDGE MORAN: Go ahead.

20 MR. TIDABACK: It's the accuracy behind  
21 it because the numbers were less than 12 at any  
22 given time that Mr. Baumann was actually there.

1 JUDGE MORAN: Okay. So you'll be able  
2 to handle those kind of questions when it comes  
3 time for cross examination, and he did say it was  
4 an estimate. I understand you take issue with it,  
5 but that's a question that you can -- when it's  
6 your turn to question the witness.

7 MR. TIDABACK: Okay. Yes, sir. I just  
8 -- I understand Mr. Baumann being a shift lead and  
9 not a supervisor or manager of people have the  
10 insight to the business. I could just give you  
11 that more information more accurately. I don't  
12 want to waste Mr. Baumann's time.

13 JUDGE MORAN: But you're not in your  
14 role as a witness right now, okay. And so you'll  
15 be sworn in if you decide to take the witness  
16 stand.

17 MR. TIDABACK: Yes, sir.

18 JUDGE MORAN: But for now I've ruled  
19 upon this, and I wanted an estimate for my  
20 purposes of understanding how big, what this  
21 operation is about, because I didn't see it in any  
22 of the documents, and I think I should know at

1 least rudimentarily about what this operation is.

2 MR. TIDABACK: Yes, sir.

3 JUDGE MORAN: Go ahead, Attorney

4 O'Reilly.

5 BY MS. O'REILLY:

6 Q And what type of product does the mine  
7 mine?

8 A Tripoli.

9 Q And do you understand what tripoli is  
10 made up of?

11 A It's just the ground up rock, you know.  
12 Basically ends up as a powder.

13 Q And do you have an understanding that's  
14 a silica based product?

15 A Yes.

16 Q Going back to the inspection where the  
17 104(b) order was issued.

18 A Yes.

19 Q You mentioned that was on the Wednesday  
20 before you were terminated. That sounds like that  
21 would have been April 12th, 2023. Does that sound  
22 right?

1           A       Yeah.  If that's the --

2           Q       And you participated in that MSHA  
3 inspection?

4           A       Yes.

5           Q       As the miners rep?

6           A       Yes.

7           Q       And did you participate in the  
8 inspection that occurred prior to that inspection  
9 where you were talking about having the air  
10 sampling?

11          A       Yes, ma'am.

12          Q       And the issue you're talking about with  
13 the dust, was that a silica dust issue?

14          A       Yes, ma'am.

15          Q       Had you previously, prior to your  
16 termination, raised concerns about dust safety  
17 issues to mine management?

18          A       Yes.  Especially after I learned what  
19 all, you know, it entailed and stuff, yes.

20          Q       And by what it entailed, are you talking  
21 about the safety hazard?

22          A       The safety of the silica dust, yes,

1 ma'am.

2 Q And what did you learn about those  
3 hazards?

4 A I knew it wasn't good for you, but after  
5 getting in and learning the MSHA and reading the  
6 MSHA, and silica is a big thing with MSHA and I'd  
7 never really realized that until I read the book.  
8 Started reading different things on it, and I was  
9 like, wow, you know, I looked out in the plant and  
10 you can see the -- you can barely see the lights  
11 and I was like, wow, this is probably not really  
12 good for us.

13 Q And about when did you get that  
14 understanding about the dangers?

15 A Right -- it was a little, probably about  
16 a month prior to the air test sampling.

17 Q Maybe sometime in February or March?

18 A Yeah. Around that time. It's been a  
19 year ago now, so exact dates.

20 Q And the 104(b) order, to your  
21 understanding, is issued because the prior  
22 citation for the overexposure had not been

1 terminated?

2 A Yes.

3 Q And after the citation for the  
4 overexposure was issued, did you raise any  
5 concerns about getting into compliance with the  
6 dust issues to management?

7 A Every day.

8 Q And what type of issues did you raise?

9 A If they had got the PAPR systems ordered  
10 or if they had figured a way around it, you know,  
11 just -- and if they had been -- they called  
12 anybody about getting the air system worked on.

13 Q And who did you raise those concerns to?

14 A John Spears and Jesse Molesi.

15 Q And what was the response you received  
16 to raising those concerns?

17 A John would always just tell me that he  
18 had to get with Russell about it, and Jesse was  
19 telling me that he was sending corresponding  
20 e-mails and stuff with Russell.

21 Q And did those issues get fixed before  
22 your termination?

1           A       No, ma'am.

2           Q       After the 104(b) withdrawal order was  
3       issued on April 12th of 2023, did you raise any  
4       concerns to Mr. Tidaback or Mr. Spears asserting  
5       the miners rights to be paid during that  
6       withdrawal order?

7           A       Yes.

8           Q       And when did you do that?

9           A       I believe it was that Thursday after we  
10      got shut down and they were -- you know, there was  
11      different Team chats, and they were talking about  
12      getting us back to being gainfully employed. And  
13      I had gotten an MSHA handbook and read, and I  
14      actually took a picture of the thing out of the  
15      MSHA handbook and sent it to John and I said it  
16      looks like we're entitled for at least up to the  
17      rest of that day's pay, plus four hours pay on the  
18      next day. And then because we weren't -- we  
19      didn't become in compliance with the safety  
20      issues, they could be responsible for paying us  
21      for longer, but I would -- I wasn't for sure on  
22      that, but I knew for sure and I had asked the MSHA

1 representative about it.

2 Q And what was the response? Did you get  
3 a response to that?

4 A No.

5 JUDGE MORAN: Excuse me. A little  
6 confusing. Did you get a response from the MSHA  
7 investigator or from the miner for -- I'm not sure  
8 who you're referring to with that no.

9 THE WITNESS: Yeah. I had talked with  
10 the MSHA representative and I said, I just want to  
11 make sure that I'm right before I send this, you  
12 know, explaining to them that they at least owed  
13 us for -- and the way that the MSHA rep explained  
14 it to me is that they were responsible for paying  
15 us for the rest of that day that they got shut  
16 down, and then up to four hours on the next day,  
17 because they did not.

18 JUDGE MORAN: Right. See, my role is  
19 not to determine whether you were entitled to pay.  
20 What I want to know is the response, you asked the  
21 MSHA inspector or representative from MSHA?

22 THE WITNESS: Yes.

1 JUDGE MORAN: And he answered you about  
2 what his view was?

3 THE WITNESS: Yes.

4 JUDGE MORAN: Not stating that's a fact,  
5 but he did respond to you?

6 THE WITNESS: Yes.

7 JUDGE MORAN: And that's what you're  
8 referring to when said the answer, you were not  
9 talking about Mr. Spears or someone else? You  
10 were talking about the --

11 THE WITNESS: No, I never got an answer  
12 from Mr. Spears or anybody from the company itself  
13 --

14 JUDGE MORAN: Okay.

15 THE WITNESS: -- after I sent that  
16 message.

17 JUDGE MORAN: Okay. Go ahead, Attorney  
18 O'Reilly.

19 BY MS. O'REILLY:

20 Q I'm sorry. Just to clarify, so you  
21 asked Mr. Spears about pay during the 104(b)  
22 withdrawal order. Correct?

1 A Yes.

2 Q And you never got a response from Mr.  
3 Spears about that?

4 A No.

5 Q And you mentioned earlier that you got  
6 an MSHA handbook?

7 A Uh-huh.

8 Q Who did you get that from?

9 A One of the MSHA inspectors.

10 Q You didn't receive that from American  
11 Tripoli?

12 A No.

13 Q What was the last day that you were at  
14 the mine prior to your termination?

15 A Physically at the mine would have been  
16 the Wednesday that they got shut down.

17 Q I think that's April 12th?

18 A April 12th, yes.

19 Q The last time you were at the mine it  
20 was April 12th, and then you came in on April 17th  
21 and were terminated?

22 A Yes.

1           Q     And in between there there was two  
2 weekend days because you were terminated on a  
3 Monday morning?

4           A     Yes.

5           Q     And you talked about the mill previously  
6 being located in Seneca, Missouri. Is that  
7 correct?

8           A     Yes.

9           Q     And then the pit, or the quarry, where  
10 is that located?

11          A     I believe it's about eight miles from  
12 the actual plant. It'd be considered Quapaw,  
13 Oklahoma, I believe.

14          Q     So product from Oklahoma gets mind up  
15 and brought to the Seneca, Missouri plant?

16          A     Yes.

17          Q     Who hired you at American Tripoli?

18          A     Christine Schreiber.

19          Q     Who is Christine Schreiber?

20          A     She was the operations manager at the  
21 time.

22          Q     And was she your supervisor?

1           A       Yes.

2           Q       When you were first hired?

3           A       Yes.

4           Q       And did you know her previous to working  
5   at American Tripoli?

6           A       Yes. She was my boss at Schreiber  
7   Foods, which I was there for 13 years.

8           Q       And how long was --

9                   JUDGE MORAN: That's fine. You know,  
10   I'm going to keep doing this. Court reporter,  
11   how's it going?

12                  COURT REPORTER: It's fine.

13                  JUDGE MORAN: Thank you. Okay.

14   Continue, Attorney O'Reilly.

15                  BY MS. O'REILLY:

16           Q       And how long did you work with Christine  
17   Schreiber when you were at Schreiber Foods?

18           A       Approximately a year I'm thinking.

19           Q       And at some point Mr. Spears became your  
20   supervisor. Correct?

21           A       Yes.

22           Q       And do you know about when that was?

1           A       I honestly don't. I know Christine  
2       wasn't there for maybe a couple months after she  
3       hired me.

4           Q       Okay. And then she left and Mr. Spears  
5       was hired for her role?

6           A       Yes.

7           Q       Was there a period of time where there  
8       was no operations manager?

9           A       If there was, it was very little.

10          Q       At the time you were terminated who  
11       would you say was in management at American  
12       Tripoli?

13          A       That would have been Russell, Jordan and  
14       John.

15          Q       Did Mr. Tidaback work regularly in  
16       Seneca, Missouri?

17          A       No.

18          Q       In your time working for American  
19       Tripoli, did you ever meet Russell Tidaback in  
20       person?

21          A       Yes.

22          Q       How many times?

1           A       I'm going to guess six or eight times.

2           Q       So in the ten months you were there he  
3 was there about six or eight times?

4           A       Yeah.

5           Q       Did you communicate with Mr. Tidaback  
6 while you worked at American Tripoli, other than  
7 those six or eight times?

8           A       Just on the Teams or via phone.

9           Q       And when you say Teams, are you talking  
10 about the Microsoft Teams like messaging app?

11          A       Yes.

12          Q       And you would communicate with Mr.  
13 Tidaback through messages on there?

14          A       Yes.

15          Q       And you said the phone, would you have  
16 phone calls with Mr. Tidaback?

17          A       We had just a few with maybe a couple or  
18 so. Honestly, I don't remember.

19          Q       So maybe a few phone calls in the entire  
20 ten months you were there?

21          A       Yeah.

22          Q       Did you ever send text messages to Mr.

1 Tidaback?

2 A Between the -- I called it Teams  
3 message, text messages, so yes.

4 Q Okay. So you're kind of referring to  
5 similar?

6 A Yes.

7 Q In the time that you worked at American  
8 Tripoli did you ever have a one-on-one  
9 conversation with Mr. Tidaback?

10 A No.

11 Q It was always in groups?

12 A Yes.

13 Q Who was in charge of day-to-day  
14 operations at the mine?

15 A John Spears.

16 Q Do you know if Mr. Spears communicated  
17 with Mr. Tidaback throughout the day while you  
18 were working for American Tripoli?

19 A Yes.

20 Q And why do you know that?

21 A He would -- we would ask John something  
22 and he would say that he had to go e-mail Russell

1 or, you know, stuff like that, and you could, when  
2 you went through the office, you could see him on  
3 his computer e-mailing back and forth with  
4 Russell.

5 Q And do you know about how frequently Mr.  
6 Spears was communicating with Mr. Tidaback?

7 A I don't. Multiple times a day, I would  
8 say.

9 Q Did Mr. Tidaback tend to know what was  
10 going on at the mine on a regular basis?

11 A Yes.

12 Q And how do you know that?

13 A Through John Spears.

14 Q Did Mr. Spears often refer to what Mr.  
15 Tidaback said or wanted in response to requests  
16 that you made?

17 A Rarely. I would get some answers, you  
18 know. It was always, well, I will have to get it  
19 okayed with Russell or --

20 Q When you started at American Tripoli  
21 what shift did you work on?

22 A I worked the day -- when I got hired

1     they hired me to do a second shift.

2           Q     And --

3           A     Pre-run, bulk bags.

4           Q     No, you go ahead. I interrupted.

5           A     To run bulk bags. They were behind on  
6     some orders, to run 2,000 pound bags of a product,  
7     and he was wanting to run a second shift to just  
8     run those bags while day shift ran the hundred  
9     pound bags or 50 pound bags.

10          Q     And what hours did you work when you  
11     were on night shift?

12          A     4:00 to 11:00. Or 4:00 to midnight, but  
13     we -- I mean, eight hours after -- I would get  
14     there at 4:00, and then we would run, run the  
15     production, yeah.

16          Q     And did you ever work more than eight  
17     hours while you were working the night shift?

18          A     Yes.

19          Q     Did you ever get paid extra for staying  
20     overtime in those instances?

21          A     No.

22          Q     How many people did you work with on the

1 night shift?

2 A There started out -- when we first  
3 started the evening shift there was three of us,  
4 and then the maintenance partner got fired, so  
5 then there just ended up being two of us.

6 Q And one person could not run the mill at  
7 night by themselves. Correct?

8 A No.

9 Q How many times did you work more than  
10 eight hours in a shift during the night shift?

11 A I'm going to say either going in early  
12 or staying over a little late, maybe at least once  
13 or twice every pay period, every couple weeks.

14 Q At some point you switched to day shift?

15 A Yes.

16 Q And why were you switched to day shift?

17 A We had actually caught up quite a few of  
18 the bulk bag orders that he was behind on because  
19 we were running so well in the evenings, and the  
20 machine started braking down from running so long  
21 at a time.

22 Q And so did they stop doing night shift

1     when you switched to day shift?

2             A       Yeah.

3             Q       And that's because the machinery just  
4     couldn't run that long. That was your  
5     understanding?

6             A       Yeah.

7             Q       Did anyone express to you that you had  
8     done a good job working on the night shift?

9             A       Oh, hell, yes.

10            Q       Who?

11            A       I got atta boys from Russell and John  
12     and Christine.

13            Q       What were the typical hours you worked  
14     while you were on day shift?

15            A       8:00 to 4:30.

16            Q       Did you ever work more than eight hours,  
17     the eight hours you were scheduled when you were  
18     working day shift?

19            A       Yes.

20            Q       And how often did you do that?

21            A       At least once a week.

22            Q       And did you keep track of it, the extra

1 hours worked?

2 A No, I did not.

3 Q Were you able to enter more than eight  
4 hours into your time record so you could get paid  
5 for those extra hours worked?

6 A No.

7 Q And why not?

8 A John spent -- all overtime had to be  
9 approved through John, through Russell, and you  
10 just were told not to enter anything over eight  
11 hours. There was not to be any overtime.

12 Q So how did you keep track of hours  
13 worked?

14 A I entered everybody's hours in the  
15 computer daily.

16 Q And were you just expected to put eight  
17 hours?

18 A Yes.

19 Q Did you use a time clock?

20 A No.

21 Q Even if you worked more than eight hours  
22 you were just expected to write eight hours?

1           A       Yes.

2                   JUDGE MORAN: Let me just interrupt. I  
3 take it you were a wage, hourly worker, not a  
4 salaried employee?

5                   THE WITNESS: I was hourly worker, Your  
6 Honor.

7                   JUDGE MORAN: Not salaried?

8                   THE WITNESS: Not salaried.

9                   JUDGE MORAN: Okay. Go ahead.

10                  BY MS. O'REILLY:

11                Q       And how much were you paid when you  
12 worked for American Tripoli?

13                A       Twenty dollars per hour.

14                Q       And was that the rate of your pay during  
15 the entire time you were there?

16                A       Yes.

17                Q       Could you open your notebook to Exhibit  
18 P4. In Volume 1.

19                A       Okay.

20                Q       And --

21                   JUDGE MORAN: I'm there, too, yes.

22 Thank you.

1 BY MS. O'REILLY:

2 Q Do you know what this document is?

3 A This is a payroll slip.

4 Q Have you seen this document before?

5 A Not this one. Well, yes.

6 Q And does this reflect your payroll  
7 details while working for American Tripoli?

8 A Yes.

9 Q And do you believe this is a true and  
10 accurate copy of your payroll records from  
11 American Tripoli?

12 A Yes. As far as I can tell by looking.

13 MS. O'REILLY: I move to admit Exhibit  
14 P4.

15 JUDGE MORAN: Any objection?

16 MR. TIDABACK: No, Your Honor.

17 JUDGE MORAN: Thank you. P4 is  
18 admitted.

19 (Complainant's Exhibit P-4 was  
20 marked for identification and  
21 received in evidence.)  
22

1 BY MS. O'REILLY:

2 Q And in here it shows your hourly rate as  
3 \$20 per hour. Correct?

4 A Yes.

5 Q And then if you look at overtime, it  
6 looks like it shows three hours overtime were  
7 paid?

8 A Yes.

9 Q Your testimony earlier is that you did  
10 work more than 40 hours a week on a fairly  
11 frequent basis?

12 A Yes.

13 Q So do you believe you worked more than  
14 three hours of overtime during the --

15 A Yes.

16 Q Where did you work at prior to your job  
17 at American Tripoli?

18 A I had worked at Schreiber Foods for 13  
19 years, and I left there and I was working at the  
20 Co-op in Baxter Springs, Kansas.

21 JUDGE MORAN: Let me interrupt, again.  
22 Okay? I would like you to go back to P4.

1 THE WITNESS: Yes, Your Honor.

2 JUDGE MORAN: And just help me out.

3 Probably I could deduce it, I hope. But this is a  
4 two-page exhibit. Correct?

5 THE WITNESS: Yes.

6 JUDGE MORAN: And do you -- do you  
7 understand the period of time covered by this  
8 two-page exhibit, which is entitled Payroll  
9 Details? What period of time is covered here  
10 where you had three hours of overtime? From what  
11 date to what date does this two-page exhibit  
12 cover? Do you know? Can you interpret this or  
13 you don't know how to read it?

14 THE WITNESS: This is just like a daily  
15 list of each time that they direct deposited.

16 JUDGE MORAN: Can you elaborate about  
17 what I'm looking at? For example, on the top line  
18 on Page 1 it says check date 7-01-2022 direct  
19 deposit.

20 THE WITNESS: Yes.

21 JUDGE MORAN: Then it says \$886.83?

22 THE WITNESS: Yes.

1 JUDGE MORAN: And what period of time is  
2 covered by that check? Do you know?

3 THE WITNESS: That would have been --  
4 they paid me weekly, so that would be the two  
5 weeks or the partial, it would have been a partial  
6 two weeks of when I started.

7 JUDGE MORAN: Okay. So it covers, for  
8 instance, the check date is 7-01, this would  
9 pertain to a period of June in 2022?

10 THE WITNESS: Yes.

11 JUDGE MORAN: And so following down,  
12 let's go to the next one which is two weeks later,  
13 7-15. You see that, \$1,239.47? Do you see that?

14 THE WITNESS: Yes, Your Honor.

15 JUDGE MORAN: And what does that  
16 represent?

17 THE WITNESS: That would have been the  
18 take home pay out of that pay.

19 JUDGE MORAN: For whom?

20 THE WITNESS: For me.

21 JUDGE MORAN: Yes. I know that, but I  
22 want it on the record. That's why I asked that.

1 See, I can deduce it, but it's better if you tell  
2 me. All right? All right. So are each of these  
3 lines, do each of these lines, Mr. Baumann,  
4 represent paychecks that were made to a direct  
5 deposit for you on the dates that are reflected  
6 here, beginning on 7-01 and continuing through  
7 4-21-23? 7-01-22 through 4-21-23?

8 THE WITNESS: Yes.

9 JUDGE MORAN: Okay. Go ahead. Thank  
10 you. If I didn't say it, I think I did, P4 is  
11 admitted. Go ahead, Attorney O'Reilly.

12 BY MS. O'REILLY:

13 Q I think you were talking about your --  
14 the job you had.

15 A Previous.

16 Q Right prior to American Tripoli you were  
17 working at the Co-op. Correct?

18 A Yes, ma'am.

19 Q And what were you doing there?

20 A I was the -- I mixed feed.

21 Q And how long had you been in that  
22 position?

1           A       About seven months there.

2           Q       And did you quit that job to take the  
3 American Tripoli job?

4           A       Yes.

5           Q       Have you ever been terminated from any  
6 other job other than the job you had at American  
7 Tripoli?

8           A       No.

9           Q       Prior to working at American Tripoli did  
10 you have any mining experience?

11          A       No.

12          Q       Did you have any experience with MSHA?

13          A       No.

14          Q       Did you know about the MSHA training  
15 requirements when you started at American Tripoli?

16          A       No.

17          Q       Did you receive any training from  
18 American Tripoli when you started your job?

19          A       About two weeks after we started we had  
20 about a 30, 45 minutes, like, went through safety  
21 stuff.

22          Q       And I'm going to be looking at Volume 2,

1 Exhibit P40.

2 JUDGE MORAN: Will you tell us when  
3 you're there?

4 THE WITNESS: I got it.

5 BY MS. O'REILLY:

6 Q Do you know what this document is?

7 A Yes. This is the training certificate  
8 that Bonnie handed me after we did the safety  
9 training that day.

10 Q You said Bonnie. Is that what you said?

11 A Yes.

12 Q So you've seen this document before?

13 A Yes.

14 Q And at the bottom do you see a  
15 signature? It looks like your name. Is that your  
16 signature?

17 A Yes.

18 Q Is this a true and accurate copy of the  
19 New Mining Training Certificate you signed while  
20 working at American Tripoli?

21 A Yes.

22 MS. O'REILLY: I move to admit Exhibit

1 P40 into evidence.

2 JUDGE MORAN: And again, to help me,  
3 does this reflect -- does this exhibit reflect a  
4 date that you received the training, or just the  
5 date you signed?

6 THE WITNESS: This is the date I  
7 received and signed the training paper.

8 JUDGE MORAN: What is that date, sir?

9 THE WITNESS: 7-05 of 2022.

10 JUDGE MORAN: Okay. Thank you. Exhibit  
11 P40 is admitted. I should have asked, I'm sorry,  
12 my fault. Any objections to this?

13 MR. TIDABACK: No, sir.

14 JUDGE MORAN: No.

15 (Complainant's Exhibit P-40 was  
16 marked for identification and  
17 received in evidence.)

18 BY MS. O'REILLY:

19 Q Were you provided with the training  
20 listed in this document before you signed this  
21 document?

22 A Not -- not all of it.

1           Q       And when you say --

2                   JUDGE MORAN: We have an objection?

3                   MR. TIDABACK: Yes, sir. I'm sorry,  
4   yeah. If you signed the document --

5                   MS. O'REILLY: Your Honor, he's asking  
6   questions out of turn.

7                   JUDGE MORAN: I will hear him out. Go  
8   ahead.

9                   MR. TIDABACK: If he's certifying that  
10   he received the training and he signed the  
11   document, that's when it goes into record. So if  
12   he's saying that he received the training before  
13   he signed the date, maybe the training was last  
14   week, but the day that they print out the  
15   paperwork and gave it to him is the day he signed  
16   it.

17                  JUDGE MORAN: Okay. I don't think  
18   there's any contest about that, but Attorney  
19   O'Relly was talking about prior to the date that  
20   this form was filled out, the certificate of  
21   training, if he received the training that's  
22   reflected on exhibit --

1 COURT REPORTER: I'm sorry -- Judge, you  
2 froze up. I missed you what you said. You said  
3 if he received the training reflected on and my  
4 screen froze.

5 JUDGE MORAN: Yes. My question was if  
6 Mr. Baumann was saying whether he had received --  
7 well, this is a bit of a conundrum. My question  
8 was whether he testified to receiving all of the  
9 training reflected on Exhibit P40, and my  
10 understanding, Mr. Baumann, is that although you  
11 signed this exhibit on 7-5-22, that not all of the  
12 training in Item 5 was actually received at the  
13 time you signed it?

14 THE WITNESS: No, Your Honor.

15 JUDGE MORAN: No, it was not?

16 THE WITNESS: No, it was not. I had not  
17 gotten all of the training that is checked on this  
18 piece of paper the day I signed it.

19 MR. TIDABACK: And that's my objection,  
20 Your Honor, because it states right there. I  
21 verify I have completed the above training.

22 JUDGE MORAN: That's a subject for

1 cross-examination. Okay. You're right. It's a  
2 problem in the sense that I guess the natural  
3 question that may be asked by Attorney O'Reilly  
4 is, it's up to you, why you signed having received  
5 the training when you've just testified that not  
6 all of the boxes that are checked on item --  
7 category 5, you've testified not all of that  
8 training as marked was actually received. Is that  
9 true?

10 THE WITNESS: Yes.

11 JUDGE MORAN: Then the question would  
12 be, Attorney O'Reilly.

13 BY MS. O'REILLY:

14 Q You understand here it's checked new  
15 miner training. Correct?

16 A Yes.

17 Q At the time that you signed this  
18 document did you know what new miner training  
19 entailed?

20 A No, ma'am, I did not.

21 Q At the time that you signed this  
22 document did you understand that new miner

1 training required training on all of the topics  
2 checked off on this training list?

3 A No, I did not.

4 Q And prior to receiving this -- signing  
5 this document, is this the 30 to 45 minute  
6 training you were talking about earlier?

7 A Yes.

8 Q And you had that with who?

9 A Bonnie Bainter.

10 Q And after she provided that training  
11 were you asked to sign this document?

12 A Yes.

13 Q Were you told why you were being asked  
14 to sign the document?

15 A She just said that it was kind of like  
16 OSHA, except for it was for miners, and that  
17 miners had to carry this piece of paper with them.

18 Q Did you have any idea at the time that  
19 you signed this document that you had not received  
20 a full new miner training under MSHA?

21 A No.

22 Q Did you ever receive 24 hours of new

1 miner training while you worked for American  
2 Tripoli?

3 A No.

4 Q And again, I think this may have been  
5 asked, but the date on this document is 7-5-2022.  
6 Correct?

7 A Correct.

8 Q And that's the date you received this  
9 about 30 minute training?

10 A Yes.

11 Q And what topics were gone over during  
12 that training? Do you remember?

13 A The lockout/tagout, combined space.  
14 Electrical hazards and stuff like -- forklift  
15 safety.

16 Q And prior to this date, 7-5-2022, had  
17 you received any MSHA training at the mine?

18 A No.

19 Q Were you ever given any additional MSHA  
20 training by anyone who works for American Tripoli  
21 after this date?

22 A No.

1           Q     Were you supervised closely prior to  
2     7-5-2022 when you received this training?

3           A     No.

4           Q     After you received this training were  
5     you supervised closely by anyone while you were  
6     working at American Tripoli?

7           A     No.

8           Q     Did anyone give you any task training on  
9     the jobs you would be doing while you're working  
10    at American Tripoli?

11          A     No.

12          Q     Was task training something that you had  
13    ever seen done while you worked at American  
14    Tripoli?

15          A     No.

16          Q     Were you made aware of MSHA's  
17    requirements regarding -- regarding task training  
18    while you worked at American Tripoli?

19          A     Not until it was brought up by the  
20    inspectors.

21          Q     And about when did that occur?

22          A     December to February probably.

1           Q     And you learned that just from the MSHA  
2 inspectors?

3           A     Yes.

4           Q     Did you ever receive any training from  
5 Mr. Tidaback on any of your job duties?

6           A     No.

7           Q     Did you ever receive any training from  
8 Mr. Tidaback on MSHA standards?

9           A     No.

10          Q     Looking back, do you feel like you had  
11 information necessary when you started working at  
12 American Tripoli to know what the MSHA standards  
13 required?

14          A     No.

15          Q     Do you feel like you were provided the  
16 information necessary at American Tripoli to know  
17 how to protect yourself and others from safety  
18 issues at the mine?

19          A     No.

20          Q     While you worked at American Tripoli did  
21 management stress compliance with MSHA standards?

22          A     No.

1 Q And why do you say that?

2 A Previous inspections like in November of  
3 2022, or whatever, we didn't even -- we weren't  
4 made aware of any of the citations or anything.  
5 We didn't know. I mean, honestly, we didn't know  
6 anything, and then like an MSHA inspector came in  
7 and started writing citations, you know, and he  
8 seemed frustrated. I thought, man, this guy is  
9 really out to get us or whatever, you know, and he  
10 said, well, I've been here before and we gave them  
11 so many days to get all these things fixed and  
12 nothing has been touched, so.

13 Q That MSHA inspector was referring back  
14 -- you're talking about there was an MSHA  
15 inspection about November of 2022?

16 A Yeah.

17 Q And you never learned about what  
18 citations were issued at that time?

19 A No.

20 Q And then when you learned about the MSHA  
21 inspection, that prior MSHA inspection from the  
22 MSHA inspector, was that around February of '23?

1           A       Something, approximately, yes, ma'am.

2           Q       Was Microsoft Teams used regularly at  
3 American Tripoli to communicate about what was  
4 going on at work?

5           A       Yes.

6           Q       And I think we've kind of brushed on  
7 this, but is there a feature in Microsoft Teams  
8 that allows you to send like text messages?

9           A       Yes.

10          Q       And were there -- how did -- were there  
11 groups of American Tripoli employees communicating  
12 with each other on Teams?

13          A       Yes. There was like multiple different  
14 category. Like maintenance group, a general group  
15 with everybody. A mill management group. Mill  
16 production group. I mean, there was just -- there  
17 was quite a few different ones, yes.

18          Q       There are various groups. And then  
19 could you also communicate individually with  
20 employees?

21          A       Yes.

22          Q       Did you use Microsoft Teams to

1 communicate with John Spears?

2 A Yes.

3 Q Would you also communicate with John  
4 Spears in person as well?

5 A Yes.

6 Q Did you use Teams to communicate with  
7 Mr. Tidaback as well?

8 A On occasion.

9 Q Would he be part of the groups that you  
10 were part of?

11 A Yes.

12 Q So if you made a message in a group, he  
13 would see that?

14 A He would have seen that.

15 Q And did all employees have access to  
16 Microsoft Teams?

17 A Through the general group, yes.

18 Q And is it your understanding that it was  
19 just employees and owners of American Tripoli  
20 participating in the Teams chats?

21 A Yes.

22 Q What would happen when someone quit or

1 was terminated with regard to access to Teams  
2 chat?

3 A They were taken out of it.

4 Q But did you use Teams to communicate  
5 about what was going on at work with your  
6 co-workers?

7 A Yes.

8 Q And with the owners and managers?

9 A Yes.

10 Q Were you ever told that you failed at  
11 using Microsoft Teams effectively while working at  
12 American Tripoli?

13 A No.

14 Q And it's my understanding that MSHA had  
15 several inspections while you were an employee at  
16 American Tripoli. Is that correct?

17 A Yes.

18 JUDGE MORAN: So again, don't lose your  
19 place, but help me out. Forgive me if I was  
20 making a note or something. I want to have a  
21 better understanding from the time that Mr.  
22 Baumann was hired until he was terminated. I

1 don't have a good sense about his -- what he was  
2 hired as and what he did and if it varied. If he  
3 says, well, in the first few weeks I was doing  
4 this and then after a couple months I was doing  
5 this job, and then I need to have an understanding  
6 of -- and maybe it was static. Maybe, you know,  
7 he was hired to do job X and he did that from day  
8 one until the day that he was terminated, but I  
9 want to have a good understanding of what his job  
10 was. I don't think I have a clear view of that  
11 yet.

12 BY MS. O'REILLY:

13 Q Mr. Baumann --

14 JUDGE MORAN: If we're going to come to  
15 that later that's fine, but it seems to me out of  
16 order to not be discussing it now. You're talking  
17 about Teams chat members -- Team chats, and I need  
18 to understand more of what he was doing.

19 MS. O'REILLY: Understood.

20 BY MS. O'REILLY:

21 Q What were your job duties while you  
22 worked at American Tripoli?

1           A       I was hired to be the productions, the  
2   lead over the production from day one until I got  
3   fired.

4           Q       Okay.

5           A       My job title never changed.

6                   JUDGE MORAN: Was that formally? If I  
7   looked at your paper on the day you were hired I  
8   would see, it would say production what?

9                   THE WITNESS: Production supervisor is  
10   what Christine hired me for.

11                  JUDGE MORAN: Right. And so tell us  
12   more about what you had to do. You say it was the  
13   same title until you were terminated?

14                  THE WITNESS: Yes.

15                  JUDGE MORAN: Tell me about -- and if  
16   it's one week was much like the other, accounting,  
17   you know, different problems can arise, tell me  
18   about what -- what your job typically entailed.

19                  THE WITNESS: On a good day, Your Honor,  
20   it would be to -- on the second shift I would  
21   overlap day shift 30 minutes, come in, find out if  
22   they were having any problems, anything like that.

1 Assist in -- I would get us our bulk bags and  
2 stuff ready for our shift. Pallets if we needed  
3 them. Stuff like that.

4 And then I was -- my duties were to feed  
5 the rock out of the tanks into the dryer, fluid  
6 bed dryer, through the system into the bag. Then  
7 I would -- we had labels to where -- what customer  
8 they were going to, you know, what it was. So we  
9 labeled them, and we put them in line, got orders  
10 ready. And then to shut the mill down, to -- you  
11 know, because it's -- starting up is a process,  
12 shutting down is a process, so you have to do  
13 things in certain steps, but -- and that that's on  
14 a good day.

15 On a bad day you would go in, something  
16 would be broke, you would have to fix it or work  
17 on it, help maintenance work on it, whatever. If  
18 the -- the temperature outside has a lot to do  
19 with running the product. Moisture, humidity, all  
20 those things, you know. So if you had to  
21 different -- there was different tasks. I walked  
22 around about once an hour to make sure all the

1 scrolls and all the pieces were moving so I  
2 wouldn't have backups or, you know, excessive  
3 dusting outside of the stacks and stuff like that.

4 JUDGE MORAN: Okay. And so I'll just  
5 take a couple more questions here, but so you tell  
6 me if this is accurate or needs to be explained  
7 further. Were you confined, I mean, limited to a  
8 certain part of the mill or did you -- did your  
9 duties encompass the entire operation, looking at  
10 everything that the mill was doing, or were you,  
11 again, in a discrete area most of the time in your  
12 employment?

13 THE WITNESS: No, I was all over. The  
14 building is not real huge and there's four  
15 different layers, four different -- and no, you  
16 had to be all over the mill at all times.

17 JUDGE MORAN: And during that time when  
18 you were all over the mill, did you interact with  
19 -- you told me there was something like 20 or so  
20 employees. That was an estimate, but did you  
21 interact with these employees at the mill?

22 THE WITNESS: On the day shift, whenever

1 I was getting trained or watching the operation, I  
2 would -- there was, I believe, eight, I think  
3 there were approximately eight people running the  
4 bags in the mill during the day, so I was watching  
5 them, and yes. And then it was just me and R.J.  
6 at night. And then we got less and less people.  
7 I think when I got fired there was maybe four  
8 employees total in the mill, but yes.

9 JUDGE MORAN: So fair to state,  
10 generally speaking, you interacted with the  
11 employees that were there, maybe not every day and  
12 not every employee, but there was some that you  
13 were not -- you were not restricted from  
14 interacting with the employees?

15 THE WITNESS: No.

16 JUDGE MORAN: Anyone that worked there  
17 you might come into contact with them. Is that  
18 fair?

19 THE WITNESS: Yes.

20 JUDGE MORAN: Go ahead, Attorney  
21 O'Reilly.

22

1 BY MS. O'REILLY:

2 Q You didn't work with the people that  
3 worked in the quarry, though. Correct?

4 A No, no. I never even visited the quarry  
5 in my employment there. The pit or whatever it's  
6 called, yeah.

7 Q And when you switched to day shift,  
8 about how many people were working there in the  
9 mill?

10 A I believe when I got switched to in the  
11 mill, in our group there was eight, I believe,  
12 when I got to days.

13 Q And those job duties that you've been  
14 describing, were those your job duties throughout  
15 your employment with American Tripoli?

16 A Yes.

17 Q Did you do workplace exams as part of  
18 your work at American Tripoli?

19 A I started doing them in December,  
20 January, maybe, of 2023.

21 Q Were you provided any training on how to  
22 do a workplace exam?

1 A No.

2 Q Were you expected to write down all the  
3 issues you found on workplace exam?

4 A Yes.

5 Q Okay. Was there enough space to write  
6 down all the issues you found?

7 A No.

8 Q And why was that?

9 A The first form -- so they found out MSHA  
10 said that you need to have workplace exams. So  
11 they put a form on the computer and it was  
12 basically if it's okay or not okay. And then  
13 maybe just a little tiny space, you know, note or  
14 whatever. And then they did change it and made a  
15 little bit bigger column out there where you could  
16 actually write, give a little description on what  
17 you found.

18 Q And would you note issues on those  
19 workplace exams that you found?

20 A Yes.

21 Q And did they correct all those issues  
22 that you would find on the workplace exam?

1 A No.

2 Q And why not?

3 A Either we didn't have a maintenance  
4 partner at the time, or it was -- if it had  
5 anything to do with shutting production down it  
6 wasn't getting taken care of.

7 Q And why do you say that?

8 A We were told to -- anytime anything was  
9 wrong it was we'll wait for a maintenance day to  
10 look at it.

11 Q Rather than fixing the issue?

12 A Yes.

13 JUDGE MORAN: Let me just -- when I do  
14 this, it's not to be rude. Court reporter, how  
15 are you doing?

16 COURT REPORTER: I'm fine.

17 JUDGE MORAN: Thank you. Go ahead.

18 BY MS. O'REILLY:

19 Q Did Mr. Spears or Mr. Tidaback ever  
20 express any issues with you with how you were  
21 doing your workplace exams?

22 A Not directly.

1 Q Did they indirectly?

2 A I never really -- I would make an issue  
3 and then I would bring it up, and I just always  
4 got told the same thing, you know. Well, unless  
5 it was something that would not let you run the  
6 system, it was not going to be fixed.

7 Q And would you say you raised multiple  
8 maintenance issues on there that were not fixed?

9 A Yes.

10 Q And were those maintenance issues that  
11 caused safety problems as well?

12 A Yes.

13 Q Were you in charge of maintenance at  
14 American Tripoli?

15 A No.

16 Q Did you ever receive task training to do  
17 any sort of maintenance work at American Tripoli?

18 A No.

19 Q Did you ever receive task training to do  
20 electrical work at American Tripoli?

21 A No.

22 Q Who was in charge of maintenance while

1     you worked at American Tripoli?

2             A       It was multiple -- they went through  
3     multiple maintenance partners at American Tripoli,  
4     so there was probably six or eight different -- at  
5     least six or eight different maintenance people  
6     there in my career.

7             Q       Would that be all at different times?

8             A       Yes.

9             Q       Did you ever have more than one  
10    maintenance person while you were there?

11            A       Very rarely.

12            Q       Did you ever have no maintenance people  
13    when you were there?

14            A       Yes.

15            Q       About how many times did that occur?

16            A       At least three times.

17            Q       And how long did that usually last?

18            A       Probably the longest was maybe three or  
19    four weeks without a maintenance person at all.

20            Q       And what happened when there wasn't a  
21    maintenance person if there was a maintenance  
22    issue?

1           A       We had to fix it or we went to John and  
2 he would work on it.

3           Q       Did you supervise the maintenance  
4 personnel?

5           A       No.

6           Q       Did you have authority to direct the  
7 work of maintenance personnel?

8           A       No.

9           Q       Did only having one maintenance person  
10 affect the ability to get things fixed timely in  
11 order to run production?

12          A       Yes.

13          Q       Did only having one maintenance person  
14 affect, make it difficult to keep up with safety  
15 issues that arose and needed to be fixed at  
16 American Tripoli?

17          A       Yes.

18          Q       While working at American Tripoli did  
19 anyone ever tell you that you had to meet a  
20 certain production quota?

21          A       No. Never said had to.

22          Q       Did you ever -- did Mr. Tidaback ever

1 tell you that you had to meet a 40,000 pound  
2 production demand every day?

3 A No.

4 Q Had you ever heard about any sort of  
5 40,000 pound production goal or quota?

6 A It was the -- it was assumed that that's  
7 what you would like to get on a good day, would be  
8 40,000.

9 Q But was that something that was stressed  
10 to you?

11 A No.

12 Q Did you communicate often with Mr.  
13 Tidaback about meeting production quotas or goals?

14 A No.

15 Q Did you communicate often with Mr.  
16 Spears about meeting production quotas or goals?

17 A No.

18 Q Were you ever counseled for not meeting  
19 production demands?

20 A No.

21 Q Were you ever given positive feedback  
22 regarding the amount of production you were able

1 to get?

2 A Yes.

3 Q From who?

4 A John Spears.

5 Q And when did that occur?

6 A It was actually probably about a month  
7 before I got fired. We were starting to run  
8 hundred pound bags again, and we were trying to  
9 get to the 40,000 pound, the 400 bags, and we were  
10 running, you know, 350 to 370 or whatever, close  
11 to, almost, and yeah, he more than once, great job  
12 today, team. Good job, guys.

13 Q And you say that happened in the last  
14 month of your employment?

15 A Yeah. Six -- you know, within probably  
16 -- I'm guessing within six weeks. It's hard for  
17 me to remember exactly, yes.

18 Q Understood. Was producing 40,000 pounds  
19 of product a day a realistic demand to meet every  
20 day?

21 A No.

22 Q Why not?

1           A     They had too many issues with equipment,  
2     weather, so many different variances.

3           Q     How often did you run into maintenance  
4     issues which caused you to have to stop  
5     production?

6           A     Some weeks daily.

7           Q     What about other weeks?

8           A     I'm going to say right when I first  
9     started we could run four or five days. You know,  
10    four days and then as we ran more and more things  
11    started breaking and the equipment is so old that  
12    naturally the more you run it the worse it's going  
13    to get, so multiple times there, from about  
14    November I think is when it really started going  
15    down. It was about almost every day something  
16    broke down.

17          Q     And when something broke down, did that  
18    cause production to have to stop?

19          A     Yes. The way the system runs, anything  
20    that breaks is really going to -- you're basically  
21    going to have to shut down, clean out the system,  
22    shut that machine down to work on it, you know.

1 Very few things can be worked on while running  
2 production.

3 Q And then if you had to shut down for a  
4 maintenance issue, did it take awhile to start  
5 back up again to run production?

6 A Yes.

7 Q Did you ever run a week straight without  
8 running into maintenance issues with the  
9 machinery?

10 A Not that I can remember.

11 Q What was John Spears' role with regard  
12 to production?

13 A He was the operations manager, so.

14 Q And what would you say his role was with  
15 regard to production specifically?

16 A Oh, I guess I don't understand. I'm  
17 sorry.

18 Q Would you say John Spears had ultimate  
19 responsibility over how much production was done  
20 at the mine?

21 A Yes.

22 Q In his role as operations manager?

1           A     Yes.

2           Q     Could your work alone have insured that  
3     production demands were met?

4           A     No.

5           Q     Why not?

6           A     It's -- I'd say with the equipment being  
7     the way it was and things breaking down or people  
8     not -- I mean, there's so many different things.

9           Q     So it sounds like there were a lot of  
10    production issues at the mine that were outside of  
11    your control?

12          A     Oh, yes.

13          Q     Would weather affect your ability to do  
14    production?

15          A     Yes.

16          Q     Can you explain that?

17          A     The temperature.  Actually, I don't even  
18    think you're supposed to try and run, just from  
19    talking to previous employees from years ago,  
20    anytime the temperature was below -- around 40  
21    degrees, you know, there was -- you couldn't even  
22    -- about -- about 30 degrees is pushing it to even

1 run the whole system. But the curative, the  
2 longer it takes -- because the product flows kind  
3 of like water and it's got to be hot. So it takes  
4 heat for it properly to get the flow of everything  
5 going, so the temperature was a huge. Naturally  
6 it's going to take longer to warm up, take longer  
7 to run things when it's cold outside. And if  
8 anything happened in the system got cool, then it  
9 would slow things down.

10 Q Were there ever any issues if the  
11 weather was too hot or too warm?

12 A If it's really, really hot the -- some  
13 of the machines would get over -- overheated. It  
14 would get too hot, you know.

15 Q So if they overheated, did you have to  
16 like stop production or slow down production?

17 A Yes.

18 Q Did you ever run into issues not having  
19 enough employees to run production at a level to  
20 meet a 40,000 pound production demand?

21 A Yes.

22 Q Can you explain that?

1           A     To properly have enough people to rotate  
2     through breaks and do lunches and stuff, to stack  
3     the hundred pound bags, and there should be some  
4     messages about this. I would say that a minimum  
5     of five people and there was multiple times there  
6     was three to four of us there doing it.

7           Q     How many times would you say you had the  
8     four to five people while you worked there?

9           A     To start out with, they always had  
10    enough people on the days to rotate in the crush  
11    and just -- and then I'm going to say the last  
12    three months of my employment we were pretty  
13    shorthanded.

14          Q     And that affected production?

15          A     Yes.

16          Q     In addition to all the internal issues  
17    with production, was production shut down by  
18    outside entities during your employment?

19          A     Yes.

20          Q     And can you explain that?

21          A     Due to dusting out into the city, the  
22    city -- the chief, the chief of police came down

1 multiple times and would get on to -- I guess he  
2 spoke with John most of the time. That he'd come  
3 in, say, hey, you know, you're dusting out pretty  
4 bad. People are calling, so there was probably  
5 three or four times of him shutting us down. And  
6 then the EPA lady or whatever, the environmental  
7 lady, she came down a few times. People would  
8 call her.

9 Q And when the sheriff would come, would  
10 he demand that production stop or what would  
11 happen?

12 A He most of the time spoke with John  
13 Spears. The one time that he did come in there to  
14 -- he pulled around there to us because we were  
15 outside looking to see how bad it was and stuff,  
16 he said -- he let us all know that he could arrest  
17 all of us for what was being done if we didn't get  
18 control of the dust or shut down.

19 Q That's what the sheriff told you?

20 A Yes. The police of chief of Seneca.  
21 Yes.

22 Q Was the mine also shut down by MSHA

1 during the time you were employed?

2 A Multiple times.

3 Q From February of 2023, let's say,  
4 through your termination on April 17th of 2023,  
5 about how many days would you say the mine was  
6 shut down because of MSHA citations?

7 A I'm going to say we probably only ran  
8 maybe two weeks in that span, and that's just  
9 totaling days maybe ran 14 days.

10 Q And that was because MSHA halted  
11 production because of various issues?

12 A MSHA halted production for various  
13 issues. We had a major breakdown, I believe, that  
14 caused us to be down.

15 Q For the last two months of your  
16 employment you would say there was maybe a total  
17 of 14 days where you could run?

18 A That's just a guesstimate, but yes.

19 Q Due to all these multiple issues you've  
20 been talking about?

21 A Yes.

22 Q In exhibit notebook 2 I'm going to have

1     you turn to Exhibit P27.

2                 JUDGE MORAN:   Just give me a second.

3     I'm making a note.   Okay.   P27.   Is that what you  
4     said?

5                 MS. O'REILLY:   Yes.

6                 JUDGE MORAN:   Are you there, Mr.  
7     Baumann?

8                 THE WITNESS:   Yes.

9                 BY MS. O'REILLY:

10                Q     Do you know what this document is?

11                A     Yes.   This is a production spreadsheet.

12                Q     And have you seen this document before?

13                A     Yes.

14                Q     And it looks like this shows the  
15     production at American Tripoli from November of  
16     2022 through March of 2023.   Would you agree with  
17     that?

18                A     Yes.

19                Q     And during your employment did you  
20     participate in adding information into this  
21     document?

22                A     Yes.

1 Q Can you explain what this document is?

2 A This was just -- so naturally you put  
3 the date, what you were running, the time span  
4 that you ran it, how many bags of it you ran and  
5 major down time issues.

6 Q And so was it a regular part of your job  
7 to add data to this document?

8 A Yes.

9 Q And how is the document maintained when  
10 you were adding data to it?

11 A How was it maintained?

12 Q Was it like on a computer that you were  
13 entering this information in?

14 A Yes.

15 Q And do you know if it was like an Excel  
16 spreadsheet?

17 A I don't know.

18 Q Okay. And was it a regular course of  
19 American Tripoli's business to create this  
20 document and add the data regarding production?

21 A Yes.

22 Q And does this appear to be a fair and

1 accurate copy of the production records from  
2 American Tripoli?

3 A It appears to be.

4 MS. O'REILLY: I move to admit this  
5 document, Exhibit P27 into evidence.

6 JUDGE MORAN: Okay. Before I ask, Mr.  
7 Tidaback, I have a question for Mr. Baumann. You  
8 see on Exhibit P27, and this page is 1 through 8.  
9 Correct?

10 THE WITNESS: Yes.

11 JUDGE MORAN: And the notes section of  
12 this, those notes on these various pages, except  
13 for Page P8 and Page 8 of P27, are those all notes  
14 you entered?

15 THE WITNESS: Not all of them, Your  
16 Honor, but I put notes and the down time issues,  
17 but I did not fill every one of these out.

18 JUDGE MORAN: Who else would have filled  
19 out these, if you know?

20 THE WITNESS: There was a couple of  
21 different times that we had a production helper  
22 that was responsible for the inventory and

1 responsible for me giving them the information to  
2 enter into this, and then there was a time span we  
3 had some -- we were shut down for some electrical  
4 issues through MSHA, so there was a time span we  
5 didn't have internet in the mill. So John Spears  
6 entered some of them. Kinsley entered some of  
7 them. Another production person that we had  
8 entered some of them.

9 JUDGE MORAN: Okay. And my last  
10 question about this exhibit is, other than the  
11 notes, which you say some were entered by you but  
12 some were entered by other people?

13 THE WITNESS: Yes.

14 JUDGE MORAN: Did you enter any of the  
15 other information? For example, look at Page 1 of  
16 P27. Were you responsible for any of these other  
17 various figures, you know, stock, completed order,  
18 etcetera? There are many categories. Number of  
19 pallets used. Did you enter information there?

20 THE WITNESS: Yes, Your Honor, I did.  
21 This was basically blank except for the dark blue  
22 at the top, and we filled out everything else.

1 JUDGE MORAN: When you say we, do you  
2 mean primarily you or was it collaborative effort?

3 THE WITNESS: I entered most of it most  
4 of the time.

5 JUDGE MORAN: Okay.

6 THE WITNESS: Time and time again we had  
7 the production specialist or whatever their title  
8 was, that was their job to do.

9 JUDGE MORAN: And you recognize this as  
10 this document you had played a significant role in  
11 completing information on this?

12 THE WITNESS: Yes.

13 JUDGE MORAN: All right. Any  
14 objections, Mr. Tidaback?

15 MR. TIDABACK: No.

16 JUDGE MORAN: All right. Then Exhibit  
17 P27 is admitted.

18 (Complainant's Exhibit P-27 was  
19 marked for identification and  
20 received in evidence.)

21 BY MS. O'REILLY:

22 Q In this document could you explain what

1 the column major down time event meant?

2 A Yes. Like we'd enter in whatever had  
3 broken that day.

4 Q So looks like there was a lot of major  
5 down time events in this time period.

6 A Yes.

7 Q And where it says, let me see, LBs made,  
8 for example, on Page 1, could you explain what  
9 that is in reference to?

10 A Pounds. Pounds that were produced that  
11 -- for that order that day.

12 Q It looks like there might have been more  
13 than one entry per day. Is that because you might  
14 be working on different orders?

15 A Yes.

16 Q And would all production at the mine be  
17 input into this document?

18 A Yes.

19 Q And it looks like, like if there isn't a  
20 day on here, does that mean that there wasn't  
21 production on that day?

22 A Yes. There was not production. If it's

1 not on this, there was not production on that day.

2 Q And then I'm going to have you flip to  
3 Exhibit P28. Go ahead and look through that and  
4 let me know when you're ready.

5 A Okay.

6 Q Do you know what this document is?

7 A No, I do not.

8 Q If you flip the page of it, I think the  
9 formatting came out a little different when we put  
10 it in a PDF, but if you flip through it can you  
11 kind of see, at least starting on Page 4?

12 A Yes.

13 Q The coloring didn't show up on this.

14 A Okay, okay.

15 Q So do these appear to be more production  
16 records?

17 A Yes.

18 Q Similar to the production records we  
19 were talking about in P27?

20 A Yes.

21 Q And it looks like if you look at it,  
22 it's showing production from January of 2022 on

1 Page 1 through November -- November of 2022 on  
2 Page 20. Correct?

3 A Yes.

4 Q And then it looks like on Page 21 it  
5 picks up again in April of '23 and goes through  
6 August of '23 on the last page. Is that correct?

7 A Yes.

8 Q And I understand that some of these time  
9 periods you were not employed. Right?

10 A No.

11 Q And does it appear to be a fair and  
12 accurate copy of production records from American  
13 Tripoli?

14 A Yes, it does.

15 Q And do you understand that we received  
16 this from American Tripoli in discovery in this  
17 case?

18 A Yes.

19 MS. O'REILLY: I move to admit this  
20 document P28 into evidence.

21 JUDGE MORAN: Okay. And before I turn  
22 to Mr. Tidaback, so Mr. Baumann, you agree that

1 this Exhibit P28 has 30 pages in it?

2 THE WITNESS: Yes, Your Honor.

3 JUDGE MORAN: And did I hear you  
4 correctly that some of the dates in this were  
5 after your employment ended. Is that true?

6 THE WITNESS: Yes, Your Honor.

7 JUDGE MORAN: And were the entirety of  
8 the pages, were any of these entries about major  
9 down time events/notes, were any of them entered  
10 by you or none of them by you?

11 THE WITNESS: Let me look. Some of  
12 these were entered by me, Your Honor.

13 JUDGE MORAN: Okay. And that's all I  
14 have to ask, except I have a follow-up question  
15 after I ask Mr. Tidaback if he has any objection.

16 MR. TIDABACK: No objection.

17 (Complainant's Exhibit P-28 was  
18 marked for identification and  
19 received in evidence.)

20 JUDGE MORAN: All right. Then P28 is  
21 admitted. So help me out with this, Mr. Baumann.  
22 What distinguishes, how is, in your opinion,

1    what's the value to me of P27 versus P28?  What  
2    distinguishes one from the other?  How is this  
3    information different?  Are they duplicative?

4               THE WITNESS:  Some.  The dates were just  
5    the difference.  P27.

6               JUDGE MORAN:  Apart from the dates, do  
7    they essentially address the same issues?

8               THE WITNESS:  Yes, Your Honor.

9               JUDGE MORAN:  Okay.  So this has been  
10   admitted.  If you have any follow-up questions,  
11   I'm not suggesting you do or should.  I'm just  
12   asking.  I'll give you the opportunity.

13              BY MS. O'REILLY:

14              Q     Looking at P27 and P28 today would you  
15   agree it shows production from about January of  
16   2022 through August of 2023, noting that there's a  
17   little bit of a gap in P28 which is a time period  
18   that's covered in P27?

19              A     Yes.

20              Q     In 2022, in P28 it looks like there may  
21   have been two shifts running during that time.  
22   Does that sound right?

1           A       Yes, ma'am.

2           Q       So some of the total production in a day  
3 in 2022 may reflect two shifts running?

4           A       Yes.

5           Q       And just, for example, I'll have you  
6 turn to Page 18 of P28.

7                   JUDGE MORAN: So while you're looking  
8 for that, I just want to make a comment to Mr.  
9 Tidaback about that. My memory works most of the  
10 time, but there was some with reference about, and  
11 the Secretary alluded to it, about some of the  
12 exhibits that the Respondent has are also being  
13 entered by the Secretary and I said, it really  
14 hasn't been a problem for me. But when it comes  
15 to your turn, it would be helpful if one side or  
16 the other identifies for me an exhibit was already  
17 admitted so I'll have two references. Do you  
18 understand? For instance, if there's something  
19 that's the same as -- I'm not saying it's the  
20 case, the same as P28 and then the Respondent has  
21 P11 and they're the same, it would be helpful for  
22 a reference point when I'm writing a decision to

1 drop a footnote indicating that they covered the  
2 same time period. All right?

3 MR. TIDABACK: Yes. Your Honor, if  
4 anything I'll try to refer to the Secretary's  
5 deal. That way you'll only have one copy of it.

6 JUDGE MORAN: Well, that means you'll be  
7 taking out some of your exhibits.

8 MR. TIDABACK: But if it's the same  
9 information, it would be the same.

10 JUDGE MORAN: I'm glad you feel that  
11 way. Go ahead.

12 BY MS. O'REILLY:

13 Q Yes. Just for reference, we are on Page  
14 18 of Exhibit P28. Are you there, Mr. Baumann?

15 A Yes.

16 Q And I just want to take a look at some  
17 of these entries for pounds made. For example,  
18 let's look at October 13th of 2022. It's towards  
19 the middle of the page.

20 A Yes, ma'am.

21 Q And it looks like there are two entries  
22 for that day. Right?

1           A       Yes.

2           Q       And if we go over to the pounds made  
3       column, one of those entries is 150 pounds and the  
4       other one is 1,950 pounds. Is that correct?

5           A       Yes.

6           Q       So something about 3,000 pounds for that  
7       day?

8           A       Yes, ma'am.

9           Q       And then let's go to October 14th of  
10       2022. It looks like there's two entries again.  
11       Correct?

12          A       Yes, ma'am.

13          Q       And if we go over to -- oh, and excuse  
14       me. For the record, on October 13th there was a  
15       third entry. One of them was also 5-25.

16          A       Yes.

17          Q       Do you see that? Sorry. Just to  
18       clarify that. So for October 14th of '22, you see  
19       two entries, one for 8,000 pounds, another for  
20       11,500 pounds.

21          A       Yes.

22          Q       So would that mean that on that day

1     there was 19,500 pounds of production?

2             A     Yes, ma'am.

3             Q     Okay. And then let's go to October 17th  
4     of 2020.

5                     JUDGE MORAN: You mean 2020?

6                     BY MS. O'REILLY:

7             Q     2022. Thank you. It looks like there's  
8     several entries, some saying first shift -- two  
9     saying first shift and three saying second shift.  
10    Is that right?

11            A     Yes.

12            Q     And on second shift there's an entry for  
13    2,000, another entry for 2,000, and then a third  
14    entry for 22,300. Is that right?

15            A     Yes.

16            Q     So just on night shift alone that day  
17    there would have been 26,300?

18            A     Yes.

19            Q     Okay. And then on October 19th there's  
20    two entries and they're both on second shift. Do  
21    you see that?

22            A     Yes, ma'am.

1 Q And those show 10,800 and then 6,000?

2 A Yes, ma'am.

3 Q So about 16,800 during that shift?

4 A Yes.

5 Q And then let's just go to October 21st.

6 There's four entries. Right?

7 A Yes.

8 Q Two for first and two for second?

9 A Yes.

10 Q And then on second shift alone there was  
11 11,100 and then 1,000 as well. Is that correct?

12 A Yes.

13 Q So looks like production kind of what we  
14 were talking about, kind of went up and down?

15 A Yes.

16 Q And these records reflect that?

17 A Yes, ma'am.

18 Q And then I'm going to turn your  
19 attention to Page 21 of Exhibit P28.

20 A Okay.

21 Q And these appear to be records from  
22 April of 2023. Is that correct?

1           A       Yes, ma'am.

2           Q       And I'll have you look at the entries  
3 for April 4th, 2023. Do you see that?

4           A       Yes.

5           Q       And there's two of those?

6           A       Yes.

7           Q       And there's one for 17,200 and then one  
8 for 16,000?

9           A       Yes.

10          Q       So on that day, if I'm doing my math  
11 correctly, it looks like there would have been  
12 33,200 pounds made?

13          A       Yes, ma'am.

14          Q       And that was just about two weeks before  
15 you were terminated?

16          A       Yes.

17          Q       And on April 6th of 2023, it looks like  
18 there's two entries again?

19          A       Yes.

20          Q       And first one is 10,900 and the second  
21 one is 26,900?

22          A       Yes, ma'am.

1           Q     And so a little over 37,000 pounds were  
2     made that day?

3           A     Yes.

4           Q     About 11 days before your termination?

5           A     Yes.

6           Q     And then on April 11th, 2023, you'll see  
7     two entries. Right?

8           A     Yes.

9           Q     And one is 4,000?

10          A     Yes.

11          Q     And one is 18,700?

12          A     Yes, ma'am.

13          Q     And then the next date on there is 4-28.  
14     Correct?

15          A     Yes.

16          Q     Okay. So this was the last -- 4-11 was  
17     the last date of production before your  
18     termination?

19          A     Yes.

20          Q     And it looks like that would have been  
21     22,700 pounds?

22          A     Yes, ma'am.

1 JUDGE MORAN: Now, let me interject.  
2 This is for benefit of both sides. I'm reasonably  
3 intelligent, but exhibits like this, in fact any  
4 exhibit, don't assume, well, he knows the purpose  
5 behind admitting 27 and 28. You should be express  
6 and say, literally, you commute the purpose of  
7 this exhibit is to demonstrate that and then it's  
8 like hitting me with a two-by-four, but hopefully,  
9 I'm picking up on this, but don't assume that I'm  
10 going to make these conclusions. Yes, Mr.  
11 Tidaback?

12 MR. TIDABACK: Your Honor, I understand  
13 the Secretary's trying to make a point that 40,000  
14 pounds which you're referencing, but I think the  
15 secretary is missing out on, there is a certain  
16 limit per hour per grade which --

17 JUDGE MORAN: And you know what, that's  
18 a fine comment and I know that I saw some  
19 exasperation on the part of Attorney O'Reilly,  
20 mild as it was, but I have some leeway to allow  
21 comments like that. But that, what you just said,  
22 you're not under oath and it's the subject of

1 cross-examination or direct testimony from  
2 witnesses you may call to explain further what's  
3 in this. So it's a little premature.

4 MR. TIDABACK: Okay.

5 JUDGE MORAN: But still, because of  
6 you're operating pro se and you're not an attorney  
7 I'm allowing a little more leeway, but don't  
8 forget that you still have to affirmatively have  
9 this as part of the record testimony if it's  
10 important. I always say that, because sometimes  
11 people put a lot of stuff on the record and much  
12 of it is not that important.

13 Ultimately I may conclude, so you'll  
14 have to make that decision on your own, whether  
15 this is worth raising for me to be alert to  
16 something or whether it's tangential.

17 MR. TIDABACK: Okay.

18 JUDGE MORAN: That's your call.

19 MR. TIDABACK: I was really trying to  
20 help the Secretary because I know she's trying to  
21 get numbers. I'm going to have to bring it up to  
22 Mr. Baumann afterwards, I guess, and it helps.

1 JUDGE MORAN: Yes. That's right. Okay.  
2 Go ahead. Attorney O'Reilly. So we're still on  
3 P28. Anything else about that?

4 MS. O'REILLY: No, nothing else about  
5 that.

6 JUDGE MORAN: I admitted P28.

7 BY MS. O'REILLY:

8 Q And, Mr. Baumann, just to kind of go  
9 back to something. It was your understanding that  
10 one of the reasons they told you they were  
11 terminated is because of production issues?

12 A Yes, ma'am.

13 Q Were you in charge of safety while you  
14 worked at American Tripoli?

15 A No.

16 Q Were you ever told that you were in  
17 charge of safety?

18 A No.

19 Q Were you given any training on what  
20 expectations American Tripoli had with regards to  
21 safety at the mine?

22 A No.

1           Q     Did anyone ever task you with ensuring  
2     that the mine was in compliance with MSHA  
3     standards?

4           A     No.

5           Q     Even if you had been tasked, were you  
6     ever given enough information to know what MSHA  
7     standards were required at American Tripoli?

8           A     No.

9           Q     Who was in charge of safety at American  
10    Tripoli?

11          A     If we didn't have a safety person at the  
12    time, it would be John Spears.

13          Q     Okay.

14          A     Ultimately.

15          Q     So if you had a safety person, what's  
16    that role? What was that title? Do you know?

17          A     They were over the safety, you know.  
18    They were supposed to make sure that everything  
19    was kosher safety wise and we were ready for MSHA  
20    inspections and stuff.

21          Q     So you're saying at some point, sometime  
22    there was a person with a role whose job is

1 safety?

2 A Yeah. I believe we had maybe three  
3 different safety people there in my employment,  
4 seven months.

5 Q Were there times when you didn't have  
6 someone enrolled -- employee in the role of  
7 safety?

8 A Yes.

9 Q About how often?

10 A I'm going to say at least, at least  
11 three months, four.

12 Q Out of the ten months?

13 A Out of the ten months I was there.

14 Q And I think you had said that John  
15 Spears was in charge of safety when there wasn't a  
16 safety person?

17 A Yep.

18 Q Did you have authority to direct the  
19 work of the safety personnel?

20 A No.

21 Q Did management at the mine make efforts  
22 to ensure the mine was in compliance with MSHA

1 standards?

2 A No.

3 Q Why do you say that?

4 A Like I say, we weren't made aware of any  
5 MSHA inspections or citations up until around  
6 November, December, and then once we learned what  
7 to look for and what to -- you know, different  
8 stuff because MSHA inspectors were pointing stuff  
9 out and things like that, you know. We never got  
10 -- for one, we never got the tools to fix the  
11 things that we needed. For two, if it took away  
12 from production, we weren't allowed to stop  
13 production to try and fix any safety issues,  
14 unless it was in dire need.

15 Q When you say you never got the tools,  
16 could you provide some examples of that?

17 A During one of the MSHA shutdowns a lot  
18 of it was to do with guarding, and we didn't have  
19 the proper metal to make the correct guards for  
20 stuff and they wouldn't get the metal for that or  
21 wiring to fix the electrical system. It was, you  
22 know, they had to change all the N sockets on the

1 light and it took like two weeks to get that stuff  
2 to change those out and just different stuff like  
3 that.

4 Q Did you ever raise questions to  
5 management about why those things weren't getting  
6 fixed?

7 A Yes.

8 Q And who did you question?

9 A John Spears.

10 Q And you also mentioned that if it took  
11 away from production, you weren't allowed to stop  
12 to fix the issues?

13 A No.

14 Q And why do you say that? Were you told  
15 that?

16 A Yes.

17 Q By who?

18 A John Spears.

19 Q Did you hear that more than once?

20 A Yes.

21 Q How often did you hear that?

22 A Most -- he would say, unless it is going

1 to shut us down, keep running.

2 Q And you heard that multiple times?

3 A Yes.

4 Q Was that a common response to questions  
5 -- to issues you raised around that?

6 A Yes.

7 Q To your knowledge, did the company have  
8 any written safety procedures?

9 A Not to my knowledge.

10 Q Were you ever provided with any written  
11 safety procedures?

12 A Not to my -- no.

13 Q Would you be surprised to find out that  
14 there are safety procedure documents on various  
15 topics at American Tripoli?

16 A Yes. Very surprised.

17 Q Would you know where to look while you  
18 were employed if you wanted to find a safety  
19 procedure?

20 A No.

21 Q Were there any sort of general safety  
22 rules at the mine that were maybe passed down

1 verbally?

2 A Do you know -- naturally, because I had  
3 worked in a manufacturing process before, the  
4 lockout/tagout, stuff like that, you know. But  
5 there was just so much more that I didn't know to  
6 look for, but.

7 Q Were you concerned about your safety  
8 while you worked at American Tripoli?

9 A Yes.

10 Q Why?

11 A Once I learned how harmful the silica  
12 dust was, once I learned that proper placing of  
13 guards and stuff and the things that we were  
14 working on, yes.

15 Q And were you -- were you concerned for  
16 the safety of other miners at American Tripoli as  
17 well?

18 A Yes.

19 Q Was it your job to keep track of miners  
20 hours worked?

21 A Yes.

22 Q And I believe we spoke earlier, there

1 was no time clock for this?

2 A No.

3 Q And were you ever told that you were  
4 failing at this task?

5 A No.

6 Q Was keeping up with mill production and  
7 production -- mill product and production supply  
8 inventory part of your job duties?

9 A No.

10 Q Were you told that that was your job  
11 duty?

12 A No.

13 Q Was handling shipping and receiving  
14 paperwork part of your job duties?

15 A Yes.

16 Q Were you ever told that there were any  
17 issues with your performance of this task?

18 A No.

19 Q Did you ever receive any training on how  
20 to do this task?

21 A No.

22 Q Was mailing and preparing easy to handle

1 retail bags part of your job duties?

2 A No.

3 Q Were you ever told that was that part of  
4 your job duties?

5 A No.

6 Q Was collaborating with maintenance on a  
7 preventative maintenance schedule part of your job  
8 duties?

9 A Yes.

10 Q Were you ever told that there were any  
11 issues with your performance of this task?

12 A No.

13 Q Was handling mill parts and supplies  
14 request to send to management for approval part of  
15 your job duties?

16 A No.

17 Q Were you ever told that was part of your  
18 job duties?

19 A No.

20 Q Was providing professional development  
21 counseling to miners part of your job duties?

22 A No.

1           Q     Did you personally ever receive any  
2 professional development counseling while working  
3 for American Tripoli?

4           A     No.

5           Q     Were you aware of anyone else ever  
6 receiving professional development counseling?

7           A     No.

8           Q     Did you ever send employees home early  
9 from work?

10          A     Yes.

11          Q     And if you did that, did you notify  
12 anyone?

13          A     Yes. I always had to get it okayed with  
14 either Christine or John.

15          Q     Did you have the authority to send  
16 employees home early?

17          A     Not to my knowledge. I always had to  
18 get it okayed.

19          Q     So if you ever allowed employees to go  
20 home early, you got approval from someone higher  
21 up from you first?

22          A     Yes.

1 JUDGE MORAN: Why would you send  
2 employees home early?

3 THE WITNESS: If there was maintenance  
4 issues that we couldn't fix or if we were waiting  
5 on parts, something major broke, we were going to  
6 be down, if they -- you know, if the mill  
7 associate asked, hey, we're not -- you know, we're  
8 sweeping. Do you care if I go home. I would say,  
9 let me get with John and if he's okay with it, I'm  
10 okay with it.

11 BY MS. O'REILLY:

12 Q So in those instances there wasn't  
13 really anything for those employees to be doing?

14 A No. I mean, just like I told them, if  
15 it was okay, if John didn't care, you know, and we  
16 weren't in the middle of working on something,  
17 that there were just so many non-production days  
18 that, yeah. I mean, if they asked, I never said  
19 they couldn't. I always got it approved.

20 Q And you never supervised employees?

21 A No.

22 Q Kind of backing up now. My

1 understanding is that MSHA had several inspections  
2 while you were an employee at American Tripoli.

3 Correct?

4 A Yes.

5 Q I'm going to look in Volume 1 at Exhibit  
6 P21. Sorry.

7 JUDGE MORAN: Before you get to P21,  
8 this is a good time to pause for a moment. We  
9 have been going for an hour and a half, which is  
10 not terrible. About how much time, if you know,  
11 will you have for your direct testimony of Mr.  
12 Baumann?

13 MS. O'REILLY: Left?

14 JUDGE MORAN: Yeah.

15 MS. O'REILLY: It could be two more  
16 hours.

17 JUDGE MORAN: Okay. All right. And so  
18 I think that -- remember, if anyone has like  
19 diabetes or any health issues you're supposed to  
20 tell me. I don't want anyone fainting in here or  
21 whatever, but I thought we'll see where we are in  
22 the testimony, but I thought from 12:30 to 1:30 we

1     could take our lunch break. I'm like a camel  
2     because I used to run marathons. If you don't  
3     want to have lunch break, that's kind of onerous  
4     on the court reporter and others, but if you want  
5     to have a very short lunch break. I don't know  
6     how close food is here, so at about 12:30 let's  
7     stop and see what people want to do. All right?  
8     Okay. We'll go back. We're still on the record.  
9     Yes?

10                 THE WITNESS: Could I have a restroom  
11     break?

12                 JUDGE MORAN: Right now, of course.  
13     We'll pause on the record for this. So we'll come  
14     back in five minutes everyone. All right?

15                 MS. O'REILLY: Thank you.

16                 JUDGE MORAN: Court reporter, thank you.

17                 COURT REPORTER: Thank you.

18                 JUDGE MORAN: Court reporter, you there?

19                 COURT REPORTER: Yes, I'm here.

20                 JUDGE MORAN: Okay. We're taking a  
21     five-minute break.

22                         (Recess)

1 JUDGE MORAN: We're back on the record.  
2 Go ahead, Attorney O'Reilly.

3 MS. O'REILLY: All right, everybody.  
4 Looking at Exhibit P21, and I will say this is a  
5 public document on MSHA's data retrieval system  
6 website. I would move to admit it on that basis  
7 alone, but if not, I can just use it to reference  
8 and kind of orient everyone and we can have the  
9 witness lay a foundation later.

10 JUDGE MORAN: Typically, Mr. Tidaback,  
11 these exhibits are admitted as business records.  
12 It's a one page exhibit, P21 and again, it's the  
13 -- what is it? Describe it.

14 MS. O'REILLY: It's from the mine data  
15 retrieval system. It's a public system about the  
16 mine system that MSHA maintains.

17 JUDGE MORAN: Okay. And if Mr. Tidaback  
18 or I want to look this up, how would one go about  
19 finding this exhibit?

20 MS. O'REILLY: It's on MSHA's website.

21 JUDGE MORAN: What would I enter to get  
22 this page?

1 MS. O'REILLY: I think if you Google  
2 mine data retrieval system and then it pops up and  
3 then you click on that and then you would enter  
4 the mine number.

5 JUDGE MORAN: So it's the mine number.

6 MS. O'REILLY: Yes.

7 JUDGE MORAN: Do you have any objection  
8 to this exhibit? Okay. P21 is admitted.

9 (Complainant's Exhibit P-21 was  
10 marked for identification and  
11 received in evidence.)

12 BY MS. O'REILLY:

13 Q Mr. Baumann, do you see the document in  
14 front of you, Exhibit P21?

15 A Yes.

16 Q And I'll represent to you that 2300504  
17 is the mine ID for American Tripoli.

18 A Yes.

19 Q Do you see that? And this lists several  
20 inspections of the American Tripoli mine, and I  
21 think we've been talking today about various  
22 inspections at the mine. And if you look at

1 inspection 7029430 under the event number. Do you  
2 see that, kind of midway down the page?

3 A Yeah. Verbal hazard complaints.

4 Q Yes. And it says inspection begin date,  
5 February 13, 2023. Inspection end date, 4-10-23?

6 A Yes.

7 Q And was this the first inspection that  
8 you worked around with MSHA during?

9 A Yes.

10 Q And why did you start walking around  
11 with MSHA during inspections?

12 A After the inspections that end of 2022  
13 to November, you know, November, December  
14 inspections and then we found out that we had so  
15 many citations I wanted to know, you know, because  
16 honestly I wanted us to run. I didn't like being  
17 down, so I was paying attention more to what they  
18 were pointing out, stuff like that.

19 JUDGE MORAN: Let me interrupt. Are you  
20 getting all this, court reporter?

21 COURT REPORTER: Yes, I am.

22 JUDGE MORAN: Okay. Thank you. Go

1 ahead, Attorney O'Reilly.

2 BY MS. O'REILLY:

3 Q Did you also participate in the  
4 inspection out of concern for miner safety?

5 A Yes.

6 Q And your own safety?

7 A Yes.

8 Q And during this February through April  
9 2023 inspection, did you walk around with MSHA on  
10 multiple different days?

11 A Yes.

12 Q Did Mr. Spears ever walk around with you  
13 when you were walking around with MSHA during  
14 these inspections?

15 A Yes.

16 Q Multiple times?

17 A Multiple times.

18 Q Did he ever see you walking around with  
19 MSHA, also?

20 A Yes.

21 JUDGE MORAN: Please keep your voice up.

22

1 BY MS. O'REILLY:

2 Q I'm going to have you turn to Exhibit  
3 P8.

4 JUDGE MORAN: P8?

5 MS. O'REILLY: Yes.

6 THE WITNESS: Got it, yes.

7 BY MS. O'REILLY:

8 Q Do you know what this document is?

9 A This looks like a Teams message sent  
10 from John to Gage.

11 Q And is this a screen shot of your phone?

12 A Yes. I screen shotted it on my phone.

13 Q And did you take this screen shot?

14 A Yes.

15 Q And this is a Microsoft Teams message,  
16 like the ones we've been talking about?

17 A Yes.

18 Q And when it says John S, what do you  
19 understand that to mean?

20 A That's from John Spears.

21 Q And where it says Russell T above that,  
22 who do you understand that to be?

1 A Russell Tidaback.

2 Q And I think you said you thought this  
3 message went to Gage Wheeler. Is that correct?

4 A Yes.

5 Q And why do you know that?

6 A Because that's -- it starts out Gage  
7 Wheeler, so that tagged him in it.

8 Q And if you were taking a screen shot of  
9 this, was this message also sent to where you  
10 could see it, too?

11 A Yes.

12 Q Was it in a group? Do you know?

13 A I think it probably would have been in a  
14 maintenance group.

15 Q And you were part of that?

16 A Yes.

17 Q Is this a true and accurate copy of the  
18 screen shot of this Teams message from your phone?

19 A Yes.

20 MS. O'REILLY: I move to admit Exhibit  
21 P8.

22 JUDGE MORAN: Any objection?

1 MR. TIDABACK: It's not comprehensive to  
2 everything that was actually in the discussion,  
3 Your Honor.

4 JUDGE MORAN: Okay. And again, just for  
5 your edification, that's something that you can  
6 address during cross-examination.

7 MR. TIDABACK: Yes, sir.

8 (Complainant's Exhibit P-8 was  
9 marked for identification and  
10 received in evidence.)

11 JUDGE MORAN: Okay. So this is a word  
12 at counsel table. I'm not perfect on this, but  
13 you should be keeping a running log of all  
14 exhibits that are admitted. I've got right now  
15 P38, P4, P40, P27, 28, 21 and 8. That's all I  
16 have. Okay. You're the person I want to rely  
17 upon if I miss some.

18 MS. SMITH: Yes, Your Honor. I'm  
19 keeping a list as well.

20 JUDGE MORAN: Okay. Go ahead, Attorney  
21 O'Reilly.

22

1 BY MS. O'REILLY:

2 Q This message in the middle from John S,  
3 which you said is John Spears, it looks like it's  
4 dated February 14th at 6:35 a.m. Is that correct?

5 A Yes.

6 Q And this message says "Gage Wheeler, do  
7 not answer any questions about the -- that the  
8 MSHA inspector may have. Do not go into the mill.  
9 I'll be the person who talks to me inspector."  
10 Did I read that correct?

11 A Yes.

12 Q Who is Gage Wheeler?

13 A He was the maintenance person at the  
14 time.

15 Q And he was an employee of American  
16 Tripoli?

17 A Yes.

18 Q Was there an MSHA inspection on this  
19 day?

20 A Yes, I'm sure there was.

21 Q What did you take this message to mean?

22 A For us not to speak with the MSHA

1 inspectors.

2 Q And was this the first time you had  
3 heard a message like this at American Tripoli?

4 A No.

5 Q Did you walk around with MSHA during the  
6 inspection of February 14th?

7 A I believe so.

8 Q Did Gage Wheeler?

9 A I believe so.

10 Q Can you turn to Exhibit P9.

11 A Yeah.

12 Q Do you recognize this document?

13 A Yes.

14 Q And it looks like at the top, the very  
15 first message from John Spears is the same message  
16 you took a screen shot of in P8?

17 A Yes.

18 Q And you said this message was also sent  
19 to you?

20 A Yes.

21 Q And did you also receive these  
22 additional messages in this chat?

1           A       Yes.

2           Q       And you believe this was part of the  
3 maintenance group chat at American Tripoli?

4           A       I believe so.

5           Q       And who would have been a part of that?  
6 Do you know?

7           A       Would have been myself, Gage Wheeler,  
8 Russell Tidaback, Jordan Tidaback and John Spears.

9           Q       Okay. And in here, kind of towards the  
10 middle and then the bottom it says unknown user  
11 for some of the messages, and there's like a UU.  
12 Do you see that?

13          A       Yes, I see that.

14          Q       Do you know who that would have been?

15          A       That would have been Russell Tidaback.

16          Q       The unknown user?

17          A       Just -- yeah.

18                 JUDGE MORAN: Can you ask him how he  
19 would know?

20                 BY MS. O'REILLY:

21          Q       Yeah. How would you know that?

22          A       Because there was only what, four of us

1 in the group and John Spears is the JS.

2 Q Okay. And then there's also blue  
3 messages. Do you know who those blue messages  
4 would be?

5 A Okay. So the unknown user on this page  
6 would have been Gage Wheeler. I apologize. I  
7 didn't read -- didn't read long enough, and the  
8 blue boxes, I believe, would be Russell Tidaback.

9 Q And why do you -- why do you believe  
10 that?

11 A Just from the conversations.

12 Q And you recall those conversations?

13 A Yes.

14 Q Sir, I'll make the record a little  
15 clear. You recall this conversation?

16 A Yes.

17 JUDGE MORAN: Are you telling me, Mr.  
18 Baumann, that on this Microsoft, what's it called?

19 MS. O'REILLY: Teams.

20 JUDGE MORAN: Teams, that you can be a  
21 part of the communication and it doesn't identify  
22 who's talking?

1           THE WITNESS: It's supposed to. This --  
2       these messages are really, really familiar, and I  
3       don't know why they don't have the initials beside  
4       them.

5           JUDGE MORAN: Okay. Well, let me ask  
6       you a couple other questions about this. You see  
7       on P9, it's a one-page exhibit. Right?

8           MS. O'REILLY: Correct.

9           JUDGE MORAN: I'm asking him.

10          THE WITNESS: Yes.

11          JUDGE MORAN: And so in the middle  
12       there's a blue area and it begins saying yep.  
13       Y-e-p, which is yes. Okay. And are you telling  
14       me that you can identify that yep and then it's  
15       all good, and what was the question, that you can  
16       identify who wrote that message from Microsoft  
17       Teams?

18          THE WITNESS: Yeah.

19          JUDGE MORAN: And how can you do that?

20          THE WITNESS: There was only --

21          JUDGE MORAN: You said four?

22          THE WITNESS: Yeah.

1 JUDGE MORAN: So there's you.

2 THE WITNESS: Yup.

3 JUDGE MORAN: Mr. Spears.

4 THE WITNESS: Gage Wheeler and Jordan  
5 Tidaback.

6 JUDGE MORAN: Oh, and Jordan Tidaback.  
7 Okay. And how do you know it wasn't Russell  
8 Tidaback?

9 THE WITNESS: How do I know it wasn't or  
10 it wasn't?

11 JUDGE MORAN: How do you know it was  
12 Jordan as opposed to her father?

13 THE WITNESS: Oh, I don't know whether  
14 it was Jordan. I'm saying in the blue box, from  
15 what I'm -- the way I reading it, it was Russell  
16 in the blue box talking.

17 JUDGE MORAN: How do you know that  
18 versus some other Tidaback? It's just a guess?

19 THE WITNESS: Yeah, I mean, I don't 100  
20 percent sure and I don't know why the names are  
21 blocked off, because all of our Teams messages had  
22 our initials with a picture or whatever beside it.

1 JUDGE MORAN: Okay. Thank you. Go  
2 ahead, Attorney O'Reilly.

3 BY MS. O'REILLY:

4 Q Mr. Baumann, it's your understanding  
5 that we received these Teams messages during  
6 discovery from Respondent in this case?

7 A Yes.

8 Q When you were using Microsoft Teams  
9 regularly as part of your job, did you understand  
10 that your messages would show up as blue and these  
11 other messages would be the gray or white?

12 A Yes.

13 Q Okay. So would it make sense that if  
14 Mr. Tidaback was the one who produced these  
15 documents that his messages would be the ones that  
16 are blue?

17 A Would have been in the blue, yes.

18 Q And after you were terminated from Mr.  
19 -- I mean, from American Tripoli, after employees  
20 were terminated from American Tripoli, were they  
21 removed from Teams chat?

22 A Yes.

1           Q     And these Teams messages were pulled  
2     during the time of this litigation after Gage  
3     Wheeler was no longer employed. Is that possibly  
4     why he may have shown up as an unknown user?

5           A     Maybe. I'm assuming so, yes.

6           MS. O'REILLY: I move to admit Exhibit  
7     P9 into evidence.

8           JUDGE MORAN: Attorney O'Reilly, P9 was  
9     through discovery you received this from American  
10    Tripoli. Correct?

11          MS. O'REILLY: Correct.

12          JUDGE MORAN: Do you have any objection  
13    to P9?

14          MR. TIDABACK: Is P9 and P10 the same --  
15    or excuse me, P9 and P7. I'm sorry. No, P8 and  
16    P9 are the same, so P9, no objection from me, Your  
17    Honor.

18          JUDGE MORAN: Okay. So P8 was  
19    previously admitted and P9 is admitted now.

20          MR. TIDABACK: Okay. Because P8 is P9,  
21    just so we're good.

22                   (Complainant's Exhibit P-9 was

1                   marked for identification and  
2                   received in evidence.)

3                   JUDGE MORAN: I don't know if it's one  
4                   to one, and if that's important then one side or  
5                   the other, I mean, they look -- they're not  
6                   identical one page exhibits. P8 may have  
7                   duplicate -- duplicate material in P9, but they're  
8                   both admitted. Go ahead.

9                   BY MS. O'REILLY:

10                  Q       And, Mr. Baumann, just to clarify for  
11                   the record, on P8, this is taken at a screen shot  
12                   from your phone while you were still employed.  
13                   Correct?

14                  A       Yes, ma'am.

15                  Q       And this shows that Russell T was part  
16                   of this Teams message that we're seeing more fully  
17                   in P9?

18                  A       Yes.

19                  Q       And after you were terminated from  
20                   American Tripoli, you no longer had access to  
21                   Teams messages?

22                  A       No, ma'am.

1           Q     So during this litigation you couldn't  
2     have gone in and got the rest of this message that  
3     you had from P8?

4           A     No.

5           Q     So the first message in P9 contains the  
6     message at 6:35 a.m. that we previously discussed  
7     in P8. Correct?

8           A     Correct.

9           Q     And then, almost four hours later, Don  
10    Spears says at 10:13 a.m., "I understand. I  
11    should have been more specific about not  
12    volunteering information. I will escort the  
13    inspector." Did I read that correct?

14          A     Yes.

15                JUDGE MORAN: But I'm lost as to where  
16    are you reading from, which exhibit and where?

17                MS. O'REILLY: P9, the second message on  
18    that page.

19                JUDGE MORAN: Okay. Thank you. Okay.  
20    Go ahead.

21                BY MS. O'REILLY:

22          Q     What did you understand not volunteering

1 information to mean?

2 A Not to speak to the inspectors.

3 Q Did you understand that you weren't  
4 supposed to be pointing out issues to the  
5 inspectors?

6 A Yes.

7 Q Had you received messages like that  
8 before?

9 A Yes.

10 Q While working at American Tripoli?

11 A Yes.

12 Q At 10:13 a.m. had you already been  
13 walking around with the MSHA inspector?

14 A Yes.

15 Q And then toward the bottom of Page 9  
16 there's some blue messages that you had  
17 represented were Mr. Tidaback. Correct?

18 A Yes.

19 Q And at 11:26 a.m. it said "Amen to  
20 that." Do you see that?

21 A Yes.

22 Q And then it says, "Oh, well, thanks for

1 just nodding and agreeing with the inspector.

2 That's all we can do." Did I read that correct?

3 A Yes, you did.

4 Q And what did you understand that to  
5 mean?

6 A That Gage didn't offer any information  
7 to the inspector, and just nodded and agreed to  
8 the questions or whatever that the inspector said,  
9 is what I am -- the way I am taking it. Thanks  
10 for not saying anything to the inspectors.

11 Q Was it your understanding that that was  
12 kind of the expectation provided, to just nod and  
13 agree?

14 A Yes.

15 Q And not offer up any information to  
16 MSHA?

17 A Do not offer any information to MSHA.

18 Q And that was communicated to you more  
19 than just this message?

20 A Yes.

21 Q Can we turn to Exhibit P10. Do you see  
22 this message? Do you know what this document is?

1           A       This is more Teams messages.

2           Q       Does it appear to be a continuation of  
3 the communication from Exhibit P9?

4           A       Yes, it does.

5           Q       So you would have been part of this chat  
6 group and received these messages?

7           A       Yes.

8           Q       And so unknown user would still be Gage  
9 Wheeler here. Is that correct?

10          A       Yes, it would be.

11          Q       And these blue messages you still would  
12 understand those to be Russell Tidaback?

13          A       Yes.

14          Q       And I think you testified earlier that  
15 Jordan Tidaback may have been in this Teams chat,  
16 too?

17          A       Yes.

18          Q       Do you see her message clear down below?

19          A       At the bottom, yes.

20          Q       Does that further support your  
21 understanding that the blue messages were Russell  
22 Tidaback?

1 A Yes.

2 Q Because there was no one else it could  
3 have been at that point. Right?

4 A No.

5 Q Because you were not --

6 A Not me. It was not me making -- making  
7 any messages, so it would have had to have been  
8 the other.

9 Q And then do you see a message from  
10 Jordan Tidaback at the bottom, at 11:49 a.m.?

11 A Yes.

12 Q And at the beginning it states, "Hi,  
13 Gage. We spoke with John about that. You are  
14 absolutely allowed to answer questions the MSHA  
15 inspector has (obviously). I think John may have  
16 meant don't just go up to him and point out  
17 everything under the sun. We've had people doing  
18 that, knowing very well it's an issue being worked  
19 on." Did I read that correct?

20 A Yes, you did.

21 Q What did you understand that message to  
22 mean?

1           A       To not just, yet again, not to volunteer  
2 any information to the MSHA people.

3           Q       And do you recall any incident where  
4 somebody has gone around and pointed out issues?

5           A       Yes.

6           Q       Could you explain that?

7           A       There was a maintenance and a safety  
8 person, miners back in, I believe it was around  
9 November and December. There's just be so many,  
10 but anyway, they were walking around and they had  
11 started asking the inspectors and stuff about  
12 spots on the floor, different electrical issues,  
13 and it got brought up that they had spoke to them  
14 and not to speak to the MSHA inspectors like they  
15 did.

16          Q       And what happened to those miners? Do  
17 you know, are they still employed?

18          A       No, they are not.

19          Q       Were they terminated?

20          A       Yes.

21          Q       Do you know when they were terminated?

22          A       Right after that. I mean, within a

1 month, I believe, of being -- of all of that stuff  
2 going on, or maybe a few weeks.

3 Q Do you know what those miners' names  
4 were?

5 A Carson Allman and Terry Neuber.

6 Q I'm going to turn to Exhibit P13.

7 JUDGE MORAN: You didn't move to admit.

8 MS. O'REILLY: Thank you. I would move  
9 to admit Exhibit P10.

10 JUDGE MORAN: This was an exhibit you  
11 received in discovery from the respondent?

12 MS. O'REILLY: Correct.

13 JUDGE MORAN: Have any objection? Okay.  
14 Thank you. P10 is admitted.

15 (Complainant's Exhibit P-10 was  
16 marked for identification and  
17 received in evidence.)

18 BY MS. O'REILLY:

19 Q Now I'll move on to Exhibit P13.

20 A Okay.

21 Q Have you seen this document before?  
22 There's multiple pages.

1           A     Oh. Yeah. Let me look through here to  
2     make sure that --

3                   JUDGE MORAN: Multiple pages, huh?  
4     That's an understatement.

5                   THE WITNESS: Yeah.

6                   JUDGE MORAN: This Exhibit P -- proposed  
7     Exhibit P13 goes for 467 pages.

8                   MS. O'REILLY: Correct.

9                   JUDGE MORAN: Was this also received  
10    from the Respondent in discovery?

11                  MS. O'REILLY: Yes, Your Honor.

12                  JUDGE MORAN: All 467 pages?

13                  MS. O'REILLY: Yes. I put in totality.

14                  JUDGE MORAN: This is an entirety, all  
15    467 pages are received from American Tripoli?

16                  MS. O'REILLY: Yes. As one document.  
17    That's all.

18                  JUDGE MORAN: Yes.

19                  BY MS. O'REILLY:

20           Q     Yes.

21           A     Yes, these are more teams messages.

22           Q     And do these appear to be records of

1 Teams messages like the messages that you sent and  
2 received while you were employed by American  
3 Tripoli?

4 A Yes.

5 Q And is it your understanding that only  
6 employees and owners of American Tripoli engaged  
7 in Teams messages at American Tripoli?

8 A Yes.

9 MS. O'REILLY: I'm going to move to  
10 admit Exhibit P13 into evidence.

11 MR. TIDABACK: No objection.

12 JUDGE MORAN: Harkening back to my  
13 remark earlier, hopefully, but it's up to you,  
14 there will only be some pages that you need for me  
15 to focus on with this witness and you'll identify  
16 those pages for me, and then in your post hearing  
17 brief you'll tell me why those pages are important  
18 in this proceeding.

19 MS. O'REILLY: Yes, Your Honor.

20 JUDGE MORAN: How many pages are you  
21 going to look at?

22 MS. O'REILLY: Multiple, but not all

1 four hundred. Not even a hundred.

2 JUDGE MORAN: Not even a hundred. Okay.

3 Go ahead.

4 BY MS. O'REILLY:

5 Q Please go to Page 55 of this document in  
6 P13.

7 A Okay.

8 Q Do you see a message from you to Russell  
9 Tidaback on February 14th at 12:39 p.m. towards  
10 the top of the page?

11 A Yes.

12 Q And it states, "MSHA inspector told me  
13 to lock the doors and no one was allowed in until  
14 he okayed it." Did I read that right?

15 A Yes.

16 Q What was this in reference to?

17 A This was the time that -- I can go -- I  
18 wasn't involved, but the time before this  
19 inspector had been there and written a bunch of  
20 warnings and citations that were supposed to be  
21 fixed, and showed back up and nothing had been  
22 done. And then I think he even gave us a few more

1 days and he showed back up, and this would be the  
2 day that nothing had been touched or fixed that he  
3 had written about, and said, no, all you guys are  
4 not allowed in the building until we get this  
5 figured out.

6 Q And that was in reference to MSHA's  
7 citations that had previously been issued that  
8 were not --

9 A Yes, ma'am.

10 Q And you were participating in this MSHA  
11 inspection on February 14th. Correct?

12 A Yeah. This one I was, yeah.

13 Q And if you go back to Page 54. At the  
14 bottom of the page there's another message from  
15 you on February 14th, at 1:13 p.m., and it states,  
16 "IDK. This guy is out for blood. We are removing  
17 product from the floor now." Did I read that  
18 correct?

19 A Yes.

20 Q What did you mean by this?

21 A Whenever he had came in, he expressed  
22 that he was very unhappy that nothing had been

1     done that we were supposed to be doing. I asked  
2     him, you know, hey, what do we need to be doing to  
3     make this right so you're not, you know, and he  
4     was talking about some product that was on the  
5     floor in front of an electrical box and then an  
6     oil dam that was underneath the tube mill.

7           Q     So at some point during this inspection  
8     you learned that there had been prior citations  
9     that had never been abated?

10          A     Yes. Yes. I thought, man, this guy is  
11     a -- not a very nice guy and then --

12                JUDGE MORAN: Meaning this guy meaning  
13     the MSHA inspector?

14                THE WITNESS: The MSHA inspector, yes.  
15     And then later he said, well, you know, I had  
16     asked him to get these citations. I had given him  
17     plenty of time to get this product off the floor  
18     and get the oil dam removed and some other stuff  
19     done, some guarding and stuff I believe it was.  
20     And that's when he informed me that he had been  
21     there and told them to do that, and I said, well,  
22     I wasn't aware of any citations that were written.

1 And he said, well, where do they post them? And I  
2 said, that's a good question. They weren't  
3 posted, and then that's when I learned that they  
4 were legally supposed to post all their violations  
5 for the employees to see and to -- so that then,  
6 this is kind of the initial of me really getting  
7 involved.

8 BY MS. O'REILLY:

9 Q So initially you were frustrated with  
10 the inspector?

11 A Oh, yeah. Yeah. I thought we're coming  
12 in here just to shut us down. They're being, you  
13 know, not nice.

14 Q And then later were you frustrated with  
15 American Tripoli because you found out about all  
16 these citations --

17 A Yeah.

18 Q -- that hadn't been fixed?

19 A Yes. I'm not sure, but I believe at  
20 that time there was 22 violations that needed to  
21 be fixed pretty quickly, and I didn't know  
22 anything about it. And I told him, I said, I feel

1 bad. I said, makes me look bad because nothing  
2 had been done.

3 Q But you had no knowledge to get anything  
4 done. You didn't know about those issues?

5 A I had no knowledge. That's when I  
6 learned they were supposed to post violations when  
7 they got them, and then yeah, nothing was ever  
8 said to us about getting any of the stuff done.

9 Q And a little further up on the same  
10 page, I think the third chat down there's a  
11 message from Russell Tidaback dated February 18th  
12 at 12:05 a.m. Do you see that?

13 A Yes.

14 Q And it says, "John Spears, Robert  
15 Baumann, I need to you two gentlemen over this  
16 weekend to think about what transpired with MSHA  
17 starting Monday. Make some notes initially on  
18 things you remember as next week I will need you  
19 to put the pieces together into a formal  
20 statement. What happened Monday should not have  
21 happened." Did I read that correct?

22 A Yes.

1           Q     Do you know what transpired with MSHA on  
2 Monday that this may be referring to? What did  
3 you understand this to be?

4           A     I believe it was all week. This is  
5 whenever, on the 14th inspection, and then they  
6 started -- because nothing had been done. That's  
7 when one of the things they said was shut the  
8 doors or whatever, and Russell said -- wanted to  
9 know why they came in and shut the doors. And he  
10 was asking me and John to think about, I really  
11 don't know, to plot against it. I really honestly  
12 didn't -- I didn't even think about it, to be  
13 honest with you. The inspector came in and the  
14 stuff wasn't fixed, he shut us down.

15          Q     Did anything other than the inspection  
16 occur on Monday, that you can think of?

17          A     Not that I knew.

18          Q     Did you prepare notes on this?

19          A     No.

20          Q     And why not?

21          A     I knew we were in the wrong.

22          Q     And by we, you mean American Tripoli?

1 A Yes.

2 Q Because American Tripoli had not fixed  
3 the citation?

4 A Yes.

5 Q And were you embarrassed by that?

6 A Yes.

7 Q I'm going to turn to Exhibit P26.

8 JUDGE MORAN: 26? 26?

9 MS. O'REILLY: Yes. Was P13 admitted?

10 (Complainant's Exhibit P-13 was  
11 marked for identification and  
12 received in evidence.)

13 JUDGE MORAN: One second. P13. Yes.  
14 Was -- it's about Pages 54 and 55. So are you  
15 now, on P26, sir?

16 THE WITNESS: Yes.

17 MS. O'REILLY: And I'll usurp that.  
18 We'll have a witness that can testify as to the  
19 authenticity and foundation of the exhibit, the  
20 inspections. I was just going to have him refer  
21 to a note here before we do that.

22 (Complainant's Exhibit P-26 was

1                   marked for identification and  
2                   received in evidence.)

3                   BY MS. O'REILLY:

4           Q       I think if you turn to Page 10 of P26.

5           A       Okay.

6           Q       And do you see a date at the top of  
7   March 1st, 2023?

8           A       Yes.

9           Q       Okay. And then could you turn to Page  
10   11.

11                  JUDGE MORAN: 11?

12                  MS. O'REILLY: Yes.

13                  BY MS. O'REILLY:

14           Q       And if you look at the bottom of Page  
15   11, there's some handwritten notes. They appear  
16   to say "Rob Baumann came into the office and said  
17   the feed elevator guard had fell off and come  
18   within 15 of hitting him on the ground. The guard  
19   fell off from at 40 feet." Do you see that?

20           A       Yes.

21           Q       Do you recall what this is -- this event  
22   is talking about?

1           A     Yes. I was making my rounds, looking  
2     at, inspecting the stuff, and the guard, I believe  
3     it -- it originated a shaft broke on top of the  
4     flour elevator, and it broke the guard off and it  
5     came and landed down by me.

6           Q     Okay. It did not hit you?

7           A     No.

8           Q     Was it close to hitting you?

9           A     Yes.

10          Q     And do you recall, do you recall who you  
11     reported that issue to?

12          A     Yes.

13          Q     Who?

14          A     Russell Tidaback. He was in -- in with  
15     MSHA inspectors at the time.

16          Q     So you reported it to both of them?

17          A     Yes.

18          Q     How did Mr. Tidaback react?

19          A     He blew it off. Ignored it.

20                 JUDGE MORAN: What do you base that on?

21                 THE WITNESS: I would have expected him  
22     to jump right up and make sure I was okay and

1 stuff like that, and he did not. Wanted to know  
2 what had happened, what broke, and eventually came  
3 out to see what the problem was.

4 MS. O'REILLY: Are you done with that?

5 JUDGE MORAN: Well, no, actually I was  
6 going to ask you about, I take it that P26 are  
7 MSHA inspectors notes?

8 MS. O'REILLY: Yes, Your Honor.

9 JUDGE MORAN: Okay. And absent Mr.  
10 Tidaback stipulating to their admission, you're  
11 going to wait to admit this through another  
12 witness who can identify these pages?

13 MS. O'REILLY: Correct.

14 JUDGE MORAN: And do you stipulate, you  
15 don't have to, I'm just asking if you're going to  
16 stipulate to P26?

17 MR. TIDABACK: I do not, Your Honor.

18 JUDGE MORAN: You do not. Okay. I just  
19 wanted to note that so we're clear. Okay. Go  
20 ahead.

21 BY MS. O'REILLY:

22 Q And what -- you mentioned a guard fell

1 down. Do you know what that issue was, what  
2 happened there?

3 A I honestly don't remember fully. I  
4 think that a shaft actually broke and it broke the  
5 bolts off the -- off the guard itself and popped  
6 it up, popped it way up in the air and it fell  
7 off, landed by me.

8 Q Do you know if that guard had been  
9 having any issues prior to this incident?

10 A Yes. We had been hearing noises from  
11 the elevator themselves.

12 Q Did you ever raise concern about those  
13 noises?

14 A Yes.

15 Q To who?

16 A John Spears.

17 Q And that was prior to this incident?

18 A Yes.

19 Q And did John Spears say anything when  
20 you raised that issue?

21 A That we would look at it at our next  
22 maintenance day.

1 Q Did it get looked at the next  
2 maintenance day?

3 A No.

4 Q After you started participating in MSHA  
5 inspections in February, were you more aware of  
6 the safety issues around the mine?

7 A Yes.

8 Q Is that because you spoke to MSHA about  
9 MSHA standards?

10 A Yes.

11 Q In turn, did this start make -- make you  
12 start raising more safety issues to management at  
13 American Tripoli?

14 A Yes.

15 Q And why did you do that?

16 A Most of it was actually just to get us  
17 in compliance so we could run through MSHA.

18 Q Were you also concerned about safety?

19 A Oh, yes.

20 Q Before your MSHA inspection, before  
21 participating in MSHA inspections did you know how  
22 dangerous silica dust was?

1           A     I knew it was dangerous, but not to the  
2     extent of what I learned.

3           Q     Did you start raising dust issues to  
4     management?

5           A     Yes.

6           Q     Did you do that frequently?

7           A     Yes.

8           Q     And who would you raise those issues to?

9           A     John Spears.

10          Q     And about how many times would you say  
11     you raised dust issues to John Spears in your  
12     employment?

13          A     My total employment or just that one  
14     time?

15          Q     Let's say your total employment.

16          A     Between inside and outside, at least 15  
17     or 20.

18          Q     And outside, are you referring to the  
19     issues with the sheriff about the --

20          A     Yes.

21          Q     -- dust going out into the community?

22          A     Yes.

1           Q     Not just talking about dust issues, but  
2     any safety issues, how many times would you say  
3     you raised safety concerns to Mr. Spears in the  
4     two months before your termination?

5           COURT REPORTER: I think it froze again.  
6     I'm not seeing any response or movement. If you  
7     answered, I didn't get any of the answer.

8           JUDGE MORAN: Thank you for  
9     interjecting. So she did not -- you'll have to  
10    repeat your answer.

11          A     Okay. At least ten times.

12          JUDGE MORAN: Are we having problems  
13    still?

14          THE VIDEOGRAPHER: No, I think we're  
15    good.

16          THE WITNESS: Are we, Court Reporter?

17          COURT REPORTER: No, I think we're fine.  
18    No, actually it looks like he froze again. Oh,  
19    he's moving. I can see him moving.

20          THE WITNESS: Are we good now?

21          COURT REPORTER: We're good now.  
22

1 BY MS. O'REILLY:

2 Q Okay. When you mentioned you raised  
3 complaints to Mr. Spears, did you raise those in  
4 person?

5 A Yes. Most of them.

6 Q Did you sometimes raise them in Teams?

7 A Yes.

8 JUDGE MORAN: So I take it, tell me if  
9 I'm correct about this, because of Teams, am I  
10 correct that you wouldn't or did not issue a piece  
11 of paper, write something down and hand it to Mr.  
12 Spears or Seers?

13 MR. O'REILLY: Yeah, Spears.

14 JUDGE MORAN: Spear. You didn't hand  
15 him a piece of paper. If you communicated with  
16 him, was either in person or through Microsoft  
17 Teams. Is that fair?

18 THE WITNESS: That is fair.

19 JUDGE MORAN: So you didn't have any  
20 protocol where you give him a piece of paper and  
21 write out guard fell from 40 feet. You didn't do  
22 that?

1 THE WITNESS: No.

2 JUDGE MORAN: Okay. Go ahead.

3 BY MS. O'REILLY:

4 Q Did you ever raise any safety concerns  
5 to Mr. Tidaback?

6 A There was maybe a few discussions on  
7 Teams, especially about the guys were stacking ten  
8 high on a hundred pound bags, and I think maybe he  
9 got involved in on some of that on Teams maybe.

10 Q And you were raising concerns about  
11 stacking bags too high?

12 A Yes.

13 Q What was your concern with that?

14 A The guys that came to me after we  
15 started, because we had only been going five high  
16 and there were some orders for ten high and the  
17 guys were concerned about their safety lifting  
18 hundred pound bags that high. So I brought it up  
19 to John Spears and he said, well, you know, that's  
20 just what the order calls for. We got to do what  
21 we gotta do. So we had had an MSHA inspection  
22 during that time. Sometime -- we had them all the

1 time at that time, but anyway, I brought it -- I  
2 asked the MSHA inspector what his opinion was on  
3 asking the guys to stack a hundred pound bags ten  
4 high was, and he said it's totally fine if there  
5 is a safe way to do it.

6 Q And how heavy were those bags?

7 A A hundred pounds.

8 Q And if you had to stack them ten high,  
9 about how high would that stack be?

10 A Approximately six foot.

11 Q And how tall are you?

12 A Six foot.

13 Q So you'd have to raise it over your  
14 head?

15 A Yes.

16 Q And did that safety -- did that issue  
17 get resolved while you were still employed with  
18 American Tripoli?

19 A We just started going five high and  
20 double stacking while I was there, because I told  
21 them that I wasn't going to make the guys do ten  
22 high because they couldn't -- they didn't have

1 anything to lower -- to do it to where they could  
2 do it safely.

3 Q Were you ever told that -- were you ever  
4 told from anyone in American Tripoli management  
5 that they were not going to fix safety issues you  
6 raised?

7 A Yes.

8 Q Can you give an example?

9 A The oil -- there was a dam underneath  
10 the tube mill that was made of material, tripoli,  
11 and we oiled the tube mill, just pouring it down  
12 in a tube to where it would get on the gears. So  
13 the oil ran down and it dammed up underneath the  
14 tube mill. And MSHA had -- and I would have never  
15 thought about it, but MSHA wrote a citation on it  
16 saying it was a fire hazard, the oil being dammed  
17 up. There was no way of removing it, or not  
18 cleaning it up, you know. And I multiple times  
19 tried to clean the oil and get the dam and was  
20 told we're not doing that.

21 Q And with that, did that occur at some  
22 point after the 2023 inspection you participated

1 in?

2 A Yes.

3 Q Sometime in the last few months of your  
4 employment?

5 A Yes. And then there was product on the  
6 floor in front of an electrical thing, so I had  
7 started sweeping. We had started sweeping and  
8 cleaning it up and got told we're not doing that.  
9 We're going to reuse it. We're going to put it  
10 back in. I said, well, the MSHA inspector said  
11 that it needed to be -- needed to be not where it  
12 is because it's covering that entranceway to an  
13 electrical box.

14 Q And when did you raise that issue? Do  
15 you recall?

16 A Within -- within two months of getting  
17 fired.

18 Q Let's go back to Exhibit P13. And I'll  
19 have you turn to Page 31. That will be Volume 1.

20 JUDGE MORAN: Okay. P13. What page?

21 MS. O'REILLY: 31.

22

1 BY MS. O'REILLY:

2 Q At the bottom of Page 31 do you see a  
3 message from yourself, Robert Baumann, on March  
4 15th at 5:07 p.m.?

5 A Yes.

6 Q And looks like you sent this message in  
7 the mill group chat. Do you see that?

8 A Yes.

9 Q Does that mean this message would have  
10 gone to all the employees in the mill group chat?

11 A To everyone, yes.

12 Q And when you say everyone, was everyone  
13 part of the mill group chat?

14 A Yes.

15 Q All the mill employees?

16 A All the mill employees and everyone,  
17 yes.

18 Q Was Mr. Tidaback part of the mill group  
19 chat?

20 A Yes.

21 Q Was Mr. Spears?

22 A Yes.

1           Q     And this message reads -- looks like  
2     there's a captured photo that didn't come through.  
3     Right?

4           A     Yes.

5           Q     And then it reads, "Sweeping up by  
6     palletizer and we have live wires coming through  
7     the floor. Sparked through the broom, shutting  
8     this area off." Did I read that correct?

9           A     Yes, you did.

10          Q     And then toward the top of the page you  
11     say, at 5:35 p.m., again in the mill group chat,  
12     "John Spears, I wonder how long it's been like  
13     that. I will cut power to the whole building in  
14     the morning and solve the issue. I'm just  
15     thankful no one stepped on it."

16          A     Yes.

17          Q     Do you see that?

18          A     Yes.

19          Q     Were you concerned somebody was going to  
20     get hurt with this issue?

21          A     Well, yes.

22          Q     Is that why you wanted to cut the power?

1           A       Yes.

2           Q       Why did you want to cut power to the  
3 whole building?

4           A       Because none of the breakers were  
5 labeled, so we didn't know what was energizing  
6 that wire. You couldn't tell where it was going  
7 into what.

8           Q       So the only way to be sure that you'd  
9 shut down the right breaker would be to shut down  
10 the whole building?

11          A       Yes.

12          Q       Then if you go to Page 30.

13                 JUDGE MORAN: Before you go to Page 30,  
14 though, let me just ask a question. Do you  
15 remember on Page 31, you just read on the entry  
16 for 5:07 p.m. You see that one? It's almost at  
17 the very bottom.

18                 THE WITNESS: Yes.

19                 JUDGE MORAN: Okay. Am I correct it  
20 reads, "And we have live wires coming through the  
21 floor, sparked through the broom."

22                 THE WITNESS: Yes.

1 JUDGE MORAN: What does that mean,  
2 sparked through the broom? What are you talking  
3 about?

4 THE WITNESS: The mine associate was  
5 sweeping the product, the tripoli, because it's  
6 like a powder, but it's also a conductor. And  
7 went across -- there was a wire that had been, for  
8 I don't know how many years. It had probably been  
9 there for years and he just hit it just right with  
10 that broom and it -- and it burnt up through the  
11 broom and sparked. So we kind of, you know,  
12 brushed the stuff away from it, and you can see  
13 the wire that had been cut off totally even with  
14 the wooden floor.

15 JUDGE MORAN: Okay. Thank you. Now  
16 what page did you want to go to?

17 MS. O'REILLY: Page 30. Just the page  
18 before.

19 THE WITNESS: Yes.

20 BY MS. O'REILLY:

21 Q And this message is at -- is from  
22 Russell Tidaback. Correct? The second message on

1 this page.

2 A Yes.

3 Q And it says March 16th at 6:24 a.m.?

4 A Yes.

5 Q And it says, "Robert Baumann. Robert  
6 Baumann, we don't need to shut the building down.  
7 Tape off the area so no one can step on it or near  
8 it." Did I read that correct?

9 A Yes.

10 Q What did you end up doing with the live  
11 wire that you found?

12 A I put caution tape around a pretty good  
13 area around it, and brought it -- brought it up.  
14 I don't know. It took about two weeks finally and  
15 then we got a maintenance partner that was smart  
16 on electricity. He was able to isolate where the  
17 power that was going to it, so he shut it off and  
18 we removed it."

19 Q And I guess just to clarify, did you  
20 understand this to be the response from Mr.  
21 Russell Tidaback to the issue about the live wire  
22 you raised on Page 31?

1 A Yes.

2 JUDGE MORAN: That's helpful.

3 BY MS. O'REILLY:

4 Q And so you ended up following this  
5 advice and just taping off the area rather than  
6 shutting down the plant like you wanted to?

7 A Yes.

8 Q Did you feel like keeping the power  
9 going to these live wires was a safe solution to  
10 this problem?

11 A No.

12 Q Is this typical of the type of responses  
13 you would get to raising safety issues at the  
14 mine?

15 A Yes.

16 Q Were you often just told to do something  
17 in response to a safety concern that did not  
18 actually fix the issue at hand?

19 A Yes.

20 Q And you mentioned this live wire stuck  
21 around like this for about two weeks?

22 A Yes.

1 Q And this was on March 15th and 16th of  
2 2023 when this was first kind of addressed.

3 Correct?

4 A Yes.

5 Q About a month before you were  
6 terminated?

7 A Yeah.

8 Q Did you ever raise other electrical  
9 concerns to Mr. Spears or Mr. Tidaback?

10 A Yes.

11 Q When did you raise those?

12 A Off and on throughout, but mostly the  
13 past two months prior up to the time of me getting  
14 terminated.

15 Q About how many electrical issues did you  
16 raise, do you think did you raise?

17 A At least four or five, six. I mean,  
18 there was just so many different instances with  
19 stuff it's hard to.

20 Q And how did they respond when you raised  
21 those electrical safety issues?

22 A Usually just ignored it.

1           Q     They usually ignore a lot of your safety  
2 concerns that you raised?

3           A     Yes.

4           Q     And when you say ignored it, did they  
5 just not respond or what do you mean?

6           A     They just wouldn't respond.

7           JUDGE MORAN: So I will interject again.  
8 When you said that there were like four or so  
9 other occasions.

10          THE WITNESS: Yeah.

11          JUDGE MORAN: Do you happen to recall  
12 the specifics of any of those four?

13          THE WITNESS: There was one really  
14 specific one. So the bagger, it bags. It shoots  
15 product into a hundred pound bags. They had had  
16 multiple problems. It started giving them  
17 problems, and Mr. Tidaback and Mr. Spears were  
18 telling the gentlemen, the mill associates to run  
19 it. The electrical box was open with a jump wire  
20 across it, and they were telling them to run it  
21 like that, running a little toggle manual switch.  
22 And I brought that up multiple times to both of

1     them.

2                   JUDGE MORAN:   And do you remember what  
3     -- did they respond to you, or did they -- when  
4     you brought that up to their attention, what, if  
5     anything, did they say to you about that specific  
6     issue?

7                   THE WITNESS:   That specific issue was  
8     that they were trying -- they were -- naturally,  
9     they were working on the bagger, and John just  
10    told me to put caution tape around it, but they  
11    were still, the mill workers were still told to  
12    break that barrier to go in there to try and run  
13    the product.

14                  JUDGE MORAN:   And do I understand your  
15    testimony correctly that the temporary solution  
16    was to toggle the switch on and off?

17                  THE WITNESS:   Yes.   There was -- it's  
18    kind of hard to explain, but the bag clicks on and  
19    it was running this perimeter switch that would  
20    tell the product to go into the bag, and yeah,  
21    they would -- they would just put the bag on  
22    there, and there was a switch that you could

1     override, put there and then you had to watch the  
2     scale, and they were trying to get bags out that  
3     way.

4             JUDGE MORAN:   Okay.   Thank you.   Go  
5     ahead, Attorney O'Reilly.

6             BY MS. O'REILLY:

7             Q     I'm going to turn to Exhibit P2.

8             JUDGE MORAN:   How's my court reporter  
9     doing?

10            COURT REPORTER:   Just fine.

11            JUDGE MORAN:   Thank you.

12            BY MS. O'REILLY:

13            Q     Do you have the document P2?   Sorry.

14            A     Yes.   I'm there.

15            Q     Do you know what this document is?

16            A     The discrimination complaint.

17            Q     P2?

18            JUDGE MORAN:   You have to guess again.  
19     On the top of the page there's a hint.

20            A     Okay, yeah.   Reset Form.

21            JUDGE MORAN:   Well, it wasn't that.

22            THE WITNESS:   This is the paper where I

1 was elected to be the miners rep.

2 BY MS. O'REILLY:

3 Q And is this the Miners Representative  
4 Form you filled out?

5 A Yes.

6 Q At the bottom, is that your signature?

7 A Yes.

8 Q And there's a date, 3-21-2023?

9 A Yes.

10 Q Is that the date you filled out this  
11 form?

12 A Yes.

13 Q Is that also the date you signed it?

14 A Yes.

15 Q Do you see where, in Item 2 towards the  
16 top, it's marked confidential?

17 A Yes.

18 Q And do you know why that was marked?

19 A To keep -- because the miners didn't  
20 want John or Russell knowing who they -- that they  
21 had proposed for me to be the miners rep.

22 Q And did they ever tell you why they

1 wanted it to be confidential?

2 A They didn't want to get fired.

3 Q And I will represent that due to this  
4 confidential marking the Secretary's attorneys  
5 redacted the name so that is going to look  
6 different when I ask you this question, but other  
7 than the redaction, is this a true and accurate  
8 copy of your Miners Representative Form?

9 A Yes.

10 MS. O'REILLY: I move to admit Exhibit  
11 P2.

12 JUDGE MORAN: Any objection?

13 MR. TIDABACK: No. I have to say no.

14 JUDGE MORAN: Okay. Exhibit P2 is  
15 admitted.

16 (Complainant's Exhibit P-2 was  
17 marked for identification and  
18 received in evidence.)

19 BY MS. O'REILLY:

20 Q What did you do with this form after it  
21 was filled out?

22 A I gave it to the MSHA inspector.

1 Q And do you know if that would have been  
2 on March 21st, 2023 when you did that?

3 A Yes.

4 Q And which MSHA inspector did you give it  
5 to?

6 A Keith Markeson.

7 Q Do you know what happened after this  
8 form was given to Mr. Markeson?

9 A I believe he was going to make a copy  
10 and give it to John, and then, you know, get  
11 everything filed for me, and then I kept a copy.

12 Q Did you ever tell Mr. Spears that you  
13 were elected a miners representative?

14 A No.

15 Q Do you know if MSHA ever told Mr. Spears  
16 that?

17 A Yes.

18 Q After March 21st, 2023, did you start  
19 participating in MSHA inspections as a miners  
20 representative?

21 A Yes.

22 Q Prior to March 21st, 2023 you

1 participated in MSHA inspections, just not as an  
2 official miners representative?

3 A Yes.

4 Q Did your participation in MSHA  
5 inspections change after you became a miners  
6 representative?

7 A Yes. Naturally, because I was looking  
8 for more -- looking to better the miners there.

9 Q And why did you become a -- why did you  
10 become a miners representative?

11 A To make sure that I knew that what all  
12 the violations that they were getting and stuff  
13 was and what was being done about them.

14 Q Were you concerned about miner safety in  
15 becoming the miners representative?

16 A Yes.

17 Q Were you hoping through this position  
18 you could help advance miner safety at the mine?

19 A Yes.

20 Q And you became this miners  
21 representative about three weeks before you were  
22 terminated. Is that correct?

1           A       Yes.

2           Q       And after becoming a miners  
3 representative you participated in still multiple  
4 other MSHA inspections before your termination?

5           A       Yes.

6                   MS. O'REILLY: Your Honor, I know out  
7 mentioned a 12:30 break. The next part I'm going  
8 to get into is a little bit longer. It's several  
9 pages. I didn't know if you wanted stop now or  
10 you want me to continue.

11                  JUDGE MORAN: I think that is wise.  
12 This is a good time to stop. We did start a  
13 little after 9:00, so it's been productive,  
14 especially given the more complex arrangement we  
15 have for recording this. So court reporter, can  
16 you hear me, I hope?

17                  COURT REPORTER: Yes, I can.

18                  JUDGE MORAN: We're going to take a  
19 pause. This is Judge Moran speaking, obviously.  
20 It's 12:26 Central Time. We'll begin at 1:25  
21 Central Time. Will you be available for us, we  
22 hope?

1 COURT REPORTER: Yes.

2 JUDGE MORAN: Thank you for your  
3 assistance up to now. Okay?

4 COURT REPORTER: Thank you.

5 JUDGE MORAN: We'll see you in a little  
6 less than an hour. Yes?

7 COURT REPORTER: Yes. Thank you.

8 JUDGE MORAN: Okay. We're off the  
9 record now.

10 MS. O'REILLY: And just to clarify, Mr.  
11 Baumann, we'll still be continuing your testimony  
12 after just so you know to come back.

13 JUDGE MORAN: Let's be careful. To the  
14 point of being rude, I don't want to see you  
15 talking with anyone and I don't want Mr. Tidaback  
16 to tell me he saw you speaking with someone.  
17 Okay?

18 THE WITNESS: I honestly thought that it  
19 was okay as long as it wasn't about the case.

20 JUDGE MORAN: Now you know it's broader  
21 than that. It's like you've never met him before,  
22 or don't want to.

1 THE WITNESS: I honestly didn't --  
2 honestly didn't know or even think about it, Your  
3 Honor.

4 JUDGE MORAN: See you all in 55 minutes.

5 (Recess)

6 JUDGE MORAN: All right. We're back on  
7 the record. I'll turn it back over to Attorney  
8 O'Reilly.

9 BY MS. O'REILLY:

10 Q Mr. Baumann, I'll have you turn to  
11 Exhibit P13.

12 JUDGE MORAN: P what?

13 MS. O'REILLY: 13.

14 BY MS. O'REILLY:

15 Q I'll have you turn to Page 27.

16 JUDGE MORAN: What number again?

17 MS. O'REILLY: 27.

18 BY MS. O'REILLY:

19 Q And do you see a message from yourself,  
20 from Robert Baumann on March 21st at the top of  
21 that page?

22 A Yes.

1           Q     Just to clarify, March 21st would be  
2     March 21, 2023.   Correct?

3           A     Yes.

4           Q     And it looks like the message was sent  
5     in the mill group text?

6           A     Yes.

7           Q     And you testified earlier that would  
8     have included Mr. Tidaback and Mr. Spears?

9           A     Yes.

10          Q     And this message said, "Okay.   So MSHA  
11     seen the ten stacking and said absolutely no.   So  
12     we will move to next order continuing five high.  
13     Unless Russell Tidaback had a better option.   They  
14     started without a platform -- they stated without  
15     a platform nothing over waist high"?

16          A     Yes.

17          Q     Did I read that correctly?

18          A     Yes.

19          Q     And I believe we talked about this  
20     earlier.   Is this the stacking issue that you had  
21     been raising?

22          A     Yes.

1 Q And was this the only time you raised  
2 that issue?

3 A No.

4 Q Looks like this is also something you  
5 talked with them -- about with them?

6 A Yes.

7 Q Did anyone ever get hurt stacking bags?

8 A I had filled out one incident report.

9 Q And when did you do that?

10 A I don't remember the exact date, but  
11 there should be a paper on it, and I believe it  
12 was -- it would have been around the time that we  
13 started on the hundred -- or the ten high  
14 stacking.

15 Q About when did you start on that ten  
16 high stacking?

17 A It would have been probably about a week  
18 prior to this, pretty close to it, or right around  
19 the 3-20 mark.

20 Q Okay. And then can you next turn to  
21 Page 314 of P13.

22 A Okay.

1           Q     And in the middle of the page do you see  
2     a message from Mr. Tidaback dated March 24th, from  
3     5:42 p.m.?

4           A     Yes.

5           Q     And I'm going to read it. It states,  
6     "Did all the mill associates get their 40 hours  
7     this week. If not, John Spears, maybe they will  
8     want to come in and work some hours over the  
9     weekend to get these repaired. We don't want to  
10    use production schedule time to do maintenance."  
11    Did I read that correct?

12          A     Yes.

13          Q     What did you understand this to mean?

14          A     That if they -- if the associates did  
15    not get their 40 hours in that week, that they  
16    were going to be asked or told to come in that  
17    Saturday to work on maintenance stuff.

18          Q     And then what did you understand the  
19    statement about not wanting to use production time  
20    to do maintenance?

21          A     That we weren't to shut down from  
22    producing to fix things.

1 Q And had you heard statements like this  
2 before?

3 A Multiple times.

4 Q I'm going to Exhibit P21.

5 A Okay.

6 Q And we've been talking about the time  
7 period after February 13th, 2023 when you first  
8 started walking around with MSHA during the  
9 inspection. Right?

10 A Yes.

11 Q And it looks like, on March 28th, 2023,  
12 another inspection MSHA inspection started. Is  
13 that correct?

14 A That's correct.

15 Q And that one lasted until April 10th of  
16 2023?

17 A Yes.

18 Q And did you participate in that  
19 inspection as well?

20 A Yes.

21 Q At that time you would have been a  
22 miners rep participating. Correct?

1           A       Yes.

2                   JUDGE MORAN:   And again, you're on P21.

3   Right?

4           MS. O'REILLY:   Yes.

5           JUDGE MORAN:   Okay.

6           BY MS. O'REILLY:

7           Q       And I'm going to have you turn the page  
8   to Exhibit P12.   Do you know what this document  
9   is?

10          A       Yes.

11          Q       And you understand this to be discovery  
12   that American Tripoli produced in litigation in  
13   this case?

14          A       Yes.

15          Q       And does this appear to be a true and  
16   accurate copy of the discovery American Tripoli  
17   submitted in this case?

18          A       Yes.

19                 MS. O'REILLY:   I would move to admit  
20   Exhibit P12.

21                 JUDGE MORAN:   I'm a little behind you  
22   here.   You're asking him to identify the

1 Respondent's Third Interrogatories Answers and  
2 Responses for Production of Documents?

3 MS. O'REILLY: Yes.

4 JUDGE MORAN: Okay. All right.  
5 Continue. Do you move to admit?

6 MS. O'REILLY: Yes. I'd like to move to  
7 admit this exhibit, P12.

8 JUDGE MORAN: Tell me a little bit more.  
9 I want to make sure I understand what I'm looking  
10 at here. This is not just your request. It's  
11 what was produced?

12 MS. O'REILLY: Well, the way -- this is  
13 the way it was produced to us, this one document,  
14 so this is the response and then there are also  
15 Teams messages attached to it, but they were  
16 produced as a document.

17 JUDGE MORAN: Okay. And, Mr. Tidaback,  
18 I assume you've seen this. You have this document  
19 in front of you as well?

20 MR. TIDABACK: Yes, sir.

21 JUDGE MORAN: So it does reflect what  
22 you submitted to the Secretary?

1 MR. TIDABACK: It appears so, yes. Your  
2 Honor.

3 JUDGE MORAN: So you have no objection  
4 to this. Is that right?

5 MR. TIDABACK: No objection.

6 JUDGE MORAN: Okay. P12 is admitted.

7 (Complainant's Exhibit P-12 was  
8 marked for identification and  
9 received in evidence.)

10 BY MS. O'REILLY:

11 Q And looks like at the beginning of this  
12 document there's been discovery responses, and  
13 then starting on Page 9 do you see some more Teams  
14 messages?

15 A Yes.

16 Q And do these look like copies of Teams  
17 chat messages like the ones you sent and received  
18 while working at American Tripoli?

19 A Yes.

20 Q And I'm going to have you to turn to  
21 Page 18.

22 A Okay.

1           Q     And the second message, second Teams  
2     message on Page 18, do you see that it says it's  
3     from you?

4           A     Yes.

5           Q     And who do you understand that you to  
6     be?

7           A     Russell's face by it, so it would be  
8     Russell.

9           Q     And you mean Mr. Tidaback?

10          A     Yes.

11          Q     And it says -- it looks like it's a  
12     message to the ATMO safety. Do you see that?

13          A     Yes.

14          Q     Were you part of that group?

15          A     I don't remember -- see, I should have  
16     been.

17          Q     Okay. As of March 31st, the date of the  
18     message?

19          A     Yes.

20                 JUDGE MORAN: Can you have him identify  
21     if he knows what ATMO stands for?

22

1 BY MS. O'REILLY:

2 Q Yeah. What does ATMO safety stand for?

3 A American Tripoli --

4 JUDGE MORAN: Safety what?

5 THE WITNESS: Yeah. I mean, safety  
6 group.

7 JUDGE MORAN: Okay. Thank you.

8 BY MS. O'REILLY:

9 Q And so would this have contained  
10 yourself and then Mr. Tidaback and Mr. Spears?

11 A Mr. Molesi.

12 Q Because he was the safety employee?

13 A Yes.

14 Q And this message dated March 31st, "I  
15 will stress with you -- any MSHA inspector is not  
16 your friend. Anything you say to or in their  
17 presence can," in all caps, "and will be used  
18 against you in court of law. Hopefully this will  
19 never be needed, but just be well aware."

20 A Yes.

21 Q I read that correctly?

22 A Yes, you did.

1 JUDGE MORAN: So let me just -- so I can  
2 appreciate this remark. You understand this, Mr.  
3 Baumann, as being a response from Mr. Tidaback to  
4 the safety group?

5 THE WITNESS: Yes.

6 JUDGE MORAN: And again, tell me who's  
7 in the safety group. Are you? The safety group  
8 at this point in time on March 31st.

9 THE WITNESS: Yes.

10 JUDGE MORAN: Who else was in the safety  
11 group, if you know?

12 THE WITNESS: To my knowledge, it would  
13 have been Russell, Jordan, John, myself and Jesse,  
14 the safety director at that time.

15 JUDGE MORAN: Okay. Jesse it sounds  
16 like in the next line, Jesse Molesi?

17 THE WITNESS: Yes.

18 JUDGE MORAN: Okay. Go ahead, Attorney  
19 O'Reilly.

20 BY MS. O'REILLY:

21 Q It looks like this message would have  
22 been sent during the time period of an MSHA

1 inspection that we just talked about?

2 A Yes.

3 Q And was this the first time that Mr.  
4 Tidaback had made comments like this for you?

5 A No.

6 Q And what did you take this comment to  
7 mean?

8 A As a warning not to speak MSHA  
9 inspectors.

10 Q And what did you understand used against  
11 you in a court of law to mean?

12 A Like MSHA was coming after us as  
13 employees.

14 Q And were you ever told that MSHA would  
15 give citations to miners while you worked at  
16 American Tripoli?

17 A Yes.

18 Q Who told you that?

19 A Management.

20 JUDGE MORAN: That's kind of vague.

21 THE WITNESS: Yeah, I mean --

22 JUDGE MORAN: Do you remember who told

1     you something like that?

2                   THE WITNESS:   Actually, I did directly  
3     hear it from Russell Tidaback.

4                   JUDGE MORAN:   Saying what?

5                   THE WITNESS:   That MSHA can issue  
6     individual citations to an individual that works  
7     at the mine.

8                   MR. TIDABACK:   Your Honor.

9                   JUDGE MORAN:   Do you have an objection?

10                  MR. TIDABACK:   He just said he didn't  
11     know and now he now is stating that he does know,  
12     so that would be speculation.

13                  JUDGE MORAN:   Okay.   Well, and I have a  
14     different take on that.   I thought just listening  
15     to him that at first you're right, he said he  
16     didn't know, but people do sometimes pause and  
17     think and then you then amplified or corrected  
18     your answer.   Is that true?

19                  THE WITNESS:   Yes, Your Honor.

20                  JUDGE MORAN:   But you can -- that's  
21     still a ground for cross-examination.   You know,  
22     it's classic cross-examination often in the

1 situation where a person says in a deposition,  
2 then in the courtroom they say something else and  
3 they say didn't you say on this time this and now  
4 you're saying this, and that's to show  
5 inconsistency and lack of credibility on that  
6 point. That's the purpose. That's fine. I  
7 accept and I'm glad to explain things to you. At  
8 least that's my take. But that doesn't stop you  
9 from, if you think it's worthwhile, I can't make  
10 that judgment, to pursue when you have the  
11 opportunity to cross-examine Mr. Baumann. Okay.

12 Court reporter, did not hear this? Go  
13 ahead, again, Attorney O'Reilly.

14 BY MS. O'REILLY:

15 Q I'll have you turn to Page 19 of Exhibit  
16 P12. And I'll direct your attention to the second  
17 message from you, and again, who do you understand  
18 you to be?

19 A Mr. Tidaback.

20 Q And then at the top it says Jim Huber.  
21 Do you understand that that would a message to Jim  
22 Huber?

1 A Yes.

2 Q And who is Jim Huber?

3 A He was a mill associate.

4 Q He was an American of American Tripoli?

5 A Yes.

6 Q And this is dated March 28th. Do you  
7 see that?

8 A Yes.

9 Q And it states "Jim Huber, I get along  
10 with them great. Remember... MSHA inspectors are  
11 not your friends. They can and will us anything  
12 and everything against you in a court of law."  
13 Did I read that correct?

14 A Yes, you did.

15 Q Is this similar to the other  
16 communications you have received from Mr.  
17 Tidaback?

18 A Yes.

19 Q Were you concerned that miners would be  
20 afraid of talking to MSHA because of statements  
21 like these?

22 A Yes.

1 Q Were you concerned you could be  
2 retaliated against if you spoke to MSHA?

3 A Yes.

4 Q And was that because of messages like  
5 this?

6 A Yes.

7 Q I'm going to direct your attention back  
8 to Exhibit P13 and send you to Page 220.

9 JUDGE MORAN: Have him turn where again,  
10 please?

11 MS. O'REILLY: 220.

12 JUDGE MORAN: Thank you.

13 BY MS. O'REILLY:

14 Q And I'll direct your attention to a  
15 message from John Spears in the middle of the page  
16 on April 4th at 8:15 a.m. Do you see that?

17 A Yes.

18 Q It says it's to the mill group chat, and  
19 again, is that with all the mill associates?

20 A Yes. All employees.

21 Q And this statement says, "Everyone done  
22 very well yesterday. Let's keep this going." Do

1     you see that?

2             A       Yes.

3             Q       And that was sent on April 4th, 2023?

4             A       Yes.

5             Q       And then I'm going to have you go back  
6     to Exhibit P21.

7             A       Okay.

8             Q       And we've been talking about two MSHA  
9     inspections that happened the last two months of  
10    your employment, and it looks like they were the  
11    third MSHA inspection that started on April 11th,  
12    2023. Is that correct?

13            A       Yes. That's correct.

14            Q       And did you also participate in that  
15    MSHA inspection?

16            A       Yes.

17            Q       And that was open just six days before  
18    your termination?

19            A       Yes.

20            Q       And this MSHA inspection where the  
21    104(b) stop issue was issued?

22            A       Yes.

1 JUDGE MORAN: You are on the one page  
2 exhibit of P21?

3 MS. O'REILLY: Yes.

4 JUDGE MORAN: Okay.

5 BY MS. O'REILLY:

6 Q Did Mr. Spears know that you were  
7 involved in this inspection that led to the mine  
8 being shut down?

9 A Yes.

10 Q And how do you know that?

11 A We had discussed it. He seen me with  
12 the inspectors.

13 Q May I have you turn to Exhibit P31 which  
14 is in Volume 2. Do you know what this document is  
15 showing?

16 A It's a screen shot.

17 Q And do you see the word Rob at the top?

18 A Yes.

19 Q Do you know who Rob is referring to?

20 A That would be me.

21 Q Do you know whose phone this is?

22 A This appears to be John Spears' phone.

1           Q     And does it looks like the message is in  
2     the gray, would those have been a message you sent  
3     to Mr. Spears?

4           A     Yes.

5           Q     And then do you recall sending this  
6     message?

7           A     Yes.

8           Q     And it looks like you're talking about  
9     in this message that -- about you can go into the  
10    building, just no electric. And then at the end  
11    it says, "I can check and work at least getting  
12    that ready Friday if he would at least like that  
13    done since he has to pay us anyway." Do you see  
14    that?

15          A     Yes.

16          Q     Do you know what that was in reference  
17    to, saying he has to pay us anyway?

18          A     That was because of the shutdown, and I  
19    found out that they were obligated to pay us for  
20    so many hours.

21          Q     And were you asserting that to Mr.  
22    Spears in this message?

1           A       Yes.

2           Q       It looks like this message took place on  
3 April 12th. Is that correct? Do you see that?

4           A       That's correct.

5           Q       And is this a true and accurate copy of  
6 a text message you send to John Spears on April  
7 12th, 2023?

8           A       Yes.

9                   MS. O'REILLY: I move to admit Exhibit  
10 P31 into evidence, and I will also note this is  
11 produced in discovery by Respondent.

12                  JUDGE MORAN: You said it was submitted  
13 by Respondent in discovery? P31. Any objection?

14                  MR. TIDABACK: No.

15                  JUDGE MORAN: Okay. It's admitted.

16                               (Complainant's Exhibit P-31 was  
17 marked for identification and  
18 received in evidence.)

19                  BY MS. O'REILLY:

20           Q       At the time that you had sent this  
21 message, had you already been sent home under the  
22 withdrawal order?

1 A Yes.

2 Q And you did not return to the mine until  
3 April 17th when you were terminated?

4 A Yes.

5 Q I'm going to have you go back to Exhibit  
6 P13. That's in Volume 1. We have to change  
7 notebooks. I'll direct you to Page 211.

8 A Okay.

9 Q And in the middle of Page 211 do you see  
10 a message from John Spears dated 4-11 at 8:08  
11 a.m.?

12 A Yes.

13 Q And that message looks like it was sent  
14 to the mill group chat. Is that correct?

15 A That is correct.

16 Q And you were a part of that chat?

17 A Yes.

18 Q And this message states, "Good morning  
19 crew. We will finish SO 325 this morning.  
20 Everyone did very well yesterday with pallets and  
21 color bearing and staging product. Thank you."  
22 Did I read that portion of the message correctly?

1           A       Yes.

2           Q       And would April 11th have been the last  
3 day that you were working before the MSHA  
4 shutdown?

5           A       Yes.

6           Q       You showed up to work on April 12th, but  
7 it was shut down under order?

8           A       Yes.

9                   JUDGE MORAN: The answer is yes?

10                  THE WITNESS: Yes.

11                  BY MS. O'REILLY:

12           Q       I'll direct your attention to Exhibit  
13 P7.

14           A       7.

15           Q       Yes.

16           A       Okay.

17                  JUDGE MORAN: Which is another new one.

18                  THE WITNESS: Yes.

19                  BY MS. O'REILLY:

20           Q       Do you know what this document is?

21           A       Yes. This is a message that I had sent  
22 out of the MSHA handbook. I sent this message to

1 Mr. Spears.

2 Q And did you send this message to John  
3 Spears via Microsoft Teams?

4 A Yes.

5 Q And this -- you know this message your  
6 exhibit -- the blue message, that's the message  
7 that you sent?

8 A Yes.

9 Q And this is a screen shot of your phone?

10 A Yes.

11 Q Which is why your messages are showing  
12 up blue?

13 A Yes.

14 Q And do you know about what date this  
15 message was sent?

16 A It would have been, I think it was sent  
17 on the 12th.

18 Q Okay. After the 104(b)?

19 A Was shut down, yes. It would have been  
20 like that evening.

21 Q And it looks like they're sending a  
22 message, or you screen shotted, what is it that

1     you're screen shotting there?

2           A     Page out of the MSHA manual, handbook.

3           Q     And what was that page about?

4           A     Miners pay during a shutdown.

5           Q     And you were sending that to Mr. Spears?

6           A     Yes.

7           Q     And your message says, "Looks like we  
8     are entitled to up to a week pay because nothing  
9     was done about the safety situation until we were  
10    under the withdraw." Is that correct?

11          A     That's correct.

12          Q     And then at the bottom of that -- the  
13    message goes on, "But legally, have to pay us for  
14    the 12 hours. Then we all file for the other  
15    hours and technology we ran illegal on Monday and  
16    Tuesday." Did I read that correct?

17          A     Yes.

18          Q     And then it says, "Don't really want to  
19    have to file with MSHA, but we the miner workers,"  
20    it looks like it says, "were not at fault"?

21          A     Yes. That's what it said.

22          Q     Is that correct?

1           A       Yes.

2           Q       Did anyone ever respond to you when you  
3       raised this issue about miners pay?

4           A       No.

5           Q       Did you expect this issue with miners  
6       pay with MSHA before you sent this message?

7           A       Yes.

8           Q       I move to -- oh, is this a true and  
9       accurate copy of the message you sent to John  
10      Spears?

11          A       Yes.

12                 MS. O'REILLY: I move to admit Exhibit  
13      P7 into evidence.

14                 JUDGE MORAN: Do you object?

15                 MR. TIDABACK: I do.

16                 JUDGE MORAN: You object to this?

17                 MR. TIDABACK: Yes, sir. It has no date  
18      on it. How do we know.

19                 JUDGE MORAN: Okay. Do you want to  
20      address that?

21                 MS. O'REILLY: Sure, I can do that.

22                 JUDGE MORAN: I think you asked the

1 question about that, but ask him a couple more  
2 questions so that I can appreciate that he can  
3 identify the date, approximate date.

4 MS. O'REILLY: Okay. I can do that, and  
5 then there's another exhibit that confirms this a  
6 little bit more.

7 BY MS. O'REILLY:

8 Q But did you send this message in  
9 response to a 104(b) withdrawal order?

10 A Yes.

11 Q And do you understand that that 104(b)  
12 withdrawal order was issued on April 12th, 2023?

13 A Yes.

14 Q And you were terminated on April 17th,  
15 2023. Correct?

16 A Yes.

17 Q At that time you were cut off from Teams  
18 messages?

19 A Yes.

20 Q So you could not have sent this message  
21 after your employment. Correct?

22 A No.

1 Q After you were terminated?

2 A No, I could not have.

3 Q And you wouldn't have had a reason to  
4 send it prior to April 12th, 2023?

5 A No.

6 Q Correct? So this message was sent at  
7 some point between April 12th and April 17th,  
8 2023?

9 A Yes.

10 JUDGE MORAN: You agree with that?

11 THE WITNESS: Yes, sir.

12 JUDGE MORAN: Okay. I'm overruling the  
13 objection, but if you think it would be fruitful,  
14 I can't judge that, this would be a subject of  
15 challenging Mr. Baumann about the date of this  
16 message. I am not sure, though, that -- that it  
17 is critical to establish the precise date within  
18 the range of dates that Attorney O'Reilly just  
19 identified. I mean, if you say no, it was the  
20 13th or the 14th, you know, I don't know how that  
21 -- if it is a response from the Respondent during  
22 that window of time.

1 MR. TIDABACK: It's just one and the  
2 same, Your Honor. How do we know it was sent at  
3 all if it doesn't have a time date stamp.

4 JUDGE MORAN: That's something you can  
5 ask on cross examination.

6 BY MS. O'REILLY:

7 Q And Mr. Baumann --

8 JUDGE MORAN: I'm going to ask just a  
9 follow-up question for Mr. Baumann. So tell me  
10 again, you might have said it. I'm sorry, I was  
11 making a note and so my attention was diverted,  
12 but looking at Exhibit P7, one page. Right?

13 THE WITNESS: Yes.

14 JUDGE MORAN: Did you say -- does this  
15 come from the Respondent?

16 MS. O'REILLY: No, from Mr. Baumann.

17 JUDGE MORAN: And do you say how you  
18 recognized this, Mr. Baumann?

19 THE WITNESS: Yeah, because I actually  
20 took in great detail after I seen a message from  
21 Mr. Tidaback about getting the mill workers  
22 gainfully being employed and working, and then the

1 -- some mill associates asked me if we were  
2 eligible for any pay being we were shut down for a  
3 force issue. So I looked it up in the miners rep  
4 -- or the miners MSHA book, and I took a picture  
5 of it and I sent it to John to make sure that they  
6 knew that they were obligated to pay us for at  
7 least the rest of that day and then the four hours  
8 the next day.

9 JUDGE MORAN: Okay. Fair enough for the  
10 explanation. And that's valuable, but what I want  
11 to know is how was this page created, if you know?  
12 Is this a picture that you took of your phone?

13 THE WITNESS: Yes. I went to the MSHA  
14 website and looked it up.

15 JUDGE MORAN: No, no. I don't mean  
16 that. I mean, looking at -- I understand where  
17 you got that from, but how was P7, Page 1 created?  
18 Is this another one of these you take a picture of  
19 your phone?

20 THE WITNESS: Yes. I screen shot it.

21 JUDGE MORAN: That's what this is?

22 THE WITNESS: Yes.

1 JUDGE MORAN: No one else did this. You  
2 took a screen shot of your own phone?

3 THE WITNESS: Yes, sir.

4 JUDGE MORAN: And that's what this is  
5 represented on P, the one page that's there?

6 THE WITNESS: Yes.

7 JUDGE MORAN: All right. I think I  
8 hammered that out. Thank you.

9 BY MS. O'REILLY:

10 Q And now I'll turn our attention to  
11 Exhibit P32, which is in Volume 2.

12 JUDGE MORAN: 32? Now we're at 32?

13 MS. O'REILLY: Yes.

14 JUDGE MORAN: Okay. Did I say if P7 is  
15 admitted? If not -- okay.

16 MS. O'REILLY: You did.

17 (Complainant's Exhibit P-7 was  
18 marked for identification and  
19 received in evidence.)

20 JUDGE MORAN: Okay. Thank you. And now  
21 we're on 32?

22 MS. O'REILLY: Yes.

1 BY MS. O'REILLY:

2 Q Do you know what this document is on  
3 P32?

4 A Just the one, Page 1.

5 Q Yes. Let's talk about Page 1.

6 A Okay. Yes. These are some Teams  
7 messages.

8 Q And I'll direct your attention to the  
9 first message from John Spears dated 4-14 at 8:18  
10 a.m. which states, "We're headed to the PFT test  
11 now." Do you see that?

12 A Yes.

13 Q And then it says from Rob?

14 A Yes.

15 Q And then it looks like he is, Mr.  
16 Spears, is copying and pasting the message we were  
17 just talking about in P7 in this message to Mr. --  
18 to someone else in P32?

19 A Yes.

20 Q And this document, P32, is three pages  
21 of Teams messages. Do you see that?

22 A Yes.

1           Q     And this message at the top, that --  
2     that looks to be a copy of the message we were --  
3     just talked about.  Correct?

4           A     Yes.

5           Q     And who -- it says JS and John Spears,  
6     and then it goes on to a blue message.  Do you  
7     understand who the blue messages are?

8           A     The blue messages would be Russell  
9     Tidaback.

10          Q     Based on the information we have  
11     recently --

12          A     Based on, yes.

13                MS. O'REILLY:  And I will move to admit  
14     Exhibit P32.  This is the document that was also  
15     produced in discovery.

16                JUDGE MORAN:  Okay.  Any objection to  
17     the document you produced in discovery to the  
18     Secretary?

19                MR. TIDABACK:  Explain all of the  
20     Exhibits P32 or just that first page?

21                JUDGE MORAN:  Well, she's moved for the  
22     introduction of the whole exhibit, so if you have

1 an objection, and remember now, most of this would  
2 be in a cross examination, but the question before  
3 me is is this the document that the Secretary has  
4 asserted was produced by you in reference to  
5 discovery?

6 MR. TIDABACK: Yes, Your Honor. I have  
7 no objection to that.

8 (Complainant's Exhibit P-32 was  
9 marked for identification and  
10 received in evidence.)

11 JUDGE MORAN: Okay. Then P32 is  
12 admitted, and if you feel there's grounds on cross  
13 examination you'll refer to P32 and we'll listen  
14 to that.

15 MR. TIDABACK: Yes.

16 JUDGE MORAN: Okay. P32 is admitted.

17 BY MS. O'REILLY:

18 Q And you said that this first message  
19 from John Spears appears to be a copy of the  
20 message you talked about in P7 and John Spears is  
21 sending this on April 14th. Do you see that?

22 A Yes.

1 Q Does that help you recall when you might  
2 have sent that message in P7 to John Spears?

3 A Yes. I would have sent it -- this  
4 explains it. I would have sent it 4-13, late that  
5 -- late the previous day.

6 Q Okay.

7 A Or really early that morning. One of  
8 the two days.

9 Q But does it narrow it down to you at  
10 least sent that message in P7 between April 12th,  
11 2023 and April 14th, 2023?

12 A Yes.

13 Q On Page 2 do you see a message in blue  
14 from Mr. Tidaback in the middle that starts by  
15 saying "By all means, if Rob thinks we did  
16 something illegal, then he should bring it up"?

17 A Yes.

18 Q And does it again look like it's copying  
19 that same message you sent in P7?

20 A Yes.

21 Q Then a little while after that message,  
22 or the next message there, there's another message

1 from Mr. Tidaback that says, states, "We can pay  
2 the guys to come in and do other things... but  
3 this is as I mentioned previously... we need them  
4 to be productive towards production..." Did I  
5 read that correctly?

6 A Yes.

7 MR. TIDABACK: Objection, he didn't  
8 actually read it.

9 JUDGE MORAN: I'm sorry. I was reading  
10 what was said, so repeat your objection, Mr.  
11 Tidaback.

12 MR. TIDABACK: She did not read it  
13 correctly.

14 MS. O'REILLY: I can read it again.

15 JUDGE MORAN: Oh, okay. Thank you.  
16 Okay.

17 BY MS. O'REILLY:

18 Q That message, the second -- the message  
19 after the one that was copied to you on 4-14, it  
20 states, "We can pay the guys to come in and do  
21 other things... but this is as I mentioned  
22 previously... we need them to be productive

1     towards production..." Did I read that correctly?

2             A     Yes.

3             Q     Thank you.

4                   JUDGE MORAN: You know, it's not  
5     necessary for me to resolve this, but as I'm  
6     looking at this, it's not -- again, I don't have  
7     to decide that in this case, but I'm not sure that  
8     that's an appropriate remedy if people are  
9     entitled to some number of hours or period of pay,  
10    I don't know that a mine operator and then to say,  
11    well, you work Saturday and we'll pay you for  
12    Saturday. I don't know that you can substitute a  
13    different day. That's an interesting side  
14    question. I mean, if you're suggesting that the  
15    hours that they should have been working but  
16    couldn't work because of the (b) order, then you  
17    can then substitute that weekend.

18               MR. TIDABACK: That was not --

19               JUDGE MORAN: The intent.

20               MR. TIDABACK: -- the intent or  
21    anything. It was since we couldn't go in the mill  
22    and they couldn't go in the mill to do anything,

1 that's the area that they were not allowed to go  
2 into. We had equipment outside they can work on,  
3 so let's bring them in and put them to work.

4 JUDGE MORAN: Of course, you're  
5 testifying and that will come later. My point was  
6 simply, maybe I shouldn't have even brought it up,  
7 I don't know that if you're -- if you're required  
8 under the Act to pay people who are not able to  
9 work because of a safety hazard and it is pretty  
10 -- I haven't looked at in a long time, but this  
11 number of hours and so forth, but you say this was  
12 not your intention but come on in Saturday and  
13 that will -- and essentially, it would be contrary  
14 to the statute, it seems to me, in having someone  
15 work a different day when they're entitled to work  
16 on the day when they should have worked, but for  
17 safety hazard could not and Congress intended that  
18 those people be paid for those hours, not for some  
19 substitute.

20 In other words, to carry this and then  
21 I'll let it rest, that -- that you can't say,  
22 well, you're even now because you worked on

1 Saturday. We paid you for Saturday and that  
2 settles that other issue. They're apples and  
3 oranges.

4 MR. TIDABACK: Okay. We also got  
5 clarification from the issuing inspector, make  
6 sure that they were paid completely for the work  
7 that they did.

8 JUDGE MORAN: That's a different point  
9 than what I'm making. I understand what you're  
10 saying, though. Okay. All right. I think I  
11 probably should have just kept that too myself,  
12 but go ahead, Attorney O'Reilly.

13 BY MS. O'REILLY:

14 Q I'm just going to have you flip back to  
15 Page 1 of Exhibit P32. And that first message  
16 from John Spears where he copied the message you  
17 had sent, that's dated 4-14 at -- 4-14, so April  
18 14th at 8:18 a.m. Is that correct?

19 A Yes.

20 Q Now, have you turn to back to Page 2.  
21 And the last message on this page from Mr.  
22 Tidaback dated April 14th at 9:14 a.m., it states,

1 "Except an MSHA complaint when Rob is let go...  
2 The writing is on the wall." Did I read that  
3 correctly?

4 A Yes.

5 Q And then on Page 3, this part of it,  
6 about halfway through the page there's another  
7 message from Mr. Tidaback on April 14th at 9:18  
8 a.m. Do you see that?

9 A Yes.

10 Q And that was exactly an hour after your  
11 message about miners pay was forwarded to Mr.  
12 Tidaback. Correct?

13 A Yes.

14 Q And this message states, "Rob's  
15 termination will be based on production  
16 performance. Not following guidance given by  
17 management. Not ensuring the safety of the mill  
18 associated by utilizing the proper controls,  
19 etcetera. He doesn't have to sign it. We just  
20 need to have a document of why he was let go."  
21 Did I read that correctly?

22 A Yes.

1           Q     Had you ever been told you were having  
2     issues with production performance before you were  
3     terminated?

4           A     No.

5           Q     Had you been told that you were having  
6     issues with not following guidance given by  
7     management before you were terminated?

8           A     No.

9           Q     Have you ever been told that you were  
10    not ensuring the safety of the mill associates  
11    before you were terminated?

12          A     No.

13          Q     In fact, were you actually trying to  
14    ensure the proper PPE would get purchased  
15    specifically for the dust issues going on at this  
16    time?

17          A     Yes.

18          Q     Can you explain your efforts to get the  
19    PPE for miners regarding the dust issue?

20          A     Yeah, I just -- we got the shutdown, how  
21    important was the silica -- keeping the silica  
22    dust out of us was. I had requested more of the

1 paper masks that we were allowed to use, and I had  
2 problems getting them. So I finally, some of them  
3 was in and then when the PAPR systems were ordered  
4 to be -- when they ordered them, to order the PAPR  
5 systems to have them there so we could use them to  
6 go in the mill until they got the dusting problem  
7 fixed. And I just checked with the safety  
8 director every day to see if the systems had been  
9 ordered or if they were on their way, if they were  
10 there yet.

11 JUDGE MORAN: So identify for me, you  
12 said the PAPR systems. Is that an acronym?

13 THE WITNESS: Air systems.

14 JUDGE MORAN: You're not saying paper?

15 THE WITNESS: PAPR. PAPR. Yes.

16 JUDGE MORAN: That stands for?

17 THE WITNESS: You're testing me now. I  
18 honestly don't remember. Basically it's the  
19 respirators with the filters, you know.

20 JUDGE MORAN: Okay. We're not talking  
21 about an N95 paper mask. Something more than?

22 THE WITNESS: Something more than N95

1 paper mask. Yes, Your Honor.

2 JUDGE MORAN: Okay.

3 MS. O'REILLY: And for the court  
4 reporter, I believe it's P-A-P-R, like all caps.

5 THE WITNESS: Yeah. I just always said  
6 PAPR.

7 BY MS. O'REILLY:

8 Q Yeah. And you just mentioned you were  
9 discussing the PAPRs and the masks with Jesse  
10 Molesi, the safety director. Correct?

11 A Yes.

12 Q Or safety personnel, I guess?

13 A We had -- there was actually some  
14 systems at the -- at the mill, at the mine, and  
15 then we dug them out to see if they were usable at  
16 all, and the -- the rubber pieces that fit around  
17 your face and stuff, as soon as you touched them  
18 it just disintegrated they were so old, so.

19 JUDGE MORAN: They were brittle?

20 THE WITNESS: Yes. Better word, they  
21 were extremely brittle, yes.

22 JUDGE MORAN: Okay.

1 BY MS. O'REILLY:

2 Q And these safety issues about the PAPRs  
3 and getting, you know, the dust issue corrected,  
4 did you speak to Mr. Molesi about that after the  
5 104(b) order is issued in April 12th?

6 A Yes.

7 Q And what did you speak about, the things  
8 you have just been speaking about or can you  
9 remember anything in particular?

10 A Basically I would message him, send him  
11 a text message seeing if we had gotten any PAPR  
12 systems or if any had even been ordered yet, and  
13 if they had called anybody in or got a plan  
14 together to work on the air cleaner system.

15 Q And do you recall when you were talking  
16 to him about that?

17 A It would have been April 13th or 14th,  
18 April 13th and 14th. I spoke with him every day.

19 Q Every day after?

20 A After the order was, yes.

21 Q Do you know if he spoke to Mr. Tidaback  
22 about the concerns you were raising about the dust

1 issues?

2 A Yes. He was sending e-mails with  
3 different options on what kind of PAPR we could  
4 get ordered, and you know, things like that.

5 Q And did Mr. Molesi tell you that he was  
6 sending those e-mails?

7 A Yes.

8 Q These things happened on April 14th,  
9 which was the Friday before you were terminated on  
10 April 17th?

11 A Yes.

12 Q And this termination happened just three  
13 weeks before -- after you became a miners rep?

14 A Yes.

15 Q And within days, including two weekend  
16 days of you asking about miners pay during an MSHA  
17 withdrawal order?

18 A Yes.

19 Q And five days after you participated in  
20 an MSHA inspection which caused the mine to be  
21 issued the 104(b) order regarding dangerous silica  
22 dust hazards?

1           A       Yes.

2           Q       And the 104(b) order was issued for not  
3       controlling dangerous silica dust, a safety issue  
4       which you had repeatedly raised to management.  
5       Correct?

6           A       Yes.

7           Q       And your termination happened also just  
8       two weekend days after you were messaging with the  
9       safety person, Jesse Molesi, about your concerns  
10      about the dust?

11          A       Yes.

12          Q       About how many days from February to  
13      April 17th, 2023 would you say you were walking  
14      around with MSHA during inspections?

15          A       I mean, they were there for weeks at a  
16      time, so every day that they were there.  
17      Apparently at least three weeks. All the average  
18      they was there I was with them.

19          Q       So would you say probably more than ten  
20      times?

21          A       Oh, yes.

22          Q       In that two month before you were

1 terminated?

2 A Yes.

3 Q At least ten times?

4 A At least.

5 Q It may have been more?

6 A Yes.

7 Q Prior to your termination were you  
8 starting to get concerned that they may retaliate  
9 against you for engaging in MSHA inspections and  
10 raising safety concerns?

11 A Yes.

12 Q And why do you say that?

13 A They quit including me on Teams  
14 messages. Kind of didn't really keep me up to  
15 date on things.

16 Q They were starting to ignore you?

17 A Yes.

18 Q Is that correct?

19 JUDGE MORAN: You can do that, you can  
20 drop someone from a Teams message?

21 THE WITNESS: They just wouldn't like --  
22 in a lot of Teams message if you put the person's

1 name at the beginning of it it tags them in it,  
2 and always before I'd get tagged in things and  
3 then it seemed like I just kind of got dropped  
4 off, you know. Nothing ever directed towards me  
5 and John or towards me and Jesse, you know, when  
6 we were all working together trying to get the  
7 stuff fixed.

8 JUDGE MORAN: A moment ago Attorney  
9 O'Reilly asked you about whether you were there --  
10 how many times you were there when an MSHA  
11 inspector was there, and you agreed with her  
12 saying at least ten times. Do you remember saying  
13 that a minute ago?

14 THE WITNESS: Yes.

15 JUDGE MORAN: Okay. Let me turn that  
16 question around. During this period of time were  
17 there ever times when an MSHA inspector was there  
18 and you just weren't available? I mean, you were  
19 on the mill part but you didn't couldn't make  
20 yourself available because you were doing other  
21 things and therefore couldn't attend with the  
22 inspector?

1           THE WITNESS: There was -- during the  
2 shutdown there was a time that I believe there was  
3 four or five inspectors there all at once, so  
4 naturally I wasn't with all of them at the same  
5 time.

6           JUDGE MORAN: Are you telling me,  
7 therefore, but there was never a time when you  
8 were not at least with an inspector from MSHA when  
9 they were there on the property?

10          THE WITNESS: No. Every time -- every  
11 time that they were there, I was with them.

12          JUDGE MORAN: Okay. Thank you.

13          THE WITNESS: Maybe not the entire time  
14 they were there, you know, minus, you know, if  
15 they were going to come check on something or if  
16 they had pointed something out that I could fix  
17 right then, I did it. They moved on, I went and  
18 caught up with them.

19          JUDGE MORAN: All right. Thank you for  
20 explaining that further. Go ahead, Attorney  
21 O'Reilly.

22

1 BY MS. O'REILLY:

2 Q And after March 21st, 2023, when you  
3 became a miners representative, did MSHA make a  
4 point of contacting you when they arrived so that  
5 you could participate?

6 A Yes.

7 Q Were you ever disciplined by anyone at  
8 American Tripoli?

9 A No.

10 Q Did you ever receive any sort of verbal  
11 warning about your work or any other issues at  
12 American Tripoli?

13 A No.

14 Q Did you ever receive any sort of written  
15 discipline or reprimand from anyone at American  
16 Tripoli?

17 A No.

18 Q Did you ever get a performance review  
19 while working at American Tripoli?

20 A No.

21 Q Do you know if anyone did?

22 A Not to my knowledge.

1           Q       Were you ever counseled by Russell  
2       Tidaback for any problems or issues you were  
3       having at work?

4           A       No.

5                   JUDGE MORAN: Well, even apart from the  
6       word counseled, let's just not restrict it to  
7       counseling, but were you ever -- did Mr. Tidaback  
8       or Jordan Tidaback ever sit down with you and  
9       discuss shortcomings that they felt that you had  
10      in the performance of your job?

11                  THE WITNESS: No.

12                  JUDGE MORAN: Okay.

13                  BY MS. O'REILLY:

14           Q       I'm going to have you turn to Exhibit  
15       P34.

16                  JUDGE MORAN: Which would be a new one?

17                  MS. O'REILLY: Yes. Correct. And  
18       you'll see that this is discovery responses from  
19       Respondent in this case, and as part of those  
20       discovery responses some Teams messages were  
21       included within the responses. So I guess I would  
22       move to admit this as party admissions in

1 discovery in this case.

2 JUDGE MORAN: I can't imagine you would  
3 have an objection to this. Is that true?

4 MR. TIDABACK: No, Your Honor.

5 (Complainant's Exhibit P-34 was  
6 marked for identification and  
7 received in evidence.)

8 JUDGE MORAN: Okay. So P34 is admitted,  
9 and this would or would not be part of the ECMS?  
10 It be would outside of ECMS?

11 MS. O'REILLY: Correct.

12 JUDGE MORAN: So I have this response  
13 from the Respondent and reflected in the 56 pages  
14 which constitutes P34. It's admitted.

15 BY MS. O'REILLY:

16 Q I'll direct your attention, Mr. Baumann,  
17 to page -- the top of Page 15 in this exhibit.

18 A Okay.

19 Q And do you see on that page a Request  
20 No. 10 which says, "Produce an un-redacted  
21 complete copy of Russell Tidaback's Microsoft  
22 Teams communications with Jim Huber from April

1 17th, 2023, through May 7th, 2023."

2 A Yes.

3 Q And then do you see a response that  
4 says, "Please see the following chat"?

5 A Yes.

6 Q Okay. And then on Page 16, the next  
7 page, do you see some Teams messages?

8 A Yes.

9 Q And who is Jim Huber?

10 A He was a mill associate.

11 Q And he was an employee of American  
12 Tripoli at this time?

13 A Yes.

14 Q On Page 16 -- well, on Page 15 we  
15 discussed how these -- this was in response to a  
16 request for message between Russell Tidaback and  
17 Jim Huber. Correct?

18 A Correct.

19 Q So do you understand who these blue  
20 messages would be from in these messages that  
21 followed that request?

22 A The blue messages would be from Mr.

1 Tidaback.

2 Q And it looks like on Page 16, in the  
3 second message sent on April 17th at 12:53 p.m.,  
4 do you see that message?

5 A Yes.

6 Q And you understand that to be from Mr.  
7 Tidaback?

8 A Yes.

9 Q And it states, "We are making a  
10 change... or have made a change. Unfortunately we  
11 had to let Rob go today." Do you see that?

12 A Yes.

13 Q Did I read that correctly? Just those  
14 first two sentences correctly?

15 A Yes.

16 Q And so you were let go by 12:53 p.m. on  
17 that day?

18 A Yes.

19 Q This happened earlier that morning?

20 A Yes.

21 Q And then I'm going to have you turn to  
22 Page 19.

1           A     Okay.

2           Q     And do you see in the middle of that  
3 page a message from Russell Tidaback dated April  
4 19th 9:00 p.m.?

5           A     Yes.

6           Q     Okay. And I'm going to read this. It  
7 does contain expletives but I'm just going to read  
8 it word for word.

9                   JUDGE MORAN: I can handle it.

10                  BY MS. O'REILLY:

11           Q     This statement says, "MSHA just  
12 compounds the problem 10 X but not working with us  
13 and being fucking dicks." Did I read that  
14 correct?

15           A     Yes.

16           Q     Is this similar to any other comments  
17 from Mr. Tidaback that he made about MSHA during  
18 your employment?

19           A     Yes.

20           Q     Further down you'll see a response from  
21 Jim Huber, and then on April 19th at 9:01 p.m.  
22 There are three messages from Mr. Tidaback. Do

1     you see that?

2             A       Yes.

3             Q       I'm going to read those.  "This Keith  
4     jackass... he gets his jolly off handing out  
5     citations... this fucker is a snake.  When he is  
6     -- when he's around you better watch what you say  
7     and do... he is out to fuck you or anyone else he  
8     can."  Did I read that correct?

9             A       Yes.

10            Q       And is this similar to the attitude that  
11     American Tripoli had towards MSHA while you were  
12     employed?

13            A       Yes.

14            Q       Does this message surprise you at all?

15            A       No.

16                    JUDGE MORAN:  So to help me out with  
17     this.  I'm not questioning it, but remind me how  
18     is it that you know that the blue passages, like  
19     on Page 18 and 19, that you know that that's from  
20     Mr. Tidaback?  How do you know that?  You may have  
21     it said a couple times.  I just want to make it  
22     clear in my head.

1 THE WITNESS: The person that's sending

2 --

3 COURT REPORTER: I'm sorry. You're  
4 breaking up. You're not coming through.

5 JUDGE MORAN: I see that, but my  
6 question --

7 COURT REPORTER: I couldn't hear his  
8 answer. It didn't come through.

9 JUDGE MORAN: You couldn't hear the  
10 judge or the witness?

11 COURT REPORTER: The Witness.

12 JUDGE MORAN: She said witness? Okay.

13 I'm just trying to understand. Yeah, I see Jim  
14 Huber. I see that. That I can figure out, but my  
15 question is, how do you know that the blue portion  
16 is coming from Mr. Tidaback as opposed to from  
17 someone else? How do you know that? Look at Page  
18 19, for example, on P34.

19 THE WITNESS: Yeah, there wouldn't be --  
20 I can't tell you a hundred percent that that's  
21 from him, but that's from him.

22 JUDGE MORAN: Okay. This was produced

1 by the Respondent?

2 MS. O'REILLY: May I add a comment to  
3 that?

4 JUDGE MORAN: Yes.

5 MS. O'REILLY: So on Page 15, the  
6 discovery response, it's my understanding that  
7 they're making an admission or representation that  
8 this is what this says because it asks for an  
9 un-redacted copy of Russell Tidaback's team  
10 messages with Jim Huber, and then says please see  
11 the following chat.

12 JUDGE MORAN: I'm happy that you pointed  
13 that out to me. Not happy in the sense that it  
14 doesn't help the Respondent, but happy in that  
15 that helps me focus on and really answers my  
16 question, so thank you.

17 MS. O'REILLY: Okay. Good.

18 JUDGE MORAN: So that's noted on Page 15  
19 of Exhibit P34. Okay. Go ahead with your  
20 questions again. And again, by the way, I just  
21 wanted to point out. That's another example of  
22 how in post hearing briefs you might say, well,

1 it's obvious if he would look, meaning me, at P15,  
2 he could have put that together. But it's also --  
3 if you sort of lead me and say, and on the issue  
4 of who was responding, please note Page 15 where  
5 dah, dah, dah, what you just said. All right?

6 Thanks.

7 BY MS. O'REILLY:

8 Q Do you know anyone named Keith that was  
9 employed at American Tripoli?

10 A No.

11 Q Was there an MSHA inspector named Keith  
12 that came to American Tripoli?

13 A Yes.

14 Q And what was that inspector's name?

15 A Keith Markeson.

16 Q Was Mr. Markeson the inspector who  
17 issued the 104(b) citation just a few days before  
18 you were terminated?

19 A Yes.

20 Q I'm going to direct your attention to  
21 Page 24, and you see at the top, towards the top  
22 of the page there's a message on April 19th at

1 9:57 p.m. from Mr. Tidaback.

2 A Yes.

3 Q And it states, "Everyone," in all caps,  
4 "needs to stop calling MSHA." Did I read that  
5 correctly?

6 A Yes.

7 Q And is this similar to the kind of  
8 comments Mr. Tidaback made about MSHA during your  
9 employment?

10 A Yes.

11 Q Did comments like these make you fearful  
12 about talking to MSHA?

13 A Yes.

14 Q Please turn to Page 27. And in the  
15 middle of the page there is a message dated 4-19  
16 at 10:40 p.m. from Mr. Tidaback. Do you see that?

17 A Yes.

18 Q And it says, "Keith is a jackass..."  
19 Did I read that correctly?

20 A Yes.

21 Q Then it continues with the response from  
22 Mr. Huber about Keith and then Mr. Tidaback

1 states, "I personally... would just stay away from  
2 that guy. Intentionally stay away." Did I read  
3 that correct?

4 A Yes.

5 Q Were you scared of any of the MSHA  
6 inspectors?

7 A No.

8 Q Did any of the MSHA inspectors ever  
9 threaten you?

10 A No.

11 Q Were you afraid of Mr. Markeson?

12 A No.

13 Q Did you ever see any MSHA inspector  
14 threaten anyone else?

15 A No.

16 Q On Page 28 toward the bottom of the page  
17 do you see a message from Mr. Tidaback on April  
18 28th at 8:50 a.m.?

19 A Yes.

20 Q And do you see it states, "Hey, hey,  
21 brother... let's do good things. Okay? Have a  
22 good day."

1 A Yes.

2 Q And then there's a couple responses from  
3 Mr. Huber and then Mr. Tidaback on April 28th at  
4 8:51 a.m. states, "We need you to make that place  
5 rock and roll. I need the justification since  
6 Rob's complaint to MSHA about being let go...  
7 Just need you to put the cherry on the cake.  
8 That's all." Did I read that correct?

9 A Yes.

10 Q Then on Page 39, towards the middle of  
11 the page, on May 7th at 2:02 p.m. do you see a  
12 message from Mr. Tidaback?

13 A Yes.

14 Q It states, "Then the whole MSHA thing in  
15 February..." Did I read that right?

16 A Yes, you did.

17 Q Then Jim Huber responds, "Oh, he thought  
18 this over on that deal. Sorry for cussing." Did  
19 I read that correct?

20 A Yes.

21 Q Then the next message states, "That's  
22 when Rob started to really buck back against what

1 John was telling him to do." Did I read that  
2 correct?

3 A Yes.

4 Q And then the next message, Mr. Tidaback  
5 responds, "Oh, I know..." to Jim Huber's message,  
6 "oh, he fucked us over on that deal. Sorry for  
7 cussing." Correct?

8 A Correct.

9 Q February is when you first started  
10 participating in MSHA inspections. Is that  
11 correct?

12 A That's correct.

13 Q And would you agree that you also  
14 started to raise more safety complaints to  
15 management in February because of what you were  
16 learning during the MSHA inspections?

17 A That's correct.

18 Q Did you start questioning management  
19 more about safety issues after February when you  
20 started walking around during MSHA inspections?

21 A Yes.

22 Q And that was about safety issues?

1           A       Yes.

2                   JUDGE MORAN:   Who would you raise these  
3 questions with?

4                   THE WITNESS:   John Spears.   Most of it  
5 in the beginning was the stacking was a huge.

6                   JUDGE MORAN:   But you were voicing these  
7 concerns when you were learning more during walk  
8 around, you were voicing them to whom?

9                   THE WITNESS:   To John Spears, the  
10 operations manager, and to MSHA inspectors.

11                  JUDGE MORAN:   Okay.   I didn't know if  
12 you were voicing them to, for instance, to anyone  
13 else besides Mr. Spears.

14                  THE WITNESS:   No.   It was all directed  
15 toward -- because everything went through, we got  
16 in trouble if we skipped, you know, we skipped  
17 John and tried to message Russell, we had to go  
18 through John to --

19                  JUDGE MORAN:   Okay.   Go ahead.

20                  BY MS. O'REILLY:

21                  Q       Was it your understanding that the  
22 system was you would speak to Mr. Spears and he

1 would relay information to Mr. Tidaback?

2 A Yes.

3 Q When you received the issues to Mr.  
4 Spears, did he respond, indicating to you that he  
5 had spoke about those issues with Mr. Tidaback?

6 A Yes.

7 Q Turn to Page 40 of P34. And it looks  
8 like this May 7th conversation between Mr. Huber  
9 and Mr. Tidaback continues on, and then towards  
10 the top of this page there's a message on May 7th  
11 at 2:09 p.m., and you see -- you see three  
12 different messages from Mr. Tidaback and then the  
13 fourth one states that "He has made a friend at  
14 MSHA... he... Rob's a fool to think Keith is his  
15 friend." Did I read that correct?

16 A Yes, you did.

17 Q And did you walk around with MSHA  
18 Inspector Keith Markeson during inspections?

19 A Yes.

20 Q Did you walk around with him multiple  
21 times during MSHA inspections?

22 A Yes.

1           Q     Including inspections in the week before  
2     you were terminated?

3           A     Yes.

4           Q     Did you work with Mr. Markeson to try to  
5     improve safety at the mine?

6           A     Yes.

7           Q     And did you talk to Mr. Keith Markeson  
8     about safety issues at the mine?

9           A     Yes, I did.

10          Q     I'm going to turn your attention to  
11     Exhibit P12. I'm going to direct you to Page 23.

12          A     Okay.

13          Q     Towards the bottom of the page.

14                JUDGE MORAN: Before you do that, I take  
15     it that P12, you're representing that this was  
16     what it says, Respondent's Third Interrogatories  
17     Answers and Responses for Production of Documents.  
18     Right? That's the document you're talking about  
19     and this is what you get from the Respondent?

20                MS. O'REILLY: Yes. This has been  
21     admitted previous.

22                JUDGE MORAN: I understand that. Did I

1   lose track of one? Right. No, P12. We're on  
2   P12? You sure we covered P12? I missed one. I  
3   have P13.

4                   MS. SMITH: I wrote down P12.

5                   JUDGE MORAN: Okay. And it was  
6   admitted. Thank you for helping me with that. Go  
7   ahead, then. I'm sorry. Go right to the page you  
8   were talking about.

9                   BY MS. O'REILLY:

10           Q     Page 23, P12. We're at the bottom of  
11   the page there's a message from you, y-o-u, on  
12   7-13-22, at 8:36 p.m. Do you see that?

13           A     Yes.

14           Q     Who do you understand that you to be?

15           A     Russell Tidaback.

16           Q     And why do you say that?

17           A     Because it had his picture next to it.

18           Q     And this message looks like it was sent  
19   to the mill group chat. Is that correct?

20           A     That's correct.

21           Q     Would you have been a part of that group  
22   chat in July of 2022?

1 A Yes.

2 Q And this message states dot, dot, dot,  
3 emoji, "and if you are asked a question by the  
4 inspector, keep your answer short and simple.  
5 Don't be," in quotes, "that guy," end quote,  
6 "Cameron LOL that thinks he knows it all and  
7 starts pointing out all the faults, etcetera." In  
8 parens, "I only named John Cameron since he  
9 doesn't work with us any longer," emoji end  
10 parens. Did I read that correctly?

11 A Yes.

12 Q So they were communicating with you  
13 almost since the start of your employment that you  
14 should not be pointing out MSHA's -- issues to  
15 MSHA. Correct?

16 A Correct.

17 Q Did statements like this make you  
18 nervous to speak to MSHA?

19 A Yes.

20 Q Were you concerned that statements like  
21 this deterred miners in speaking to MSHA?

22 A Yes.

1           Q     Can you think of any examples that led  
2     you to believe that other miners were deterred  
3     from speaking to MSHA by this?

4           A     Just, for instance, this Cameron and  
5     Terry had been involved with some inspections and  
6     had pointed some things out, and then like a week  
7     later they were both terminated.

8           Q     I think you did say Cameron but earlier  
9     you said Carson?

10          A     Carson and Terry. I apologize. Too  
11     much to keep track of it.

12          Q     Okay. And I will direct your attention  
13     to Exhibit P11.

14                 JUDGE MORAN: Is this new or another one  
15     I missed?

16                 MS. O'REILLY: This is new.

17                 JUDGE MORAN: Okay.

18                 BY MS. O'REILLY:

19          Q     And do you know what this document is?

20          A     More Teams messages.

21          Q     And do you understand these Teams  
22     messages that were produced in discovery by

1 Respondent in this case?

2 A Yes.

3 MS. O'REILLY: I would move to admit  
4 Exhibit P11 as a document that was produced by  
5 Respondent in discovery in this case which  
6 contains admissions and statements.

7 JUDGE MORAN: Any objection to P11?

8 MR. TIDABACK: No objection, Your Honor.

9 JUDGE MORAN: P11 is admitted.

10 (Complainant's Exhibit P-11 was  
11 marked for identification and  
12 received in evidence.)

13 BY MS. O'REILLY:

14 Q And if you could turn to Page 2 of P11.  
15 In the second message on that page from John  
16 Spears dated April 14th, at 2:07 p.m. Do you see  
17 that?

18 A Yes.

19 Q And that's to ATMO Safety. Do you see  
20 that?

21 A Yes.

22 Q And I think you earlier discussed that

1     you would have been part of the safety, ATMO  
2     safety group chat?

3             A     Yes.

4             Q     And this message states dot dot dot,  
5     "I'm telling you guys... Keith is a snake... be  
6     cautious on what you say to and around him. Any  
7     MSHA inspector really. Michael Van Dorn, ex-MSHA  
8     employee... good reference." Then lists a phone  
9     number. "I spoke with him and he gave me a good  
10    rundown on Keith, Mr. Pratt, etcetera." Did I  
11    read that correct?

12            A     Yes.

13            Q     Did John Spears ever make any comments  
14    about not speaking to MSHA or not trusting MSHA  
15    inspectors during your employment?

16            A     Yes.

17            Q     These comments were coming from both Mr.  
18    Spears and Mr. Tidaback during your employment?

19            A     Yes, they were.

20            Q     Overall do you feel like American  
21    Tripoli took your concerns about safety seriously?

22            A     No.

1 Q And why do you say that?

2 A They, I mean, blatantly ignored most of  
3 the safety complaints. Didn't fix any of the  
4 safety citations through MSHA, that MSHA wrote.

5 Q Were you ever prevented by American  
6 Tripoli from complying with MSHA safety standards?

7 A Yes.

8 Q In what ways?

9 A For instance, the one dam that was  
10 underneath the tube that was gathering the oil  
11 that we used to produce, the MSHA inspector said  
12 that it was a fire hazard and that we needed to do  
13 away with the dam and get the -- like a catch pan  
14 that we can empty multiple times a day, if we need  
15 to. And I started, we and the mill associates,  
16 started to turn out to clean it up and was told by  
17 John Spears we ain't doing that. They can't make  
18 us do that. It's been like that 60 years.  
19 Previous MSHA inspector said it was okay. We're  
20 not tearing that out.

21 And the product that was blocking -- the  
22 product that was on the floor that was blocking

1 the electrical system, we were going to shuttle it  
2 up and we were told not to fix it because they  
3 were going to put it through the system. It was  
4 fine where it was at.

5 Q Do you know during your time with  
6 American Tripoli, did maintenance ever run into  
7 issues getting approval to fix items or safety  
8 issues that you raised?

9 A Multiple times.

10 Q Can you explain that?

11 A If anything took -- another instance,  
12 there was an instance that I was walking out with  
13 the MSHA inspectors and there was a worn out  
14 bearing on a shaft and there was a rag, just a  
15 greased rag shoved in there, and I don't think  
16 they even cited us for it, but the inspector said,  
17 hey that's, you know, that's a fire hazard, a  
18 greasy rag on a turning product. We need to get  
19 that out of there, so I pulled it out and took a  
20 picture of the bearing. Said, hey, we need to get  
21 this bearing replaced. I can't remember the exact  
22 maintenance person at the time, got in --

1 actually, just called them. They came out, looked  
2 at it with me. They couldn't get approval to get  
3 the bearings, to get the bearings replaced, to buy  
4 a new bearing to put on the shaft because it was  
5 going to cost down time and cost money.

6 Q Did you run into issues like that on  
7 multiple occasions?

8 A Yes.

9 Q With getting approval to spend money on  
10 necessary repairs?

11 A Multiple occasions.

12 Q Are you seeking back wages in this case?

13 A Yes.

14 Q And are you seeking back wages for the  
15 time you were unemployed as a result of your  
16 termination?

17 A Yes.

18 Q After you were terminated, when did you  
19 start looking for a new job?

20 A Immediately. Next Monday.

21 Q And did you get a new job after you were  
22 terminated?

1 COURT REPORTER: I think we maybe froze  
2 again. I'm not hearing anybody.

3 JUDGE MORAN: She's okay? Thank you.

4 A Yeah. I believe I started in June -- my  
5 next job June 20th, I believe.

6 JUDGE MORAN: I believe we have a record  
7 somewhere of when he started his new employment or  
8 are you just relying on his memory?

9 MS. O'REILLY: I have a document that  
10 will refresh his memory if he does not remember.

11 THE WITNESS: I honestly can't remember  
12 the exact date.

13 BY MS. O'REILLY:

14 Q Okay.

15 A I've went over it a hundred times, Your  
16 Honor, I'm sorry.

17 JUDGE MORAN: Do you remember the name  
18 of the new company?

19 THE WITNESS: Yes. Schaeffler Group.

20 JUDGE MORAN: What is it?

21 THE WITNESS: Schaeffler Group.

22 JUDGE MORAN: Are you employed with them

1 now?

2 THE WITNESS: No. I worked there for  
3 seven days, and it was a machining company and  
4 their screens were up here (indicating), and I  
5 couldn't see -- I honestly just couldn't see the  
6 numbers. So I went and spoke with my supervisor  
7 there. I said, I'm having problems getting the  
8 machine set because I can't see, you know, can't  
9 see the numbers. So he said, hey, we'll -- you  
10 know, we're going to try and work with you.  
11 You're good help, and I went and got an eye exam  
12 and I needed bifocals that were offset.

13 JUDGE MORAN: Okay. This may be more  
14 than I need to know, but.

15 THE WITNESS: So I worked there seven  
16 days.

17 JUDGE MORAN: And then?

18 THE WITNESS: And then I started my new  
19 job that I am currently at Cherokee County Road  
20 and Bridge.

21 JUDGE MORAN: How long after you stopped  
22 the previous job did you start with the Cherokee

1 Road?

2 THE WITNESS: After about four weeks  
3 after -- after leaving Schaeffer.

4 JUDGE MORAN: So you just have a brief  
5 reemployment, a week, and then you were off again?

6 THE WITNESS: Yeah.

7 BY MS. O'REILLY:

8 Q You don't recall the exact dates of when  
9 you started that first job with Schaeffler. Is  
10 that correct?

11 A Yes.

12 Q Do you have any documents that you have  
13 written that would refresh your recollection as to  
14 those dates?

15 A Yes. I had made a sheet with all the  
16 dates and stuff. It's actually in my little book  
17 over there.

18 Q If I were to show you a copy of your  
19 notes, would that refresh your memory as to the  
20 dates of your employment?

21 A Yes.

22 MS. O'REILLY: May I approach the

1 witness?

2 JUDGE MORAN: Yes. Has the Respondent  
3 been provided with a copy of this?

4 MS. O'REILLY: No, this is just his  
5 personal notes to refresh his recollection.

6 JUDGE MORAN: Okay. Do you recognize  
7 that as being your handwriting?

8 THE WITNESS: Yes, Your Honor. I  
9 started with Schaeffler --

10 BY MS. O'REILLY:

11 Q Sorry. I'm going to stop you. Please  
12 read that and let me know when you're done reading  
13 it.

14 A Okay.

15 Q Because I'm going to take it away from  
16 you. So let me know when you're done reading it.

17 A I was off work --

18 Q Okay. No, don't read it out loud. I'm  
19 going to ask you to read it.

20 A And then --

21 Q Yeah.

22 A Oh, yeah, yeah.

1 Q Just let me know when you're done.

2 A Okay.

3 Q And did that -- I have taken that  
4 document back. Did that refresh your  
5 recollection?

6 A Yes.

7 Q When did you start working with  
8 Schaeffler Group?

9 A June the 13th through June 20th.

10 Q And that job was with Schaeffler.  
11 Correct?

12 A Yes.

13 Q And you left that job on June 20th?

14 A Yes.

15 Q And why did you leave that job?

16 A Because I needed special glasses to read  
17 their screens.

18 Q And were those glasses that you would  
19 have had to purchase yourself?

20 A Yes.

21 Q Could you afford to purchase the glasses  
22 that you needed to do that job?

1 A No.

2 Q Did you have health insurance at the  
3 time?

4 A No.

5 Q And why not?

6 A I had just started. I hadn't worked  
7 there long enough to get insurance.

8 Q And how much were those glasses? Do you  
9 recall?

10 A I believe they were about \$830.

11 Q And why couldn't you afford those  
12 glasses?

13 A Because I'd been off work just  
14 collecting unemployment.

15 Q And if you hadn't been fired from  
16 American Tripoli, could you have afforded those  
17 glasses?

18 A Yes.

19 Q For example, if you had quit your job at  
20 American Tripoli to start that job immediately,  
21 would you have been able to afford those glasses  
22 then?

1 A Yes.

2 Q Was your inability to afford the  
3 necessary glasses for that job the only reason you  
4 quit that job?

5 A Yes.

6 Q And what did you do after you left your  
7 position at Schaeffler?

8 A I went looking for jobs again, and I got  
9 a job with Cherokee County Road and Bridge.

10 Q And do you know when you started that  
11 current job?

12 A July 24th, I believe.

13 Q And you are still employed?

14 A Yes.

15 Q And that is the Cherokee County Road and  
16 Bridge?

17 A Yes.

18 Q And how much are you paid at that  
19 position?

20 A Sixteen dollars per hour.

21 Q And how many hours do you work?

22 A Forty hours a week.

1 JUDGE MORAN: What do you do for them?

2 THE WITNESS: Everything. Run -- I  
3 actually run a road groomer on the dirt roads.  
4 Pull it behind a tractor like a -- you know, a  
5 grader will come through and really tear it up,  
6 and I come through with the tractor and you have  
7 to set the machine right to get the right arch in  
8 the road.

9 JUDGE MORAN: So heavy equipment  
10 operator?

11 THE WITNESS: Yes.

12 BY MS. O'REILLY:

13 Q And that's with the state of Kansas?

14 A Yes.

15 Q And so you were terminated on April 27th  
16 of 2023 and then you were off work from June 13th  
17 of 2023 to work for Schaeffler. Correct?

18 A Correct.

19 Q And then you worked at Schaeffler from  
20 June 13th to June 20th and you were not seeking  
21 back wages for that time period where you had a  
22 job. Correct?

1           A       No, I'm not.

2           Q       Then after that job, you were off work  
3 from June 21st to July 23rd. Correct?

4           A       Correct.

5           Q       And for that time period, I believe that  
6 adds up to 62 working days. Is that correct?

7           A       Yes.

8           Q       And does that exclude Memorial Day and  
9 4th of July and holidays?

10          A       Yes.

11          Q       And is this the time period for which  
12 you are seeking back wages in this case?

13          A       Yes.

14          Q       And are you seeking back wages at the  
15 rate of \$20 per hour that you made at American  
16 Tripoli?

17          A       Yes.

18          Q       And then did you calculate those back  
19 wages? I assume you would have worked eight hours  
20 each of those days?

21          A       Yes.

22          Q       And I believe that works out to \$9,920

1 in back wages. Is that correct?

2 A Yes.

3 Q Are you also seeking interest?

4 A Yes.

5 Q Did you incur any other expenses or  
6 suffer any other losses as a result of your  
7 termination?

8 A Yes.

9 Q And what are those?

10 A Personal losses. I had to sell a little  
11 flatbed trailer and I had to sell some expensive  
12 fishing gear I had.

13 Q Why did you have to do that?

14 A To pay my house insurance.

15 Q About how much money were you out doing  
16 that?

17 A Around \$1200.

18 Q Did you incur any expenses in your job  
19 search?

20 A Yes.

21 Q And what were those?

22 A Basically just gas money, driving to and

1 from interviews or employment places, Manpower,  
2 Penmac.

3 Q Could you explain driving to Manpower,  
4 Penmac? What are those places?

5 A They're hiring -- hiring companies to  
6 help you get jobs.

7 Q So you took efforts to meet with those  
8 companies to try to get a new job quickly?

9 A Yes. And I had to drive to the  
10 unemployment offices in Missouri and in Kansas.

11 Q And were those places far away from  
12 where you lived?

13 A Yes.

14 Q About how far away?

15 A About 35 to 40 miles one way each time.

16 Q About how many times did you have to  
17 make trips like that?

18 A I went to the unemployment office twice  
19 in Pittsburg, once over here, and then I went to  
20 like -- I went to Miami, Penmac, Manpower Joplin,  
21 so approximately six trips.

22 Q And you said once over here, were you

1 referring to Joplin?

2 A Joplin, yes, to the unemployment.

3 Q Do you have any estimate as to how much  
4 that cost you in gas?

5 A At least a few hundred dollars, a couple  
6 hundred dollars. Two, three hundred dollars for  
7 the fuel and time.

8 Q Are you seeking any other damages in  
9 this case?

10 A No.

11 Q Would you like your termination wiped  
12 away from your personnel file as far as damages in  
13 this case?

14 A Yes.

15 Q And would you also like to ensure that  
16 American Tripoli can only give a neutral reference  
17 about your time there?

18 A Yes.

19 Q Are you seeking reinstatement?

20 A No.

21 Q Is that because you have a good job now  
22 that you like?

1 A Yes.

2 Q Given the financial position that you  
3 were in after you were terminated, at some point  
4 in this process before you got your current job  
5 would you have considered going back to American  
6 Tripoli if the offer had been made?

7 A Yes.

8 Q But you undertook significant efforts to  
9 find a job after you were terminated so you never  
10 had to deal with that possibility?

11 A Yes.

12 Q And have you ever received an offer of  
13 reemployment from American Tripoli --

14 A No.

15 Q -- since you've been terminated?

16 A No. Sorry.

17 Q Did you feel unsafe working for American  
18 Tripoli?

19 A Yes.

20 Q Would you fear for your safety if you  
21 returned to working at American Tripoli?

22 A Yes.

1           Q     Do you fear -- do you feel like you  
2 would be treated fairly if you returned to  
3 American Tripoli?

4           A     No.

5           Q     Do you fear you would be discriminated  
6 against if you returned to American Tripoli?

7           A     Yes.

8           MS. O'REILLY: That's all I have for  
9 this witness.

10          JUDGE MORAN: Thank you. So we're going  
11 to break. Go off the record, and did you hear  
12 that, Ms. Blackerby?

13          COURT REPORTER: Yes, I did.

14          JUDGE MORAN: We'll take a ten-minute  
15 break. It's 2:43. We'll resume at 3:43. Okay?  
16 You said yes?

17          COURT REPORTER: Yes.

18          JUDGE MORAN: I'm sorry. I'm sorry.  
19 Ten minutes. 2:53. Am I looking at the wrong  
20 watch here? 2:53. What did I say, 3:53? Sorry  
21 about that.

22                   (Recess)

1 JUDGE MORAN: We're going to go on the  
2 record now. And, Mr. Tidaback, you ready to begin  
3 cross examining Mr. Baumann. Correct?

4 MR. TIDABACK: Yes, Your Honor.

5 JUDGE MORAN: Okay. Go ahead, sir.

6 CROSS-EXAMINATION

7 BY MR. TIDABACK:

8 Q So the Court has a better understanding  
9 of how a plant works, that way we have better  
10 understanding of your roles in that plant as well,  
11 can you explain how your normal day with visiting  
12 of the plant is.

13 A My way of showing it would be to get  
14 there. There was a certain way that all the  
15 machines had to be turned on, and then you had to  
16 let the system warm up and start maybe feeding the  
17 product through it to get the flow going. Once  
18 you got the flow going, then it started going into  
19 the finished product hopper, so it would go into  
20 the bags. There was a multiple, multiple step  
21 thing to be able to get the finished product start  
22 coming out.

1           Q     Do you agree that the admin building,  
2     which is John and the safety person, is a separate  
3     building from the mill but it's separate just by  
4     probably 20 feet?

5           A     Yes.

6           Q     Okay. And in the mill itself there is a  
7     first floor, a second floor, third floor and a  
8     fourth floor. You would agree?

9           A     Yes.

10          Q     Okay. So when -- when your position,  
11     the mill -- or the shift lead requests material to  
12     be brought in so that we can start putting it in  
13     the bag, you would make that request through Teams  
14     to contact the quarry operator to bring the  
15     material to the crusher. You agree with that?

16          A     Yes.

17          Q     Okay. So when they brought that  
18     material into the crusher room, as you mentioned  
19     earlier, the crusher pit, you would task an  
20     associate, say hey, I need you to go crush the  
21     material. Is that correct?

22          A     Yes.

1           Q     Okay. So that -- and after that  
2 material gets crushed, it goes to our storage  
3 tanks. Is that correct?

4           A     Yes.

5           Q     After the storage tanks, based on the  
6 production schedule, the -- the material is  
7 required to be sent through the system to be put  
8 in the bag. Is that correct?

9           A     Yes.

10          Q     Okay. So with that, how many people did  
11 we ever have in the quarry? Do you remember?

12          A     In the actual mill itself?

13          Q     The quarry.

14          A     When I first started I think there was  
15 two --

16          Q     Okay.

17          A     -- in the quarry.

18          Q     So it's normally, and see if you agree,  
19 there's only one person in the quarry. It's  
20 actually Max Drake. I don't know if you remember  
21 Max.

22          A     Yes.

1           Q     Okay. So in the quarry there was Max  
2     Drake. Did you know that Max Drake was a miners  
3     representative at one time?

4           A     No.

5           Q     Did you know that Randy Drake -- do you  
6     remember Randy Drake?

7           A     No, he wasn't there when I was there.

8           Q     Okay. He was also a miners  
9     representative.

10           MS. O'REILLY: Objection, argumentative.  
11     The questioning is testifying.

12           JUDGE MORAN: I'll overrule the  
13     objection. Go ahead.

14           BY MR. TIDABACK:

15           Q     So I'll strike that. I'm sorry. During  
16     your normal day process -- well, let me back a  
17     little more. Okay. If you would, look at Exhibit  
18     RI.

19           JUDGE MORAN: Respondent's Exhibit RI?

20           MR. TIDABACK: Yes, sir.

21           JUDGE MORAN: I'm going to have to get  
22     that in front of me. Are you going to be

1 referring to -- during your cross examination are  
2 you going to be looking at your exhibit, your  
3 intended exhibits or should I keep the Secretary's  
4 exhibits at hand as well?

5 MR. TIDABACK: It could be a mixture and  
6 I will make sure to designate.

7 JUDGE MORAN: Okay. So let me get ahold  
8 of that now. I'm going to be looking at the large  
9 binder you sent me for this.

10 MR. TIDABACK: Yes. Your Honor, they  
11 should all have the same exhibit numbers.

12 JUDGE MORAN: Markings?

13 MR. TIDABACK: Yes, Your Honor.

14 JUDGE MORAN: And did you say R and then  
15 the letter I, as in iota?

16 MR. TIDABACK: Iota, yes, Your Honor.

17 JUDGE MORAN: Iota, okay. What I want  
18 you do to in the future for each of those to help  
19 me, this is strictly to help me out, is you'll say  
20 I'm asking the Court to direct its attention now  
21 to Respondent's Exhibit RI, and then you'll say  
22 it's identified as a production lead duties, if

1 I'm correct, if I'm on the right page?

2 MR. TIDABACK: Yes, Your Honor. That's  
3 what we're referring to.

4 BY MR. TIDABACK:

5 Q So refer to the tag and then refer to  
6 the title of the page.

7 JUDGE MORAN: Just so I make sure I'm on  
8 the same page. Are we all on RI? Okay. Go  
9 ahead.

10 MR. TIDABACK: Production lead duties.

11 JUDGE MORAN: Yes.

12 BY MR. TIDABACK:

13 Q Okay. There, Mr. Baumann?

14 A Do what?

15 Q Are you on RI?

16 A Yes.

17 Q Do you remember this document during our  
18 -- sent to you during your initial interview  
19 process?

20 A No.

21 MS. O'REILLY: Objection, fails to lay a  
22 foundation for the statements that are being made

1 in the question.

2 JUDGE MORAN: He's asking if he  
3 remembers this document that's in front of him.

4 MS. O'REILLY: Right, but he's adding  
5 them in there about facts that aren't in evidence.  
6 I provided this to you during your --

7 JUDGE MORAN: Yes. You can't do that.  
8 So I sustain the objection, so just take it a step  
9 at a time. You asked him if he recalls this  
10 document. RI, do you recall that document, sir?

11 THE WITNESS: No.

12 JUDGE MORAN: You have not -- this is  
13 not -- you're not able to identify. Is that  
14 correct?

15 THE WITNESS: Yes. I do not identify  
16 it.

17 JUDGE MORAN: Okay.

18 MR. TIDABACK: Okay.

19 JUDGE MORAN: Now, let me just help you.  
20 Not in terms of winning the case or losing the  
21 case, but just this doesn't mean that this exhibit  
22 won't get in at some point. If you have a

1 witness, it might be yourself, I don't know.  
2 That's going to be awkward. It is awkward when  
3 the person who's acting as a pro se litigant is  
4 testifying. It's -- we can muddle our way through  
5 it, but my point is simply that you can still get  
6 this exhibit in if you're -- if your intention is  
7 to show what production lead duties are, and then  
8 I assume you want to tie that in with what Mr.  
9 Baumann has done. Is that correct? Because isn't  
10 that one of your contentions, that the job that he  
11 says he did were not really within his purview?

12 MR. TIDABACK: Correct, Your Honor.

13 JUDGE MORAN: Okay. Anyway, you run  
14 into a dead end at least at this point for  
15 production lead duties. You have not seen this  
16 before?

17 THE WITNESS: No, Your Honor.

18 JUDGE MORAN: Okay.

19 BY MR. TIDABACK:

20 Q So browsing through this document, do  
21 you agree that these duties, and I can explain  
22 more in it. Okay. So if we go in the middle of

1 the page, talks about control room back of  
2 assistance. Need to know that 90 days. Okay.  
3 And then underneath that, the next bullet says  
4 note production and production supply inventory  
5 and has the brackets around it, and it says the  
6 operations manager. That is for the person that  
7 is the backup to the shift lead.

8 JUDGE MORAN: See, you're testifying  
9 right now.

10 MR. TIDABACK: Oh, sorry. Okay.

11 JUDGE MORAN: You're asking him -- I  
12 assume what you're trying to ask him is looking  
13 over this exhibit does he recognize the items in  
14 this exhibit as being the duties of the production  
15 lead. Is that what you're trying to ask him?

16 MR. TIDABACK: Yes, Your Honor.

17 JUDGE MORAN: All right. Was your  
18 position production lead? Were you the production  
19 lead?

20 THE WITNESS: I was told I was hired to  
21 be the production supervisor, but tomatoes  
22 tomatoes, my opinion on that.

1 JUDGE MORAN: Okay. So my point is that  
2 whether we say production lead or production, what  
3 was the other term you just used?

4 THE WITNESS: Supervisor.

5 JUDGE MORAN: They're equivalent, lead  
6 or supervisor, synonymous terms.

7 THE WITNESS: Sure.

8 JUDGE MORAN: So looking over this  
9 exhibit, do you recognize this as being consistent  
10 with your responsibilities as the production  
11 supervisor or using the alternative term,  
12 production lead?

13 THE WITNESS: Some of it, yes. Your  
14 Honor, some of them no. I never got a training  
15 packet or any, you know what I mean, so.

16 JUDGE MORAN: So he identifies some of  
17 them, but he doesn't -- he doesn't concur that  
18 this isn't an accurate description because some of  
19 them he does not recognize as being part of his  
20 responsibilities.

21 MR. TIDABACK: Okay. Your Honor. If we  
22 could refer to Respondent's Exhibit RJ, which is

1 the supervisor versus lead worker document.

2 THE WITNESS: Okay.

3 JUDGE MORAN: This may be, again,  
4 something where, depending upon your questions and  
5 the answer, that this may come in through  
6 testimony from your own witnesses. I'm not -- you  
7 can ask him and then we'll see where we are.  
8 We'll see if you have an objection. As of right  
9 now, though, RI is not admitted.

10 MR. TIDABACK: Okay.

11 JUDGE MORAN: Now we're on RJ. Do you  
12 have a question for Mr. Baumann?

13 MR. TIDABACK: Yes, Your Honor.

14 BY MR. TIDABACK:

15 Q Have you seen this document?

16 A No.

17 Q Okay. In Teams, on all the files that  
18 we have access to, do you recall this document or  
19 the previous document being in those files?

20 A No.

21 Q Okay.

22 JUDGE MORAN: So let me just opine, Mr.

1 Tidaback, and I'm not trying to stymie you in this  
2 case, but what I'm doing is being open about my  
3 thoughts, and my initial reaction, subject to your  
4 witnesses and so forth is, let's assume that  
5 there's a difference between a supervisor and a  
6 lead worker and let's assume further that Mr.  
7 Baumann fits in one category but not the other.  
8 See, it may be unfair from your perspective. I  
9 hesitate -- I want to include from your  
10 perspective, but what I'm suggesting is I'm not  
11 sure that this would matter in terms of what I  
12 have to decide, in that -- that the real issues of  
13 what I talked about in the beginning, when I  
14 talked about the core elements of proving miner  
15 discrimination and so whether supervisor or lead  
16 worker, this individual, the complainant, could be  
17 all of these, either of these, none of these. But  
18 he would still be entitled to whatever he was  
19 doing for your company to lodge a complaint of  
20 discrimination and adverse action because of  
21 exercising his rights.

22 So my point is, he wouldn't necessarily

1 be -- he wouldn't be foreclosed from being -- from  
2 making a complaint if I said he wasn't a  
3 supervisor. No, he wasn't a lead worker. He  
4 could be anyone employed at the mine and still  
5 have the rights, and I had several cases where  
6 someone is not in any sense a supervisor. They're  
7 just a worker at the mine, operating some piece of  
8 machinery.

9 MR. TIDABACK: Okay.

10 JUDGE MORAN: So hopefully that --

11 MR. TIDABACK: That makes sense, Your  
12 Honor.

13 JUDGE MORAN: -- clarifies to you where  
14 I'm coming from, but if you think that if he was  
15 incorrectly describing his job duties, etcetera,  
16 it does not matter in terms of establishing a case  
17 of discrimination.

18 MR. TIDABACK: Right. And that's case  
19 in discrimination, when we talked about, it's part  
20 of the -- let me get to this part, Your Honor, and  
21 hopefully this is correct.

22 JUDGE MORAN: You're going to turn to

1 another one of your exhibits?

2 MR. TIDABACK: Yes, Your Honor.

3 JUDGE MORAN: Sure. That's fine.

4 BY MR. TIDABACK:

5 Q So under the first discovery request, if  
6 I remember correctly -- change things.

7 JUDGE MORAN: Let me just try and be a  
8 little more -- highlight the example. If we  
9 assume that Mr. Baumann's job was to push a broom  
10 and that's all, if he's discriminated against  
11 because he's asserting rights under the Mine Act,  
12 he's still protected no matter what his title is.  
13 Him for sure and anyone else is potentially  
14 covered.

15 MR. TIDABACK: Okay.

16 JUDGE MORAN: Now, you want me to look  
17 at some other exhibit?

18 MR. TIDABACK: I'm trying to find the  
19 response to the Secretary's request, and I do  
20 believe --

21 JUDGE MORAN: Okay.

22 MR. TIDABACK: -- that will put me off.

1 Let's see here. Yeah.

2 BY MR. TIDABACK:

3 Q During your time, Mr. Baumann, do you  
4 recall, as you mentioned in your testimony, there  
5 were phone calls that you and I had one-on-one,  
6 personal phone calls, and you had mentioned  
7 approximately ten of them, if I remember  
8 correctly?

9 MS. O'REILLY: Objection, that misstates  
10 his testimony.

11 JUDGE MORAN: You have to speak up with  
12 your objection. Your objection is what?

13 MS. O'REILLY: Misstates the testimony.

14 JUDGE MORAN: Well, he didn't -- he said  
15 if he remembers correctly, and the witness can say  
16 that no, the number -- the number of calls was  
17 what, and I don't know that the number of calls,  
18 if it's eight, nine or ten or seven or six, that  
19 it matters. There were calls, apparently, is that  
20 true, one-on-one calls that you had or maybe not.  
21 Did you have calls directly with Mr. Tidaback?

22 THE WITNESS: One or two, to my

1 knowledge, that I remember, just direct.

2 JUDGE MORAN: Okay.

3 THE WITNESS: And I always called him.

4 JUDGE MORAN: You never received a call  
5 from him initiated by him?

6 THE WITNESS: No, Your Honor.

7 JUDGE MORAN: Okay. All right.

8 THE WITNESS: Not to my recollection.

9 JUDGE MORAN: Okay. That's all we can  
10 ask for is what your best recollection is. Now  
11 you have a question about your communication with  
12 this witness. Go ahead, sir.

13 BY MR. TIDABACK:

14 Q Mr. Baumann, you mentioned that you had  
15 never made a call or I never made a call to you.  
16 Remember in the conversations while you were  
17 working in the mill having computer problems that  
18 I initiated a call with you?

19 JUDGE MORAN: Do you recall that?

20 THE WITNESS: No, I do not recall that.

21 BY MR. TIDABACK:

22 Q So in our one-on-one conversations, as

1 the judge pointed out earlier, during those calls  
2 we talked about performance, we talked about  
3 production schedule, we talked about maintenance  
4 issues. Do you remember any of that?

5 A No. I always messaged on Teams about --  
6 if it had computer problems or something, I would  
7 use my personal phone to message on the Teams. I  
8 do not recall any personal calls.

9 Q So in Teams -- or in your control room  
10 office area there was never a headset in there  
11 that you could actually make phone calls from?

12 A No.

13 Q Okay. With those phone calls, when we  
14 made the initial -- the initial phone call that we  
15 had, if you remember correctly, was how to -- how  
16 to properly input or how to gain access to the  
17 daily production spreadsheet. Do you remember  
18 that?

19 A No. Christine showed me everything.  
20 Christine and Terry at the time showed me how to  
21 do the stuff through the computer on the  
22 production.

1 JUDGE MORAN: How to input production?

2 THE WITNESS: How to input production  
3 information. Yes.

4 BY MR. TIDABACK:

5 Q So your -- so your statement is you  
6 don't recall any of the calls that I made, or that  
7 we had about performance, about production, about  
8 the numbers not getting correctly, about the  
9 personnel not showing up on time, personnel  
10 leaving early or going to day shift. None of  
11 those conversations ever happened?

12 A No. They were all on Teams about me  
13 going to days, and if I had computer problems I  
14 always messaged on Teams.

15 Q Okay. So during those phone calls, what  
16 time would it have been that those calls would  
17 have been made?

18 JUDGE MORAN: You know, first of all,  
19 he's denied that the phone calls were made by you  
20 on the subjects that you identified, so he can't  
21 very well tell you the times the calls were made  
22 since he denies that they were made.

1 BY MR. TIDABACK:

2 Q When you were first starting, Mr.  
3 Baumann, what shift did you work, what time of  
4 day?

5 A 8:00 a.m. to 4:30 p.m.

6 Q Okay. That is correct. So during that  
7 first two to three months you were in training  
8 with Mr. Huber. Is that correct?

9 A Yes. That's what -- yeah. We never got  
10 a training packet or anything like that, but yeah,  
11 Jim showed me how to run the mill.

12 Q Okay. Jim being Mr. Huber, which is the  
13 only person that had more experience than myself  
14 opening the business. Is that correct?

15 MS. O'REILLY: Objection, he's trying to  
16 testify.

17 JUDGE MORAN: You're crossing a line  
18 between asking a question and testifying when you  
19 say that he's the only person that had more  
20 experience than you did, okay? If I'm  
21 characterizing what you just said correctly.

22 MR. TIDABACK: Sorry.

1 JUDGE MORAN: What you have to focus on  
2 here is not layering in your opinion about  
3 something. What you kind of tap is what Mr.  
4 Baumann knows and recalls in his interactions,  
5 first of all, with you. He says virtually none  
6 that he can recall. Okay. That's his testimony.  
7 But what you're tapping into is his memory of his  
8 experiences of working at American Tripoli. So  
9 you have to sort of stay away -- not sort of, you  
10 have to stay away from when you add in additional  
11 information which has sort of overtones of  
12 testimony. Saying one person had more experience  
13 than another in your question. You see? You can  
14 ask him who had more experience if he knows about  
15 a particular individual, but you can't build that  
16 into your question. Remember, you're tapping his  
17 memory about his experience at American Tripoli.

18 MR. TIDABACK: Okay. Yeah. Thanks,  
19 Your Honor. Okay.

20 JUDGE MORAN: This is tough. I agree.  
21 It's a tough situation you're not an attorney.

22 MR. TIDABACK: I'm trying to decide or

1     trying to figure out the questions that I had, if  
2     they're actually questions or if actually  
3     testimony.

4             JUDGE MORAN:   Right.   I'm sure that Ms.  
5     O'Reilly will let you know.

6             MR. TIDABACK:   Thank you, yes.

7             BY MR. TIDABACK:

8             Q     Okay.   And I don't mean to -- okay.   So  
9     in your Complaint you stated you oversee  
10    employees.

11            MR. TIDABACK:   No, sorry, Your Honor.  
12    Trying to get to the point where it's about --

13            JUDGE MORAN:   You can break it down.  
14    You could say, Mr. Baumann, is it your testimony  
15    that you oversaw employees?   He will answer that.  
16    You can ask that, because that's a question.  
17    You're not asserting it.   So if you want to ask  
18    him a question or the oversaw employees, you may  
19    do so.

20            BY MR. TIDABACK:

21            Q     Okay.   Did you -- did you, Mr. Baumann,  
22    read the employee handbook?

1           A       No.

2           Q       Okay.

3           A       I didn't get one on that. Teams or  
4 whatever. Never got it. Never got showed any of  
5 that stuff.

6           Q       And how many months did you work at  
7 American Tripoli?

8           A       Ten.

9           Q       So in those ten months, myself -- sorry.  
10 Okay.

11                   JUDGE MORAN: Well, he's given you a  
12 flat answer. He never looked at the employee  
13 handbook. Is that what you called it?

14                   MR. TIDABACK: Yes, sir. Yes, sir.

15                   JUDGE MORAN: He said no, and then he  
16 amplified the answer which is appropriate to give  
17 a full answer, that nor was it -- was it handed to  
18 him to look over. Is that your testimony, you  
19 were not presented with that to look it over and  
20 study it?

21                   THE WITNESS: No, Your Honor. I mean,  
22 yes, Your Honor. This is our handbook, this is

1 our employee handbook. I was never given that.

2 JUDGE MORAN: Okay.

3 BY MR. TIDABACK:

4 Q Okay. You were never given the location  
5 since our employee handbook -- since our employee  
6 handbook is on the internet on our home page, did  
7 you ever review our home page?

8 MS. O'REILLY: Objection, again,  
9 argumentative and testifying --

10 JUDGE MORAN: Yes. I have to sustain --  
11 I have to sustain the objection. But you can  
12 frame it in a different way. You can just say,  
13 Mr. Baumann, did you ever on the internet see the  
14 employee handbook? And the answer is?

15 THE WITNESS: No.

16 JUDGE MORAN: Were you ever directed to  
17 go to the internet and take a look at the employee  
18 handbook?

19 THE WITNESS: No.

20 JUDGE MORAN: Was it ever called to your  
21 attention that there was an employee handbook that  
22 you could see in various locations?

1 THE WITNESS: Yes. It was brought to my  
2 attention that the employee handbook was on the  
3 website.

4 JUDGE MORAN: Okay. And you didn't take  
5 it on your own to then review that?

6 THE WITNESS: No, Your Honor, I did not.

7 JUDGE MORAN: Were you asked to review  
8 it?

9 THE WITNESS: No, Your Honor, I wasn't.

10 JUDGE MORAN: Okay.

11 BY MR. TIDABACK:

12 Q And if I understand correctly, you don't  
13 recall the files that were, all the training files  
14 which include -- were available to you on Teams?

15 A No. When I first got hired they told  
16 about a booklet, pamphlet, you know, like a step  
17 by step, and I never received it. They were going  
18 to -- a train pamphlet, training booklet, and I  
19 never got one.

20 Q Who is they?

21 A Christine Schreiber.

22 Q Do we have any paper booklets at all?

1           A       You didn't -- she said that she was  
2       going to have a make a training, a training -- or  
3       training, whatever you call them, sorry, Your  
4       Honor. I'm not real technical, but they were  
5       supposed to make training, and then I'd go and get  
6       in a week and then train, and then --

7           COURT REPORTER: I'm sorry. It's  
8       jumbled. I'm not hearing him. It's not picking  
9       you up. It's all jumbled.

10          JUDGE MORAN: Okay. I appreciate your  
11       speaking up. That's important. I have told you  
12       that before, but it's appreciated, so continue to  
13       do that anytime you're breaking up or someone is  
14       speaking insufficiently loud. Okay?

15          COURT REPORTER: I will do that.

16          JUDGE MORAN: What did she -- I didn't  
17       hear her response. She said yes?

18          COURT REPORTER: Yes, I will do that.

19          JUDGE MORAN: Okay. Go ahead.

20          BY MR. TIDABACK:

21          Q       In the ten months that you worked there  
22       did you ever bring it forward that you didn't read

1 the employee handbook?

2 A No.

3 Q That you didn't have access to it. Did,  
4 in those ten months, did you ever attempt to read  
5 or request that employee handbook or operations  
6 book, any of the training materials?

7 A No.

8 Q If there was no training documents  
9 provided to you, how did you learn your job?

10 A Jim just showed me how to start the mill  
11 up.

12 Q Okay. So after Jim, if Jim was out, how  
13 did you start the mill up?

14 A I did it myself by memory.

15 Q How many steps are in the startup  
16 checklist?

17 A I don't recall off the top of my head.  
18 We made a paper startup list --

19 Q Okay.

20 A -- while Christine was there, but I was  
21 part of making that.

22 Q Okay.

1 JUDGE MORAN: Okay.

2 BY MR. TIDABACK:

3 Q So in that employee -- you knew  
4 Christine Schreiber before American Tripoli.  
5 Correct?

6 A Yes. She was the boss at Schreibers.

7 Q So she was your boss at Schreibers, and  
8 then she was your supervisor at American Tripoli?

9 A Yes.

10 Q Okay. How often did you receive  
11 feedback on your performance from Christine?

12 A She come over every day at the end of  
13 the day.

14 Q Okay. So every day. So that would be  
15 an example of an instance where you were given  
16 advice or guidance?

17 A She just asked how things went.

18 Q Did you respond to feedback or  
19 instructions given?

20 A She never gave me any instructions or  
21 feedback. She asked me how things were going or  
22 how the day went and if I'd learned some stuff,

1 and I'd say, yeah, and she'd say, doing great.

2 Keep it up.

3 Q Were there any negative feedback given  
4 to you?

5 A No.

6 Q Were there instances that she brought  
7 forward or anyone else brought forward that you  
8 were not meeting your job expectations?

9 A No.

10 Q Okay. And you had interactions with Mr.  
11 Spears, your immediate supervisor. Correct?

12 A Yes.

13 Q Okay. Can you describe the nature of  
14 those interactions?

15 A Wow. They have been -- I mean, he was  
16 over there all the time, so no.

17 Q Was he there to assist you?

18 A He would try and help if he could. He  
19 was usually working on stuff separately.

20 Q Like, for example?

21 A He was trying to fix something, or would  
22 be -- he would just walk through the mill, you

1 know. He was really good about helping us grease  
2 things and stuff like that.

3 Q Okay. So if -- if I'm understanding  
4 correctly, if you were absent that day, Mr. Spears  
5 would take your place. Is that correct?

6 A No. Jim would start the mill if I  
7 wasn't able to be there.

8 Q Okay. So if -- right. If Jim was not  
9 there, who would start the mill?

10 A I would.

11 Q Okay. If Jim wasn't there and you  
12 weren't there, who would start the mill?

13 A I don't think it ever started without us  
14 being there.

15 Q So you've never seen Mr. Spears start  
16 the mill?

17 A No.

18 Q Even using that checklist that you  
19 helped provide?

20 A I've seen him try to start the mill, but  
21 he never could. I never seen him go through each  
22 step and get the mill to run.

1           Q     So this checklist that you're  
2     referencing, it shows every step by step to  
3     completely start the mill.  Correct?

4           A     Yes.

5           Q     Okay.  So would there be any reason why  
6     you would think that Mr. Spears couldn't start the  
7     mill if he followed the checklist?

8                   MS. O'REILLY:  Objection, misstates  
9     testimony.

10                   JUDGE MORAN:  I sustain the objection.  
11     That's something it's unanswerable on his part as  
12     to what was in the mind of Mr. Spears as to why he  
13     might not be able to start up the mill.

14                   MR. TIDABACK:  Yes, sir.

15                   BY MR. TIDABACK:

16           Q     All right.  Okay.  Were there instances  
17     where disagreements with Christine or Mr. Spears  
18     which led to raised voices by yourself or  
19     confrontations by yourself?

20           A     Yeah.  I probably did raise my voice  
21     around John Spears more than once in frustration.

22           Q     So there are times where you were

1 yelling at your boss?

2 A Not directly. I was yelling about a  
3 situation to my boss. Not yelling at my boss.

4 Q And in these disagreements -- okay. In  
5 those times were there ever a time -- were there  
6 ever situations where your emotions took over and  
7 you got mad, yelled, cussed, stomped off in anger?

8 MS. O'REILLY: Objection, compound.

9 JUDGE MORAN: I'm going to allow the  
10 question.

11 THE WITNESS: Do what?

12 JUDGE MORAN: The question may be  
13 answered. He asked were there moments when you  
14 would yell, stomp off, have angry interaction with  
15 Mr. Spears. Is that your -- the gist of your  
16 question?

17 MR. TIDABACK: Yes, Your Honor.

18 THE WITNESS: Not towards Mr. Spears.  
19 Yes, there was times I raised my voice. I never,  
20 never stomped off, and always stayed hooked.

21 BY MR. TIDABACK:

22 Q Did you receive any feedback about your

1 behavior during these --

2 A No.

3 Q -- hostile? Has anybody ever said to  
4 you that you created a hostile environment by  
5 screaming, getting mad and stomping off?

6 A No.

7 JUDGE MORAN: So I'm sure this is  
8 obvious to the Secretary, but what Mr. Tidaback is  
9 attempting to show is this second aspect of the  
10 defense that how even if we assume for argument  
11 sake that protected activity occurred and an  
12 adverse action occurred, this is under the thrust,  
13 I think you would agree, of but we would have  
14 fired the fellow anyway because of his behavior,  
15 even though he's denied it here, about his  
16 interactions with Mr. Spears and perhaps with  
17 others. So that's -- I just wanted to point that  
18 out, and that's fine. That's fair ground for the  
19 second aspect of a defense that any Respondent may  
20 raise. Okay. Go ahead. Yes. I'm sorry, I just  
21 wanted to set that on the record, in my view  
22 that's what's going on. Your questions are

1 directed at -- to the second part of the defense  
2 to a discrimination complaint.

3 MR. TIDABACK: I'm impressed that you  
4 got that the little bit that I put out. Yes, you  
5 are correct, Your Honor.

6 JUDGE MORAN: Okay.

7 BY MR. TIDABACK:

8 Q So, Mr. Baumann, how do you respond to  
9 the allegations that your actions or demeanor  
10 negatively impacted the morale or efficiency of  
11 the team there?

12 MS. O'REILLY: Objection, this is  
13 assuming facts that are not in evidence and it's  
14 argumentative.

15 JUDGE MORAN: I sustain the objection.

16 BY MR. TIDABACK:

17 Q Would you agree that working at American  
18 Tripoli is like a professional sports team. We're  
19 not a family. Families have unconditional love  
20 for each other. Sports teams are expected to  
21 provide results. So, for example, just to lighten  
22 the mood a little bit, if the Kansas City Chiefs

1     were losing wouldn't they replace Patrick Mahomes?

2                   MS. O'REILLY:   Objection, calls for  
3     speculation, argumentative, not laying the  
4     foundation and he's testifying in the question.

5                   JUDGE MORAN:   I have to sustain it and  
6     not to try and be funny, but I don't know any  
7     families with unconditional love, but.

8                   MR. TIDABACK:   I agree with that.

9                   JUDGE MORAN:   Anyway, so make another  
10    attempt at your -- maybe not this question, okay.  
11    You know, you'll have your witnesses, I assume,  
12    who are going to say something to the effect that  
13    Mr. Baumann had issues in terms -- and getting  
14    along with others, following instructions,  
15    listening to counseling or not listening to  
16    counseling, that's all part of the second tier.  
17    So try again with something else.

18                   MR. TIDABACK:   Yes, Your Honor.

19                   BY MR. TIDABACK:

20           Q        Okay.  Do you agree that we have to all  
21    -- it takes more than -- as you stated in your  
22    testimony earlier, it takes more than one person

1 to operate the mill. Is that correct?

2 A Oh, yes.

3 Q Okay. So with that notion, it takes us  
4 to get things done, not one person?

5 A Yes.

6 Q So with that, if one person creates a  
7 hostile environment, is it not difficult to work  
8 in that environment?

9 A Yes.

10 Q Okay. So after the issue of the 104(b),  
11 you stated that you were involved with the  
12 inspection results. Is that your recollection?

13 A Yes.

14 Q Did you ever attend a preinspection  
15 brief?

16 A Yes.

17 Q Do you have dates or any proof of that?

18 A I don't, but it would be in the -- they  
19 would -- the MSHA inspector would have put that I  
20 attended.

21 Q Okay. And what --

22 A Because I went over in the admin

1 building before they done their -- did their  
2 walk-through.

3 Q And if no MSHA reports show that, how  
4 would you -- how would you respond to that?

5 A There's proof that I was with the MSHA  
6 inspectors every time, so.

7 Q Did you attend any debrief?

8 A Yes.

9 Q Debriefings? And those reports would be  
10 the same?

11 A Yes.

12 Q Okay. Earlier you had mentioned when  
13 you asked about the pay regarding the 104(b)  
14 withdraw earlier, were you involved in any of the  
15 MSHA inspectors e-mails regarding that 104 pay?  
16 Were you included in the e-mails from Jesse Molesi  
17 asking Inspector Markeson about those -- about the  
18 requirements for the pay? Were you involved in  
19 that?

20 A No.

21 Q Okay. So you don't know that Jesse sent  
22 Mr. Markeson an e-mail, probably right after you

1 had -- sorry. You don't know that Jesse sent an  
2 e-mail?

3 A No.

4 Q Do you know that I sent an e-mail to Mr.  
5 Markeson?

6 A No.

7 Q Okay. And I think you testified  
8 earlier, the second shift, when you got finished  
9 with your two to three months training with Jim  
10 you went into the evening shift and that was a  
11 4:00 p.m. to midnight shift. Correct?

12 A Yes.

13 Q So during that time when you were  
14 actually working the evening shift or anytime that  
15 you were working, okay, who input their hours for  
16 the mill associates?

17 A Me.

18 Q Okay. If there was any overtime,  
19 wouldn't you have recorded that as well?

20 A When I recorded the hours they have to  
21 be approved at the end of the week or whatever,  
22 and if I say I call Christine, hey, we're going to

1 be here until, you know, 12:30 or 1 o'clock, she  
2 would be, well, we can't have -- we can't record  
3 overtime. So I was told to input the eight hours,  
4 unless we were late.

5 Q So were you ever involved with any of  
6 the budgeting discussions?

7 A Nope.

8 Q But you were told that if any overtime  
9 was going to be needed, it would need to be  
10 pre-approved and --

11 A Yes.

12 Q And all you had -- and how would you do  
13 that? How would you request overtime?

14 A I would ask or if something was running  
15 late, I'd either go to John or Christine.

16 Q What were the reasons why you were  
17 changed from the evening shift to the day shift?

18 A We were catching up and running out of  
19 room on the bulk bags that me and R.J. were  
20 running, and it was being too hard on the machines  
21 running them that long at once --

22 Q Okay.

1           A       -- is what I got told.

2           Q       Okay. So who was the shift lead during  
3 the day shift if you were the shift lead at night  
4 shift?

5           A       At that time, I don't remember. I  
6 believe it would have been Will Shallenberger.  
7 Yeah.

8           Q       Do you remember what happened to Will  
9 Shallenberger?

10          A       He ended up quitting.

11          Q       Mr. Shallenberger quit. Okay. At that  
12 time when Mr. Shallenberger quit, how many people  
13 were working night shift?

14          A       Me and R.J.

15          Q       Two people?

16          A       Yeah.

17          Q       Before you were moved to night shift was  
18 there discussions with you to make sure it didn't  
19 affect you or R.J.?

20          A       Yes.

21                 JUDGE MORAN: Getting all of this, Madam  
22 Court Reporter?

1 COURT REPORTER: I believe so. I didn't  
2 know if there was a question I just missed then or  
3 not.

4 JUDGE MORAN: No, we had a pause so I  
5 thought it was a good time for me to check with  
6 you.

7 COURT REPORTER: We're good.

8 JUDGE MORAN: Thank you.

9 BY MR. TIDABACK:

10 Q In your testimony, Mr. Baumann, you had  
11 stated that you had received no additional  
12 training?

13 A No.

14 Q Okay. Did you receive the initial  
15 miners, or excuse me, the miner, the new miner  
16 initial training? Did you receive that?

17 A No. Not the full -- I didn't realize  
18 that it was supposed to be 24 hours or whatever,  
19 until months into my employment, until the lady  
20 came and did the refresher course.

21 Q All right. And you signed this  
22 certificate. Correct?

1           A       Yes.

2           Q       Box 6, let's see here. If we look at  
3 Box 6 of that certificate.

4           MR. TIDABACK: Sorry, Your Honor.  
5 Respondent's Exhibit RL.

6           JUDGE MORAN: RL.

7           MR. TIDABACK: R, Romeo Lima.

8           JUDGE MORAN: Yes. I remember this  
9 exhibit. At least it looks like it's the one that  
10 the Secretary admitted. I can't tell you what  
11 number it is now.

12          MS. O'REILLY: It's P40 in the  
13 Secretary's.

14          JUDGE MORAN: P four oh.

15          THE WITNESS: This is the refresher.  
16 This is not the original one I looked at earlier.

17          BY MR. TIDABACK:

18          Q       Oh, I'm sorry. This would be RL. The  
19 RL is the new miner training? Okay.

20          A       Okay, yes. The RL is the first one,  
21 yes.

22          Q       Okay. So upon signing this, did you

1 read Box 6?

2 A No.

3 Q Do you understand Box 6?

4 A Yes. I do now, yeah.

5 Q Okay. Did you ever receive annual  
6 refresher training?

7 A Yes.

8 MR. TIDABACK: Okay. Your Honor, that  
9 should be Respondent Exhibit RM.

10 JUDGE MORAN: Before we move on, this  
11 would be -- although it's a duplicate, are you --  
12 do you want RL admitted or were you satisfied with  
13 the Secretary?

14 MR. TIDABACK: Satisfied with.

15 JUDGE MORAN: So then just make sure  
16 we're clear on the record. At this point you have  
17 no exhibits, I'm not saying that as a criticism,  
18 you have no exhibits independent of what the  
19 Secretary admitted, the many documents. You have  
20 none in the record at this point in time.  
21 Correct?

22 MR. TIDABACK: Correct.

1 JUDGE MORAN: Okay. Did I state that  
2 too confusingly? You have not -- I have no record  
3 of you introducing any exhibits in this  
4 proceeding. The only exhibits that have been  
5 admitted are the Secretary's at this point in  
6 time.

7 MR. TIDABACK: So does that matter,  
8 since it's the same information that the --

9 JUDGE MORAN: No, it doesn't matter.  
10 You've referenced -- you've referenced, the  
11 problem is you've described it as RL, and then it  
12 might be confusing since there is no RL in the  
13 record to identify what RL was talking about,  
14 except by your word, so --

15 MR. TIDABACK: That makes sense. I  
16 gotcha.

17 JUDGE MORAN: So it might be safer, if  
18 you think it's important and I would certainly  
19 admit it, to have RL admitted as a Respondent's  
20 exhibit. I mean, the thrust of this is, let's be  
21 plain here, that you're saying that Mr. Baumann  
22 should not have signed this because it was untrue

1     that he received these aspects.   Right?

2                 MR. TIDABACK:   As far as the company is  
3     concerned, he signed it, he received the training.

4                 JUDGE MORAN:   Right.   However, also  
5     involved in this is another person.

6                 MR. TIDABACK:   Bonnie Bainter.   She was  
7     a safety person.

8                 JUDGE MORAN:   Well, it says the person  
9     who signed -- it says yes, I certified that the  
10    above training has been completed, and you  
11    recognize that signature?

12                MR. TIDABACK:   That's Bonnie Bainter.  
13    Yes.

14                JUDGE MORAN:   So in that sense, that  
15    person is in hot water, too, if we follow your  
16    theory that Mr. Baumann is in hot water because he  
17    signed this document, but the -- but the thrust of  
18    this is that the training has been completed  
19    according to Ms. Bainter?

20                MR. TIDABACK:   Bainter, yes.  
21    B-a-i-n-t-e-r.

22                JUDGE MORAN:   Seems like that's more on

1 her or at least equally on her as it is on Mr.  
2 Baumann.

3 MR. TIDABACK: Correct. My only thing  
4 is just make sure that Mr. Baumann got the  
5 training because that's really my concern.

6 JUDGE MORAN: He's already said he  
7 really didn't get the training, although this form  
8 would indicate that he did receive some of the  
9 training. But I'm saying that there's a problem  
10 here with at least two -- with potentially two  
11 people. And by the way, help me out with this one  
12 side or the -- sorry, is this the date on RL? Is  
13 it on there? There's a signature.

14 THE WITNESS: Yeah, I don't see -- I  
15 don't see it.

16 MS. O'REILLY: I would suggest that RL  
17 appears to be missing some of the information.  
18 340 seems to be a more complete record of this.  
19 They are not identical.

20 JUDGE MORAN: In the sense that one is  
21 cut off, apparently.

22 MS. O'REILLY: Correct.

1 JUDGE MORAN: We want to make this as  
2 confusion free as possible. So this is putting an  
3 imposition on the Secretary. It's not really your  
4 burden, but to the extent that Mr. Tidaback, if  
5 he's introducing an exhibit as his own, that's one  
6 thing, but if not and he wants to reference it,  
7 then we need to have on the record which of the  
8 Secretary's exhibits he's referring to. So you  
9 have a choice. You can elect to defer to the  
10 Secretary's exhibit in a given question, or you  
11 can say that you want to have RL admitted  
12 independent of what the Secretary has admitted,  
13 had admitted already. So that's your choice.

14 MR. TIDABACK: Yes, Your Honor.

15 JUDGE MORAN: Let's talk about this one.

16 MR. TIDABACK: On this one I refer to  
17 the Secretary's.

18 JUDGE MORAN: That's P40.

19 MR. TIDABACK: Yes, Your Honor.

20 JUDGE MORAN: The question is we still  
21 have no exhibits admitted. That's not a  
22 criticism. That's just stating a fact.

1 MR. TIDABACK: Yes, sir.

2 JUDGE MORAN: All right.

3 BY MR. TIDABACK:

4 Q So the second question on the training  
5 side is you've received your annual training as  
6 well. That is exhibit -- different book --

7 A RM.

8 MR. TIDABACK: I've got to show the  
9 Secretary.

10 JUDGE MORAN: Let me just -- this is in  
11 the role of trying to help.

12 MS. O'REILLY: We do not have that  
13 exhibit.

14 MR. TIDABACK: I'm sorry.

15 JUDGE MORAN: Trying to help out where  
16 you're going with this. See, Mr. Tidaback, the  
17 date is kind of important for P40. The date to me  
18 is important because this is the -- this is the  
19 initial training.

20 MR. TIDABACK: Yes, Your Honor.

21 JUDGE MORAN: And so if you're  
22 contending that this is a reason why you decided

1 to discharge Mr. Baumann, because he was  
2 untruthful about -- that's not what you're doing?

3 MR. TIDABACK: No, sir. Not at all.  
4 I'm just making sure that Mr. Baumann says since  
5 in his testimony he didn't get training and we  
6 provided a lot of training, why did you not get  
7 the training. That's what I'm trying to figure  
8 out, because all the training that is provided is  
9 online. He had access to it. It's there. So  
10 this is the required MSHA training, so I want to  
11 make sure that the record shows that he received  
12 his required MSHA training and then anything  
13 additional training, since it was stated that he  
14 hadn't received any, is all available to him 24  
15 hours a day, seven days a week. And he had been  
16 -- he had been counseled on it. So that's what --

17 JUDGE MORAN: That's your contention,  
18 that he'd been counseled about it?

19 MR. TIDABACK: Yes.

20 JUDGE MORAN: So what I'm trying to  
21 figure out is this. How does this fit into the  
22 complainant's issue, the Secretary's contention

1 that Mr. Baumann engaged in protected activity and  
2 was adversely impacted by it? That's not what  
3 this is about. This doesn't also appear to be in  
4 terms of the affirmative defense that we would  
5 have fired. You said just now no. This is not a  
6 reason for your having discharged Mr. Baumann  
7 because of this P40. You're not saying that's --

8 MR. TIDABACK: Not at all, Your Honor.

9 JUDGE MORAN: So what is the point  
10 behind P40?

11 MR. TIDABACK: It leads up that he was  
12 not following the guidance of the supervisors  
13 giving him guidance to learn your job more, learn  
14 about MSHA, learn about the machines, learn about  
15 safety. All the training that is in the book so  
16 that he could eventually progress to be a manager,  
17 a supervisor, because that's what we had talked  
18 about. That is my contention of I didn't receive  
19 anything. Yeah, you did.

20 JUDGE MORAN: But you'll have to bring  
21 that on through your own witnesses.

22 MR. TIDABACK: Right.

1 JUDGE MORAN: I assume you have  
2 witnesses you're going to call. We'll talk about  
3 -- about the training that Mr. Baumann received --

4 MR. TIDABACK: Right.

5 JUDGE MORAN: -- and any deficiencies  
6 they perceived upon having received that training.  
7 Is that right?

8 MR. TIDABACK: Correct. Even the  
9 documents that have been provided to the Secretary  
10 show that. So, yes, Your Honor.

11 JUDGE MORAN: Well, one problem I have  
12 is speaking loud here, again -- out loud here, I  
13 think my thought is at the time of -- it seems to  
14 me that at the time that you decide to discharge  
15 Mr. Baumann you would have, of necessity, had some  
16 sort of record established prior to discharging  
17 him as to the grounds for his discharge.

18 MR. TIDABACK: Correct.

19 JUDGE MORAN: I don't know of any  
20 exhibit thus far that identifies his deficiencies  
21 such as that would warrant your firing him,  
22 regardless of protected activity.

1           MR. TIDABACK: Correct. The other four  
2 shift leads, people that we had hired to replace  
3 Mr. Baumann, that is the proof that we're showing  
4 that it was talked about. It was discussed. We  
5 were trying to get someone in there. We even --  
6 even -- we even backed out of that step and hired  
7 someone to assist Mr. Baumann to hopefully help  
8 him become a better person and be able to stay in  
9 a job, but he wasn't willing to listen, and he  
10 wasn't taking guidance and he was argumentative in  
11 creating an environment with his own supervisor.

12           JUDGE MORAN: You're testifying again,  
13 but it seems to me to be a serious deficiency in  
14 your case. If you start talking about people that  
15 you hired after him, etcetera, what you have to  
16 establish is that the decision to fire him was  
17 justified in one way or another. Okay. You don't  
18 seem to be challenging that he engaged in -- I  
19 haven't heard yet anything that we've challenged  
20 he was engaged in protected activity and that an  
21 adverse action. We know an adverse action  
22 happened. He was fired, so -- but if you're going

1 to show the theory that he would have been fired  
2 in any event for his lack of adequate job  
3 performance, that would have had to have been  
4 detailed chapter and verse before you make the  
5 decision, it seems to me, and I know of no record  
6 that you have introduced to demonstrate that. If  
7 you're demonstrating it after the fact by people  
8 you hired after he's fired, that doesn't get you  
9 there.

10 MR. TIDABACK: The people we hired were  
11 actually before he was terminated, Your Honor.

12 JUDGE MORAN: Okay. Well, I have to  
13 wait for those witnesses to hear of deficiencies  
14 which you may hope that apart from his protected  
15 activity, apart from his adverse action, I haven't  
16 heard much to show me that he would have been  
17 fired, in any event.

18 MR. TIDABACK: Correct. And that's --  
19 the new hiring would be testimony, if I  
20 understand.

21 JUDGE MORAN: Right. So we'll hear from  
22 you about that or maybe through some other

1 witnesses. I don't know. I don't know whether  
2 your daughter can conduct the questioning or what.  
3 But so why don't you continue on and we'll see.  
4 I've diverted us too long now. Go ahead with your  
5 questions that you may have of Mr. Baumann still  
6 and we'll see if there are problems with that.  
7 But remember, your goal has to be to establish, we  
8 would have fired the guy anyway.

9 MR. TIDABACK: Correct.

10 JUDGE MORAN: It can be the other goal,  
11 too, but you have said nothing really about that.  
12 Protected activity, adverse action, I've heard  
13 nothing. Crickets as they say. I've heard  
14 crickets. You know what that means. Right?

15 MR. TIDABACK: Yes, sir.

16 JUDGE MORAN: Okay. Okay. Go ahead  
17 with your questions.

18 MR. TIDABACK: I'm try not to testify  
19 because I think that's --

20 JUDGE MORAN: After that long lecture.

21 BY MR. TIDABACK:

22 Q Okay. Let's see here. How would you

1 explain Microsoft Teams? Why do we use it?

2 A To keep track of the daily production.  
3 To keep track of inventory. To keep track of the  
4 orders. Pretty much everything in the business.

5 Q Okay. So on that, as you have  
6 mentioned, keeping track of the inventories.

7 A Uh-huh.

8 Q Were you ever counseled on not keeping  
9 inventories?

10 A I never got asked to count anything in  
11 that building unless it was to count an order to  
12 see if we had it to be shipped out.

13 Q Okay. So the court understands, explain  
14 how you get the materials to make the orders that  
15 you fulfill.

16 A I don't guess I understand.

17 Q What is involved in processing an order?

18 A In processing? That was all out of my  
19 hands. I got to the -- I pulled it up. I looked  
20 at the daily production, what we were needing to  
21 run. I could look to see what we were going to  
22 need to run next week, next month, what we had

1 ran. As far as me being in charge of making sure  
2 we had stuff to do it, I never had anything to do  
3 with any of that.

4 Q So it was never your responsibility as a  
5 shift lead to make sure that you have the tools or  
6 equipment or supplies to fulfill orders that you  
7 were tasked to fulfill?

8 A I never once got asked to count any bags  
9 or anything.

10 Q So how would you have fulfilled the  
11 bags?

12 A Before we'd always had people that  
13 counted it. I never once got asked to count  
14 anything, as far as to make sure that we had  
15 anything for orders, and sometimes we didn't have  
16 enough stuff for orders.

17 Q So in the normal daily process, do you  
18 agree that you need pallets, bags, slip sheets,  
19 stretch wrap?

20 A Yes. And then I would look and see how  
21 many pallets we needed and go out and get them,  
22 and see how many bags we needed and go out and get

1     them.  We -- that was a preparation while the  
2     system was warming up.

3           Q     Okay.  So in the break room, part of  
4     your daily startup checklist that you guys  
5     created, okay, there was two white boards on the  
6     board, on the wall.  Do you remember those?

7           A     Uh-huh.

8           Q     Okay.

9                   JUDGE MORAN:  You have to answer yes or  
10    no.

11                  THE WITNESS:  Yes.  Sorry.  Sorry.

12                  BY MR. TIDABACK:

13           Q     Do you remember the contents of those  
14    boards?

15           A     They would have what we needed to run  
16    that day, the number of pallets, the number of  
17    bags that we would need, etcetera.

18           Q     And who filled that board up?

19           A     John Spears.

20           Q     John?

21           A     He's the operations manager.

22           Q     But where was his office?  Where did he

1 work in?

2 A Admin building.

3 Q Where was the break room related to your  
4 office?

5 A In the middle.

6 Q In the middle. How far away from your  
7 office is the break room that had the board that  
8 you needed all today's operations?

9 A Ten feet.

10 Q Okay. So how -- okay. Let's see. How  
11 did you -- how -- okay. So you're stating that  
12 you went and got all the pallets, you went and got  
13 all of the bags. How did you get that  
14 information?

15 A From the spreadsheet on the computer.

16 Q Okay. So the daily production  
17 spreadsheet that you filled out at the end of your  
18 evening shift. Right?

19 A Uh-huh.

20 Q Okay. How did you get information off  
21 of that to run today's production if that  
22 spreadsheet is how you put information in at the

1 end of your shift?

2 A You can look and it's been so long ago  
3 now, there was places you could go in there and  
4 see what you were supposed to run the next day or  
5 the next week and stuff. Just like I explained.

6 JUDGE MORAN: Well, did you enter  
7 information ever on a white board that was in the  
8 break room? Were you ever filling that white  
9 board out?

10 THE WITNESS: No.

11 JUDGE MORAN: Never?

12 THE WITNESS: Never got asked to.

13 JUDGE MORAN: And your understanding as  
14 to what person put this information on the white  
15 board?

16 THE WITNESS: The operation, when it got  
17 filled out it was done by John. I'm going to say  
18 80 percent of my year there, there was nothing  
19 ever written on that.

20 JUDGE MORAN: Thank you.

21 BY MR. TIDABACK:

22 Q So do you agree that your -- some your

1 duties is testing out the miners to make sure that  
2 you get production done that day?

3 A Yes.

4 Q Do you agree that assigning and ensuring  
5 shutdown tasks are on the board every day?

6 A Yes. There was one mirror thing.

7 JUDGE MORAN: You have to let him finish  
8 his answer.

9 A There was one mirror thing that when  
10 there was eight people helping, yes, we would  
11 write their name, what they were tasked to do that  
12 day. It got down to the last couple months there  
13 was only like three or four of us, we all  
14 automatically knew what to do. We did not fill it  
15 out.

16 BY MR. TIDABACK:

17 Q Okay. So who filled that board out?

18 A They didn't. That part of the board  
19 didn't get filled out.

20 Q When -- when the names were put on the  
21 board, who filled the board out?

22 A When the names were on the board? They

1     were never changed.   It was always the same.

2           Q     Okay.

3           A     The same names and the same tasks.

4     Never changed while I was there.

5           Q     Okay.   So as part of your role as the  
6     shift lead, did you task and assign mill  
7     associates?

8           A     Yes.

9           Q     Okay.   Did you rotate the schedule?

10          A     Yes.

11          Q     Did you track their work hours, PTO?

12          A     Yes.

13          Q     And what did you use to do what?

14          A     Microsoft.

15          Q     Okay.   Microsoft Shifts.   Is that  
16     correct?

17          A     Yes.

18          Q     And Microsoft Shifts is an online app  
19     inside of Teams that you do it digitally, and it  
20     tracks who inputs data, who puts OT, that is all  
21     done.   Is that correct, Mr. Baumann?

22          A     Yes.

1           Q       We use Teams. What are Teams for?  
2       What's the reason you use them?

3           A       I have no idea. I guess it was the  
4       easiest thing to use at the time.

5           JUDGE MORAN: It's just a means of  
6       communicating between employees. Right?

7           THE WITNESS: Yes. We got to the point,  
8       though, it was hard, because we were using our  
9       personal phones in the mill, so I got -- I did  
10      have a habit. I would leave my phone in the  
11      office so it didn't get broke, because I was using  
12      my personal phone for the -- you know, trying to  
13      task things out. Putting the hours in, I put the  
14      hours in every day. They had to go to John to get  
15      approved and they had to go to them to get  
16      approved, so if they changed them after I put them  
17      in, I don't know. I never seen them again once I  
18      put them in.

19           BY MR. TIDABACK:

20          Q       How would you know the approval process  
21      that it goes to John or goes to --

22          A       Because if there was ever any questions,

1 John would ask me, so I knew that it went to him  
2 next.

3 Q So John -- John verified what your input  
4 was?

5 A Yes.

6 Q Is that correct? But how do you know  
7 that it came to us?

8 A John would tell me that he asked if  
9 there was somebody was needing PTO or if somebody  
10 was gone, or you know, because when you're trying  
11 to do a thousand things and you're trying to make  
12 sure some people are there or somebody leaves  
13 early, that you know, at the end of the week John  
14 would say, hey, are we sure these hours are right  
15 because before I send this to Russell.

16 Q Okay. So is it safe to say that you're  
17 speculating how it works because there was no  
18 process shown?

19 A No, I didn't. I couldn't tell by  
20 looking at it.

21 Q Would you agree that we used Microsoft  
22 Teams for collaboration? So everything -- because

1     you're not working side by side with someone every  
2     moment.    Correct?

3             A     Yeah.

4             Q     So Jim may be on the fourth floor.   You  
5     might be on the first floor.   R.J. may be working  
6     the bagger.   Is that correct?

7             A     Yes.

8             Q     And that's four stories?

9             A     Yes.

10            Q     You use that to communicate so that  
11    everybody knows what's going on, we know where  
12    everybody is?

13            A     We tried to, but yet again, we were  
14    using our phones.   So a lot of times the guys left  
15    their phones in the break room because they didn't  
16    want to get them broke or ruined by the material.

17            Q     Were there internet provided in the  
18    mill?

19            A     Yes.   When it was working.

20            Q     Okay.

21                   JUDGE MORAN:   So let me just interrupt  
22    for a second just for clarification of the record.

1 We often, during the days events, you have  
2 mentioned John and when you talk about John, you  
3 talk about John Spears?

4 THE WITNESS: Yes, Your Honor.

5 JUDGE MORAN: Just so the record is  
6 clear, are there any other persons with the first  
7 name John at --

8 THE WITNESS: No, Your Honor.

9 JUDGE MORAN: So we can be assured when  
10 there's a reference to John, we're talking about  
11 one person, Mr. Spears?

12 THE WITNESS: Yes, Your Honor.

13 JUDGE MORAN: Okay.

14 BY MR. TIDABACK:

15 Q So and then also in your duties as a  
16 shift lead, as needed, would you remind the mill  
17 about PPE? -

18 A Yes.

19 Q What was the required PPE in the mill?

20 A PAPR mask, safety glasses, earplugs,  
21 hardhats.

22 Q Also safe to assume that you

1 collaborated with the environmental safety  
2 specialist, I think you mentioned Jesse Molesi  
3 earlier. Is that correct?

4 A Yes.

5 Q Okay. And also, part of those normal  
6 tasks, duties and responsibilities would be to  
7 follow all of MSHA and company guidelines. Is  
8 that correct?

9 A Yes.

10 Q Would you include housekeeping?

11 A Yes.

12 Q Guarding?

13 A Yes.

14 Q Wearing appropriate PPE? You agree with  
15 that?

16 A Yes.

17 Q I guess you mentioned earlier, correct  
18 me if I'm wrong, if Jim was out, you would do the  
19 startups. Is that correct?

20 A Yes.

21 Q Okay.

22 A Well, I did all the startups even while

1 Jim was there, yes.

2 Q If you needed more materials to create  
3 more product, how did you -- what did you do?

4 A I would call John to have Max bring us  
5 whatever we needed as far as from the pit.

6 Q Okay. So back to the production  
7 spreadsheet.

8 A Because Max didn't have Teams on his  
9 phone or whatever, so we had to --

10 Q Okay.

11 A -- communicate by phone with him.

12 Q There is the production spreadsheet.

13 And you remember the production spreadsheet.

14 Correct?

15 A Yes.

16 Q How did you get the daily requirements  
17 for the day from the daily production spreadsheet?

18 A We went by the production schedule.

19 Q Okay. Where is the production schedule?

20 A Without having a computer here, I can't  
21 get -- I couldn't walk you through it or tell you.

22 Q Okay. So you had to use the computer to

1 get to the production schedule that was provided  
2 to you?

3 A Yes.

4 Q Okay. Let's see here. Okay. So  
5 production schedule is provided online. Could you  
6 access the production schedule from your phone?

7 A I'm sure I probably could have from my  
8 phone, but I never did.

9 Q So basically you can access it anywhere  
10 in world?

11 A Yes.

12 Q So with the production schedule, the  
13 Teams daily production spreadsheet, you filled out  
14 both of those. Correct? You had to check one to  
15 get to the next one. Correct?

16 A What now?

17 Q The production schedule provided on the  
18 internet.

19 A Yes.

20 Q You make -- you got your numbers for  
21 that off of the production schedule?

22 A Yes.

1           Q     Okay. When the board was filled out,  
2     you posted them to the board so that people would  
3     know what we're doing. Correct?

4           A     Yes.

5           Q     Okay. At the end of your shift, let's  
6     back up another step. Once you put that  
7     information on the board and you tasked out the  
8     individuals to go get bags, R.J. go get bags, Jim,  
9     go get pallets. Is that correct?

10          A     Yes.

11          Q     After everything was ran, end of shift  
12     happens, we close out, we clean up and we go home.  
13     Before you go home, what was your last step for  
14     the day in reference to the production, daily  
15     production spreadsheet?

16          A     On the night shift I would always enter  
17     them. When we got moved to days the -- I don't  
18     even know what you was calling them, the  
19     production assistant or whatever, they would enter  
20     them. John would enter them because I was going  
21     in at 7:00 a.m. to start up early, so I would  
22     leave before the last number got put in, or you

1 know, before the last bag got ran, and then Jim  
2 was shutting the place down.

3 Q Okay. So what you're stating is you and  
4 John had worked out a scheduled shift and that you  
5 would come in an hour early and you left an hour  
6 early?

7 A Yes.

8 Q Okay. But still, to check the schedule,  
9 you had to check online and at the end of the day  
10 the daily production spreadsheet had to be filled  
11 out. Correct?

12 A Yes.

13 Q And why would that be filled out?

14 A To let us know what the numbers were for  
15 that day. How much of that order got ran and --

16 Q Does the production schedule spread or  
17 does the production daily production spreadsheet  
18 show what needs to be shipped out?

19 A Yes. You can look on there and see,  
20 yes.

21 Q So you're fairly familiar with Teams.  
22 Right?

1           A     Yeah, I learned it, yeah. I was  
2     learning it real well.

3           Q     And do you remember that Teams do teach  
4     -- do you remember the --

5           A     Without having it in front of me, no.

6           Q     Do you remember across the top of the  
7     teams?

8           A     Yes.

9           Q     And it said files?

10          A     Yes.

11          Q     Over across from that is or when you did  
12     your daily workplace exams, how did you get to the  
13     daily workplace exam?

14          A     Through one of the tabs.

15          Q     Okay. Correct. So one of the tabs on  
16     the Teams files, it would say workplace exam?

17          A     Yes.

18          Q     You had a control room exam. Correct?

19          A     Yeah. I can't remember exactly what it  
20     was called, but yes, I had my own.

21          Q     The forklift exam, so all that  
22     information was provided to you?

1 A Yes.

2 Q Okay. So you do remember that was tabs  
3 across the top and you remember the files?

4 A Yes.

5 Q Okay. So you remember that. So you  
6 just -- you had access to those files?

7 A Yes. To my knowledge, the safety, the  
8 daily safety check wasn't even introduced into the  
9 system, though, until December or whenever I  
10 started doing them because nobody knew we were  
11 supposed to or whatever.

12 Q I'm glad you brought that up. Okay. In  
13 your desk, in the left-hand side, and I know you  
14 and I had this conversation because that is the  
15 reason we went to -- sorry.

16 MS. O'REILLY: Objection.

17 JUDGE MORAN: I sustain the objection.

18 BY MR. TIDABACK:

19 Q Sorry. Do you remember in your desk on  
20 the left-hand side, top drawer, a stack full of  
21 papers that used to be old daily workplace exams?

22 A No.

1 Q You don't remember those at all?

2 A I honestly do not.

3 Q Do you remember our conversation in the  
4 control room about changing to digital so that we  
5 can -- actually, sorry. Do you remember that  
6 conversation?

7 A No. I didn't hear one thing about daily  
8 safety inspections until the MSHA inspector  
9 started asking for them. I never got trained. I  
10 never heard one -- not one word was ever said to  
11 me until it became an issue with MSHA.

12 Q So in your new miners training they  
13 didn't cover or annual MSHA training, they didn't  
14 cover guarding?

15 A At the refresher course, yes, they did,  
16 but that was to the point when we were finding out  
17 that we were against all the odds and stuff.

18 Q You were never referenced to review MSHA  
19 guarding?

20 A No.

21 Q Not in Teams, not in conversation?

22 A Nope.

1           Q       Okay. If we can look at Respondent's  
2       Exhibit P, which is the communications regarding  
3       MSHA guide to guarding.

4           JUDGE MORAN: Respondent's Exhibit P.

5           MR. TIDABACK: RP, Your Honor.

6           JUDGE MORAN: Yes. It Exhibit P. It's  
7       just one page. Right?

8           MR. TIDABACK: Yes, Your Honor, it is  
9       one page.

10          JUDGE MORAN: And it does -- I'm just  
11       reading. I'm not introducing it, but Exhibit RP,  
12       and this says, excuse me, it does say Russell.

13          MR. TIDABACK: And then paren, you, and  
14       then below that is a citation to MSHA guide to  
15       equipment guarding tips. This is dated 2-14-23.  
16       So that's near the end of Mr. Baumann's  
17       employment. Right?

18          MR. TIDABACK: Yes, Your Honor.

19          JUDGE MORAN: Right? I have that right,  
20       folks?

21          MR. TIDABACK: Yes, Your Honor.

22          MS. O'REILLY: Correct.

1 JUDGE MORAN: I mean, that's the kind of  
2 consistent -- if you're referencing this at that  
3 point in time, isn't that consistent with his  
4 testimony that there weren't issues about -- about  
5 guarding until after the MSHA inspectors started  
6 to say, hey, you've got to pay attention to this?

7 MR. TIDABACK: This was a refresher  
8 training, because if you look in the -- on the top  
9 it says ATMO, American Tripoli, Missouri  
10 maintenance group which Mr. Baumann admitted he  
11 was in that group during that time, and on 14 we  
12 got citations. Again, this is a reference to a  
13 refresher. Hey, guys, you need to read the MSHA  
14 guide instructions. That way -- we've already got  
15 the PDF. They can go download it themselves if  
16 they want to.

17 MS. O'REILLY: I would object that's  
18 testimony.

19 MR. TIDABACK: Oh, sorry.

20 JUDGE MORAN: It is testimony. But --  
21 and more fundamentally, testimony is kind of  
22 important because you can't testify at this point.

1 But I mean, are you telling me that prior to  
2 February 14th, 2023, that you're referencing that  
3 you mentioned this before that period? Because I  
4 don't see that. It just says, isn't this a --  
5 isn't RP a message from -- to the ATMO maintenance  
6 group which include, you have you, Don, Joe, plus  
7 three others, and then you just say without  
8 elaboration, you reference the MSHA guide to  
9 equipment guarding. I mean, there's nothing in  
10 this piece of paper that I see that indicates that  
11 this is something that's old hat, that was brought  
12 up prior to 2-14-23. Am I missing something?

13 MR. TIDABACK: So being a member of that  
14 chat group, and when somebody sends something to  
15 you, and I think Mr. Roman had deliberated on it  
16 earlier, if you wanted to chime on your device,  
17 wherever it may be, your computer to let you know  
18 that you have been tagged as it's called, you  
19 would put at that individual's name. That way you  
20 get a notification that you've been mentioned, as  
21 it's called. That way you know specifically that  
22 it's directed to me. If you don't put anybody's

1 name, it just highlights on your column of list  
2 that you have, that here's something new.

3           You have to go -- you have to take that,  
4 you have to go view it to take the newness off of  
5 it, or it will always show that you have new. So  
6 in this -- in this message here it was sent  
7 saying, hey, guys, we keep getting guarding  
8 citations because this is February 14th. We were  
9 getting MSHA inspection, I think it was that day,  
10 if I remember correctly. We got another MSHA  
11 inspection. You need to read this. You sent a  
12 link to MSHA just in case there's any new updates.  
13 That's why I sent it, but it's already in our  
14 files. They have access.

15           JUDGE MORAN: But is there any --  
16 there's nothing in -- I don't want to belabor this  
17 forever, but there's nothing in exhibit --  
18 potential Exhibit RP that tells me something about  
19 the issue of guarding was mentioned by anybody  
20 before February 14th, 2023, is there? Is there  
21 anything that this tells me occurred before  
22 2-14-23 on this paper right here?

1 MR. TIDABACK: You're just asking about  
2 prior to this date, is there any communications?

3 JUDGE MORAN: That's right. This is the  
4 first time seeing about Russell Tidaback, you,  
5 referencing citing to the MSHA equipment guide.  
6 There's nothing earlier than that. Right?

7 MR. TIDABACK: There's no -- there's no,  
8 other than the MSHA, the same book being in our  
9 files and receiving training from MSHA, the  
10 required training, I'm assuming that's what you're  
11 referencing, Your Honor?

12 JUDGE MORAN: Right. What you've done  
13 is confirm that -- I mean, you've asserted it in  
14 this information about guarding, which is not on  
15 this exhibit, existed in other locations such as  
16 in the files or whatever. I have to say, though,  
17 Mr. Tidaback, and with respect due to you, that  
18 it's kind of cryptic. I mean, I'm part of the  
19 ATMO maintenance group and I get this message from  
20 you, and not exactly elaborate about what -- what  
21 this means. I would have expected you to say  
22 something such as dear ATMO group, you are

1 instructed forthwith to read all of the  
2 information in this site, MSHA guide. You should  
3 go to it immediately and take it to heart.

4 MR. TIDABACK: That is the intent behind  
5 this message.

6 JUDGE MORAN: It's awfully brief. You  
7 just drop a note. I mean, you just drop a  
8 citation without any -- I would think you're the  
9 owner. Right?

10 MR. TIDABACK: Yes.

11 JUDGE MORAN: Okay. I knew that, but I  
12 meant, if I were the owner, wouldn't I be saying,  
13 hey, we're having problem with -- problems with  
14 guarding. You-all need to be looking at this, so  
15 that's point one, that your messages is terse  
16 wouldn't describe it. It's less than terse. It  
17 just says a site, and they have to then figure  
18 out, oh, we better look at this and study it.

19 But the second point is, you have not up  
20 to this point shown me that you've instructed  
21 people about the important of guarding prior to  
22 2-14-23. There's nothing in the record that says

1     you've told people about this before.

2                 MR. TIDABACK:   Yes.   Your Honor, RP, as  
3     a remainder after we got the citation.   So that's  
4     a limited group people.

5                 JUDGE MORAN:   Right, but that's my point  
6     is that after up got the citation, which was not  
7     long before Mr. Baumann is terminated.

8                 MR. TIDABACK:   Correct.

9                 JUDGE MORAN:   Yeah.   You take some  
10    action because you told me that you got some  
11    citations, but you don't have anything -- if your  
12    intention is to say this is another example of Mr.  
13    Baumann not doing his job, doesn't really help me  
14    very much to highlight this after citations are  
15    issued and after you tell people to look at the  
16    guarding when you haven't -- this has not been  
17    discussed before.   For example, let's say that the  
18    three times in 2022 you said, hey, Mr. Baumann, I  
19    want you to pay attention to guarding, and then  
20    you give me dates through your Microsoft chat or  
21    whatever, Teams.   You don't have that.   The first  
22    time you have mention about this is in the wake of

1 getting some citations from MSHA, so I find it  
2 difficult for you, if you're attempting to put the  
3 blame on Mr. Baumann on the issue of guarding,  
4 that the first time on this record that this shows  
5 up is after you got the citations from MSHA. And  
6 apparently, you're suggesting that would be on  
7 him, not doing his job properly because you had  
8 guarding citations.

9 MR. TIDABACK: Correct, because in the  
10 manual refresher training, guarding is -- guarding  
11 is one of those. It is also referenced numerous  
12 times, and it is also referenced in your daily  
13 workplace exams. If Mr. Baumann is doing the  
14 daily workplace exam and says they are good, why  
15 are we getting citations. That's the intent of  
16 guys, we keep getting a citations. You need to  
17 read. It's a limited group. It's not all the  
18 mill associates. It's just those that are  
19 involved with maintenance. Mr. Baumann was in  
20 that group and he is responsible to do the  
21 workplace exams, and if he's marking that we're  
22 good on them, why are we getting citations. That

1 was the intention.

2 JUDGE MORAN: That's your argument.

3 Okay. Well, go ahead. If you have additional  
4 questions of Mr. Baumann, go ahead.

5 MS. O'REILLY: I would just object that  
6 there's a lot of testimony in the last several  
7 minutes and want to note for the record that Mr.  
8 Tidaback is not under oath so all that testimony  
9 would not be admissible or relevant evidence.

10 JUDGE MORAN: I agree with all that.  
11 Did you hear that, Madam Court reporter?

12 COURT REPORTER: Yes, I did.

13 JUDGE MORAN: Good.

14 MR. TIDABACK: I'm not sure what that  
15 meant.

16 JUDGE MORAN: Attorney O'Reilly was  
17 merely saying that much of what you just said  
18 amounts to testimony, and therefore, I can't  
19 consider it. There are assertions on your part,  
20 not under oath, about what went on and how it is  
21 suggested that -- that checking for guards was  
22 part of his responsibility. That he did not

1 attend to that properly, and then, because that  
2 was his responsibility, that he should be held  
3 accountable when MSHA issued citations for  
4 guarding. I can't get into trying each citation.  
5 That's not -- that's what they call a cul-de-sac,  
6 if you will. It's -- the word doesn't come to  
7 mind, but it's going down to something that's  
8 tangential. All right?

9 But if you could show me, which I don't  
10 know if you can, that, you know, Mr. Spears or you  
11 or someone, kept writing letters through chats,  
12 Teams or whatever, and said, hey, Mr. Baumann, in  
13 all -- we have a problem with guarding. This is  
14 before the citations get issued and you warned him  
15 and you warned him and he still didn't do anything  
16 about it, and that's assuming that he agrees that  
17 was his responsibility, because I don't even know  
18 that checking for guards and writing it up was  
19 part of his duties.

20 He hasn't testified to that, that I  
21 recall, so it's what you're saying is fraught with  
22 many problems is what I'm saying. Okay? If you

1     could show that you warned him and he didn't do it  
2     and you warned him and he still didn't do that,  
3     that would be a basis for asserting that's why we  
4     fired him, in addition for any protected activity,  
5     should I find that there was any protected  
6     activity.

7                 MR. TIDABACK:   Yes, Your Honor.

8                 JUDGE MORAN:   Go ahead.

9                 MR. TIDABACK:   Yes, sir.

10                BY MR. TIDABACK:

11                Q     With that, Mr. Baumann, you had stated  
12     that you do workplace exams.   Correct?   Daily  
13     workplace exams?

14                A     Yes.

15                Q     If we go to exhibit Respondent's C,  
16     which is the workplace exam.

17                JUDGE MORAN:   Respondent's C?

18                MR. TIDABACK:   Yes, Your Honor.

19                JUDGE MORAN:   And agree as part of your  
20     responsibilities, Mr. Baumann, is workplace exams?  
21     Are you supposed to go through the plant and look  
22     for safety defects and any other problems as part

1 of your duties before your shift starts?

2 THE WITNESS: Before my shift starts,  
3 yes, Your Honor.

4 JUDGE MORAN: So that is part of your  
5 responsibilities to look for hazards. Okay. Now  
6 you want me to look at C?

7 MR. TIDABACK: Yes, Your Honor.

8 JUDGE MORAN: No, can't volunteer  
9 information. You want me to look at Exhibit RC?

10 MR. TIDABACK: Yes, Your Honor.

11 JUDGE MORAN: I have Exhibit RC in front  
12 of me, and for the record, let's identify what RC  
13 is. You say it's -- what you do is you say the  
14 Respondent for purpose of identification is  
15 turning to Exhibit RC, which is a -- I'm not sure  
16 what it is. It looks like it's -- it doesn't have  
17 a title on it. Just says start time and Mr.  
18 Baumann's name, and it does say turn up of the  
19 production floor lighting, note any safety issues.  
20 And so this is the exhibit you're talking about,  
21 and you're going to question him about this.  
22 Right?

1 MR. TIDABACK: Yes.

2 JUDGE MORAN: And do you recognize RC,  
3 Mr. Baumann?

4 THE WITNESS: Yes.

5 JUDGE MORAN: Okay. And does that  
6 reflect that you marked on the dates that are  
7 listed there, which begin on March 3rd, 2023 and  
8 continues through April 7th, it looks like 2023,  
9 that you mark about safety issues and you also  
10 looked in the break room and you marked either  
11 non-observed or good, etcetera. Do you mark those  
12 things, sir?

13 THE WITNESS: Your Honor, this doesn't  
14 look like it's a complete.

15 MR. TIDABACK: Your Honor, this is the  
16 results of a form. You remember how to get to the  
17 --

18 THE WITNESS: This doesn't look like the  
19 form that I was filling out, Your Honor, is my  
20 only questionability.

21 JUDGE MORAN: All right. So you don't  
22 recognize this document?

1           THE WITNESS: Not the way it's  
2 formatted. I filled out documents on daily work  
3 exams, yes, Your Honor.

4           JUDGE MORAN: Okay. And then I know  
5 this is embarrassing on my part, but the date when  
6 you were terminated was what?

7           THE WITNESS: 4-17.

8           JUDGE MORAN: Okay. So this is only  
9 about six -- this begins only about six weeks  
10 before you're fired?

11          THE WITNESS: Yes.

12          MR. TIDABACK: There's when we went from  
13 paperwork to digital.

14          JUDGE MORAN: I understand. Okay.  
15 Fine. You went from paperwork to digital but  
16 still, what I'm focusing on is the point in time.  
17 If you told me this was October of 2022, you were  
18 working for this company in October of 2022.  
19 Right?

20          THE WITNESS: Yes, Your Honor.

21          JUDGE MORAN: And so I don't know how  
22 much value this is.

1 MR. TIDABACK: Yes, Your Honor.

2 JUDGE MORAN: Unless you're telling me  
3 that the decision to terminate Mr. Baumann was  
4 based on activities which began in March of '23  
5 and continued through April of 2023. Before that  
6 time you didn't have a basis to terminate him?

7 MR. TIDABACK: No, we did, Your Honor,  
8 but in exhibit -- Secretary's Exhibit P14, Page 1,  
9 it goes into e-mails. The exhibit that we were  
10 showing in this goes to another point that Mr.  
11 Baumann had brought up about the wires to the  
12 floor. That's what that exhibit is for.

13 JUDGE MORAN: Well, I can't find wires  
14 on the floor in this. My -- first of all, you've  
15 got to work this through another witness, because  
16 this witness, Mr. Baumann, the Complainant, can't  
17 testify about this because although he admits he  
18 had duties to look for safety issues and before  
19 the shift started. Right, Mr. Baumann?

20 THE WITNESS: Yes, Your Honor.

21 JUDGE MORAN: But you don't recognize  
22 the format that this is presented. This is not a

1 document when you created?

2 THE WITNESS: No, Your Honor.

3 JUDGE MORAN: So you can't get this in  
4 through this witness because he doesn't recognize  
5 it. You can talk to the substance. You can say  
6 do you recall in March of 2023 that you wrote that  
7 none of the production floor lighting and you  
8 noted no safety issues. You wrote good. You can  
9 ask him that, and he's not going to be able to  
10 recall based on this document because it's in a  
11 different format. You'd have to show him the  
12 document that he created, whatever form it was,  
13 in, paper or whatever, and then ask him if he said  
14 that was good.

15 MR. TIDABACK: Correct.

16 JUDGE MORAN: I'm not sure that that  
17 still gets you there in the sense that this is --  
18 this is right on the edge of the time when you  
19 decide to terminate him. You know, this is very  
20 close to the -- this is the end of his employment.

21 MR. TIDABACK: Right. The whole  
22 question had to do with making sure he was doing

1 the workplace exams. That's what the context it  
2 was, and that's the question asking if he knew how  
3 to get to the form, was showing that this is the  
4 data that's behind the form that he uses.

5 JUDGE MORAN: Yeah, I just -- this is  
6 perplexing. He can't give you much information,  
7 as I just explained, because he doesn't recognize  
8 the format, but you see how complicated this can  
9 be. Let's look at -- you have in front of you RC,  
10 and if you look at the third line, 3, I'm just  
11 picking it out of the many on here, 3-8-23, 8:35  
12 in the morning, Mr. Baumann lists all in working  
13 order, and as to the break room, which I'm  
14 surprised there's a separate category for the  
15 break room for safety issues, but he lists both as  
16 good.

17 Okay. So if you -- unless you can show  
18 that on that date an MSHA inspector arrives and  
19 there are problems. There are violations issued  
20 which he should have caught and that that could  
21 form a basis for you to discharge him, and you've  
22 got written communications between Mr. Spears or

1 other people saying, you know, we've got -- we  
2 have to discharge him because he wrote good on  
3 March 8th, '23, and things were not good, but you  
4 haven't established that here. You haven't tied  
5 in his remarks to dispute the accuracy of what he  
6 wrote by any citation that was issued shortly  
7 thereafter or just before, actually, because he's  
8 saying when he's looking at 3-28 -- 3-8-23 he's  
9 recording the conditions as of that moment. So do  
10 you see some of the hurdles you're presenting  
11 here?

12 MR. TIDABACK: Trying to get there, Your  
13 Honor.

14 JUDGE MORAN: Okay.

15 MR. TIDABACK: Because even the form  
16 itself which you're looking at is one page. If  
17 you think of the page, it's like this. So the  
18 second page is actually the second page of that  
19 data.

20 JUDGE MORAN: I understand. It's like a  
21 spreadsheet. It goes out for yards, you're  
22 saying.

1 MR. TIDABACK: Yes.

2 JUDGE MORAN: Go ahead, sir.

3 MR. TIDABACK: Okay.

4 BY MR. TIDABACK:

5 Q I'm not sure where we're at, but you  
6 agree that, Mr. Baumann, that the form was  
7 provided to you. You do the daily exams, or the  
8 daily workplace exams?

9 A Yes.

10 Q That's normal. Correct?

11 A Yes.

12 JUDGE MORAN: Let's not make this more  
13 complicated than what it is. I mean, he admits  
14 part of his responsibilities for his job were to  
15 check for safety defects in different locations.  
16 Right? And including the east warehouse and the  
17 palletizer area and he's supposed to mark down  
18 whether it was a problem or not. Okay? And of  
19 course, if he writes down as he did on one page  
20 there for -- it said the production hold area was  
21 not running, he said good. Not running good. So  
22 that would be in his favor.

1           But again, for any of these issues,  
2       unless you can show that, in fact, what he marked  
3       was good was not good, and you have to do that  
4       through evidence, not just an assertion, and that  
5       therefore -- and then you have to show the link as  
6       well. We sat down, Mr. Spears or whoever else,  
7       and we looked at some of the these proven  
8       inaccurate remarks from Mr. Baumann, and  
9       therefore, we logically decided he wasn't doing  
10      his job and he has to go, but it can't just be --  
11      you can't just say, well, in 3-7-23 -- I'll stick  
12      with 3-8. 3-8-23 he marks good and it wasn't  
13      good. You've got to show how that was an  
14      inaccurate description and inconsistent with his  
15      responsibilities at his job.

16           MR. TIDABACK: Correct.

17           JUDGE MORAN: All right.

18           BY MR. TIDABACK:

19           Q       In Mr. Baumann's testimony you had  
20      stated that you raised safety concerns and  
21      addressed to the company. Is that correct?

22           A       Yes.

1           Q       Wouldn't you have addressed those in the  
2       daily workplace exams?

3           A       I did some of them and some of them we  
4       were shut down because of them, so we didn't -- I  
5       didn't even do the workplace exams.

6           Q       Okay.

7           A       Like, for example, the guarding and  
8       stuff that we were waiting on. To my -- I never  
9       got, like, I never got a checklist or I never got  
10      walked through the building, you know, saying this  
11      is this guard, this is this guard. This is this  
12      guard. You know, these are all things you need to  
13      look at. I never got a checklist or I never got  
14      any visual -- I never got any training on what to  
15      look for during -- I got you need to make sure the  
16      guards are in place. That place is huge. I need  
17      to be shown where all the guards are at and stuff.

18          Q       So you know -- do you know how all the  
19      machines work?

20          A       Yes. It took me the whole time.

21          Q       So you operated that machine daily.  
22      Correct?

1 A Yes.

2 Q Okay. Guarding -- does the MSHA  
3 guarding handbook disclose each machine?

4 A Not to my knowledge.

5 Q Okay. Have you ever read the MSHA  
6 guarding handbook?

7 A For American Tripoli?

8 Q The MSHA guarding handbook.

9 A No.

10 Q Okay. Is MSHA guarding discussed in any  
11 of your required MSHA training?

12 A It was during the refresher training,  
13 yes.

14 Q Okay.

15 JUDGE MORAN: Just -- I'll be quiet  
16 after this, I say, and then I won't, but try and  
17 express it differently to help you understand.  
18 What I'm suggesting to you is there has to be  
19 linkage. Think of it as chain. So if you can't  
20 link up everything. You know, you say he wrote  
21 good on a certain date. In fact, it's not good  
22 and then we discussed and then we decided he had

1 to be terminated. If you can't link them all  
2 together, you just can't have disparate things.  
3 He wrote good on this day, and without the other  
4 links to it you haven't established a deficiency  
5 on his part. So linkage is the key here.

6 MR. TIDABACK: And it may be, Your  
7 Honor, since I'm being told I'm doing more  
8 testimony than questioning, I may have to re-call  
9 this witness to the stand.

10 JUDGE MORAN: You may have to call Mr.  
11 Baumann?

12 MR. TIDABACK: Yes, Mr. Baumann back.

13 JUDGE MORAN: You're doing it right now.

14 MR. TIDABACK: Yeah, that's what I'm  
15 trying to figure out because I need to look at  
16 testifying, ask the questions that are actually  
17 linked.

18 JUDGE MORAN: Okay. Well, you decide  
19 your own procedure for your defense, but so ask  
20 him other questions, if you have any, about --  
21 about his job performance or communications, you  
22 can ask him if he had certain communications with

1 you and if he recalls them and what the substance  
2 of them were, or with Mr. Spears or any --  
3 anything you might have handed him in writing  
4 saying you need to do this. Do you recall getting  
5 this note from me through Teams or through a  
6 separate piece of paper. Anything to show  
7 deficiencies that you communicated with him and  
8 whether he agrees or denies about those  
9 contentions.

10 BY MR. TIDABACK:

11 Q So, Mr. Baumann, can you discuss any  
12 specific instances where you're unable to complete  
13 the assigned task or projects?

14 A Such as?

15 JUDGE MORAN: You say you don't  
16 understand the question.

17 THE WITNESS: I don't understand the  
18 question.

19 BY MR. TIDABACK:

20 Q Okay. Multiple times?

21 A On multiple levels of doing anything in  
22 that building.

1 Q Okay. Can you give us some example of  
2 those?

3 A Just like fixing the guarding when the  
4 MSHA inspector shut down the one time for the  
5 guarding. Not having the proper tools. Having  
6 the metal that they needed to make them. So we  
7 just kind of made do with what we had. Bearings  
8 going out. Being down for a week instead of a  
9 day, because we couldn't go to the -- couldn't go  
10 to the local O'Reilly's and get a bearing.  
11 There's a lot of instances.

12 Q Do you have a company credit card?

13 A No.

14 Q Okay. Does John have a company credit  
15 card?

16 A I don't know.

17 Q So were you ever tasked to go get a  
18 bearing?

19 A No.

20 Q Do you know any of the specifications  
21 about a bearing?

22 A Yes. I can take a bearing and go get a

1 new one anytime.

2 Q How do you know a bearing?

3 A Huh? Measure them.

4 Q So you have mechanical aptitude skills  
5 that just were never expressed to us?

6 A Yeah. I wasn't hired to be a mechanic.

7 Q Did you say you were a mechanic?

8 A No. I was not hired to be a mechanic.

9 Q So when we're talking about the  
10 projects, part of housekeeping you had mentioned  
11 that before, guarding, workplace exams. Those  
12 were all in the shift leads roles and  
13 responsibilities. Correct?

14 A That was my assumption that that was  
15 parts of my duties.

16 Q Okay. So if we look at Respondent  
17 Exhibit D, or RD.

18 JUDGE MORAN: RD.

19 BY MR. TIDABACK:

20 Q If I'm not mistaken, this is public  
21 information. You can look up this on MSHA's  
22 website.

1 JUDGE MORAN: Okay.

2 BY MR. TIDABACK:

3 Q The RD is the violation that was  
4 received by American Tripoli during Mr. Baumann's  
5 tenure. If you go three columns from the right,  
6 Mr. Baumann, where it says Standard Subjects.

7 A Yes.

8 Q See that? Okay. If we go through all  
9 of those, there's guarding, housekeeping,  
10 workplace exam, all of those you just admitted  
11 that were basically your responsibility. Correct?

12 A Yes.

13 Q Okay. And if you look on the second  
14 page, the same, same column. Third one from the  
15 right.

16 A Yep.

17 Q Guarding, housekeeping, workplace exams,  
18 guarding. Do you believe those were all taken  
19 out?

20 A Okay, yes.

21 Q So all of these citations were received  
22 during your tenure that you just admitted that

1 were your responsibility?

2 A Yes. Well, the workplace exam on this,  
3 those were slights because you couldn't produce  
4 them. He asked and you couldn't produce them  
5 because we were doing them on the computer, if I'm  
6 recalling that correctly and we'll have to ask  
7 Keith, but...

8 Q Yes. So is it fair to say, looking at  
9 this document, that these citations were in your  
10 area of responsibility?

11 A They were in the building. I didn't --  
12 just like the workplace exams, we didn't know we  
13 were supposed to be doing all that stuff until we  
14 were cited through MSHA. The guarding, if it was  
15 obvious, yes, I would have caught it, but not  
16 being trained I didn't know where all the guarding  
17 was supposed to be and all the different places  
18 for the guards.

19 Q You keep referring to being trained, the  
20 training.

21 A Yes.

22 Q You did receive the training?

1           A       No, I did not.

2           Q       You didn't receive the training in your  
3       annual refresher training?

4           A       No. I never got a walk-through of that  
5       building and shown this is this guard, this is  
6       where this needs to be, this is this guard, this  
7       is where this needs to be.

8           Q       So when you were hired, was all that  
9       guarding in place?

10          A       No. Couldn't have been.

11          Q       Couldn't have been. Couldn't have been  
12       what?

13          A       Couldn't have been in place.

14          Q       What do you mean? I don't understand.

15                 JUDGE MORAN: For what it's worth,  
16       though, I mean, I will admit this subject to any  
17       objection from the Secretary, Respondent's Exhibit  
18       RD.

19                 MS. O'REILLY: We object. I have no  
20       idea where this comes from. He didn't provide  
21       this in discovery. It doesn't look like something  
22       MSHA has created. I mean, department responsible,

1 I can't imagine MSHA would have put the mill in  
2 there. When MSHA issues penalties like the  
3 inspectors, they don't even know the penalty at  
4 the time they're issuing the citation, so this  
5 looks like it might have been created by American  
6 Tripoli.

7 MR. TIDABACK: You are correct. Sorry,  
8 that is correct. We did create this, but all the  
9 information comes from the MSHA website.

10 JUDGE MORAN: Okay. Well, and that's  
11 your representation, but did you -- you did share  
12 this with MSHA, with the Secretary of Labor.  
13 Right? You gave them this document?

14 MR. TIDABACK: Yes, sir.

15 JUDGE MORAN: Are you going to have a  
16 witness identify this document?

17 MR. TIDABACK: Yes.

18 JUDGE MORAN: And -- but it was created  
19 by you folks?

20 MR. TIDABACK: That is correct.

21 JUDGE MORAN: And based upon violations,  
22 citations that were issued on the dates that are

1 listed on this sheet, it's a summary of violations  
2 that were issued by MSHA from November 2nd, '22,  
3 2022, through March 1st, 203, 2023. Right?

4 MR. TIDABACK: Correct, Your Honor.  
5 That is filtered out just for the time Mr.  
6 Baumann's tenure with American Tripoli.

7 JUDGE MORAN: Well, again, this case,  
8 this decision is not about deciding these  
9 citations and the merit or lack thereof, citations  
10 that were issued, but I'll hear further from  
11 Attorney O'Reilly about your objections to this  
12 exhibit. I'm not saying that you can't challenge  
13 it when this is introduced through the testimony  
14 of someone. Okay. That hasn't happened yet. So  
15 Mr. Tidaback has to have someone or himself  
16 explain about this exhibit, and then you would be  
17 able to cross examine him about the input and all  
18 kinds of things about it. So it's premature to  
19 consider entering it, but it does seem like  
20 something that I was -- depending upon the  
21 foundation laid by the witness for the Respondent,  
22 I might admit this for whatever limited value it

1 may have. But not yet.

2 MS. O'REILLY: I just want to clarify  
3 and lodge another objection that this was not  
4 provided to the Secretary in discovery.

5 JUDGE MORAN: What do you say that to  
6 that, Mr. Baumann -- I mean, Mr. Tidaback?

7 MR. TIDABACK: I mean, I would have to  
8 go look at the -- the documents because all the  
9 information we have is --

10 JUDGE MORAN: That's a significant  
11 problem and hurdle if -- if you did not exchange  
12 this, even as of today until you presented it.  
13 That's a big problem with my giving it any  
14 consideration.

15 MS. O'REILLY: I'll clarify this. This  
16 was part of the February 8th leaked disclosure,  
17 but this was not provided to us during discovery  
18 and it would have been responsive to a very  
19 comprehensive discovery request that we sent out.

20 JUDGE MORAN: But you did have it as of  
21 February?

22 MS. O'REILLY: Correct.

1 JUDGE MORAN: The eight days that were  
2 late, this was part of that packet?

3 MS. O'REILLY: Yes, I would agree with  
4 that.

5 JUDGE MORAN: We're still not there yet  
6 for its introduction. We have to have the  
7 appropriate witness attempt to introduce this.

8 THE WITNESS: Your Honor.

9 JUDGE MORAN: Yes. Who said that?

10 THE WITNESS: Me. Can I have a restroom  
11 break really quick?

12 JUDGE MORAN: We're going to have a  
13 bigger break, because it's 4:34. We only have ten  
14 minutes left. Let's take a break for a second and  
15 we'll wrap up today. Okay?

16 THE WITNESS: We can go ahead.

17 JUDGE MORAN: No, I don't want you to be  
18 --

19 THE WITNESS: No, Your Honor, if we're  
20 going to be done that quick, I can wait.

21 JUDGE MORAN: Remember we have to quit  
22 at quarter to 5:00. Okay. All right. So this

1 has been a little bit unwieldily, but I'm willing  
2 to entertain for whatever probative value it may  
3 have. You're trying to establish, in a broad  
4 brush way, that Mr. Baumann wasn't doing his job.  
5 That he should have been noting these guarding  
6 issues in his daily reports. That he didn't do  
7 that, and that you didn't late arrive at the  
8 conclusion that he should be discharged for this  
9 as opposed to, oh, let's look back and see if  
10 being we can find a pretext. That's an important  
11 word, a pretext for discharging him. You know, it  
12 could be that in the wake of the complaints and so  
13 forth and the MSHA inspectors and talking to MSHA  
14 inspectors and acting as a walk around  
15 representative that you might have attempted to  
16 backfill. That is to look back and say, let's see  
17 what we can justify to show Mr. Baumann's  
18 discharge. And without those links I talked  
19 about, it's not very persuasive at least at this  
20 point in the testimony. Okay? Everyone with me  
21 on this, what I'm saying? Am I making myself  
22 clear or am I muddying things?

1 MR. TIDABACK: So maybe this is -- maybe  
2 this is where we're missing it, Your Honor. The  
3 hires that we had hired to replace Mr. Baumann  
4 before he was terminated, those are not links to  
5 --

6 JUDGE MORAN: No. You're talking about  
7 -- no. You're talking about hiring people to --  
8 Mr. Baumann's gone. Right?

9 MR. TIDABACK: No, no, no.

10 JUDGE MORAN: And then you hired people.

11 MR. TIDABACK: I hired them before. If  
12 we terminated -- I'm bad about dates. If I  
13 terminate Mr. Baumann in April, but I hire him  
14 this other guy in January to terminate Mr.  
15 Baumann, it's hired before. So I would be paying  
16 two employees until we can terminate Mr. Baumann,  
17 because logically we don't want to throw a new guy  
18 into the fire and not know anything. But we need  
19 to terminate Mr. Baumann. So having this person  
20 we've hired you, you've got in on, what is this  
21 new guy here for? He's replacing you. We're  
22 going to have to let you go. That's what I'm

1 saying, there's four of them. There wasn't just  
2 one person that was hired to replace Mr. Baumann.  
3 If I'm not mistaken, there were four of them to  
4 replace Mr. Baumann.

5 JUDGE MORAN: This doesn't -- to me this  
6 doesn't make sense that you're saying that you  
7 decide to terminate Mr. Baumann months before, and  
8 you hire four people to effectively do the job  
9 that he wasn't doing sufficiently, and yet there's  
10 no record of -- written record or Microsoft Teams  
11 even between just you and Mr. Spears or your  
12 daughter saying we got a real problem here. You  
13 haven't laid a foundation for what causes you to  
14 hire these other people, and of course, we haven't  
15 heard from those people, but this is not adding  
16 up. It sounds -- I know you blanch when I use the  
17 expression, but backfilling. It sounds like  
18 you're trying to look back and create reasons,  
19 from what I have heard so far, to discharge him as  
20 opposed to we had this problem and this problem  
21 and this problem, and then I hired four people but  
22 we had to keep Mr. Baumann on. Bad a job as he

1 was doing, because someone had to teach him how to  
2 do it. Are you really suggesting that?

3 MR. TIDABACK: Again, it wasn't four  
4 people at once, Your Honor. We hired one in  
5 January, because we have people that don't show up  
6 or they attend the MSHA training and they quit.

7 JUDGE MORAN: But you're keeping Mr.  
8 Baumann on for the purpose of so they can learn  
9 the job. Right?

10 MR. TIDABACK: So we can terminate Mr.  
11 Baumann. Correct.

12 JUDGE MORAN: You're asking Mr. Baumann  
13 to stay on who's doing a lousy job, for the sake  
14 of argument, but you need him there to train these  
15 two people.

16 MR. TIDABACK: As bodies. We need a  
17 body there. The operation doesn't run unless we  
18 have a body.

19 JUDGE MORAN: I would say if I was out  
20 of your committee, I would say this doesn't add  
21 up. If we're going to -- we're not going to hire  
22 people to replace the guy who's doing a lousy job,

1 and we can't get rid of him fast enough, but first  
2 we have to hire these people so he can train them.  
3 The guy, the bad actor, he's going to show them  
4 how to do things.

5 MR. TIDABACK: It's a body, Your Honor.  
6 It's very difficult to hire people in Seneca,  
7 Missouri.

8 JUDGE MORAN: I'm sure.

9 MR. TIDABACK: That's the whole thing.  
10 It's not like that we ca just take someone from  
11 Seneca and put them in the control room.

12 JUDGE MORAN: I know, but to keep the  
13 guy who's a source of your problems?

14 MR. TIDABACK: That's why we were trying  
15 to get rid of him, Your Honor.

16 JUDGE MORAN: I guess I would wonder out  
17 loud why you or Mr. Spears or someone else wasn't  
18 taking over these things and he's gone. He's just  
19 -- Mr. Baumann is gone. We're not keeping that  
20 guy around. That's the last thing we want is for  
21 him to train new people how to do the job, because  
22 he'd train them how on do it incorrectly,

1 according to you.

2 MR. TIDABACK: That's the whole point,  
3 Your Honor. We have to get someone in there that  
4 is going to accept the work because we have to do  
5 the --

6 JUDGE MORAN: Who's going to train them  
7 to do the new work? Mr. Baumann. Right?

8 MR. TIDABACK: But we have to get him  
9 past the MSHA training. In 2023 we went through  
10 --

11 JUDGE MORAN: Mr. Baumann doesn't do  
12 MSHA training, does he?

13 MR. TIDABACK: He does not provide MSHA  
14 training, no. It is just the control room and  
15 it's the whole thing. We had Jim Huber, Mr.  
16 Huber, which was the senior person there. He had  
17 four plus years there. He did not have leadership  
18 skills and that is why he was Mr. Baumann's person  
19 in that position where we took Mr. Baumann from  
20 nights to days. Okay. We had -- I'm trying not  
21 to testify, sorry.

22 JUDGE MORAN: I think we're wrapping up.

1 It's 5:40. We're going to call it a day, but you  
2 know, I don't want to mislead you, but -- and I  
3 don't mean to sound coarse, c-o-a-r-s-e I'm  
4 talking about. Okay? Basically at this point,  
5 subject to any more questions you may have of the  
6 Complainant, you've got nothing at this point.  
7 Now, you may have witnesses that can establish  
8 either no protected activity or no adverse action  
9 or doesn't look very good at this point with the  
10 evidence of record, and you really don't have  
11 anything for this witness to show that you would  
12 have fired him in any event. At least not through  
13 the testimony of Mr. Baumann, because he's denying  
14 most of what you're saying, and so the basis for  
15 we would have fired the guy anyway, I don't see  
16 anything there, so far, and then you haven't  
17 presented your defense yet, but at least through  
18 this witness I don't think you marched up that  
19 hill yet.

20 MR. TIDABACK: And we're trying to get  
21 there Your Honor. It's a big hill. We're trying  
22 to get there.

1 JUDGE MORAN: Attorney O'Reilly is just  
2 bursting to want to say something, so go ahead.

3 MS. O'REILLY: I just want to put on the  
4 record that we object to all that line of  
5 questioning and testimony and I would like to  
6 point, again, he's not under oath and I would like  
7 to make a standing objection to his testimony when  
8 he's questioning witnesses.

9 JUDGE MORAN: Well, you can make a  
10 standing objection to his questioning witnesses  
11 unless he's in those questions is testifying.

12 MS. O'REILLY: He's testifying while --

13 JUDGE MORAN: Sometimes he's turned it  
14 around where at the end he said isn't that true  
15 and that's fine. Okay. He's turned it into a  
16 question at the end.

17 MS. O'REILLY: I just want to make the  
18 record clear that all the testifying in the past  
19 and that's been going on, we object to during the  
20 questioning and while he's not under oath, which  
21 he's currently not under oath.

22 JUDGE MORAN: Okay. We're going to wrap

1 up here. Madam Court Reporter, can you hear me?

2 COURT REPORTER: Yes, I can.

3 JUDGE MORAN: Are you prepared to begin  
4 tomorrow morning, shortly before 9 o'clock?

5 COURT REPORTER: Yes.

6 JUDGE MORAN: Okay. So we'll be signing  
7 in with you. Court doesn't open until 8:30 and it  
8 take to time to set up, so we'll aim with talking  
9 with you ten minutes before 9:00 and getting all  
10 set up ready to go at 9:00 sharp. Does that work  
11 for you?

12 COURT REPORTER: Yes, it does.

13 JUDGE MORAN: Okay. Well, Ms.  
14 Blackerby, thank you for your help today. We look  
15 forward to meeting with you tomorrow.

16 COURT REPORTER: Thank you.

17 JUDGE MORAN: Now we're going to go off  
18 the record.

19 COURT REPORTER: Okay.

20 JUDGE MORAN: So today's proceeding has  
21 come to an end. Thank you.

22 MS. O'REILLY: One question, if we can,

1 on the record. It can be off the record, to  
2 clarify what you said this morning about speaking  
3 with witnesses during this proceeding. Doc is our  
4 agency representative, so we wanted to clarify the  
5 role as to our conversations with him, not  
6 preparing for any testimony, not those  
7 conversations, but other conversations related to  
8 trial strategy. Would those be permissible?

9 JUDGE MORAN: No. Again, I would rather  
10 keep it clean and not have that. Okay? Because I  
11 don't -- I don't know that you could  
12 compartmentalize to the extent you didn't stray  
13 into -- it's just safer. The time for preparing  
14 ended when we started the proceeding this morning.  
15 All right? I'm sure your witnesses will do fine,  
16 or as best as they can do, without conversations  
17 from now until tomorrow morning. Okay?

18 MS. O'REILLY: Yes. We agree. We would  
19 instruct that we would ask our witnesses, Mr.  
20 Baumann and Mr. Dillingham, to be back here again  
21 at 8:30, just so we are clear they know where to  
22 go and what time to be here. That's the

1 instruction we would like to give them.

2 JUDGE MORAN: That's fine.

3 MS. O'REILLY: Okay.

4 JUDGE MORAN: See you at 8:30 when the  
5 courthouse opens. Mr. Dillingham, is that all  
6 right?

7 MR. DILLINGHAM: Yes.

8 JUDGE MORAN: I'm bad with names, sorry  
9 about that. We'll see you-all tomorrow morning.  
10 Thank you for everything. See you in the morning.

11 (Whereupon, at 4:46 p.m., the  
12 HEARING was continued.)

1 P R O C E E D I N G S

2 JUDGE MORAN: Good morning. All right.

3 So let's go on the record. On the record, now?

4 Okay. We on.

5 COURT REPORTER: We're on.

6 JUDGE MORAN: All right. Good morning,  
7 everyone. We're here for day two, being the next  
8 to the last day of February, this being a leap  
9 year. Today is February 28th, and we're going to  
10 resume the testimony, the cross examination of Mr.  
11 Baumann in a moment.

12 In an off the record discussion where  
13 all the parties were here, that is Mr. Tidaback  
14 and the three counsel for the Secretary, Mr.  
15 Tidaback raised a subject of some exhibits which  
16 he's previously exchanged with the Secretary, and  
17 he was seeking to see if that would be --  
18 something that the parties can stipulate and the  
19 Secretary will stipulate to its admission. Have  
20 you had a chance to look these over, Attorney  
21 O'Reilly?

22 MS. O'REILLY: Yes. To clarify, these

1     were not previously exchanged. I saw them at 9:00  
2     a.m. this morning when we got to the courthouse.

3             JUDGE MORAN: This was not out of the  
4     exchange?

5             MS. O'REILLY: Correct. I did not see  
6     this until today.

7             JUDGE MORAN: Mr. Tidaback.

8             MR. TIDABACK: Yes. The -- the exhibit  
9     we put together are the Teams chats from the first  
10    interrogatories and request for documents, the  
11    second production of documents. They're just in  
12    another document explaining the pictures. So it's  
13    expanded information of what's already there.

14            MS. O'REILLY: These are not familiar to  
15    me. If it's expanded, then that's information I  
16    was not provided. There is testimony and  
17    narrative and commentary in here about things. I  
18    mean, some of these pages are just argument. It's  
19    almost like filing a brief before the Court and  
20    asking for it to be an exhibit, and I can't  
21    confirm that these messages were messages in any  
22    of these exhibits. If they were, I'd like to be

1 pointed to that.

2 JUDGE MORAN: Okay. So regretfully my  
3 ruling is that I can't admit these exhibits, these  
4 proposed exhibits. You can, if you have, in fact,  
5 exhibits that have been previously exchanged and  
6 there are pages within those exhibits, I'm just  
7 picking at random RM. I'm not saying that's where  
8 it would be, you can use those pages, but you  
9 know, the tests for admission of documents at a  
10 late stage like this, whether they were readily  
11 available to the side seeking to have them  
12 introduced, and these being Team chats, they were  
13 before readily available. So I mean, it has to be  
14 elements of fairness here.

15 And weighing that against the surprise  
16 and without seeing these exhibits, the  
17 characterization and the concerns expressed by  
18 Attorney O'Reilly, including the type of  
19 objections that she would have perhaps raised with  
20 was more detailed if she had had these in a timely  
21 fashion, such as her suggestion that upon  
22 reviewing them some aspects of it seemed like

1 argument as opposed to testimony or exchanges that  
2 are not argument, but just factual, I have to deny  
3 the admission of your proposed collaborative  
4 exhibit.

5 MR. TIDABACK: Yes, Your Honor.

6 JUDGE MORAN: You can still ask  
7 questions, as you did yesterday, you can say to  
8 Mr. Baumann, do you remember having -- my having a  
9 conversation -- I'm making this as a hypothetical.

10 MR. TIDABACK: Yes, sir.

11 JUDGE MORAN: Do you remember we had a  
12 conversation where I advised you you had to do  
13 better about looking at guards, and he can answer  
14 that and say, yes, I do, or no, I don't, and then  
15 that becomes a question that one aspect of it, of  
16 credibility. And I don't make a credibility  
17 determination based solely upon a witness' answer,  
18 but I will tell you that holistically, depending  
19 about upon what other witnesses may testify or  
20 what other exhibits may help me discern the  
21 accuracy of that answer, whether I find it to be  
22 credible or not credible. I hope that wasn't so

1 wordy that you're not going to understand what I'm  
2 saying.

3 All right. So that's my ruling. So  
4 now, are you ready to resume questioning of the  
5 Complainant?

6 MR. TIDABACK: I did have a question,  
7 Your Honor.

8 JUDGE MORAN: Sure.

9 MR. TIDABACK: The -- the  
10 interrogatories and requests for production of  
11 documents that the Secretary asked for and she had  
12 received, they're for the search terms of those  
13 chats is what she received and that they're all in  
14 there. That's what I'm saying, she received them.  
15 And if there was more questions on those I would  
16 have -- you know, I'm saying we would have went  
17 more in detail, and that's what those are. It's  
18 just that information. It's just the continuation  
19 of that discussion that shows part of what we're  
20 presenting. The history behind.

21 JUDGE MORAN: Okay. Well, without  
22 introducing the exhibits, of course, I have

1 decided that it's inappropriate and unfair on the  
2 day two of our trial, and -- and accepting the  
3 accuracy of Attorney O'Reilly's statement that  
4 these were not part of the prehearing exchange, I  
5 still have to deny your attempt to have this  
6 admitted. However, you can still, by looking at  
7 those documents formulate a question, but you're  
8 not going to refer to it. You're not going to say  
9 based on Microsoft chat, Team chat number. You're  
10 going to say, Mr. Baumann, is it accurate that,  
11 and then you would ask him questions. Although  
12 the basis for that will be derived for perhaps  
13 when you're looking at notes, but he can still  
14 answer the questions. He just can't introduce  
15 those Team chats as exhibits to prove your defense  
16 to this matter.

17 MR. Tidaback: Yeah, and my fear on  
18 that, Your Honor, is just like yesterday you have  
19 mentioned we have to go off of his memory and a  
20 lot of things we have he stated he didn't have  
21 those conversations or we didn't talk about that,  
22 so you know, that's presented in the exhibits that

1 the Secretary has. That's I'm trying to --

2 JUDGE MORAN: I understand. One of my  
3 -- as I sort of elaborated a second ago, one of my  
4 jobs is to assess the credibility of witnesses,  
5 and you notice I've stayed awake. I'm not dozing  
6 off. I'm looking at witnesses and this witness  
7 and any other witnesses, and I have to make an  
8 assessment of credibility. All right. And I make  
9 provisional assessments during the course of the  
10 hearing, and then I weigh that against other  
11 witnesses who may contradict a given witness'  
12 testimony, and I do my level best to come up with  
13 a conclusion as to which witness, if there's a  
14 conflict, is more believable.

15 MR. TIDABACK: Okay.

16 JUDGE MORAN: So that's the process I  
17 use.

18 MR. TIDABACK: Yes, sir.

19 JUDGE MORAN: All right. So are you  
20 ready now to resume you're questioning of Mr.  
21 Baumann?

22 MR. TIDABACK: Sure.

1 JUDGE MORAN: Court reporter, I'm doing  
2 this annoyingly, I know, but Court Reporter, did  
3 you get all that?

4 COURT REPORTER: Yes, I did.

5 JUDGE MORAN: Okay. Thank you. All  
6 right. Go ahead, Mr. Baumann -- Mr. Tidaback,  
7 with your questions, questioning of Mr. Baumann,  
8 please.

9 Whereupon,

10 ROBERT BAUMANN  
11 was recalled as a witness and, having been  
12 previously duly sworn, was examined and testified  
13 further as follows:

14 CROSS-EXAMINATION CONTINUED

15 BY MR. TIDABACK:

16 Q Good morning, Rob.

17 A Good morning.

18 JUDGE MORAN: Let me just state, I'm  
19 sure you know this, but just for the record, Mr.  
20 Baumann, you're still under oath.

21 THE WITNESS: Yes, Your Honor.

22

1 BY MR. TIDABACK:

2 Q So in your tenure with American Tripoli  
3 you've had interactions with Mr. Spears, your  
4 supervisor. Can you describe the nature of those  
5 interactions?

6 A Daily interactions about multiple  
7 things.

8 Q How was the feelings and demeanor of  
9 that -- of those interactions?

10 A I don't understand the question.

11 Q Did you have confrontations with Mr.  
12 Spears?

13 A Yes.

14 Q If we can refer to Respondent Exhibit  
15 RA.

16 JUDGE MORAN: Okay. Okay. Thank you.  
17 I now have Respondent's RA in front of me. And do  
18 you have that in front of you, Mr. Baumann?

19 THE WITNESS: My pages aren't numbered.  
20 It's Page 10 and I apologize, Your Honor.

21 JUDGE MORAN: Did you say Page 10?

22 MR. TIDABACK: Yes, Your Honor.

1 JUDGE MORAN: So help me out, Mr.  
2 Tidaback. What I've found and hopefully correctly  
3 as being Page 10 is the first item on there Jim  
4 Huber, 5-7 2:01 p.m.?

5 MR. TIDABACK: Yes, Your Honor.

6 JUDGE MORAN: Do you find that, Mr.  
7 Baumann?

8 THE WITNESS: Yes.

9 JUDGE MORAN: Okay. And does it say,  
10 "Mr. Tidaback, I didn't know you-all did. I was  
11 trying to stay in my lane." Is that what you're  
12 referring to?

13 MR. TIDABACK: At the bottom of the  
14 page, Your Honor, Jim Huber's message, 5-7 2:03  
15 p.m.

16 JUDGE MORAN: Yes, I see.

17 MR. TIDABACK: He was yelling at John a  
18 lot, screaming.

19 JUDGE MORAN: You see that, Mr. Baumann?

20 THE WITNESS: Yes, Your Honor.

21 JUDGE MORAN: Okay.

22

1 BY MR. TIDABACK:

2 Q Reading this conversation on this page,  
3 Mr. Baumann, or Rob, looking at in the middle of  
4 the page, 5-7 2:03 p.m., that's when Rob started  
5 really buck against what John was telling him.  
6 Next message, "Oh, I know. I guess we had to  
7 prioritize things," and then Jim Huber responded  
8 to that message. It's safe to assume that Jim was  
9 referring to you?

10 MS. O'REILLY: Objection, calls for  
11 speculation.

12 JUDGE MORAN: No, he can answer the  
13 question. Was he referring to you?

14 THE WITNESS: I honestly don't know,  
15 Your Honor, because these messages were sent after  
16 I was terminated.

17 JUDGE MORAN: Okay. So help me out  
18 with, Mr. Tidaback. I know it's a fundamental  
19 question, but these Teams chats are a little  
20 difficult for me in the sense that each page does  
21 not identify the year. So when you're referring  
22 to 5-7 at 2:02 and 2:03 p.m., what year is this?

1 MR. TIDABACK: This will be current  
2 year. The system does not show this year. It's  
3 current year, the year that we're in that we took  
4 pictures, screen shots of the system when we were  
5 searching for these.

6 JUDGE MORAN: But I'm a little confused  
7 as to the 5-7, what year? You're saying that  
8 can't be -- you're not talking about 2024.

9 MR. TIDABACK: No. That would be 2023.

10 JUDGE MORAN: And was 5-7-2023 a period  
11 of time, these communications that we're looking  
12 at on this exhibit, that's after Mr. Baumann was  
13 terminated. Is that correct?

14 MR. TIDABACK: That is correct. This  
15 was a communication between Mr. Baumann, or excuse  
16 me, Mr. Huber, which was an employee of ours and  
17 myself.

18 JUDGE MORAN: In May of 2023?

19 MR. TIDABACK: Correct, Your Honor. I  
20 should have been more clear.

21 JUDGE MORAN: This is just for -- you  
22 can imagine that if I didn't nail that down that

1 someone, if this case is appealed, would not -- or  
2 not know for sure. It has -- it can't look  
3 outside the record. We have to have it on the  
4 record and now we do.

5 MR. TIDABACK: Yes, sir.

6 JUDGE MORAN: So are you going -- you  
7 going to move for introduction of this -- of this  
8 exhibit, RA?

9 MR. TIDABACK: Yes, Your Honor.

10 JUDGE MORAN: All right. Do we have an  
11 objection to the introduction of RA?

12 MS. O'REILLY: Yes, we have an  
13 objection. This is a redacted copy of what was  
14 produced in Exhibit P34. If you go to P34 on Page  
15 15 we asked for an un-redacted complete, so this  
16 was provided in discovery, what's in this Exhibit  
17 A, and then we noticed that there were redactions.  
18 So we asked for an un-redacted copy in further  
19 discovery, and that is what's reflected in p34.  
20 So I would just argue that this is in the record  
21 and P34, but in a complete fashion so we would  
22 object to this incomplete redacted copy being part

1 of the record.

2 JUDGE MORAN: Okay. So but I'm looking  
3 for my -- of course, I do see P34 was admitted  
4 yesterday. So -- and you're telling me, Attorney  
5 O'Reilly, that P34 was in effect and expanded --

6 MS. O'REILLY: Correct.

7 JUDGE MORAN: -- version of RA. Well,  
8 I'm still going to admit RA.

9 MS. O'REILLY: Okay.

10 (Respondent's Exhibit R-A was  
11 marked for identification and  
12 received in evidence.)

13 JUDGE MORAN: But I understand what  
14 you've just expressed. So Exhibit RA is admitted,  
15 and I'm just making sure I don't include more than  
16 I need to. Yeah, RA is admitted. I'm going to  
17 mark that down. And the pages are not numbered,  
18 but the page that I think accurately -- it doesn't  
19 matter what number, but what Mr. Baumann was just  
20 asked about is part of the record as well. Okay?  
21 So he responded as best he could to that. RA is  
22 admitted.

1 MR. TIDABACK: Thank you, Judge.

2 JUDGE MORAN: Go ahead.

3 BY MR. TIDABACK:

4 Q Do you see where Mr. Huber is it stating  
5 he was yelling at John and screaming at Mr.

6 Baumann?

7 A Yes.

8 Q With this information, were there  
9 instances where disagreements led to raised voices  
10 or confrontations by you?

11 A Yes.

12 Q Please provide some details on that.

13 A For one, the mill was pretty loud, so  
14 you usually had to talk up quite a bit, and yes.  
15 I did. When we were asking for parts or anything  
16 like that, there was times that I raised my voice.  
17 It wasn't in a fit throwing or anything else, but  
18 yes.

19 Q Confrontational?

20 A Never confrontational.

21 JUDGE MORAN: And just to help me out,  
22 these -- these moments, instances in part due to

1     you say the noise of the mill itself?

2                 THE WITNESS:   Yes, Your Honor.

3                 JUDGE MORAN:   These are conversations  
4     between you and Mr. Spears?

5                 THE WITNESS:   Yes.

6                 JUDGE MORAN:   And just the two of you or  
7     were there other people?

8                 THE WITNESS:   There was other people  
9     around, all the mill associates.

10                JUDGE MORAN:   Okay.   But for instance, I  
11     could have a conversation with you and have other  
12     people just be in the area, but was the  
13     conversation directly between the two of you and  
14     not third parties or other individuals involved?

15                THE WITNESS:   Third parties, most of the  
16     time there was other people involved in the  
17     conversations.

18                JUDGE MORAN:   Oh, really?

19                THE WITNESS:   Yes, Your Honor.

20                JUDGE MORAN:   Okay.   All right.

21                THE WITNESS:   Usually maintenance  
22     partner or a mill associate.

1 JUDGE MORAN: But they joined in the  
2 conversation that you were having or the  
3 discussion you were having?

4 THE WITNESS: Yes. Most of them, Your  
5 Honor.

6 JUDGE MORAN: Okay. Go ahead, Mr.  
7 Tidaback.

8 BY MR. TIDABACK:

9 Q So would you say by raising your voice  
10 in a confrontational and having confrontations is  
11 ever appropriate with your manager?

12 A It was more of a passionate type thing,  
13 you know. I'm passionate about my job. If I  
14 asked about a guard or something and then he kept  
15 talk walking away, naturally I would yell so he  
16 could hear me.

17 JUDGE MORAN: So there was some  
18 friction?

19 THE WITNESS: Yes, Your Honor. I was  
20 not fed up, but getting -- it was very frustrating  
21 to try and get things fixed or to get things  
22 resolved.

1 JUDGE MORAN: Okay. Go ahead.

2 BY MR. TIDABACK:

3 Q Were you in a position to make decisions  
4 as a shift lead?

5 A No.

6 Q Is it appropriate to believe that your  
7 manager is the one that has all the information to  
8 make those decisions to make things happen?

9 A Yes.

10 Q Okay. So do you think it's appropriate  
11 that a subordinate should raise their voice in  
12 angst or anger with their manager?

13 A If anything ever would have been said to  
14 me about raising my voice in front of John Spears,  
15 I would have never done it again.

16 Q Okay. All right. If we can refer to  
17 Secretary Exhibit P38 titled Burman termination  
18 letter.

19 JUDGE MORAN: Okay. Let me get that in  
20 front of me. P38?

21 MR. TIDABACK: Yes, Your Honor.

22 JUDGE MORAN: Yes. I remember this

1 exhibit. Tell me when you're there, Mr. Baumann.

2 THE WITNESS: One second, Your Honor.

3 Okay.

4 JUDGE MORAN: Go ahead, Mr. Tidaback.

5 BY MR. TIDABACK:

6 Q Do you agree that listed reasons of the  
7 termination -- excuse me, for the termination are  
8 the following: Poor performance, lack of  
9 leadership and for failure to follow procedures  
10 and guidance given by your supervisor?

11 A Which page are you on?

12 Q P38 is the Baumann termination letter.

13 A This termination letter is to Cameron  
14 Bindle.

15 JUDGE MORAN: You're not on P38, then.  
16 This is the letter signed by you, Mr. Tidaback?

17 MR. TIDABACK: Yes, Your Honor.

18 THE WITNESS: Okay. Now I'm there.  
19 Sorry, Your Honor.

20 JUDGE MORAN: I actually have a problem  
21 with the way that you phrased the question. I  
22 think you have to say, Mr. Baumann, do you see

1 that in this letter that American Tripoli asserted  
2 the following. Okay. Because you're asking him  
3 to in effect agree -- your question as originally  
4 posed asked him to agree almost to the correctness  
5 of the assertion, which is different. Do you  
6 understand that? The way you phrased it, you  
7 know, it sounded like if he says yes, I saw that,  
8 or yes. If he just simply answers yes, it could  
9 be construed as an admission as to the allegations  
10 in that letter, and by that I mean, lack of  
11 leadership skills.

12           You know, it's one thing to say is that  
13 what it says in the letter. You can also say to  
14 him, do you agree that you showed lack of  
15 leadership skills. You can ask him that,  
16 etcetera. Okay? So make another stab at it. You  
17 have that in front of you now?

18           THE WITNESS: Yes, Your Honor.

19           JUDGE MORAN: Go ahead, Mr. Tidaback.

20           BY MR. TIDABACK:

21           Q     So on that termination letter, the  
22 listed reasons, does it state poor performance,

1 lack of leadership skills and for failure to  
2 follow procedures and guidance given by your  
3 supervisor?

4 JUDGE MORAN: Do you agree that that's  
5 what the letter states?

6 THE WITNESS: Yeah, that's what the  
7 letter states.

8 BY MR. TIDABACK:

9 Q Okay. Do you agree that you were given  
10 that termination letter?

11 A Yes.

12 Q Okay. So -- and this was given to you  
13 by Mr. Spears?

14 A Yes.

15 Q Okay. And Mr. Spears is your  
16 supervisor?

17 A Yes.

18 Q Okay. All right. So you agree that  
19 that is your termination letter?

20 A Yes. This is the letter I received  
21 April 17th.

22 Q And at the bottom of the letter, the

1 last sentence, paragraph, it deals with if you  
2 have any questions please bring them forward to  
3 me.

4 A "If you have any questions or concerns  
5 about this decision, please do not hesitate to  
6 contact me."

7 Q Okay. Did you happen to contact me?

8 A Yes. I mailed a letter with a request  
9 for my final paycheck stub on paper to the address  
10 that I had, which was in Harrisonville, Missouri,  
11 I believe, to an office, and I never got a  
12 response, nor my last paycheck stub on paper.  
13 When John handed me this letter I immediately --  
14 he said, I'm sorry. Russell, told me to let you  
15 go, and he handed me the letter. I didn't even  
16 read the letter until I left the building, because  
17 -- because of the prior instances the previous  
18 week, I knew what it was about, in my opinion,  
19 Your Honor.

20 So I read this after I was gone, and I  
21 wanted to request a last paycheck stub. So I  
22 wrote -- I wanted some detailed reasons and my

1 final paper paycheck stub to prove that I had  
2 gotten all my PTO or accrued time and all that  
3 included in on that, and I never got a response.

4 JUDGE MORAN: Okay. So you're telling  
5 me that this letter, which is P38, that this  
6 letter was handed to you by Mr. Spears?

7 THE WITNESS: Yes.

8 JUDGE MORAN: And that you didn't read  
9 it at that moment or later, and then you sent this  
10 letter to them and among the things in your letter  
11 was a request for your last paycheck?

12 THE WITNESS: Yes, Your Honor.

13 JUDGE MORAN: And your testimony is that  
14 even today as we sit here, you have not received  
15 payment for that last paycheck? That's still  
16 outstanding?

17 THE WITNESS: I have received payment.  
18 I just wanted a copy of the last paycheck stub  
19 with the detailed -- yes. I was locked out of  
20 Teams, and that's how you looked, looked at your  
21 paycheck and your hours worked.

22 JUDGE MORAN: Okay.

1           THE WITNESS: So I never was fully aware  
2 of whether I got paid for the four hours for the  
3 getting sound during the shutdown plus the four  
4 hours the next day. I never -- never knew that  
5 for sure because I couldn't look it up and that's  
6 why -- and I asked the request, after I had talked  
7 the MSHA inspector, after I was terminated.

8           JUDGE MORAN: Court Reporter, are you  
9 getting all of this?

10          COURT REPORTER: Yes, I am.

11          JUDGE MORAN: Okay. Thank you. Go  
12 ahead, Mr. Baumann. Mr. Tidaback, excuse me.

13          BY MR. TIDABACK:

14          Q       Were you ever given a paper copy of your  
15 pay stub from --

16          A       No.

17          Q       Okay. Where did you get your pay stubs  
18 from?

19          A       From the Teams. ADT.

20          Q       ADP?

21          A       Yes. Which I had to get through through  
22 Teams.

1 Q ADP you accessed through the internet,  
2 not through Teams. Is that correct?

3 A I always went through Teams and hit the  
4 ADT box.

5 JUDGE MORAN: Let's not spend a lot of  
6 time on this. This is really a tangential issue  
7 about pay stubs and how he received. Let's get  
8 back to the heart of the matter.

9 BY MR. TIDABACK:

10 Q The address, I just have a question on  
11 the address. You said you sent it to  
12 Harrisonville?

13 A Yes. The only paper thing that I had  
14 with American Tripoli on it had a -- I can't even  
15 remember what it was -- the office address was  
16 Harrisonville, Missouri. The mailing address, or  
17 shipping address was to Seneca, Missouri.

18 Q But if we look at the termination  
19 letter, right across the top is our address.

20 JUDGE MORAN: Okay. But see, we're  
21 really going down something that's really not --  
22 I'm not going to make a finding of fact as to

1 where he sent this letter and what was on top of  
2 the letter for the mailing address. That would be  
3 something that's not an element that I have to  
4 decide.

5 MR. TIDABACK: Yes, Your Honor, I  
6 apologize. I'll just -- okay.

7 BY MR. TIDABACK:

8 Q So do you know how many pounds per hour  
9 of OGR was the production goal?

10 A It was never directed -- directly said  
11 to me. It was an understanding that we wanted to  
12 get 40,000 pounds per day.

13 JUDGE MORAN: And what does OGR stand  
14 for? Do you know what that means?

15 THE WITNESS: Once ground rose.

16 JUDGE MORAN: I'm sorry?

17 THE WITNESS: Once there were multiple  
18 grades of the material we ran and it would stand  
19 for once ground rose.

20 JUDGE MORAN: You can't testify but you  
21 can ask him another question to further explain  
22 that.

1 MR. TIDABACK: Yes, Your Honor.

2 BY MR. TIDABACK:

3 Q So in January of 2012, in the mill  
4 management group -- I'm sorry, January 12th of  
5 2023 in the mill management group, you don't  
6 recall a message where there was a question from  
7 me tagged you, so it would have highlighted and  
8 notified you that you were leaving a direct  
9 message and myself asking you make sure that you  
10 do the shift lead closeouts at the end of each  
11 day, and it lists the closeouts?

12 JUDGE MORAN: Do you recall that, sir?

13 THE WITNESS: No, Your Honor, I do not.

14 JUDGE MORAN: Okay. That's his answer.

15 BY MR. TIDABACK:

16 Q Okay. And do you recall on January 13th  
17 a Teams message in the same mill management chat  
18 group, a discussion about an order that was --  
19 that was received by an I1 customer and they  
20 received it incorrectly, and in that discussion we  
21 discussed how many pounds per hour OGR was the  
22 production goal?

1           A       Is there a message that I can look at?  
2       Maybe it would recall.

3                   JUDGE MORAN:   Just because --

4                   THE WITNESS:   I don't recall that.

5                   JUDGE MORAN:   Excuse me.   Let's not talk  
6       over one another.   Mr. Tidaback is asking you a  
7       question whether you recall this event that he  
8       just described, and because I believe this  
9       question is based upon the exhibit that he  
10      proposed but I could not admit, that's where we  
11      are.   So if I were to show -- I would have him  
12      show you the exhibit, that would be a back door  
13      route to what I said he couldn't do.   So his  
14      question is do you recall this event?

15                  THE WITNESS:   I recall an event of an  
16      order being messed up, but I do not recall any of  
17      the other conversation.

18                  JUDGE MORAN:   All right.

19                  BY MR. TIDABACK:

20                Q       With your statement of an order being  
21      messed up, who was the last person, the quality  
22      control responsibilities as for American Tripoli?

1           A       Whoever loaded the truck. We always  
2       took pictures of the truck after it was loaded to  
3       prove that it was loaded correctly with the  
4       picture of the bill of lading and stuff.

5                   JUDGE MORAN: Good idea.

6                   THE WITNESS: Yes. So I don't recall  
7       who loaded that truck.

8                   BY MR. TIDABACK:

9           Q       But you do remember now that specific  
10       order that was -- because you just stated I don't  
11       remember who loaded the truck, so you know which  
12       order we're talking about?

13          A       All I recall is an order that a customer  
14       had a complaint about. I do not recall the  
15       specific order or when it was shipped out or who  
16       loaded it or anything like that.

17          Q       So you -- sorry to interrupt. So you  
18       remember the conversation now, though. Correct?

19          A       I just remember questions about an  
20       order.

21          Q       About a specific order that since you  
22       think that order was messed up?

1           A       Not a specific order.

2                   JUDGE MORAN: Let's not talk over one  
3 another, okay. Go ahead.

4                   THE WITNESS: Sorry.

5                   JUDGE MORAN: He's taken this as far as  
6 he can. He says he remembers there was an issue  
7 with the order, and his -- you've exhausted his  
8 memory about this particular matter.

9                   BY MR. TIDABACK:

10           Q       On that specific one. Okay. So were  
11 there order -- were there other conversations with  
12 you regarding quality control of bags leaving the  
13 mill, received by a customer with the bags ripped,  
14 spillage of material falling out of the bags?

15           A       Nothing was ever directed towards me  
16 specifically on those. I recall seeing messages  
17 about some ripped bags, but that's to my  
18 recollection.

19           Q       Okay. And you had just mentioned here a  
20 second ago the BOL. Can you explain what the BOL  
21 is?

22           A       Bill of lading.

1           Q     Okay. Can you explain what a bill of  
2     lading is?

3           A     A paperwork that goes with a shipment  
4     that says what is in the shipment and where it's  
5     going.

6           Q     So it's the contract for the shipper and  
7     the customer?

8           A     I don't know whether it's a contract or  
9     not. It was just a paper that said where it was  
10    going and what was supposed to be going.

11                JUDGE MORAN: So he's described it  
12    there.

13                BY MR. TIDABACK:

14           Q     And in that paperwork for the driver of  
15    the truck to pick it up, he has to know what's in  
16    that truck. Correct?

17           A     Yes. A driver always signed for it.

18           Q     Signed for the --

19           A     Yes.

20           Q     -- material that he's picking up.  
21    Correct?

22           A     Yes.

1           Q     So if there were material leaving our  
2     warehouse damaged, the driver wouldn't take it.  
3     Is that correct?

4           A     Yes.

5           Q     Okay. So back to the question on the  
6     original, how many pounds per hour of OGR was the  
7     production goal?

8           A     I have no idea. I never -- it never got  
9     reiterated to me. Just the goal was to try and  
10    get 40,000 pounds per day.

11          Q     So the -- you just stated this daily  
12    goal was 40,000 pounds per day?

13          A     That was the -- yeah, that was the  
14    target goal.

15          Q     Okay. So how many pounds per hour of  
16    OGR would have been the production goal? If the  
17    day was 40,000 pounds, how many hours per day did  
18    you guys run production?

19          A     Approximately six and a half, most of  
20    the time, six to six and a half.

21          Q     So it's safe to say that you'd just  
22    divide that six and a half by 40,000?

1           A       Yes.

2           Q       Okay. How many times were you able to  
3 achieve that?

4           A       I honestly don't know. We had good days  
5 and we have bad days.

6           Q       So you were able to achieve that?

7                   JUDGE MORAN: He just expressed, he  
8 said, inferentially there were good days and bad  
9 days. I assume by a good day you mean you met  
10 that goal?

11                   THE WITNESS: Or close to it, Your  
12 Honor. We were -- John Spears and everybody  
13 seemed very pleased if we were getting 350 to --  
14 380 bags was a really good day, in our opinions.

15                   JUDGE MORAN: I know I asked you and I  
16 didn't catch it and I decided not to pursue it.  
17 For the OGR is what Mr. Tidaback is talking about.  
18 And OGR stands for what?

19                   THE WITNESS: Once ground rose product.

20                   JUDGE MORAN: Once ground rose.

21                   THE WITNESS: The rose being the color,  
22 the once ground being the how gritty it is.

1 JUDGE MORAN: Okay. Thank you.

2 BY MR. TIDABACK:

3 Q Did you ever express that you did not  
4 want to push the system?

5 A Yes.

6 Q Okay. Would it be surprising to you  
7 that Mr. Spears expressed that he did not know why  
8 you were shy to put more material in there than  
9 you do at a time to get the production goals met  
10 per day?

11 MS. O'REILLY: Objection, he's  
12 testifying what other people have said.

13 JUDGE MORAN: Well, you can rephrase the  
14 question, which is just to say, did Mr. Spears  
15 ever express to you or question you as to why you  
16 couldn't meet these production goals. Is that the  
17 essence of your question?

18 MR. TIDABACK: So I can rephrase it,  
19 Your Honor?

20 JUDGE MORAN: Yes.

21 BY MR. TIDABACK:

22 Q Did Mr. Spears ever ask you why you're

1 not putting more material in the system?

2 A Yes.

3 Q Okay. And I explained to him there was  
4 just so many different factors in running the  
5 product, you know, being the weather, and then the  
6 machinery, if the charge got low in the tube mill  
7 and you overfed it, you would clog everything up,  
8 or if I overfed it, it would create a lot more  
9 dust in the building. So you kind of had to -- my  
10 goal was to find the happy medium where I could  
11 feed it constantly without overfeeding it, keeping  
12 the dust down and keeping the machinery running  
13 all at once, because if one piece of the cog  
14 broke, it shut the whole thing down, because it's  
15 all got to work in -- through the system at the  
16 same time, you know what I'm getting at?

17 JUDGE MORAN: And in answer to Mr.  
18 Tidaback's question, so are you telling me that  
19 you did explain to Mr. Spears --

20 THE WITNESS: Yes, Your Honor.

21 JUDGE MORAN: -- the problems of trying  
22 to overtax the system?

1           THE WITNESS: Yes, Your Honor. Multiple  
2 times.

3           JUDGE MORAN: Multiple times.

4           THE WITNESS: Yes, Your Honor. We were  
5 -- Mr. Spears and I, multiple positive  
6 conversations on how to get more product through  
7 the system, but yes, I explained.

8           JUDGE MORAN: Mr. Spears, by the way, is  
9 he still employed with you?

10          MR. TIDABACK: Yes, Your Honor. He's  
11 the operational manager.

12          JUDGE MORAN: Go ahead.

13          BY MR. TIDABACK:

14          Q     So, again, Mr. Spears had come to you  
15 and say we need to get more material through the  
16 system?

17          A     Mr. Spears was all about putting the  
18 material through the system at any cost.

19          Q     Okay. So has Mr. Spears ever assisted  
20 and any other mill members assist you with  
21 monitoring the dust issues and assisting on how to  
22 fix those issues?

1 A Yes.

2 Q Okay. So do you recall being -- having  
3 to be told or reminded about inputting timecards  
4 into shifts after days have gone by?

5 A No.

6 Q You don't recall?

7 A No, I do not.

8 JUDGE MORAN: He's answered that  
9 question.

10 BY MR. TIDABACK:

11 Q Okay. If you were to recall that, or if  
12 a -- if a subordinate had to be reminded numerous  
13 times to perform their duties, wouldn't you  
14 consider that underperforming in their job?

15 MS. O'REILLY: Objection, calls for  
16 speculation.

17 JUDGE MORAN: Yes. I sustain the  
18 objection.

19 BY MR. TIDABACK:

20 Q If you were having to be reminded to  
21 input data into the daily production spreadsheet,  
22 would you feel you were underperforming in that

1     role?

2                   MS. O'REILLY:  Objection, calls for  
3     speculation.

4                   JUDGE MORAN:  He can't express that.  If  
5     you were being told repeatedly that you were, what  
6     was the --

7                   MR. TIDABACK:  Inputting timecards into  
8     shifts, which is what we record the hours so that  
9     they can get paid.  That was part of the  
10    production lead's role, and also, inputting the  
11    daily production spreadsheet so that we can adjust  
12    the production calendar online so the customers  
13    know what we're producing the next day.

14                  JUDGE MORAN:  Okay.  Just to amplify  
15    that question.  So would you agree that if  
16    hypothetically you were failing to do that, that  
17    would be inconsistent with your job  
18    responsibilities?

19                  THE WITNESS:  Yes.

20                  JUDGE MORAN:  And did you fail to do  
21    those kinds of things?

22                  THE WITNESS:  Not without a really good

1 reason not to.

2 JUDGE MORAN: What would be a really  
3 good reason not to?

4 THE WITNESS: Internet issues or when I  
5 started leaving early they weren't done producing,  
6 so I couldn't input the numbers at the end of the  
7 day. And then the time clock issues would have  
8 been -- I'm trying to recall an instance, Your  
9 Honor. Would have been maybe the whole, because  
10 -- because of the wanting no overtime, if somebody  
11 worked over or came in early, you know, if they  
12 left, they would like comp hours kind of. We  
13 would try and work with the mill associates on  
14 that. So that would impede putting in the hours  
15 would be the only thing that I could recall on any  
16 problems there.

17 JUDGE MORAN: So is it your testimony  
18 that, to the best of your recollection, you tried  
19 to do these tasks, and if you were unable to do  
20 it, there was some reason for it as you just  
21 described. Is that correct?

22 THE WITNESS: Yes, Your Honor.

1 JUDGE MORAN: You didn't -- my  
2 understanding of your testimony is that you didn't  
3 disregard your responsibilities in this respect?

4 THE WITNESS: No, Your Honor.

5 JUDGE MORAN: Okay. That's his  
6 testimony.

7 BY MR. TIDABACK:

8 Q And you don't recall that being multiple  
9 days in rows or time and --

10 A No, Your Honor, I don't recall.

11 Q And the shifts -- excuse me, and Teams  
12 does have a role, which includes production  
13 schedule, production calendar, shifts. That was  
14 accessible at home or anywhere in the world.  
15 Correct?

16 A Yes. I never accessed it at home unless  
17 there was a question or something because it was  
18 my personal time and I was not getting paid for  
19 it, so.

20 Q Okay. In your testimony yesterday you  
21 had mentioned letting people go early. If you're  
22 letting people go early when there are things such

1 as housekeeping items or even assisting  
2 maintenance tasks to keep people safe around the  
3 mill, would you consider that as underperforming  
4 in your tasks?

5 A No, because there was never really any  
6 letting them go or sending them. They always  
7 asked, and it always went through the approval  
8 process.

9 Q Okay. So with that, if we're getting  
10 customer complaints about bags being ripped when  
11 they're received, and the production, or excuse  
12 me, and the shift lead is the person that reviews  
13 the BOL, ensures that the BOL is correct, ensures  
14 the driver is signing for those documents, if  
15 those -- and plus customer complaints as you  
16 mentioned earlier fall in under the responsibility  
17 of the shift lead, would you receive -- would you  
18 perceive that as underperforming in your role?

19 MS. O'REILLY: I would object that  
20 that's misstating the testimony and assuming facts  
21 not in evidence. I don't believe there's been any  
22 testimony --

1 JUDGE MORAN: He asking -- I'm going to  
2 overrule the objection. He's asking a  
3 hypothetical question whether those things  
4 occurred would that be inconsistent with your job  
5 responsibilities.

6 THE WITNESS: That's an interesting  
7 question, Your Honor, because I was not ever  
8 tasked, trained or assigned that duty. We'd  
9 always had a shipping person that was responsible  
10 for printing the BOLs, responsible for coming over  
11 to make sure everything got loaded, but there was  
12 so much turnover that, yes, in instances that was  
13 my responsibility because there was no one else.  
14 But there was percentage of the time that there  
15 was shipping people that was their job. I can't  
16 remember the exact title, but yeah.

17 JUDGE MORAN: Okay. So he's answered  
18 your hypothetical as best as can be done.

19 MR. TIDABACK: Thank you, Your Honor.

20 BY MR. TIDABACK:

21 Q In the ten months that you were there,  
22 Mr. Huber, which has four or five years experience

1     there, as shift lead and as a mill associate.

2                 JUDGE MORAN: But you're testifying now.

3                 MR. TIDABACK: Oh, sorry.

4                 BY MR. TIDABACK:

5                 Q     During that entire -- okay. Sorry, Your  
6     Honor. Okay. Do you recall testifying yesterday  
7     that you walked around and checked the scrolls --  
8     okay, well, let me back up.

9                 And we see exhibit, Secretary Exhibit  
10    P14. It's titled the Daily Workplace Inspection,  
11    Your Honor.

12                JUDGE MORAN: Okay. Let's all turn to  
13    P14. Take me a minute to get past P13, being  
14    nearly 500 pages. Are you there yet?

15                THE WITNESS: Yes, Your Honor.

16                JUDGE MORAN: Okay. Are we on P14?  
17    Okay. Go ahead, Mr. Tidaback.

18                BY MR. TIDABACK:

19                Q     So if you were told to do the workplace  
20    exams and you did them starting in November of  
21    2022, why would we get citations for them in  
22    February 2023?

1 JUDGE MORAN: Repeat that question one  
2 more time.

3 MR. TIDABACK: Yes, sir, yes, sir.

4 BY MR. TIDABACK:

5 Q So if Mr. Baumann was told to do  
6 workplace exams and he was doing them starting in  
7 November of 2022, for the referenced timeframe  
8 that the Secretary asked for is the report that it  
9 shows, why would we, again, get citations for  
10 workplace exams in February of 2023?

11 MS. O'REILLY: Objection, calls for  
12 speculation.

13 JUDGE MORAN: Yeah, and I sustain the  
14 objection. See, as I tried to express yesterday,  
15 maybe not as well as I could have, we're not going  
16 to get into trying in this matter particular  
17 citations and because that's just going far afield  
18 of the issues here.

19 MR. TIDABACK: Yes, Your Honor.

20 JUDGE MORAN: As I tried to alert you to  
21 yesterday, you've suggested during your cross  
22 examination, which is ongoing now, you suggested

1 through your questions that that were failures on  
2 the part of Mr. Baumann in performing his job.  
3 Right? And one way you can prove that is by  
4 asking him questions, and he's answered those to  
5 the best of his ability. Another way to prove  
6 that will be through subsequent witnesses.

7 MR. TIDABACK: Correct.

8 JUDGE MORAN: But I want you to know  
9 because I'm being upfront about this, that at this  
10 point at least seems like there's a more  
11 fundamental problem in that unless you can show  
12 documentation, not just -- not just testimony that  
13 might come from you or Mr. Spears about  
14 shortcomings alleged in Mr. Baumann's job  
15 performance. Remember I used that term  
16 backfilling?

17 MR. TIDABACK: Yes, Your Honor.

18 JUDGE MORAN: You have done this for a  
19 decade and I have done administrative trials for  
20 25 years in other agencies.

21 MR. TIDABACK: Yes, sir.

22 JUDGE MORAN: And just focusing on my

1 mine safety decade of hearing cases, the normal  
2 course of business is that a person gets something  
3 written. There's a document saying, you know,  
4 Dear Mr. Baumann, you have not done thus and so,  
5 and this is a warning. This will be in your  
6 personnel file, and then typically the arrangement  
7 is a second warning may result in a suspension.

8 I'm not saying this is always the case,  
9 but my point is that without documentation of the  
10 problems as they occurred or shortly thereafter  
11 there's a big problem here with attempting to say  
12 now after he's discharged, we had these problems  
13 back then. And the question, the natural question  
14 would be, well, why wasn't something written,  
15 handed over to Mr. Baumann warning him of his  
16 shortcomings. At this point, and unless you have  
17 it within your various RA exhibits, that seems to  
18 be a serious lacking aspect of your defense. So  
19 I'm telling you about that now.

20 MR. TIDABACK: Yes, Your Honor. And I  
21 recall you stating that yesterday. That's why we  
22 threw everything that we had in the search Teams

1 or Teams, because it is a collaborative tool.  
2 That's where all the documentation and  
3 communication and elaboration is, so we put that  
4 together based off the information. And that was  
5 to show that there was some history behind it, and  
6 that's the whole thing.

7 JUDGE MORAN: But in the normal course  
8 of business a disciplinary action, whether it be  
9 called a warning, there would be -- it wouldn't be  
10 in the context of a Team chat unless the chat was  
11 just between you, Mr. Spears, and the Complainant,  
12 and that would be -- it would be not something  
13 that some vague elusion to a bag that was ripped  
14 and whether he was responsible for that and who  
15 looks at the bill of lading, and whether truck  
16 drivers are checking everything. All of that is  
17 -- what's missing is if he were deficient, as you  
18 allege here, there would be a record of that. Not  
19 just through Team chats, but the normal course of  
20 business is when an employer is unhappy with their  
21 employees, those employees get notified of it.

22 MR. TIDABACK: Correct.

1 JUDGE MORAN: They have to advise that  
2 they have to make certain corrections or something  
3 more serious will come down.

4 MR. TIDABACK: Correct.

5 JUDGE MORAN: And I haven't heard any of  
6 that.

7 MR. TIDABACK: Not yet, Your Honor. I  
8 have a timeline that I'm creating on all our  
9 managers and key personnel. It's one the  
10 exhibits. It is provided. That shows that the  
11 conversations, even the phone conversations that  
12 Mr. Baumann and I had, the counseling in the  
13 control room, Mr. Baumann -- I try not to testify.  
14 I understand 100 percent.

15 JUDGE MORAN: I can't be in the business  
16 of interpreting a conversation. Typically in a  
17 business you need something harder than that, than  
18 just, see, we spoke on this date and we said thus  
19 and so, because if it wasn't -- if there wasn't  
20 something accompanying that saying now you're on  
21 notice, okay, that you had failed to examine  
22 guards, for example, and this has to stop. If

1   there isn't some sort of a warning letter with a  
2   progression typically in it, then you've got an  
3   evidentiary problem because everything I've heard  
4   thus far --

5               MR. TIDABACK:   We were following --

6               JUDGE MORAN:   Excuse me -- sounds -- has  
7   the aroma of backfilling.   In other words, after  
8   he's discharged what can we create from Teams  
9   chats or whatever to show that he was not doing  
10   his job.   But if you were able to show that in  
11   these Teams chats there were references to  
12   deficiencies, seems like the natural order of  
13   business would have been here's your warning.  
14   You're now advised.   This has to stop.

15              MR. TIDABACK:   And, Your Honor, we hired  
16   and had high expectations for Mr. Baumann to  
17   potentially be higher positions later on.   Mr. --  
18   he worked with Christine Schreiber, so we took --  
19   she was our operations manager at the time.   So we  
20   took her input and we had plans for Mr. Baumann.

21              JUDGE MORAN:   See, that's beside the  
22   point in this proceeding -- proceeding, excuse me.

1 If you had high aspirations doesn't help me decide  
2 whether he was deficient and therefore, discharge  
3 was -- in other words, termination was warranted.  
4 We got to keep focused on those very basic  
5 elements which I expressed at the start of the  
6 hearing.

7 MR. TIDABACK: Yes, sir.

8 JUDGE MORAN: It is rather a simple  
9 process.

10 MR. TIDABACK: Yes, Your Honor, and that  
11 is part of our learning process, as we should say,  
12 but we were also following the guidelines of our  
13 policies and procedures as well as that of  
14 Missouri being a right to work state. So I think  
15 we -- I agree 100 percent what you said. We are  
16 learning on that whole documentation process,  
17 because we have other past employees where every  
18 do -- i's was dotted and t's was crossed, but in  
19 the case of Mr. Baumann we had higher hopes --

20 JUDGE MORAN: Now you're going -- again,  
21 you're going astray, and de facto, I mean, in fact  
22 as opposed to de jure, you're testifying.

1 MR. TIDABACK: I'm trying not to, Your  
2 Honor.

3 MS. O'REILLY: He's been testifying the  
4 last five minutes.

5 JUDGE MORAN: Yes. For the record, none  
6 of Mr. Tidaback's statements will be considered as  
7 evidence unless he's actually sworn in and  
8 testifies he elects to do that. I have to, in all  
9 candor, when you're telling me these things, you  
10 know, I've been mindful that remember I've told  
11 you about there's a predicate to someone being  
12 discharged. Predicate meaning something happens  
13 before and that person is notified. Not in a  
14 casual conversation, but they get effectively a  
15 warning.

16 Now, part of the jigsaw puzzle here is  
17 also that during the time of his employment there  
18 were some communications that have been admitted  
19 in Teams chat where Mr. Spears and/or you, don't  
20 hold me to the particulars, that you weren't  
21 exactly thrilled about MSHA or about conversations  
22 with inspectors. So that's part of the backdrop,

1 too. This is just in the record right now. So  
2 that's another element that I have to consider in  
3 deciding whether Mr. Baumann had -- there was  
4 cause for him to be terminated, because this all  
5 goes to the second phase.

6 I mean, you really haven't challenged  
7 the first part, protected activity and adverse  
8 action. You have -- as far as I know on the  
9 record right now, we have several instances of  
10 protected activity based on the testimony of Mr.  
11 Baumann, and we also have undeniably adverse  
12 action. So the thrust of your defense has really  
13 been about, yes, but we would have fired him  
14 anyway because he wasn't doing his job. All  
15 right? But part of the piece of the puzzle is to  
16 look at those communications about MSHA and about  
17 employees speaking with MSHA inspectors and some  
18 of the other colorful language in there about MSHA  
19 and inspectors and speaking with them.

20 So I made a little soliloquy here, but  
21 I'm done but now I want you to, if you have now  
22 ground to talk to -- to ask questions of Mr.

1 Baumann, proceed with that now. Okay?

2 MR. TIDABACK: Yes, Your Honor.

3 BY MR. TIDABACK:

4 Q Okay. So is it fair to state that  
5 guarding and housekeeping in MSHA -- that MSHA  
6 inspector cited us for would have been noticed on  
7 a workplace inspection?

8 JUDGE MORAN: You know, I'm surprised  
9 there wasn't a question -- objection to that.  
10 That question is so broad to be incapable of  
11 answering, so I'm telling you that question is  
12 rejected.

13 MR. TIDABACK: Yes, sir. The question  
14 was directed to show more evidence Mr. Baumann was  
15 lacking in performance.

16 JUDGE MORAN: But it doesn't do that.

17 MR. TIDABACK: Okay. Yes, Your Honor.

18 BY MR. TIDABACK:

19 Q So in your testimony, and you reference  
20 in Secretary's Exhibit P13 on Page 54.

21 JUDGE MORAN: Okay. Wait one second  
22 now.

1 MR. TIDABACK: Yes, Your Honor, it's  
2 P13.

3 JUDGE MORAN: You really asked no  
4 questions that I saw on P14. You have moved from  
5 that?

6 MR. TIDABACK: Yes, Your Honor. One of  
7 the results behind that, of the workplace exams  
8 about the guarding, if he was doing the workplace  
9 exams, the guarding and the housekeeping would  
10 have been noted on those. But I may have asked  
11 the question improperly and you have rejected  
12 there.

13 JUDGE MORAN: All right. So we're off  
14 of P14.

15 MR. TIDABACK: Yes, Your Honor.

16 JUDGE MORAN: What page are you looking  
17 at?

18 MR. TIDABACK: P14.

19 JUDGE MORAN: Five four?

20 MR. TIDABACK: Five four, yes, Your  
21 Honor.

22 JUDGE MORAN: But my last comment as I

1 turn to Page 54, is I hope you can appreciate that  
2 at least at this point in the testimony there's a  
3 fatal flaw on the Respondent's part in terms of  
4 evidentiary proof that Mr. Baumann would have been  
5 discharged for his failure to perform his job  
6 properly. There's no documentary evidence, and  
7 something like P14 doesn't get you there, because  
8 I told you we're not going to be trying citations  
9 and therefore making some sort of a linkage that  
10 citation would never have been issued if Mr.  
11 Baumann, who was -- what you need and still need  
12 and may not be available is the documentation that  
13 Mr. Baumann has been informed, hey, you're not  
14 doing your job. Here are other defects. These  
15 have to be corrected or there will be adverse  
16 results. If you can't show this, this other stuff  
17 that you're trying to, such as through P14, it's  
18 just not going to get you there.

19 MR. TIDABACK: We were trying to provide  
20 linking, Your Honor, and right now we're only  
21 basing or the Court is only basing everything off  
22 of just Mr. Baumann.

1 JUDGE MORAN: That's right. I'm not  
2 speaking about what might come. I'm not deciding  
3 the case at this point in time at all. I'm just  
4 talking about what's in front of us now. So now,  
5 Page P54?

6 MR. TIDABACK: Yes, Your Honor.

7 JUDGE MORAN: What is your question  
8 about P54?

9 BY MR. TIDABACK:

10 Q In that statement, do you recall -- we  
11 are removing product from the floor now, but have  
12 directed the cleanup of that spillage.

13 JUDGE MORAN: I don't locate this on  
14 P54.

15 MR. TIDABACK: P13, Page 54.

16 JUDGE MORAN: I'm on Page 54, Mr.  
17 Tidaback. Where do you see that on that page  
18 here?

19 MR. TIDABACK: On the last, very bottom.  
20 Mr. -- Mr. Baumann's response. I don't know --  
21 idk I'm assuming means I don't know. This guy is  
22 out for blood. We are removing product from the

1 floor now. Do you see that?

2 THE WITNESS: Yes.

3 JUDGE MORAN: I don't. I'm sorry. So  
4 it's P13, Page 54.

5 MR. TIDABACK: P13, Page 54. It's the  
6 very last chat.

7 JUDGE MORAN: I do see something now.  
8 This is a message from you to Mr. Baumann. Right?

9 MR. TIDABACK: It is a reply from Mr.  
10 Baumann on date February 14th, 2-14 at 1:13 p.m.

11 JUDGE MORAN: It says idk, this guy is  
12 out for blood?

13 MR. TIDABACK: Yes, Your Honor.

14 JUDGE MORAN: Okay. Mine is apparently  
15 cut off. All I see on the bottom of Page 54 is  
16 idk. This guy is out for blood. We are moving  
17 from floor now. Is that all you're asking about?

18 MR. TIDABACK: We're removing product  
19 from floor now. Yes, Your Honor.

20 JUDGE MORAN: And what is your question?

21 BY MR. TIDABACK:

22 Q Who would have directed the cleanup of

1 the spillage?

2 A The MSHA inspector that day.

3 Q So MSHA is tasking our personnel?

4 A MSHA directed me on what was cited for  
5 previously, and when the MSHA inspector showed up  
6 Mr. Spears was not in the building. So I was  
7 escorting him in through the shop and he looked  
8 over and he said, they haven't started cleaning up  
9 the product in front of the electrical box yet.  
10 And I said, I will get the guys on it and start  
11 now. I didn't know that we were cited for it, is  
12 exactly what that was about.

13 Q Right. And in the -- in the spillage  
14 and you just mentioned they, who would have -- who  
15 is they, Mr. Baumann? Who is they? Who was they?

16 A What do you mean?

17 Q You said they haven't been cleaning up  
18 yet. Who is they?

19 A I didn't say they hadn't been cleaning  
20 up yet. It's an issue where there was product in  
21 front of the box, and we were told not to clean it  
22 up because they were going to feed it back through

1 the system.

2 Q Who is they, in your statement?

3 MS. O'REILLY: He not saying that. He  
4 said we were told.

5 THE WITNESS: Yeah, we were told.

6 JUDGE MORAN: I understand, Ms.  
7 Tidaback.

8 MR. TIDABACK: I'm just to the point  
9 when he's stating they, he is the one that is  
10 controlling they, so he would be the one that  
11 would be tasking them to clean up the spillage  
12 that the MSHA inspector said they haven't cleaned  
13 it up yet.

14 JUDGE MORAN: Let me just see if we can  
15 sort this out. You know, this reference that --  
16 are you on the bottom of Page 54?

17 THE WITNESS: Yes, Your Honor.

18 JUDGE MORAN: Help me out with the very  
19 basic thing. When it says idk this guy is out for  
20 blood, who's stating that?

21 THE WITNESS: I am.

22 JUDGE MORAN: You're stating that?

1 THE WITNESS: Yes.

2 JUDGE MORAN: And you say you're  
3 removing the product from the floor now?

4 THE WITNESS: Yes.

5 JUDGE MORAN: Mr. Tidaback's question  
6 was, was that you were directing that the product  
7 be removed from the floor.

8 THE WITNESS: Yes, Your Honor.

9 JUDGE MORAN: Does that answer your  
10 question?

11 MR. TIDABACK: Yes, Your Honor.

12 JUDGE MORAN: Again, so again, I'm going  
13 to come back to it if it's your position that it  
14 was his responsibility to remove the product from  
15 the floor, and probably your suggestion that it  
16 should have been removed before the citation was  
17 issued. What's the big flaw in your proof? I'm  
18 posing a question. The answer is, I'm going to  
19 tell you, you don't have any documentation that  
20 Mr. Baumann was warned about this incident and  
21 that it should not happen again. At least at this  
22 point in the record there's no papers that were

1 handed to him notifying him of his deficiencies.

2 So this -- I can't make any conclusions about this

3 one remark about this whole business, and I

4 certainly can't make the leap that somehow this

5 was his responsibility to take care of this, and

6 that by failing to take care of this he was at

7 fault and therefore, this was part of the grounds

8 for his eventual discharge. I can't do that. Not

9 based on this Teams charge -- Teams chat at P13,

10 Page 54. It's too big a leap. It requires

11 supposition on my part, which I can't deal with

12 supposition when I make decisions about the

13 validity of someone being terminated.

14 MR. TIDABACK: Without me going into  
15 testimony --

16 JUDGE MORAN: Right. We can't do that.

17 MR. TIDABACK: -- I can't give you the  
18 information that you need with what you're asking.  
19 I just asked a question.

20 JUDGE MORAN: Okay. We'll weight that,  
21 if it comes.

22 MR. TIDABACK: Okay.

1 JUDGE MORAN: Remember, if it's just  
2 something all that's a problem. If it's just, you  
3 know, I warned Mr. Baumann that he would be fired,  
4 you can ask him if you ever warned that he would  
5 be fired for and the named incidents and he can  
6 answer, yes, I was warned, or no, I was never  
7 warned, or I don't remember. I don't know what  
8 his answers could be. Okay? So how many more  
9 questions do you have to ask of Mr. Baumann, sir?

10 MR. TIDABACK: I've got more pages.

11 JUDGE MORAN: Okay. Well, go ahead.

12 MR. TIDABACK: And I am trying to  
13 provide the linking that is required to provide  
14 that information for you.

15 JUDGE MORAN: Well, you just suggested,  
16 though, that the linking, if it comes, will come  
17 either from the testimony of you, if you decide to  
18 testify, or from Mr. Spears or some other employee  
19 witness. All right?

20 MR. TIDABACK: Correct.

21 JUDGE MORAN: Just -- I think you can  
22 quickly go through the questions you need to ask

1 of Mr. Baumann about his job performance and  
2 deficiencies, and whether you or anyone else  
3 alerted him to deficiencies and he can say yes, I  
4 was told I wasn't doing this job well enough or  
5 no, I was never told that or I don't recall that.  
6 I don't know what his answers will be, so proceed  
7 with your questions. Let's see if we can pick  
8 this up.

9 MR. TIDABACK: Okay.

10 JUDGE MORAN: The pace here I'm talking  
11 about.

12 MR. TIDABACK: I understand, Your Honor.  
13 Yes, sir.

14 BY MR. TIDABACK:

15 Q Let's see. Okay. In referencing to --  
16 P14, Page 54, cleaning up the spillage, that is  
17 part of housekeeping. Is that correct?

18 A Yes.

19 Q Okay. And reference to P13 on Page 54,  
20 titled Teams chats, I messaged you and John to  
21 make notes about the inspection, and your  
22 testimony yesterday that had the Secretary asked

1 if you had made those notes as directed by Russell  
2 and you stated that you didn't do this them.  
3 Would this not be considered an act of  
4 disobedience?

5 A Yes. But I never got any specific, and  
6 I asked John Spears what specifically we were  
7 supposed to write down or what the actual -- what  
8 the actual reasoning -- what I was supposed to  
9 remember, and I forgot to ask that, so no, I did  
10 not.

11 Q But just to clarify, though --

12 A Yes.

13 Q -- would you consider as that as an act  
14 of disobedience of not following directions?

15 A Yes.

16 Q So thank you. We hired other  
17 individuals to assume some of your  
18 responsibilities. Were you informed of this  
19 decision?

20 A No.

21 Q Do you recall having the conversation  
22 about what tasks would help you if we got you an

1 assistant?

2 A I never was aware that I was ever --  
3 that assistant was ever hired for me. The role.

4 Q Okay. So we've seen Respondent Exhibit  
5 RX.

6 JUDGE MORAN: I just want to note for  
7 the record that as we're turning to RX that at  
8 this point in time there is one exhibit admitted  
9 for the Respondent and that is Exhibit RA.

10 MR. TIDABACK: I would like to submit an  
11 Exhibit RX. I'm just -- I'm at a loss of  
12 understanding, I guess, what the Court needs other  
13 than all the exhibits that I have submitted, so I  
14 don't know that process, Your Honor.

15 JUDGE MORAN: Well, this is not a tough  
16 one. Exhibit RX -- just let me finish now.  
17 Exhibit RX is a one-page exhibit. It's dated  
18 August 24th, 2022 to a Mr. Schallenberger. And  
19 this is an exhibit that the Secretary received in  
20 the exchange?

21 MS. O'REILLY: Yes, sir.

22 JUDGE MORAN: And you're offering this

1 exhibit for what purpose, sir?

2 MR. TIDABACK: Yes. This exhibit here  
3 goes to show that we were intentionally trying and  
4 hired a person to replace Mr. Baumann.

5 JUDGE MORAN: Okay. But that -- you  
6 see, this is the leap you just made. Does it  
7 anywhere in that letter, Mr. Tidaback, state that  
8 you were hiring this individual to replace Mr.  
9 Baumann? Does it say that?

10 MR. TIDABACK: The position?

11 JUDGE MORAN: As a product -- production  
12 shift manager, to bring him on board, does it say  
13 that it was to replace Mr. Baumann?

14 MR. TIDABACK: In our small break we  
15 have one -- state what you just asked, no, it does  
16 not, Your Honor. We do not have multiple  
17 positions for multiple people. In that Exhibit RX  
18 it shows that we hired someone in August of 2022.  
19 Exhibit RY --

20 JUDGE MORAN: Let's just stay with RX  
21 for right now. Do you have any objection to the  
22 admission of RX?

1 MS. O'REILLY: I have an objection, no  
2 foundation and also --

3 JUDGE MORAN: Well, what sort of  
4 foundation is needed to do this? I'm not clear.  
5 This is a business record. It's a letter from  
6 American Tripoli. How much it proves is a  
7 different issue, but I don't understand what  
8 foundation are you looking for for Mr. Tidaback to  
9 establish?

10 MS. O'REILLY: Why don't --

11 COURT REPORTER: I'm sorry. You're  
12 breaking up. I can't hear you.

13 MS. O'REILLY: Yeah, I would object  
14 because Mr. Tidaback's not -- there's no  
15 foundation laid for Mr. Tidaback not testifying  
16 right now and he's the only one that seemingly in  
17 this room that can lay a foundation for that.

18 JUDGE MORAN: Okay. So I mean, you're  
19 technically correct that -- but I have some leeway  
20 here, and without expressing my view about the  
21 probative of this exhibit, I'm going to show some  
22 informality, at least with reference to this.

1 This doesn't mean it goes across the board but I'm  
2 going to admit Exhibit RX, but certainly counsel  
3 for the Secretary is right, that you can't ask any  
4 questions based on this of Mr. Baumann. So for  
5 future evidentiary matters such as this you should  
6 wait until you have a witness who will say, oh,  
7 yes. And may be you, yes, this is the letter I  
8 sent to Mr. Schallenberger, okay, and then that  
9 would come in. That's a separate category,  
10 whether it comes in from the probative value of  
11 this letter or any letter. All right? So that  
12 RX, using my discretion, is admitted.

13 MR. TIDABACK: Your Honor, RY and RZ are  
14 the exact same thing.

15 JUDGE MORAN: When you say they are the  
16 exact same thing, they're addressed to different  
17 people, are they not?

18 MR. TIDABACK: They are addressed to  
19 different people and at different dates.

20 JUDGE MORAN: Okay. And so I have to be  
21 somewhat consistent here. Right? So I'm going to  
22 allow RY and RZ to be admitted.

1 MS. O'REILLY: I will just state my  
2 objection to foundation and also to the argument  
3 that you provided. They were not provided in  
4 discovery, either. It was provided in the  
5 February 8 disclosure, but I'm just going to state  
6 my objection for those two reasons.

7 JUDGE MORAN: But you do have counsel  
8 for the Secretary, you have RY and RZ?

9 MS. O'REILLY: Yes. I received those on  
10 February 8th. I received Y in February, I did not  
11 receive Z in February.

12 JUDGE MORAN: Okay. But I have some  
13 leeway here, and I'm admitting RY and RZ in  
14 addition to X. And again, I would say that this  
15 is an extremely indirect method to show what I  
16 have to figure out, which is was -- in the  
17 affirmative defense, was Mr. Baumann terminated in  
18 any event for shortcomings. Because we're at this  
19 point in the proceeding, not that we can't go back  
20 to it, but we're -- protected activity has been  
21 established in testimony.

22 And not that it can't be countered, but

1 there was an adverse action. No one disputes  
2 there was an adverse action. He was fired. So  
3 the focus of American Tripoli's defense, from my  
4 understanding, is solely about, and he would have  
5 been fired in any event and you're trying to show  
6 that by hearing these other individuals, that  
7 demonstrates his deficiency and that doesn't cut  
8 it, as far as I'm concerned, short of notification  
9 to Mr. Baumann, some sort of reprimand, warning,  
10 etcetera, you know.

11 Because there can be a host of reasons  
12 why people are hired and I'm not going to make  
13 that kind of -- what I would consider to be an  
14 illogical leap that you're hiring practices  
15 therefore demonstrate that Mr. Baumann was  
16 deficient in his own responsibilities. I can't go  
17 down that what I call cul-de-sac. It's -- a  
18 cul-de-sac is a dead end. Okay. It has a nicer  
19 name, but that's what it is.

20 MR. TIDABACK: I do believe I'll be able  
21 to expand that on.

22 JUDGE MORAN: We'll wait for that other

1 testimony. Do you have any other questions of  
2 this witness? Because this is far afield. You  
3 can't keep going down this road where things that  
4 have nothing to do with the testimony of Mr.  
5 Baumann.

6 MR. TIDABACK: These all build up to --

7 JUDGE MORAN: You got to direct your  
8 questions to Mr. Baumann. You can't ask Mr.  
9 Baumann a question about RX, RY or RZ.

10 (Respondent's Exhibit R-X, R-Y, R-Z  
11 were marked for identification and  
12 received in evidence.)

13 MR. TIDABACK: My next question for Mr.  
14 Baumann is how the departure of these individuals  
15 before your termination impacted your workload and  
16 performance expectations, so he would have to know  
17 who he was talking to or about.

18 JUDGE MORAN: Are you telling me, then,  
19 this is -- it can't be considered testimony, but  
20 you're asserting to me that in RX, Y and Z, this  
21 relates to individuals that were hired and then  
22 let go?

1                   MR. TIDABACK: No, no, no. These  
2 individuals quit.

3                   JUDGE MORAN: They were employed and  
4 then they quit.

5                   MR. TIDABACK: That is correct. And  
6 they were employed and they quit.

7                   JUDGE MORAN: Asking --

8                   MR. TIDABACK: Because they affected his  
9 workload, Your Honor. That's the question.  
10 That's why I was getting to that.

11                  JUDGE MORAN: I'll let you ask that  
12 question. We're afield here, but let's go ahead  
13 with your question.

14                  MR. TIDABACK: Yes, Your Honor.

15                  BY MR. TIDABACK:

16                Q     So the departure of Mr. Schallenberger,  
17 Mr. Collins or McClelland and Mr. Snodgrass, how  
18 did the departure of those individuals impact your  
19 workload and performance expectations?

20                A     Will Schallenberger didn't affect it at  
21 all. He was hired to be the day shift supervisor,  
22 and I don't even -- I recall meeting the Richard

1 person once but I'm thinking he only worked like  
2 one day. I honestly don't recall how long he was  
3 there. And Alex Snodgrass did -- he was the -- he  
4 was hired to be the, oh, production whatever, you  
5 know, to do the inventory and to track all the --  
6 print all the shipping labels, printed all the  
7 stuff for that. So, yes, that doubled my  
8 workload. It would have. He was still employed  
9 when I left. Alex Snodgrass was still employed  
10 when I left.

11 Q Okay.

12 JUDGE MORAN: Okay. So one of my  
13 authorities in the proceeding is I can cut off  
14 further questions on things that I don't consider  
15 to be pertinent to the issues in front of me, so  
16 you're going to have to move on from this. And  
17 remember, I already gave you a forgiveness for  
18 these exhibits, which I admitted which really, as  
19 Attorney O'Reilly pointed out from a technical  
20 standpoint, it wasn't a proper foundation for  
21 their admission, but I still benevolently allowed  
22 these to be in, but now we're moving on to

1 something else. No more questions about these,  
2 these issues, about how employees who were hired  
3 for whatever period of time and then discharged,  
4 how that impacted, because that's not what the  
5 focus of this decision is about.

6 MR. TIDABACK: Yes, Your Honor.

7 JUDGE MORAN: So move on to something  
8 else, please.

9 BY MR. TIDABACK:

10 Q Regarding protected activity and alleged  
11 discrimination, the next subject, P14, the  
12 workplace inspections, the ones you had in 2022,  
13 the 17 April of 2023.

14 JUDGE MORAN: We're talking about P14?

15 MR. TIDABACK: Yes, Your Honor.

16 JUDGE MORAN: All right. And are you on  
17 a particular page on P14?

18 MR. TIDABACK: It's going to be the  
19 whole entire. Not any specific as we talked about  
20 -- you talked about earlier. Not specific  
21 citations or anything like that, so we're talking  
22 about the workplace inspections themselves. Okay.

1 JUDGE MORAN: Okay. What was your  
2 question of Mr. Baumann about P14 and then we'll  
3 see if we have an issue or not.

4 BY MR. TIDABACK:

5 Q So you had mentioned raising safety  
6 concerns. Can you detail the concerns and how you  
7 communicated them with the management? How if  
8 there were safety concerns out there, how do we  
9 know if you don't communicate them?

10 MS. O'REILLY: Objection, argumentative.

11 JUDGE MORAN: Yes. I sustained the  
12 objection. Mr. Baumann, did you raise safety  
13 concerns to either Mr. Tidaback and/or Mr. Spears  
14 during the course of your employment?

15 THE WITNESS: Yes, Your Honor.

16 JUDGE MORAN: Please identify the safety  
17 concerns, some of them that you expressed. Can  
18 you give me some illustrative example?

19 THE WITNESS: The live wire that was --

20 JUDGE MORAN: You testified about  
21 yesterday.

22 THE WITNESS: Yes, Your Honor.

1 JUDGE MORAN: We don't have to go into  
2 the whole detail. I remember that. That's in the  
3 record. Anything else?

4 THE WITNESS: The product dam that was  
5 made for the oil that was running off. The rags  
6 in the worn out bearings.

7 JUDGE MORAN: Okay.

8 THE WITNESS: Open electrical boxes,  
9 unmarked electrical boxes.

10 JUDGE MORAN: And you raised these  
11 safety concerns to?

12 THE WITNESS: Mr. Spears.

13 JUDGE MORAN: Okay. Those are some  
14 examples of a protected activity that he  
15 identified by his testimony to Mr. Spears. Do you  
16 have a question about that?

17 BY MR. TIDABACK:

18 Q Are those in the workplace exams?

19 JUDGE MORAN: Are those concerns noted  
20 within the Exhibit P14?

21 THE WITNESS: Yes. I recall making the  
22 -- making the observation on the wire every day in

1 my -- in my exam. The oil damn, no. The rags in  
2 the bearings, yes.

3 JUDGE MORAN: And where do you see the  
4 rags in the bearing, sir, on Exhibit P14?

5 THE WITNESS: Sorry.

6 JUDGE MORAN: That's -- on P14 where do  
7 you see the rags in the bearing issue?

8 THE WITNESS: I'm looking for it, Your  
9 Honor. This doesn't look a hundred percent like  
10 it's -- like I had done all of these, or there is  
11 the bare electrical wires.

12 JUDGE MORAN: What page is that on?

13 THE WITNESS: Page 5.

14 JUDGE MORAN: I see it there. Okay.

15 THE WITNESS: But there should be  
16 multiple, like on the bare electrical wire because  
17 it wasn't resolved that day. And I'm not seeing  
18 like the consistency, you understand?

19 MR. TIDABACK: Your Honor, actually if  
20 you look at Exhibit P14, Page 4 and Page 5, on  
21 Page 5 it shows the bare electrical wires exposed  
22 of floor area closed off.

1 JUDGE MORAN: Yes. But does that help  
2 you or hurt you?

3 MR. TIDABACK: That's what I'm saying,  
4 Your Honor. Mr. Baumann -- this is part of my  
5 attempt to show Mr. Baumann's testimony is, one,  
6 not accurate, and it's not reflective of his true  
7 responses to what really happened. Just like he  
8 just stated in his testimony, this took something,  
9 something extra, days or whatever. Look on the  
10 very next day. He has it marked as good. So if  
11 the records are showing that it's good, Mr.  
12 Baumann, if the records are showing that it's  
13 good, did you expect the management team that is  
14 managing the workload of the maintenance personnel  
15 to think or assume that that area is safe for  
16 production and good based on your records?

17 A Yeah, I'm looking over this, because I  
18 don't think this is an accurate -- it looks like  
19 it's been changed to me, honestly, Your Honor. It  
20 doesn't -- some of them, yes, I really recognize,  
21 and some of them I don't.

22 JUDGE MORAN: Well, you've exhausted

1 your recollection on this point. I will note for  
2 the record, though, on Page 005 of Exhibit P14  
3 there is at least that one reference to bare  
4 electrical wires which Mr. Baumann testified about  
5 yesterday, and the mentioning of that in his  
6 testimony would constitute protected activity,  
7 because it is identifying a safety hazard. You  
8 know, that there are not other examples in P14,  
9 which I'm not saying that's true. But I notice,  
10 for example, on Page P14 009 that there's a  
11 reference there that there was the ramp gate left  
12 open creating a danger, closed and locked it,  
13 locked gate. So that's a second instance now.  
14 Give me just one second here. Is it your  
15 testimony, Mr. Baumann, that you made that entry?  
16 Can you recall maybe not in this format, but did  
17 you -- did you indicate that there was a ramp gate  
18 left open creating a danger?

19 THE WITNESS: Yes, Your Honor.

20 JUDGE MORAN: Okay. Is there a gate  
21 associated with that?

22 THE WITNESS: Yes, Your Honor.

1           MR. TIDABACK: Yes, Your Honor, on the  
2 very far left column.

3           JUDGE MORAN: I see. Now I recall, you  
4 really would have to string all these pages out.

5           MR. TIDABACK: Unfortunately that's how  
6 it's printed being a printed document. That comes  
7 from --

8           JUDGE MORAN: Go ahead, if you have  
9 additional questions. Now you're still moving on  
10 with the idea of showing or attempting to show  
11 there was no protected activity?

12          MR. TIDABACK: That is correct.

13          JUDGE MORAN: Go ahead with additional  
14 questions.

15          BY MR. TIDABACK:

16          Q       So like, Mr. Baumann, building the  
17 platform for stacking the bags, buying filters to  
18 replace filters if too much dust appeared to slip  
19 from the bag house filters on the fourth floor.  
20 Would you argue that none of these or other items  
21 were actually addressed if they're not shown in  
22 the workplace exams?

1           A       I don't guess I understand what we're --

2           Q       In your testimony you mentioned you  
3 brought all these things forward, and that you  
4 walked around and did workplace exams, but they're  
5 not documented.

6           A       We weren't running when I did the  
7 workplace exams, so I wouldn't have known about  
8 any excess dust or anything like that.

9                   JUDGE MORAN:   Would you repeat that?  I  
10 didn't hear the beginning of your answer with we  
11 what.  You said workplace exam, then.

12                  THE WITNESS:   When I performed the  
13 workplace exams, Your Honor, we were not running  
14 product.  So the excess dusting and stuff like  
15 that wouldn't have been in mill -- wouldn't have  
16 been in my safety walk-through.

17                  JUDGE MORAN:   Okay.

18                  BY MR. TIDABACK:

19           Q       The daily workplace exam is what we're  
20 talking about.  These are required daily.  Anytime  
21 we're in the mill.  If they were issues needed to  
22 be addressed, those should have been recorded in

1 the workplace exams. Correct, Mr. Baumann?

2 A Yes.

3 Q Okay. Let's see here. Did you perceive  
4 a change in how you were treated by management  
5 after raising safety concerns or participating in  
6 MSHA inspections?

7 A Yes.

8 Q Okay. If so, how?

9 A Just like I testified yesterday, I felt  
10 like I was being left out of Team chats, and any  
11 concerns that I brought up were, in my opinion,  
12 being blown off or ignored.

13 Q Okay. When you mean left off, what does  
14 that mean?

15 A I wasn't -- my name was not being tagged  
16 in any of the Team messages. If I brought a  
17 concern across, taking a picture of something, I  
18 never got answered, in my last two months --

19 Q Correct.

20 A -- prior to being terminated.

21 Q Were you still in the chat group?

22 A Yes.

1           Q     So you were able to receive those chat  
2 messages, 24 hours day at anytime?

3           A     Yes.

4           Q     Okay. Yesterday in your examination you  
5 mentioned that you were treated differently after  
6 being a miner representative. You were mentioned  
7 that you're not tagged in messages anymore. Only  
8 John, the operations manager, and Jesse, the  
9 safety manager, were actually being tagged, but  
10 again, you could still see the chat messages.  
11 Correct?

12          A     Yes.

13          Q     Looking at Secretary's Exhibit P2 titled  
14 Miner Representative of Miners Designation?

15               MR. TIDABACK: P2, Your Honor.

16               JUDGE MORAN: Give me a minute to move  
17 all this paper back to P2.

18               MR. TIDABACK: Yes, sir.

19               JUDGE MORAN: You on P2, Mr. Baumann?

20               THE WITNESS: Yes.

21               JUDGE MORAN: Thank you, sir. Yep.

22               Okay. So we have the Representative Miners

1 Designation Form on P2, which is a one page  
2 exhibit. And your question is.

3 BY MR. TIDABACK:

4 Q Yes, sir. On that, Mr. Baumann, you  
5 marked that you wanted to be confidential. If  
6 you're confidential, how is anyone in the  
7 management team supposed to know that you are a  
8 miners rep?

9 MS. O'REILLY: I object that it  
10 misstates the testimony and it misstates the  
11 document.

12 JUDGE MORAN: Yes. You object to  
13 because what?

14 MS. O'REILLY: It misstates the  
15 testimony and also misstates the document, but  
16 that's not what -- that's not what the  
17 confidential marking is. It's not making Robert  
18 Baumann confidential. It's making the redacted  
19 names of the people who elected him a miners rep  
20 confidential.

21 JUDGE MORAN: Let me ask this question,  
22 Mr. Baumann. Mr. Baumann, when you filled out the

1 form to become a representative of miners, did you  
2 understand that you would be recognized as the  
3 miners representative at the mine?

4 THE WITNESS: Yes, Your Honor.

5 JUDGE MORAN: Did you want that to be a  
6 secret to the mine?

7 THE WITNESS: No, Your Honor.

8 JUDGE MORAN: All right. And in fact,  
9 my -- well, strike that thought.

10 I sustain the objection from Attorney  
11 O'Reilly. The confidential, based on the exhibit  
12 itself and Mr. Baumann's testimony is it wasn't to  
13 keep his status as a miners rep secret from --  
14 from American Tripoli, and if it were, how would  
15 that help me decide the case, in any event?

16 MR. TIDABACK: If we didn't know he was  
17 a miners rep, how would we discriminate against  
18 him a miners -- how would we discriminate against  
19 him being a miners rep?

20 JUDGE MORAN: I don't know that it's  
21 been alleged that you discriminated against him  
22 because he was a miners rep. You discriminated

1     against him under the allegations because he  
2     engaged in protected activity.

3                 MR. TIDABACK:   That was listed as one of  
4     them.

5                 JUDGE MORAN:   Is that true, Attorney  
6     O'Reilly?

7                 MS. O'REILLY:   Yes.   Correct.

8                 JUDGE MORAN:   Okay.   But your question,  
9     though, has become -- it's vaporized, if you will,  
10    because the only reason --

11                MR. TIDABACK:   The only reason for --

12                JUDGE MORAN:   Please, will let me  
13     finish.   It's vaporized because Mr. Baumann has  
14     just stated that he filled out the form but he had  
15     no intentions of trying to keep his status secret.  
16     Did you ever -- did you ever express to anyone at  
17     American Tripoli, of course, my understanding is  
18     you had to get at least two people to designate  
19     you as the miners represent.   Right?

20                THE WITNESS:   Yes, Your Honor.

21                JUDGE MORAN:   Okay.   And at or after you  
22     filed the form to become the representative of

1 miners, did you ever disclose to management, that  
2 would be Mr. Spears or Mr. Tidaback or anyone else  
3 in management, that you were the miners rep?

4 THE WITNESS: Yes, Your Honor.

5 JUDGE MORAN: And did you recall when  
6 you disclosed your status as a miners rep to these  
7 people?

8 THE WITNESS: As soon as it was -- as  
9 soon as the papers were filed and then the next  
10 MSHA inspection, the MSHA inspector notified John  
11 that he needed to contact me to come up there  
12 because I was the miners representative.

13 JUDGE MORAN: Okay. But your testimony,  
14 just what I just heard is so there were two points  
15 in time. One was shortly after filling out the  
16 form you notified management?

17 THE WITNESS: Yes.

18 JUDGE MORAN: And do you recall who you  
19 notified at the American Tripoli that you were now  
20 the miners rep?

21 THE WITNESS: John Spears.

22 JUDGE MORAN: Did you notify anyone

1 else?

2 THE WITNESS: No. Not that day, Your  
3 Honor.

4 JUDGE MORAN: And then after becoming  
5 the miners representative and the inspection  
6 ensued after that, your testimony is that the MSHA  
7 inspector notified management people that you were  
8 the miners rep. Is that true?

9 THE WITNESS: Yes, Your Honor.

10 JUDGE MORAN: Any other questions about  
11 that?

12 BY MR. TIDABACK:

13 Q Did you ever communicate that you were a  
14 miners rep in the collaboration tool so everybody  
15 would know?

16 A Yes. All -- all mill associates knew.

17 Q Did you post that in Teams?

18 A No.

19 Q Okay. So that is the collaboration tool  
20 we use. Correct?

21 A Yes. But I didn't see any relevance to  
22 putting it on Teams. There was only four of us

1 working there at the time, so. And two of them  
2 asked me to be the miners representative to try  
3 and get things better.

4 Q So why did you decide to be confidential  
5 rather than public?

6 MS. O'REILLY: Objection, misstates the  
7 testimony.

8 JUDGE MORAN: Come on now. We covered  
9 that one. Let's move on.

10 BY MR. TIDABACK:

11 Q Okay. So you claim that you've never  
12 been reprimanded before, so in your testimony why  
13 would you -- why would we reprimand you based on  
14 bringing problems and safety to the teams  
15 attention, keeping us out of hot water with MSHA?

16 MS. O'REILLY: I would object that he's  
17 testifying and I don't understand the question.

18 JUDGE MORAN: As phrased you're -- I  
19 sustain the objection. But for you to ask him why  
20 you people would decide to reprimand him, beyond  
21 his ken.

22 MR. TIDABACK: That question was based

1 on his testimony yesterday stating that he was  
2 fearful for his job and that's why he wanted to be  
3 miners rep, confidential as the Secretary pointed  
4 out.

5 MS. O'REILLY: Again, he's testified to  
6 the confidential status, which is misstating the  
7 testimony.

8 JUDGE MORAN: I sustained the objection.  
9 Try one more time with your question, and we'll  
10 act on it.

11 BY MR. TIDABACK:

12 Q Okay. Okay. So without testifying,  
13 that's the hard part. Okay.

14 JUDGE MORAN: Well, I think as you move  
15 on to something else. We're clear at this point  
16 that based on the testimony of Mr. Baumann as just  
17 stated that there was nothing confidential about  
18 his status. That according to his testimony and  
19 as augmented when an inspection occurred, American  
20 Tripoli was put on notice that, in fact, Mr.  
21 Baumann was the miners rep at your facility.

22 MR. TIDABACK: And I actually disagree

1 with that statement, Your Honor, because there is  
2 an e-mail -- there is evidence.

3 JUDGE MORAN: But I'm talking about  
4 what's on the record right now. That's the  
5 testimony as it stands right now. You people  
6 knew, and according to Mr. Baumann, you knew two  
7 times. One shortly after he filled out the form.  
8 That's his testimony, and two, when an inspector  
9 arrived, and that should have been a pretty good  
10 notice that because it's customary when there's a  
11 miners rep, MSHA inspectors tell management Mr. X  
12 is accompanying me in this inspection because he's  
13 the miners rep.

14 MR. TIDABACK: Yes, Your Honor, and I  
15 will agree under normal circumstances, most  
16 likely, and different inspectors, which we have  
17 issues with, that may have happened. But I --

18 JUDGE MORAN: You're saying you were  
19 never notified?

20 MR. TIDABACK: That's correct.

21 JUDGE MORAN: And that's testimony.

22 MS. O'REILLY: We object to the

1 testimony.

2 JUDGE MORAN: All right. Listen folks.  
3 It's 10:45. We're going to take a five-minute  
4 break here. So Court Reporter, you've been  
5 hanging in there with me?

6 COURT REPORTER: Yes, I have.

7 JUDGE MORAN: Okay. So we're going to  
8 take a five minute break. But before we do that  
9 break I want you to, you know, collaborate with  
10 your daughter and see if we can move this  
11 testimony along to things that are pertinent to  
12 what I have to decide. And we spent a lot of time  
13 here this morning with things that don't advance  
14 the case in terms of the Respondent's perspective.

15 That's my broad brush view of what we  
16 have been spending a couple of hours on now, so  
17 you know, at some point I have to say that no more  
18 questions will be allowed of this witness. That's  
19 within my purview. If we're just treading water  
20 here or even not in the water, just to carry that  
21 analogy, I have to cut things off, because  
22 otherwise, the proceeding would go on needlessly

1 for days and not accomplish anything.

2 MR. TIDABACK: Yes, Your Honor.

3 JUDGE MORAN: So I want you to during  
4 this five minute break see if you can hone in on  
5 to whatever last questions you want to ask of this  
6 witness, and then focus, when it comes your turn,  
7 to the defense, to the witnesses and testimony  
8 your side may offer. All right?

9 MR. TIDABACK: Yes, Your Honor.

10 JUDGE MORAN: All right. Now we're  
11 going to break. Off the record.

12 (Recess)

13 JUDGE MORAN: I'm going to ask a few  
14 questions, and then I'm going to allow you to have  
15 some more questions, sir, but I am going to be  
16 attentive, I expect the Secretary's attorney to be  
17 attentive to matters that either are cumulative or  
18 amount to testimony or do not -- are not relevant  
19 or material, because I have allowed you to have  
20 questions, many of which were off point during the  
21 time that we began at 9 a.m., approximately 9:00  
22 a.m. this morning. We're now coming up on 11:00.

1 I also want to remind you that 11:55 I have to  
2 take a break for a conference call, so that will  
3 be our next break and then we'll pick right of up  
4 and see where we are.

5 Now, a couple questions for you, Mr.  
6 Baumann.

7 THE WITNESS: Yes, sir.

8 JUDGE MORAN: And forgive me for not  
9 having handy for me the notes about this, but you  
10 worked for approximately ten months for American  
11 Tripoli. Correct?

12 THE WITNESS: Yes, sir.

13 JUDGE MORAN: Okay. And when you were  
14 hired, what was your job title? You have a job  
15 title?

16 THE WITNESS: They hired me to be the  
17 supervisor over the night shift.

18 JUDGE MORAN: Right, but did you have --  
19 they called you a supervisor over the night shift?

20 THE WITNESS: Yeah. Production  
21 supervisor is what it said in their little website  
22 thing.

1 JUDGE MORAN: Okay. So we would call  
2 yourself a production supervisor when you were  
3 hired?

4 THE WITNESS: Yes. That's the job that  
5 Christine Schreiber offered me.

6 JUDGE MORAN: Okay. Production  
7 supervisor, and then you worked in the night shift  
8 initially, and then when did you switch over to  
9 day shift?

10 THE WITNESS: Approximately after --  
11 approximately five months. I honestly can't  
12 remember, to be exact, Your Honor.

13 JUDGE MORAN: Almost half of your time  
14 there you were the night shift person, and then  
15 you became the day shift for the balance of that  
16 time?

17 THE WITNESS: Yes, Your Honor.

18 JUDGE MORAN: Did your title stay the  
19 same, production supervisor?

20 THE WITNESS: Yes.

21 JUDGE MORAN: Still a production  
22 supervisor now. At any time during your entire

1 employment for which you just told me your job  
2 title was essentially the same, production  
3 supervisor. Is that right?

4 THE WITNESS: Yes, Your Honor.

5 JUDGE MORAN: Did you ever receive a  
6 warning, oral or written, from Mr. Spears, that  
7 your job was inadequate?

8 THE WITNESS: No.

9 JUDGE MORAN: Did you ever -- and I said  
10 oral or written. Neither?

11 THE WITNESS: Yes, sir.

12 JUDGE MORAN: Did you ever receive oral  
13 or written a warning from Mr. Tidaback or any  
14 other person in management that you were not  
15 performing your job adequately?

16 THE WITNESS: No, Your Honor.

17 JUDGE MORAN: Were you ever given a  
18 warning that you were in some sort of a probation?  
19 I don't use that term in legal sense, that if your  
20 job performance did not improve you would be  
21 terminated?

22 THE WITNESS: No, Your Honor.

1 JUDGE MORAN: Okay. And that's written  
2 or oral. Never put on notice?

3 THE WITNESS: Never. I was never put on  
4 notice, Your Honor.

5 JUDGE MORAN: And up until the time that  
6 you were discharged, do you have any sense that  
7 you had -- that the management had called to your  
8 attentions deficiencies in the performance of your  
9 job?

10 THE WITNESS: No, Your Honor.

11 JUDGE MORAN: Okay. Go ahead with your  
12 questions, Mr. Baumann. We're going to be very  
13 attentive -- I mean, Mr. Tidaback to the questions  
14 you have to ask right now. Go ahead, sir.

15 BY MR. TIDABACK:

16 Q And Exhibits RE titled 14 April, 2023,  
17 Jesse e-mailed to Markeson regarding miner pay  
18 inquiry.

19 JUDGE MORAN: We have to return to RE  
20 first.

21 MR. TIDABACK: Yes, Your Honor.

22 Actually, RE and -- RE and RF. These both relate

1 to the e-mail chain regarding the miners pay.

2 JUDGE MORAN: RE and RF?

3 THE WITNESS: Yes.

4 MR. TIDABACK: Yes, Your Honor.

5 JUDGE MORAN: And what is the purpose  
6 behind your asking questions of this witness about  
7 this? What is the -- give me what's called a  
8 proffer.

9 MR. TIDABACK: Yes, sir. The question  
10 here has to deal with if Jesse was asking at same  
11 time the same question Mr. Baumann was asking, why  
12 would that be grounds of termination for Baumann  
13 but not Jesse.

14 JUDGE MORAN: That's a question that  
15 cannot be asked. It's improper and something he  
16 can't answer.

17 MR. TIDABACK: Why would he think that  
18 was --

19 JUDGE MORAN: Same problem.

20 MR. TIDABACK: Yes, Your Honor. Then we  
21 get over to regarding alleged interference. The  
22 next question.

1 JUDGE MORAN: Go ahead with your next  
2 question about alleged interference.

3 MR. TIDABACK: Yes, Your Honor.

4 BY MR. TIDABACK:

5 Q Do you have any proof that anyone at  
6 American Tripoli, specifically told you,  
7 specifically Mr. Baumann, that you could not walk  
8 or talk with an MSHA inspector?

9 JUDGE MORAN: Do you understand that  
10 question? Were you told by anyone in management  
11 that you were not allowed to speak to an MSHA  
12 inspector?

13 THE WITNESS: Yes.

14 JUDGE MORAN: When you say proof, his  
15 testimony is the proof. Were you suggesting that  
16 there was a document filed? It depends what you  
17 mean by proof. Do you have any proof? Proof is  
18 that I was -- that he was told he may not talk  
19 with MSHA inspectors. Is that true?

20 THE WITNESS: The exact words were don't  
21 offer any extra information to MSHA inspectors.  
22 Don't offer up any. If they ask you a question,

1 make it short.

2 BY MR. TIDABACK:

3 Q Okay. That's not talking to. That's  
4 additional information. Correct?

5 MS. O'REILLY: I would object to this  
6 line.

7 JUDGE MORAN: I sustain the objection.  
8 Yes. Whether I characterize it as talking to,  
9 he's just explained the restrictions that were  
10 placed upon him by management. That was from Mr.  
11 Spears.

12 THE WITNESS: Mr. Spears and Mrs.  
13 Schreiber and Bonnie Bainter.

14 JUDGE MORAN: His testimony will stand  
15 as to what he was told. Now --

16 MR. TIDABACK: But to clarify, Your  
17 Honor, not talking to and divulging information  
18 not is the same. Correct?

19 JUDGE MORAN: You know what that is,  
20 that's something in a brief that you can argue  
21 that that statement is to be distinguished from  
22 forbidding him from speaking. You can put that in

1 your brief, but not as a question for Mr. Baumann.  
2 Okay?

3 MR. TIDABACK: I'm sorry, what's a  
4 brief?

5 JUDGE MORAN: Mr. Baumann explained the  
6 basis for his belief that there was a restriction  
7 in his speaking with MSHA inspectors. That's his  
8 testimony.

9 MR. TIDABACK: Yes, Your Honor.

10 JUDGE MORAN: Okay. Now, you have tried  
11 to distinguish that as being different from  
12 actually being told the word do not speak to an  
13 inspector. Argue that in your post hearing brief.  
14 I don't know what that shows.

15 MR. TIDABACK: Yes, Your Honor.

16 JUDGE MORAN: But that's something you  
17 can do. Okay. Next question.

18 BY MR. TIDABACK:

19 Q So Exhibit P8 titled screen shot, 2023.  
20 0-7-24, 061236, maintenance chat group.

21 JUDGE MORAN: I have to get to P8 first.

22 MR. TIDABACK: Yes, Your Honor. P8.

1 JUDGE MORAN: P8?

2 MR. TIDABACK: Yes, Your Honor.

3 JUDGE MORAN: We're looking at some  
4 screen shots and what's your question about the  
5 screen shots?

6 BY MR. TIDABACK:

7 Q Who was this message directed at?

8 A Which page are we looking at?

9 Q P8.

10 JUDGE MORAN: It's a one page.

11 MR. TIDABACK: P as in Paul.

12 THE WITNESS: This message was directed  
13 towards Gage Wheeler.

14 BY MR. TIDABACK:

15 Q Okay. So Exhibit P9 titled P9, 14  
16 February, John's message to Gage about MSHA  
17 inspector, and comparing it to the Exhibit RBB,  
18 the time lapse between those, what was occurring  
19 with John Spears at that time of that morning?

20 MS. O'REILLY: Objection, relevancy and  
21 assumes facts not in evidence and calls for  
22 speculation.

1 JUDGE MORAN: Yes. I sustain the  
2 objection. Move on to something else.

3 MR. TIDABACK: Okay.

4 BY MR. TIDABACK:

5 Q In reference to Mr. Baumann's last  
6 testimony stating that his interpretation of the  
7 statement he made is not talking to MSHA  
8 inspectors, how -- how did this terminology impact  
9 your ability to communicate with MSHA inspectors?

10 A It didn't mine.

11 Q Okay. How many times did you walk  
12 around during inspections?

13 A Multiple times.

14 Q Did you walk around with them during  
15 November, February, April inspections?

16 A My participation started in end of  
17 November and December and the beginning of 2023.

18 Q Okay. But anytime during your  
19 employment had the opportunity prevailed itself,  
20 because I know you're busy, you could have walked  
21 with any inspector at any time. Right?

22 A I was never offered to. No.

1 Q Okay. Never offered to.

2 A I never saw an inspector inside the  
3 building until approximately December. I had seen  
4 -- in November I seen one come through. I didn't  
5 physically get close to him or anything like that.  
6 And then whenever everything -- whenever the  
7 inspector showed up, John wasn't there and he  
8 wanted to know why things weren't done, and I was  
9 like, I didn't know anything about it. That's  
10 when I started getting involved.

11 Q So you stated your earliest inspections  
12 were when, that you recall?

13 A To my recollection I started kind of not  
14 being involved, but being to, within, you know,  
15 talking to distance and talking to the inspector,  
16 and I think it was December of 2022 all the way  
17 through February, you know, all the way until my  
18 termination.

19 Q Okay. So if you were talking to them,  
20 let's just say December, if you believe that you  
21 were terminated due to walking around with the  
22 inspectors, why weren't you terminated the first

1 time that you were?

2 MS. O'REILLY: Objection, calls for  
3 speculation.

4 JUDGE MORAN: I sustain that.

5 MS. O'REILLY: I would say a lot of this  
6 is cumulative. He's rehashing testimony that was  
7 gone through in depth.

8 JUDGE MORAN: When you think that's the  
9 case, Attorney O'Reilly, stand up and up object as  
10 just you did.

11 BY MR. TIDABACK:

12 Q So regarding your termination, you  
13 mentioned after your job at American Tripoli, you  
14 quit seven days after not being able to see the  
15 screen with your glasses. Is that correct?

16 A Yes. I didn't understand that question.

17 JUDGE MORAN: Rephrase the question. I  
18 didn't quite grasp it, either.

19 BY MR. TIDABACK:

20 Q Sorry. Maybe this is sticking. You  
21 mentioned at your new job, after American Tripoli,  
22 that you quit after seven days due to you not

1 being able to see the screens and you needed new  
2 glasses. Is that correct?

3 A Yes.

4 Q Did you also mention, in your cross  
5 examination by the Secretary, that you would want  
6 a job back at American Tripoli because you did not  
7 feel that it was safe or any of your concerns  
8 would be taken into consideration?

9 A Yes.

10 Q So you were unhappy at American Tripoli.  
11 Is that correct?

12 A Yes.

13 Q If you were unhappy, why would you stay  
14 for ten months if you're willing to leave a job  
15 that you had for only seven days?

16 A I wasn't able to perform the job that I  
17 took, and I didn't want to waste their time or  
18 mine because I'm pretty passionate about a job,  
19 and --

20 Q Were -- were you planning on quitting  
21 American Tripoli before you were actually  
22 terminated?

1           A       No.

2           Q       Let's see Exhibit RR, 2023, entitled  
3 Robert Baumann, Kansas Claim for Kansas  
4 Unemployment Benefits Form 2023.

5                   MS. O'REILLY: I object, we don't have  
6 an RR in our exhibit notebook.

7                   MR. TIDABACK: Oh, R.R.

8                   MS. O'REILLY: Not double R. R.R. got  
9 it.

10                  JUDGE MORAN: I don't have it yet so  
11 bear with me.

12                  MR. TIDABACK: Yes, sir.

13                  JUDGE MORAN: So the Exhibit is RR?

14                  MR. TIDABACK: Romeo Romeo, Your Honor.

15                  THE WITNESS: Okay.

16                  JUDGE MORAN: I'm not there. Sorry.  
17 Bear with me. Is the first RR, is it called RRB  
18 and then RRC?

19                  MS. O'REILLY: R, Respondent's and R, so  
20 one R after the first R.

21                  MR. TIDABACK: R.R. Romeo dot Romeo.

22                  MS. O'REILLY: Right from RS.

1 JUDGE MORAN: Okay. Thank you. All  
2 right. I found RR, and --

3 MR. TIDABACK: Kansas Claim for  
4 Unemployment Benefits Form?

5 JUDGE MORAN: Yes. This is RR. Why  
6 don't you identify, Mr. Tidaback, what Exhibit RR  
7 is, and then you can ask a question of Mr.  
8 Baumann.

9 MR. TIDABACK: Correct. The document is  
10 the Kansas Claim For Unemployment Benefits Form.

11 JUDGE MORAN: Do you have that form in  
12 front of you, Mr. Baumann?

13 THE WITNESS: Yes, Your Honor.

14 JUDGE MORAN: Do you agree that's what  
15 Mr. Baumann -- Mr. Tidaback says this was, is a  
16 claim for unemployment benefits?

17 THE WITNESS: Yes, Your Honor.

18 JUDGE MORAN: What is your question,  
19 sir?

20 BY MR. TIDABACK:

21 Q Why did you apply for unemployment on  
22 April 16th as noted on the form, which is the day

1 before you were terminated?

2 MS. O'REILLY: Objection, that misstates  
3 the testimony, misstates the document and assumes  
4 facts that are not in evidence.

5 MR. TIDABACK: In the middle of the  
6 form, Your Honor, it actually has it printed. It  
7 says claim effective date.

8 MS. O'REILLY: I'm objecting he's  
9 testifying. If he has a question about this, he  
10 can certainly ask a question.

11 JUDGE MORAN: What you have to do is --  
12 I'm not ruling on the objection at this point.  
13 But here's how you handle it, Mr. Tidaback. Do  
14 you see on the form -- what is the date you're  
15 referring to?

16 MR. TIDABACK: 4-16 which would be the  
17 day before he was terminated by American Tripoli.

18 JUDGE MORAN: Okay. So can you explain,  
19 Mr. Baumann, the references just says BYB.

20 MR. TIDABACK: Yes, Your Honor.

21 JUDGE MORAN: Do you know what that  
22 stands for? I know you're testifying.

1           MR. TIDABACK: I called and asked, and  
2 the lady walked me through the form and told me  
3 the details behind it.

4           JUDGE MORAN: Let me ask the witness,  
5 then. Mr. Baumann, do you know what -- do you see  
6 the date 4-16-23?

7           THE WITNESS: Yes, Your Honor.

8           JUDGE MORAN: Do you know what BYB  
9 stands for, sir?

10          THE WITNESS: No, Your Honor.

11          JUDGE MORAN: Do you know why the date  
12 is 4-16 -- well, first of all, what was the date  
13 that you were terminated, that you received the  
14 notice of termination from American Tripoli?

15          THE WITNESS: 4-17.

16          JUDGE MORAN: So can you explain to me  
17 and to everyone in the hearing room why this claim  
18 is filed the day before you were terminated? Can  
19 you explain that? You have a claim effective date  
20 of 4-16-23.

21          THE WITNESS: Yes, Your Honor. When I  
22 called to file for unemployment there were some

1     questionability about my last day worked because I  
2     didn't -- never received my last paycheck, so I  
3     didn't know whether I had gotten paid for, and it  
4     would be have for 4-14, the Friday previous,  
5     because 4-16 would have been on Sunday and I  
6     wouldn't have been able to call them.

7                 JUDGE MORAN: That's his answer, and  
8     that's all you can ask about that. Move on to  
9     something else. He's provided an answer as to the  
10    date, and that's the end of that.

11                MR. TIDABACK: Yes, Your Honor.

12                BY MR. TIDABACK:

13                Q     With that statement, payroll is ran two  
14    weeks after you worked. Correct?

15                A     Correct.

16                Q     And so payroll would have been, if you  
17    worked, you said, the last pay day was the 17th.  
18    The payroll would have been after the 17th.  
19    Correct?

20                A     Correct.

21                Q     So we wouldn't know or you wouldn't  
22    know.

1 JUDGE MORAN: I'm not going to allow  
2 this.

3 MR. TIDABACK: I'm sorry, I understand.

4 JUDGE MORAN: You have exhausted this.  
5 He's explained, to my satisfaction, by his  
6 testimony to explain that divergence between one  
7 day, the day he was terminated which was 4-17 and  
8 the date that appears to this employment --  
9 employer -- unemployment form, which states the  
10 day before. He's given an explanation to that,  
11 and this is now too far afield for more questions  
12 on that.

13 MR. TIDABACK: That's my last question,  
14 Your Honor.

15 JUDGE MORAN: All right. Thank you.  
16 Does the government have any questions to ask on  
17 redirect?

18 MS. O'REILLY: Yes.

19 JUDGE MORAN: Okay. And Mr. Tidaback --

20 MR. TIDABACK: Yes, Your Honor.

21 JUDGE MORAN: -- pay close attention to  
22 these questions. You will be given an opportunity

1 to ask additional questions but just based on the  
2 questions that Attorney O'Reilly is about to pose.  
3 Okay?

4 MR. TIDABACK: Thank you, Your Honor.

5 REDIRECT EXAMINATION

6 BY MS. O'REILLY:

7 Q Mr. Baumann, just to be clear, you  
8 applied for unemployment after April 17th, 2023.  
9 Correct?

10 A Yes, ma'am.

11 Q And it's your understanding that the  
12 unemployment date of 4-16-2023 refers to that  
13 being the first day of the week where you were  
14 eligible for unemployment benefits?

15 A Yes, ma'am.

16 JUDGE MORAN: Don't ask any more  
17 questions about that. You have already prevailed  
18 on that, Counsel.

19 BY MS. O'REILLY:

20 Q You were never disciplined for failing  
21 to guard machinery. Correct?

22 A No, ma'am.

1           Q       MSHA issued several citations in  
2       February and March of 2023 while you walked around  
3       with MSHA inspectors. Correct?

4           A       Correct.

5           Q       And were you surprised by some of the  
6       things that were cited?

7           A       Yes, ma'am.

8           Q       And was that the first time that you had  
9       realized some of those things were MSHA  
10      violations?

11          A       Yes, ma'am.

12          Q       I'm going to turn to Exhibit P13 and go  
13      to Page 54.

14                 JUDGE MORAN: I have got papers flying  
15      out. P what?

16                 MS. O'REILLY: P13, Page 54.

17                 JUDGE MORAN: Okay. Give me a second.  
18      I'll be right there. 54. Right?

19                 MS. O'REILLY: Yes. Correct.

20                 JUDGE MORAN: Are we on 54?

21                 THE WITNESS: Yes.

22                 JUDGE MORAN: Okay. What is that?

1 BY MS. O'REILLY:

2 Q It's at the bottom of the page you were  
3 talking earlier about removing product from the  
4 floor during MSHA inspection. Correct?

5 A Yes, ma'am.

6 Q And prior to the MSHA citation on this  
7 date, Mr. Spears had told you not to clean up the  
8 product on the floor. Correct?

9 A Correct.

10 Q And your understanding, in fact, was  
11 that this mine had been cited in November for this  
12 same issue, but you were never notified of that  
13 citation?

14 A No, ma'am.

15 Q And so it's your understanding that the  
16 MSHA inspector was telling you to clean it up  
17 because it hadn't been cleaned up since November?

18 A He didn't tell us to clean it up. He  
19 wanted to know why nothing had been done.

20 Q So you were working to terminate the  
21 citation?

22 A Yes, ma'am.

1           Q     And then up above, there was a  
2     discussion about how you did not make the notes  
3     that were requested of you by Mr. Tidaback given a  
4     message from 2-18 on this page, 54.

5           A     Yes, ma'am.

6           Q     And it looks like you were asked to do  
7     this over the weekend. Correct?

8           A     Yes.

9           Q     Were you scheduled to work over that  
10    weekend?

11          A     No, ma'am.

12          Q     Were things ever removed after you  
13    entered things in workplace exams?

14          A     I honestly don't know. The recording --  
15    the printed pieces in the file, some things don't  
16    add up to my recollection.

17          Q     You're not sure if Exhibit P14 we have  
18    been talking about is an accurate reflection of  
19    the workplace exams notes that you made?

20          A     No.

21                MS. O'REILLY: And I will note that P14  
22    had not been admitted as an exhibit. I'll go

1 ahead and move to admit it as an exhibit, just for  
2 clarification of the record.

3 JUDGE MORAN: I think that's a good  
4 idea. Do you have any objection to P14?

5 MR. TIDABACK: No, I don't.

6 JUDGE MORAN: Let me just make a  
7 notation, because I missed P12 I think it was  
8 yesterday. Okay. P14 without objection is  
9 admitted.

10 (Complainant's Exhibit P-14 was  
11 marked for identification and  
12 received in evidence.)

13 BY MS. O'REILLY:

14 Q Now I have you move to Exhibit P40 in  
15 Volume 2. And are you there?

16 A Yes.

17 Q Yesterday it was pointed out the  
18 certification in Box 6. Do you see that? Where  
19 it says fall certification is punishable. And did  
20 you sign in Box 6?

21 A No, I did not sign.

22 Q Whose signature is in Box 6?

1           A       Bonnie Bainter.

2           Q       And it looks like your signature is  
3 under Box 7. Is that correct?

4           A       Yes, ma'am.

5           Q       And above that it just said I verify  
6 that I have completed the above training.  
7 Correct?

8           A       Correct.

9           Q       At the time you signed this, did you  
10 have any idea what new miner training entailed?

11          A       No, ma'am.

12          Q       And did you sign this after receiving  
13 that 30 minute training you were talking about?

14          A       Yes, ma'am.

15               MS. O'REILLY: That's all the questions  
16 I have, Your Honor.

17               JUDGE MORAN: Thank you. Do you have a  
18 few questions based on the limited questions that  
19 were asked by Attorney O'Reilly?

20               MR. TIDABACK: Just one, Your Honor.

21               JUDGE MORAN: Sure.

22

1                   RECROSS EXAMINATION

2                   BY MR. TIDABACK:

3           Q       The Secretary referenced spillage?

4           A       Yes.

5           Q       Is spillage cleaned up?

6           A       Depending on where it was, yes.

7           Q       And as it's cleaned up, does it happen  
8 again?

9           A       Yes.

10          Q       And it happens after you clean it up  
11 again?

12          A       Yes.

13          Q       So it happens all the time. Right?

14          A       Yes.

15          Q       So if we clean it up today and an  
16 inspector comes tomorrow or three days later and  
17 spillage happens between that, it's going to be  
18 there. Right?

19          A       Not in that instance.

20          Q       But it happens all the time. Correct?

21          A       Correct.

22                   MR. TIDABACK: Okay. That's all I have

1 got.

2 JUDGE MORAN: All right. Thank you.

3 MS. O'REILLY: Nothing further.

4 JUDGE MORAN: All right. Mr. Baumann,  
5 thank you for your testimony. My prescription is  
6 that you are not to talk to anyone that applies  
7 until this hearing is over. And that would  
8 include if we have to meet again a few weeks from  
9 now, if we don't wrap this up tomorrow. Okay?

10 THE WITNESS: I have a question about  
11 this. Does that include the Respondent with his  
12 witnesses also, Your Honor?

13 JUDGE MORAN: That's something that, not  
14 you, but the Secretary's attorney can ask. That's  
15 improper for you to ask that, but yes, it's a  
16 blanket prescription for all sides, witnesses  
17 talking with their counsel.

18 THE WITNESS: I just thought of that  
19 yesterday evening, Your Honor. So I didn't know  
20 whether I could do it, but I couldn't talk to them  
21 to have them to ask you, so.

22 JUDGE MORAN: Fair enough.

1 THE WITNESS: Thank you, Your Honor.

2 JUDGE MORAN: All right. So this is for  
3 the benefit of the court reporter. We're going to  
4 break for a minute or two while we get the next  
5 witness ready and just give me a heads up, this  
6 witness will be.

7 MS. O'REILLY: Mr. Gage Wheeler.

8 MS. SMITH: He's ready to go. We can  
9 grab him.

10 JUDGE MORAN: Do you need a break, Madam  
11 Court Reporter?

12 COURT REPORTER: No, I'm fine.

13 JUDGE MORAN: Okay. Thanks. And we're  
14 going to proceed right away with Mr. Gage Wheeler.

15 MS. SMITH: I'll do a microphone test  
16 for the reporter. Okay. Thank you.

17 JUDGE MORAN: Mr. Wheeler, come up here  
18 to the witness stand. Thank you, sir. You have  
19 seen the proceeding. I'm Judge Moran.

20 THE WITNESS: Yes, sir.

21 JUDGE MORAN: Make yourself comfortable  
22 but not too comfortable yet because I have to

1 swear you in first, to remain standing. All  
2 right. We're on the record, Madam Court Reporter?

3 MS. O'REILLY: We need to mike him up.

4 JUDGE MORAN: Tell him, Mr. Heat --  
5 Holt, sorry. There we got. Is that a good  
6 position for that? So you can hear me, Madam  
7 Court Reporter?

8 COURT REPORTER: Yes, I can.

9 JUDGE MORAN: Okay. We're going to  
10 swear in Mr. Gage Wheeler.

11 Whereupon,

12 GAGE WHEELER

13 was called as a witness and, having been first  
14 duly sworn, was examined and testified as follows:

15 JUDGE MORAN: State your name for the  
16 record, please.

17 THE WITNESS: Gage Wheeler.

18 JUDGE MORAN: And please spell it.

19 THE WITNESS: G-a-g-e W-h-e-e-l-e-r.

20 JUDGE MORAN: Have a seat, sir. Go  
21 ahead, Attorney Smith.

22 MS. SMITH: Yes. Thank you. And,

1 Judge, we would ask for somewhat of a protective  
2 order here. We would limit -- we would ask the  
3 Court to not allow any questioning of this  
4 witness' current employer or his home address,  
5 because of this witness' fear of retaliation for  
6 participating in today's hearing, and that these  
7 facts are not relevant to the issues present in  
8 the hearing.

9 JUDGE MORAN: Yes. And I don't have to  
10 hear from the other side on this because the  
11 answer is I do issue such a protective order.

12 MS. SMITH: Thank you.

13 DIRECT EXAMINATION

14 THE WITNESS:

15 Q And, Mr. Wheeler, can you please state  
16 your name for the record.

17 A Gage Wheeler.

18 Q Are you familiar with American Tripoli  
19 in Seneca, Missouri?

20 A I am, indeed.

21 Q How are you familiar?

22 A I'm an current employee there -- or

1 previous, I'm sorry, previous one.

2 Q And what month year did you start  
3 working there?

4 A I believe it was right around  
5 Christmastime when I started.

6 Q Would it be December 26th of 2022?

7 A That sounds fair.

8 Q And what month and year did you leave  
9 American Tripoli?

10 A I do believe it was February maybe,  
11 maybe more, something like that.

12 Q February of 2023?

13 A Sounds fair.

14 JUDGE MORAN: Okay. Sounds fair. Do  
15 you agree?

16 THE WITNESS: Yes, sir, I'm sorry.

17 JUDGE MORAN: All right.

18 THE WITNESS:

19 Q And what was your position at American  
20 Tripoli?

21 A I was a maintenance guy.

22 Q What building did you work in?

1           A       Just the main one right there on the --  
2       right there in Seneca.

3           Q       Would you consider that building called  
4       the mill?

5           A       The mill, yes, ma'am.

6           Q       And what occurred in the mill?

7           A       They crushed the tripoli. Then they run  
8       it through the back house and they put them in the  
9       bags. I mean, that's kind of the general basis of  
10      it.

11          Q       How often did you work in the mill  
12      building?

13          A       Like you mean, like -- well, I worked  
14      there every day, but I mean like Monday through  
15      Friday kind of thing, is that what you're asking?

16          Q       What was your work schedule?

17          A       Monday through Friday. I think I went  
18      through on occasion on Saturday once.

19          Q       And what were the hours that you worked?

20          A       8:00 to 5:00-ish. I got there a little  
21      early, so maybe 7:30-ish, something like that.

22          Q       When you worked at American Tripoli were

1     you a member of a union?

2           A     I was not.

3           Q     Who was your supervisor?

4           A     It would have been John Spears at the  
5     time.

6           Q     What were your responsibilities as the  
7     maintenance person?

8           A     I guess to keep and maintain everything  
9     in working order, the best of my ability.

10          Q     When you were hired, were you the only  
11     maintenance person?

12          A     No, ma'am.

13          Q     Who else was a maintenance person while  
14     you were employed there?

15          A     Bryson Wilkins was his name.

16          Q     Are you related to Bryson Wilkins?

17          A     I am, indeed.

18          Q     And how are you related?

19          A     His daddy is my second cousin. So I  
20     call him Uncle Lonnie, that's his name, and then  
21     Bryston is just my little cousin.

22          Q     And we have learned during this trial

1     that there were two shifts at American Tripoli at  
2     some point of time. What shift were you primarily  
3     working?

4           A     There was no shifts when I was working  
5     there, so I just, just during the day is when I  
6     worked.

7           Q     And how is it -- did you ever work with  
8     your cousin, Bryston Wilkins?

9           A     I did for a couple days.

10          Q     And tell us about some of the work that  
11     you guys would do together.

12          A     Just general maintenance things.  
13     Greasing of the bearings and whatnot. If there  
14     was something that was down and pressing, we'd  
15     work on it.

16          Q     Tell us how it is that Bryston Wilkins  
17     discontinued his employment with American Tripoli?

18          A     So across the street from the mill  
19     there's a garage building there, and the dump  
20     truck driver, and I forget his name, you have to  
21     forgive me, broke one of the garage doors. And so  
22     we went over there to see if we can't figure it

1 out. And so we sit there and we pondered it for a  
2 little bit, you know, and no really good way to  
3 kind of get up there. And I know that Bryston  
4 said something on the Teams messenger to Russell,  
5 and the general consensus was, you know, work with  
6 what you got. Figure it out. That's kind of gist  
7 of it. So my -- I'm sorry.

8 Q So you were tasked to repair an overhead  
9 door. Tell us just how high is this overhead  
10 door?

11 A I think the top of it is about maybe 18  
12 feet.

13 Q Did you have a ladder that would reach  
14 18 feet?

15 A I didn't have a ladder at all.

16 Q Did you request a ladder from a member  
17 of management?

18 A I did not personally.

19 Q And who did?

20 A My little cousin did.

21 JUDGE MORAN: Let me stop. Spell that  
22 person's name. You sort of mumbled the other

1 person that requested the ladder. What is his  
2 name again?

3 THE WITNESS: I said my little cousin.  
4 I'm sorry.

5 JUDGE MORAN: That's okay. Your little  
6 cousin. And again, your little cousin's name is?

7 THE WITNESS: Bryston Wilkins.

8 JUDGE MORAN: Broston?

9 THE WITNESS: Bryston.

10 JUDGE MORAN: Bryston Wilkins. Is that  
11 right?

12 THE WITNESS: Yes, sir.

13 JUDGE MORAN: Okay.

14 BY MS. SMITH:

15 Q And did Bryston or you ever receive a  
16 ladder to perform this work?

17 A We did not.

18 Q And what were you told how you were to  
19 repair the garage door without a ladder?

20 MR. TIDABACK: Is he testifying for  
21 someone else?

22 JUDGE MORAN: No, no. This question is

1 appropriate. She's asking this witness what he  
2 was told. Is that right?

3 MR. TIDABACK: What Bryston was told or  
4 what he --

5 JUDGE MORAN: Well, if you're confused  
6 by the question, that's a different matter. If  
7 the witness is confused by the question, he can  
8 say I don't understand your question. So I  
9 overrule your what is tantamount to an objection.

10 THE WITNESS: Can you repeat the  
11 question, please? I'm sorry.

12 BY MS. SMITH:

13 Q Yeah. When Bryston requested the  
14 ladder, were you working with him on that job?

15 A Yes, ma'am, I was.

16 Q Okay. And you said you never got a  
17 ladder. Is that correct?

18 A No, ma'am, we did not.

19 Q Were you told why you did not receive a  
20 ladder?

21 A There was no reason why we -- we didn't  
22 have one was the reason we didn't get one, so.

1           Q     And how were you told then to repair the  
2     garage door without the ladder?

3           A     We were not told in any way specific to  
4     how to repair the garage door.

5           Q     How did you end up repairing that garage  
6     door that day?

7           A     We got -- I don't remember his name. I  
8     don't remember his name. So we end up getting a  
9     fork truck and a pallet, and by this time Bryston  
10    noped out of the situation. So I got up on a  
11    pallet on a fork truck and they lifted me up and  
12    did my tinkering.

13          Q     And when you said Bryston noped out of  
14    the situation, you're saying?

15          A     He wanted no part of it.

16          Q     Okay. Because -- and did he say why he  
17    did not?

18          A     It's unsafe. I mean, it is what it is.  
19    You know, it's not safe, but.

20          Q     While you were employed at American  
21    Tripoli did you receive any information or  
22    training on the product you were mining and

1 processing?

2 A I did not. I did not receive anything  
3 personally.

4 Q Did you know that Tripoli is made of  
5 mostly silica?

6 A I am aware of that.

7 Q Were you ever given training on silica?

8 A I think there was a little snippet in my  
9 new miners training, but that's it.

10 Q Prior to working at American Tripoli had  
11 you ever worked at a mine before?

12 A I have.

13 Q And tell us when that was.

14 A So in 2018 I do believe it was -- nope,  
15 2016. I'm sorry. That's the Jasper Quarry.

16 Q Based on that experience at Jasper  
17 Quarry, were you familiar with the Mine Safety and  
18 Health Act?

19 A Yeah.

20 Q How long had you worked at American  
21 Tripoli before you got the new miner training?

22 A I think it was approximately maybe --

1 well, so I got pulled -- I got pulled from the  
2 site not very long after I started there, and I  
3 think it was another two weeks before the training  
4 happened. Now, I stayed at the house at that  
5 time.

6 Q So when you started working at American  
7 Tripoli were you put right to work?

8 A Yes.

9 Q And then you said you were pulled from  
10 work. Who pulled you from work?

11 A I do believe his name is -- it's -- he  
12 was meant to be an MSHA guy. Hill is the last  
13 name.

14 Q An MSHA inspector pulled you from work?

15 A Yeah.

16 Q And why did he do that?

17 A I didn't have any new miners training,  
18 of course.

19 Q When -- after you started at American  
20 Tripoli and you were put right to work, were you  
21 being closely supervised by anyone?

22 A No, ma'am.

1           Q     Did you receive any task training from  
2 American Tripoli?

3           A     No, ma'am, I did not.

4           Q     Can you describe any -- any involvement  
5 you had with task training sheets?

6           A     Yeah. So when we -- when we went  
7 through the new miners training the -- even while  
8 the training was happening I had a company laptop,  
9 and I whooped up some just generic, you know, task  
10 training sheets. I had the American Tripoli logo  
11 on the letterhead and then it -- just task  
12 training sheets where you could fill out the task,  
13 your training and then the person doing the  
14 training and the person, you know, performing the  
15 task or whatever. I kind of whooped up some of  
16 those for them.

17          Q     And you created these forms, did you  
18 ever use those forms to document task training?

19          A     We did.

20          Q     Were you ever given any forklift  
21 training at American Tripoli?

22          A     No.

1 Q Did you ever sign a forklift  
2 certification?

3 A I think I did, actually, yeah.

4 Q Did you receive any task training on  
5 welding?

6 A Nope.

7 Q Did you do welding in your job?

8 A Tons of it.

9 Q Did you receive any task training on  
10 lockout/tagout?

11 A No.

12 Q Did you ever perform lockout/tagout at  
13 American Tripoli?

14 A We didn't have any locks.

15 Q When you say you didn't have any locks,  
16 are you saying that American Tripoli did not  
17 provide locks?

18 A No, they did not.

19 Q Did you bring your own logs to perform  
20 lockout/tagout?

21 A Yes.

22 JUDGE MORAN: Okay. You're doing fine

1 in your testimony, but give a pause so the court  
2 reporter cannot have two people speaking at once.  
3 That's great, but you were coming within a  
4 nanosecond of her asking the question. I want the  
5 court reporter to get all of this. All right?

6 THE WITNESS: Yes, sir.

7 JUDGE MORAN: You're doing great.

8 BY MS. SMITH:

9 Q And you can't see the court reporter.  
10 She's appearing virtually, but she is writing all  
11 of this down.

12 And who managed the plant day to day?

13 JUDGE MORAN: That's fine. I didn't  
14 mean a long wait.

15 THE WITNESS: Okay. So Rob kind of  
16 handled the day to day running.

17 BY MS. SMITH:

18 Q And who was responsible for the entire  
19 operation in Seneca?

20 A John.

21 Q John Spears?

22 JUDGE MORAN: Yeah, let's put names.

1 Rob you mentioned a second ago means?

2 THE WITNESS: Robert.

3 BY MS. SMITH:

4 Q Baumann? You mean Rob Baumann?

5 A Yes.

6 JUDGE MORAN: Is there any Rob Bert?

7 THE WITNESS: Robert? Robert.

8 JUDGE MORAN: I get it. You're saying  
9 his full name is Robert.

10 THE WITNESS: Yeah.

11 JUDGE MORAN: Okay.

12 THE WITNESS: I put some bert on. You  
13 said Rob, I said bert, you know.

14 JUDGE MORAN: That's okay.

15 THE WITNESS: I'm sorry.

16 JUDGE MORAN: Robert Baumann and who was  
17 the other person?

18 THE WITNESS: And John Spears.

19 JUDGE MORAN: Let's talk from here on  
20 out, Mr. Baumann, Mr. Spears so we don't get the  
21 Robs and the Johns and all of that mixed up.  
22 Okay?

1 THE WITNESS: Yes, sir.

2 JUDGE MORAN: Thanks.

3 BY MS. SMITH:

4 Q Did you ever interact with Russell  
5 Tidaback in your role as a maintenance person?

6 A Yes, ma'am.

7 Q And tell us about some of those  
8 interactions.

9 A You know, they were -- we kind of varied  
10 from day to day. We had meetings every once in a  
11 while. I think it was every -- every Friday, I  
12 think, in the mornings we had meetings. Phone  
13 calls, Teams messages and things like that.

14 Q Did you work directly with Mr. Tidaback?

15 A I guess in spirit. He wasn't there, if  
16 that's what you're meaning.

17 Q And when you say Mr. Tidaback isn't  
18 there, where is Mr. Tidaback?

19 A I couldn't tell you the whereabouts  
20 where he's at.

21 Q He's not in the plant or the mill on a  
22 day to day basis?

1           A       No, no, no.

2           Q       And so who did you interact on a day to  
3 day basis with in management?

4           A       Mr. Baumann and Mr. Spears.

5                   JUDGE MORAN:   Very good.   Thank you.

6                   BY MS. SMITH:

7           Q       And we've talked a bit during this trial  
8 about Teams chat messages.   Are you familiar with  
9 the Teams chat?

10          A       I am.

11          Q       And were you the member of any Teams  
12 group chats?

13          A       Yes, ma'am.   I was the -- I was part of  
14 the little maintenance one and then the mill one I  
15 do believe.

16          Q       Did you use Teams to communicate to Mr.  
17 Tidaback?

18          A       Yes, I did.   I didn't like it, but I  
19 did.

20          Q       Did you use Teams to communicate with  
21 Mr. Spears?

22          A       Yes.

1           Q     Did you use Teams to communicate with  
2     Mr. Baumann?

3           A     Yes.

4           Q     Did you have any one on one interactions  
5     with Mr. Tidaback?

6           A     In person or on the telephone?

7           Q     Let's start with the phone. Did you  
8     have any telephone calls with him?

9           A     Absolutely.

10          Q     Approximately how many?

11          A     Maybe ten all together, I would say.

12          Q     And now, how many in person interactions  
13     did you have with him?

14          A     Twice.

15          Q     And describe those interactions.

16          A     One time he came down and seemed pretty  
17     nonchalant. I didn't quite understand why he was  
18     there. I think he was there, you know, because of  
19     all the MSHA stuff that was going on, but it was  
20     kind of business as normal so there wasn't much  
21     interactions. How do you do, I'm Russell. I'm  
22     Gage. I'm the feller you hired, stuff like that,

1 and the -- the next time I was whenever I quit,  
2 so.

3 Q And we can talk about your termination  
4 later, but when you quit was the mill currently  
5 shut down?

6 A Yes, it was.

7 Q Okay. And describe your relationship  
8 with Mr. Spears.

9 A In what capacity?

10 Q Your working relationship with him.

11 A Turbulent I guess is the best word I can  
12 use in the company present.

13 Q And why would you say that?

14 A I'm trying to think how to word this,  
15 I'm sorry. I'm sure he's a great feller, but I  
16 don't think he's competent and overall just kind  
17 of ignorant in some aspect. I think that's a fair  
18 word. Ignorant is a fair word.

19 JUDGE MORAN: Those are  
20 characterizations. Let's get down to some brass  
21 tacks, as they say. You said turbulent. I take  
22 it to mean when you use that term, contentious.

1 So there was some friction.

2 THE WITNESS: Yes, sir. That's fair.

3 JUDGE MORAN: Okay. Can you describe  
4 some instances of the friction? I'm sorry,  
5 Attorney Smith, sorry.

6 BY MS. SMITH:

7 Q Go ahead. Can you describe some of  
8 those, you know, either turbulent interaction or  
9 friction between the two of you?

10 A Yeah. So it was my understanding that I  
11 was hired to perform a job, you know. That I have  
12 -- that I, in my opinion, some qualification to  
13 do, and from a man that I don't think has any  
14 qualifications. You know, the past ones that I  
15 do, it was a lot of going back and forth between,  
16 you know, what we should do, what we should not  
17 do, and there was even an instance wherever I was  
18 working on piece of equipment and when I was  
19 telling them how to fix it, so they brought in an  
20 outside electrical contractor and they told him  
21 the same thing that I was telling them. Yet they  
22 paid them \$1200 bucks or whatever to tell them the

1 same thing I said.

2 JUDGE MORAN: So you had disagreements  
3 about how to accomplish certain tasks in terms of  
4 your maintenance?

5 THE WITNESS: Yes, sir.

6 JUDGE MORAN: Were there other instances  
7 when you had disagreements with him about your job  
8 doing maintenance?

9 THE WITNESS: Yeah.

10 JUDGE MORAN: Can you give us just  
11 another example of where there was a disagreement  
12 between you as that to how a task you were  
13 supposed to do was to be performed?

14 THE WITNESS: I'm sorry, I lost you  
15 there.

16 JUDGE MORAN: Probably too long. Tell  
17 me about other disagreements that the two of you  
18 had about how to do your job.

19 THE WITNESS: Okay, yeah. So there was  
20 also some instances when we had a big job doing a  
21 -- there's a bucket elevator. A drag is what you  
22 normally call it. There was disagreements back

1 and forth on how that job should be completed, you  
2 know. It eventually got done to -- in a safe  
3 manner, but the first ideas coming from that man  
4 was not -- it wasn't jelling.

5 BY MS. SMITH:

6 Q Was it your understanding that Mr.  
7 Spears had to get approval from Mr. Tidaback in  
8 order to make certain repairs that you were  
9 recommending?

10 A Yeah, I do believe so.

11 Q And why do you say that?

12 A Because it's -- you know, in my opinion,  
13 I guess John wasn't really running anything. He  
14 had to get permission to do anything.

15 JUDGE MORAN: Did he ever say to you I  
16 have to check with Russell Tidaback about this?

17 THE WITNESS: Yes, sir.

18 JUDGE MORAN: He informed you that  
19 directly, that he had to check with Mr. Tidaback?

20 THE WITNESS: Yes, sir. I think the  
21 actual words he used was I have to get approval.

22 JUDGE MORAN: Okay.

1 BY MS. SMITH:

2 Q In your role as maintenance were you  
3 able to keep up with the number of maintenance  
4 requests?

5 A I tried. It was rough. It really was.  
6 I tried my best, but.

7 Q If he needed parts to repair a piece of  
8 equipment, describe the process you had to follow.

9 A So in the beginning I would go to John  
10 and say, hey, you know, we need this part for  
11 whatever reason, and it was okay. And then I  
12 would disengage from that, and then I assume he  
13 had to put that forward into -- either into Teams  
14 or in front of Russell, and then the part would  
15 arrive, you know, within a couple of days most of  
16 the time.

17 Q Were your requests for parts always  
18 approved?

19 A No.

20 Q Can you think of a time where you  
21 requested a part and it did not get approved?

22 A Yeah. So I was working on the bagger,

1 and there was a part that's been obsolete for  
2 quite some time. And I did some digging, did some  
3 research and I tracked down something that might  
4 have worked, but it was a little on the costly  
5 side. And as far as -- in beginning John wasn't  
6 even going to send it to Russell. So -- and then  
7 after, you know, me kind of pestering, like, you  
8 know, you want this running, we need this part and  
9 it was -- it was probably about a week back and  
10 forth before it ever got put in front of you, you  
11 know, Russell.

12 JUDGE MORAN: What was the outcome? Was  
13 the part eventually purchased and it was  
14 installed?

15 THE WITNESS: Yes, sir.

16 JUDGE MORAN: By you?

17 THE WITNESS: Yes, sir.

18 JUDGE MORAN: Did it work?

19 THE WITNESS: No, sir.

20 JUDGE MORAN: It didn't work after you  
21 installed it?

22 THE WITNESS: No. The bagger itself did

1 not run. The part that I installed did work.

2 JUDGE MORAN: Okay.

3 BY MS. SMITH:

4 Q Do you recall a time when you requested  
5 from Russell Tidaback to order filters for the  
6 bagger?

7 A I said that they need to be changed.

8 Q And were those new filters ever ordered?

9 A No, they never were when I was there.

10 Q Were you told why they weren't being  
11 ordered?

12 A John said they were really expensive, so  
13 that's why that we weren't going to order them.

14 Q Were those filters ever ordered?

15 A No. Not while I was there, and if they  
16 were, why was there -- I was never told about it.

17 Q Did you work with Mr. Baumann on a daily  
18 basis?

19 A I did.

20 Q Describe some of the interactions you  
21 had with Mr. Baumann at work.

22 A I mean, business as normal in the

1 mornings, you know. We might cut it up later in  
2 the mid-day area if we weren't, you know, too  
3 terribly busy, but pleasurable interactions  
4 normally all the way around for the most part.

5 Q What type of employee was Mr. Baumann  
6 when you worked with him?

7 A I'll tell you he's a pretty decent one.

8 Q Did he do the work that was asked of  
9 him?

10 A The best of his ability what he got to  
11 work with, yes, ma'am.

12 Q What does that mean, the best of his  
13 ability --

14 A If the --

15 Q Sorry, hold on. I just want to make  
16 sure the record is clear because we'll need this  
17 transcript later. Can you explain what you mean  
18 by the best of his ability with what he had to  
19 work with?

20 A So if the plant is not running, you  
21 know, he's kind of at a lull, you know. But if  
22 the plant is running, I mean, his job was to

1 manage his people. So I think, you know, he did  
2 -- you know, his people didn't really give him  
3 the, you know, I guess, the due and proper that a  
4 supervisor had, I guess, so you kind of had to  
5 ramrod him a little bit, but the plant is running.  
6 I think he did his job adequately, from what I  
7 seen.

8 Q Did he show up on time?

9 A He was actually the one that started the  
10 plant every day. The mill, I should say. He came  
11 in there, turned everything on, you know. I mean,  
12 I got there at the same time he did, but, you  
13 know.

14 Q Did he have a good attitude?

15 A For the most part.

16 Q And tell us about, you know, what you  
17 mean by the most part.

18 A You know, a couple things he would get  
19 riled up on, you know. Nothing negative. I mean,  
20 there was some safety concerns he'd get kind of  
21 riled up or get kind of irritated or fed up with  
22 some of the stuff we had to deal with day to day.

1           Q     And you mentioned something about  
2     safety. Did Mr. Baumann care about safety?

3           A     I would say so.

4           Q     Did he express any safety concerns that  
5     he had to you?

6           A     Yeah, sure did.

7           Q     And can you give us an example?

8           A     One was the dryer downstairs. It was  
9     leaking gas real bad. Real bad. I mean, to the  
10    point, you know, you were a smoker, you know, the  
11    whole place might go up. It was really bad.  
12    There was, on the other couple of floors, there  
13    was some rotten spots in the floor that got  
14    brought up to me. Just kind of overall, you know,  
15    rust, sharp things, you know, about. Just kind of  
16    in general. I mean, you know, kind of a walking  
17    tetanus shot in there.

18          Q     Mr. Baumann, was he responsible for  
19    fixing any of those concerns that he brought to  
20    you?

21          A     No. No, it was my responsibility.

22          Q     And was he, you know, allowed or

1 permitted to perform these maintenance tasks?

2 A Not by himself. It's, you know, he was  
3 more than willing to help if, you know, it was  
4 asked of him, I guess, but he wasn't supposed to  
5 do it by himself, no.

6 Q So in your experience, he would help  
7 occasionally with maintenance?

8 A Uh-huh. There's a couple welding jobs  
9 that I did in there that, you know, calling him my  
10 rod guy. You know, can you hand me a rod or  
11 whatever. He'll go plug in an extension cord or  
12 something like that for me.

13 Q In working with Mr. Baumann, could Mr.  
14 Baumann have performed any of the welding tasks  
15 that you performed?

16 A No, and I don't think Rob knows how to  
17 weld.

18 Q What about any of the electrical work?

19 A No, no, not at all.

20 Q In your working with Mr. Baumann, was he  
21 a good leader?

22 A From what I seen. I mean, he wasn't

1 directly my boss, but I thought he was pretty  
2 fair.

3 Q In working in the mill did you have an  
4 understanding of what Mr. Baumann's responsibility  
5 was as to a production demand each day?

6 A Run that one again. Sorry.

7 Q Sure. And just working in the mill,  
8 were you aware that Mr. Baumann of a production  
9 quota or demand or goal that he had each day?

10 A Yeah. So there was a call out for  
11 demand for so many tons or so many bags, I do  
12 believe, so.

13 Q Do you know what that number was?

14 A Not off the top of my head. I'm sorry.

15 Q Do you know if Mr. Baumann ever was  
16 successful in achieving that goal?

17 A More times than not, but not to -- not  
18 to his phone thing, but mill wasn't running.

19 Q You said the most times the mill was?

20 A Wasn't.

21 Q Okay. And why wasn't the mill running?

22 A Something was wrong with it. The bagger

1 was broke down or this was wrong, or the, you  
2 know, we were -- you know, most of the time we  
3 were shut down from whatever agency, you know,  
4 whether it be MSHA, the National Department of  
5 Natural Resources or the cops, for that matter.

6 Q You're saying that the mill would be  
7 shut down by either I think the police department,  
8 the Missouri Department of Natural Resources or  
9 MSHA?

10 A Yes.

11 Q And is it your testimony that those  
12 shutdowns would have affected Mr. Baumann's  
13 ability to meet the production demands?

14 A Yeah.

15 JUDGE MORAN: Can you -- okay. Right.  
16 It's shut down. The point is, you can't make  
17 production if the mill was shut down.

18 THE WITNESS: Yeah. Yeah, I guess I  
19 would -- yeah.

20 BY MS. SMITH:

21 Q Did you ever complain to anyone about  
22 Mr. Baumann?

1           A       I don't think so.

2                   MS. SMITH:   Okay.   And Your Honor, we  
3   have an exhibit, I think it's P43.

4                   JUDGE MORAN:   Okay.   Let's get that up.  
5   P43.

6                   MS. SMITH:   Yes.   This Exhibit P43  
7   starts in binder 2.   It goes on to binder 3, but  
8   we only need to look at binder 2.

9                   JUDGE MORAN:   Okay.   So identify for me,  
10   Attorney Smith, the -- is this exhibit, the  
11   transcript of the testimony of Russell Tidaback on  
12   January 22nd, 2024?

13                   MS. SMITH:   Yes.   This exhibit is a  
14   deposition transcript that's been certified of Mr.  
15   Russell Tidaback taken for this case.

16                   JUDGE MORAN:   Okay.

17                   MS. SMITH:   We would move to admit this  
18   exhibit as an admission by a party opponent and as  
19   a deposition taken in this case that's available  
20   to be used for any purpose under Federal Rule of  
21   Civil Procedure 32.

22                   JUDGE MORAN:   Any objection to the

1 admission of your deposition, Mr. Tidaback?

2 MR. TIDABACK: If I actually understood  
3 what all that meant I would have to say maybe, but  
4 I don't contest it.

5 JUDGE MORAN: All Right. I didn't hear.

6 MR. TIDABACK: I don't know what  
7 everything she meant that she just said, so I have  
8 to assume that it's correct, so yes. I have no --  
9 no objections.

10 JUDGE MORAN: Okay. But you're not  
11 challenging -- I understand what you just said  
12 about the completeness of her reasons, but I take  
13 it you agree that this accurately reflects --

14 MR. TIDABACK: Yes, Your Honor. JUDGE  
15 MORAN -- by Alpha Reporting  
16 and Video your deposition on January  
17 22nd?

18 MR. TIDABACK: Correct, Your Honor.

19 JUDGE MORAN: I will admit Exhibit P43.  
20 And while -- I've got four minutes here before I  
21 have to leave. You'll hear my alarm go off, but  
22 you're going to stay put. Let me just say

1 everyone can stretch and relax when we take this  
2 brief pause, but as I have told the previous  
3 witness, Mr. Baumann, and all witnesses that will  
4 testify, you can't talk with counsel or anyone  
5 else in this proceeding. You're going to have to  
6 just be quiet and during breaks, and even when you  
7 finished your testimony, you're not to be in touch  
8 with any of the witnesses in this case, counsel  
9 for the Secretary of Labor, any of the three of  
10 them. Okay? Until you are informed that the  
11 proceeding has concluded, which may not even be  
12 this week. All right. You understand all that?

13 THE WITNESS: Yes, sir, I really do.

14 JUDGE MORAN: Okay. Good. Thanks. I  
15 have a question just to fill a second here. When  
16 you talk about the garage door incident and  
17 eventually a forklift and a pallet involved for  
18 you to get up there and you felt it was unsafe.  
19 Is that right?

20 THE WITNESS: Yes, sir.

21 JUDGE MORAN: Okay. I lost whether,  
22 were you helping some other business across the

1 street or was this part of the mine property?

2 THE WITNESS: I do believe it's owned by  
3 American Tripoli.

4 JUDGE MORAN: Okay. But -- and so were  
5 you ever told you had no business being over there  
6 trying to help repair this door?

7 THE WITNESS: No. I never was. No, I  
8 mean, I was -- John actually said, hey, why don't  
9 you-all go over there and take a gander. See what  
10 you guys can do.

11 JUDGE MORAN: Okay. But you're not sure  
12 if it was American Tripoli proper in the mill  
13 operation. It was something across the road?

14 THE WITNESS: Yes, it was.

15 JUDGE MORAN: Not part of your normal  
16 duties?

17 THE WITNESS: No, no.

18 JUDGE MORAN: I just want to make sure I  
19 understood that. Go ahead with a few more  
20 questions. I want to use up as much time as  
21 possible here.

22

1 BY MS. SMITH:

2 Q Sure, Mr. Wheeler, Mr. Tidaback  
3 testified in his deposition that you did not like  
4 Mr. Baumann and that you believed he was lazy.  
5 Did you ever express to anyone that you did not  
6 like Mr. Baumann and that you believe he was lazy?

7 A No, ma'am.

8 Q Mr. Tidaback testified that you said Mr.  
9 Baumann did not help you with maintenance. Did  
10 Mr. Baumann help you with maintenance?

11 A Yes, he did. I just expressed an  
12 example of one time we did.

13 Q And how would you describe Mr.  
14 Tidaback's attitude towards safety?

15 A I don't think that there was an attitude  
16 for it nor against it. I think the politician,  
17 you know, saying like it's our number one  
18 priority, but I would experience different. I  
19 mean, neither for nor against it is about as fair  
20 as I can be.

21 JUDGE MORAN: Neutral.

22 THE WITNESS: Yes.

1 BY MS. SMITH:

2 Q You previously testified about some  
3 jagged edges. Were you referring to guarding?

4 A No, I'm -- everything that's in there is  
5 just jagged, you know. The handrails, you got to  
6 be careful with them handrails, you slice your  
7 hand open on those. Short bits and bobs around  
8 every corner. Just in general.

9 Q On the equipment, were there guards  
10 along the points where mill associates could come  
11 in contact with moving parts?

12 A Are you asking if there's guards there  
13 or was there supposed to be?

14 Q Were there guards there while you worked  
15 there?

16 A Not all of them.

17 Q Were some guards missing?

18 A Yes, ma'am.

19 Q Did you ever have any safety meetings at  
20 American Tripoli?

21 A I don't believe we did.

22 Q What personal protective equipment were

1 employees required to wear?

2 A I mean, it was kind of -- you know, your  
3 own preference, I guess, is kind of the vibe of  
4 it. If you had gloves, wear them. If you didn't,  
5 well, then, you're out of luck, you know. I did  
6 see some face masks, but I don't know where they  
7 were located and I think the --

8 JUDGE MORAN: Go ahead. I have two more  
9 minutes.

10 BY MS. SMITH:

11 Q Were you concerned about your safety at  
12 the mill?

13 A Yeah. Overall, I would say.

14 Q You mentioned dust masks, but you said  
15 you didn't know where they were available to --

16 A No. There was a little break room. I  
17 think the mill guys kept them in the drawers in  
18 there. I think they were going to use them. I  
19 don't know if they were or not. I know that there  
20 was talk about, you know, there wasn't enough or  
21 we were out one day or something or another, so I  
22 never had one on.

1 Q Do you know whether Mr. Baumann ever  
2 raised safety concerns to John Spears?

3 A Do I know if he did?

4 Q Yes.

5 A I wouldn't know if he did or didn't.

6 Q You were not involved in any of those  
7 conversations?

8 A No.

9 Q Do you ever recall a time that John got  
10 frustrated, yelled or raised his voice?

11 A In general or to a person?

12 Q To John Spears.

13 A Yeah, multiple times.

14 MS. SMITH: Okay. And if you want we  
15 can talk about, we can start at that topic when  
16 you're back.

17 JUDGE MORAN: That sounds good. Okay.  
18 So this is for the benefit of the court reporter.  
19 Are you there?

20 COURT REPORTER: Yes, I'm here.

21 JUDGE MORAN: Okay, good. We're going  
22 to take a break. I don't think it will be maybe

1 even less than ten minutes. Everyone is asked to  
2 stand by. I'm going to be making that call as  
3 soon as we stop. So anyone is free to use the  
4 restroom, whatever, just don't talk with anybody.  
5 Okay? Marcel Marceau. You know that person, the  
6 mime that doesn't talk. That's what you're all to  
7 be. Okay. Thank you.

8 (Recess)

9 JUDGE MORAN: We're going to go back on  
10 the record. We're back on the record. Go ahead,  
11 Attorney Smith.

12 MS. SMITH: Thank you.

13 BY MS. SMITH:

14 Q Prior to our break, Mr. Wheeler, you  
15 testified that there were times that Rob got  
16 frustrated and yelled. Is that correct?

17 A Yes, ma'am.

18 Q Is that better?

19 THE VIDEOGRAPHER: Did you hear the  
20 question?

21 COURT REPORTER: Yes, I believe I did.  
22

1 BY MS. SMITH:

2 Q And in these situations you observed,  
3 was Rob getting frustrated and raising his voice  
4 regarding any safety concerns at the mill?

5 A Yeah.

6 Q Can you describe one of those instances?

7 A It wasn't really my business, but I will  
8 hearsay that I did overhear some of it. You know,  
9 it was, you know, for the bag houses and all the  
10 dust was kind of the number one hot thing that was  
11 kind of argued about, you know. Is, you know, it  
12 was Rob's, you know, we can't run it with blowing  
13 dust like that, and John saying, well, you know,  
14 we can. And that's kind of his deal. Well,  
15 ultimately, you know, someone has got to win, so  
16 sometimes it was, you know, we ran but Rob didn't  
17 like it and other times, you know, it was pretty  
18 headstrong and we didn't run. There was one point  
19 in time where, you know, it was blowing dust  
20 pretty good, and I was like, you know, we need to  
21 shut down here. Then we have a chance to get it  
22 looked at here. Maybe there's something I can do,

1     you know, so.

2           Q     So some of the times that you heard of  
3     Rob get frustrated, yell or raise his voice had to  
4     do with dust in the mill?

5           A     Yeah. So yeah, there was that one time  
6     that I heard it, yeah.

7           Q     Do you recall any inspections by the  
8     Mine Safety and Health Administration while you  
9     were employed at American Tripoli?

10          A     I missed the first part of that  
11     question. I'm sorry.

12          Q     Do you recall any inspections by the  
13     Mine Safety and Health Administration, also MSHA,  
14     while you were employed at American Tripoli?

15          A     Yeah. I was, the first one where I got  
16     withdrew from the site, and then there was another  
17     one after I returned to the site, and then there  
18     was a third one that they brought them, the  
19     electrician MSHA inspector, so a total of three, I  
20     reckon.

21          Q     And in any of those inspections did you  
22     walk around with the MSHA inspector?

1           A       So the first one I did not. I withdrew  
2       from the site. The second one I did walk around  
3       with the MSHA inspector and also with the  
4       electrician guy.

5           Q       And in that third inspection where you  
6       walked around with the electrician guy, was Mr.  
7       Baumann also walking around during that  
8       inspection?

9           A       I don't know if he was -- well, I think  
10      he was with us on the latter half of that  
11      inspection. The first half I don't believe so.  
12      The second inspection with Mr. Baumann was there  
13      the whole time on that one. The electrician one,  
14      I think he was there on the latter half of the  
15      inspection, but I think that's right.

16          Q       And on that third inspection with the  
17      electrical person, was Mr. John Spears walking  
18      around during that inspection?

19          A       Uh-huh.

20                   JUDGE MORAN: You have to answer yes or  
21      no.

22                   THE WITNESS: Yes, sir, or yes, ma'am.

1 JUDGE MORAN: I have been called worse.

2 BY MS. SMITH:

3 Q After the inspection or before any  
4 inspection were you ever given any instruction by  
5 Mr. Spears about what to do during an MSHA  
6 inspection?

7 A Steer clear is what he said to me.

8 Q And how did you receive that message?

9 A Verbally at first.

10 JUDGE MORAN: How did you receive it,  
11 meaning how did you take that?

12 BY MS. SMITH:

13 Q Well, how did you receive the message  
14 steer clear? Was it in person?

15 A Yeah, verbal.

16 JUDGE MORAN: I'm sorry I talked over.  
17 What was your answer?

18 THE WITNESS: Verbally is what I said.

19 BY MS. SMITH:

20 Q And that came from Mr. Spears?

21 A Yeah. Yes.

22 Q Did you ever have a phone call involving

1 Mr. Tidaback about what to do during an MSHA  
2 inspection?

3 A Yes, I did.

4 Q And tell us about that.

5 A Kind of, you know, over generic, you  
6 know, play ball. Do what they say. Don't get  
7 involved if you don't have to. Things like that.

8 JUDGE MORAN: Let me just ask one  
9 question because I -- maybe because I trampled  
10 over yours. How did you take the instruction?  
11 When someone says to you steer clear, what does  
12 that mean to you?

13 THE WITNESS: Don't talk to them. Don't  
14 interact with them. Don't engage with them in any  
15 way, shape or form.

16 JUDGE MORAN: Okay.

17 BY MS. SMITH:

18 Q Were you ever given that message more  
19 than one time while you worked at American  
20 Tripoli?

21 A Yes, I was.

22 JUDGE MORAN: By whom?

1 THE WITNESS: John Spears.

2 BY MS. SMITH:

3 Q After MSHA inspectors pointed out  
4 problems, were you involved in correcting those  
5 problems, sometimes called terminating the  
6 citation?

7 A Yes, I was.

8 Q Did you ever mock up a fix to get a  
9 citation terminated?

10 JUDGE MORAN: Did you ever what?

11 BY MS. SMITH:

12 Q Mock up or kind of display that the  
13 citation had been fixed or terminated when maybe  
14 it really hadn't?

15 A Oh, yeah. I get your meaning, but yes,  
16 for the most part.

17 JUDGE MORAN: Well, I'm confused.  
18 You're saying that you didn't really fix something  
19 but told them that it was fixed?

20 THE WITNESS: No, sir, that's not the  
21 term here that was being used.

22

1 BY MS. SMITH:

2 Q So explain what you mean.

3 A So it was -- it was more or less along  
4 the lines that, so we would do something that was  
5 -- that was worthy of taking a picture, but it  
6 served no real purpose of doing anything.

7 Q So to terminate an MSHA citation you  
8 would take a photograph of the fix?

9 A I did not.

10 Q Okay. Who took these photographs?

11 A John did. John Spears did.

12 Q And then when you -- you know, I used  
13 the work mock up. Is there another word that  
14 would make sense?

15 A That -- jimmy rig, but.

16 Q So are you -- were you involved in any  
17 jimmy rigging of a -- correcting an MSHA citation  
18 in order to show that it was terminated?

19 A Yes.

20 Q And who told you to jimmy rig this kind  
21 of solution?

22 A John did.

1 Q Okay.

2 JUDGE MORAN: John?

3 THE WITNESS: Spears.

4 BY MS. SMITH:

5 Q Did Mr. Tidaback ever express to you his  
6 opinion of MSHA?

7 A Yes.

8 Q What was it?

9 A Overall, you know, dissatisfied. I  
10 mean, kind of the general consensus of any  
11 government entity, you know. Kind of, you know,  
12 they're just kind of just -- you know, I think  
13 negativity is too strong of a word, but distaste.  
14 There we go. I like that word.

15 Q I want to have you turn to an exhibit.

16 MS. SMITH: And if I may, Your Honor,  
17 may I approach to help the witness find the  
18 exhibit?

19 JUDGE MORAN: Yes, you may.

20 MS. SMITH: Thank you. We are going to  
21 turn to Exhibit P9.

22 JUDGE MORAN: Everyone on P9?

1 BY MS. SMITH:

2 Q And P9 has previously admitted. And Mr.  
3 Spears, do you recognize P9?

4 A I'm sorry?

5 Q Sorry. Mr. Wheeler, do you recognize  
6 what's being depicted here in P9?

7 A It looks like a Teams chat.

8 Q And you previously testified, did you  
9 use the Teams chat feature in your job?

10 A Yes, I did.

11 Q Okay. And if we look here, do you see a  
12 message from John Spears to you about not talking  
13 to MSHA? It's dated February 14th of 2023.

14 A The very top one, yes, I see it there.

15 Q And do you recall receiving this  
16 message?

17 A I do.

18 Q And what did you take this message to  
19 mean?

20 A As the exact same way as I got the  
21 verbal message of steering clear. You know, don't  
22 interact with them. Don't -- just stay away. Let

1 me handle it.

2 Q And on February 14th of 2023 was MSHA  
3 on-site performing an inspection?

4 A Yes.

5 Q And then the response to this message,  
6 does it list a name? It says unknown user. Do  
7 you recognize this response?

8 A Yeah, that's what I said.

9 Q The unknown user is you?

10 A Yes, it is.

11 Q Gage Wheeler.

12 A Yeah, because that's the -- that's odd.  
13 It says unknown user. That's what I said, though.

14 Q And who else -- you can see at the top  
15 it says part of that Teams chat group. Who else  
16 is in this Teams chat group?

17 A It looks like -- looks like just John  
18 Spears and me. Hang on. Hang on. So the best  
19 way to approach this. This is Russell said in  
20 response.

21 Q The blue message?

22 A The blue ones.

1           Q     You recognize the blue messages that are  
2     kind of on the right-hand side justified as the  
3     messages from Mr. Russell Tidaback?

4           A     Yes.

5                   JUDGE MORAN:   And how do you know that?

6                   BY MS. SMITH:

7           Q     And yeah, how do you recognize these  
8     messages as from Mr. Tidaback?

9           A     I remember the conversation in my mind,  
10    because so I'm going to read it right here.   Hang  
11    on.   I remember the conversation.   I don't know  
12    how else to best explain that.

13          Q     You remember those messages, and so when  
14    you remember participating in Teams chat and  
15    messages would come from Mr. Tidaback, was there  
16    some indication that would tell you who they were  
17    from?

18          A     Yeah.   Just the JS for John Spears, mine  
19    was a GW and then his was actually a picture of  
20    him, you know, and it will say, you know, RT.

21                   JUDGE MORAN:   So when I'm looking at P9,  
22    you saw this on your phone or something?

1 THE WITNESS: Yes, sir.

2 JUDGE MORAN: And it looked a little  
3 different from this because it would be more  
4 identifying information?

5 THE WITNESS: Yes, sir.

6 JUDGE MORAN: Okay. But do you recall  
7 apart from that, this blue -- blue encased text,  
8 you say -- I didn't need you to affirm or  
9 reaffirm, that that blue text was from Mr.  
10 Tidaback?

11 THE WITNESS: Yes, it was.

12 JUDGE MORAN: Okay.

13 BY MS. SMITH:

14 Q And this first message from you that's  
15 about in the middle of the page, where it says  
16 unknown user, 2-14 at 11:11 a.m., it states "There  
17 was no volunteering information." Do you see  
18 that?

19 A I do see that.

20 Q Why did you say no volunteering  
21 information?

22 A Because they told me don't be

1 volunteering any information to them. Don't be  
2 telling them stuff.

3 Q Why was it important to communicate to  
4 this group that you weren't volunteering  
5 information?

6 A Well, because I feared it. If not, I  
7 would get canned.

8 Q You were afraid that you would be  
9 terminated for volunteering information to MSHA?

10 A I would assume. That's kind of the word  
11 of the world, isn't it?

12 Q Well, I mean, was it at American  
13 Tripoli?

14 A From what I've heard, that's kind of the  
15 gist of it. And also, I will say this, I mean, I  
16 really was not, you know, voluntarily giving any  
17 information, anyway. I was simply asking  
18 questions so I could do my job.

19 Q Did you ever receive any kind of  
20 clarifying information after this exchange about  
21 what you were permitted to do during an MSHA  
22 inspection?

1           A       I remember -- I don't see it here. Let  
2 me --

3                   JUDGE MORAN: It doesn't have to be on  
4 this particular page.

5           A       I remember a transaction that Ms. Jordan  
6 sent me after I was told, you know, there was,  
7 don't be giving that information. Actually, it  
8 said don't talk to him is what it said, and then I  
9 called -- crawdad is what I called it. She got on  
10 there, she's like, of course, summed it up.  
11 Obviously we don't need to talk to them but don't  
12 be giving out information. That's kind of the  
13 gist of it.

14           Q       And what did you take that message from  
15 Ms. Jordan Tidaback?

16           A       That was a crawdad move. That was a  
17 collateral damage control I like to call that one.

18           Q       Can you just explain what a crawdad move  
19 is?

20           A       When you say something but then you back  
21 pedal a little bit like I didn't mean that in the  
22 sense, you know.

1           Q     Do you know during your time at American  
2 Tripoli if everyone -- anyone had ever called MSHA  
3 to make a complaint?

4           A     Yes.

5           Q     Do you know if Mr. Tidaback ever figured  
6 out who made that complaint?

7           A     I don't know if he did or didn't. I  
8 can't speak to that necessarily.

9                   JUDGE MORAN: Okay. Be careful here  
10 now. Okay. We don't want any identifying  
11 information of someone who might have made a call.  
12 Okay?

13                   BY MS. SMITH:

14           Q     As a maintenance person, did you ever  
15 receive the necessary support to comply with the  
16 MSHA standards?

17           A     Necessary support.

18           Q     The tools, equipment, training, things  
19 of that such.

20           A     So tool, the tool aspect of it, were,  
21 you know, they were subpar. They were -- not  
22 really. I'll just say not really just in general.

1 We were needing material to make guards. We  
2 didn't go buy material so they had me cutting  
3 apart some older guards to make some new ones.  
4 Even still that wasn't enough to completely  
5 satisfy the citation we were getting.

6 Q And when you say they wouldn't buy the  
7 material you needed to make the guards, who is  
8 that?

9 A So they made a decision, you know, John  
10 Spears and Russ.

11 Q When MSHA was not on-site, was it a  
12 priority at American Tripoli to comply with the  
13 MSHA standards?

14 A What do you mean by that?

15 Q When MSHA was not there, were there  
16 active conversations or steps in your role to  
17 ensure that the mill was complying with the MSHA  
18 standards?

19 A So in my experience there, if MSHA was  
20 not on-site we would -- we would try to run. That  
21 was kind of the thing of it. Now, whether --  
22 whether or not someone knew if that was going on

1 or not, that was the game plan for the day was to  
2 run even though we weren't supposed to.

3 JUDGE MORAN: And by run, you mean  
4 produce?

5 THE WITNESS: Yes, sir.

6 BY MS. SMITH:

7 Q When you say not supposed to run, what  
8 do you mean by that?

9 A We were told not to run, either by the  
10 police department or the Department of Natural  
11 Resources or MSHA. You know, we were told not to  
12 run because, you know, the dust issue or what have  
13 you.

14 Q And you said that there were times that  
15 you were running the mill anyway?

16 A Yeah, there was.

17 Q And who decided to run the mill anyway?

18 A John did. John, Mr. Spears did.

19 Q In your work with Mr. Baumann, did Mr.  
20 Baumann try to make the mill safer?

21 A I think he wanted to. He had no  
22 capacity to do so, because he didn't have, you

1 know, any resources given to him, but he did voice  
2 his opinion about trying to make it a little  
3 better, you know, and I remember a conversation I  
4 had with, you know, with him one time. He was  
5 like, can I use a quote?

6 JUDGE MORAN: If you can quote him  
7 accurately.

8 THE WITNESS: I can. This shit is not  
9 worth dying for.

10 JUDGE MORAN: Well, we've heard words  
11 like already like this in this proceeding. We're  
12 all calm with that.

13 THE WITNESS: Okay. Well, I didn't  
14 know.

15 BY MS. SMITH:

16 Q That's a quote from Mr. Baumann?

17 A Yes, ma'am.

18 Q Said to you?

19 A Yes, ma'am.

20 Q Did you have any concerns with Mr.  
21 Baumann's job performance?

22 A I didn't.

1           Q     You testified earlier that the police  
2     department, are you -- the Seneca Police  
3     Department?

4           A     Yes, ma'am.

5           Q     They came to the mill and told the mill  
6     not to run?

7           A     Can I use another quote?

8                     JUDGE MORAN:    Sure.

9                     THE WITNESS:    They said if you-all  
10    continue to run I'm taking every one of you son's  
11    of bitches to jail, end quote.

12                    BY MS. SMITH:

13          Q     And were you there when they said that?

14          A     I was.

15          Q     And what was your response to that?

16          A     Kind of laughed at them.

17          Q     And in these occasions before Mr. Spears  
18    instructed you to run anyway, what steps did you  
19    take? Were there any steps that you guys took to  
20    run the mill without -- even though the police had  
21    asked you not to?

22          A     Not that the particular time. They

1     ain't got no say over that.

2           Q     You mentioned earlier that you had  
3     interacted with several MSHA inspectors. Is that  
4     correct?

5           A     Yes.

6           Q     Do you recall their names?

7           A     The electrician feller, I do not know  
8     his name but one was Randy Hill.

9           JUDGE MORAN: Randy Hill?

10          THE WITNESS: Hill, H-i-l-l, I do  
11     believe is how you spell it.

12          JUDGE MORAN: Okay.

13          THE WITNESS: And then the feller, the  
14     inspector that told me, I don't remember his name.

15          JUDGE MORAN: So you only remember one  
16     of the three names?

17          THE WITNESS: Yes, sir.

18          JUDGE MORAN: Okay. But there were two  
19     other MSHA inspectors that you had interaction  
20     with?

21          THE WITNESS: Yeah. Total of three,  
22     yes, sir.

1 BY MS. SMITH:

2 Q Mr. Hill, the electrical person and then  
3 the person that pulled you from being untrained.  
4 Correct?

5 A Yes.

6 Q And did those inspectors act  
7 professionally?

8 A Yeah. So the one that pulled me, I  
9 didn't have much interaction with him but he  
10 seemed to be all right. He seemed to really care  
11 about us. The second, middle one, not the  
12 electrician one, he kind of seemed really by the  
13 book. He wasn't fun to talk to. He didn't really  
14 care to carry on a conversation. He seemed to be  
15 all about business, and the electrician one, he  
16 seemed pretty pleasant.

17 Q Did an MSHA inspector ever threaten to  
18 have the marshals come?

19 A If that threat was made it wasn't made  
20 to me.

21 Q Were you ever afraid of any MSHA  
22 inspectors?

1           A     Like physically?

2           Q     In any way. Did you fear the MSHA  
3 inspectors?

4           A     No.

5           Q     Do you know if any of the mill  
6 associates expressed to you that they were afraid  
7 of the MSHA inspectors?

8           A     I do believe, I want to say his name,  
9 give me just a second. I think Jimmie. I don't  
10 know his last name. Jimmie might have said  
11 something to me about it, and then trying to go  
12 through the list. So there's Jimmie, there's R.J.  
13 and then there's -- I can't remember his name.

14               JUDGE MORAN: But your testimony right  
15 now is about anyone who might have had concern  
16 about MSHA inspectors. That's what you're  
17 answering.

18               THE WITNESS: There's the two and I'm  
19 trying to remember the other name.

20               JUDGE MORAN: That's okay. If you can't  
21 remember, you can't remember. A couple people at  
22 the mine, employees expressed to you that they had

1 concern about MSHA inspectors?

2 THE WITNESS: Yes.

3 BY MS. SMITH:

4 Q Mr. Tidaback testified in his deposition  
5 that you got very angry with MSHA with how the  
6 inspectors were acting toward you and John. Did  
7 you ever get angry about the MSHA inspectors?

8 A I never got angry with me, you know,  
9 while, no.

10 MS. SMITH: And then I would like to ask  
11 the Court to look at Exhibit P39, which are  
12 discovery responses in this case. It's in exhibit  
13 notebook 2.

14 JUDGE MORAN: With uncharacteristic  
15 speed I'm at P39. You tell us, Mr. Wheeler, when  
16 you're there.

17 MS. SMITH: And I will just ask the  
18 court, we're going to move to admit this exhibit  
19 as discovery in this case and an admissions by a  
20 party opponent.

21 JUDGE MORAN: Any objection? Okay.

22 Thank you.

1 MR. TIDABACK: I don't object, Your  
2 Honor.

3 JUDGE MORAN: P39 is now admitted.

4 MS. SMITH: Thank you.

5 (Complainant's Exhibit P-39 was  
6 marked for identification and  
7 received in evidence.)

8 BY MS. SMITH:

9 Q And Mr. Wheeler, Mr. Tidaback responded  
10 to discovery in this matter that you had a history  
11 of being confrontational during MSHA inspections.  
12 Were you ever confrontational during MSHA  
13 inspections?

14 A I have a history of them?

15 Q You have a history of what?

16 A That's what I'm trying to ask. I have a  
17 history of them?

18 Q Yes. That is the testimony I'm asking  
19 you about. Have you ever been confrontational  
20 during an MSHA inspection?

21 A No, I have not.

22 JUDGE MORAN: Never been controversial

1 or contentious with MSHA inspectors. That's your  
2 answer?

3 THE WITNESS: No, sir, I'm not.

4 JUDGE MORAN: Okay.

5 THE WITNESS: I didn't know what the  
6 term history.

7 JUDGE MORAN: It means ever.

8 THE WITNESS: I have only him for a few  
9 months.

10 JUDGE MORAN: Well, I don't know, but if  
11 he says a history, that means from day one to the  
12 last day you worked. That's called a history. We  
13 have a history of this hearing. It's two days so  
14 far. Okay.

15 THE WITNESS: No, sir. No, I have not  
16 had a history or any of the like.

17 JUDGE MORAN: No confrontation?

18 THE WITNESS: No, sir.

19 BY MS. SMITH:

20 Q And Mr. Wheeler, you --

21 JUDGE MORAN: Excuse me, you have an  
22 objection, Mr. Tidaback?

1 MR. TIDABACK: I'm trying to figure  
2 where in the exhibit does it states that Mr. Gage  
3 or that I say that.

4 MS. SMITH: It's in Interrogatory No. 2.  
5 I didn't ask the witness to read it. It's not his  
6 statement. It came from the company, but it is in  
7 the Interrogatory 2.

8 MR. TIDABACK: She stated that I stated  
9 he stated or he has. That's what I am a looking  
10 for where it states that.

11 MS. SMITH: Interrogatory No. 2  
12 response.

13 MR. TIDABACK: Thank you.

14 BY MS. SMITH:

15 Q Mr. Wheeler, you quit your job at  
16 American Tripoli. Is that correct?

17 A I did.

18 Q Can you describe the circumstances that  
19 led to your resignation?

20 A Yeah. I kind of got overall just fed up  
21 with it, the constant, you know, barrage is a term  
22 I used from the MSHA shutdowns and stuff like

1 that. I got overall tired of it, and it kind of  
2 seemed like a pattern is, I guess, you know what  
3 I'm saying, you know, and I didn't want to ride it  
4 out, so.

5 MS. SMITH: Thank you. We don't have  
6 any other questions for this witness.

7 JUDGE MORAN: Okay. So we're going to  
8 -- it's 12:24. Let's see if we can soldier on and  
9 finish this witness. All right. So ahead.  
10 Everyone health wise okay to continue? I don't  
11 hear any objection. You okay, Mr. Holt? How's my  
12 court reporter doing?

13 COURT REPORTER: I'm fine.

14 JUDGE MORAN: Okay.

15 THE VIDEOGRAPHER: Yes, she's fine.

16 JUDGE MORAN: She did respond. That's  
17 what you're saying. Okay. Go ahead, Mr.  
18 Tidaback, with your questions of Mr. Wheeler.

19 CROSS-EXAMINATION

20 BY MR. TIDABACK:

21 Q How's it going, Gage? How are you  
22 doing?

1           A       Are we done with this?

2                   JUDGE MORAN:   You can open or close it.

3   It doesn't matter.   I don't know.   Just be ready.

4                   THE WITNESS:   Okay.

5                   BY MR. TIDABACK:

6           Q       Given the circumstances of your  
7   departure, your quitting, do you believe that you  
8   can provide an unbiased account of the conditions  
9   of practices at the mine, including Mr. Baumann's  
10   employment and job performance, a fair one?

11          A       Can you dumb it down for me.

12          Q       Yes, sir.   So in your short time that  
13   you worked there, less than 60 days.   Correct?

14          A       I think it was right around, yeah.

15          Q       Do you believe that you have enough  
16   experience and unbiased account, unbiased account  
17   of the conditions and practices, including Mr.  
18   Baumann's performance?

19          A       I would like to correct myself.   So  
20   around December to February.   That's like three  
21   months.   That's not 60 days.

22                   JUDGE MORAN:   Okay.   But his question is

1 very basic. What he is asking, and you can tell  
2 me if I have this wrong, Mr. Tidaback, he's just  
3 saying given that you were there a relatively  
4 short period of time and that you departed, you  
5 quit, you weren't fired. Right?

6 THE WITNESS: Yes.

7 JUDGE MORAN: You quit.

8 THE WITNESS: Yes.

9 JUDGE MORAN: He's asking if short time  
10 and that you quit, can we consider your testimony  
11 to still be fair and honest and not biased against  
12 American Tripoli?

13 THE WITNESS: Yeah, absolutely. I have  
14 been nothing but I think fair since I was there.

15 JUDGE MORAN: You asked his opinion  
16 about fairness and he says yes, I believe I can be  
17 and have been fair in my testimony. Is that  
18 right?

19 THE WITNESS: Yes, sir.

20 JUDGE MORAN: You don't have an axe to  
21 grind or get even?

22 THE WITNESS: No, I don't.

1 JUDGE MORAN: Okay.

2 THE WITNESS: I quit. He didn't do  
3 nothing to me. I quit, you know.

4 JUDGE MORAN: Okay.

5 BY MR. TIDABACK:

6 Q So during that time you were still  
7 learning your job, the whole process, the mill,  
8 because it's not something easy. Correct?

9 A No, sir.

10 Q In that short period of time. So in  
11 that time, evaluating somebody else's performance,  
12 not as their supervisor, would be very difficult.  
13 Right?

14 A That's correct.

15 Q Okay. So, again, as that limited time  
16 that you were at the mill, in certain and the  
17 specific circumstances of your employment  
18 departure, learning the mill, which is very  
19 difficult, is it -- how are you able to evaluate  
20 the overall conditions and practices of the mill  
21 if you were still learning your job?

22 A Because I got eyes.

1           Q     Right. I understand that. But as far  
2 as what you're putting out in the court today, you  
3 were still learning it. Correct?

4           A     Come on, brother.

5           Q     Hey, I'm with you.

6                   JUDGE MORAN: Let's keep it civil now,  
7 folks.

8                   BY MR. TIDABACK:

9           Q     Okay. So when you first started, you  
10 know, your initial employment period, the company,  
11 we advanced you a thousand dollars?

12          A     Absolutely you did.

13                  MS. SMITH: Judge, we're going to object  
14 to this line of questioning. It's not relevant to  
15 the issues that we have here today in front of us,  
16 regarding discrimination.

17                  JUDGE MORAN: I tend to agree. What is  
18 the relevance of your -- of even mentioning that,  
19 and he agreed before the objection that you  
20 advanced him a thousand dollars. Why should I  
21 care about that?

22                  MR. TIDABACK: Mr. Gage was important to

1 us being the maintenance person --

2 JUDGE MORAN: Yes.

3 MR. TIDABACK: -- in that position, so  
4 we wanted to ensure that we had that maintenance  
5 person.

6 JUDGE MORAN: Okay.

7 MR. TIDABACK: Very critical, very  
8 difficult to get as Mr. Gage pointed out. We  
9 needed his experience. He was important to have  
10 to us just as Mr. Baumann --

11 JUDGE MORAN: How does that help me  
12 decide this case, that you needed him and you gave  
13 him a thousand dollars?

14 MR. TIDABACK: We went out of our way  
15 that we wouldn't have done for anybody else to  
16 make sure that Mr. Gage was taken care of. So we  
17 were trying to protect Mr. Gage. We wanted him,  
18 we needed him. We went out of our way.

19 JUDGE MORAN: I'm not going to allow  
20 that question.

21 MR. TIDABACK: Okay. Yes, Your Honor.

22

1 BY MS. SMITH:

2 Q So when you decided to leave the  
3 company, you didn't give a formal notice or  
4 communicate that your intentions directly until  
5 after you sought -- or after you found out that  
6 you couldn't communicate in Teams. Correct?

7 A No. I had a correspondence and I think  
8 I texted or messaged, you know, John or I can't  
9 remember how I expressed the response, but yes, I  
10 did let somebody know.

11 Q Okay. Looking back -- okay. So talking  
12 about your interactions with MSHA.

13 A Okay.

14 Q Do you remember our conversations about  
15 the electrical lights in the maintenance room? Do  
16 you remember that?

17 A Yeah. They didn't have the guards on  
18 them, the light bulbs.

19 Q The bulbs, then. Correct?

20 A Well, some of them didn't have bulbs.  
21 Are you talking about the long ones?

22 Q Yes. The one long.

1 A Or the actual screw in bulb ones?

2 Q The ones you guys had to all replace.

3 A Yeah.

4 Q Remember that conversation?

5 A I do.

6 Q Remember the conversation where you were  
7 talking about the inspector going out of his way,  
8 being ridiculous, there's no way anybody can get  
9 hurt from that light fixture?

10 A The ones that --

11 JUDGE MORAN: Let's just back it up. Do  
12 you remember having a conversation where you  
13 asserted that the inspector said there was no  
14 possible hazard?

15 MR. TIDABACK: That he communicated to  
16 me that there was no way anybody could get --

17 JUDGE MORAN: All right. Did you say  
18 that to Mr. Tidaback, that there was no way anyone  
19 could get hurt by that light fixture issue?

20 THE WITNESS: Yeah, I did say because  
21 they weren't hooked up, yeah.

22 JUDGE MORAN: They weren't. The

1 electricity was not running through them?

2 THE WITNESS: No.

3 JUDGE MORAN: Is that why you said  
4 there's no way anyone can get hurt?

5 THE WITNESS: Yes.

6 JUDGE MORAN: So he said yes. He had  
7 that conversation with you.

8 BY MS. SMITH:

9 Q So when you were talking about that day  
10 -- back to the MSHA. When the MSHA inspector was  
11 -- I'm trying to remember our conversation -- that  
12 was issuing that citation, you communicated with  
13 me, is it correct that you communicated with me  
14 that he was overboard and being, I don't remember  
15 the terminology used, but?

16 A Anal retentive is the word I used.

17 Q Thanks. You remember the conversation?

18 A Yes, I do.

19 Q So in that you were frustrated and angry  
20 at that inspector for going overboard, I'm trying  
21 to remember your terms, overboard for issuing that  
22 citation?

1           A       I never said anything to the inspector.

2           Q       No, no, to me.

3                   JUDGE MORAN: We have an objection, but.

4           MS. SMITH: I'm objecting it was  
5   misstating the testimony. He testified that he  
6   thought the inspector was anal retentive, and then  
7   Mr. Tidaback characterized the testimony as  
8   frustrated or angry. And so the word he testified  
9   that he found the MSHA inspector anal retentive.

10           JUDGE MORAN: Okay. Let me see if I can  
11   clear this up. My understanding, Mr. Wheeler, is  
12   that MSHA issued a citation connected with the  
13   light issue, and your disagreement with him was,  
14   let me see if I have this right. You can tell me  
15   if I got it wrong. Tell me if I'm wrong. It  
16   wasn't that there wasn't a violation, but you had  
17   an issue about, because it wasn't hooked up, that  
18   you felt no one could be hurt. Is that right?

19           THE WITNESS: Yes, sir.

20           JUDGE MORAN: All right. Go ahead, Mr.  
21   Tidaback.

22

1 BY MS. SMITH:

2 Q Okay. So that morning that the --  
3 Andrew Lawson from the quarry pit, you remember  
4 the dump truck driver. Okay?

5 A Okay.

6 Q Okay. And that morning, what was going  
7 on with Andrew and John?

8 A The only thing I know that happened was  
9 the other feller, he got arrested.

10 Q Correct. So this is referencing to P9  
11 in the book where John's -- if we go to P9.

12 JUDGE MORAN: You're going to have to  
13 explain to me first. What is the purpose --  
14 remember, last I checked I'm being a little  
15 humorous here, this is about Mr. Baumann.

16 MR. TIDABACK: That is correct.

17 JUDGE MORAN: So I need you to explain,  
18 maybe a proffer to me about the purpose of asking  
19 this witness about some other employee who was  
20 arrested on a given date. What's the purpose of  
21 this line of questioning?

22 MR. TIDABACK: P9 references to the

1 message where John sent Mr. Gage the message about  
2 don't speak to -- don't -- I don't remember the  
3 exact terminology that it was in the text message,  
4 but don't speak with MSHA. That relates to what  
5 was going on with John.

6 JUDGE MORAN: Now you're testifying. So  
7 you're saying that the context of the remark from  
8 Mr. Spears to Mr. Wheeler --

9 MR. TIDABACK: Yes.

10 JUDGE MORAN: -- occurred in the context  
11 of a person being arrested at your property?

12 MR. TIDABACK: That is correct.

13 JUDGE MORAN: And did you understand --  
14 do you remember, first of all, a remark from --  
15 from Mr. Spears about not talking with MSHA, if  
16 that was limited to the idea of this arrest that  
17 was going on? Is that how you took that message?

18 THE WITNESS: No, sir.

19 JUDGE MORAN: And why did you not take  
20 it as so limited?

21 THE WITNESS: I think he said it was  
22 happening on the same day. I'd have to get -- I

1 don't think it was happening on the same day, and  
2 I know for a fact those lights weren't happening  
3 on the same day that old boy got arrested. And so  
4 I know that the first MSHA inspector, I don't  
5 think it was happening on the same day.

6 JUDGE MORAN: Okay. Let me just make  
7 sure I understand your testimony in this regard as  
8 well. If we assume for the sake of argument that  
9 the remark by Mr. Spears was, this is for the sake  
10 of argument, was limited to this arrest situation.  
11 Am I correct in my recollection that there were  
12 other instances from Mr. Spears communicating to  
13 you in one fashion or another to keep your head  
14 low and not say don't volunteer information to  
15 MSHA inspectors. Is that correct?

16 THE WITNESS: That's what was said.

17 JUDGE MORAN: Okay. So it wasn't just  
18 this one instance, however it occurred, in the  
19 context of someone being arrested. There were  
20 other instances?

21 THE WITNESS: Sure.

22 JUDGE MORAN: Sure.

1 THE WITNESS: I don't know, Your Honor.

2 JUDGE MORAN: What?

3 THE WITNESS: What's the question?

4 JUDGE MORAN: Okay. When Mr. Spears, my  
5 understanding is on other occasion he asked you to  
6 not volunteer information to MSHA inspectors. Is  
7 that true?

8 THE WITNESS: He did say that.

9 JUDGE MORAN: Okay. Go ahead. Do you  
10 have any other questions about this, because I  
11 think we're really afield with this. If you try  
12 to say the context is limited to the arrest, if  
13 you want to point me to the -- within your tying  
14 up the arrest, this is just -- we're really going  
15 down a cul-de-sac on this.

16 MR. TIDABACK: Without testifying, Your  
17 Honor --

18 JUDGE MORAN: We'll wait until some  
19 testimony. Have Mr. Spears explain that actually  
20 he kind of liked MSHA, and I'm being humorous  
21 here, but I kind of liked MSHA and his remark was  
22 only meant in the context of this arrest issue.

1 He can testify to that. I'll listen to that.

2 MR. TIDABACK: Great, Your Honor.

3 JUDGE MORAN: Okay. Next question, if  
4 any.

5 BY MS. SMITH:

6 Q If MSHA asked you something you would  
7 answer it. Right?

8 A Yes.

9 Q So you walked around with MSHA  
10 inspectors. Correct?

11 A I did.

12 Q Numerous times or the three times that  
13 you said, I guess?

14 A Twice.

15 Q You are correct. And you weren't  
16 terminated for any of those anytime?

17 A Terminated saying you fired me?

18 Q Terminated for participating in those  
19 inspections.

20 A No, I wasn't fired.

21 Q Okay. So okay. When you talk about the  
22 jagged equipment, were those recorded -- did you

1 record those in the workplace maintenance blog,  
2 workplace exam?

3 A I did not.

4 Q Okay. When you were talking about  
5 ladders and safety, did you request that in teams  
6 or the safety concern, the daily workplace exams,  
7 the maintenance lists, the requests?

8 A As I stated early, I did not request a  
9 ladder on that specific date. Bryston did, of  
10 course, you know. I did not put it in Teams or  
11 anything like that. We need one. You know, come  
12 to it was something we need one, can we get one.

13 Q Could there have been one or multiple  
14 ladders in the mill?

15 A Could there have been? If there was,  
16 nobody knew where they were at.

17 Q On all four floors?

18 JUDGE MORAN: He knew of no ladders.  
19 Okay.

20 BY MS. SMITH:

21 Q So you had previous experience as a  
22 miner, you stated. Right?

1           A       Yes.

2           Q       So you would be considered an  
3 experienced miner?

4           A       I wouldn't say -- experienced miner, I  
5 never did any mining. Like I've never been  
6 underground doing mining, but I work at a mining  
7 industry.

8                   MS. SMITH: Your Honor, we will just  
9 object to the phrase experienced miner. Has a  
10 very particular --

11                  JUDGE MORAN: I know it does. I know it  
12 does. He's answered and clarified that. We're  
13 not saying that he had experienced miner training  
14 or anything along that line. Okay. Go ahead, Mr.  
15 Tidaback. Is that about it?

16                  MR. TIDABACK: That's it, Your Honor.

17                  JUDGE MORAN: Do you have any redirect?

18                  MS. SMITH: No, we have no further  
19 questions of this witness.

20                  JUDGE MORAN: So your testimony is  
21 concluded. I have to say that when I called you a  
22 character, that was meant as a compliment. It

1 means that you're alive and you have a  
2 personality. I like that.

3 THE WITNESS: Riveting, some would say.

4 JUDGE MORAN: Riveting. That's an  
5 appropriate term for mechanics. You deal with  
6 rivets all the time.

7 THE WITNESS: Yeah.

8 JUDGE MORAN: Okay. Nice to meet you.  
9 You're not to talk with anyone until you hear this  
10 hearing has ended, which may not even be this  
11 week. All right. Thank you for your testimony,  
12 sir.

13 THE WITNESS: You're welcome.

14 JUDGE MORAN: Okay. What's up next?

15 MS. O'REILLY: We're going to call Mr.  
16 Carson Allman.

17 JUDGE MORAN: Okay.

18 MS. O'REILLY: I have this on mute,  
19 sorry, and then we have a form for you.

20 JUDGE MORAN: Yes. Thank you.

21 MS. O'REILLY: Your Honor, if we may  
22 just while we're all here, Mr. Wheeler, can you --

1 Mr. Wheeler, we're going to give him the witness  
2 fee forms. We need to give him the form for  
3 appearing.

4 JUDGE MORAN: Don't go, Mr. Wheeler.  
5 They want to give you something.

6 MS. SMITH: So you can get reimbursed  
7 under the subpoena. We just don't want anyone to  
8 think we're doing anything untoward.

9 MS. O'REILLY: And I think Mr. Wheeler  
10 may have a question for you, Your Honor. Did you  
11 want to ask him?

12 THE WITNESS: I was going to go sit  
13 down, if that's all right.

14 JUDGE MORAN: No, I think we like you  
15 and everything and you're a pleasant person, but  
16 I'm trying to think if there's a reason why you  
17 can't observe the rest of the proceeding, if you  
18 wish.

19 MS. O'REILLY: He's already testified.  
20 We would not call him on redirect. We don't have  
21 a purpose for Mr. Wheeler after his testimony  
22 today.

1 JUDGE MORAN: Do you have any objection,  
2 Mr. Tidaback, to him staying in the hearing today?

3 MR. TIDABACK: Yes, Your Honor. I don't  
4 know if we would be recalling Mr. Wheeler, so I  
5 can't say that.

6 JUDGE MORAN: You might be recalling him  
7 as an adverse witness on your case in chief?

8 MR. TIDABACK: I don't know at this  
9 point until we have the other testimony.

10 JUDGE MORAN: Okay.

11 MS. O'REILLY: He's not listed on the  
12 Respondent's witness list.

13 MR. TIDABACK: It actually states  
14 anybody that the Secretary called.

15 JUDGE MORAN: Yes. Are we still on the  
16 record here or are we off the record?

17 COURT REPORTER: We're still on the  
18 record.

19 JUDGE MORAN: Okay. Thank you. Well,  
20 see, the problem with that is I don't -- I don't  
21 see a basis that you could recall this witness.  
22 You had an opportunity, a full opportunity to ask

1 him questions about his limited testimony. But  
2 when you talk about calling him, you had an  
3 opportunity to and I'll give you one even right  
4 now. If you believe there are other areas that  
5 you wanted to have him testify about, but I think  
6 it's fundamentally unfair to sort of hold him here  
7 or let him stay if he wants to. I understand the  
8 question about he would hear other testimony and  
9 that could cause a problem, but I don't -- I don't  
10 see a basis for you to legitimately call him back  
11 as a witness given that you've had an opportunity  
12 to cross examine him about his testimony. Is  
13 there some independent grounds that you would need  
14 to call him as a witness?

15 MR. TIDABACK: Without knowing the  
16 testimony of others, I wouldn't know if I would  
17 need his testimony as well.

18 JUDGE MORAN: Well, I hate to be  
19 unfriendly, but I don't want to -- and I think if  
20 this was error on my part it would not be  
21 reversible error in my decision, but I'm afraid  
22 I'm going to have ask you, even though it's very

1 unlikely that you would be called back, I'm going  
2 to exceed to Mr. Tidaback's request that you not  
3 stay in the hearing room.

4 THE WITNESS: That means yes or no?

5 JUDGE MORAN: That means you can go. It  
6 means you can't stay.

7 MS. O'REILLY: Thanks.

8 JUDGE MORAN: Take care in your travel.

9 MS. O'REILLY: Can you go get Carson.

10 JUDGE MORAN: So we're on the record?  
11 Aren't we still?

12 COURT REPORTER: Yes, we are.

13 JUDGE MORAN: So give me the name of  
14 this next witness again?

15 MS. O'REILLY: Carson Allman.

16 JUDGE MORAN: U-l-l-m-a-n?

17 MS. O'REILLY: A-l-l-m-a-n, yes.

18 JUDGE MORAN: And is he on your witness  
19 list?

20 MS. O'REILLY: Yes.

21 JUDGE MORAN: Identified as Carson  
22 Allman?

1 MS. O'REILLY: In our -- we submitted  
2 two days before specifically identifying the  
3 miners.

4 JUDGE MORAN: You understand the reason  
5 for that, Mr. Tidaback?

6 MR. TIDABACK: Yes, Your Honor.

7 JUDGE MORAN: So that's fine, and this  
8 is Mr. Carson Allman who's right here? Okay. And  
9 here's the dilemma. We're coming up a quarter to  
10 1:00. Can you give me, not a hard, but a general  
11 estimate of how long his testimony will last? I'm  
12 deciding whether to have lunch.

13 MS. O'REILLY: It's very similar to Mr.  
14 Wheeler's. Probably in the 30 to 40 minute time  
15 range.

16 JUDGE MORAN: Okay. So I'll ask, I have  
17 asked Mr. Holt. I want to ask the court reporter  
18 and Mr. Tidaback and his daughter, do you want to  
19 go forward? I can do it, but if you want to take  
20 a break and meet back at -- in 45 minutes. What's  
21 your wish?

22 MR. TIDABACK: I'm good, Your Honor,

1 with whatever your decision is.

2 JUDGE MORAN: How about you? How are  
3 you hanging in there?

4 THE VIDEOGRAPHER: Very good. I'm along  
5 for the ride.

6 JUDGE MORAN: How about my trusty court  
7 reporter, Ms. Blackerby?

8 COURT REPORTER: Whatever is fine. I'm  
9 fine with anything.

10 JUDGE MORAN: No fainting on us. Right?

11 COURT REPORTER: No.

12 JUDGE MORAN: For lack of food or  
13 whatever. Then we're to proceed. All right?  
14 Thank you, Ms. Blackerby. How is my marshal  
15 doing? You okay, too?

16 THE MARSHAL: Whatever you want me to  
17 be, Your Honor. That's the joy of my services.

18 JUDGE MORAN: Okay. Thank you. Are we  
19 ready to begin? Mr. Allman, I'm Judge Moran.  
20 Would you stand, please, raise your right hand.  
21 Whereupon,

22 CARSON ALLMAN

1 was called as a witness and, having been first  
2 duly sworn, was examined and testified as follows:

3 JUDGE MORAN: Sit down, state your name  
4 and spell it for the record, please. And I want  
5 you -- you seem soft spoken. I want you to not be  
6 soft spoken. Speak up. Okay?

7 THE WITNESS: Okay. Carson Allman.  
8 C-a-r-s-o-n A-l-l-m-a-n.

9 MS. O'REILLY: And again, Your Honor, we  
10 ask for the same protective order to limit any  
11 testimony into Mr. Allman's current employment or  
12 his home address.

13 JUDGE MORAN: Absolutely. That's  
14 granted. Protective order.

15 MS. O'REILLY: Thank you.

16 DIRECT EXAMINATION

17 BY MS. O'REILLY:

18 Q And, Mr. Allman, can you state your name  
19 again?

20 A Carson Allman.

21 Q How are you familiar with American  
22 Tripoli in Seneca, Missouri?

1           A       I worked there from September 13th to  
2   November, doing maintenance.

3           Q       And you said September 13th, is that of  
4   2022?

5           A       Yes.

6           Q       And then through November of 2022?

7           A       Yes, ma'am.

8           Q       And you said that you were in  
9   maintenance?

10          A       Yes.

11          Q       And was -- what building did you work  
12   in?

13          A       The mill mostly. Did some stuff in the  
14   offices, but most of it, the time was in the mill.

15          Q       And who was your supervisor?

16          A       John Spears.

17          Q       What was your typical work schedule?

18          A       It was supposed to be 8:00 to 4:00, but  
19   depending on equipment and stuff like that, most  
20   of the time I wasn't getting out of there until  
21   about 8 o'clock, so.

22          Q       8 o'clock in the evening?

1 A Yes, ma'am.

2 Q What were your responsibilities as the  
3 maintenance person?

4 A Keep the machines running. And towards  
5 the end of it, a lot of it was doing repairs as  
6 needed for the MSHA citations.

7 Q When you were hired were you the only  
8 maintenance person?

9 A No. There was a feller working there  
10 before me. His name was Jesse Hodges, I believe.

11 Q And what happened to Mr. Hodges?

12 A He was fired.

13 Q At some point were you the only  
14 maintenance person while the plant was running?

15 A Yes.

16 Q And when you were the only maintenance  
17 person, how many shifts were running at the plant  
18 at that time?

19 A There was two shifts that they had  
20 employees coming in for, but they were only  
21 running on second shift, for the most part.

22 Q And you were the maintenance person

1 covering that shift?

2 A Yeah.

3 Q Did you receive any information or  
4 training on the product that was being milled?

5 A Yeah.

6 Q And did you know that Tripoli is made  
7 mostly of silica?

8 A Yes.

9 Q Did you receive any training on the  
10 hazards related to silica?

11 A No.

12 Q Prior to working at American Tripoli had  
13 you ever worked at a mine before?

14 A No. That was my first time.

15 Q How long had you worked at American  
16 Tripoli before you got the new miner training?

17 A Probably just about a month, if not a  
18 little bit over a month.

19 Q When you were hired, did you start  
20 working right away?

21 A Yeah.

22 Q Were you being closely supervised by

1 anyone during your work prior to getting your MSHA  
2 new miner training?

3 A John Spears would come out every now and  
4 again just to kind of check up and see how things  
5 were going, but that was just about it.

6 Q No one was closely supervising you  
7 during your entire time you were working prior to  
8 your new miner training?

9 A No. Mostly just when John Spears would  
10 come out to check up on how we were doing.

11 Q We're going to talk about your new miner  
12 training. Do you recall the entity that provided  
13 your new miner training?

14 A I think her name was Peggy.

15 Q Do you know what organization Peggy was  
16 with?

17 A I do not.

18 Q Okay. And was that training done in  
19 person?

20 A Yes.

21 Q Did Mr. Tidaback ever tell you anything  
22 about what to say or do with Peggy, the trainer?

1           A       Mostly just not to tell any stories  
2       about the mill itself to the inspectors.

3           Q       Did Mr. Tidaback tell you that in  
4       person?

5           A       Yes.

6           Q       Did you receive any task training while  
7       working at American Tripoli?

8           A       No. Just kind of got told what needed  
9       to get done and started work on what they wanted  
10      me to.

11          Q       Did you receive any task training on  
12      welding?

13          A       No. I knew how to weld when I started  
14      there, so.

15          Q       Did you about perform welding while you  
16      worked there?

17          A       Yeah. Did quite a bit of welding when I  
18      was there.

19          Q       Did you receive any task training on  
20      electrical repair?

21          A       No.

22          Q       Did you perform any electrical repair?

1           A       Yeah, we did quite a bit of electrical  
2 when I was there.

3           Q       Did you receive any task training on  
4 performing workplace exams?

5           A       No.

6           Q       Did you perform any workplace exams?

7           A       I would say so maybe.

8           Q       Do you know what a workplace exam is?

9           A       Not really. I'm not quite sure on what  
10 you're asking there.

11          Q       Okay. Did you receive any training on  
12 forklifts?

13          A       No.

14          Q       Did you ever operate a forklift?

15          A       We had to operate quite a few of them to  
16 move the heavier equipment, like auger bellies and  
17 stuff like that.

18          Q       Did you receive any task training on  
19 lockout/tagout?

20          A       No, I supplied my own locks when I  
21 started there.

22          Q       Did you perform lockout/tagout in your

1 role?

2 A Yes.

3 Q And you provided your own locks from  
4 home?

5 A Yes.

6 JUDGE MORAN: Let's make sure those  
7 answers are coming in. The answer to the last  
8 question was yes, you provided your own locks and  
9 you didn't receive locks from the mine operation?

10 THE WITNESS: Yes.

11 JUDGE MORAN: Is that right?

12 THE WITNESS: Yes.

13 BY MS. O'REILLY:

14 Q And you can't see it, but we do have a  
15 court reporter here. She is appearing virtually  
16 so she's writing down all our answers, so it's  
17 helpful if you let me finish asking my question  
18 before you start your answer because when we kind  
19 of talk over each other your answer starts really  
20 close to my question it's hard for her to get all  
21 that down.

22 A Okay, sorry.

1           Q     Who was the individual who managed the  
2 plants day to day?

3           A     John Spears.

4           Q     Was it your understanding that Mr.  
5 Spears had to get approvals from Mr. Tidaback?

6           A     Yes.

7           Q     And what kind of things did Mr. Spears  
8 need to get approval from Tidaback?

9           A     With ways to repair things, parts we  
10 needed to repair things. Stuff like that.

11          Q     And how do you know that?

12          A     Because there was several times I had to  
13 ask John Spears for materials to fix stuff, and he  
14 had to go through Russell first.

15          Q     Did you ever work with Mr. Baumann while  
16 you were employed?

17          A     I worked with Mr. Baumann quite a bit  
18 while I was there when he was on second shift.

19          Q     Do you recall Mr. Baumann moving to  
20 first shift? Do you recall Mister -- I could have  
21 said it wrong. Do you recall Mr. Baumann being  
22 moved from second shift to first shift?

1           A       I'm not sure if he was on first shift  
2 while I was there or not. When I first started  
3 there there was a different supervisor named Will  
4 on first shift. So Robert was on second while I  
5 was there.

6           Q       Did you ever interact with Mr. Tidaback  
7 in your role as maintenance?

8           A       Mostly on Teams. I met him the week of  
9 our MSHA training.

10          Q       You met Mr. Tidaback in person during  
11 your MSHA training?

12          A       Yeah. That was the first time I met him  
13 was the day the MSHA inspector or the MSHA trainer  
14 was there to do our new miner.

15          Q       And describe the interaction that you  
16 had with him that day.

17          A       Not very pleasant. Started off with him  
18 yelling at the four of us about the way things  
19 were going before sending us over into the new  
20 miner training.

21          Q       We're going to break that down a little.

22          A       Yes. Yes.

1           Q     You said the four of us. Who are you  
2 referring to?

3           A     Me, Terry Newburn, Jesse Hodges and the  
4 supervisor at the time. I think his name was  
5 Will. I think he was there, but if not, it was  
6 me, Terry and Jesse Hodges.

7           JUDGE MORAN: Help me out. Keep your  
8 voice up for me. Okay?

9           BY MS. O'REILLY:

10          Q     It might help if you -- we have a  
11 microphone here on our shirts that help the court  
12 reporter, but this microphone here in front of you  
13 helps the judge hear you.

14          A     Okay. Sorry.

15          Q     Speak kind of in that microphone there.

16          A     Okay.

17          Q     And you mentioned the name Terry  
18 Newburn. Are you related to Mr. Newburn?

19          A     He's my brother-in-law.

20          Q     And you said that Mr. Tidaback was  
21 yelling that day. What was he yelling about?

22          A     Just the way that things were going.

1 The plant had been down for quite awhile before he  
2 showed up. Trying to get it back running.

3 Q Do you know why the plant was down?

4 A The bag house was the current issue.

5 About a week before I started there was an issue  
6 with the local police due to the dust that was --  
7 the bag house was putting out.

8 Q And that caused the plant to be down?

9 A Yeah. Because the local police told  
10 John Spears and the day shift supervisor that if  
11 they ran, they'd arrest them all.

12 Q And then describe for me your  
13 interactions with Mr. Spears.

14 A Mr. Spears, mostly what he would do is  
15 just come out and check up on us, give a report  
16 back to Russell. See how things were going with  
17 repairs and stuff.

18 Q And did he tell you he was reporting  
19 back to Mr. Tidaback?

20 A Yes.

21 Q Did Mr. Tidaback ever express to you  
22 about how you were performing in your job?

1           A       First he said I was doing pretty good.  
2       That he had plans for a good future with me.   That  
3       seemed to change pretty quick.

4           Q       Okay.   Tell us what happened.   Why did  
5       it change?

6           A       I'm guessing just because the plant  
7       wasn't running very much while I was there, due to  
8       all of the MSHA stuff, and then the MSHA  
9       inspections.   I think while I was there there was  
10      about 200 citations that he had written up that  
11      day.

12          Q       The MSHA inspector had written?

13          A       Yeah.

14          Q       Okay.   And describe some of the  
15      equipment you were assigned to maintain.

16          A       Most of the time while I was there  
17      working on the bag house, air compressor, the rock  
18      crusher, tumbler.   Several other things.   There  
19      was multiple bag houses that we worked on while I  
20      was there.

21          Q       And were people submitting maintenance  
22      requests to you?

1           A       Wasn't really a request. It was just  
2       kind of a to-do list that John would come up with  
3       and give us when we got there in the morning of  
4       what he wanted us to do that day.

5           Q       Did you ever need any parts to repair a  
6       piece of equipment?

7           A       Yeah. There was several times we needed  
8       parts, such as welding rod. There was a time we  
9       needed compression fitting for some of the gas  
10      lines for the furnace that they had.

11          Q       And what was the process to obtain those  
12      parts?

13          A       I would let job Spears know what I  
14      needed. He'd normally want an idea of how much it  
15      was going to cost just to give him an idea. Then  
16      he'd go through Russell to see if we can get it or  
17      not.

18          Q       Were your requests for parts always  
19      approved?

20          A       Not always. I know I didn't get the  
21      compression fittings and then when I asked for a  
22      welding rod, ended up getting some but it wasn't

1 the type that I needed.

2 Q Were you ever given an explanation for  
3 why you are weren't getting the parts that you  
4 requested?

5 A Most of it came from John Spears and he  
6 said it was just too expensive. Something they  
7 couldn't do right now.

8 Q Do you recall a time you requested new  
9 filters for the bag house?

10 A Yes.

11 Q What does the bag house do?

12 A Bag house, kind of like a ventilation  
13 system. The dust goes in and supposed to separate  
14 the dust from the clean air, but the clean air,  
15 instead of pushing out a whole bunch of dust.  
16 When them filters go bad, instead of separating  
17 the air and dust, it just pushes out the dust with  
18 the air straight out of the stack.

19 Q And why were you recommending new  
20 filters?

21 A The ones they would were plumb full of  
22 tripoli and old and brittle. A lot of them had

1     rips in. I think we counted 36 of them.

2                 JUDGE MORAN: 36 what?

3                 THE WITNESS: Filter bags that came out  
4     of the bag house.

5                 JUDGE MORAN: Thirty-six filter bags  
6     with rips?

7                 THE WITNESS: Yeah.

8                 BY MS. O'REILLY:

9                 Q     And were those new filters ordered based  
10     on your recommendation?

11                A     No, he had a stockpile of old filters  
12     that they had pulled out and replaced beforehand.  
13     He had us sort through them to put back in the  
14     place of the ripped ones, but they were just as  
15     rough as condition because they had been sitting  
16     in the garage for who knows how long.

17                Q     And were you told why the new filters  
18     weren't ordered?

19                A     Just too much. I guess they had it  
20     quoted. It was quite a bit of money for new bags  
21     for all of the bag houses, so.

22                Q     And then I think you mentioned that the

1 mill was shut down during your employment. How  
2 many days of the three months that you worked  
3 there was the mill shut down?

4 A Quite awhile on first shift. Most of  
5 the time I was there.

6 Q And explain that to me. The mill is  
7 being shut down. Were these shutdowns related to  
8 equipment being not operational, or you mentioned  
9 something about the police earlier?

10 A There was multiple reasons. On day  
11 shift they didn't want to run for -- one, the  
12 local police weren't happy with the dust. And  
13 then there was also an MSHA inspector that wanted  
14 to watch the plant run so we were running night  
15 shift instead.

16 Q So is your testimony that the police had  
17 asked you guys not to run because of the dust, and  
18 there was an MSHA inspector that wanted to observe  
19 the mill running?

20 A Yeah.

21 Q And so you're saying that the mill did  
22 not run during the day. Correct?

1           A     Yes.

2           Q     But is your testimony that the mill  
3 would run at night?

4           A     Yes.

5           Q     Did you work with Mr. Baumann on a daily  
6 basis?

7           A     Quite a bit, yeah.

8           Q     Describe some of the interactions you  
9 had with Mr. Baumann at work.

10          A     Pretty good. He was one of the most  
11 helpful people I worked with while I was there,  
12 because he was there quite a bit longer than I  
13 was, so he helped me find some of the stuff I  
14 needed in the mill that I might not have known  
15 where it was, or if I needed a hand with, he was  
16 willing to jump in and help me where he could, so.

17          Q     Did Mr. Baumann have a good attitude?

18          A     I thought so. He was always about 30  
19 minutes to an hour early. So he come in and kind  
20 of talked to us about how our day went and always  
21 seemed to be pretty helpful.

22          Q     Did Mr. Baumann care about safety?

1           A       Yeah. He was one of the more concerned  
2 about our safety while we were working there.  
3 Kind of told us some of the hazards we would be  
4 messing with, and he worked quite a bit with the  
5 safety guy, Terry Newburn, while I was working  
6 there.

7           Q       Was Mr. Baumann a good leader?

8           A       I thought so, yes. Mostly people on day  
9 shift thought the same as I did, and the guy  
10 working with him, R.J., I feel like he kind of  
11 looked up to Rob because they were always working  
12 together, so.

13          Q       Were you aware of any production demands  
14 or quotas that were supposed to be met each day?

15          A       Yeah. Russell had mentioned several  
16 times that the plant was capable of running a  
17 hundred thousand pound of product, but I think  
18 when I was working there it was lucky to push out  
19 about 15,000, if that.

20          Q       Fifteen thousand pounds?

21          A       That was if they ran it consistently.

22                 JUDGE MORAN: Over what period of time?

1 You said Mr. Tidaback said a hundred thousand  
2 pounds. Over what? You mean over a shift?

3 THE WITNESS: I think that was for a  
4 full day if the plant was in good shape it should  
5 have ran.

6 JUDGE MORAN: When you reference, what  
7 was it, eight or five, 15 was a good day. What  
8 was that?

9 THE WITNESS: I think 15 is about what  
10 we were putting out on second shift, I think.

11 JUDGE MORAN: Fifteen thousand pounds on  
12 a shift?

13 THE WITNESS: Yeah.

14 JUDGE MORAN: Okay.

15 BY MS. O'REILLY:

16 Q Do you know why you were only able --  
17 that this shift that you were involved in was only  
18 able to reach the 15,000 pounds?

19 A There were a lot of reasons why. Such  
20 as holes in the augers, holes in the bearings. A  
21 lot of their product was going on the floor. Like  
22 in the very lower floor there's several spots

1 where the tripoli would just pile up at the  
2 machine is running. By end of shift you'd have  
3 probably a couple hundred pounds worth of tripoli  
4 sitting on the floor. And half the equipment,  
5 when I started there, wasn't even working. A lot  
6 of it was just locked out, not running since I  
7 started.

8 Q Did you ever tell Mr. Tidaback that Rob  
9 would get mad at everything?

10 A No.

11 Q Did you ever tell Mr. Tidaback that Rob  
12 was hard to work with?

13 A No.

14 Q Did you ever tell Mr. Spears any of  
15 those things about Mr. Baumann, that Mr. Baumann  
16 was mad at everything or hard to work with?

17 A No.

18 Q Did you ever complain to Mr. Tidaback or  
19 Mr. Spears about Mr. Baumann's attitude?

20 A No.

21 Q Did you ever have any problems with Mr.  
22 Baumann?

1 A No.

2 Q How would you describe the safety  
3 culture at American Tripoli?

4 A Kind of nonexistent, for the most part.  
5 Kind of just look out for yourself.

6 Q How would you describe Mr. Tidaback's  
7 attitude toward safety?

8 A He had a pretty good attitude towards  
9 anything that came up with that we needed to fix,  
10 such as rails and guard down off equipment, he was  
11 always pretty apt to help us find them and get  
12 them put on.

13 Q That was Mr. Tidaback?

14 A Mr. Baumann, my bad.

15 Q I'm sorry.

16 JUDGE MORAN: Let's make sure the record  
17 is clear on that.

18 BY MS. O'REILLY:

19 Q So I'm going to ask you the question  
20 again.

21 A Sorry about that.

22 Q That's okay. So your answer of pretty

1 good about it and if there were guards down he  
2 would help you get those back on, is that how you  
3 would describe Mr. Baumann's attitude towards  
4 safety?

5 A Yes.

6 Q And now I'm going to ask you a different  
7 question. How would you describe Mr. Tidaback's  
8 attitude towards safety?

9 A I think it was kind of irrelevant for  
10 him until the MSHA came around and started issuing  
11 citations. That's when we started focusing more  
12 on guards and covers for the augers.

13 Q And on the equipment, were there guards  
14 on the points where mill associates could come in  
15 contact with moving parts?

16 A No.

17 Q Did Mr. Spears know that there were no  
18 guards in these areas?

19 A Yeah. They got pulled off quite a bit  
20 because the augers were pretty rough, so they  
21 clogged up quite often, so them guards would be  
22 removed pretty frequently. They should be bolted

1 down, but they just had kind of pipe clamps  
2 holding on them there. That way they're easy to  
3 get on and off.

4 Q Did Mr. Spears ever direct the employees  
5 to take the guards off to perform this un-jamming?

6 A I don't know if it was directed by him  
7 or not, but it was just kind of a daily practice  
8 to keep the plant running.

9 Q Did Mr. Spears know that was the daily  
10 practice?

11 A Yeah. He was out there quite a bit when  
12 it was happening.

13 Q Did Mr. Spears ever direct the mill  
14 associates to put those guards back on?

15 A Once we got the MSHA inspection, that's  
16 when we started putting the guards back on.

17 Q Were there ever any safety meetings at  
18 American Tripoli?

19 A If you counted the new miner safety,  
20 that was about it.

21 Q What personal protective equipment were  
22 employees required to wear in the mill?

1           A       I don't think there was really any -- I  
2       mean, I wore my steel toed boots, just kind of  
3       common practice, and then a mask, but they were  
4       these disposable masks and John Spears wanted us  
5       to make one last a week. If you get tripoli  
6       packed in that thing for a week they're kind of  
7       hard to use.

8           Q       And you're talking about face masks for  
9       dust?

10          A       Yes.

11          Q       And do you know what kind of face mask  
12       this was?

13          A       I'm not sure on the specific type, but  
14       just kind of like a carpenters mask almost. Just  
15       like a N95, if that.

16          Q       And you said that Mr. Spears asked the  
17       mill associates to wear those masks for a week.  
18       Is that correct?

19          A       Yeah. He said we were going through too  
20       many of them.

21          Q       Were you ever concerned about your  
22       safety at the mill?

1           A     Quite a bit. Especially like working on  
2     that bag house, we were doing some air diaphragms  
3     on that, and we would to do it from the roof of  
4     the building because it's on the back side of the  
5     bag house, so you have to stand on the roof and  
6     all the safety harnesses they had there were  
7     expired.

8           Q     Did you still perform that task?

9           A     Yes.

10          Q     Besides that instance, were you ever  
11     asked to perform a task you believed to be unsafe?

12          A     Yes.

13          Q     Can you give us another example?

14          A     There's quite a few, but I'd say working  
15     in that, the bottom of that bag house. I had a  
16     lock put on it and it ended up being cut off by  
17     Don Spears because he said he thought I went home  
18     for the day, while I was inside the bag house and  
19     turned the auger back on while I was trying to cut  
20     one of the filter tubes we were talking about  
21     previously had fallen off. And when it did, it  
22     got wrapped around the auger, and so I went in

1     there to get it out with a grinder. That way the  
2     auger would un-jam.

3           Q     Okay. So let's break it down a little.  
4     You were performing maintenance inside the bag  
5     house on an auger. Correct?

6           A     Yes.

7           Q     And you applied a lock to the energizing  
8     source of that equipment?

9           A     Yes. There was a disconnect on the  
10    outside of that.

11          Q     And you climbed inside where the auger  
12    was located?

13          A     Yes.

14          Q     And you were performing work in there?

15          A     Yes.

16          Q     And then while you're performing work  
17    did something indicate to that your lock had been  
18    cut off?

19          A     Yeah. The auger started moving.

20          Q     So you were inside the bag house  
21    performing this maintenance and the auger started  
22    moving?

1           A       Yeah.

2           Q       And then what did you do?

3           A       Grabbed my stuff and climbed back out of  
4       the auger.

5           Q       Okay. And is that when you noticed that  
6       your lock had been cut off?

7           A       Yeah.

8           Q       And did you ask?

9           A       Yeah. I asked John Spears, and that's  
10       when he told me that he thought I had just went  
11       home for the day and forgot my lock on it.

12          Q       Did you ever complain to Mr. Spears  
13       about your safety at the mill?

14          A       Quite a few times.

15          Q       Did you ever complain to Mr. Tidaback  
16       about the safety at the mill?

17          A       Yes. It was in Teams, because he had  
18       fired the safety guy for bringing up safety. She  
19       -- to him on Teams. And so I brought it up that  
20       the mill should still probably have a safety guy,  
21       even though he fired the one we did have, and  
22       that's when he said John Spears would be taking

1 over the safety.

2 Q And when you say that the safety guy was  
3 fired, can you tell us who you're speaking about?

4 A Terry Newburn.

5 Q Do you know whether Mr. Baumann ever  
6 complained to Mr. Spears about his safety concerns  
7 at the mill?

8 A Yeah. Quite a bit. Him and Terry  
9 Newburn were working together with quite a few of  
10 the safety issues they were having on second  
11 shift.

12 Q And how are aware that he raised those  
13 issues to Mr. Spears?

14 A I was in multiple Microsoft Teams group  
15 chats.

16 Q And you saw those messages?

17 A Yeah.

18 Q Do you recall any inspections by the  
19 Mine Safety and Health Administration, MSHA, while  
20 you were employed at American Tripoli?

21 A Yeah. I think his name was Van Horn.  
22 Van Dorn. Worked with him on the safety

1 inspection he did of the plant.

2 Q And were you involved in that  
3 inspection?

4 A Yes.

5 Q What did you do?

6 A I helped point out some of the issues  
7 that we were having at the plant, and after that,  
8 I went through and started fixing them for  
9 Russell.

10 Q And did Mr. Spears see you walk around  
11 with that inspector?

12 A I'm sure he did.

13 Q Did Mr. Spears ever give you any  
14 instruction about what to do when MSHA arrived?

15 A He didn't really want us talking to him.  
16 He said he could handle it all.

17 Q And in performing your job in  
18 maintenance, were you ever told by Mr. Spears or  
19 Mr. Tidaback to be sure to comply with the MSHA  
20 standards?

21 A Not really. We kind of didn't really  
22 talk to him much about MSHA until we had our new

1 miners.

2 Q Did Mr. Tidaback ever express to you his  
3 opinion of MSHA?

4 A Not really. Mostly Mr. Tidaback's  
5 conversations were maintenance related, for the  
6 most part.

7 Q Did you receive the necessary tools,  
8 equipment and training to comply with the MSHA  
9 standards?

10 A There weren't really many tools out  
11 there to work with, but I'd say it probably wasn't  
12 up to MSHA standards, some of the stuff we had to  
13 do, because while I worked there the man lift was  
14 down. So anytime we had to get somewhere high up  
15 you kind of had to climb.

16 Q In your opinion, did Mr. Baumann try to  
17 make the mill a safer place to work?

18 A I believe so.

19 Q Can you give an example of what he did  
20 to do that?

21 A Yeah. He worked with us quite a bit,  
22 because he let us shut down the line one night

1 doing an auger. Somebody had spray foam and put a  
2 piece of tin over the bottom of the auger belly,  
3 and when the hangers went out, the auger actually  
4 breached through that tin so it was kind of hang  
5 through the auger belly. So he let us keep it  
6 down while we ended up welding on a new auger  
7 belly to the bottom of it.

8 Q Did you have any concerns about Mr.  
9 Baumann's job performance with regard to complying  
10 with MSHA standards?

11 A No.

12 Q Did you have any concerns with Mr.  
13 Baumann's job performance with regard to safety at  
14 the mine?

15 A No.

16 Q Did Mr. Spears and Mr. Tidaback know  
17 that you participated in MSHA inspection?

18 A I'm not sure on that.

19 Q Okay. You mentioned some other  
20 enforcement agencies had come to the mill, like  
21 the police. Did any other enforcement agencies  
22 come to the mill?

1           A     I think it was just the cops and then  
2     MSHA themselves that inspected that I talked to,  
3     but.

4           Q     In interacting with the MSHA inspectors,  
5     did those inspectors act professionally?

6           A     I thought so. Van Horn was pretty  
7     easygoing, worked with us quite a bit with some of  
8     the citations we had.

9           Q     Did the inspector ever yell at you?

10          A     No.

11          Q     Did he ever threaten you?

12          A     No.

13          Q     Were you scared of the MSHA inspectors?

14          A     No.

15          Q     Do you know if any of the mill -- did  
16     any of the mill associates express to you that  
17     they were scared of the MSHA inspectors?

18          A     No.

19          Q     And then, Mr. Allman, you were  
20     terminated from your job at American Tripoli.  
21     Correct?

22          A     Yes, ma'am.

1 Q Can you describe that?

2 A I was on my way home from work. Oh,  
3 sorry. And I had got a notification that there's  
4 a message in Teams, so I went to check it. When I  
5 went to sign back in to Teams, because me and  
6 Russell had been messaging back and forth on  
7 there. Went to check it again and it wouldn't let  
8 me sign into it, and then that's when I contacted  
9 Russell about it not letting me sign in to Teams,  
10 and then the next morning I had gotten a message  
11 from him saying I was terminated.

12 Q How many days after you walked around  
13 with the MSHA inspector were you are terminated?

14 A Probably a day or two. It wasn't very  
15 long afterwards.

16 Q Did Mr. Newburn walk around with that  
17 MSHA inspector as well?

18 A Yes.

19 Q And was he terminated as well?

20 A Yes.

21 Q Did you receive a termination letter  
22 outlining the reasons you were being terminated?

1           A       I asked him why, but he never did tell  
2 me why. Only thing he said was that it was for  
3 leaving my shift even though I had already worked  
4 14 hours that day, so.

5           Q       Did you speak to an MSHA inspector after  
6 you were fired?

7           A       Yes.

8           Q       And can you tell us what you said?

9           A       It was a pretty quick conversation. I  
10 had talked to him, I think it was a Monday after I  
11 was terminated. I went back to grab some of my  
12 stuff. I had already got my stuff and I was on my  
13 way out of the office building, and he was walking  
14 in, so I stopped and talked to him for a minute.  
15 And kind of talking to him about how things were  
16 going, and then a cop pulled up. Russell had  
17 called the cops on me and said I was trespassing  
18 because I came to get my stuff back.

19          Q       Is it your opinion that you were  
20 terminated for participating in the MSHA  
21 inspection?

22          A       I would say there's a good chance of it.

1           Q     Mr. Tidaback testified in his deposition  
2     that you were let go because you were verbally  
3     abusive and disrespectful to John Spears. Were  
4     you ever verbally abusive and disrespectful to  
5     John Spears?

6           A     I would say no. Me and John worked  
7     quite a bit together. Didn't always see eye to  
8     eye on some of our projects, but I wouldn't say I  
9     was verbally abusive to him or anybody else at the  
10    mill.

11               JUDGE MORAN: Or disrespectful?

12           THE WITNESS: I try not to be any chance  
13    I get, but sometimes.

14               BY MS. O'REILLY:

15           Q     Mr. Tidaback testified in his deposition  
16     that you were verbally abusive and disrespectful  
17     to Mr. Baumann. Were you ever verbally abusive  
18     and disrespectful to Mr. Baumann?

19           A     No. Me and Rob, I would say we had a  
20     pretty good work relationship while I worked  
21     there. He was pretty easygoing. Like I say, he  
22     always helped me out, so I don't really have any

1 reason to go against him or anything said.

2 MS. O'REILLY: I have no further  
3 questions for this witness.

4 JUDGE MORAN: Okay. So we're going to  
5 have to take a lunch, unless you tell me that your  
6 cross examination, I'm not suggesting that it  
7 should be, but unless you tell me that your cross  
8 examination won't take more than, say, ten  
9 minutes.

10 MR. TIDABACK: I can limit it to ten  
11 minutes, Your Honor.

12 JUDGE MORAN: What's that?

13 MR. TIDABACK: I can limit it to ten  
14 minutes, Your Honor.

15 JUDGE MORAN: I don't want you to limit  
16 it if you feel it limits your ability to cross  
17 exam. I'm not putting you in a position like  
18 that.

19 MR. TIDABACK: I respect that. I don't  
20 think so, but I can -- I will limit it to ten  
21 minutes.

22 JUDGE MORAN: Okay. But that's

1 voluntarily.

2 MR. TIDABACK: That is correct, sir.

3 JUDGE MORAN: What we're going to do is  
4 we're going to hang in here for ten more minutes,  
5 and then we're going to take an hour for lunch.  
6 All right? Go ahead. My court reporter hanging  
7 in there?

8 COURT REPORTER: Yes, I am.

9 JUDGE MORAN: Okay. Lunch will be soon.  
10 Go ahead, Mr. Tidaback.

11 CROSS-EXAMINATION

12 BY MR. TIDABACK:

13 Q How many days were you employed at  
14 American Tripoli?

15 A It was from September 15th to November  
16 20th, I think, around that time.

17 Q So roughly 60 days?

18 A Yeah, just about probably.

19 Q And so can you describe your  
20 understanding and expectations set for your role  
21 as a maintenance technician during your time  
22 there?

1           A       When I started I was told that kind of  
2       the goal was to get the plant back up and running.  
3       It was -- because it was kind of down on its luck,  
4       I guess you could say. And so whenever I talked  
5       to Mr. Tidaback he told me his goal for the plant  
6       was to start putting money into it and getting it  
7       repaired the way it should be.

8           Q       Okay. You received a letter of  
9       reprimand on 13 October addressing specific areas  
10      of concern regarding your performance.

11           MS. O'REILLY: We're going to object to  
12      this. It's outside the scope of direct and it  
13      also lacks foundation.

14           JUDGE MORAN: Well, it's certainly  
15      proper for him to ask questions about this. I  
16      mean, we have had that lacking with Mr. Baumann,  
17      for example, so I'm not about to stop Mr. Tidaback  
18      from asking about this. Did you ever receive a  
19      letter of reprimand from American Tripoli?

20           THE WITNESS: I do not believe so.  
21      Probably wouldn't have been working there any  
22      longer if I did.

1 BY MR. TIDABACK:

2 Q Okay.

3 JUDGE MORAN: Okay. So wasn't your  
4 question if he received a letter of reprimand?

5 MR. TIDABACK: Yes.

6 JUDGE MORAN: Your testimony is you did  
7 not ever receive --

8 THE WITNESS: I do not believe so.

9 JUDGE MORAN: We don't want to confine  
10 ourselves to the word reprimand. Did you ever  
11 receive a letter from American Tripoli that in my  
12 manner had problems with the work you were doing?

13 THE WITNESS: I do not believe so, no.

14 JUDGE MORAN: Well, do you recall  
15 getting any kind of letter from American Tripoli  
16 about your work performance, critical or not, when  
17 you were working there?

18 THE WITNESS: No. I think the only  
19 letter I got from American Tripoli was the sign on  
20 letter.

21 JUDGE MORAN: The sign on letter. When  
22 you were hired?

1 THE WITNESS: Yes.

2 JUDGE MORAN: All right. Go ahead, Mr.  
3 Tidaback.

4 BY MR. TIDABACK:

5 Q And then on the day of your departure on  
6 November 4th, you left the work site without  
7 informing your supervisor or securing your  
8 workplace, which was a hazard to other miners.  
9 Can you --

10 JUDGE MORAN: You just --

11 MR. TIDABACK: Did I add too much?

12 JUDGE MORAN: You testified. You're  
13 saying on his day of departure?

14 MR. TIDABACK: That's correct. On his  
15 day that he was terminated, when he left the  
16 workplace without informing your supervisor.

17 JUDGE MORAN: See, that would be the  
18 question. Did you leave the workplace without  
19 informing your supervisor on the last day you  
20 worked?

21 THE WITNESS: No, John Spears had known  
22 I was leaving. What happened is one of employees

1     there, Jim Huber, had taken apart a piece of  
2     equipment after maintenance had already left, and  
3     he was unable to put it back together by himself  
4     and that's when Russell tried to call me to come  
5     back in.

6                     BY MR. TIDABACK:

7             Q     Okay.  So --

8                     JUDGE MORAN:  After he was terminated  
9     you called him to come back in?

10                    MR. TIDABACK:  No.  That's the whole  
11     point.

12                    BY MR. TIDABACK:

13             Q     Did you leave the workplace without  
14     advising your supervisor?

15             A     No.  John Spears knew I was leaving.

16                    JUDGE MORAN:  Okay.  So you covered  
17     that.  Go on to something else.

18                    MR. TIDABACK:  Yes, Your Honor.

19                    BY MR. TIDABACK:

20             Q     You use Teams to communicate.  Right?

21             A     Yes.

22             Q     You mentioned requesting locks.  Did you

1 ever put in Teams that you were requesting locks?

2 A I told John Spears that I needed locks.  
3 He said he would get them for me. A couple days  
4 had went by and I still hadn't got them, so I  
5 supplied my own from home from another job I was  
6 before that.

7 Q And then you mentioned filters. Do you  
8 know of the maintenance schedule for change outs?

9 A Not the exact one, no.

10 Q Okay. All right. When you mentioned  
11 augers or the guarding for the augers, who removed  
12 --

13 A Production people. Just depending on  
14 who was working that side of the mill that day.  
15 Most of the time it was Jim Huber that I'd see  
16 trying to unclog the equipment.

17 Q Okay. And then who was in charge of the  
18 mill people?

19 A John Spears.

20 Q And then was Mr. Baumann ever in charge  
21 of the mill people?

22 A Oh, you mean for like second shift

1 safety? I wasn't aware of that.

2 Q Either one?

3 A They would report directly to Robert, I  
4 believe, and then Robert would report to John  
5 Spears himself.

6 Q Okay. So that we understand, the mill  
7 associates removed the augers or the guarding and  
8 didn't -- somebody would have had to direct them  
9 to do that correctly.

10 A There was several places to where it  
11 couldn't even have been a production worker  
12 themselves because there's -- like on the bottom  
13 of the bag house there's probably a four inch by  
14 four inch hole cut into the side of the metal  
15 auger housing. That way they could stick stuff is  
16 there to unclog, it and I don't see a member of  
17 the mill, production side cutting a hole in the  
18 side of a bag house like that.

19 Q I'm not sure I understand that.

20 JUDGE MORAN: You just have to ask  
21 another question.

22

1 BY MR. TIDABACK:

2 Q Correct. Okay. Did you communicated  
3 the incident with that auger in Teams?

4 A Yes. Actually, I think me and you  
5 actually spoke about it together on Teams after,  
6 because it was one of the things brought up by  
7 MSHA were the citations. Right at the bottom of  
8 the bag house where the auger feeds out, there's  
9 -- what I believe to be a pump that pumps the dust  
10 out of it, and right before it goes into that pump  
11 there's a four by four hole cut into the side of  
12 it. There's pictures posted on Teams. I believe  
13 I still have the pictures myself, too. Ended up  
14 welding a cover over the front of it.

15 Q Okay. So did you report that to the  
16 safety manager?

17 A Yes. And I reported it to you.

18 Q Okay. So who was the safety manager at  
19 the time?

20 A At that time I believe it was Terry  
21 Newburn.

22 Q Okay. And your relationship with Terry

1 Newburn is?

2 A My brother-in-law, yes.

3 Q So Mr. Newburn. Did you ever deal with  
4 Inspector Linkliter or Inspector Markeson?

5 A Not for sure. I think it was Van Dorn  
6 who I dealt with.

7 Q Inspector Van Dorn?

8 A Van Dorn.

9 Q All right. And then the last question.  
10 Were you prepped for this interview, the  
11 deposition?

12 A No. I was just told a date and a time.  
13 MR. TIDABACK: Okay. That's it, Your  
14 Honor.

15 JUDGE MORAN: Okay. Do you have any  
16 questions?

17 MS. O'REILLY: We have no further  
18 questions for this witness.

19 JUDGE MORAN: Okay. Mr. Allman, I  
20 appreciate your testimony, sir, I wish you well.

21 THE WITNESS: I appreciate it.

22 JUDGE MORAN: And you're going to give

1 him the subpoena?

2 MS. O'REILLY: We're going to give the  
3 paperwork for appearing based on the subpoena.  
4 Yes.

5 JUDGE MORAN: Good luck. All right,  
6 folks, we're going to break. So it's 1:24. Let's  
7 start at 2:30. Any questions? It looked like you  
8 had a question there, Mr. Baumann.

9 MS. O'REILLY: I'm going to tell him not  
10 to talk to anyone about this trial.

11 JUDGE MORAN: Please, until you hear  
12 word from the Department of Labor attorneys that  
13 you may speak with anyone about this, do not until  
14 you hear that. Thank you, sir.

15 MS. O'REILLY: Trial, Mr. Baumann, thank  
16 you.

17 JUDGE MORAN: We're going to now go off  
18 the record. Thank you. We'll see you, Madam  
19 Court Reporter, at 2:30.

20 COURT REPORTER: Okay. Sounds good.

21 (Recess)

22 JUDGE MORAN: We're on the record. So

1 now, Attorney Smith, you have just informed me off  
2 the record that the next witness will be, and I'll  
3 write it down again, I'm sorry.

4 MS. SMITH: Ms. Kensley Brewer.

5 JUDGE MORAN: Okay. And I'm sure this  
6 is true, but I want this on the record. You  
7 identified Ms. Kensley Brewer as one of the  
8 witnesses the government intended to call.

9 MS. SMITH: Yes. On Friday when we made  
10 our updated disclosure identifying the miner  
11 witnesses her name appeared.

12 JUDGE MORAN: As a miner witness.  
13 That's why. Okay. And so now before we begin  
14 this afternoon's session just minutes ago, Mr.  
15 Tidaback says he has an objection to this witness'  
16 testimony. Go ahead, sir.

17 MR. TIDABACK: Yes. Your Honor, I  
18 object that she is not -- get my microphone on.  
19 Mrs. Kensley is not a manager or in a role of a  
20 manager that would be in the decisionmaking  
21 process or Mr. Baumann's termination.

22 JUDGE MORAN: Okay. And so would you

1     respond to that objection?

2                   MS. SMITH:   Yes.   Ms. Brewer's testimony  
3     is here to discuss the working relationship that  
4     she had with Mr. Baumann, the observations she  
5     made while she was an employee of American  
6     Tripoli, and regarding some of the defenses that  
7     the Respondent has raised as far as Mr. Baumann's  
8     work performance and conduct.   Also, and we can  
9     raise this, she was one of the individuals  
10    interviewed that provided an interview statement  
11    for the investigation of this complaint.

12                  JUDGE MORAN:   Okay.   So having heard  
13    from both sides, it's entirely appropriate that  
14    Ms. Brewer be able to testify in this proceeding  
15    despite your objection.   I would note that your  
16    objection, while I'm overruling that, rejecting  
17    that, the prior two witnesses would have met that  
18    objection as well, but you didn't raise that for  
19    those individuals.

20                  MR. TIDABACK:   I wanted to.   Just  
21    catching up on everything else, it slipped my  
22    mind, Your Honor.   So I wanted to make sure it

1 just didn't keep going on.

2 JUDGE MORAN: Sure. And I wouldn't say  
3 I encourage you, but I welcome any objections that  
4 you have, you should make them, and then I will  
5 rule upon them as I just did. So I don't want you  
6 to feel intimidated from making objections in the  
7 future to anything that's going on.

8 MR. TIDABACK: Your Honor, I do, and  
9 that's why I'm trying to listen 100 percent what  
10 your directions are, and so I'm learning.

11 JUDGE MORAN: All right. Thank you. So  
12 Ms. Brewer, would you stand, please. I'm Judge  
13 Moran, nice to meet you. Would you raise your  
14 right hand, please. Are we good, Mr. Holt? Okay.  
15 Whereupon,

16 KENSLEY BREWER  
17 was called as a witness and, having been first  
18 duly sworn, was examined and testified as follows:

19 JUDGE MORAN: I will need you to be  
20 seated, be comfortable, state your name and spell  
21 it, but if your response is indicative of the way  
22 you're going to speak, that's not going to be good

1 enough. I need you to speak up, and Mr. Holt has  
2 pointed out that you see this black microphone in  
3 front of you?

4 THE WITNESS: Yes.

5 JUDGE MORAN: Okay. You want to get  
6 closer to that since you're soft spoken, and do  
7 you have on the other microphone?

8 THE WITNESS: Yes.

9 JUDGE MORAN: And Court Reporter, can  
10 you hear Ms. Brewer?

11 COURT REPORTER: Yes, I can.

12 JUDGE MORAN: Okay. Great. So you'll  
13 speak up if there's any issue?

14 COURT REPORTER: Yes, I will.

15 JUDGE MORAN: Thank you. Okay.

16 Attorney Smith, proceed.

17 MS. SMITH: One housekeeping matter for  
18 you, Your Honor. In your pretrial order it didn't  
19 address this issue. As I mentioned, Ms. Brewer  
20 gave a statement as part of this investigation,  
21 and we have a copy of the un-redacted statement  
22 that typically in other cases, after we have a

1 witness testify that was involved in the  
2 investigation, we would turn over a copy of the  
3 un-redacted statement to the Respondent after  
4 their testimony. Is that how you'd like us to  
5 proceed today?

6 JUDGE MORAN: Yes.

7 MS. SMITH: We're prepared to do that.

8 DIRECT EXAMINATION

9 BY MS. SMITH:

10 Q And, Ms. Brewer, can you state and spell  
11 your name for the record.

12 A Kensley, K-e-n-s-l-e-y B-r-e-w-e-r.

13 MS. SMITH: And then, Your Honor, we  
14 will also ask for the same protective order  
15 limiting any question of Ms. Brewer's current  
16 employer or her home address.

17 JUDGE MORAN: That is granted and is to  
18 be observed.

19 BY MS. SMITH:

20 Q And Ms. Brewer --

21 JUDGE MORAN: Mr. Tidaback has a  
22 question.

1                   MR. TIDABACK: I don't know what that's  
2 for. I mean, I understand your order, but I don't  
3 know. I assume it's just normal procedures?

4                   JUDGE MORAN: Well, I mean, it's  
5 self-explanatory. Protective, meaning that not  
6 saying that anyone would do that.

7                   MR. TIDABACK: That's what I'm asking.

8                   JUDGE MORAN: There's no suggestion that  
9 you would proceed to harass or otherwise bother  
10 any of the witnesses, but it also adds some  
11 gravitas to the seriousness. When I agree and say  
12 that the order of the protective order is granted,  
13 it underscores, puts in bold print the secretary's  
14 request.

15                  MR. TIDABACK: An assumption by the  
16 secretary that we would do that?

17                  JUDGE MORAN: No. When one makes a  
18 protective, like many protective actions, this  
19 doesn't necessarily have to be an implication that  
20 someone would behave improperly. It's  
21 prophylactic.

22                  MR. TIDABACK: Okay. Thank you, Your

1 Honor.

2 BY MS. SMITH:

3 Q Ms. Brewer, how are you familiar with  
4 American Tripoli in Seneca, Missouri?

5 A It's a previous employer.

6 Q And what month and year did you work  
7 there?

8 A December of '22 into January of '23.

9 Q And what was your position at American  
10 Tripoli?

11 A So originally I had applied for a safety  
12 position, and then I was offered a production  
13 coordinator job, and then I ended up being like a  
14 secretary and I did, like I did the production  
15 part. Did inventory and shipping and receiving a  
16 lot of the times, or helped with that.

17 Q So your job duties included shipping and  
18 receiving?

19 A Uh-huh.

20 Q And what other job duties did you have?

21 A I did a lot of secretary work as well.  
22 I dealt with, you know, the paperwork for the

1 shipments that were going out and the products  
2 that were going out. I put seals on, you know,  
3 the semis. It was -- that part was pretty  
4 straightforward. I also, when I did like retail  
5 orders, I would have to be in the lab, and you  
6 know, weigh out everything and get it all prepared  
7 and packaged and then take it to the post office  
8 and ship it off.

9 Q And when you worked in the lab, was that  
10 in the mill?

11 A Yes.

12 Q And as part of your administrative  
13 secretarial job duties, were you ever involved  
14 with handling the mail?

15 A Yes.

16 Q When mail came in did you -- what was  
17 the particular procedures did you follow to kind  
18 of handle the process that mail?

19 A Typically we would scan it and e-mail it  
20 over to Jordan Tidaback, and then sometimes there  
21 would be some mail that would go to John Spears,  
22 too.

1 Q And who was your supervisor?

2 A John Spears.

3 MR. TIDABACK: Your Honor, I object  
4 related to Mr. Baumann's termination.

5 JUDGE MORAN: Well, we're going to find  
6 that out. The questioning has just begun in terms  
7 of her background, and I assume there will be some  
8 testimony that is related to Mr. Baumann's  
9 termination. If there's no testimony or at all in  
10 that, then you can ask that, perhaps, I'll  
11 consider to be, have the testimony stricken as  
12 being irrelevant or immaterial. Okay? So you  
13 have to give a little more time for the secretary  
14 to lay the foundation if it will -- if it were.

15 MR. TIDABACK: Okay. Yes, sir.

16 JUDGE MORAN: As it were.

17 BY MS. SMITH:

18 Q How long had you worked at American  
19 Tripoli before you got the new miner trainer?

20 A Probably month, month and a half.

21 Q In your job did you work with Mr. Robert  
22 Baumann on a daily basis?

1           A       Yes.

2           Q       And based on your work with him daily,  
3 what was your opinion of Mr. Rob Baumann's work?

4           A       He was always really dedicated to his  
5 job and wanted everything to go right and be safe.

6           Q       Did he do the work that was asked of  
7 him?

8           A       So, yes, he did. But sometimes things  
9 would be unsafe, and he would come and report to  
10 John in the administration building that I was in,  
11 and you know, he would tell John, you know, more  
12 than one time, and then finally, you know, he  
13 would have to stand up for what was right as far  
14 as safety went. And he was just always trying to  
15 make sure that everything was as safe as possible,  
16 even though a lot of the times was being told to  
17 do otherwise.

18                   JUDGE MORAN: When you say John, are you  
19 referring to John Spears?

20                   THE WITNESS: Yes, Your Honor.

21                   JUDGE MORAN: If there's ever any other  
22 person named John, please distinguish that. I

1 will assume from here on out when you say John,  
2 you mean Mr. Spears.

3 THE WITNESS: Yes.

4 JUDGE MORAN: Thank you.

5 BY MS. SMITH:

6 Q And you mentioned that you had maybe  
7 heard a conversation between Mr. Baumann and John  
8 Spears in the admin building. Did you primarily  
9 work in the admin building?

10 A Yes.

11 Q And I don't think we've maybe discussed  
12 that here during the trial, but just giving us a  
13 picture. We've talked a lot about the mill over  
14 the last two days. Where was the admin building  
15 in relation to the mill?

16 A Just across the sidewalk, on the same  
17 side of the street.

18 Q Okay. And your job, you primarily  
19 worked in the admin building?

20 A Yes.

21 Q And occasionally you worked in the mill  
22 and you said in the lab. Is that correct?

1           A       There, yes. And then shipping and  
2       receiving. A lot of the times I would take the  
3       paperwork over there for that as well.

4           Q       And that was in the mill?

5           A       Yes.

6           Q       And how close was the place that you  
7       worked in the admin building to where John's  
8       office was?

9           A       Maybe ten steps.

10          Q       From where you worked in the admin  
11       building could you see John's office, John Spears'  
12       office?

13          A       Yes.

14          Q       Thank you. Based on your daily  
15       interactions with Mr. Rob Baumann, was Mr.  
16       Baumann, did he show up to work on time?

17          A       Yes. He was always there early, as was  
18       I. We were usually there before John Spears even  
19       showed up.

20          Q       Did Mr. Baumann have a good attitude at  
21       work?

22          A       Yes.

1 Q Did Mr. Baumann care about safety?

2 A Yes.

3 Q Did you consider, based on your  
4 interactions with Mr. Baumann, to be -- was Mr.  
5 Baumann competent at his job?

6 A Yes.

7 Q In your role, like you mentioned the  
8 retail orders, the lab and shipping and receiving,  
9 did any of that work involve you working with Mr.  
10 Baumann?

11 A Shipping and receiving, yes. He helped  
12 me a lot with that as well, and then like in the  
13 evenings we would do -- we would fill out these  
14 Excel sheets to -- for like production and  
15 everything.

16 Q Was one of your jobs, we talked a little  
17 bit about some sort of production spreadsheet. Is  
18 that the spreadsheet you're talking about?

19 A Yes, ma'am.

20 Q And what was your job related to that  
21 production spreadsheet?

22 A Basically it would have like inventory.

1 So it would basically lay out like how much  
2 different types of product we had.

3 Q And were you responsible for maintaining  
4 that document?

5 A I was in learning of that at that time,  
6 yes.

7 Q Would you make entries into that  
8 document?

9 A Yes.

10 Q And then you said you worked on that  
11 with Mr. Baumann?

12 A In the evenings I was also kind of being  
13 trained by Mr. Tidaback as well.

14 Q How would you describe the safety  
15 culture at American Tripoli?

16 A Very unsafe.

17 Q Were you concerned about your safety at  
18 the mill?

19 A Anytime I went in that building, yes,  
20 ma'am.

21 Q And what kind of specifically were you  
22 concerned about?

1           A       It's very old and very rickety, and  
2       there is a lot of dust, so that worries me as far  
3       as breathing. My grandpa actually worked there.  
4       He died in 1970, so it was before my time. I know  
5       that he died from repercussions of not being able  
6       to breathe. So I always had a fear of that  
7       personally.

8           Q       Do you know if Mr. Baumann ever  
9       complained to John Spears about his safety  
10      concerns at the mill?

11          A       Constantly.

12          Q       Did you observe any of those?

13          A       Yes.

14          Q       Tell us about them.

15          A       He would explain to him what was going  
16      on with the machinery, as far as what was  
17      happening in the mill and when things weren't  
18      going correct and people could get potentially  
19      hurt in those situations. He would just, you  
20      know, say, John, we can't do this. This is not  
21      safe. This is not safe. I heard this is not safe  
22      multiple times a day, every day. It was a daily

1 thing.

2 JUDGE MORAN: Did you have an objection?

3 MR. TIDABACK: I do. In her statement  
4 she said she's been there a month and a half, and  
5 she's actually employed 17 days with us.

6 JUDGE MORAN: Okay. There you go. I  
7 know you're not an attorney. That would be  
8 something on cross examination. You would say  
9 something along the lines of, did you testify on  
10 direct examination that you worked there, whatever  
11 you just said, but wasn't it in truth X number of  
12 days. You know, so that's a cross examination  
13 area if you decide that that's important to her  
14 credibility. I mean, that's your call, not mine.  
15 Go ahead, Attorney Smith.

16 BY MS. SMITH:

17 Q And just to clarify, you stated he would  
18 explain to him. Who are the people you're talking  
19 about you said he would explain to him about the  
20 machinery?

21 A John Spears. No, Rob Baumann.

22 Q Rob Baumann would explain to?

1           A       John Spears.

2           Q       About the machinery?

3           A       Yes.

4           Q       And then you also said, I think you said  
5 he would say this is not safe. Were you referring  
6 to what Rob Baumann said that it is not safe?

7           A       Yes.

8                   JUDGE MORAN: Let me ask a question now.  
9 So when you heard things like Mr. Baumann telling  
10 Mr. Spears that things were not safe, that's  
11 essentially what you heard?

12                  THE WITNESS: Yes.

13                  JUDGE MORAN: Where were you in  
14 relationship to those individuals when you heard  
15 sufficient things?

16                  THE WITNESS: Sitting at my desk.

17                  JUDGE MORAN: Okay. And so that means  
18 -- does that mean that Mr. Baumann and Mr. Spears  
19 were in the building that you were in at that  
20 time?

21                  THE WITNESS: Yes, Your Honor.

22                  JUDGE MORAN: Okay. And I think you

1 described earlier, this was -- where you heard  
2 this was in Mr. Spears' office?

3 THE WITNESS: In the hallway and in the  
4 office.

5 JUDGE MORAN: And Mr. Spears' office you  
6 said was -- did you say ten steps away?

7 THE WITNESS: Roughly, yeah.

8 JUDGE MORAN: Okay. Go ahead.

9 BY MS. SMITH:

10 Q And then I want to direct your attention  
11 to a particular incident related to dust. Was  
12 there ever a time John Spears asked you to create  
13 something that would help capture and control the  
14 dust in the mill?

15 A Yes. John brought, I don't know exactly  
16 what kind of material it was, but it was a sheet  
17 like thing. It was thicker than a sheet, and he  
18 brought fishing line and he had me sew some sort  
19 of like filter, I guess, to put over one of the  
20 machines to reduce dust. And they would water it  
21 down. I don't think that it lasted very long, but  
22 it was on the far side of the building, but yes.

1 JUDGE MORAN: You're telling me you  
2 helped install that, your --

3 THE WITNESS: I did not install it. I  
4 just sewed it.

5 JUDGE MORAN: Okay. And someone else  
6 put it on the machine --

7 THE WITNESS: Yes.

8 JUDGE MORAN: -- where it was located.  
9 Okay. Go ahead.

10 BY MS. SMITH:

11 Q Do you recall any inspections by the  
12 Mine, Safety and Health Administration, MSHA,  
13 while you were employed at American Tripoli?

14 A Yes, ma'am.

15 Q How many?

16 A At least three to five times.

17 Q Can you tell us about any of them?

18 A They were always friendly. We weren't  
19 supposed to have the door unlocked, but a lot of  
20 the times with people going in and out the door  
21 would be unlocked. So they would come in, and  
22 then they would be like, well, why was the door

1 unlocked? But they were always really friendly to  
2 me. And like I know that we weren't supposed to  
3 talk to them, but I didn't really have a whole lot  
4 of conversation with them too much, but they were  
5 always friendly.

6 Q Okay. When you say they, they were  
7 friendly, are you speaking?

8 A MSHA.

9 Q The MSHA inspectors?

10 A Yes, ma'am.

11 Q Okay. And then when you said we weren't  
12 supposed to talk to them, who is we and them?

13 A John Spears would state that Russell  
14 said we are not supposed to talk to the MSHA  
15 inspectors.

16 Q And when you said we weren't supposed to  
17 have the door unlocked, what did that mean?

18 A I don't know why we weren't supposed to  
19 have the door unlocked. I do remember speaking to  
20 Mr. Tidaback about that, but he said it was for  
21 safety. But I'm related to over half the town, so  
22 I didn't feel unsafe in the town that I was in, so

1 I'm not sure.

2 Q Are you saying that Mr. Tidaback asked  
3 you to keep the door locked?

4 A Yes.

5 Q And this is the door to the admin  
6 building?

7 A Yes, ma'am.

8 Q Where you worked?

9 A Yes.

10 Q Did Mr. Tidaback -- and it's your  
11 testimony that Mr. Tidaback asked you to keep the  
12 door locked on the admin building was because of  
13 your safety?

14 A Yes.

15 JUDGE MORAN: By the way, I take it, you  
16 tell me if I have this correct, that when you --  
17 there were moments when -- you said three or four  
18 occasions, forgive me if I'm wrong about what you  
19 said, were MSHA inspectors were there?

20 THE WITNESS: Yes.

21 JUDGE MORAN: And I take it that you  
22 meant they came into the admin building?

1 THE WITNESS: Yes.

2 JUDGE MORAN: And so can I assume from  
3 that that that was the only location where you  
4 were in contact with the MSHA inspectors? And by  
5 that I mean, I take it, you didn't go on tour with  
6 them when they were going through the mill. Is  
7 that correct?

8 THE WITNESS: Correct.

9 JUDGE MORAN: Okay. So your contact was  
10 in the -- solely within the admin building?

11 THE WITNESS: Yes.

12 JUDGE MORAN: All right. Go ahead.

13 BY MS. SMITH:

14 Q And then you may have said this, but  
15 what was it that Mr. Spears instructed you to do  
16 when MSHA arrived on-site?

17 A Not to talk to MSHA.

18 Q Did he tell you why?

19 A No.

20 JUDGE MORAN: He did not tell you why?  
21 Did you raise a question as to why?

22 THE WITNESS: I mean, I wondered, but I

1     felt at that point that it was none of my  
2     business.

3                   BY MS. SMITH:

4           Q     Can you recall a time when you worked at  
5     American Tripoli when the mill was shut down?

6           A     Yes.

7           Q     Do you know what agency had shut down  
8     the mill?

9           A     MSHA.

10          Q     And did you know why MSHA was asking or  
11     had shut down the mill in this instance?

12          A     Something to do with like fines.

13          Q     Were you -- did you have a conversation  
14     with Mr. Baumann about the shutdown?

15          A     Not really. Other than he said that  
16     they were shut down but that's because I was like  
17     why are we running, but that's it.

18          Q     Do you know whether Mr. Baumann  
19     participated in any of the MSHA inspections?

20          A     I have no idea.

21          Q     And did you ever interact with any of  
22     the MSHA inspectors?

1           A     I greeted them, you know, as they came  
2     into the administration building, but other than  
3     that, no.

4           Q     Did you hear any of the MSHA inspectors  
5     yell?

6           A     No.

7           Q     Did any of the MSHA inspectors threaten  
8     you?

9           A     No.

10          Q     Did any MSHA inspector ever tell you  
11     they were going to take you to jail?

12          A     No. The police actually said that they  
13     would take everybody to jail.

14          Q     But not MSHA?

15          A     Not MSHA.

16          Q     Were you ever scared of any of the MSHA  
17     inspectors?

18          A     No.

19                MS. SMITH: Just one moment, Your Honor,  
20     if I may.

21                JUDGE MORAN: Sure. Before you do, I'm  
22     going to ask the witness one question. When you

1     said that not MSHA but that the police said they  
2     were threatening to take you to jail, is that what  
3     you said?

4             THE WITNESS:    Yes.

5             JUDGE MORAN:    Okay.   Can you remember  
6     the context or the reason why they were  
7     threatening?

8             THE WITNESS:    There was a lot of dust  
9     blowing into the town, and it was just all in the  
10    air and they were trying to get, you know, them to  
11    shut down because obviously something wasn't  
12    working correctly.

13            JUDGE MORAN:    Okay.   Thank you.

14            BY MS. SMITH:

15            Q     And, Ms. Brewer, as to the dates of your  
16    employment, does it refresh your recollection that  
17    you started your work at American Tripoli on  
18    December 19th, 2022?

19            A     I know it was in December.   I don't  
20    remember exactly what day.

21            Q     Would it -- does it refresh your  
22    recollection that you terminated your employment

1 with American Tripoli on January 24th, 2023?

2 A I want to say yes.

3 Q Okay.

4 MS. SMITH: Just one moment.

5 JUDGE MORAN: Sure.

6 MS. SMITH: I'll direct the court's  
7 attention to Exhibit P39.

8 JUDGE MORAN: Okay.

9 MS. SMITH: It's been previously  
10 admitted, P39.

11 JUDGE MORAN: That's helpful to remind  
12 me of that and by luck I happen to be on P39 right  
13 now. It's entitled Interrogatories.

14 MS. SMITH: Yes. And we're looking at  
15 Page 15, and I'll just direct the Court's  
16 attention to Page 15 of P39 which is an  
17 interrogatory response by Respondent. It does lay  
18 out in the middle of the page, Item No. 25,  
19 Kensley Brewer, her job title, her dates of  
20 employment being December 19th of 2022 through  
21 January 24th of 2023.

22 JUDGE MORAN: Thank you for calling that

1 to my attention.

2 MS. SMITH: And at this time we have no  
3 further questions for this witness and we will be  
4 turning over a copy of her un-redacted statement  
5 to the Respondent.

6 JUDGE MORAN: Yes. Will I be getting --  
7 the only redaction is the name. Is that right?

8 MS. SMITH: It is, and other identifying  
9 information. We're not going to offer it as an  
10 exhibit.

11 JUDGE MORAN: Okay.

12 MS. SMITH: We do have a copy.

13 JUDGE MORAN: No, that's fine. All  
14 right. Mr. Tidaback, once you receive that,  
15 you're now able to question Ms. Brewer.

16 MR. TIDABACK: What is this for?

17 JUDGE MORAN: That is just the  
18 un-redacted version of a statement given by Ms.  
19 Brewer, as I understand it. Right?

20 MS. SMITH: Yes, Your Honor. It is the  
21 un-redacted statement that Ms. Brewer gave to the  
22 MSHA inspector for the inspection of this. It is

1 also located within Exhibit P41, and that's the  
2 redacted version is P41.

3 JUDGE MORAN: Okay. And 41 is in.  
4 Right?

5 MS. SMITH: No, it is not.

6 JUDGE MORAN: The redacted version has  
7 not been entered?

8 MS. O'REILLY: No, we have not offered  
9 that as of yet.

10 JUDGE MORAN: Okay. Go ahead, Mr.  
11 Tidaback, if you have questions of Ms. Brewer.

12 MR. TIDABACK: Yes, sir.

13 CROSS-EXAMINATION

14 BY MR. TIDABACK:

15 Q So do you recall taking your new miner  
16 training on December 23rd -- or 23rd of 2022?

17 A No.

18 Q You don't recall taking that training  
19 online? You were given a certificate at the end?

20 A Maybe so.

21 Q Okay.

22 A I thought the new miners training was

1 the training that we had like the week before I  
2 left which was in a classroom. Well, not a  
3 classroom but a room with everybody.

4 Q I know that they were given training. I  
5 just don't know specifically without looking  
6 through the records, but I know that there was  
7 additional training that you attended, but it  
8 wasn't your new miner training. Okay? All right.  
9 Did you use Teams to communicate?

10 A Yes.

11 Q Okay. So we determined how long you've  
12 been employed with -- at American Tripoli. During  
13 this time, how much time or how much of your  
14 tenure was spent in training versus actively  
15 performing your job duties?

16 A Not very long.

17 Q So if you were there 17 days and you  
18 took MSHA training three days, then we gave  
19 another day of, I think it was one day, I don't  
20 remember which training you did in January, but I  
21 think it was one day of training, so that would be  
22 five days?

1 MS. SMITH: We object to this question.  
2 It's testimony. It's not a question.

3 THE WITNESS: Three.

4 JUDGE MORAN: Well, you're asking for  
5 the total number of days she was working and not  
6 in training?

7 MR. TIDABACK: Correct.

8 JUDGE MORAN: Do you know how many days  
9 you were actually doing your job and  
10 distinguishing that from not being able to do your  
11 job because you're in training?

12 THE WITNESS: I could probably say  
13 three-fourths of the time that I was there I was  
14 working.

15 JUDGE MORAN: Okay.

16 BY MR. TIDABACK:

17 Q In your role can you give a detailed  
18 explanation or description of your interaction  
19 with other mining departments?

20 A Can you ask that question one more time?

21 Q Can you detail the extent of your  
22 interaction with other mine departments or

1 operations outside of your immediate role?

2 A So I worked every day with other  
3 departments because I worked -- I mean, I worked  
4 with Rob Baumann every day. You know, the  
5 maintenance, everybody was in the office all the  
6 time. If they had questions, what can we do about  
7 this, what can we do about that and I had to  
8 report to John, so a lot of times I became John's  
9 assistant.

10 Q Right.

11 A So that's -- I mean, I worked with  
12 everybody all the time, and they were always very  
13 respectful to me.

14 Q Good, good. I'm glad to hear that. Did  
15 Mr. Baumann have any negative discussions with you  
16 about the company?

17 A No.

18 Q Were you prepped by anyone for this  
19 testimony?

20 A No.

21 Q How did you gather the information you  
22 testified about regarding the conditions and

1 practices of the mine?

2 A Because I worked there and it was  
3 commonly spoke about.

4 Q Okay. By who?

5 A Everyone.

6 Q Mr. Baumann?

7 A I didn't get to have like a one to one  
8 conversation about that, but everybody would be  
9 talking amongst each other.

10 Q Okay. So if you didn't have the  
11 conversations with Mr. Baumann, how can you -- the  
12 testimony you gave to the secretary, how could you  
13 relate that he was a good person and cared about  
14 safety and --

15 A Because he was constantly talking to  
16 John about safety.

17 Q Okay. So with that, with your statement  
18 there, can you explain how you were able to  
19 evaluate Mr. Baumann's job performance?

20 A I didn't say that I watched him do his  
21 job. I'm confused.

22 Q Did the --

1 JUDGE MORAN: That's fine, and that's  
2 the appropriate answer. If you believe that you  
3 didn't talk about his job performance because you  
4 weren't there watching it, and that's an answer.

5 BY MR. TIDABACK:

6 Q Correct. What specific instances of Mr.  
7 Baumann's protected activity are you aware of?

8 MS. SMITH: I'm going to object to the  
9 question as protected activity isn't defined, and  
10 I think he's using a very particularized way that  
11 we have not agreed understanding of with this  
12 witness.

13 JUDGE MORAN: Repeat that last part.  
14 You sort of softened up.

15 MS. SMITH: Sorry. The protected  
16 activity is a particular legal term of art here.  
17 I'm not sure that Ms. Brewer has an understanding  
18 of what you mean by that term.

19 JUDGE MORAN: Fair enough. Yes. So you  
20 have to rephrase your question.

21 MR. TIDABACK: Yes, Your Honor.

22

1 BY MR. TIDABACK:

2 Q Okay. So if an MSHA inspector was to  
3 ask you questions, would you answer those  
4 questions?

5 A Yes.

6 Q That is an act -- do you understand that  
7 that is a protected act under the Miners Act,  
8 speaking with the MSHA inspectors?

9 A What do you mean exactly?

10 Q Speaking to an MSHA inspector is a  
11 protected act under the miners rights of the  
12 Miners Act.

13 A Okay.

14 Q So if you talked to an MSHA inspector,  
15 that is your protected right as a miner.

16 JUDGE MORAN: Okay. See, you're making  
17 assertions about things. You can ask her  
18 questions about what she knows. Actually her  
19 legal conclusion as to whether it's protected  
20 activity, that's something I would decide.

21 MR. TIDABACK: Yes, Your Honor. Okay.

22 JUDGE MORAN: Just remember, this is

1 about Mr. Baumann.

2 MR. TIDABACK: Correct, Your Honor.

3 JUDGE MORAN: And her observations about  
4 interactions between Mr. Spears and Mr. Baumann.

5 MR. TIDABACK: Perfect. Thank you, Your  
6 Honor.

7 BY MR. TIDABACK:

8 Q Can you describe the nature and  
9 frequency of your communications with the mine  
10 owners and Mr. Spears?

11 A So I feel like a lot of communication  
12 was done through technology. This is the first  
13 time I have ever met you in person.

14 Q Yes, ma'am.

15 JUDGE MORAN: Today, right now?

16 THE WITNESS: Yes.

17 JUDGE MORAN: Thank you. When you say  
18 you, you mean Mr. Tidaback?

19 THE WITNESS: And Ms. Jordan.

20 JUDGE MORAN: First time you have met  
21 either of them in person?

22 THE WITNESS: Yes. So usually I only --

1 I mean, I spoke to you on the phone, I have spoke  
2 to you via like Zoom or video chat. I don't know  
3 specifically. It was probably Teams, I guess. I  
4 mean, I just feel like we had a very disgruntled  
5 conversation of me -- with me and you at the end  
6 of my employment because I really don't know why,  
7 but I felt like I -- you weren't confident in my  
8 work, and so that's where that -- I felt very  
9 disrespected.

10 BY MR. TIDABACK:

11 Q And that conversation, do you remember  
12 what it was about?

13 A Yes.

14 Q Okay.

15 A It was about inventory. It was a Monday  
16 morning. It was about 20 degrees outside, and it  
17 was very cold. There's thousand pound bags you  
18 wanted me to go out and re-count that I had  
19 counted Friday evening with John Spears before I  
20 left. And you were insistent, even though no  
21 shipments had left, that I go out and count those  
22 thousand pound bags in 20 degree weather when

1     there's no heat in the mill.

2             Q     Thousand pounds? I'm sorry, I'm not  
3     sure.

4             A     Your big bags. The big bugs. The bulk  
5     bags.

6             Q     Oh, the bulk bags?

7             A     Yes.

8             Q     Okay.

9             A     And we had had a disagreement about that  
10    because you weren't sure of my work until I had  
11    explained to you that John had already done it  
12    with me, and I felt very disrespected and that is  
13    why I quit.

14            Q     Okay. So during that conversation I was  
15    just asking you to count inventory which is part  
16    of your job description. Correct?

17            A     Which I had already done on Friday, as  
18    you asked me to do.

19                   JUDGE MORAN: Okay.

20                   MS. SMITH: I was going to object to --  
21    he asked her about a conversation they had. She  
22    answered it, and now we seem to be straying into

1 kind of non-relevant areas.

2 JUDGE MORAN: I agree.

3 MR. TIDABACK: Yes, Your Honor.

4 JUDGE MORAN: So the objection is  
5 sustained.

6 BY MR. TIDABACK:

7 Q So during your conversations or  
8 overhearing of conversations with Mr. Baumann and  
9 Mr. Spears, did you ever hear Mr. Spears raise his  
10 voice to anyone?

11 A Yes.

12 Q Did -- anyone in particular?

13 A Several people.

14 Q Did he raise his voice at Mr. Baumann?

15 A He had, yeah.

16 Q Okay. Did you hear Mr. Baumann raise  
17 his voice at John Spears?

18 A When it came to safety he did, because  
19 John would not listen because John was being told  
20 to do it otherwise.

21 Q So how would you know that?

22 A Because John would say Russell said this

1 is what we're doing.

2 Q Okay. And then you stated that you  
3 heard the police state that they were going to  
4 take you to jail. Did you hear that directly from  
5 the police officer or is that hearsay?

6 A No. They said that in the  
7 administration building talking to John.

8 Q Who is -- who is they?

9 A The police.

10 Q Okay. The police, you heard them say  
11 that?

12 A Yes.

13 JUDGE MORAN: If you have any redirect,  
14 you may. Just one second.

15 MS. SMITH: No, we do not.

16 JUDGE MORAN: Just I'm curious. So when  
17 you have this 22 degree weather demand that you go  
18 back out and check the bags, check the weight,  
19 what the tag said. Right?

20 THE WITNESS: He wanted me to go and  
21 count the inventory.

22 JUDGE MORAN: Count the inventory again.

1 I'm sorry.

2 THE WITNESS: Yes.

3 JUDGE MORAN: So you explained that you  
4 had done that on the previous Friday with Mr.  
5 Spears.

6 THE WITNESS: Yes. And we were closed  
7 on the weekend and no shipments had left.

8 JUDGE MORAN: Okay. But by curiosity,  
9 did you then say I quit or did you go out and  
10 check the inventory again? What happened?

11 THE WITNESS: I quit.

12 JUDGE MORAN: You quit right there on  
13 the spot?

14 THE WITNESS: Yes.

15 MS. SMITH: We have no further questions  
16 for this witness.

17 JUDGE MORAN: All right. And do you  
18 have any other questions, based on my question to  
19 Ms. Brewer? I'm not saying you should. I'm  
20 offering you the opportunity to ask another  
21 question about my question.

22 MR. TIDABACK: Right. Yes, Your Honor.

1 BY MR. TIDABACK:

2 Q During that conversation with you and I,  
3 you felt that I disrespected you. Did you say  
4 anything in that conversation that was  
5 disrespectful to me?

6 A Yes.

7 MS. SMITH: We're going to object as to  
8 relevance of the question.

9 JUDGE MORAN: I think that given what  
10 happened here, that she then quit, that the  
11 question and therefore the answer are irrelevant  
12 to this proceeding.

13 MR. TIDABACK: Yes, Your Honor.

14 MS. SMITH: And we're done with this  
15 witness if she's allowed to leave for the day, and  
16 we do need to hand her the forms for appearing  
17 based on the subpoena.

18 JUDGE MORAN: Thank you, Ms. Brewer, for  
19 your testimony. I wish you well for the rest of  
20 the day and beyond that.

21 THE WITNESS: Thank you, Your Honor.

22 MS. SMITH: Also we ask, Judge, that you

1 inform her that she's not to speak to anyone until  
2 these proceedings are complete.

3 JUDGE MORAN: Thank you for reminding me  
4 of that. I told all the witnesses, and if I don't  
5 forget, hopefully I'll be reminded to tell future  
6 witnesses, until you hear from the Secretary's  
7 attorneys and I mean from them, that this  
8 proceeding is over, I don't want you to speak with  
9 anyone about this.

10 THE WITNESS: Okay.

11 JUDGE MORAN: And it is possible, I  
12 don't have a crystal ball, that this proceeding  
13 might have to be continued a few weeks from now.  
14 And so we have a requirement that you not speak  
15 with anyone. Might quite a long period of time.  
16 But she'll let you know when the proceeding is  
17 over, the Secretary's attorneys will. All right.  
18 Thank you again for your testimony.

19 Okay. Who's next?

20 MS. O'REILLY: The Secretary calls  
21 Michael Dillingham.

22 JUDGE MORAN: I'm not going to call you

1 doc. Okay?

2 THE WITNESS: You can call me whatever  
3 you want.

4 JUDGE MORAN: Okay. Mr. -- we'll have a  
5 formality here. Okay? All right. So I'm going  
6 to swear you in. Court Reporter, still with us?

7 COURT REPORTER: Yes, I am.

8 JUDGE MORAN: Okay. Thank you very  
9 much. And I see you have raised your right hand.  
10 Thank you.

11 Whereupon,

12 MICHAEL DILLINGHAM  
13 was called as a witness and, having been first  
14 duly sworn, was examined and testified as follows:

15 JUDGE MORAN: As you saw the other  
16 witnesses do, because you're the MSHA  
17 representative in this proceeding, I want to you  
18 state your name and spell it.

19 THE WITNESS: Michael Dillingham.

20 M-i-c-h-a-e-l D-i-l-l-i-n-g-h-a-m.

21 JUDGE MORAN: Go ahead, Attorney Smith.  
22 O'Reilly. Sorry.

1 DIRECT EXAMINATION

2 BY MS. O'REILLY:

3 Q Mr. Dillingham, you are currently  
4 employed by the U.S. Department of Labor, Mine  
5 Safety and Health Administration. Is that  
6 correct?

7 A Yes.

8 Q What is your job title?

9 A I'm special investigator.

10 Q How long have you held that job title?

11 A Just a little over ten years.

12 Q As part of that role what type of cases  
13 do you investigate?

14 A I investigate the -- actually, I enforce  
15 105 and 110 of the Mine Act.

16 Q And how long have you worked for MSHA?

17 A Be 17 years in April.

18 Q Prior to becoming a special investigator  
19 what was your job title?

20 A I was a federal mine inspector.

21 Q Other than your work with MSHA, do you  
22 have any other experience working in mines?

1           A       I started my mining career on August the  
2   13th, 1974. During that time in between there I  
3   had 31 years before I became to MSHA. My  
4   background is coal. This year, in August, I'll  
5   have 50 years.

6                   JUDGE MORAN: Congratulations.

7                   THE WITNESS: I worked 16 years -- 15  
8   years underground, 10 years surface. I had six  
9   years mine construction and then my MSHA time,  
10   seven years as inspector and then my ten years,  
11   so.

12                  BY MS. O'REILLY:

13                Q       And did you conduct a 105(c)  
14   investigation into the discrimination complaint  
15   filed by Robert Baumann?

16                A       I did.

17                Q       And I'll direct you to look at Exhibit  
18   P1.

19                A       Be a test training me on these books.

20                   MS. O'REILLY: Can I approach the  
21   witness just to show him?

22                   JUDGE MORAN: Yes, of course. P1, if

1     you will open up in that book.

2                   BY MS. O'REILLY:

3           Q     Are you there?

4           A     I am.

5           Q     And do you know what this document is?

6           A     I do.

7           Q     What is this document?

8           A     It's an MSHA Form 2123.

9           Q     And who filled out this form?

10          A     Crystal Vanover.

11          Q     And then is this -- it looks like it was  
12     received by Crystal Vanover. Is that correct?

13          A     Yeah, she's the complaint processor.  
14     She's the one that, whenever a complaint comes in,  
15     as investigators, we don't take the complaints.  
16     We have a complaint processor that does that, and  
17     that's Ms. Vanover.

18          Q     And whose complaint is this?

19          A     It's Robert Baumann.

20          Q     And is this complaint a document that's  
21     maintained as part of MSHA's investigatory process  
22     into discrimination complaints?

1 A Yes.

2 Q And this is part of your investigation?

3 A Yes.

4 MS. O'REILLY: I move to admit Exhibit  
5 P1.

6 JUDGE MORAN: P1 is admitted.

7 (Complainant's Exhibit P-1 was  
8 marked for identification and  
9 received in evidence.)

10 BY MS. O'REILLY:

11 Q What date was Mr. Baumann's  
12 discrimination complaint filed?

13 A April 25th, 2023.

14 Q And in the discrimination complaint, who  
15 did Mr. Baumann allege discriminated against him?

16 A Russell Tidaback, Jordan Tidaback and  
17 John Spears.

18 Q As part of the 105(c) investigation,  
19 does MSHA notify the mine operator that a  
20 complaint has been filed?

21 A Yes.

22 Q Did that happen in this case?

1           A     Yes.

2           Q     Do you know who would have been  
3 notified?

4           A     They should have sent a letter to all  
5 three of them. All three of the persons named in  
6 this will get a certified letter with a return  
7 receipt.

8           Q     And do you keep track of that letter as  
9 part of your investigation file?

10          A     We do.

11          Q     And do you also keep track of any sort  
12 of receipt showing that those letters were  
13 delivered?

14          A     We do.

15          Q     Do you know when the complaint was  
16 delivered to the operator in this case?

17          A     4-27.

18          Q     And that was based on your review of  
19 your file?

20          A     Beg pardon?

21          Q     You know that from the review of your  
22 file, that date?

1           A       Well, I have got it off the top of my  
2 head, but.

3           Q       That's how --

4           A       Yeah, it's part of my file.

5           Q       Yes. Okay. Did you gather information  
6 about the mine as part of your investigation?

7           A       We do.

8           Q       Could you turn to Exhibit P17. Are you  
9 there? Do you know what that document is?

10          A       Yes.

11          Q       Did you see this document as part of  
12 your investigation?

13          A       I did.

14          Q       And what is this document?

15          A       This is a legal ID report. That's what  
16 MSHA requires to be filled out. It's got all the  
17 pertinent information that in case anybody, as far  
18 as within MSHA, wants to go to that mine. And do  
19 you want me to kind of break it down a little bit  
20 --

21          Q       Sure.

22          A       -- for you? Well, like us, I don't look

1 at everybody's legal ID all the time, but if we  
2 get a case come up, then we pull their legal ID.  
3 That's part of what we do. And we read and see  
4 who's named as person in charge helping safety,  
5 who's the manager, who is the president of the  
6 company, where's it's located. It tells all that  
7 information. But also if an inspector, say, was  
8 to have an accident or if you're going to have  
9 just a regular inspection or if you have anything  
10 that comes up, that inspector can go into our trek  
11 and come and find this, and it's under -- it's  
12 agency. It's not regular for anybody other. It's  
13 inhouse. But you can find this and go in and then  
14 they can find that information out and know that,  
15 too.

16 Q So this is information that's maintained  
17 in the regular course of business with MSHA?

18 A It is, and, too, if someone changes,  
19 something was to change on this, because at the  
20 top it's got effective date 3-31-23. But if  
21 something was to change on that, then he would  
22 have to go on and they got so many days to change

1     this, to update it. Like if someone was to quit  
2     or someone get discharged or, you know, something  
3     happened to that, they have to go in there and do  
4     that.

5           Q     And so you gathered this document as  
6     part of your investigation in this case?

7           A     Yes.

8           Q     And you put it in your investigation  
9     file?

10          A     I did.

11          Q     And you maintained it there?

12          A     Yes.

13          Q     And is this a fair and accurate copy of  
14     the legal ID report for American Tripoli?

15          A     That was the latest one, yes.

16                 MS. O'REILLY: I you have to admit  
17     Exhibit P17.

18                 JUDGE MORAN: P17 is admitted. Excuse  
19     me.

20                         (Complainant's Exhibit P-17 was  
21                         marked for identification and  
22                         received in evidence.)

1 BY MS. O'REILLY:

2 Q And this -- the mine American Tripoli is  
3 located in Seneca, Missouri. Is that correct?

4 A Yes.

5 Q And what is the name of the mine?

6 A They tried to pronounce it day or two  
7 ago. I call it Missouri Seneca Manufacturing. I  
8 don't know. That's what I think it's -- I think  
9 that's what it means to me. LLC, DOB, d/b/a is  
10 American Tripoli.

11 Q Okay. And it's listed here. It's  
12 spelled M-o-s-e-n-e-c-a MFR, LLC d/b/a American  
13 Tripoli. Is that your understanding of the name?

14 A I think somebody made a typo but that's  
15 what's in here. I think they should have typed  
16 out the TR, not abbreviated.

17 Q So what you were saying earlier, how you  
18 say it, how you say just it in regular language,  
19 but that's right here is what it's listed as. Is  
20 that correct?

21 A Yes.

22 Q And this is the mine that Robert Baumann

1 worked at. Correct?

2 A Correct.

3 Q And does this list the name of the  
4 operator?

5 A It does.

6 Q And who was the operator at the time?

7 A American Tripoli -- Tripoli or Tripoli.

8 Q And is it your understanding that this  
9 is a metal, nonmetal mine?

10 A Yes.

11 Q Did you interview Mr. Baumann as part of  
12 your investigation?

13 A Yes.

14 Q Did Mr. Baumann tell you why he thought  
15 he was terminated?

16 A Yes.

17 Q And why was that?

18 A He thought it was because he had  
19 reported safety violations and he had brought up  
20 safety concerns, and all also being newly selected  
21 representative for the miners, that he was  
22 exercising his rights under the miners rights and

1 under the Mine Act, that he had been discriminated  
2 against and terminated.

3 Q Did you interview any miners, any other  
4 miners from American Tripoli as part of your  
5 investigation?

6 A I did.

7 Q I'll turn your attention to Exhibit P41.  
8 That's going to be in Volume 2. Different  
9 notebook. And I'll note that -- are you there  
10 yet? Sorry.

11 A I'm there.

12 Q I'll note this document contains  
13 redactions. Did you conduct interviews of two  
14 miners at the mine without saying their names?

15 A I did.

16 Q And one of those was Kensley Brewer.  
17 Correct?

18 A Correct.

19 Q And so I believe her interview is  
20 redacted in this exhibit on Pages 6 through 10 and  
21 we now have provided the un-redacted copy to  
22 Respondent.

1           A       Now, we're on 41.  Correct?

2           Q       Yeah.  Is that correct that these are  
3 your interview notes?

4           A       Yes.

5           Q       Okay.  And you understand that we  
6 redacted those to protect the name of the miners?

7           A       Yes.

8           Q       With regard to your interview of Kensley  
9 Brewer, did she tell you about whether Mr. Baumann  
10 was a good employee?

11          A       She did.

12          Q       And what did she say?

13          A       She said Rob was -- Mr. Baumann, he was  
14 a -- he was good to work with.  He was a stand up  
15 guy.  He -- I'm going to read this out of here.  
16 I'm going -- he was a stand up guy.  He stood for  
17 safety.  He stood up for the workers.  He tried to  
18 do what the right thing was and tried to work with  
19 people, and you know, he would listen to you, and  
20 you know, he had knowledge of the plant.  And he,  
21 you know, he genuinely cared, you know, and he  
22 tried to do a good job.

1           Q     Did she confirm that Mr. Baumann made  
2     safety complaints to management?

3           A     Yes.

4           Q     Did she say how American Tripoli  
5     responded to those safety complaints?

6           A     How that they responded?

7           Q     Yeah, if you recall.

8           A     Ask me that again.

9           Q     Did she say anything about how American  
10    Tripoli management responded to any of the safety  
11    complaints Mr. Baumann raised?

12               JUDGE MORAN:   And you know, Counsel,  
13    it's perfectly appropriate if you know the answer  
14    to that question, if you could direct Mr.  
15    Dillingham to a page on the exhibit and then ask  
16    him if that refreshes his recollection rather than  
17    hunting through this document.

18               MS. O'REILLY:   Understood.

19               THE WITNESS:   And there's not a lot to  
20    this interview here really.

21               JUDGE MORAN:   Just -- let's wait for the  
22    questions to come on.   One thing is that you could

1 say, if appropriate, Mr. Dillingham, that if you  
2 don't recall if -- if Ms. -- one second. If Ms.  
3 Brewer -- if you don't recall if Ms. Brewer told  
4 you how Tripoli responded to the safety  
5 complaints, you could just say I don't recall. If  
6 it's in the exhibit.

7 MS. O'REILLY: Yeah.

8 JUDGE MORAN: You found it.

9 BY MS. O'REILLY:

10 Q Yes. I'll direct your attention to Page  
11 6, one, two, three, the third paragraph under  
12 towards the end. Do you see where it states  
13 there, "He would take over someone's job and do it  
14 if they thought it was unsafe. If an employee  
15 would say to him this is not safe, you he take it  
16 over and do it anyway. He would even bribe people  
17 with saying, ah, go ahead and I'll go to Dairy  
18 Queen and get you a hamburger." Does that refresh  
19 your recollection about how Respondent responded  
20 to the issues?

21 A Yeah, but I think I got confused here,  
22 because Exhibit 5 and 6 are in this as one

1 document.

2 Q Okay.

3 A That is where I got confused.

4 Q Yes. I put both of the interviews in  
5 one Exhibit, P41 and you're referring to your  
6 Exhibits 5 and 6 from your investigation file, and  
7 I think that's what's causing confusion. If you  
8 look at the very bottom there's Bates numbering  
9 and it says Exhibit P41. Do you see that at the  
10 bottom?

11 A Yes.

12 Q And it will say Page 00. What I am  
13 looking at is page 006 of this P41.

14 A Okay. Sorry about that.

15 JUDGE MORAN: No one is faulting you.  
16 Just speed this along, you're talking -- you're  
17 asking Mr. Dillingham to focus on the paragraph  
18 that begins on a personal level, John Spears?

19 MS. O'REILLY: Yes.

20 JUDGE MORAN: You see that paragraph?

21 THE WITNESS: Yes, sir.

22 JUDGE MORAN: This, again, it's been

1     awhile now -- I'm kidding -- that the question was  
2     how did American Tripoli respond to safety  
3     complaints, and I believe that's why Attorney  
4     O'Reilly is asking you about that.

5                 THE WITNESS:   On this, and I would have  
6     to read this out of here, and it says, on a  
7     personal level.   Is that where you're talking  
8     about?

9                 BY MS. O'REILLY:

10                Q     Yeah.

11                A     Yeah.   And do you want me to read?

12                Q     No.   Do you recall that conversation?

13                A     I remember the conversation.   I remember  
14     -- I mean, this is my documents.

15                Q     Right.   So can you tell us about that  
16     conversation?

17                A     You know, of course, you got to  
18     remember, too, I've read these over but it's been  
19     a year since I did this.

20                Q     Understood.

21                JUDGE MORAN:   That's fine.

22                A     You know, but -- and from what I could

1 understand, you know, and you would listen to what  
2 you would say here where Mr. Baumann would come  
3 and address something to Mr. Spears or Mr.  
4 Tidaback, and if they felt like that, you know,  
5 say Mr. Baumann says I don't want to do this here  
6 because it's unsafe act. Then they come up and  
7 say that John Spears would just go ahead and do it  
8 anyway, safe or not. Is that what you're getting  
9 at?

10 BY MS. O'REILLY:

11 Q Yes.

12 A And I do remember this, but I guess I  
13 didn't click on what you're saying here, and you  
14 know, to go on in here, and of course, you've got  
15 the documents and everybody does, but you know, it  
16 would say where, you know, that John Spears didn't  
17 make know difference what it was. If Russell told  
18 him to do it, he would do it, and I'm talking  
19 about Mr. Tidaback and that's what was said here.

20 Q Thank you. And then I'm going to be  
21 referring back to Page 1 of Exhibit P41, so the  
22 other interview. You have also interviewed

1 another miner. Don't state the name, in addition  
2 to Ms. Brewer. Correct?

3 A Yes.

4 Q And did this miner confirm that miners  
5 in American Tripoli had a personnel file?

6 A They did. They said that each miner had  
7 a personnel file, and that in that personnel file  
8 that it had their IRS information or tax records,  
9 like W-2 stuff or whatever. Every type of when  
10 you started a few job that you need, anything that  
11 you required in there. It may be Social Security  
12 number and stuff, and you're just -- it's your  
13 personnel file. I mean, it's a private personnel  
14 file, but they had one, yes.

15 Q And did you receive Mr. Baumann's  
16 personnel file as part of your investigation?

17 A I did not.

18 Q Did you request it?

19 A I did. Three times.

20 Q Did this miner discuss with you American  
21 Tripoli's disciplinary policy?

22 A They did.

1           Q     And did you understand that -- what did  
2     you understand the disciplinary policy to be? Do  
3     you recall?

4           A     Well, from talking to this miner and  
5     then I did get a copy of the American Tripoli  
6     handbook, and it says right in there that it's a  
7     three step process. No. 1, if they have got an  
8     issue, they converse with you about it. They talk  
9     to you about it. No. 2, you get some kind of  
10    written form, and then after that, the next thing  
11    would be -- would be potential termination or  
12    disciplinary action, you know, whatever they could  
13    warranted to do.

14          Q     And did this miner confirm that they had  
15    written up -- they had done written discipline in  
16    the past at American Tripoli?

17          A     Yes.

18                JUDGE MORAN: When you requested the  
19    personnel files for Mr. Baumann, you say three  
20    times you made the request?

21                THE WITNESS: Yes, sir.

22                JUDGE MORAN: And how did you make those

1 requests? Writing or verbally?

2 THE WITNESS: It was in writing.

3 JUDGE MORAN: In writing?

4 THE WITNESS: Yes.

5 JUDGE MORAN: Three separate letters?

6 THE WITNESS: Yes.

7 JUDGE MORAN: Did you ever receive a  
8 response one way or another such as there some  
9 options here. One is you received no response.  
10 The other is we declined to give it to you. What  
11 applied to the three letters you sent?

12 THE WITNESS: Well, to be truthful about  
13 it, you know, I asked for the personnel file that  
14 I didn't get, and all of that's in the case file,  
15 and --

16 JUDGE MORAN: Try and focus on my  
17 question. What, if anything, did they respond to  
18 your three letters? No, we're not giving it.

19 THE WITNESS: No, they gave me bits and  
20 pieces of it. It might have been, and I have to  
21 look back and see, but I don't think I got very  
22 little at all, if any, of his personnel file,

1     because that's what I was looking for.   Where's  
2     the three step process, and I didn't receive that.

3                 JUDGE MORAN:   Okay.

4                 BY MS. O'REILLY:

5                 Q     And so in your investigation did you ask  
6     for any disciplinary records for Mr. Baumann?

7                 A     I did.

8                 Q     Did you receive any written disciplinary  
9     records for Mr. Baumann?

10                A     I did not.

11                Q     I'm going to turn your attention to  
12     Exhibit P16.   That's going to be in a different  
13     notebook.   The first one that we had.

14                JUDGE MORAN:   Are we moving for any  
15     partial introduction of -- we, I mean you, of  
16     course, P41?

17                MS. O'REILLY:   Yes.   We will move to  
18     admission of Exhibit P41.

19                JUDGE MORAN:   All right.   Any objection  
20     to P41?   Thank you.

21                MR. TIDABACK:   No.

22                JUDGE MORAN:   Thank you.

1 BY MS. O'REILLY:

2 Q Are you seeing P16 now?

3 A I am on that, yes.

4 Q And do you know what this document is?

5 A It's the employees handbook, table of  
6 contents, and I see all the -- this is what I was  
7 sent --

8 Q Okay.

9 A -- by American Tripoli.

10 Q You received this as part of your  
11 investigation?

12 A Yes.

13 Q And did you put this in your  
14 investigation file?

15 A I did.

16 Q And did you maintain it there?

17 A Yes.

18 Q And is it a regular part of your  
19 business to keep the documents you receive in an  
20 investigation from your investigation file?

21 A Yes.

22 Q Is this a true and accurate copy of the

1 employee handbook you received during your  
2 investigation?

3 A I think so. It was one of 46 pages, so  
4 it says there's 46 here.

5 MS. O'REILLY: I would move to admit  
6 Exhibit P16.

7 JUDGE MORAN: Any objection to P16?

8 MR. TIDABACK: No, Your Honor.

9 JUDGE MORAN: P16 is admitted.

10 (Complainant's Exhibit P-16 was  
11 marked for identification and  
12 received in evidence.)

13 BY MS. O'REILLY:

14 Q And I'll direct your attention to Page  
15 43 of Exhibit P16. On this page do you see  
16 progressive discipline listed on that page?

17 A Yes.

18 Q And is this your understanding that this  
19 was the disciplinary policy of American Tripoli at  
20 the time of Mr. Baumann's termination?

21 A Yes.

22 Q As part of your investigation of this

1 complaint did you interview Mr. Tidaback?

2 A I did not.

3 Q Did you interview Mr. Spears?

4 A No.

5 Q Did you ask to interview them?

6 A I asked to interview or a position  
7 statement. They sent me a position statement.

8 Q And did you review that position  
9 statement?

10 A I did.

11 Q And was their position statement  
12 supported by the other evidence you received in  
13 your investigation? Let me ask it differently.  
14 Was that position statement consistent with the  
15 other information you received in your  
16 investigation?

17 A No.

18 Q Did you run into any -- it sounds like  
19 you ran into this issues gathering information  
20 from American Tripoli during your investigation.  
21 Correct?

22 A Correct.

1 Q Did you ask for Teams chats as part of  
2 your investigation?

3 A I did.

4 Q Did you only get a portion of the Teams  
5 chats you requested as part of your investigation?

6 A I got a small portion.

7 Q At the time of MSHA's inspection, were  
8 you provided with all of the Teams chats you have  
9 seen us talking about that have been presented at  
10 this hearing?

11 A Say that again.

12 Q You've been sitting in at this hearing  
13 as MSHA representative and you've seen us go  
14 through multiple page of the Teams chat. Did you  
15 receive all of those in your investigation?

16 A No.

17 Q Did you determine that Mr. Baumann was a  
18 miner?

19 A I did.

20 Q Did you determine that Mr. Baumann  
21 engaged in protected activity?

22 A Yes.

1 Q And what was that activity?

2 A The activity?

3 Q Yes.

4 A He reported safety hazards. He reported  
5 safety concerns. He was also a representative of  
6 the miners that had been interfered with in his  
7 duties as representative of miners.

8 Q Did you determine -- go ahead.

9 A I did realize an adverse action.

10 Q Did you determine that Mr. Baumann  
11 suffered an adverse action?

12 A Yes.

13 Q Did you determine that Mr. Baumann's  
14 termination -- what was the adverse action?

15 A He was terminated.

16 Q Did you determine that Mr. Baumann's  
17 adverse action was motivated by the protected  
18 activity he engaged in?

19 A Yes.

20 Q And why did you reach that  
21 determination?

22 A There was a nexus between those two.

1 You know, he became ripped -- of course, he had  
2 been, you know, safety advocate for awhile, but  
3 you know, and come to safety concerns, reported  
4 safety hazards, and then he had just been a miners  
5 rep for this very few weeks whenever he was -- and  
6 after coming up and the inspectors coming and him  
7 doing his duties under the representative of  
8 miners, then the next thing happened was he  
9 traveled with the inspectors and whenever they  
10 issued the orders that they issued that shut the  
11 mill down, then, you know, he went on and done his  
12 duties per those representing the miners and check  
13 into it and read his represented miners rights and  
14 miners rights book and found out the miners should  
15 have been paid or compensated for the rest of that  
16 shift and four hours into the next shift. And  
17 when he confronted management about it, from what  
18 I gathered, they were reluctant on paying that,  
19 but -- and like two, three days later he was  
20 terminated. So that's a pretty close proximity.

21 Q After you finished your 105 -- after you  
22 finished your 105(b) investigation into Mr.

1 Baumann's complaint, did the investigation go to  
2 another department of MSHA?

3 A It does.

4 Q Where does it go?

5 A It goes to our technical investigative  
6 compliance division, and there -- that's in  
7 Arlington, and then there it is analyzed by  
8 another set of individuals that they pick it apart  
9 and look at it and analyze it, and you know, they  
10 do what they do.

11 Q And then do you have an understanding as  
12 to where it goes from the technical center?

13 A It then it goes in MSHA's solicitor's  
14 office.

15 Q And do these other entities continue the  
16 secretary's investigation?

17 A Yes.

18 MS. O'REILLY: I have a few MSHA, like,  
19 records and documents I was going to try to get  
20 admitted, either through this witness or I can  
21 just kind of explain them. For example, Exhibit  
22 P42 they signed memorandum listing just the

1 penalty in this case from MSHA.

2 JUDGE MORAN: This is a regularly kept  
3 business record?

4 MS. O'REILLY: Yes.

5 JUDGE MORAN: So that's one. P42? Do  
6 you have an objection to P42, Mr. Tidaback?

7 MR. TIDABACK: No.

8 JUDGE MORAN: P42 is admitted.

9 (Complainant's Exhibit P-42 was  
10 marked for identification and  
11 received in evidence.)

12 MS. O'REILLY: And then --

13 JUDGE MORAN: You have some others.  
14 Right?

15 MS. O'REILLY: Yes.

16 JUDGE MORAN: Go ahead.

17 MS. O'REILLY: So next is Exhibit P22,  
18 and this is a --

19 JUDGE MORAN: P22?

20 MS. O'REILLY: Yes. P22.

21 JUDGE MORAN: So this doesn't involve  
22 you, Mr. Dillingham. This is in the nature of

1 admitting regularly kept business records, so go  
2 ahead.

3 MS. O'REILLY: Yeah. Exhibit P22 I  
4 would argue is a self-authenticating as well.  
5 It's certified on the last page by Caroline  
6 Fetters, the assessed violation history for the  
7 mine.

8 JUDGE MORAN: Two year violation  
9 history?

10 MS. O'REILLY: Yes. So I move to admit  
11 Exhibit P22.

12 JUDGE MORAN: Any objection to P22?

13 MR. TIDABACK: No.

14 JUDGE MORAN: P22 is admitted.

15 (Complainant's Exhibit P-22 was  
16 marked for identification and  
17 received in evidence.)

18 MS. O'REILLY: Then I would also move to  
19 admit Exhibits P19 and P20. These both come from  
20 the mine data retrieval system we talked about  
21 previously. It's a publicly available document  
22 that MSHA maintains on mines and it just contains

1 information about the mine with regard to the size  
2 of the mine and the penalty factors.

3 JUDGE MORAN: I need those numbers  
4 again, please.

5 MS. O'REILLY: P19 and P20.

6 JUDGE MORAN: P19 just being a one page  
7 document?

8 MS. O'REILLY: Yes. Correct.

9 JUDGE MORAN: And tell me what that  
10 document is again?

11 MS. O'REILLY: It's from the mine data  
12 retrieval system and just tells the production  
13 hours, as far as for penalty factors, you know,  
14 the size of the mine and what production is.

15 JUDGE MORAN: I see.

16 MS. O'REILLY: Getting it in for that  
17 purpose.

18 JUDGE MORAN: I see. Any objection to  
19 P19, Mr. Tidaback?

20 MR. TIDABACK: No.

21 JUDGE MORAN: P19 is admitted.

22 (Complainant's Exhibit P-19 was

1                   marked for identification and  
2                   received in evidence.)

3                   MS. O'REILLY: P20 is the same thing,  
4                   except it just goes over the more citation  
5                   history, but it's from the mine data retrieval  
6                   system as well.

7                   JUDGE MORAN: You mean it's a  
8                   continuation --

9                   MS. O'REILLY: No. It's just another  
10                  document from the mine data retrieval data system.

11                  JUDGE MORAN: Okay. How does this  
12                  inform me?

13                  MS. O'REILLY: This just lists the  
14                  different inspections and then citations at the  
15                  mine we've been talking about, inspections,  
16                  citations. It's just more of an official record  
17                  that these were taking place and the dates of  
18                  those. So it shows, you know, in the year 2023,  
19                  2022, the citations on the mine.

20                  JUDGE MORAN: I see it's data including  
21                  the number of, for example, in the top line that  
22                  there were the 104(a) citations issued in 2023.

1 MS. O'REILLY: Correct.

2 JUDGE MORAN: And it lists the other  
3 types of violations or orders.

4 MS. O'REILLY: Correct.

5 JUDGE MORAN: All right. Any objection  
6 to P20? P20 is admitted.

7 (Complainant's Exhibit P-20 was  
8 marked for identification and  
9 received in evidence.)

10 MS. O'REILLY: And then P23 is a  
11 document. It's more information that is in the  
12 penalty assessment comes from, as far as the size  
13 of the mine and the history of the mine, so it's  
14 just an MSHA report maintained about the mine and  
15 violations at the mine throughout its history.

16 JUDGE MORAN: All right. Any objection  
17 to P23?

18 MR. TIDABACK: Just trying to figure out  
19 how this deals with Mr. Baumann's termination,  
20 Your Honor.

21 JUDGE MORAN: I could answer that but  
22 it's not for me to do that. Go ahead, Ms.

1 O'Reilly.

2 MS. O'REILLY: For the penalty factors  
3 the Court has to determine the size of the mine,  
4 the past history. I'm just getting these in for  
5 the Court's reference when he makes that  
6 determination.

7 MR. TIDABACK: No objection.

8 JUDGE MORAN: Okay. Thank you. P23 is  
9 now admitted.

10 (Complainant's Exhibit P-23 was  
11 marked for identification and  
12 received in evidence.)

13 MS. O'REILLY: And I have no further  
14 questions at this time for this witness.

15 JUDGE MORAN: Okay. Are you ready to  
16 cross examine Mr. Dillingham?

17 MR. TIDABACK: Yes.

18 JUDGE MORAN: Okay. Thank you. Ms.  
19 Blackerby, how are you doing?

20 COURT REPORTER: I'm doing fine.

21 JUDGE MORAN: Thank you. Do you need a  
22 break?

1 COURT REPORTER: No, I'm good.

2 CROSS-EXAMINATION

3 BY MR. TIDABACK:

4 Q Mr. Dillingham, on Exhibit P16,  
5 hopefully you're still turned to that page. I  
6 know it's pretty big.

7 JUDGE MORAN: P16?

8 MR. TIDABACK: P16. Yes, Your Honor.

9 JUDGE MORAN: Okay. Tell us when you're  
10 there.

11 THE WITNESS: Okay.

12 BY MR. TIDABACK:

13 Q Do you recall reading the last paragraph  
14 of the progressive disciplinary hearing paragraph?

15 A I read all this, all these documents  
16 here.

17 Q If you wouldn't mind --

18 JUDGE MORAN: Well, do you want him to  
19 read from your disciplinary procedure, handbook of  
20 -- your employees handbook, do you want him to  
21 read from that?

22 MR. TIDABACK: I'm asking did he read

1 the last paragraph since the Secretary asked him  
2 before about the three steps, did he read the  
3 entire progressive disciplinary paragraph.

4 JUDGE MORAN: Did you read the entire  
5 part of this, on Page 43, I believe it is. Is  
6 that right, Page 43?

7 MR. TIDABACK: Yes, Your Honor.

8 JUDGE MORAN: I don't mean right now.  
9 At some point during your investigation.

10 THE WITNESS: I read this whole policy  
11 here.

12 BY MR. TIDABACK:

13 Q Okay. So in this instance, at the  
14 bottom. The last sentence of that section, do you  
15 agree that it states, "For serious offenses we may  
16 terminate you without warning"?

17 MS. O'REILLY: I would object, it's not  
18 a direct quote, but.

19 JUDGE MORAN: You're paraphrasing what's  
20 in there.

21 MR. TIDABACK: The last sentence, Your  
22 Honor. Yeah, for serious offenses -- I'm sorry.

1 For serious offenses --

2 JUDGE MORAN: Then there's an example.

3 Sexual harassment, we may terminate you without  
4 warning. Do you agree that's in there as part of  
5 the progressive discipline, Inspector Dillingham?

6 THE WITNESS: Yes, I understand that.

7 BY MR. TIDABACK:

8 Q Okay. So how do you document your  
9 findings during the inspection and any official  
10 communication with us? You have all those  
11 records. Like you said it goes into your files?

12 A How do we document what I get from you?

13 Q Yes.

14 A We keep it. I've got a case file. We  
15 created a case file. We start from the beginning  
16 and it's tabbed just like these books are.

17 Q Correct.

18 A And we -- it goes in a sequential order  
19 and we keep everything in order, and we keep that.  
20 That's confidential.

21 Q Thank you. Did you have any  
22 interactions with the Claimant prior to your

1 investigation?

2 A No.

3 Q Okay. Have you had any interactions  
4 with the Claimant after hours or off site prior to  
5 the Claimant's discrimination filing?

6 A Say that one more time.

7 Q Have you had interactions with the  
8 Claimant after hours or off site prior to  
9 Claimant's discrimination filing?

10 A The only time, I guess I could say this,  
11 are you talking about Mr. Baumann?

12 Q Yes, sir.

13 A When I done the interview for Mr.  
14 Baumann, he, of course, and I'm going to kind of  
15 get into this here. I met him off site. I didn't  
16 meet him at an MSHA office or my hotel or  
17 something. We met away from, I mean in another  
18 location. So I don't know if that's what you're  
19 meaning, but we didn't hang out, went to the bar,  
20 but you know.

21 Q Prior to his -- prior to the Claimant's  
22 discrimination filing did you have any

1 communications with Mr. Baumann?

2 A Not that I know of.

3 Q If you did, would you record it as  
4 official communications in your inspection report?

5 MS. O'REILLY: Objection, it calls for  
6 speculation. He's already answered that he did  
7 not.

8 JUDGE MORAN: I sustain the objection.

9 BY MR. TIDABACK:

10 Q Fair enough. Okay. Have you ever  
11 expressed opinions about our company or its  
12 practices either publicly or privately outside of  
13 your official reports?

14 A I don't know exactly how. We talked to  
15 our supervisors. I mean, yeah, I've talked to a  
16 few people within MSHA we talked because I also  
17 have a 110 investigation that's going right now,  
18 so.

19 JUDGE MORAN: Okay. We don't want to go  
20 -- that's probably my case, or if it comes to  
21 pass.

22 THE WITNESS: Yeah, I do talk to

1 different people.

2 BY MR. TIDABACK:

3 Q So you talk to the -- you do talk to the  
4 inspectors, the MSHA inspectors that have visited  
5 our site about this case?

6 MS. O'REILLY: I'll object. It's the  
7 process. He's kind of towing the line of talking  
8 about internal workings of the agency and internal  
9 deliberations in reaching determinations. I will  
10 represent just for the record, Mr. Dillingham was  
11 involved in another 105(b) investigation with this  
12 mine and a 110(c) investigation, so I think we can  
13 stipulate that he's involved in a variety of cases  
14 with this mine. I don't know how that's relevant  
15 to this case, though.

16 JUDGE MORAN: And I agree on several  
17 points that you just made, including your  
18 reference to deliberative process. That's a  
19 privilege. Meaning it's an area that it can be  
20 disclosed, and the idea behind that is that if you  
21 were to not have a deliberative privilege, people  
22 would be hesitant to speak freely about matters

1     that they're looking at. So for those reasons  
2     those conversations are not something that can be  
3     closed or discussed.

4             MR. TIDABACK: The question was about  
5     opinions. Not factual information.

6             MS. O'REILLY: That's precisely what the  
7     privilege is for. It's to allow for open and free  
8     communication among MSHA personnel about  
9     investigations that are ongoing or that are  
10    completed.

11            JUDGE MORAN: Yes. I sustain the  
12    objection from the Secretary.

13            MR. TIDABACK: Okay.

14            THE WITNESS: Can I clear something up?

15            JUDGE MORAN: No.

16            THE WITNESS: Okay.

17            JUDGE MORAN: Because we can't have  
18    witnesses volunteering information. Not to be  
19    rude to you, it's just that we have to have the  
20    same rules apply in this proceeding and in all  
21    proceedings, so uniformly to the witnesses.

22            THE WITNESS: That's what was going to

1 explain how our system works.

2 MS. O'REILLY: We're saying we shouldn't  
3 explain how our process works, due to the  
4 deliberative process privilege. So be careful as  
5 to revealing internal workings, internal  
6 conversations, we would object to that.

7 JUDGE MORAN: What I said, don't  
8 volunteer things. Listen to questions asked and  
9 answer, as best you can, without going afield, or  
10 afield from the question itself. Focus on the  
11 question. All right? Go ahead, sir.

12 BY MR. TIDABACK:

13 Q In the statement, mine operator  
14 statement you received from us.

15 A Yes.

16 Q With reading that, did you have  
17 additional questions?

18 A I think we -- I had questions and we'd  
19 try to clarify things, because I didn't receive  
20 what I asked for.

21 Q Did you -- did you follow up and ask  
22 those questions?

1           A       I asked for additional -- I asked for  
2       that, what we asked for initially be fulfilled,  
3       because that was something that we, you know,  
4       under 103, you know, we have that right.

5           Q       But those questions specifically that  
6       you had, did you speak to Mr. Spears, myself or  
7       Jordan?

8           A       No.

9           MR. TIDABACK:   That's all my questions.

10          JUDGE MORAN:   Okay.   Any questions?

11          MS. O'REILLY:   No more questions, Your  
12       Honor, for this witness.

13          JUDGE MORAN:   Okay.   Thank you, Mr.  
14       Dillingham, for your testimony, sir, and of  
15       course, you'll be staying in the courtroom because  
16       you're the MSHA representative.

17          MS. O'REILLY:   And the Secretary is  
18       going to call Mr. Keith Markeson.

19          JUDGE MORAN:   Okay.

20          MR. TIDABACK:   I object, Your Honor, to  
21       the witness.

22          JUDGE MORAN:   We're going -- you can

1 object once I swear him in. I'll listen to your  
2 objection.

3 MR. TIDABACK: Yes, Your Honor.

4 THE WITNESS: Thank you, Your Honor.

5 JUDGE MORAN: Thank you, Doc Dillingham.

6 Okay. Court Reporter, can you hear me?

7 COURT REPORTER: Yes, I can.

8 JUDGE MORAN: Do you need a break?

9 COURT REPORTER: No, I'm fine.

10 JUDGE MORAN: I couldn't hear.

11 COURT REPORTER: I'm fine.

12 JUDGE MORAN: You're fine. Okay. I  
13 didn't ask you if you needed a break, did I? I'm  
14 sorry. We could take a minute or two. I don't  
15 have to have somebody in here every second. Are  
16 you concerned about -- we're safe. Okay. So  
17 we'll pause while you will get your relief person  
18 in.

19 (Recess)

20 JUDGE MORAN: We are going to -- I can't  
21 swear you in right now. I guess we can proceed.  
22 The bailiff, the marshal, I'm not sure of his

1 correct title, wants to make sure that there's  
2 someone in here. That's this courtroom's  
3 procedure, but I don't -- I don't see a problem  
4 with us proceeding, so let's do that. Okay. So  
5 I'm Judge Moran. Nice to meet you, and I'm going  
6 to swear you in. Your name is Keith Markeson?

7 THE WITNESS: It is.

8 JUDGE MORAN: Please raise your right  
9 hand, sir.

10 Whereupon,

11 KEITH MARKESON

12 was called as a witness and, having been first  
13 duly sworn, was examined and testified as follows:

14 JUDGE MORAN: Please be seated, and the  
15 protocol is for you to state your name and then  
16 spell it.

17 THE WITNESS: My name is Keith Stephen  
18 Markeson. K-e-i-t-h S-t-e-p-h-e-n  
19 M-a-r-k-e-s-o-n.

20 JUDGE MORAN: And so Mr. Tidaback has an  
21 objection to this witness testifying. Is that  
22 true?

1 MR. TIDABACK: That is correct, Your  
2 Honor.

3 JUDGE MORAN: Okay. And so I would like  
4 you to state the basis of your objection.

5 MR. TIDABACK: There's two of them. The  
6 first one we object to this witness due to his  
7 testimony of not having to do with Rob Baumann's  
8 termination in any way. He's not involved in the  
9 decisionmaking process of that. The second one is  
10 there's an open MSHA case, a complaint case  
11 against Inspector Markeson. We do not have a  
12 conclusion on that, Your Honor.

13 JUDGE MORAN: Okay. Well, taking them  
14 in reverse order. The second issue, you say  
15 there's a complaint that you have filed against  
16 Inspector Markeson?

17 MR. TIDABACK: Yes, Your Honor.

18 JUDGE MORAN: Okay. To limit to the  
19 extent I'll allow you to ask questions on cross  
20 examination that's going to be very limited  
21 because this is in the category, again, of  
22 something being afield from this proceeding, but

1 it is my understanding, you tell me if I'm wrong  
2 about this, that there have been references during  
3 the course of the hearing that American Tripoli  
4 has had issues with this inspector's behavior  
5 during his inspections. Is that true?

6 MR. TIDABACK: That is correct.

7 JUDGE MORAN: That's something that  
8 during cross examination you can ask him about  
9 whether the relationship or whether there was  
10 problems in dealing with one another. You can ask  
11 that, but as to your first point, which was that  
12 you say this individual was not involved in the  
13 decision-making process.

14 MR. TIDABACK: Correct.

15 JUDGE MORAN: None of the witnesses that  
16 have testified have been involved in the  
17 decisionmaking process, if by that you mean that  
18 the decision to terminate.

19 MR. TIDABACK: Sure.

20 JUDGE MORAN: Okay. So this witness, I  
21 haven't yet heard from, Attorney Moll, I assume is  
22 going to testify about, because it's been an

1 issue, about this operation, what he observed and  
2 whether there were problems with compliance,  
3 because his name has been invoked here as being,  
4 perhaps, a contentious inspector. Okay. And so  
5 I'm denying your request that he be precluded from  
6 testifying. You'll have some rights, limited  
7 rights for appropriate questions during cross  
8 examination.

9 Now, do you want to add to anything to  
10 that Attorney Moll?

11 MR. MOLL: Your Honor, I agree with what  
12 you had stated. I'd also like to note for the  
13 record that to my knowledge, there is no active  
14 complaint against Mr. Markeson as well, and Mr.  
15 Markeson will also be testifying regarding his  
16 interactions with Mr. Baumann and his observations  
17 at American Tripoli. So it will be directly  
18 relevant to the issues in this case.

19 JUDGE MORAN: Okay, sir. So on cross  
20 examination you can ask, I'm addressing this for  
21 Mr. Tidaback, you can inquire about whether  
22 there's an active investigation going on against

1    this inspector, and we're not going to get into  
2    the details of that, but he can either confirm  
3    whether there was an active investigation. All  
4    right. You can ask, I guess, another question.  
5    You could ask if there's been any disciplinary  
6    action brought against this inspector for any of  
7    his activities while inspecting at your mine. So  
8    those would be some of the areas that you could  
9    ask about, and those questions would be directed  
10   -- the purpose of such questions would be to  
11   challenge his credibility on his witness -- his  
12   credibility as a witness in this case. All right.  
13   In other words, the suggestion would be that he  
14   has an axe to grind, if there's a contentious  
15   relationship and whether I find that that's true  
16   or not is a different matter. But I'm telling you  
17   about the limited scope of your cross examination  
18   when it comes up of this witness.

19                    Now, Attorney Moll, you seem like a fine  
20   fellow and you're young, which is a great thing.  
21   Wish I could be young again. Not going to happen,  
22   but I want you to confine yourself to speak

1     forcefully, okay. In other words, so we can all  
2     hear you. If you're soft spoken, you're going to  
3     have to urge that soft spoken knob up so that it's  
4     not soft spoken. Will you do that for me?

5                 MR. MOLL: Yes, Your Honor. I don't  
6     think that will be an issue.

7                 JUDGE MORAN: Okay. Good. So begin  
8     with you're questioning of Inspector Markeson.

9                 DIRECT EXAMINATION

10                BY MR. MOLL:

11                Q     Will you please state your name for the  
12     record.

13                A     Keith Stephen Markeson.

14                Q     And where do you currently employed?

15                A     The Mine Safety and Health  
16     Administration, Rolla, Missouri field office.

17                Q     Okay. And what's your current title  
18     with the Mine Safety Health Administration or  
19     MSHA?

20                A     Mine safety and health inspector.

21                Q     And how long have you worked for MSHA?

22                A     Sixteen and a half years.

1 Q What was your job prior to working MSHA?

2 A I was a senior mine geologist for the  
3 Delrin Company.

4 Q And how long were you in that position?

5 A For five years.

6 Q Okay. And so approximately how long  
7 have you worked in the mining industry?

8 A Since the year 2000.

9 Q Okay. Now, as an inspector, what are  
10 your job duties?

11 A Inspect mines for compliance for the 30  
12 CFR and the Federal Mine Safety and Health Act and  
13 the miner act. Conduct accident investigations,  
14 and I am also a member of the national mine rescue  
15 team.

16 Q Did you ever inspect American Tripoli or  
17 the mine known as American Tripoli?

18 A Yes. Many times.

19 Q Okay. Can you briefly describe the  
20 operations occurring at American Tripoli?

21 A They quarry their material over in  
22 Oklahoma. That material is then trucked over to

1 drying sheds on the Missouri side. Dries for a  
2 period of time there, and then it is trucked again  
3 to the plant in Seneca, Missouri, where it is  
4 crushed and ground and sized and then packaged for  
5 sale.

6 Q Okay. And would you inspect the plant  
7 in Seneca, Missouri?

8 A Yes.

9 Q Okay. So during your inspections at  
10 this plant at Seneca, Missouri, did you ever meet  
11 Rob Baumann?

12 A Yes, I did.

13 Q Okay. And approximately how many times  
14 did you interact with him, Mr. Baumann?

15 A Rob accompanied me, or Mr. Baumann,  
16 sorry, Mr. Baumann accompanied me on every  
17 inspection I conducted there, including one  
18 inspection after his termination.

19 Q Okay. And when you say he accompanied  
20 you, what did that entail?

21 A So prior to him being elected as a  
22 miners representative he accompanied me as the

1 company representative. He was the production  
2 supervisor. And then after he was elected as the  
3 miners representative, he accompanied me as the  
4 miners representative.

5 Q And are you familiar with the members of  
6 management at American Tripoli?

7 A I'm familiar with the members of  
8 management that were there when I was there.

9 Q And who would that have been?

10 A John Spears was the operations manager.  
11 Rob Baumann was the production supervisor, and  
12 then Jordan and Russell Tidaback were in the  
13 ownership roles.

14 Q Did you ever meet Russell Tidaback?

15 A Yes. I met him for the first time on  
16 February 27th.

17 Q Okay. And what would --

18 JUDGE MORAN: February 27th of?

19 THE WITNESS: 2023.

20 Q (By Mr. Moll) Okay. And what context  
21 would that have been?

22 A We were at the mine conducting a

1 complaint investigation, and Mr. Tidaback came in  
2 from out of town to participate in that  
3 investigation.

4 Q Okay. And during that time that  
5 Tidaback -- Mr. Tidaback was there, was Mr.  
6 Baumann also there?

7 A Yes, he was.

8 Q Okay. And did Mr. Baumann participate  
9 in an inspection during that time period?

10 A Yes. He accompanied me.

11 Q Okay. And did Mr. Tidaback see Mr.  
12 Baumann participating in that inspection?

13 A I would assume so. He was with us.

14 Q Okay. So both of them were together  
15 with you at the same time. Is that correct?

16 A Actually, it was Mr. Tidaback, Mr.  
17 Baumann and Mr. Spears were all with us.

18 Q Understood. During your interactions  
19 during inspections, what was Mr. Baumann's  
20 attitude like?

21 A He was -- he was a good company  
22 representative. He didn't necessarily elaborate

1 on things, but when I asked him a direct question  
2 he gave me a direct answer. He was very helpful  
3 in explaining how the operation worked so that I  
4 could understand how things proceeded through the  
5 plant. And after his election as a miners  
6 representative he brought other miners' concerns  
7 to me to be addressed during the inspections.

8 Q Okay. And did it seem like Mr. Baumann  
9 had a good grasp on how things worked at the mine?

10 A Yes. Very good. He was the guy who  
11 knew how the plant ran.

12 Q And did it seem like he had, Mr. Baumann  
13 had a good understanding of the safety issues that  
14 might have been present at American Tripoli?

15 A Yes, he did.

16 Q Okay. Did you ever get the feeling that  
17 Mr. Baumann was frustrated with what was going on  
18 at the mine?

19 A Yes. Actually, during the first day  
20 that I traveled with him he brought some concerns  
21 to my attention when we were on the top floor of  
22 the mill building that needed to be addressed.

1           Q     Okay. And why was he frustrated with  
2 those?

3           A     A miner had gotten hurt at the mine. He  
4 had fallen through some floor grating and gotten  
5 hurt, and he didn't want anybody else to get hurt.  
6 And during some of the repairs that were conducted  
7 at the mine, he was directed to leave guards out  
8 of place to get back into production faster, and  
9 he thought that was a concern that needed to be  
10 addressed.

11          Q     Did Mr. Baumann ever seem frustrated  
12 that he wasn't able to fix some of the safety  
13 issues that were presented at the mine?

14          A     Yes. Definitely.

15          Q     Okay. And could you explain a little  
16 bit more about that?

17          A     He told me that he wanted to fix them,  
18 but they had trouble with their maintenance men.  
19 They had gone through several maintenance people,  
20 and also, that his supervisor, John Spears, would  
21 not allow him to take -- shut the plant down long  
22 enough to fix some of the issues.

1           Q     Okay. So did you -- did you get a sense  
2     that Mr. Baumann was trying his best to get things  
3     fixed but was unable to do so?

4           A     Yes. That was my impression.

5           Q     Okay. And I think you mentioned earlier  
6     that Mr. Baumann was the miners rep. Could you  
7     expand a little bit more about how that came to  
8     be?

9           A     So during the normal course of my  
10    inspections we talk about miners rights as we're  
11    talking to the miners, and one of the things I  
12    brought up in their break room one day while they  
13    were all in there was that if they chose to do so,  
14    they could elect a miners representative, which  
15    would be a person to accompany MSHA, that would  
16    also have the right to accompany us, and that they  
17    could conference citations, just like the mine  
18    operator. They could request inspections, just  
19    like the mine operator. And if they chose to do  
20    so, to let me know and I would get them what they  
21    needed, the paperwork they needed. And I think  
22    shortly thereafter I provided them with the paper,

1 the election paperwork.

2 Q Okay. And so you provided Mr. Baumann  
3 with the paperwork necessary to become a miners  
4 representative?

5 A Yes.

6 Q Okay. And did he then become elected to  
7 become a miners representative?

8 A Yes. On the -- on March 21st of 2023 he  
9 was elected.

10 Q Okay. And after that happened, what did  
11 you do?

12 A So right at the beginning of that day of  
13 inspection on the 21st I met with Mr. Baumann. He  
14 told me that he had been elected as the miners  
15 representative. I looked at -- he gave me the  
16 form. I looked at it. The miners that elected  
17 him were present. I asked them to confirm that  
18 they had indeed elected him as the miners  
19 representative. They confirmed that they did.

20 I then paused the inspection, went into  
21 the main office, and explained to Mr. Spears that  
22 they now had a miners representative that had the

1 authority -- that had the right to accompany us  
2 during our inspections. They also had the right  
3 to conference citations, sit in on a close outs,  
4 that type of thing. And I showed Mr. Spears the  
5 top half of the election form that showed that Mr.  
6 Baumann was elected. I covered the bottom half,  
7 because the miners that elected him elected --  
8 wanted to remain confidential.

9 Q Okay. And so Mr. Spears knew that Mr.  
10 Baumann was the miners rep after that  
11 conversation. Is that correct?

12 A Yes.

13 Q Okay. And you say you kept the bottom  
14 half of the sheet with the names of the people who  
15 elected Mr. Baumann miners rep confidential. Is  
16 that standard practice to keep those names  
17 confidential?

18 A There's a check box on the form that  
19 says whether they want to remain confidential or  
20 not. If they check that box, we do not disclose  
21 who elected them. If they don't check the box,  
22 then they didn't want to remain confidential and

1 it's not an issue.

2 Q So would you do that in every instance  
3 with every mine where they -- check the box that  
4 they want to remain confidential, you would keep  
5 them confidential?

6 A Oh, yes. Definitely. We're required  
7 to.

8 Q Did you, during your inspections, did  
9 you ever speak or interact with any other  
10 employees at the mine or any miners at the mine?

11 A Yes. All of them. I talked to  
12 everybody that worked there.

13 Q Okay. And did any of those miners seem  
14 concerned or nervous about safety at the mine?

15 A Yes. There were -- there were four  
16 miners that worked at the mine that were concerned  
17 with the safety. The fifth miner just really  
18 didn't talk much.

19 Q And what sorts of safety concerns did  
20 they raise?

21 A Dust was a big concern at the mine.  
22 Them being exposed to a lot of dust without proper

1 protection. Guards being left off, which left  
2 exposed moving machine parts. Some electrical  
3 issues and general condition of walkways and work  
4 areas, whether it be sturdiness of the area or  
5 housekeeping of the areas.

6 Q While you're conducting inspections, did  
7 you ever threaten any miners at the mine?

8 A No.

9 Q Did you ever threaten anyone at the  
10 mine?

11 A No.

12 Q Did you ever see anyone from any other  
13 MSHA inspector threatening anyone at American  
14 Tripoli?

15 A No, I did not.

16 JUDGE MORAN: Just to put a fine point  
17 on that, did you -- I mean, the question was asked  
18 in a broad sense. Did you ever threaten anyone  
19 with American Tripoli, management, and I mean by  
20 that, did you ever threaten or a synonym for  
21 threaten, warn Mr. Tidaback or Jordan Tidaback or  
22 Mr. Spears, did you ever threaten any of those

1 individuals?

2 THE WITNESS: I did not threaten them,  
3 but I have explained the -- because they were new  
4 to MSHA.

5 JUDGE MORAN: Okay.

6 THE WITNESS: And I did explain our  
7 enforcement process. You know, we issue a  
8 citation, we set a termination due date. If no  
9 action is taken to abate it, a (b) order would be  
10 issued. And once an order is issued you can't  
11 work in the face of it. I explained that process  
12 to them, but not directly related to any specific  
13 issue.

14 JUDGE MORAN: Okay. And when you  
15 conveyed this, did you convey it in a threatening  
16 or harsh manner, or alternatively in a matter of  
17 fact informative manner about the process?

18 THE WITNESS: Matter of fact informative  
19 manner, and I actually used the back of our  
20 citation form that explains all of that to  
21 illustrate that process.

22 JUDGE MORAN: Okay. Since I

1 interrupted, let me just interrupt a little  
2 further. And that is, tell me if I have this  
3 correct. I believe you testified earlier that on  
4 each of your inspections Mr. Baumann was there  
5 with you?

6 THE WITNESS: Yes.

7 JUDGE MORAN: So it wasn't asked and I  
8 would like answered is, on the numerous  
9 inspections that you had at this mine where Mr.  
10 Baumann was with you, either as a miners rep or  
11 before he became a miners rep, were there times  
12 when other mine employees, management in  
13 particular I'm asking about how, it was a long  
14 question, were in attendance with you and Mr.  
15 Baumann or was it always, I can simplify it,  
16 during your inspections was it always just the two  
17 of you?

18 THE WITNESS: No. It was -- it was just  
19 the two of us on one or two occasions. But most  
20 of the time we either had Mr. Spears with us or  
21 Mr. Tidaback with us.

22 JUDGE MORAN: Okay. That's what I

1 wanted to know, because you didn't mention that  
2 and it wasn't asked.

3 MR. MOLL: I believe he mentioned  
4 earlier that it was during on one inspection he  
5 had Mr. Tidaback, Mr. Spears and Mr. Baumann all  
6 present at the same time.

7 THE WITNESS: Yes.

8 MR. MOLL: Is that correct?

9 JUDGE MORAN: But it was not uncommon.  
10 It was frequent for Mr. Spears or Mr. Tidaback to  
11 be along with and Mr. Baumann during your  
12 inspections. Is that true?

13 THE WITNESS: Yes.

14 JUDGE MORAN: Okay. Go ahead, Attorney  
15 Moll.

16 THE WITNESS: Can I add one more thing?

17 JUDGE MORAN: Sure.

18 THE WITNESS: When you had talked about  
19 the threatening, warning.

20 JUDGE MORAN: Yes.

21 THE WITNESS: Another thing was whenever  
22 we issue 104(d) citations or orders, we're

1 required to notify them that a special assessment  
2 review and a possible knowing and willful review  
3 will be conducted. So, of course, I notified them  
4 of that during the close out, during those  
5 inspections as well.

6 JUDGE MORAN: Okay. And you say you're  
7 required to. You mean that is what you are  
8 trained to do when a 104(d)(1) citation or order  
9 is issued, you are to advise the mine operator  
10 getting that piece of paper about the special  
11 assessment may be involved?

12 THE WITNESS: And the possible knowing  
13 and willful, yes.

14 JUDGE MORAN: Okay. Then you have to do  
15 that in every instance. Not just for this mine.

16 THE WITNESS: Every place we issue  
17 those, yes.

18 JUDGE MORAN: Okay. Go ahead, Attorney  
19 Moll.

20 MR. MOLL: Thank you, Your Honor.

21 BY MR. MOLL:

22 Q During your inspections was there ever

1 another inspector present with you?

2 A There was always another inspector  
3 present with me when I was at American Tripoli.

4 JUDGE MORAN: Oh, really? Okay.

5 BY MR. MOLL:

6 Q And during that time, at least in 2022  
7 and 2023 specifically, which inspectors would have  
8 been present with you?

9 A Dave Pruitt was present with me during  
10 the complaint investigation that went February,  
11 kind of through April. Randy Hill, supervisory  
12 mine safety health inspector Sean Pratt, district  
13 managers Tony Sims accompanied me, and then there  
14 were two inspector trainees that -- three  
15 inspector trainees that accompanied me on three  
16 separate occasions as well.

17 Q Okay. And did you ever see any of those  
18 individuals threaten anyone at the mine?

19 A No.

20 Q Okay. Did anyone ever -- any of those  
21 individuals ever threaten to call the police or  
22 the U.S. Marshal's during that time?

1           A       No.

2           Q       And you mentioned earlier that it seemed  
3       like management was unfamiliar with MSHA. Can you  
4       expand a little bit more on that?

5           A       They were -- when I first arrived at the  
6       mine, I met with John Spears. He was operations  
7       manager and he kind of expressed to me and Dave  
8       Pruitt, who was with me, that they were under new  
9       ownership. The new owner had never owned an MSHA  
10      regulated property before, and I kind of, as I  
11      started that inspection, I took extra effort to  
12      try and explain everything I was doing so that  
13      they could get a handle on how the MSHA regulation  
14      process worked.

15          Q       During your time inspecting American  
16      Tripoli during 2022 or 2023, did you ever hear  
17      from any of the miners that they had been told not  
18      to speak with MSHA?

19          A       Shortly after I started that inspection  
20      in February of 2023 three miners told me that they  
21      were not supposed to talk to MSHA, and two of them  
22      showed me text messages or Teams chats on their

1 phones that indicated that.

2 Q Okay. And did you see the specific text  
3 messages that stated that they weren't allowed to  
4 talk with MSHA?

5 A Yes.

6 Q And was it your understanding that the  
7 -- those individuals that you spoke with, they  
8 understood those text messages to mean that they  
9 should not interact with you or any other  
10 inspector for MSHA?

11 A That's how they understood it.

12 Q Okay. Did you find American Tripoli to  
13 be different or did it stand out from any of the  
14 other mines that you inspected in your time with  
15 MSHA?

16 A During 2022, 2023?

17 Q Or any -- any of the times that you had  
18 been an inspector.

19 A I mean, American Tripoli is unique  
20 because they have a unique product. That's --  
21 they're the only mine in Missouri I know that has  
22 that product, so their processing equipment is an

1 little different to deal with that product. It's  
2 an old plant, so maintenance is -- there's a lot  
3 of maintenance in the plant. When I inspected  
4 them years ago it was always a very clean place,  
5 well maintained, and the impression I got in  
6 February and onward in 2023 was that it was  
7 lacking in upkeep.

8 Q Okay. And when you mention that you had  
9 inspected them years ago, was that under different  
10 ownership than the present ownership?

11 A Yes. It was under two different  
12 previous owners.

13 Q Okay. And so whenever you're talking  
14 about the times that you inspected in 2022 and  
15 '23, under the ownership, is it your understanding  
16 that when it was under the ownership of Mr.  
17 Russell Tidaback?

18 A Yes.

19 Q And could you explain a little bit some  
20 of the differences that you observed based on your  
21 experience between the mine under previous  
22 ownership as compared to its ownership with Mr.

1 Tidaback?

2 A One of the biggest things was guards not  
3 being in place. There were a lot of guards that  
4 weren't -- that had been replaced. They were  
5 there. They were sitting next to the equipment.  
6 They just weren't back on the equipment. Another  
7 thing I noticed because it's always an issue there  
8 that the dust collection at the mine was not  
9 clearly what it used to be. Also, miners were  
10 doing a lot more manual work, cleanup and  
11 packaging than then they used to. They used to  
12 have an automated system for bagging product and  
13 stuff like that, and that kind of kept the miners  
14 away from the dust.

15 Q Okay. Now, during your inspections in  
16 2022 and 2023 did you find that the management at  
17 American Tripoli, and by management I'm referring  
18 to Mr. Tidaback, Ms. Tidaback and Mr. Spears, did  
19 you find that they were resistant to making  
20 changes that you suggested?

21 A If we wrote a citation they would fix  
22 it. However, just general suggestions we made for

1 improvements were never acted upon.

2 Q And were there times -- were there times  
3 during that inspection, in 2022 and 2023, where  
4 you issued a citation or made a suggestion  
5 regarding a specific condition that was existing  
6 and you came back at a later date and that  
7 condition had not been corrected?

8 A Yes. There were -- there were some (b)  
9 orders issued.

10 Q And what were those (b) orders for?

11 A The biggest thing that comes to mind is  
12 there was a dust citation issued on, what was it,  
13 March 30th, 2023 for overexposure to dust. I had  
14 sampled all the miners that worked -- that were  
15 working that day at the plant, and they were all  
16 overexposed. Four of them were overexposures that  
17 was citable. One was an overexposure that was not  
18 citable. I set the termination due date for April  
19 7th, which was a week later, which is standard  
20 because none of the miners had been enrolled in a  
21 respiratory protection program, and normally when  
22 we cite dust that doesn't have a respiratory

1 program, we give them a week to get that program  
2 in place, get the miners wearing respirators, fit  
3 tested, that type of thing.

4 And then I returned to the mine on April  
5 12th, so the termination due you was on the 7th.  
6 I came back the following Wednesday on April 12th  
7 and no action had been taken. Respirators hadn't  
8 been ordered. The respiratory protection program  
9 hadn't been put into place. Miners hadn't been  
10 fit tested or medically evaluated. Nothing had  
11 been done yet.

12 Q And I'm going to go ahead and direct  
13 your attention to what's been marked as Exhibit  
14 P21.

15 A Okay.

16 JUDGE MORAN: P21?

17 THE WITNESS: I assume that's Tab 1 in  
18 the book here. Right?

19 BY MR. MOLL:

20 Q Yes.

21 A Yes. I'm looking at it.

22 Q That's Volume 1 that you have got.

1 That's Volume 1?

2 A Yes.

3 Q All right.

4 JUDGE MORAN: So help me out with this  
5 Secretary. I have through P21. Does that mean we  
6 didn't admit this yet?

7 MS. SMITH: Your Honor, I think we did  
8 admit it yesterday during Mr. Baumann's testimony,  
9 but I didn't --

10 JUDGE MORAN: Thank you.

11 BY MR. MOLL:

12 Q And, Mr. Markeson, do you recognize this  
13 document?

14 A Yes.

15 Q Okay. And what is this?

16 A It's a report generated from our Mine  
17 Safety Information system, our computer system  
18 that lists events that took place at American  
19 Tripoli's mine ID 2300504.

20 Q And you know it's American Tripoli  
21 because of the mine ID. Is that correct?

22 A Yes.

1           Q     So do you recognize any of these event  
2 numbers as inspections you would have participated  
3 in?

4           A     Yes. So a little past midway down the  
5 page, 7029430, that hazard complaint, I  
6 participated in that one.

7           Q     Okay.

8           A     And then 7027977 was a follow-up  
9 inspection that I was there for which is right  
10 above it.

11          Q     And was that follow-up inspection the  
12 one that you would have mentioned earlier  
13 regarding the dust?

14          A     Yes. Yes. And then 7027994 is one of  
15 mine. 7027998 is one of mine.

16          Q     Okay.

17          A     Those two. 702799 something was my  
18 series of event numbers at that time.

19          Q     Okay. So safe to say you participated  
20 -- participated in a number of these inspections  
21 listed on this page. Is that correct?

22          A     Yes.

1           Q     Okay. And in looking at this inspection  
2     event number 7029430, if you look at the  
3     inspection began date, and it lists, it looks  
4     like, February 13th, 2023, and then the inspection  
5     date is April 10th, 2023. Are those -- is this  
6     accurate that the inspection lasted for that  
7     period of time?

8           A     Yes.

9           Q     Okay. And why was that?

10          A     It was a complaint investigation with  
11     multiple allegations. One of the allegations was  
12     regarding dust exposure to the miners. So to  
13     investigate that allegation we had to do a dust  
14     sample at the mine, and for us to do the dust  
15     sample the plant had to be running. So it just  
16     took that long to get the plant into shape and up  
17     and running where we could actually run a dust  
18     sample.

19          Q     And so would you be looking at the mine  
20     every day during those dates?

21          A     No. It was on and off.

22          Q     So approximately how on -- like how

1 often would MSHA have been out there during that  
2 inspection?

3 A I wouldn't say we were there every week,  
4 but probably every other week on an average.

5 Q Okay. And is it usual for an inspection  
6 to last for that duration?

7 A Not at an operation this size.

8 Q And so why was it necessary for it to  
9 last that long?

10 A Well, as you can see from the number of  
11 citations and orders issued on that report, there  
12 was a lot of issues that needed to be repaired or  
13 corrected at the mine, and it just took time to  
14 get all of that done.

15 Q Okay. Moving on to -- what's listed as  
16 Event No. 7027977. Do you see that?

17 A Yes.

18 Q And were you present for that  
19 inspection?

20 A Yes.

21 Q Okay. Do you know if Mr. Baumann  
22 participated in that inspection?

1           A       Yes, he did.

2           Q       Okay. And can you tell us a little bit  
3 more about that.

4           A       That was the follow-up inspection after  
5 the dust citation had been issued. When I  
6 returned to the mine to check on the status,  
7 whether they would gotten all the miners enrolled  
8 in a respiratory protection program, what repairs  
9 had they done to the dust collection systems or  
10 other engineering controls to reduce the dust.

11          Q       Okay. And on that same event number, it  
12 lists over on the right-hand side orders and has  
13 two. Could you describe what those two orders  
14 would have been?

15          A       So there were -- there were two  
16 citations issued for dust overexposure. One for  
17 Mr. Spears as the operations manager. When we  
18 issue dust citations it's by job class, so we  
19 issued -- I had issued one for Mr. Spears as the  
20 operations manager for an overexposure to dust,  
21 and then I had issued another citation with three  
22 people affected for the mill associates who are

1 overexposed to dust. So when no action had been  
2 taken to correct those conditions, there were two  
3 orders that replaced those two citations.

4 Q Okay. And so you did employ sampling  
5 and they tested over the limit that was  
6 permissible. Is that correct?

7 A Yes. Yes.

8 Q Do you know how many employees tested  
9 over the limit?

10 A So, three mill associates tested over  
11 the limit. They were over the limit to the point  
12 that they required an air purifier or respirator  
13 or supplied air respirator. Mr. Spears tested  
14 over the limit. He was exposed to a level that  
15 just required a half mask respirator, and then Mr.  
16 Baumann's sample was overexposed but it couldn't  
17 be quantified because when the lab opened up the  
18 dust cassette it was so full of dust that it fell  
19 off the cassette and they could not get an  
20 accurate weight. So while he was overexposed, we  
21 couldn't quantify it. Therefore, there was no  
22 citation issued.

1 Q Okay. And so for that, was the mine  
2 ever shut down for that?

3 A When those (b) orders were issued, that  
4 shut the mine down.

5 Q And do you know what the date that would  
6 have been?

7 A That was April 12th.

8 Q Okay. And moving on to what's been --  
9 what is shown as event number --

10 JUDGE MORAN: Let me just -- April 12th?

11 THE WITNESS: Of 2023. Sorry.

12 JUDGE MORAN: Thank you.

13 THE WITNESS: My apologies.

14 BY MR. MOLL:

15 Q And so moving on to Event No. 7027975.  
16 Do you recognize that event?

17 A Yes. That was a hazard -- another  
18 hazard complaint made by a miner.

19 Q Okay. So a miner raised this specific  
20 issue and that led to the initiation of this?

21 A Yes. Mr. Baumann raised the issue and  
22 that event was opened to address the complaint he

1 made to me.

2 Q Okay. Nand what would that complaint  
3 have been about?

4 A The complaint was about miners that were  
5 stacking bags of product, and they were -- the  
6 allegation on the complaint was that they were  
7 stacking -- they had to stack bags of product over  
8 eight feet tall, which was over their heads, and  
9 we're talking fifty and hundred pounds bag of  
10 material.

11 JUDGE MORAN: What was the weight.

12 THE WITNESS: Fifty to a hundred pounds  
13 and that would -- obviously would be a safety  
14 concern. However, by the time I arrived at the  
15 mine to investigation the complaint, Mr. Spears  
16 had already changed the procedures and they were  
17 no longer stacking the bags that high.

18 BY MR. MOLL:

19 Q Did Mr. Baumann ever point out any other  
20 issues like that to you?

21 A Not like stand there and point at it.

22 Q Uh-huh.

1           A       But whenever other miners at the mine  
2       would bring him safety concerns, he would -- and I  
3       was there on an inspection, he would say, hey, can  
4       you take a look at -- you know, can you take a  
5       look at this or can you take a look at that.

6           Q       Okay. And did he ever complain about  
7       out or how he did he ever speak to you about any  
8       issues in front of Mr. Spears or Mr. Tidaback?

9           A       No. He was always careful to not talk  
10      in front of them to me.

11          Q       Okay. And you had mentioned earlier  
12      that Mr. Spears was sometimes with you during  
13      inspections. Did it ever seem like Mr. Spears was  
14      communicating with Mr. Tidaback about what was  
15      going on during the inspection?

16          A       He would occasionally call or message  
17      Mr. Tidaback just to update him, I believe, you on  
18      how the inspection was going.

19          Q       Okay. And how do you know that?

20          A       Well, one time when he was calling he  
21      was standing by me and I could hear Mr. Tidaback  
22      on the other end of the phone, and then at other

1 times when I'd stop in to Mr. Spears' office to  
2 deliver citations or whatever, he was on the Teams  
3 chat.

4 Q Okay. And during your inspections, I  
5 think you had mentioned you had interacted with  
6 some of the other miners at American Tripoli.  
7 Just, in general, what were your interactions like  
8 with those employees?

9 A Just as standard procedure when we're  
10 doing an inspection we talk to the miners to find  
11 out if they have any concerns, you know, pass on  
12 safety inspection that we have. So it was kind of  
13 just general safety mining chitchat. Sometimes  
14 they would bring up issues that they had at the  
15 mine, and I would let them know if I had found  
16 those same issue and issue citations on it, and I  
17 would update them on how the inspection was going.  
18 You know, how many things this had been issued,  
19 whether things were getting fixed. Just kind of  
20 to keep them in the loop.

21 Q And during that time did you ever  
22 threaten any of those employees?

1           A     No. I think I had a pretty good  
2 relationship to them, because we talked quite a  
3 bit.

4           Q     Did you ever raise your voice at them?

5           A     No.

6           Q     Okay. So overall you had generally  
7 positive interactions with the miners at American  
8 Tripoli. Is that correct?

9           A     Yes.

10          Q     I'll go ahead and show you what's been  
11 marked as Exhibit P24.

12                JUDGE MORAN: Am I right, this one has  
13 not been admitted?

14                MR. MOLL: Correct, Your Honor.

15                JUDGE MORAN: Are you on P24, Inspector?

16                THE WITNESS: I am.

17                BY MR. MOLL:

18          Q     Do you recognize what this document is?

19          A     Yes.

20          Q     And can you describe what it is?

21          A     It is an electronic field note that is  
22 generated by our inspector application system, our

1 computers that we use.

2 Q Okay. And so this is regularly kept and  
3 maintained in the course of MSHA's business. Is  
4 that correct?

5 A Yes. Inspectors have the choice --  
6 currently they have the choice, they can either  
7 take handwritten notes or electronic notes in this  
8 form.

9 MR. MOLL: Okay. And I would go ahead  
10 and move to admit this exhibit.

11 JUDGE MORAN: This is a document you  
12 created, sir?

13 THE WITNESS: No, this is not. This  
14 would be -- I'm looking to see if there's a number  
15 or a name on it. 11-18-22. This would be Mike  
16 Van Dorn's field note.

17 MR. MOLL: I admit on the basis that  
18 this is kept and maintained in the MSHA's regular  
19 course of business.

20 JUDGE MORAN: But not through this -- I  
21 don't think it's appropriate for me to, based on  
22 this witness' testimony, to admit this exhibit. I

1 don't see how I get there without telling me that  
2 you got this from the custodian of records or you  
3 have the witness who made these notes. I can't  
4 admit these general field notes. This is not  
5 something this witness created.

6 MR. MOLL: Mr. Markeson can verify that  
7 this is something that's regularly kept by MSHA as  
8 kind of a standard business record.

9 JUDGE MORAN: Well, I'm not going to  
10 allow that exhibit at this point. So P24 is not  
11 admitted as of now.

12 MR. MOLL: Just if I understand your  
13 ruling on it, this is a retired inspector, so we  
14 wouldn't have --

15 JUDGE MORAN: I can't help that.

16 MR. MOLL: Thank you, Your Honor.

17 JUDGE MORAN: Just for the record, I am  
18 noting that I am disallowing admission of P24,  
19 which is a one page exhibit. Okay.

20 MR. MOLL: I'm going to go ahead and  
21 move on to what's has been marked as Exhibit P25.

22 JUDGE MORAN: Okay. Inspector Markeson,

1 are you on P25?

2 THE WITNESS: I am on P25.

3 JUDGE MORAN: Go ahead, Attorney Moll.

4 MR. MOLL: Thank you, Your Honor.

5 BY MR. MOLL:

6 Q Mr. Markeson, do you recognize this  
7 document?

8 A Yes. This is -- this is one of my field  
9 notes, and it's the one that I -- I put Rob  
10 Baumann and Jesse Molesi's names on the wrong  
11 lines. Rob is supposed to be the miners and Jesse  
12 Molesi was the company rep during these  
13 inspections.

14 Q This would be pages from an  
15 investigation file?

16 A This is from 7-7. This would be from  
17 the compliance follow-up inspection.

18 Q Okay. And -- but this is notes relating  
19 to an inspection that you participated in?

20 A Yes, it is. These are my notes.

21 MR. MOLL: Okay. I would go ahead and  
22 move to admit Exhibit P25.

1 JUDGE MORAN: Exhibit P25 --

2 MR. MOLL: Yes.

3 JUDGE MORAN: -- which consists of?

4 MR. MOLL: Notes of an inspection file.

5 JUDGE MORAN: Four pages. Right? Four  
6 Pages.

7 MR. MOLL: Yes.

8 JUDGE MORAN: Do you have any objection  
9 to the admission of P25?

10 MR. TIDABACK: It's actually incorrect,  
11 the way Mr. Markeson just pointed out. Molesi was  
12 never a miners rep.

13 JUDGE MORAN: Okay. You can deal with  
14 that on cross examination. So P25 is admitted.

15 (Complainant's Exhibit P-25 was  
16 marked for identification and  
17 received in evidence.)

18 BY MR. MOLL:

19 Q And so, Mr. Markeson, I think you  
20 clarified that you might have switched the lines  
21 here on this Page 1, about miners rep and company  
22 rep. Is that correct?

1           A       Yeah. Yeah. On Page 1 I just put them  
2       on the wrong lines. On the next page, which is  
3       also Page 1 for the next or the 17th, you can see  
4       where Rob Baumann is listed as the miners rep and  
5       John Spears and Jesse Molesi are the company  
6       representatives.

7           Q       So it was your understanding that Mr.  
8       Baumann was the miners rep at this time. Is that  
9       correct?

10          A       Yes.

11          Q       And looking at -- looking at Page 2 of  
12       Exhibit P25. You see where it says accompanied?

13          A       Yes.

14          Q       And then down here where it says company  
15       rep, John Spears and miners rep, Rob Baumann. Do  
16       you see that?

17          A       Yes.

18          Q       Does that mean that Rob Baumann would  
19       have walked around with you during that particular  
20       inspection?

21          A       Yes, he did.

22          Q       Okay. And would Mr. Spears have also

1 walked around with you during that inspection?

2 A Yes.

3 Q Okay. And moving on to Page 4 of that  
4 same exhibit. Do you see where it says work  
5 begins with delivered orders?

6 A Yes.

7 Q And you -- and then it follows to review  
8 all orders and explain that closed tags can be  
9 removed. Do you see that line?

10 A Yes, I do.

11 Q And could you explain a little bit more  
12 about what that describes?

13 A So this is -- this was the closeout note  
14 from when the BRs were issued, closed tags were  
15 affixed to certain breakers at the plant  
16 effectively shutting the plant down. This is  
17 where I explained to Jesse Molesi, as the company  
18 representative, and Rob Baumann as miners  
19 representative, that those closed tags could only  
20 be removed by an authorized member of the  
21 Secretary of Labor. It would be removed once the  
22 -- once all miners were enrolled in respirator

1 protection program and provided with appropriate  
2 respirators. I also reviewed Section 111 of the  
3 Mine Act, which is an entitlement of pay for  
4 miners when MSHA has them shut down with an order.

5 Q Okay. And would that have been during  
6 that same April 12th, '21 period date?

7 A Yes.

8 Q And that would have related to those (b)  
9 orders when the mine was shut down?

10 A Correct.

11 Q Okay.

12 JUDGE MORAN: Okay. So I want to  
13 interrupt to alert both sides that it's 4:39 so we  
14 have six more minutes before today's proceeding  
15 will come to a close.

16 MR. MOLL: I'll just say that I have a  
17 few questions left to that wrap up this.

18 JUDGE MORAN: Okay.

19 BY MR. MOLL:

20 Q I'm going go ahead and move to what's  
21 been marked as Exhibit P26.

22 JUDGE MORAN: Did you move for the

1 admission of P25?

2 MR. MOLL: Yes. I believe it's  
3 admitted.

4 MS. SMITH: Yes. It was admitted over  
5 objection.

6 JUDGE MORAN: Thank you.

7 THE WITNESS: I am on P26.

8 BY MR. MOLL:

9 Q Okay. Mr. Markeson, do you recognize  
10 what this document is?

11 A Yes. These are additional inspection  
12 notes from the complaint investigation.

13 Q Okay. And looking at Page 3 of the  
14 exhibit.

15 A Yes.

16 Q Would that be your initials?

17 A Yes, it is.

18 Q Okay. And so you would have  
19 participated in this inspection. Is that correct?

20 A I did. Correct.

21 Q And these are your notes. Is that  
22 correct?

1           A       They are.

2                   MR. MOLL: I'm going to move for the  
3 admission of Exhibit P26.

4                   JUDGE MORAN: P26. Any objection, Mr.  
5 Tidaback? P26 is admitted.

6                               (Complainant's Exhibit P-26 was  
7 marked for identification and  
8 received in evidence.)

9                   BY MR. MOLL:

10           Q       And just to clarify, these are not all  
11 your minutes, but these are the all the notes from  
12 the inspection that you participated in. Is that  
13 correct?

14           A       Correct.

15           Q       And looking at Page 2 of Exhibit P26, do  
16 you see where it says accompanied?

17           A       I do.

18           Q       Okay. And do you see the date up at the  
19 top, 2-22-2023?

20           A       I do.

21           Q       And so during that time would you  
22 understand -- would you have written that down,

1 accompanied by Rob Baumann, was that because Mr.  
2 Baumann was accompanying you during the inspection  
3 that occurred on that date?

4 A Yes. Mr. Baumann and Mr. Spears were  
5 the two that accompanied me during that  
6 inspection.

7 Q And so both of them would have been  
8 there together during that inspection with you?

9 A Yes.

10 Q Okay. So --

11 JUDGE MORAN: I have a problem based on  
12 an aside you just made, Attorney Moll. You asked  
13 Inspector Markeson about with reference to P26,  
14 you said that not all of the pages in P26 reflect  
15 his notes. Is that correct?

16 MR. MOLL: That's correct, Your Honor.

17 JUDGE MORAN: So as with that other  
18 exhibit, I don't see how I can admit pages of  
19 inspection notes that weren't authored by  
20 Inspector Markeson just because they happen to be  
21 lumped in with P26.

22 MR. MOLL: I would respond by saying

1     that this was all part of the same inspection file  
2     and inspection that he participated in, so he  
3     would have been presented and made notes and  
4     participated in this inspection and created this  
5     file.

6                 JUDGE MORAN:   He can't testify about  
7     notes made by others.   That would have to come in  
8     by the person that made those notes, so tomorrow  
9     morning, and this is without speaking, you can  
10    only speak on the record with Inspector Markeson,  
11    but I want you to identify on the record those  
12    pages, it looks like it's just Page 1 and 2, but  
13    whatever pages were authored by this inspector,  
14    those may be admitted but the other exhibits, the  
15    other notes, I can't admit those without a proper  
16    foundation for who authored them.   That's  
17    piggybacking, if you will, bootstrapping other --  
18    other documents into P26.

19                MR. MOLL:   And I understand, Your Honor,  
20    and to the extent that I believe the other  
21    inspector that would have participated in this  
22    instance, Dave Pruitt, so if necessary, we can

1 have Mr. Pruitt testify regarding those specific  
2 notes as well.

3 JUDGE MORAN: Well, if necessary means  
4 if you want them in.

5 MR. MOLL: Okay. Thank you, Your Honor.

6 JUDGE MORAN: Remember, tomorrow morning  
7 you're going to identify those pages that were  
8 authored by Inspector Markeson and he will, under  
9 oath, confirm that or deny it, whatever the case  
10 may be.

11 MR. MOLL: Understood, Your Honor.

12 BY MR. MOLL:

13 Q And just to kind of wrap things up,  
14 whose responsibility, in your understanding as an  
15 inspector, is it to comply with MSHA?

16 A According to the Mine Act it is the  
17 responsibility of the mine operator, with the  
18 assistance of the miners.

19 MR. MOLL: Thank you. No further  
20 questions.

21 JUDGE MORAN: Okay. So we're going to  
22 call it an evening, and as per yesterday's

1 procedure, the sheriff, the bailiff, I'm not sure  
2 what you're correct title is, you're going to  
3 leave here and all of us, I'm going to exit in a  
4 moment through the same doors and then this  
5 courtroom will be locked up and you can't get back  
6 in until tomorrow morning at about 8:30. All  
7 right. Any last comments before I -- from counsel  
8 before we call today to an end?

9 MS. SMITH: Your Honor, I have one  
10 logistical question but it does not need to be on  
11 the record.

12 JUDGE MORAN: So then anything from Mr.  
13 Tidaback? Okay. Then today's proceeding will  
14 come to a close. Not quite. I have to tell you,  
15 Inspector Markeson, do not speak with anybody  
16 about this -- about your testimony. You cannot  
17 speak with any of the people in this matter,  
18 including the attorneys, the three attorneys for  
19 the Secretary of Labor. Okay. The time for  
20 preparing a witness has passed, and so there can't  
21 be further communication. I told this to all the  
22 witnesses for -- in this proceeding, so you just

1 have to be a loner on your own and not conversing,  
2 even casually with other people. You're not to be  
3 talking with them.

4 THE WITNESS: Can I ask a question about  
5 that?

6 JUDGE MORAN: Sure.

7 THE WITNESS: Currently me, and I  
8 believe two other witnesses in this case, are in  
9 the middle of an underground inspection. Can I at  
10 least debrief with them to know what they got done  
11 today and what's left for me to do tomorrow when I  
12 get done?

13 JUDGE MORAN: Yes. If it has nothing to  
14 do with this case.

15 THE WITNESS: No, it's about an  
16 inspection that's ongoing on right now.

17 JUDGE MORAN: Yes, of course you can do  
18 that.

19 THE WITNESS: I just wanted to make  
20 sure.

21 JUDGE MORAN: Thank you for asking. And  
22 did the court reporter go away?

1 COURT REPORTER: I'm still here.

2 JUDGE MORAN: Oh, great. So go ahead  
3 about the comment that you say didn't have to be  
4 in the record. We're on the record.

5 MS. SMITH: We decided to clarify. We  
6 wanted to be able to talk about just logistics of  
7 travel. I know Mr. Dillingham had a family issue  
8 going on, so we want to let you know that we  
9 intend to talk to him about his travel logistics.  
10 We won't be talking about the case.

11 JUDGE MORAN: Of course, you may speak  
12 to him about matters unrelated to this personal  
13 matters, of course.

14 MS. O'REILLY: And one final logistical  
15 question. When we notified the MSHA inspectors  
16 about our hearing, we gave them the location of  
17 Courtroom A, which is where we were originally  
18 scheduled to meet. We would like to communicate  
19 to them that they are now to appear tomorrow at  
20 Courtroom D, where we are now, so.

21 JUDGE MORAN: Yes. I'm not -- I'd like  
22 to think I'm not unreasonable. Of course you can

1 communicate something like that, because it  
2 doesn't deal with the testimony itself. It's  
3 strictly procedural.

4 MS. O'REILLY: Yes. Thank you.

5 JUDGE MORAN: And then, before we call  
6 it an end, now we're a little over here. If we  
7 can't wrap this up tomorrow, we're going to have  
8 to be thinking about when you get the opportunity  
9 to see me again. Okay? And I have some home  
10 issues I have to make sure I'm available and I  
11 haven't already booked myself for some other  
12 times. We'll work that out if we don't wrap this  
13 up tomorrow. Okay? So be looking at your  
14 calendars. Thank you, all. All right. Today's  
15 proceeding is now coming to an end. Thank you  
16 Court Reporter Blackerby.

17 (Whereupon, at 4:49 p.m., the  
18 HEARING was continued.)

## P R O C E E D I N G S

JUDGE MORAN: Okay. We're on the record. Good morning, everyone. We're here for the third day of this proceeding, today being the last day of February, February 29th in this leap year of 2024. And, Counsel, ready to proceed?

MS. O'REILLY: Yes, your Honor.

JUDGE MORAN: Okay. Let's go. We're going to continue with the testimony of Inspector Keith Markeson, correct?

MS. O'REILLY: Yeah. First we had a couple of just quick housekeeping items.

JUDGE MORAN: Sure.

MS. O'REILLY: There are, like, four RFAs in this case that have been admitted, and we were just wondering if the judge would like us to read those into the record. They're also in the admitted Exhibit P39.

JUDGE MORAN: What was the first thing you said? There were four what?

MS. O'REILLY: Requests for admissions that have been admitted. Sorry.

1 JUDGE MORAN: Didn't get the acronym.

2 Okay. Yes. Why don't you read them into the  
3 record, okay? But you say they're already in  
4 Exhibit P39?

5 MS. O'REILLY: Correct, so if you just  
6 want us to refer to those in the briefing or if  
7 you'd rather me read them into the record which is  
8 fine.

9 JUDGE MORAN: If they're in the exhibit,  
10 I don't see a need to do that.

11 MS. O'REILLY: Yeah. We just wanted to  
12 make it clear that --

13 JUDGE MORAN: Right, and then what  
14 you're saying right now is on the record as well.

15 MS. O'REILLY: Yep. That's fine. We  
16 just wanted to alert you to that. The other thing  
17 is we had two other exhibits that hadn't been  
18 entered yet that -- The Exhibit P44, which is John  
19 Spears' deposition, it's self-certified. It's  
20 certified by the court reporter, and it's of a  
21 party opponent under 801(d)(2), so we'd move to  
22 admit that as well.

1 JUDGE MORAN: Okay. And give me that  
2 number again, please.

3 MS. O'REILLY: P44.

4 JUDGE MORAN: Okay. Any objection to  
5 P44, Mr. Tidaback?

6 MR. TIDABACK: No.

7 JUDGE MORAN: Okay. It's admitted. P44  
8 is in. Go ahead.

9 (Complainant's Exhibit P-44 was  
10 marked for identification and  
11 received in evidence.)

12 MS. O'REILLY: Thank you. And one last  
13 one, P35, those are employee disciplinary records  
14 that were provided in discovery in this case, and  
15 we would move to admit those.

16 JUDGE MORAN: Right. Those were  
17 responded by the respondent to you, P35. Don't  
18 have any objection to that, right?

19 MR. TIDABACK: (No audible answer.)

20 JUDGE MORAN: You have to speak up.

21 MR. TIDABACK: No, your Honor.

22 JUDGE MORAN: Thank you. P35 is

1 admitted.

2 (Complainant's Exhibit P-35 was  
3 marked for identification and  
4 received in evidence.)

5 MS. O'REILLY: That's all the  
6 housekeeping items. Thank you.

7 JUDGE MORAN: Okay. That's fine. So  
8 come on up here, Inspector Markeson. And, of  
9 course, I'm sure you know, you're still under  
10 oath.

11 THE WITNESS: Yes, your Honor.

12 JUDGE MORAN: Just one second, please.  
13 Whereupon,

14 KEITH MARKESON  
15 was recalled as a witness and, having been  
16 previously duly sworn, was examined and testified  
17 further as follows:

18 JUDGE MORAN: Okay. Attorney -- Let's  
19 see. It was Attorney O'Reilly who's doing the  
20 questioning. Was it Attorney Moll?

21 MR. MOLL: Yes, your Honor.

22 JUDGE MORAN: Okay. I'm sorry. Yes.

1     Okay.   Ready, sir?

2                 MR. MOLL:   Yes, your Honor.   I believe  
3     we're on cross-examination now, your Honor.

4                 JUDGE MORAN:   Oh, yeah.   Thank you for  
5     reminding me.   That's right.   You were saying at  
6     the end you had a few more questions and you could  
7     wrap it up, and you -- you had an adequate  
8     opportunity to provide your direct?

9                 MR. MOLL:   Yes, your Honor.

10                JUDGE MORAN:   Okay.   All right.   Mr.  
11     Tidaback, go ahead, sir.

12                CROSS-EXAMINATION

13                BY MR. TIDABACK:

14                Q     Okay.   During your interactions with --  
15     Did you have any interactions with the claimant  
16     prior to your inspection, prior to your inspection  
17     on the dates in question for this discrimination?

18                A     No, I did not.

19                Q     Had you had interactions with the  
20     claimant after hours or off-site prior to the  
21     claimant's discrimination filing?

22                A     Yes.

1 Q Can you, please, explain?

2 A After the B orders were issued that shut  
3 the plant down, Mr. Baumann called me and asked if  
4 American Tripoli would be allowed to shrink-wrap  
5 material that was already packaged and be allowed  
6 to load that material onto truck for sales, and I  
7 agreed that that would be reasonable because it  
8 was not dust-producing activity, so there was no  
9 reason not to do that.

10 Also, I believe on one other occasion,  
11 Rob called me after hours to ask me just a general  
12 safety question about -- about a standard, but I  
13 can't recall what it was.

14 Q Do you record these official  
15 communications in your inspection reports?

16 A No. The -- The change in the B order  
17 was documented by a subsequent action that allowed  
18 that activity on the B order.

19 Q So how many times have you inspected our  
20 company's mine in the past 14 months?

21 A Separate events or visits?

22 Q Your presence at our site, would you say

1 more than ten?

2 A I would say more than ten.

3 Q How many -- How many times did you  
4 inspect the company's mine prior to January 2023?

5 A At least five. It might be more.

6 Q Five over years or five in the -- Five  
7 in that one time year before?

8 A No, five over 13 years.

9 Q Okay.

10 A It was -- It was assigned to me just for  
11 two years. And, of course, I did both inspections  
12 those two years, and I think I picked up one  
13 inspection for another inspector.

14 Q So in -- Can you compare the frequency  
15 of your inspections at our mines with other mines  
16 in the same area of similar size and type?

17 A Not in recent history.

18 Q You can't compare the frequency of the  
19 inspections of our mines compared to another small  
20 mine?

21 JUDGE MORAN: Well, he answered that.  
22 He said "not in recent history." Isn't that what

1     you said?

2                   THE WITNESS:   Correct.

3                   MR. TIDABACK:   Thank you.   I needed to  
4     get clarification on the small mine, your Honor.

5                   BY MR. TIDABACK:

6           Q       So how do you -- How do your findings at  
7     our mines compare with your findings at other  
8     small mines?

9           A       In general, there's more violations at  
10    American Tripoli than there are at similar mines  
11    in the state of -- similar mines in the state.

12          Q       Okay.   And on these --

13                  JUDGE MORAN:   Remember, let me just  
14    interject.   We're not -- We're not trying in this  
15    case the issuance of citations by any MSHA  
16    inspector of American Tripoli.

17                  MR. TIDABACK:   Correct, your Honor.

18                  JUDGE MORAN:   So I've let -- There  
19    hasn't been an objection, but we can only go so  
20    far in terms of the -- this line of questioning  
21    about comparing American Tripoli to other mines  
22    because that's moving us towards having many

1 trials on citations issued at other facilities and  
2 how that would rate compared to American Tripoli.  
3 That's getting afield.

4 MR. TIDABACK: Yes, sir. We've removed  
5 any -- any relations to -- or any direction to any  
6 citation.

7 JUDGE MORAN: Okay. But still, some of  
8 your questions might have an issue -- have an  
9 issue that I just tried to explain to you, so  
10 we'll have to listen to your questions. Go ahead,  
11 sir.

12 MR. TIDABACK: Thanks, your Honor.

13 BY MR. TIDABACK:

14 Q During your inspections, have you ever  
15 revised your -- That may lead into that. I'll  
16 finish the question and see if it's (inaudible),  
17 your Honor.

18 JUDGE MORAN: Well, it's up to counsel  
19 for the Secretary if they have an objection as  
20 well, but go ahead --

21 BY MR. TIDABACK:

22 Q Have you ever --

1 JUDGE MORAN: -- with your inspections.

2 MR. TIDABACK: Sorry.

3 BY MR. TIDABACK:

4 Q Have you ever revised your inspection  
5 findings or penalties after the initial  
6 documentation of those?

7 MR. MOLL: Objection. Deliberative  
8 process.

9 JUDGE MORAN: I don't know if that's a  
10 deliberative process. He's just asking if there's  
11 been a revision, but I would note that -- and I  
12 need you to confirm this, Inspector Markeson.

13 THE WITNESS: Yes.

14 JUDGE MORAN: Your role is to check for  
15 safety and health hazards. And upon finding a  
16 safety or health hazard, you issue a citation or  
17 in some instances depending upon what's preceded  
18 it an order?

19 THE WITNESS: Correct.

20 JUDGE MORAN: And the orders may be  
21 104(a), 104(b). They may be D orders, D citations  
22 and -- and other imminent danger orders. There's

1 a host of things that an inspector can issue when  
2 inspecting a mine; is that right?

3 THE WITNESS: That is correct.

4 JUDGE MORAN: Okay. And so am I also  
5 correct that -- Mr. Tidaback's question asked  
6 about revising a penalty computation. The  
7 inspectors don't do penalty computations, do they?

8 THE WITNESS: No. We have nothing to do  
9 with the penalty side.

10 JUDGE MORAN: Okay.

11 BY MR. TIDABACK:

12 Q Have you ever expressed your opinions of  
13 our company or its practices, either publicly or  
14 privately, outside of your official reports?

15 MR. MOLL: Objection. Deliberative  
16 process again.

17 JUDGE MORAN: Yes. I sustain the  
18 objection.

19 BY MR. TIDABACK:

20 Q Have you ever discussed our company with  
21 your supervisor, Mr. Pratt?

22 MR. MOLL: Same objection.

1 JUDGE MORAN: Sustained.

2 BY MR. TIDABACK:

3 Q Okay. Has Mr. Pratt ever counseled you  
4 or provided you with documented professional  
5 development?

6 MR. MOLL: Same objection and relevance.

7 JUDGE MORAN: Yes. Repeat that question  
8 again, please.

9 BY MR. TIDABACK:

10 Q Has Mr. Pratt, which is his supervisor,  
11 ever counseled you or provided you with documented  
12 professional development?

13 MR. MOLL: Objection. Relevance.

14 JUDGE MORAN: I'm going to sustain the  
15 objection.

16 MR. TIDABACK: Okay.

17 JUDGE MORAN: Now, however, and I can't  
18 be in the process of guiding you. I'm not a de  
19 facto attorney in any sense for you. But I don't  
20 think, unless I hear an objection from the  
21 secretary, there will be any objection. I'm have  
22 to weigh this, though. And by the way, Court

1 Reporter, can you hear me?

2 THE VIDEOGRAPHER: Thumbs up.

3 JUDGE MORAN: Okay. Good. I don't  
4 think it would be improper if you asked a limited  
5 question about whether Inspector Markeson has ever  
6 been disciplined in connection with the  
7 performance of his duties. That's different from  
8 deliberation. So if you want to ask that  
9 question, if he's ever been -- if he's ever  
10 received any discipline in connection with his  
11 duties as a mine inspector, because I think I  
12 recall overtones in your documents alleging that.  
13 So you can ask that question, if he's ever been  
14 disciplined about -- in connection with his  
15 inspection activities.

16 THE WITNESS: Your Honor, may I clarify  
17 something?

18 JUDGE MORAN: No. That's not the --  
19 That's not the way this proceeding works.

20 THE WITNESS: Okay.

21 JUDGE MORAN: If there's a question that  
22 is considered improper by any of the Secretary's

1 three attorneys here, they will speak up.

2 THE WITNESS: Okay.

3 JUDGE MORAN: And that's just the way it  
4 works because it's a question-and-answer format.

5 THE WITNESS: Um-hum.

6 JUDGE MORAN: It's not volunteering  
7 information. We would have havoc, and I wouldn't  
8 be able to put a cap on it.

9 THE WITNESS: I understand.

10 JUDGE MORAN: Go ahead. Do you want to  
11 ask that question?

12 MR. TIDABACK: Yes, your Honor.

13 JUDGE MORAN: Go ahead.

14 BY MR. TIDABACK:

15 Q Have you ever been disciplined for your  
16 performance as an inspector?

17 A No.

18 Q Do you remember the -- the inspection  
19 when you were there, Mr. Simms, the district  
20 attorney (sic) at the time, was there, Mr. Pratt  
21 was there? They actually came to our site.

22 Remember that one day the big -- everybody --

1 MR. MOLL: Objection. Characterization.

2 JUDGE MORAN: I'm sorry?

3 MR. MOLL: Objection. Characterization  
4 and testimony.

5 JUDGE MORAN: Well, no. He -- I can  
6 allow that question. He's -- he's asking about if  
7 this -- if Inspector Markeson remembers a date.  
8 At the plant do you mean?

9 MR. TIDABACK: Yes, your Honor.

10 JUDGE MORAN: At the mill and with  
11 certain individuals being there, including, did  
12 you say, the fire department?

13 MR. TIDABACK: No, your Honor, Mr. Simms  
14 which was the district -- district manager at the  
15 time, Mr. Pratt which was Mr. Markeson's  
16 supervisor, and Mr. Markeson was there.

17 JUDGE MORAN: At -- All at your site?

18 MR. TIDABACK: All at the -- All at the  
19 site.

20 JUDGE MORAN: Do you ever remember an  
21 event like that, sir?

22 THE WITNESS: I do remember that.

1 JUDGE MORAN: Okay. So he remembers  
2 that there was an event at -- at the mill. Were  
3 those individuals present?

4 THE WITNESS: Yes.

5 JUDGE MORAN: Okay. Were you conducting  
6 an inspection at that time?

7 THE WITNESS: Yes, we were conducting an  
8 inspection at that time. However, Mr. Pratt is  
9 not my supervisor.

10 JUDGE MORAN: Okay.

11 MR. TIDABACK: Oh, sorry.

12 JUDGE MORAN: Go ahead.

13 BY MR. TIDABACK:

14 Q Okay. So --

15 JUDGE MORAN: I just want to clarify one  
16 other thing. We can only go so far in this  
17 because I didn't articulate it as well as I would  
18 have liked to. But when an inspector says, for  
19 example, Markeson says, "No, I've never been  
20 disciplined," that's it. You can't -- if the  
21 answer is "no," we don't allow you to -- you know,  
22 to go onto that further. You have to take the

1 answer.

2 MR. TIDABACK: Okay, your Honor.

3 JUDGE MORAN: Okay?

4 MR. TIDABACK: Yes, sir.

5 JUDGE MORAN: All right. Because it  
6 becomes a collateral issue. That's what it's  
7 called, collateral, noncollateral. Came to me.  
8 All right. Go ahead.

9 BY MR. TIDABACK:

10 Q During that inspection or that time that  
11 we were there, do you remember the conversation  
12 we, all five of us, Ms. Jordan or -- Ms. Tidaback,  
13 excuse me, Mr. Simms, Mr. Pratt and yourself, we  
14 were having a conversation on the railcar loading  
15 dock regarding the barbecue grill on that ramp?  
16 Do you remember that conversation?

17 A I do.

18 Q Do you remember Mr. Pratt telling you  
19 to, "Hurry this up, we need to get out of here,"  
20 and do you remember -- do you recall the response  
21 to Mr. Pratt?

22 JUDGE MORAN: Well, you asked multiple

1 questions there.

2 MR. TIDABACK: Oh, sorry.

3 JUDGE MORAN: So just break it down.

4 BY MR. TIDABACK:

5 Q Do you remember that -- that  
6 conversation where Mr. Pratt told you to, "Hurry  
7 this up, and we need to get out of here"?

8 A I remember the -- having a conversation  
9 out there. I do not remember those specific  
10 words.

11 Q Do you recall the response that you gave  
12 to Mr. Pratt?

13 A Yes, I do. I -- I don't recall the  
14 exact words, but I was getting a little frustrated  
15 because they were moving faster than I could take  
16 my notes.

17 JUDGE MORAN: Who was moving faster,  
18 sir?

19 THE WITNESS: The rest of the inspection  
20 party. I was the one -- I was the one issuing the  
21 citations, and they were going along. And, of  
22 course, I have to stop and take notes and document

1 a violation. And they were moving faster than I  
2 could, and I was getting frustrated. And I -- I  
3 got a little snippy with Mr. Pratt, basically --

4 JUDGE MORAN: By the way, who is Mr.  
5 Pratt?

6 THE WITNESS: Mr. Pratt is the south  
7 office field office supervisor. Rolla's divided  
8 into two work groups. I'm in the north office  
9 work group. Mr. Pratt is the supervisor in the  
10 south office work group.

11 MR. TIDABACK: I'd like to refer to  
12 Exhibit RH, your Honor.

13 JUDGE MORAN: All right.

14 THE WITNESS: Is the -- Wait. Is it the  
15 white book here?

16 BY MR. TIDABACK:

17 Q Yes, R -- R -- RH, Romeo dot hotel.

18 JUDGE MORAN: Now, let's keep focused  
19 here, folks, and I'm addressing this to the  
20 Secretary's representatives as well, what this  
21 case is about. Okay. Are you -- Inspector  
22 Markeson, are you on RH?

1                   And, first of all, I want you to make a  
2   proffer, Mr. Tidaback, as to what -- characterize  
3   for me what RH is. Are you on RH, by the way,  
4   Inspector Markeson?

5                   THE WITNESS: I am on RH.

6                   JUDGE MORAN: Okay.

7                   MR. TIDABACK: Yes, sir. This is an  
8   e-mail to Mr. Simms which is the district manager  
9   referring to Mr. Markeson that day and that  
10   inspection.

11                  JUDGE MORAN: And are you telling me  
12   that this is multiple unnumbered pages, that all  
13   of this is an e-mail that you sent?

14                  MR. TIDABACK: This -- Yes, your Honor.  
15   This is one chain e-mail. Mr. Simms, if I  
16   remember correctly, the e-mail started out to Mr.  
17   -- Mr. Markeson.

18                  JUDGE MORAN: Okay.

19                  MR. TIDABACK: And it went up the chain  
20   to Mr. Simms.

21                  JUDGE MORAN: Okay. And you tell me if  
22   I have this right. My understanding would be that

1 the purpose of your attempting to introduce this  
2 e-mail is to demonstrate that this inspector was  
3 disrespectful or some other negative attribute of  
4 his behavior; is that right?

5 MR. TIDABACK: That is correct, your  
6 Honor.

7 JUDGE MORAN: Okay. Do we have an  
8 objection to this?

9 MR. MOLL: We don't have any objection.

10 JUDGE MORAN: All right.

11 MR. TIDABACK: So I would like to admit  
12 RH to the evidence.

13 JUDGE MORAN: All right. If the counsel  
14 for the Secretary doesn't have any issues, then I  
15 do not have objections to -- to include in light  
16 of their view. RH is admitted.

17 (Respondent's Exhibit R-H was  
18 marked for identification and  
19 received in evidence.)

20 MR. TIDABACK: Thank you, your Honor.

21 BY MR. TIDABACK:

22 Q Have you ever seen this e-mail before,

1 Mr. Markeson, this last e-mail on page 1? Sorry.

2 A I have not seen all of it.

3 Q Okay. Just this last e-mail to Mr.  
4 Simms, RH, page 1, dated Monday, April 17th, 2023,  
5 at 11:18:24 p.m.

6 JUDGE MORAN: So I'm going to interrupt  
7 again. I'm looking at this, and it's too many  
8 pages for me to -- it would take a long time to  
9 read through all of this. But let's assume, Mr.  
10 Tidaback, that -- that essentially this is  
11 allegations on your part, right? You're writing  
12 allegations about Inspector Markeson; is that  
13 right?

14 MR. TIDABACK: Allegations to the  
15 district manager.

16 JUDGE MORAN: Well, yes, but about  
17 Inspector Markeson?

18 MR. TIDABACK: Yes, sir.

19 JUDGE MORAN: Is Inspector Markeson the  
20 entire subject of this exhibit?

21 MR. TIDABACK: On page 1, yes, it is.

22 JUDGE MORAN: Well, but there are a lot

1 of other pages, so what -- you said it's a chain  
2 e-mail. Is this about this inspector's behavior?

3 MR. TIDABACK: The entire chain is not.  
4 The last communication in the chain of e-mails is.

5 JUDGE MORAN: Okay. Then what's the  
6 purpose of the entire chain? What follows?

7 MR. TIDABACK: It's just the e-mail  
8 chain.

9 JUDGE MORAN: What is your intention  
10 behind having that admitted into the record, RH?  
11 To show what?

12 MR. TIDABACK: To show that the  
13 inspector was having issues at our mine site with  
14 other inspectors which at the time as he just  
15 stated he wasn't his supervisor, but we had  
16 understood that he was his supervisor. That was  
17 the intent, your Honor.

18 JUDGE MORAN: Okay. And so I'll let you  
19 ask some questions subject to any objections. But  
20 not to be coarse, but I would -- my reaction is,  
21 so what? I mean, I don't understand the  
22 importance in determining about what is in front

1 of me.

2 MR. TIDABACK: The --

3 JUDGE MORAN: Let me finish, please.

4 MR. TIDABACK: Sorry.

5 JUDGE MORAN: A discrimination complaint  
6 by Mr. Baumann, that's what we're dealing with  
7 here --

8 MR. TIDABACK: Sure.

9 JUDGE MORAN: -- and the undisputed  
10 adverse action and then the second issue of  
11 affirmative defense that American Tripoli would  
12 have fired, terminated Mr. Baumann in any event.  
13 This has nothing to do with that. The -- The  
14 extent of the camaraderie or disagreements between  
15 MSHA's inspection team does not advance at all in  
16 my perspective the determinations that I have to  
17 make in this case.

18 MR. TIDABACK: So far, your Honor.  
19 Correct. We haven't gotten through all the  
20 testimony and stuff like that.

21 JUDGE MORAN: So far. Of course I'm  
22 saying so far.

1 MR. TIDABACK: Yes.

2 JUDGE MORAN: I'm talking about this  
3 exhibit. And again, you know, that's my  
4 unvarnished perspective on this.

5 MR. TIDABACK: Yes, sir.

6 JUDGE MORAN: People have disagreements.  
7 It's part of life.

8 MR. TIDABACK: Yes, sir.

9 JUDGE MORAN: It can be at home with one  
10 spouse or significant other. And it also can be,  
11 and often is, one's children, in business  
12 relationships, so it proves nothing so far --

13 MR. TIDABACK: So far.

14 JUDGE MORAN: -- this Exhibit RH, and  
15 this is just what you're -- you've written to this  
16 --

17 MR. TIDABACK: District manager.

18 JUDGE MORAN: Mr. Simms.

19 MR. TIDABACK: Yes, sir.

20 JUDGE MORAN: Yes. And I note that the  
21 -- the beginning line says, "I respect your  
22 opinion but do not see it that way. I can only

1 express my concern based on the experience we had  
2 with Mr. Markeson."

3 So what you're going to have to focus on  
4 is to ask him specific questions about his  
5 behavior which he -- and that behavior has to be,  
6 as far as I'm concerned, in relation not with his  
7 fellow employees, fellow inspectors or people in  
8 other offices but, rather, in connection with  
9 American Tripoli what might be said there, but  
10 this doesn't talk about that. I mean, so I -- I'm  
11 not going to let you go very far in terms of --  
12 because it doesn't prove anything in this case.

13 MR. TIDABACK: Correct. It establishes  
14 where we're trying to get, your Honor.

15 JUDGE MORAN: Well, it establishes an  
16 allegation by you to Mr. Simms and then the very  
17 first line you say that you respect his opinion,  
18 but you're disagreeing with Mr. Simms about his  
19 opinion.

20 MR. TIDABACK: Correct.

21 JUDGE MORAN: Okay. And that's why I  
22 have real problems about this. Go ahead with your

1 next question, and we'll plug along here.

2 BY MR. TIDABACK:

3 Q Okay. Okay. So can you provide  
4 examples of when you've acknowledged or praised  
5 compliance or improvements at safety -- in safety  
6 practices at our mine location?

7 A Can you ask that again, please?

8 Q Yes, sir. Can you provide examples of  
9 when you've acknowledged or praised compliance or  
10 improvements in safety practices at our mine?

11 A Not specifically, no.

12 Q Okay. During your visits, how many  
13 times have you visited the pit or the drying sedge  
14 -- drying sheds which are also part of our mine  
15 site?

16 MR. MOLL: Objection. Relevance. Mr.  
17 Baumann said he testified that he did never -- he  
18 never worked in the pit, so --

19 JUDGE MORAN: Well, and more  
20 fundamentally, I don't understand the relevance of  
21 the question apart from Mr. Baumann. I'm going to  
22 sustain the objection.

1 BY MR. TIDABACK:

2 Q Okay. Have any of your inspections or  
3 decisions -- or actions been challenged or  
4 overturned by MSHA or another authority?

5 MR. MOLL: Objection.

6 MR. TIDABACK: Yeah. I figured it was  
7 --

8 JUDGE MORAN: No side comments, please,  
9 okay --

10 MR. TIDABACK: Sorry, sir.

11 JUDGE MORAN: -- Mr. Tidaback, I mean,  
12 if you said something, "That figures," or I think  
13 you said something.

14 MR. TIDABACK: All right.

15 JUDGE MORAN: Parties are able to  
16 object, and you objected yesterday and the day  
17 before. The -- Whether I ruled in your favor or  
18 not, you had the opportunity to object.

19 MR. TIDABACK: I apologize. I didn't --  
20 it slipped. Yes.

21 JUDGE MORAN: Yes. I understand you're  
22 emotionally involved in this, as all of us are,

1 but hopefully professionally.

2 MR. TIDABACK: Yes, your Honor.

3 JUDGE MORAN: Okay. So, again, I'm  
4 going to ask the Secretary, I'm not telling you  
5 how to do your case, but we want to stay focused  
6 on what I have to deal with here, and a lot of  
7 side issues are not pertinent to this proceeding.

8 It seems to me that absent the -- this  
9 inspector's statement, which he has not made,  
10 about being disciplined in connection with his job  
11 as an inspector and more particularly as his job  
12 as an inspector at American Tripoli, that's about  
13 it in terms of challenging him.

14 MR. TIDABACK: Your Honor, we're trying  
15 to establish the basis that Mr. Markeson  
16 influenced and coerced Mr. Baumann in filing a  
17 complaint.

18 JUDGE MORAN: Well, you can ask  
19 questions, and you already have, about his  
20 communication off-site or otherwise, so -- but you  
21 can ask a question like that. You can say,  
22 "Inspector Markeson, did you ever attempt to

1 influence or direct Mr. Baumann as to what to say  
2 in communication with," in other words, guide him  
3 in connection with his discrimination complaint.  
4 You can ask that question.

5 Other than that, you've got to put on  
6 your own witnesses to perhaps establish that. So  
7 go ahead with -- that's why I want to try -- I  
8 know you're not an attorney, but that doesn't mean  
9 I can let you have free range here. This is not  
10 like -- You know the expression "free-range  
11 chickens" here, right? We can't have free range  
12 here in terms of -- because you're not an attorney  
13 to ask whatever questions you want.

14 MR. TIDABACK: Right.

15 JUDGE MORAN: There has to be certain  
16 parameters in this proceeding.

17 MR. TIDABACK: And I appreciate that. I  
18 appreciate your input 100 percent. I don't think  
19 I'm free range anything.

20 JUDGE MORAN: Okay.

21 MR. TIDABACK: I'm here to follow the  
22 guidelines.

1 JUDGE MORAN: So you can ask him that  
2 question if you want to, what I just asked.

3 MR. TIDABACK: Yes.

4 JUDGE MORAN: Did you ever attempt to  
5 influence Mr. Baumann about procedures or  
6 substance in connection with his discrimination  
7 complaint?

8 THE WITNESS: Influence or provide  
9 information?

10 JUDGE MORAN: Provide information.

11 THE WITNESS: After Mr. Baumann was  
12 terminated, he told me the conditions of his  
13 termination. I said, "You might have a 105(c)  
14 case" --

15 JUDGE MORAN: Okay.

16 THE WITNESS: -- "possibly." And he  
17 asked, "How do I file that?" And I provided him  
18 the contact number for -- I can't think of her  
19 first name, but her last name is Van Over in our  
20 district office who takes the complaints.

21 JUDGE MORAN: Okay. And did you just  
22 state that that communication, which you just

1 testified about --

2 THE WITNESS: Um-hum.

3 JUDGE MORAN: -- was after Mr. Baumann  
4 was terminated?

5 THE WITNESS: Yes, it was after Mr.  
6 Baumann was terminated.

7 JUDGE MORAN: Okay. And the second  
8 part, because you appropriately asked me to  
9 distinguish in my question, I asked you about did  
10 you attempt to influence Mr. Baumann in any manner  
11 in this matter.

12 THE WITNESS: No. I just provided him  
13 the means to file the complaint if he -- if he  
14 chose to do so.

15 JUDGE MORAN: Okay. And it's my -- my  
16 further understanding that -- that in connection  
17 with that, the call was, A, after his termination  
18 and, B, did -- did you institute, did you -- did  
19 you start the call, or did you receive a call?

20 THE WITNESS: It wasn't a call. It was  
21 in the parking lot at American Tripoli.

22 JUDGE MORAN: Oh, and the word I was

1 looking for, initiate, did you initiate with Mr.  
2 Baumann a conversation? This is after he's  
3 terminated?

4 THE WITNESS: So -- so after --  
5 Actually, the day that Mr. Baumann was terminated,  
6 I arrived at the mine site to conduct an  
7 inspection. Mr. Baumann was still the elected  
8 miners' representative for the mine.

9 So when Mr. Spears informed me that Mr.  
10 Baumann had been terminated, I called Mr. Baumann  
11 from right in front of the American Tripoli  
12 office. And I said, "You are still the elected  
13 miners' rep unless you don't want to be," and I  
14 said, "You have the right to accompany this  
15 inspection should you choose to do so."

16 JUDGE MORAN: And help me out with this.  
17 Did you say -- You said you called him. Is he on  
18 the mine property, or is he off the mine property?

19 THE WITNESS: He had left the property,  
20 and he was on his way home, I believe, and he  
21 turned around.

22 JUDGE MORAN: You knew how to contact

1 him? You contacted him?

2 THE WITNESS: Yes.

3 JUDGE MORAN: How did you know to  
4 contact him?

5 THE WITNESS: I got his phone number  
6 from Jesse Malessy, the environmental health and  
7 safety specialist.

8 JUDGE MORAN: On that day? Is that how  
9 you got the telephone number?

10 THE WITNESS: Yeah. I don't remember if  
11 it was that day or earlier or an earlier  
12 inspection, but that's where I got the number  
13 from.

14 JUDGE MORAN: All right. Do you have  
15 other questions to ask of this inspector?

16 MR. TIDABACK: Yes, your Honor.

17 JUDGE MORAN: Okay.

18 BY MR. TIDABACK:

19 Q On February 14th, do you recall what was  
20 happening that morning at our site?

21 MR. TIDABACK: And this -- Your Honor,  
22 this is in relation to the message to Gage Wheeler

1     which is part of the interference claim of the  
2     Secretary.

3                 JUDGE MORAN:   Okay.   Well, so let's back  
4     up.   This is February 14th you're saying?

5                 MR. TIDABACK:   Yes, your Honor.

6                 JUDGE MORAN:   And -- And you're asking  
7     him about a conversation?

8                 MR. TIDABACK:   No.

9                 BY MR. TIDABACK:

10                Q     The question was, do you recall what was  
11     occurring at our mine site the day that you -- on  
12     that day that you arrived that morning?

13                A     No, not in particular.

14                Q     Okay.   Do you recall -- Okay.   Do you --  
15     And do you recall in an e-mail that you sent  
16     regarding that day that Mr. Spears was not there  
17     at -- during your inspection?

18                MR. MOLL:   Objection.   Foundation.   I  
19     don't think he's established that Mr. Markeson was  
20     there that day.

21                JUDGE MORAN:   You'll have to rephrase  
22     the question.

1 BY MR. TIDABACK:

2 Q On February 14th, 2023, were you at an  
3 inspection on our site?

4 A I don't recall.

5 Q Let's see here. If we go back through  
6 -- Okay. The morning of the inspection where you  
7 issued a 104(b) order that the mill was locked or  
8 -- the inspectors locked the mill and told Mr. Rob  
9 to not -- no one allowed to go in the mill, do you  
10 remember that day?

11 A Yes.

12 Q Okay. Do you remember anything of that  
13 day that was going on outside of the mill dealing  
14 with the police officers --

15 A No.

16 Q -- Seneca police officers?

17 A I don't -- I didn't even know they were  
18 there that day.

19 Q Okay. Okay. So if a workplace exam was  
20 done saying that all was good and you come in for  
21 your inspection and then you find guarding off any  
22 exposed parts, wouldn't the person who did the

1 workplace exam be at fault?

2 MR. MOLL: Objection.

3 JUDGE MORAN: It's a hypothetical  
4 question that he's asking, and it's something you  
5 can't answer. The -- It's too far flung a  
6 hypothetical to -- to give a -- an absolute answer  
7 to.

8 MR. TIDABACK: Okay.

9 JUDGE MORAN: What you're attempting to  
10 do in a back-door route is to say that Mr. Baumann  
11 was deficient in his responsibilities regarding  
12 guarding. Regarding guarding, that's an awkward  
13 way to express it, but that's what you're  
14 attempting to do. And this inspector can't answer  
15 a question like that because -- because that's not  
16 how you're going to establish that Mr. Baumann was  
17 deficient.

18 The way that the American Tripoli can  
19 potentially do that is to have someone like Mr.  
20 Spears or some other witness testify that Mr.  
21 Baumann's duties included making sure that guards  
22 were in place and that on one or more occasions,

1 this was noted by such individual and that there  
2 was -- to demonstrate the veracity of that, that  
3 there was a record made on the part of American  
4 Tripoli which would have noted this deficiency,  
5 alleged deficiency, on the part of Mr. Baumann.  
6 So this would all be part of American Tripoli's  
7 affirmative defense to the extent that they can  
8 show that.

9 MR. TIDABACK: Correct.

10 JUDGE MORAN: All right. So that  
11 question is -- The objection to the question is  
12 sustained.

13 MR. TIDABACK: Okay.

14 BY MR. TIDABACK:

15 Q Mr. Markeson, do you remember having a  
16 conversation with me and Jordan during one of your  
17 inspections regarding daily inspections?

18 A Yes.

19 Q Okay. Do you remember in the control  
20 room when we were having those discussions the  
21 initial parts of discussions and us pulling this  
22 stack of papers out of the left-hand side of that

1 desk? Do you remember that?

2 A No.

3 Q Okay. So during our conversations about  
4 workplace exams, you stated that they were  
5 deficient in that conversation. Do you remember  
6 that?

7 A The form was deficient.

8 Q Okay. So you do remember the form in --  
9 in the control room?

10 A No.

11 JUDGE MORAN: He's -- Now, let's be fair  
12 here.

13 MR. TIDABACK: Yes.

14 JUDGE MORAN: He's -- He's saying that  
15 the form was deficient. He didn't make a  
16 statement about the inspection workplace exam  
17 being deficient; is that right?

18 THE WITNESS: Correct.

19 JUDGE MORAN: There's a difference  
20 there.

21 BY MR. TIDABACK:

22 Q Okay. So do you remember in the

1 discussion that we were having about workplace  
2 exams that we -- and if I remember correctly --  
3 Testifying. Sorry. Okay.

4 JUDGE MORAN: Again, and I'm telling  
5 you, Mr. Tidaback, if you are trying to say that  
6 Mr. Baumann should have been fired because, among  
7 other reasons alleged, he did insufficient  
8 workplace exams, you do that through your own  
9 witnesses --

10 MR. TIDABACK: Correct. Yes, your  
11 Honor.

12 JUDGE MORAN: -- and not through trying  
13 to snare Mr. Baumann through this inspector.

14 MR. TIDABACK: Correct.

15 JUDGE MORAN: He's there to -- There are  
16 instances, isn't this correct, Inspector, that a  
17 corporate or management person can be held  
18 personally responsible for violations if the  
19 government had -- conducts a 110(c) investigation?

20 THE WITNESS: That is correct.

21 JUDGE MORAN: Okay. So, again, my -- my  
22 point is that wait for you to advance your case

1 through your witnesses. Mr. -- Inspector Markeson  
2 is not in the business of other than what I  
3 mentioned about a 110(c) investigation about  
4 ascribing blame to a particular individual. He  
5 can -- It's spoken more neutrally such as there's  
6 no record of workplace examinations. But they  
7 don't get into the business of, "Oh, the inspector  
8 may say, 'And this condition has been not noted  
9 for several shifts, and it appears to have been an  
10 extensive period of time.'" But they don't get  
11 personal in saying, "And the blame for this  
12 problem is" --

13 MR. TIDABACK: Right.

14 JUDGE MORAN: -- "you know, employee X."

15 MR. TIDABACK: Correct, your Honor.

16 JUDGE MORAN: That's not how it works.

17 MR. TIDABACK: Yes.

18 JUDGE MORAN: So you're not going to get  
19 that from him because that's not part of his  
20 responsibilities, to ascribe blame to a particular  
21 individual.

22 MR. TIDABACK: Correct, your Honor.

1 JUDGE MORAN: So I'm only going to let  
2 you go so far in terms of your cross-examination  
3 of Mr. -- Inspector Markeson, so you're on the  
4 edge here of my -- it's within my authority to say  
5 --

6 MR. TIDABACK: Yes, sir.

7 JUDGE MORAN: -- "That's it."

8 MR. TIDABACK: Yes, sir, and I'm trying  
9 to properly word the questions, your Honor.

10 JUDGE MORAN: I know you are. I know  
11 you're trying, but when you're off -- off the  
12 reservation, so to speak --

13 MR. TIDABACK: Yes, sir.

14 JUDGE MORAN: -- I have to tell you  
15 that.

16 MR. TIDABACK: Yes, sir. Okay.

17 BY MR. TIDABACK:

18 Q Let's see here. And you had mentioned  
19 yesterday in your testimony about the guards  
20 laying -- laying on the ground next to the  
21 machines. Did you ever express to anyone that was  
22 with you to put the guards on?

1           A       Yes.

2           Q       Okay. So in reference to -- Do you  
3 recall our e-mails to Jesse Malessy and you  
4 regarding the miner pay when that 104(b) was  
5 issued?

6           A       I recall there being e-mails.

7           Q       Okay. If you would refer to Exhibit RE  
8 and RF, sorry, RE.

9                   JUDGE MORAN: No, no. I just want to  
10 make sure I don't make an error here. I admitted  
11 RH, Folks, and you had -- the government had no  
12 objection to RH, and now we're on what, sir?

13                  MR. TIDABACK: RE, echo, Romeo dot echo.

14                  JUDGE MORAN: Okay.

15                  BY MR. TIDABACK:

16           Q       Do you recall that e-mail?

17           A       Yes.

18           Q       So the -- In these conversations, you  
19 discussed with us, Mr. Malessy, I think whoever  
20 was in the e-mail --

21           A       Um-hum.

22           Q       -- about the entitlement for miners'

1 pay, correct?

2 A Correct.

3 Q So you were giving clarification to us  
4 about the right thing to do, correct?

5 A Correct.

6 JUDGE MORAN: Let me just interrupt  
7 again. On RE, is it your understanding, Mr.

8 Tidaback, that miners were paid in connection with  
9 this for the time that they were off?

10 MR. TIDABACK: Correct.

11 JUDGE MORAN: Okay. So you didn't  
12 dispute that?

13 MR. TIDABACK: No. No, your Honor.

14 JUDGE MORAN: American Tripoli paid the  
15 miners in connection with the closure of the mine.  
16 Did they get the four hours plus the four hours on  
17 the next shift?

18 MR. TIDABACK: Yes, your Honor. That's  
19 why we were requiring clarification behind that  
20 'cause we just didn't know at the time.

21 JUDGE MORAN: Clarification regarding  
22 what, sir?

1           MR. TIDABACK: Regarding the proper way  
2 to handle that because --

3           JUDGE MORAN: Okay.

4           MR. TIDABACK: -- if we got issued that  
5 nobody could be there at work, "Okay, well, what  
6 does that mean?"

7           JUDGE MORAN: Okay.

8           MR. TIDABACK: So I wanted to --

9           JUDGE MORAN: And did Inspector Markeson  
10 help you out with that?

11          MR. TIDABACK: Yes, he did.

12          JUDGE MORAN: And then ultimately, you  
13 paid it?

14          MR. TIDABACK: Yes.

15          JUDGE MORAN: Okay. So I don't know  
16 what that has to do with Complainant Baumann.

17          MR. TIDABACK: It goes back to Mr.  
18 Baumann saying that we didn't get -- he didn't get  
19 paid before the 104(b) order. That's where it  
20 relates to, that we were getting clarification at  
21 the same exact time that Mr. Baumann was  
22 complaining stating that he wasn't getting paid.

1 JUDGE MORAN: Okay. I consider this  
2 business of the pay to be a side show. It's a  
3 side issue, not -- not critical to my --

4 MR. TIDABACK: Oh.

5 JUDGE MORAN: -- determination in this  
6 case.

7 MR. TIDABACK: Sure. Okay, your Honor.

8 JUDGE MORAN: I do want to alert the  
9 Secretary of Labor, and this is your call, not  
10 mine, but as this proceeding goes along, it might  
11 be necessary, it's your evaluation, not mine, to  
12 call Mr. Baumann on this extensive discussion  
13 about guarding and his responsibilities and  
14 whether there were failures on his part to testify  
15 about that because that has been a theme on the  
16 part of American Tripoli, that he was negligent in  
17 -- in performing his -- if it was part of his  
18 duties in performing those duties. That's  
19 something I'm sure you were aware of anyway, but  
20 -- and we're going to be meeting again.

21 I think that the prediction is pretty  
22 accurate. We'll be meeting back in Joplin, which

1 is a very great place to be. It's a very nice  
2 city, and I don't say that just for the benefit of  
3 the employees. It's a very nice city. I've never  
4 been here before. So all right. Go ahead. Do  
5 you have a few more questions?

6 MR. TIDABACK: Just a few, your Honor.

7 JUDGE MORAN: Okay.

8 BY MR. TIDABACK:

9 Q And as far as you remember, that  
10 conversation about miners' pay was resolved?

11 A As far as I know. I never heard  
12 anything else about it.

13 Q Thank you. Were you -- Are you aware or  
14 were you aware that the company has filed a  
15 complaint against you through MSHA?

16 A No.

17 Q Okay. So can you recall the first time  
18 that you were informed or become aware that we had  
19 requested for you to not return to our mine site?

20 A No.

21 Q Were you ever notified that you were  
22 requested not to come to our mine site?

1           A       No.

2                   JUDGE MORAN: Let me ask this. Have you  
3 been barred by anyone at MSHA from visiting the  
4 mine site?

5                   THE WITNESS: I have been told that I  
6 have to get approval from the district office in  
7 order to return to American Tripoli.

8                   JUDGE MORAN: Okay. When were you told  
9 this?

10                  THE WITNESS: August or September of  
11 2023.

12                  JUDGE MORAN: Of -- Of 2022?

13                  THE WITNESS: 2023.

14                  JUDGE MORAN: 2023.

15                  THE WITNESS: And then I returned to the  
16 mine site in October of 2023 when the district  
17 gave me approval to go there.

18                  JUDGE MORAN: Thank you.

19                  BY MR. TIDABACK:

20           Q       Were you aware that our company had  
21 communication or -- communicated concerns about  
22 you to various levels within MSHA, including your

1 immediate supervisors, administrator of  
2 enforcement and the deputy secretary of operations  
3 of MSHA?

4 MR. MOLL: Objection. Asked and  
5 answered.

6 JUDGE MORAN: I sustain the objection.  
7 Remember now, this is what I alluded to already.  
8 You may ask the question. But under this  
9 collateral/noncollateral principle, that's as far  
10 as it goes. You have to take his answer, and he's  
11 answered these questions.

12 MR. TIDABACK: Okay. Okay.

13 BY MR. TIDABACK:

14 Q So has the complaint against you or  
15 request for you to not return to our mine  
16 influenced your perspective or feelings towards  
17 the company and its operations?

18 MR. MOLL: Objection.  
19 Mischaracterization. It misstates the testimony.

20 JUDGE MORAN: I sustain the objection.

21 MR. TIDABACK: That's all my questions,  
22 your Honor.

1 JUDGE MORAN: Okay. Do we have -- Do  
2 you want a moment to decide about whether you want  
3 to redirect?

4 MR. MOLL: We just have a very brief  
5 redirect.

6 JUDGE MORAN: Court Reporter, are you  
7 getting all of this?

8 (Discussion off the record.)

9 JUDGE MORAN: Go ahead, Attorney Moll.

10 MR. MOLL: Thank you.

11 REDIRECT EXAMINATION

12 BY MR. MOLL:

13 Q Mr. Markeson, you were -- during your  
14 inspections at American Tripoli in 2022 and '23,  
15 you were accompanied by other MSHA personnel; is  
16 that correct?

17 A That's correct.

18 Q And why was that?

19 A After the initial start of the complaint  
20 investigation in February, we were directed to  
21 never go to American Tripoli by ourselves, always  
22 have another MSHA inspector or employee with us.

1 Q And why was that?

2 A That was because Mr. Tidaback tended to  
3 take what we said and twist it and regurgitate it  
4 in a misleading way, so MSHA made the decision to  
5 have another MSHA person there with us so that we  
6 could double up on the notes and confirm,  
7 basically confirm, what each other's interactions  
8 were with the company.

9 Q And did any of the other MSHA personnel  
10 that accompanied you during those inspections at  
11 American Tripoli, did they ever have anything  
12 negative to say about your performance during  
13 those inspections?

14 A No.

15 MR. MOLL: And I'd just like to briefly  
16 go through Exhibits P25 and P26 which we discussed  
17 at the close of yesterday regarding which pages  
18 Mr. Markeson had been questioned on.

19 JUDGE MORAN: Sure. P24? 25?

20 MR. MOLL: P25 and P26.

21 JUDGE MORAN: Okay. Sorry. Of course  
22 they're in different notebooks, aren't they?

1 We'll start with P25.

2 MR. MOLL: I think they're both in the  
3 same notebook.

4 JUDGE MORAN: Oh, they are. You're  
5 right. I'm sorry, so you want to start with P25?

6 MR. MOLL: Yes, your Honor.

7 JUDGE MORAN: Remember I told you that  
8 certain pages were not admitted?

9 MR. MOLL: Yes.

10 JUDGE MORAN: I don't know how you're  
11 going to get them in. You're attempting to get  
12 the other pages in, is that what you're saying?

13 MR. MOLL: I'm just getting him the  
14 pages that Mr. Markeson can identify.

15 JUDGE MORAN: Okay. Fine. Or you're  
16 going to ask him to identify them?

17 MR. MOLL: Yes, yes.

18 JUDGE MORAN: Go ahead.

19 BY MR. MOLL:

20 Q Mr. Markeson, on P25, page 1, do you see  
21 down at the bottom where it says INSP? Were those  
22 your initials?

1           A       Those are my initials.

2           Q       And did you make these notes?

3           A       Yes.

4                   JUDGE MORAN:   Okay.   So I'm going to  
5   trudge along here.   P25, page 1 is admitted if I  
6   didn't say it yesterday.   Go ahead.

7                   BY MR. MOLL:

8           Q       All right.   And turning to the next  
9   page, P25, page 2, are those your initials at the  
10   bottom?

11          A       Yes, they are.

12          Q       And are those your notes?

13          A       They are.

14                  JUDGE MORAN:   Page 2 of P25 is admitted.

15                  BY MR. MOLL:

16          Q       P25, page 3, are those your notes as  
17   well?

18          A       They are.

19                  JUDGE MORAN:   Page 3 from P25 is  
20   admitted.

21                  BY MR. MOLL:

22          Q       P25, page 4, are these your notes?

1           A       They are. They are an electronic --  
2       electronically generated, but they are my notes.

3           Q       I believe -- I believe that's all the  
4       pages.

5                   JUDGE MORAN: I'm sorry?

6           MR. MOLL: I believe that's all the  
7       pages.

8                   JUDGE MORAN: You're right. Yes, but  
9       let me ask. How do you -- How do you know those  
10      are your notes, Inspector Markeson, because I  
11      don't see your initials on that one?

12                  THE WITNESS: No. There's no  
13      requirement for us to initial our electronic  
14      notes.

15                  JUDGE MORAN: How do you recognize this  
16      as being your notes?

17                  THE WITNESS: Couple things, where it  
18      says the person's name and then space dash space  
19      MSHA, you know, like Paul Dunk space dash space  
20      MSHA Keith Markeson space dash space, I'm the only  
21      inspector in the office that puts those spaces in  
22      there. And also, when I read the inspector and

1 mine operators' comments, those are my words from  
2 --

3 JUDGE MORAN: Thank you.

4 THE WITNESS: -- when I wrote it.

5 JUDGE MORAN: Okay. So page 4 of P25 is  
6 admitted. All of P25 is in. Go ahead, Attorney  
7 Moll.

8 MR. MOLL: Thank you, your Honor.

9 BY MR. MOLL:

10 Q Moving on to Exhibit P26, page 2, are  
11 those your initials at the bottom?

12 A They are.

13 Q And so these are your notes?

14 A They are.

15 JUDGE MORAN: P26, page 1 admitted.

16 MR. MOLL: Page 2, your Honor.

17 THE WITNESS: That's page 2.

18 JUDGE MORAN: I'm sorry. Thank you.

19 Did we do page 1?

20 MR. MOLL: We -- We didn't. Those would  
21 be from a different inspector.

22 JUDGE MORAN: Yes. I should have caught

1     that.  The -- another -- The initials on that page  
2     were DP --

3                 MR. MOLL:  Yes, sir.

4                 JUDGE MORAN:  -- someone else.  That's  
5     also on yours.  So P26, page 1, not admitted,  
6     okay, and then you just identified P2, sir.  You  
7     did, didn't you?

8                 THE WITNESS:  I did.

9                 JUDGE MORAN:  Yes.  P2, page -- P26,  
10    page 2 admitted.

11                BY MR. MOLL:

12                Q     Moving on to P26, page 3, are those your  
13    notes?

14                A     They are.

15                JUDGE MORAN:  Admitted.  P26, page 3,  
16    admitted.

17                BY MR. MOLL:

18                Q     And P26, page 4, are those your notes?

19                A     They are.

20                JUDGE MORAN:  Admitted, P26, page 4.

21                BY MR. MOLL:

22                Q     P26, page 5, are those your notes?

1           A       They are.

2                   JUDGE MORAN:   Admitted, P26, page 5  
3 admitted.

4                   BY MR. MOLL:

5           Q       P26, page 6, are those your notes?

6           A       Yes, they are.

7                   JUDGE MORAN:   Admitted.   P -- P26, page  
8 6 admitted.   Now we get into some problems, right,  
9 26, page 7?

10                  MR. MOLL:   Yes, and I believe those are  
11 all the notes Mr. Markeson made.

12                  JUDGE MORAN:   Okay.   So -- So to be  
13 clear, in Exhibit P26, once we get to page 7, and  
14 including page 7, through page 11 of P26, those  
15 are not presently admitted?

16                  MR. MOLL:   Yes, sir.

17                  JUDGE MORAN:   Okay.

18                  MR. MOLL:   Those are all my questions,  
19 your Honor.

20                  JUDGE MORAN:   All right.   Mr. Tidaback,  
21 do you have any additional questions based on the  
22 questions that were --

1 MR. TIDABACK: Yes.

2 JUDGE MORAN: -- proposed to Inspector  
3 Markeson?

4 MR. TIDABACK: Yes, your Honor,  
5 basically, just a comment that Mr. -- Mr. -- about  
6 the notes, the inspector notes that you just  
7 admitted.

8 JUDGE MORAN: Oh, sure. You can ask  
9 questions about his notes.

10 RECROSS EXAMINATION

11 BY MR. TIDABACK:

12 Q Okay. So do you recall the debrief and  
13 do I believe it was the same one, February 14th,  
14 because it was early on in the relationship that  
15 we were building, when I -- when I asked you about  
16 you writing the notes, remember your little thing  
17 you carried on your hip that had all the notes?  
18 You make a --

19 A Yeah, my notebook.

20 Q Thank you. And I asked you, "I see  
21 you're writing notes. What is that for?" Do you  
22 remember going into details about that, about why

1     you wrote the notes?

2             A       Yeah.  Actually, I do remember that  
3     conversation.

4             Q       Okay.  Do you recall stating that the  
5     operators' comments, which you just mentioned,  
6     could be used in testimony?

7             A       No, I don't recall that.

8             Q       Okay.  Do you agree -- Okay.  So the  
9     operators' comments, why -- why would you write  
10    the operators' comments in your notes?

11            JUDGE MORAN:  Well, did -- let me just  
12    -- Help me out.

13            THE WITNESS:  Um-hum.

14            JUDGE MORAN:  Did you -- Did you affirm  
15    that you wrote the operators' comments in your  
16    notes, some of them at least?

17            THE WITNESS:  Yes.

18            JUDGE MORAN:  Okay.  And then his next  
19    question is, why would you write down the  
20    comments?

21            THE WITNESS:  Correct.  Because the  
22    operators' statements to us, most of the time, are

1    how we gather our facts. We ask the operator for  
2    -- you know, "How long has this existed? Did you  
3    know about this condition," stuff like that, and  
4    their comments back to us are what we take as  
5    facts of what the operator's knowledge of a  
6    condition was.

7               JUDGE MORAN: And their assertions as to  
8    what took place?

9               THE WITNESS: Right, right.

10              JUDGE MORAN: Doesn't mean that you have  
11   to adopt it. It just means you're writing down  
12   their position?

13              THE WITNESS: Correct.

14              JUDGE MORAN: Okay.

15              BY MR. TIDABACK:

16              Q     So in that conversation, a little bit  
17   more details, do you agree that this could be the  
18   same as stating "anything you say can and will be  
19   used against you in court"?

20              A     No.

21              JUDGE MORAN: Okay. The answer is in.  
22   Okay. You didn't object, Secretary.

1 MR. TIDABACK: That's how I took it.

2 JUDGE MORAN: What's that?

3 MR. TIDABACK: That is how I took it, so

4 --

5 JUDGE MORAN: Well, no, but now you're  
6 testifying.

7 MR. TIDABACK: Sorry. Sorry. Thank  
8 you, your Honor.

9 JUDGE MORAN: All right. Thank you.  
10 Anything else?

11 MR. MOLL: No further questions, your  
12 Honor.

13 JUDGE MORAN: Okay. And, Inspector  
14 Markeson, I appreciate your testimony here today,  
15 and you are free. Now, we'll conclude this. I  
16 don't know. How are we going to handle this?  
17 First of all, you can't speak to anybody. I think  
18 I mentioned that yesterday, right?

19 THE WITNESS: Yes. And our solicitors  
20 actually told us that on Monday that once the  
21 trial starts, we can't talk to anybody, so --

22 JUDGE MORAN: And that's going to

1 continue until you get word from the Secretary,  
2 and that will be several weeks from today, when  
3 this proceeding is actually over. So it's not  
4 like, well, Friday comes along and now I can talk.  
5 That's not true, okay?

6 THE WITNESS: I understand.

7 JUDGE MORAN: You are to have no  
8 communications with anyone about this testimony or  
9 about this trial, all right?

10 THE WITNESS: I assume I can communicate  
11 with our solicitors to figure out scheduling and  
12 that type of thing?

13 JUDGE MORAN: Of course. Procedural  
14 things like that, not substantive things. Yeah.

15 THE WITNESS: Correct. I understand  
16 that.

17 JUDGE MORAN: All right. Anything else  
18 from the Secretary? Can we -- Any problems  
19 telling Mr. Markeson we've completed his  
20 testimony?

21 MR. MOLL: No, your Honor.

22 JUDGE MORAN: Thanks again. Nice to

1 meet you.

2 THE WITNESS: Thank you, your Honor.

3 JUDGE MORAN: And who will we be having  
4 next?

5 MR. MOLL: The Secretary would call Mr.  
6 Bryan Licklider.

7 JUDGE MORAN: And he is? You can just  
8 tell me who he is. He'll have to testify to it,  
9 but what is his --

10 MR. MOLL: He's an MSHA inspector.

11 JUDGE MORAN: Okay. That's all I wanted  
12 to know. Folks, we're going to take -- It's 9:47.  
13 We're going to take a break, our court reporter as  
14 well, all right, so 10 a.m. Central Time. Do you  
15 understand that?

16 THE VIDEOGRAPHER: Thumbs up.

17 JUDGE MORAN: Okay. Thanks. That  
18 helps. I'll see you all in ten minutes.

19 (Recess)

20 JUDGE MORAN: Okay. We'll go on the  
21 record. Are we on the record? Thumbs up there?

22 THE VIDEOGRAPHER: Thumbs up.

1 JUDGE MORAN: I'm going to swear you in,  
2 sir. You've been identified as -- Inspector, what  
3 is your name?

4 THE WITNESS: Bryan Licklider.

5 JUDGE MORAN: Okay. Please stand up.  
6 Are you able to stand up?

7 THE WITNESS: Yes.

8 JUDGE MORAN: Yes. Please raise your  
9 right hand.

10 Whereupon,

11 BRYAN LICKLIDER

12 was recalled as a witness and, having been first  
13 duly sworn, was examined and testified as follows:

14 THE WITNESS: Yes, sir.

15 JUDGE MORAN: Okay. Thank you. Have a  
16 seat. State your name for the record and spell it  
17 for us.

18 THE WITNESS: Bryan Licklider. It's  
19 B-R-Y-A-N, L-I-C-K-L-I-D-E-R.

20 JUDGE MORAN: All right. Counsel for  
21 the Secretary, go ahead.

22 MR. TIDABACK: Your Honor, I have an

1 objection.

2 JUDGE MORAN: Sure.

3 MR. TIDABACK: The -- the inspection  
4 that Mr. Licklider performed at our location is --  
5 the date is really of no relevance to Mr.  
6 Baumann's termination.

7 JUDGE MORAN: Okay. And I will allow  
8 you to deal with that on cross-examination.

9 MR. TIDABACK: Yes, sir.

10 JUDGE MORAN: All right. And I will  
11 just deal with this as the questions come up. If  
12 I see problems apart from your objection, I -- I  
13 will speak up as well.

14 MR. TIDABACK: Thank you.

15 JUDGE MORAN: Go ahead.

16 MR. MOLL: Thank you, your Honor.

17 DIRECT EXAMINATION

18 BY MR. MOLL:

19 Q Can you, please, state your name for the  
20 record.

21 A Bryan Licklider.

22 Q And where do you currently work?

1           A       At Rolla Mine Safety and Health Safety  
2   Administration.

3           Q       And what's your job title with the Mine  
4   Safety and Health Administration?

5           A       Inspector.

6           Q       Okay. And how long have you held that  
7   job?

8           A       Approximately 11-and-a-half years.

9           Q       Have you ever conducted an inspection at  
10   American Tripoli in Seneca, Missouri?

11          A       Yes.

12                 MR. MOLL: Okay. I'm going to go ahead  
13   and move to Exhibit P26.

14                 JUDGE MORAN: P26?

15                 MR. MOLL: Yes, your Honor.

16                 JUDGE MORAN: Okay.

17                 BY MR. MOLL:

18           Q       And if we could turn to page 7 or --  
19   page 1, actually, of Exhibit P26. Strike that.  
20   Page 7.

21                 JUDGE MORAN: Okay. P26, sir? P26?

22                 MR. MOLL: P -- P26 and page 9. We'll

1 get there eventually.

2 JUDGE MORAN: Get to the finish line,  
3 right?

4 MR. MOLL: Yes.

5 JUDGE MORAN: You can understand that  
6 reference.

7 MR. MOLL: Yes, your Honor.

8 JUDGE MORAN: It's a marathon. Okay.  
9 We're on P26, page 9. Go ahead.

10 BY MR. MOLL:

11 Q Mr. Licklider, do you recognize this  
12 document?

13 A Yes. It's my field notes from that  
14 inspection.

15 Q And how do you know that?

16 A 'Cause this is my handwriting, and  
17 that's my date and -- but it's on paper.

18 Q Okay.

19 JUDGE MORAN: Are your initials on the  
20 bottom of that page?

21 THE WITNESS: Yes, my initials are on  
22 the bottom of that page.

1 MR. MOLL: I'd like to admit that page.

2 JUDGE MORAN: Okay. These are notes  
3 that you made, sir, while inspecting American  
4 Tripoli?

5 THE WITNESS: Yes, sir.

6 JUDGE MORAN: Okay. Any objection?

7 MR. TIDABACK: P26, page 9; is that  
8 correct?

9 JUDGE MORAN: Yes.

10 MR. TIDABACK: No objection to page 9.

11 JUDGE MORAN: P26, page 9 is admitted.

12 MR. MOLL: Thank you, your Honor.

13 JUDGE MORAN: Yes. The Secretary's  
14 keeping a record of these as well.

15 BY MR. MOLL:

16 Q And moving down on the page, on page 9  
17 of Exhibit P26, do you see where it says -- the  
18 line that ends, "2021 outside of office, zero  
19 eight ten"?

20 A Yes. I entered the shop area.

21 Q And so eight ten, would that have been a  
22 time of day, in the morning, whenever you entered

1 the shop area?

2 A Eight ten. Eight ten.

3 JUDGE MORAN: Well, it's in the -- I  
4 think Attorney Moll is directing you to where is  
5 says 0 eight ten on that line. Is that the line  
6 you're referring to, sir?

7 MR. MOLL: Yes, your Honor.

8 THE WITNESS: I'm seeing 0 eight  
9 thirty-five.

10 JUDGE MORAN: Yeah. Why don't you walk  
11 up and point to the area on the exhibit.

12 THE WITNESS: I see two ten.

13 JUDGE MORAN: That's fine.

14 MR. MOLL: Right there.

15 THE WITNESS: Oh, I'm sorry.

16 JUDGE MORAN: That's fine. No problem.

17 Okay. So we had Attorney Moll direct the  
18 witness's attention to that line. Now, your  
19 question, sir, is?

20 BY MR. MOLL:

21 Q Would that have been the time of day  
22 that you entered that shop area?

1           A       That was the time -- 08:10 was the time  
2       that I discovered that fire extinguisher sitting  
3       outside the office. That was out of compliance  
4       with the annual inspection.

5           Q       Okay.

6           A       That was -- The date on that 2021 was  
7       when the last date of the annual -- excuse me, was  
8       the annual inspection on that extinguisher, and  
9       that was the time of day I found that.

10          Q       And would that have been 8:10 in the  
11       morning?

12          A       8:10 a.m., yes, sir.

13          Q       And so did you arrive to the mine prior  
14       to 8:10?

15          A       Yes. I believe it was like at 7:30.

16          Q       Okay. And that would have been -- Would  
17       that have been on the date listed at the top?

18          A       February 14th, yes, sir.

19          Q       Thank you. Of which year?

20          A       2023.

21          Q       Thank you. Now, during your inspections  
22       at American Tripoli in 2022 and 2023, can you

1 describe the behavior of the miners that you  
2 interacted with?

3 A On -- On February 14th?

4 Q Or at any time.

5 A Any time. When I first arrived on the  
6 mine site, it was in the afternoon, like 3:00 in  
7 the afternoon, and I went there for a hazard  
8 complaint is the reason I went there. And so as I  
9 went in the office to discuss the complaint with  
10 Mr. Spears, and I believe Mr. Baumann was there  
11 and another miner by the name of Gage Wheeler, and  
12 discussed the reason for the visit. And then we  
13 went through to the inspection, went out to the  
14 mill area where the complaint was centered toward.  
15 And when I walked in the building, there were  
16 multiple violations as soon as you walked in. It  
17 was very obvious.

18 JUDGE MORAN: Okay. Let me stop. Court  
19 Reporter, this witness is speaking softly. Are  
20 you getting all of this?

21 THE VIDEOGRAPHER: Thumbs up.

22 JUDGE MORAN: Okay. Try and keep your

1 voice up for us, okay?

2 THE WITNESS: Okay. I've got a voice  
3 problem. I've had throat cancer twice.

4 JUDGE MORAN: I'm so sorry.

5 THE WITNESS: Sometimes I do slur, and I  
6 do --

7 JUDGE MORAN: No. You're fine, and I'm  
8 sorry that you've had that issue. I hope that  
9 you're well and continue to stay well. So -- but  
10 do your best to -- isn't it right, Mr. Holt, that  
11 if he moves closer to that microphone right in  
12 front of him? That doesn't help?

13 THE VIDEOGRAPHER: I have the volume  
14 control here.

15 JUDGE MORAN: Okay. But picking up what  
16 he's saying, if he gets a little closer, it  
17 doesn't help?

18 THE VIDEOGRAPHER: No.

19 JUDGE MORAN: All right. Go ahead then.  
20 Let's continue. I'm sorry.

21 BY MR. MOLL:

22 Q And, Mr. Licklider, I believe you

1 mentioned that you met with a couple of miners  
2 while you were at American Tripoli?

3 A Yes.

4 Q Did you have any interactions with any  
5 of the other miners that worked at American  
6 Tripoli?

7 A No.

8 Q Okay. And so with the miners that you  
9 mentioned, what was their behavior like whenever  
10 you were interacting with them?

11 A On the first day, they were -- they were  
12 all a little nervous 'cause that's pretty normal  
13 when MSHA shows up. People get nervous, but I  
14 believe they were glad to see us there or -- see  
15 me there.

16 Q Okay. And why were they glad to see  
17 you?

18 A I think any time you have a hazard  
19 complaint, we really -- the inspector has no idea  
20 whose complaint it is. So when we go on a hazard  
21 complaint, we -- we are very thorough. We try to  
22 do all areas that -- we kind of go around what the

1 complaint says. We don't go directly to them  
2 unless it's a very broad complaint, which this one  
3 was. So we can see whenever we show up and there  
4 are issues that are of concern that miners tend to  
5 be appreciative that we are there.

6 Q Okay. During your inspection, did the  
7 miners ever seem more nervous than is typical in  
8 your experience with other inspections?

9 A Yes.

10 Q And why was that?

11 A I think they were out of fear, fear for  
12 their jobs, fear of retaliation, things like that.  
13 Like I said, normally, they get nervous around  
14 MSHA anyway.

15 Q But in this case, they were more nervous  
16 than usual?

17 A Yes.

18 MR. TIDABACK: Your Honor?

19 JUDGE MORAN: Yes?

20 MR. TIDABACK: Object. He's speaking  
21 for others.

22 JUDGE MORAN: Well, I'm going to sustain

1 the objection. I mean, one can make general  
2 interpretations of someone's behavior such as  
3 someone was aggressive or someone smiled. And  
4 it's also within the ability of most people to  
5 assess whether someone is acting nervously or not,  
6 so I'll -- You've taken that as far as you can,  
7 but I am allowing that, that his impression was  
8 that the miners were nervous and more nervous than  
9 your typical hazard complaint inspection or just  
10 generally?

11 THE WITNESS: More nervous -- More  
12 nervous than a normal inspection.

13 JUDGE MORAN: Okay. So you've carried  
14 that. Now move on to something else.

15 MR. MOLL: Thank you, your Honor.

16 JUDGE MORAN: You understand, I  
17 essentially sustained your objection by limiting  
18 it to what has been expressed, okay? I'm  
19 directing this to Mr. Tidaback.

20 MR. TIDABACK: Yes, your Honor, I  
21 understand. I'm just having a hard time  
22 understanding because he's still giving an opinion

1 of someone else.

2 JUDGE MORAN: Well, he gave an  
3 impression.

4 MR. TIDABACK: Right.

5 JUDGE MORAN: I mean, I can give an  
6 impression of you right now, you know, that you're  
7 standing respectfully, and I'm able to -- If I  
8 were on a witness stand, I can say that in my  
9 interactions with Mr. Tidaback, he was  
10 professional and polite, and those are  
11 impressions. But it's -- I'm not sure how that  
12 advances the case, frankly. That's a different  
13 issue.

14 MR. TIDABACK: Yes, sir. I agree with  
15 you. No complaints.

16 JUDGE MORAN: Okay. You don't take it  
17 the wrong way. Okay. So I don't know. We have a  
18 lot of things here that I might be able to just  
19 breeze over quickly when I write my decision, but  
20 go ahead.

21 MR. MOLL: Thank you, your Honor.

22 BY MR. MOLL:

1           Q     In your experience, Mr. Licklider, is  
2     American Tripoli similar to the other mines you've  
3     inspected?

4           A     No. They're very different.

5           Q     And why is that?

6           A     It seemed when I walked in that there's  
7     a total disregard for safety. I've inspected 11  
8     different states, from the small mom-and-pop  
9     operations to large cement plants and gold lines,  
10    silver mines, selenium mines, salt mines, and I've  
11    never seen a concentration of the amount of  
12    disregard for safety in one location.

13          Q     And during your time inspecting American  
14    Tripoli, did you ever tell anyone at American  
15    Tripoli that you would call the U.S. marshals on  
16    them?

17          A     No.

18          Q     Did you ever threaten anyone at American  
19    Tripoli?

20          A     No.

21          Q     Did you ever tell anyone at American  
22    Tripoli that you would take them to jail?

1           A       No, never.

2           Q       Did you ever -- Did you ever witness any  
3 other MSHA inspectors make any threats towards  
4 anyone at American Tripoli?

5           A       No.

6                   MR. MOLL: Thank you, your Honor. No  
7 further questions.

8                   JUDGE MORAN: Okay. Thank you. Now we  
9 have cross-examination, and I'm reminding you  
10 again about the collateral/noncollateral issue,  
11 okay?

12                  MR. TIDABACK: Yes, your Honor.

13                  CROSS-EXAMINATION

14                  BY MR. TIDABACK:

15           Q       Mr. Licklider, what dates did you  
16 conduct --

17                  THE VIDEOGRAPHER: Your microphone.

18                  JUDGE MORAN: Thank you, Mr. Holt.

19                  THE VIDEOGRAPHER: Yes.

20                  JUDGE MORAN: Let's make sure that  
21 you've got that microphone high enough on your  
22 lapel. And, Court Reporter, can you hear? Go

1 ahead and speak, Mr. Tidaback.

2 MR. TIDABACK: Yes. Can you hear me  
3 now?

4 JUDGE MORAN: Thank you.

5 MR. TIDABACK: Thank you.

6 BY MR. TIDABACK:

7 Q Mr. Licklider, now, what dates did you  
8 conduct the inspection related to this case?

9 A February 13th to, I believe it was,  
10 February 15th, 2023.

11 Q And was that your first visit to  
12 American Tripoli?

13 A No. I've inspected there before.

14 Q When was your last inspection to this  
15 one?

16 A It would have probably been six years  
17 before.

18 Q Six years?

19 A That time, yeah, under a different  
20 ownership.

21 Q Yes, sir. Have you corresponded with  
22 myself, Mrs. Tidaback, Mr. -- either of us before?

1           A       I don't believe so. I've never met you.

2           Q       Yes, sir. No correspondence? No  
3       communications?

4           A       Not that I'm aware of.

5           Q       But you have been in contact with Mr.  
6       Spears, correct?

7           A       Yes.

8           Q       He was the operations manager at the  
9       time?

10          A       Yes.

11          Q       Okay. Did John Spears get in contact  
12       with you after your inspection in February 2023 to  
13       point out specific guards that were needing  
14       rebuilt -- rebuilt or built-up, I think was the  
15       term?

16          A       Would you care to repeat that question?

17          Q       There was discussion in e-mails  
18       regarding a -- the guarding that needed built up.  
19       Do you recall those conversations with the e-mails  
20       from Mr. Spears to you?

21          A       I recall the conversation, yeah.

22          Q       During your inspection that day, did Mr.

1 Spears same frustrated?

2 A Yes.

3 Q Did he say why? What else was going on  
4 that day?

5 A He said he didn't have -- He stated he  
6 didn't have time to fix anything and he needed to  
7 be running production.

8 Q And did he recall that morning dealing  
9 with the police officers? Since you were there  
10 that morning, did you see any of that going on?

11 A I know nothing about that.

12 MR. TIDABACK: Okay. No other  
13 questions, your Honor.

14 JUDGE MORAN: Okay. Anything on  
15 redirect?

16 MR. MOLL: No further questions, your  
17 Honor.

18 JUDGE MORAN: Inspector Licklider, I  
19 appreciate your testimony, sir, and I wish you the  
20 best with your health. Very nice to meet you.

21 THE WITNESS: Same here, sir.

22 JUDGE MORAN: Thank you. We tell all

1 the witnesses, I mean all the witnesses, that  
2 you're not to talk with anyone about this case  
3 other than something like if the Secretary's  
4 attorneys were to say, "You know, we're going to  
5 need you back on a certain day," that's a  
6 procedural matter. But we don't talk about the  
7 substance of the case, and you're not to talk with  
8 anybody about this, okay --

9 THE WITNESS: Okay.

10 JUDGE MORAN: -- until they tell you you  
11 can.

12 THE WITNESS: Not a problem, sir.

13 JUDGE MORAN: Thank you. Very nice to  
14 meet you.

15 THE WITNESS: Thank you.

16 JUDGE MORAN: Okay. We're going to go  
17 off the record for a second here, and you're  
18 excused. Thank you again.

19 (Recess)

20 JUDGE MORAN: Okay. So the Secretary  
21 requested a moment to confer about the case. I  
22 would again note that, and it's the Secretary's

1 call, not mine, it would still be, it seems to me,  
2 appropriate if the Secretary decided that they  
3 weren't going to call any new witnesses but they  
4 still wanted to at this time call Mr. Baumann back  
5 to the stand. I'm not saying one way or the  
6 other, just, it's something I mentioned earlier on  
7 the issue of guarding. And that could come -- For  
8 example, instead, it could come after the defense  
9 that the respondent puts on. Then the Secretary  
10 has the right to -- at the conclusion of the  
11 respondent's case to recall certain witnesses.

12 All right. So now -- So now we're back  
13 on the record. What did you want me to tell me  
14 about additional witnesses, Attorney Moll?

15 MR. MOLL: At this time, the Secretary  
16 will rest our case-in-chief subject to rebuttal.

17 JUDGE MORAN: Subject to rebuttal,  
18 that's the word I was looking for. That's what  
19 we're talking about. If they decide to recall Mr.  
20 Baumann or not, that would be in the nature of  
21 rebuttal testimony.

22 All right. So now the Secretary has

1   rested, okay, subject to rebuttal. And this is --  
2   Don't take this the wrong way in any way. I'm  
3   just trying to figure out, do you have any sense,  
4   and you might not, about the length of time it  
5   will take to put on your case? Might we conclude  
6   today, or your testimony will be brief, or you  
7   don't know?

8               MR. TIDABACK: Honestly, your Honor, I  
9   do not think it can be completed today.

10              JUDGE MORAN: Okay. That's fine, and  
11   I've already indicated that. Happy to come back  
12   to -- to Joplin. It's very nice. All right. So  
13   now are we ready to begin?

14              MR. TIDABACK: I do have a question.  
15   The Secretary had Mr. Spears as a witness. Is he  
16   going to be called? I don't know.

17              JUDGE MORAN: No. They've rested, so --

18              MR. TIDABACK: So they're not calling?

19              MS. O'REILLY: I would say we may call  
20   Mr. Spears in rebuttal, so we do -- would like him  
21   to still be under the Subpoena that we issued him  
22   until -- until such time we start our rebuttal.

1 JUDGE MORAN: That's entirely  
2 appropriate. They've rested for now subject to  
3 rebuttal, okay?

4 MR. TIDABACK: Okay. Is he still here?  
5 That's what I'm -- Is he here?

6 JUDGE MORAN: I don't know.

7 MS. O'REILLY: Mr. Spears is still  
8 present here. He appeared, you know, under the  
9 Subpoena, and he is still here. You know, we're  
10 not sure exactly how the respondent's case will  
11 proceed, so we don't know if we will get to him  
12 today. We're not really sure how we'll proceed  
13 through the day, but it does appear --

14 JUDGE MORAN: If it does develop?

15 MS. O'REILLY: Exactly.

16 MR. TIDABACK: So I can call Mr. Spears  
17 since he's here?

18 JUDGE MORAN: You can call Mr. Spears as  
19 a witness, yes.

20 MR. TIDABACK: So that's -- I would like  
21 to call Mr. Spears.

22 JUDGE MORAN: You're going to call that

1 as your first witness?

2 MR. TIDABACK: Yes, your Honor.

3 JUDGE MORAN: Okay.

4 THE VIDEOGRAPHER: Microphone.

5 MR. TIDABACK: Is he in the break room?

6 MS. O'REILLY: He is in the witness  
7 room. He's right in the first witness room right  
8 behind Mr. Tidaback.

9 MR. TIDABACK: Sorry, your Honor. It's  
10 my first time ever calling a witness, so --

11 JUDGE MORAN: Sure. Come on up here,  
12 Mr. Spears. We're going to have to put you on the  
13 witness stand. Careful of that tripod, you don't  
14 hit that, okay? So far, it's not collapsed.  
15 We've got a few more witnesses to go. Right  
16 around here. Yep. You'll make a left turn there,  
17 and the court -- videographer is going to --  
18 higher. Yeah. There you go. I'm going to swear  
19 you in, so please stay standing for a second,  
20 okay?

21 THE WITNESS: Yes, sir.

22 JUDGE MORAN: Are we ready? Okay.

1 Please raise your right hand, sir. I'm Judge  
2 William Moran. Nice to meet you.  
3 Whereupon,

4 JOHN ROBERT SPEARS  
5 was called as a witness and, having been first  
6 duly sworn, was examined and testified as follows:

7 JUDGE MORAN: Okay. Have a seat,  
8 please, and state your name for the record and  
9 spell it for us.

10 THE WITNESS: John Robert Spears,  
11 Spears, S-P-E-A-R-S.

12 JUDGE MORAN: Go ahead, Mr. Tidaback.

13 DIRECT EXAMINATION

14 BY MR. TIDABACK:

15 Q Morning, sir.

16 A Good morning, sir.

17 Q Can you describe the scope of your roles  
18 and responsibilities at the mine, especially in  
19 light of high employee turnover and other  
20 challenges that the company has actually faced?

21 JUDGE MORAN: So just for the record, I  
22 mean, I could insist that he first identify his

1 employment. Can we stipulate that Mr. Spears --  
2 Mr. Spears, you work, have worked and presently  
3 work, at American Tripoli?

4 THE WITNESS: Yes, sir.

5 JUDGE MORAN: Okay. And this is some of  
6 the preliminary stuff before you ask him questions  
7 --

8 MR. TIDABACK: Yes, your Honor.

9 JUDGE MORAN: -- because we need to  
10 identify him. Do you know your period of  
11 employment? Are you employed presently at  
12 American Tripoli?

13 THE WITNESS: Yes, sir.

14 JUDGE MORAN: And what location?

15 THE WITNESS: Seneca, Missouri.

16 JUDGE MORAN: Okay. At the mill?

17 THE WITNESS: Well, as the operations  
18 manager, I'm the seer of -- you know, the overseer  
19 of the mill, the drying sheds and the quarry.

20 JUDGE MORAN: Okay. Thank you. And  
21 your period of employment, when did you -- do you  
22 recall when you began working approximately?

1 THE WITNESS: August of 2022.

2 JUDGE MORAN: August of 2022. And  
3 you're presently employed with them now in the  
4 same role that you just described?

5 THE WITNESS: Yes, sir.

6 JUDGE MORAN: Okay. Now you can ask  
7 your questions.

8 MR. TIDABACK: Sorry, your Honor.

9 BY MR. TIDABACK:

10 Q Again, can you describe the scope and  
11 role of your responsibilities at the mine?

12 A I oversee the activities of the  
13 processing mill as well as the drying shed area  
14 and the quarry itself.

15 Q So just so the Court understands, we  
16 have the admin building, correct?

17 A Yes.

18 Q And we have the mill which is  
19 approximately 15 feet from the admin building,  
20 correct?

21 A Yes.

22 Q And then that is one location. That is

1 our --

2 JUDGE MORAN: You're testifying.

3 MR. TIDABACK: Oh, yes.

4 JUDGE MORAN: You said "one location."

5 You can say, "Is that one location?"

6 MR. TIDABACK: Correct.

7 JUDGE MORAN: Fill it in. Go with the

8 rest.

9 BY MR. TIDABACK:

10 Q Is that one location?

11 A Yes.

12 Q Okay. Then we have the quarry out in  
13 Oklahoma, correct?

14 A Yes, sir.

15 Q Has there been a lot of employee  
16 turnover since your tenure at American Tripoli?

17 A Yes, sir.

18 Q How have you balanced the demands of  
19 your operations' role with the additional  
20 responsibilities of maintenance, shift leads,  
21 safety and environmental specialists?

22 MS. O'REILLY: Objection. Facts not in

1 evidence. Assumes facts not in evidence.

2 JUDGE MORAN: I sustain the objection.

3 BY MR. TIDABACK:

4 Q Okay. Have there been times where  
5 maintenance, shift lead, other safety and  
6 environmental positions were needing to be filled  
7 that you had to backfill?

8 A Yes, sir.

9 Q Given the difficulties in obtaining and  
10 retaining maintenance personnel, how have you had  
11 to adapt to ensure that the maintenance needs are  
12 actually met without compromising the operation's  
13 efficiency or MSHA safety?

14 MS. O'REILLY: Objection. Assumes facts  
15 not in evidence.

16 JUDGE MORAN: I sustain the objection.

17 MR. TIDABACK: Can I ask what she's  
18 saying? I didn't hear what she said.

19 MS. O'REILLY: You're assuming a fact.  
20 Your question assumes things that aren't already  
21 in the record. You said something about given the  
22 difficulty. I can't even remember. The beginning

1 part was not facts that are in evidence yet.

2 MR. TIDABACK: I mean, so what -- I  
3 can't hear what she -- what's the -- just your  
4 words? I'm not saying you're wrong.

5 MS. O'REILLY: Objection. Assuming  
6 facts not in evidence.

7 MR. TIDABACK: Assuming facts.

8 JUDGE MORAN: Right. Your question does  
9 assume certain things that he has not yet  
10 testified to. And when you put that in, it's that  
11 old joke about when did you stop beating your  
12 wife, you know. It has to first be established  
13 that a person was -- that's an old canard. No  
14 one's ever heard of that?

15 MR. TIDABACK: No. Sorry.

16 JUDGE MORAN: Well, that assumes facts  
17 not in evidence. If someone says, "When did you  
18 stop beating your wife," well, let's just turn it  
19 around and modernize it, "When did you stop  
20 beating your husband?" Okay. To make this equal,  
21 it first has to be established that that person  
22 did that. So you haven't established these --

1   these predicate parts to your question.  You  
2   haven't established this with this witness.  And,  
3   therefore, he can't testify because you've assumed  
4   facts not yet in evidence.  I can't give you a  
5   lesson --

6                   MR. TIDABACK:  I understand.

7                   JUDGE MORAN:  -- in law, but you can try  
8   with another question.

9                   BY MR. TIDABACK:

10           Q     Okay.  Were -- Did operations experience  
11   a high turnover --

12           A     Yes, sir.

13           Q     -- of employees?

14           A     Yes, sir.

15           Q     In the maintenance role?

16           A     Yes, sir.

17           Q     The shift lead?

18           A     Yes, sir.

19           Q     Safety and environmental position?

20           A     Yes, sir.

21           Q     Administrative position?  Did you have,  
22   say, an administrator or administrative assistant?

1           A       Yes, sir.

2           Q       Okay. In your experience, was it  
3 difficult in obtaining or retaining experienced  
4 maintenance technicians?

5           A       Yes, sir.

6           Q       With that, how have you adapted -- If  
7 maintenance was not there, who fulfilled that  
8 role?

9           A       I did, sir.

10          Q       Okay. How did you adapt to ensuring  
11 that the maintenance needs were met without  
12 compromising operational efficiency and MSHA  
13 safety compliance?

14          A       I guess I worked all three of them as --  
15 to the best of my ability.

16          Q       And in your role, if you were doing  
17 maintenance, who backed you up?

18                 JUDGE MORAN: Well, did anyone back you  
19 up if you were doing maintenance?

20                 THE WITNESS: That was in my -- in my  
21 role as --

22                 BY MR. TIDABACK:

1           Q     Sorry. In your operations  
2     administrative role, if you were performing  
3     maintenance performance, who backed you up in your  
4     administrative role?

5           A     Russell Tidaback and Jordan Tidaback.

6           Q     If the shift lead was out, position not  
7     filled, who did that role?

8           A     Sometimes it would be a member of the  
9     mill crew or myself.

10          Q     And when you were doing that, again,  
11     someone else backed you up, correct?

12          A     Yes, sir.

13          Q     At the hierarchy, correct?

14          A     Yes.

15          Q     Okay. So can you provide -- Okay. You  
16     just -- Let's see here. How do you approach --  
17     Okay. Back up.

18                 In your experience, tell us a little bit  
19     about your history as far as training people. Did  
20     you have any prior training to American Tripoli of  
21     training personnel?

22          A     Yes, sir.

1 Q Could you elaborate a little bit on it?

2 A The 18-and-a-half years that I worked  
3 for the Postal Service and the 13-and-a-half years  
4 that I was a Postmaster, I did -- I helped conduct  
5 training for rural carriers, city carriers, as  
6 well as clerks and Postmaster relief personnel.

7 Q So how do you approach training,  
8 educating, mentoring mill associates, especially  
9 considering the varying levels of education that  
10 they had, their work experience and their  
11 leadership experience among our workforce?

12 MS. O'REILLY: I object. That's  
13 assuming facts not in evidence.

14 JUDGE MORAN: I sustain the objection,  
15 and I confess to being confused about the  
16 materiality of these questions in this proceeding.  
17 I -- Mr. Spears' training efforts, mostly with the  
18 Postal Service, I'm not sure how that relates to  
19 this case. Can you explain to me what you're --  
20 what you're intending to show by --

21 MR. TIDABACK: Establishing --

22 JUDGE MORAN: -- testimony about

1 training?

2 MR. TIDABACK: Yes, your Honor.

3 Establishing Mr. Spears' roles and  
4 responsibilities in relation to Mr. -- and  
5 experience related to Mr. Baumann's performance  
6 and incidences that Mr. Spears had to deal with  
7 with Mr. Baumann.

8 JUDGE MORAN: Okay. Why don't you get  
9 to those questions about -- about his interaction  
10 with Mr. Baumann. Let's get to that.

11 BY MR. TIDABACK:

12 Q So Mr. Baumann expressed to you multiple  
13 times about why we shouldn't add more feed into  
14 the system?

15 A Yes, sir.

16 Q Can you elaborate on that?

17 A Only one particular instance, you know,  
18 with the weather being hot and having to hand  
19 stack our -- our product.

20 Q Okay. Did you ever provide reasoning  
21 why we should provide more feed to the mill?

22 A Well, that our -- to meet our production

1 goals.

2 Q Did you assist in monitoring those  
3 production goals?

4 A Yes, sir.

5 Q Okay. Did you also assist in monitoring  
6 dust?

7 A Yes, sir.

8 Q Have you ever -- Have you ever told or  
9 did you specifically tell Rob not to talk to MSHA  
10 either in person or in chat?

11 A No, sir.

12 JUDGE MORAN: An we don't want to be too  
13 informal here. When Mr. Tidaback says, "Have you  
14 ever told Rob," do you understand that he's  
15 referring to Mr. Baumann?

16 MR. TIDABACK: Oh, sorry.

17 THE WITNESS: Yes, sir.

18 JUDGE MORAN: Okay. So let's stick with  
19 -- Let's get away from the first names, which  
20 we've been doing throughout this hearing --

21 MR. TIDABACK: Yes, sir.

22 JUDGE MORAN: -- just so we don't have

1 any confusion in the record.

2 MR. TIDABACK: Roger. Okay.

3 JUDGE MORAN: So you never told Mr.  
4 Baumann not to speak with MSHA? Is that your  
5 testimony?

6 THE WITNESS: That is correct.

7 BY MR. TIDABACK:

8 Q Okay. Did you ever get onto (sic) Rob  
9 or any shift lead for not getting, let's just say,  
10 the 40,000 pounds produced if the mill were shut  
11 down?

12 A No.

13 Q Well, why would they?

14 JUDGE MORAN: I'm sorry?

15 BY MR. TIDABACK:

16 Q Why wouldn't you?

17 A Because the mill was shut down by an  
18 outside party.

19 Q Okay. So did MSHA usually come on-site  
20 to terminate citations?

21 A Just to terminate?

22 Q Just to terminate.

1           A       Occasionally.

2           Q       Okay. Have they ever done them over  
3 e-mail or phone?

4           A       Yes, sir.

5           Q       What has been your experience been like  
6 during MSHA inspections?

7           A       Well, in the beginning, it was fairly  
8 casual with the -- with the inspectors that I was  
9 first acquainted with. But then after -- then  
10 after that particular, Mr. Van Dorn, when he was  
11 there, you know, and then after the new inspectors  
12 that I became acquainted with, it just became  
13 more, what I would -- you know, not necessarily  
14 hostile, personal but very hostile towards trying  
15 to run things through the 30 CFR and just being  
16 more self-opinionated about what -- how they  
17 interpreted the 30 CFR.

18          Q       Okay. And you mentioned the 30 CFR. So  
19 before -- Were you previously aware of what a  
20 miners' -- what a miners' rep was?

21          A       Yes.

22          Q       Did Mr. Baumann notify you -- Did Mr.

1 Baumann personally notify you that he was a  
2 miners' rep?

3 A He mentioned something about being a  
4 miners' rep, but I never received any other -- any  
5 other paperwork or any other notification from  
6 MSHA.

7 Q Do you recall when that was in time?

8 JUDGE MORAN: Well, he said he never  
9 received any other communication, but you said  
10 that Mr. Baumann mentioned it to you?

11 THE WITNESS: Yes. Yes, he did.

12 JUDGE MORAN: Well, are you stating that  
13 no MSHA inspector ever informed you that Mr.  
14 Baumann was now the miners' rep?

15 THE WITNESS: That is correct, sir.

16 JUDGE MORAN: No one ever told you?

17 THE WITNESS: No, sir.

18 JUDGE MORAN: So the only source that  
19 you learned that Mr. Baumann was a miners' rep was  
20 through Mr. Baumann?

21 THE WITNESS: Yes, sir.

22 JUDGE MORAN: Okay.

1 BY MR. TIDABACK:

2 Q Did Mr. Baumann provide you a document  
3 just in conversation walking by? How did he  
4 notify you?

5 A Not that I can remember.

6 Q Do you recall ever cutting off a  
7 lockout/tagout lock that wasn't yours?

8 A No, sir, I have not.

9 Q Do you feel that you created a type of  
10 environment where miners may be fearful to bring  
11 issues forward to you or to MSHA?

12 A No, sir.

13 Q Have you ever been accused of anything  
14 like that before?

15 A No, sir.

16 Q Have there been events where you cooked  
17 brisket or the staff or the -- the miners?

18 A Sure. Yes.

19 MS. O'REILLY: Objection, your Honor.

20 JUDGE MORAN: I'm going to allow the  
21 question. I don't -- that question, but, you  
22 know, we're not going to get into details about

1     brisket.

2                   MR. TIDABACK:   Yeah.   I know.   No, your  
3     Honor.   That was to establish that Mr. Spears --

4                   JUDGE MORAN:   I understand.   I  
5     understand your purpose.

6                   BY MR. TIDABACK:

7           Q     Okay.   Do you feel that you have gone  
8     out of your way to work -- to create a working  
9     environment where people want to come to work with  
10    you?

11          A     Yes, sir.

12          Q     Okay.   So in navigating -- Have there  
13    been specific challenges, successions in the  
14    training dealing with MSHA and fostering a culture  
15    of safety compliance with the MSHA standards?

16          A     As far as?

17          Q     Has the -- Has the culture gotten better  
18    during your employment?

19          A     I believe so.

20          Q     When you first started, did we have a  
21    safety environmental person working there?

22          A     Yes, we did.

1 Q What was that person's name?

2 A Bonnie Bainter.

3 Q Do we currently have a safety person?

4 A As of today, yes, sir.

5 Q Correct.

6 JUDGE MORAN: You mean literally as of  
7 today?

8 THE WITNESS: As of today, yes, sir.

9 JUDGE MORAN: Okay.

10 BY MR. TIDABACK:

11 Q So you've navigated interactions with  
12 MSHA dealing with inspectors. Okay. How do you  
13 manage these interactions to maintain compliance  
14 and to protect the miners' interests?

15 MS. O'REILLY: Objection. Assumes facts  
16 not in evidence.

17 JUDGE MORAN: I sustain the objection.

18 MR. TIDABACK: Sorry.

19 BY MR. TIDABACK:

20 Q So has a miner ever experienced to you  
21 their concerns about their jobs, displaying their  
22 fear of MSHA inspectors?

1 A Yes.

2 Q Mr. Markeson specifically?

3 A Yes.

4 Q Given the complaints from the mill  
5 associates, what have you done to address those  
6 concerns and underlining issues?

7 MS. O'REILLY: I'd object to the  
8 characterization of "mill associates." He's had  
9 one. I mean, he didn't elaborate that there were  
10 more than one.

11 JUDGE MORAN: No. I'm going to overrule  
12 that objection.

13 BY MR. TIDABACK:

14 Q Just to clarify, how many mill  
15 associates do we have?

16 A Currently, we have four.

17 Q Is that kind of basically always the  
18 number? I mean, does it range from 20 to 4, or  
19 what's that average number?

20 A 4 to 6 --

21 Q Okay.

22 A -- associates.

1 Q Very small, correct?

2 A Yes.

3 Q Reflecting on these challenging periods  
4 you have dealt with in your role in trying to  
5 navigate them with high employee turnover,  
6 equipment breakdowns, the different federal  
7 organizations, what have been your key learnings  
8 and takeaways in these experiences?

9 MS. O'REILLY: Objection. Assumes facts  
10 not in evidence.

11 JUDGE MORAN: I sustain the objection.

12 MR. TIDABACK: Okay. Sorry.

13 BY MR. TIDABACK:

14 Q During -- During your tenure with  
15 American Tripoli, how would you characterize Mr.  
16 Baumann in relationship with you being his direct  
17 supervisor?

18 A I thought we got along pretty well.

19 Q Did Mr. Baumann ever raise his voice,  
20 curse at you, basically be disrespectful to you as  
21 your -- as your subordinate?

22 A Not to me personally, no.

1           Q     Did he ever show anger, haste, stomp his  
2 feet, get mad at anything you directed him that we  
3 needed to do?

4           A     Yes, sir.

5           Q     How would you -- how would you -- How  
6 would you characterize the -- the operations with  
7 Mr. Baumann as the shift lead?

8           A     I felt that he was conscientious about  
9 trying to -- you know, trying to get our product  
10 produced.

11          Q     And during the time that Mr. Baumann was  
12 the shift lead, were there ever any issues or  
13 complaints that Mr. Baumann brought to you?

14          A     Well, you know, there was always issues  
15 with -- with the equipment, you know, needing to  
16 be repaired, looked after, you know.

17                JUDGE MORAN: So he brought those issues  
18 to your attention?

19                THE WITNESS: Yes, sir.

20                BY MR. TIDABACK:

21          Q     Did Mr. Baumann perform his workplace  
22 exams?

1           A     As far as I know, yes.

2           Q     If the issues were brought to you in the  
3 workplace exam, did we or -- did you pass them out  
4 to maintenance to address them?

5           A     Yes.

6           Q     Any -- Any maintenance-related or  
7 safety-related issues that were brought to you,  
8 you addressed them, correct?

9           A     Yes.

10          Q     Okay. When I say -- Is there any time  
11 that you didn't address a safety or related  
12 concern?

13          A     Not that I'm aware of.

14          Q     When they were talking about guarding,  
15 we got a lot of citations for guarding, why was  
16 the guarding taken off?

17                JUDGE MORAN: See, you -- you jumped  
18 ahead. You have to ask him first, "Were there  
19 issues with guarding?" That would be a question.  
20 Did you have issues at the mill with guarding?

21                THE WITNESS: Occasionally, yes, sir.

22                JUDGE MORAN: Were there instances where

1 the guarding was taken off?

2 THE WITNESS: The guarding in order to  
3 properly do lubrication for it, yes, the guarding  
4 would be taken off.

5 JUDGE MORAN: And were there instances  
6 when the guarding was not placed back on the  
7 machinery after the tag --

8 THE WITNESS: Yes.

9 JUDGE MORAN: -- was done? There were  
10 instances?

11 THE WITNESS: Yes, sir.

12 BY MR. TIDABACK:

13 Q And in that, we received citations for  
14 those, correct?

15 A Yes, sir.

16 Q Okay. If -- In the mill, who would you  
17 be -- whose responsibility is it to ensure that  
18 those guards are there?

19 A The person who was doing the workplace  
20 exam.

21 Q And in the role, whose responsibility is  
22 it to do the workplace exams?

1           A       For the mill, it would be the production  
2 supervisor.

3           Q       The shift lead, production supervisor,  
4 same thing?

5           A       Correct.

6           Q       So if someone was walking around hourly  
7 doing their daily updates and checks and they  
8 noticed the guarding was off, we would assume --  
9 it would be assumed, finding the word, correct me,  
10 that that person would note it in the workplace  
11 exam that there was an issue so that it could be  
12 addressed; is that correct?

13          A       Or should be.

14          Q       Was that constantly done from the shift  
15 lead's position?

16          A       No, sir.

17          Q       If nothing -- If a guard was off,  
18 spillage was on the ground, additional time on the  
19 production schedule was needed, was it ever asked  
20 of you to provide that extra time?

21          A       From --

22          Q       I'm sorry. From the shift lead.

1           A       From the shift lead, you know, not --  
2       not that I -- not that I can remember.

3           MR. TIDABACK:   Trying not to testify.

4           JUDGE MORAN:   We won't let you.

5           MR. TIDABACK:   Yeah.   Thank you, your  
6       Honor.

7           BY MR. TIDABACK:

8           Q       So -- and do you -- Do you consider the  
9       environment that the mill associates worked in  
10      while the machines were running a safe environment  
11      for a manufacturing plant for the equipment we  
12      have with the building being over 100 years old?

13          MS. O'REILLY:   Objection.   Assuming  
14      facts not in evidence.

15          MR. TIDABACK:   It's too much.

16          JUDGE MORAN:   Yeah.   I sustain the  
17      objection.

18          BY MR. TIDABACK:

19          Q       Okay.   Do you think that the mill is  
20      hazardous?   Yeah.   Do you think -- Do you think  
21      the mill in its operations is hazardous?

22          A       It has hazards.

1           Q     It has hazards. Are those hazards  
2 mitigated to where it's safe to work?

3           A     I believe everyone is trying to do their  
4 best to keep those hazards from -- from -- from  
5 becoming, you know, irrelevant. But I would like  
6 to think that people's personal initiative, that  
7 they would want to -- to not be in a position to  
8 be in danger of any -- of any type of equipment  
9 that we have.

10          Q     And with that, has there ever been any  
11 conversation, discussion, text messaging, phone  
12 calls, anything where miners should -- are told  
13 directly that, "You shouldn't -- you are not  
14 allowed to talk to MSHA"?

15          A     No, sir.

16          Q     Okay. And you received the miners'  
17 training just like ever other miner, correct?

18          A     Yes, sir.

19          Q     You receive the annual training just  
20 like every other miner?

21               MS. O'REILLY: Objection. Assuming  
22 facts not in evidence in the last question saying

1     --

2                 JUDGE MORAN: Well, he's asking. He's  
3 asking, but he does put a question mark at the  
4 end. I'm interpreting it as a question. Did you  
5 receive annual training from MSHA?

6                 THE WITNESS: Yes, sir.

7                 JUDGE MORAN: And did you receive other  
8 types of training from MSHA?

9                 THE WITNESS: Yes, sir.

10                JUDGE MORAN: Okay.

11                BY MR. TIDABACK:

12                Q     We use Teams for collaboration and  
13 communication, correct?

14                A     The Teams application --

15                Q     The Teams application.

16                A     -- in Microsoft, yeah.

17                Q     Everybody has access to it, correct?

18                A     Yes, sir.

19                Q     All the files that we have are in Teams,  
20 correct?

21                A     Yes, sir.

22                Q     All the training files?

1           A       Yes, sir.

2           Q       Everybody is shown how to use Teams,  
3 shown how to access the files. Everybody knows  
4 how to use -- Everybody is shown how to use all  
5 the files, correct?

6                   MS. O'REILLY: I object. He's really  
7 roaming into leading the witness and kind of  
8 testifying through his questioning.

9                   JUDGE MORAN: Yeah. You know, I'm still  
10 going to kind of give him some leeway on that.  
11 Were the people at the mill trained how to use  
12 Teams?

13                  THE WITNESS: Yes, sir.

14                  BY MR. TIDABACK:

15           Q       So there would be no reason why people  
16 wouldn't have access to them?

17           A       Yes, sir.

18           Q       24/7 you can access it at home. In  
19 different states, you can access all of our files  
20 anywhere, correct?

21           A       Yes, sir.

22           Q       Computer or phone, right?

1           A       Yes, sir.

2           Q       Okay. And we provide WiFi in the admin  
3 building and in the mill, correct?

4           A       Yes, sir.

5                   JUDGE MORAN: He is appending a question  
6 at the end of some of these statements, okay?

7                   MS. O'REILLY: Right, but it's direct  
8 examination, and he's leading the witness.

9                   JUDGE MORAN: I know.

10                  MR. TIDABACK: What is leading?

11                  JUDGE MORAN: But, you know, it is  
12 possible. I don't know how leading it is. It's  
13 leading, but it does allow -- at the end, he could  
14 say, "No, that's not correct." Okay. Go ahead,  
15 Mr. Tidaback.

16                  MR. TIDABACK: Yeah.

17                  BY MR. TIDABACK:

18           Q       So during -- During the tenure with Mr.  
19 Baumann being the shift lead, were there ever  
20 issues with his performance?

21           A       Yes, sir.

22           Q       Did you ever discuss with Mr. Baumann

1 about these performance issues?

2 A Yes, sir.

3 Q Did you follow our policies and  
4 procedures as far as leading the people underneath  
5 you?

6 JUDGE MORAN: I'm sorry. What did you  
7 say at the end?

8 BY MR. TIDABACK:

9 Q My question is, is he following the  
10 policies that we have in place by managing his  
11 people, managing the personnel that are at  
12 American Tripoli?

13 A The best that I could.

14 Q Do you recall in the employee handbook  
15 when it talks about progressive termination or --  
16 progressive termination? Do you remember that,  
17 the three steps that we have talked about in the  
18 employee handbook?

19 A Yes, sir.

20 MS. O'REILLY: He's testifying.

21 JUDGE MORAN: I'm allowing the question.  
22 So you know there's an employee handbook, and

1     you've looked at it?

2                 THE WITNESS:   Yes, there is, sir.

3                 JUDGE MORAN:   All right.   Are you  
4     familiar with the progressive discipline in that  
5     handbook?

6                 THE WITNESS:   Yes, sir.

7                 JUDGE MORAN:   Okay.   Go ahead, sir.

8                 BY MR. TIDABACK:

9                 Q     Are you familiar also with the Missouri  
10     law that it is an at-will work state?

11                A     Yes.

12                Q     What does the "at-will work state" mean  
13     to you?

14                A     It just means that at any point, the  
15     employer may terminate an employee's employment  
16     with the company.   And, therefore, the employee  
17     can also terminate at any time, you know, for no  
18     -- you know, without giving any reason.

19                MR. TIDABACK:   Okay.   If we could, look  
20     at Exhibit RB, your Honor.

21                JUDGE MORAN:   Okay.   RB, as in boy?

22                MR. TIDABACK:   Yes, your Honor, R, as in

1 Romeo, B, as in boy.

2 BY MR. TIDABACK:

3 Q John, if you have the white book, that  
4 says -- Yes. There's a tab that says "RB."

5 JUDGE MORAN: Tell us when you're at RB,  
6 Mr. Spears.

7 THE WITNESS: I believe I'm there, sir.

8 BY MR. TIDABACK:

9 Q And this document is my personal notes  
10 for leadership?

11 JUDGE MORAN: Well, but see, that's --  
12 now you're testifying.

13 MR. TIDABACK: Oh, I know. I was  
14 explaining to the Court where the document was.

15 JUDGE MORAN: Yeah, but that doesn't  
16 mean that that's established here. You have to  
17 testify that that's what this represents, and you  
18 can't testify yet. You haven't been sworn in.

19 What you can do is you can ask Mr.  
20 Spears if he recognizes this document, and then  
21 you can ask him -- and I really can't be -- This  
22 is not a law school class, okay?

1 MR. TIDABACK: Yes, your Honor.

2 JUDGE MORAN: I think I've been  
3 extremely patient here.

4 MR. TIDABACK: Yeah. I agree.

5 JUDGE MORAN: But you can ask him if he  
6 -- Do you recognize this document that's in front  
7 of you?

8 THE WITNESS: Yes, sir.

9 JUDGE MORAN: And do you know what it  
10 is?

11 THE WITNESS: Yes, sir.

12 JUDGE MORAN: Can you describe what it  
13 is? How is it -- How is it that you recognize it?  
14 Tell me that.

15 THE WITNESS: I -- I have -- I have seen  
16 this -- This is a document that was presented to  
17 me during my deposition.

18 JUDGE MORAN: Okay. So you saw this for  
19 the first time, is that right, in connection with  
20 your deposition?

21 THE WITNESS: I think so. I don't -- I  
22 don't -- I don't remember seeing it before.

1 JUDGE MORAN: And, Mr. Tidaback, you're  
2 representing that this -- these are your personal  
3 notes?

4 MR. TIDABACK: That is correct, your  
5 Honor.

6 JUDGE MORAN: Okay. Well, you -- this  
7 document, you can't get this in through this  
8 witness. You can't get anything about this  
9 document in through this witness. You can ask him  
10 other questions but unrelated to RB. These are  
11 just your personal notes. It means nothing  
12 without you asserting later on perhaps in  
13 testimony that these notes reflect your thoughts  
14 and impressions regarding the complainant, et  
15 cetera. I don't know what purpose you're going to  
16 use them for, but you can't ask more questions of  
17 Mr. Spears about this.

18 MR. TIDABACK: Okay. The reason I was  
19 referencing this document is these are the notes I  
20 made based on our conversation about --

21 JUDGE MORAN: Well, that will come later  
22 if you testify about it.

1 MR. TIDABACK: Okay.

2 JUDGE MORAN: I'm not always going to  
3 give an explanation. I just don't have the --

4 MR. TIDABACK: I understand, your Honor.

5 JUDGE MORAN: It's not my  
6 responsibility. I can just rule and say, "This is  
7 not admitted," or, "This is admitted," without  
8 elaboration as to why.

9 MR. TIDABACK: I understand.

10 JUDGE MORAN: This is not a class here.

11 MR. TIDABACK: I understand 100 percent,  
12 and I apologize.

13 BY MR. TIDABACK:

14 Q Okay. So can you change out -- go to  
15 Exhibit RD, as in David, D, as in David, two Ds.

16 JUDGE MORAN: And tell me when you're  
17 there at RD. You just saw the drill, how we do  
18 this, right? I gave you a mini example. So now  
19 RD, and you know how to proceed, right?

20 BY MR. TIDABACK:

21 Q Explain the top, what it is, so at least  
22 specifically --

1 JUDGE MORAN: No. You're going to ask  
2 him, first question, "Do you have RD in front of  
3 you?"

4 MR. TIDABACK: Correct, your Honor.

5 JUDGE MORAN: "Do you know what this  
6 is?"

7 MR. TIDABACK: Correct.

8 JUDGE MORAN: "How do you know what this  
9 is?" Okay?

10 MR. TIDABACK: Yes, your Honor.

11 JUDGE MORAN: Are you at RD?

12 THE WITNESS: I believe so, sir.

13 JUDGE MORAN: Okay.

14 BY MR. TIDABACK:

15 Q Across the top of page RD as in David,  
16 there's two Ds, RDD. Are you at RDD? Across the  
17 top, it says, "The following is a chat between  
18 Gage Wheeler and John Spears."

19 JUDGE MORAN: Whoa, whoa, whoa. I'm on  
20 RD. You're talking about RDD?

21 MR. TIDABACK: Delta, delta, yes, sir.

22 JUDGE MORAN: Okay. So I'm not there.

1 Were you at RD and not double D?

2 THE WITNESS: I'm at RD, single D.

3 JUDGE MORAN: What?

4 THE WITNESS: Single D.

5 JUDGE MORAN: Yeah, so that's not the  
6 exhibit you're asking him about?

7 MR. TIDABACK: No, your Honor, double  
8 Ds.

9 JUDGE MORAN: So you have to flip  
10 through your binder until we come to R double D.

11 BY MR. TIDABACK:

12 Q Are you at RDD at the top where it says,  
13 "Following is the chat between Gage" --

14 A Yes.

15 Q Okay. This -- You're familiar with the  
16 chats group if they were printed out? I don't  
17 know if you've seen printed chats or not.

18 A Yes.

19 Q Okay. So you can see in this one that  
20 it's, on the very top line on February 14th, John  
21 Spears, 2/14 at 6:35 a.m.?

22 A Yes, J.S.

1 Q J.S. would be you?

2 A Yes.

3 Q And since it is my account that printed  
4 these off for this exhibit, the bubbles on the  
5 right, if it was in color, would be a darker  
6 shade. It doesn't have my -- my initials.

7 JUDGE MORAN: You're testifying, sir.

8 MR. TIDABACK: I was explaining that.

9 Okay.

10 JUDGE MORAN: Ask him. You can try and  
11 ask him some questions about this. Have you seen  
12 this document before?

13 BY MR. TIDABACK:

14 Q Mr. Spears?

15 A Have I seen this document?

16 JUDGE MORAN: Yeah, R double D.

17 THE WITNESS: Not that I can remember.

18 BY MR. TIDABACK:

19 Q In a printed form. Is this -- Is this a  
20 chat that you would have had?

21 A Yes.

22 Q Okay. In this first bullet, you said,

1 "Gage Wheeler, do not question about the -- about  
2 the that the MSHA inspector may have. Do not go  
3 into the mill. I'll be the person who talks to me  
4 inspector." Do you agree that's your statement?

5 A Yes.

6 MS. O'REILLY: Object.

7 MR. TIDABACK: Oh, okay.

8 JUDGE MORAN: But the gist of it was  
9 expressed, so I'm allowing the question.

10 BY MR. TIDABACK:

11 Q Okay. The morning of the 14th, were you  
12 also dealing with the Seneca Police Department?

13 A Yes, sir.

14 Q And dealing with the Seneca Police  
15 Department related to another employee being  
16 arrested; is that correct?

17 A Yes, sir.

18 Q So is it safe to assume in that haste of  
19 dealing with the police department, trying to  
20 figure out what's going on, MSHA was at our site,  
21 correct?

22 A Yes, sir.

1           Q     The message that you sent to Gage --  
2     Okay. Let me prelude that question.

3                     Gage Wheeler was our maintenance  
4     personnel at the time, correct?

5           A     Yes, sir.

6           Q     Okay. Did we consider or -- Did you  
7     consider maintenance a very, very critical  
8     position that we were -- had a hard time obtaining  
9     and retaining?

10          A     Yes, sir.

11          Q     Okay. Was Mr. Wheeler initially a  
12     new-hire, critical to you that we keep him happy,  
13     content and wanting to stay employed with us?

14          A     I believe so.

15          Q     Okay. So we didn't want -- did the --  
16     did Gage show you --

17                     Did Mr. Wheeler show you his angst and  
18     attitude towards the MSHA inspectors the days  
19     before February 14th?

20                     MS. O'REILLY: I'm going to object that  
21     he's leading and adding in testimony.

22                     JUDGE MORAN: Yeah. The objection is

1 sustained.

2 BY MR. TIDABACK:

3 Q Yes. Was Gage Wheeler -- You answered  
4 that question.

5 Okay. So the maintenance position is  
6 very important to us. And in this question, is it  
7 safe to assume that you made this in haste dealing  
8 with everything else directed to Mr. Gage and only  
9 Mr. Gage?

10 MS. O'REILLY: Objection. He's leading  
11 the witness again. He's testifying, and he's  
12 assuming facts not in evidence.

13 JUDGE MORAN: I sustain the objection.

14 BY MR. TIDABACK:

15 Q Can you explain this statement that you  
16 made?

17 JUDGE MORAN: Yes. That question's  
18 okay.

19 THE WITNESS: Yes. That particular --  
20 That particular morning knowing that Mr. Wheeler  
21 had not been our employee for any kind of -- a  
22 long time I would --- I would say. I know that's

1 -- And I was probably driving, and so I -- you  
2 know, I didn't have a whole lot of time to  
3 elaborate as to my wishes for -- for Mr. -- Mr.  
4 Wheeler, you know. And so I didn't want any kind  
5 of wrong information, you know, because of Mr.  
6 Wheeler's newness to the company.

7 BY MR. TIDABACK:

8 Q Okay. Did you intend that message to  
9 tell Mr. -- Did you intend that message to  
10 interfere with Mr. Wheeler's rights?

11 A No.

12 MS. O'REILLY: I'd object to scope.

13 JUDGE MORAN: I'll allow the question,  
14 but there are -- there are relevance and  
15 materiality issues here. So I -- I don't know  
16 that I'm going to allow many more questions along  
17 this line.

18 MR. TIDABACK: I'm trying to establish  
19 the interference that the Secretary has claimed  
20 that we were doing based on this group of text  
21 messages or -- the messaging.

22 JUDGE MORAN: Yeah, and he's -- he's

1 just expressed, and I allowed that, that that's  
2 not -- that was not his intention, to interfere  
3 with the MSHA inspection or with communications  
4 with the MSHA inspector.

5 THE WITNESS: No, sir.

6 BY MR. TIDABACK:

7 Q On -- On the second page of that, RDD,  
8 Mrs. Tidaback stepped in. Is it safe to assume  
9 that she had stepped in for clarification, stepped  
10 into the conversation?

11 JUDGE MORAN: We're looking at the  
12 second page, and you're asking him to interpret  
13 whether -- you said "Mrs. Tidaback"?

14 MR. TIDABACK: Yeah, Ms. Tidaback, the  
15 last --

16 JUDGE MORAN: Ms. or Mrs. Tidaback?

17 MR. TIDABACK: Ms., Ms., Ms. Jordan  
18 Tidaback.

19 JUDGE MORAN: You're asking him to  
20 assume -- Do you have any basis to assume who's  
21 come into a conversation by looking at the second  
22 page? Do you understand? Are you able to make

1     that sort of judgment?

2                 THE WITNESS:   As to who -- who has --

3                 JUDGE MORAN:   Who asked you -- I'm

4     sorry.   Go ahead.

5                 THE WITNESS:   Well, I mean, I -- I know

6     by the -- by who it comes from, who that message

7     comes from.

8                 JUDGE MORAN:   Okay.   So the -- You can

9     see what we all can see, that at the bottom of

10    that page, it says "Jordan Tidaback."   Is that

11   what you're referring to?

12                THE WITNESS:   Yes, sir.

13                JUDGE MORAN:   Okay.   And what is your

14   point about that?

15                MR. TIDABACK:   The reason Mrs. Tidaback

16   stepped in the conversation, 'cause Mr. Spears was

17   communicating that he was dealing with the other

18   incident that was dealing with the police

19   officers.

20                MS. O'REILLY:   Objection.   Calls for

21   speculation.

22                JUDGE MORAN:   Yeah.   You -- I sustain

1 the objection. You'll have to move on to  
2 something else.

3 BY MR. TIDABACK:

4 Q Okay. So in -- in the Exhibit R echo,  
5 echo --

6 JUDGE MORAN: Which is the next exhibit?

7 MR. TIDABACK: Yes, your Honor. And I  
8 would like to include the Exhibit RDD as evidence,  
9 your Honor.

10 MS. O'REILLY: And I would object to  
11 that. There is commentary and argument at the top  
12 of this additional to the Teams messages in RDD,  
13 and the actual document that was provided in  
14 discovery was longer. But we wouldn't even agree  
15 to that being admitted because of the extra  
16 commentary, and these messages are covered in P9  
17 and P10 from the Secretary without the commentary.

18 JUDGE MORAN: All right. So -- and --  
19 And do you agree with what Attorney O'Reilly just  
20 said?

21 MR. TIDABACK: No, because she was  
22 provided these documents.

1 JUDGE MORAN: No, no. I'm not saying  
2 "provided," but she says -- she says that in  
3 Exhibits -- What were they again, Attorney  
4 O'Reilly?

5 MS. O'REILLY: P9 and P10.

6 JUDGE MORAN: P9 and P10. She's  
7 represented that what is in RDD appears in P9 and  
8 P10 but in a complete fashion and without  
9 commentary. In other words, it captures  
10 everything in RDD plus more and without commentary  
11 about -- at the top of this. By "commentary," you  
12 mean, Attorney O'Reilly, where it says, "The  
13 following is a chat between those individuals"?

14 MS. O'REILLY: Yes.

15 MR. TIDABACK: Okay. So I'm trying to  
16 decide on P -- Yeah.

17 MS. TIDABACK: Each RDD is --

18 MS. O'REILLY: P9 and P10, you were  
19 looking at those. They're both in the record.

20 MR. TIDABACK: So -- So the Secretary's  
21 exhibits are just P9 and P10. It's broken down to  
22 two. We have RDD as one.

1 MS. SMITH: We have commentary.

2 JUDGE MORAN: And just identify the  
3 commentary, please, Attorney --

4 MS. SMITH: Page 1, there's commentary  
5 that the following is the chat between Gage  
6 Wheeler and John Spears in the maintenance chat  
7 group. Gage Wheeler equals unknown user.

8 MR. TIDABACK: So it's explaining what  
9 the document is.

10 MS. SMITH: By Mr. Tidaback.

11 MS. O'REILLY: I don't know that we  
12 necessarily disagree with that, but I'm just --  
13 that hasn't -- There's no establishment about  
14 where that came from, why that's in there, who  
15 said that.

16 JUDGE MORAN: Here's my ruling. I'm  
17 going to allow RDD into the record but recognize  
18 that a more expansive form of that appears in P9  
19 and P10. You agree with that, correct?

20 MR. TIDABACK: I agree that they're the  
21 same documents.

22 JUDGE MORAN: Well --

1 MR. TIDABACK: So RDD only has the --

2 JUDGE MORAN: I understand.

3 MR. TIDABACK: Yes, your Honor.

4 JUDGE MORAN: But Attorney O'Reilly has  
5 said that everything in RDD is in P9 and/or P10 --

6 MR. TIDABACK: Correct, your Honor.

7 JUDGE MORAN: -- and more.

8 MS. O'REILLY: Might not be more. I  
9 think it might just be the same.

10 JUDGE MORAN: So I'm admitting RDD.

11 (Respondent's Exhibit R-DD was  
12 marked for identification and  
13 received in evidence.)

14 MR. TIDABACK: Thanks, your Honor.

15 BY MR. TIDABACK:

16 Q So -- and R echo, echo, the next page --  
17 you're at R echo, echo?

18 A Yes.

19 Q So this is the discussion about  
20 withdrawal order and miners' pay, and Mr. --

21 JUDGE MORAN: You see, you're  
22 testifying.

1 MR. TIDABACK: Oh, but that was -- that  
2 was --

3 JUDGE MORAN: Can you identify, Mr.  
4 Spears --

5 MR. TIDABACK: Yes.

6 JUDGE MORAN: Do you recognize REE? Are  
7 you on REE?

8 THE WITNESS: Yes, sir.

9 JUDGE MORAN: Do you recognize this?

10 THE WITNESS: Yes, sir.

11 JUDGE MORAN: Have you seen this before  
12 or only in connection with this litigation?

13 THE WITNESS: I've probably seen this  
14 before.

15 JUDGE MORAN: And can you tell me what  
16 it is?

17 THE WITNESS: It is --

18 JUDGE MORAN: Let's start with this. On  
19 the first page, can you identify where it says  
20 "you knew," who that refers to? It says "unknown  
21 user," right, on the top of the page?

22 THE WITNESS: Yes, unknown user.

1 JUDGE MORAN: And so you don't know who  
2 would be sending that message; is that correct?

3 THE WITNESS: No. I mean, I don't -- I  
4 don't know who would send that.

5 JUDGE MORAN: Okay. And for the -- The  
6 colored portion of it that has a gray background,  
7 do you know who that is sent by? It says "unknown  
8 user" again, right? Do you know who sent that?

9 THE WITNESS: No.

10 MR. TIDABACK: The first box, your  
11 Honor, if the user is -- Can I explain it?

12 JUDGE MORAN: No.

13 MR. TIDABACK: Okay.

14 JUDGE MORAN: All right. So I can't --  
15 Based on his answers, I can't consider any  
16 testimony from this witness or questions from this  
17 regarding REE.

18 MR. TIDABACK: Correct, your Honor.  
19 Okay.

20 JUDGE MORAN: All right. Gentlemen,  
21 we're going to take a ten-minute break here. It's  
22 11:05. We're going to resume at 11:15. Before we

1 go off the record, can you give me -- I ask this  
2 in all cases, so I don't want you to feel this is  
3 special treatment here because there is not. Do  
4 you have any estimate of how much more time you'll  
5 need to have a direct examination of Mr. Spears?

6 MR. TIDABACK: Probably less than five  
7 minutes, your Honor.

8 JUDGE MORAN: Okay. All right. So  
9 we'll pick up, and we'll finish that direct  
10 examination, and then if the cross-examination  
11 will go right forth with that. It's 11:06. I'll  
12 see you all at 11:15.

13 (Recess)

14 JUDGE MORAN: Okay. We're back on the  
15 record. So before you conclude with your  
16 questioning, Mr. Tidaback, which you indicated  
17 approximately five more minutes, I have a question  
18 for you. I remember seeing in your disclosure of  
19 witnesses that you indicated -- one thing stands  
20 out that any witness the Secretary may call, that  
21 was one of the witnesses you identified, and  
22 there's no problem with that. But after Mr.

1 Spears is done with his testimony, what other  
2 employee -- what other witnesses were you calling,  
3 including yourself, if you intend to testify?

4 MR. TIDABACK: Just myself.

5 JUDGE MORAN: Just you?

6 MR. TIDABACK: Yes, your Honor.

7 JUDGE MORAN: So is it -- Is it possible  
8 that we might wrap up this proceeding today?

9 MR. TIDABACK: I'm not a gambler, your  
10 Honor.

11 JUDGE MORAN: I think my question is,  
12 that second statement was based on -- once we're  
13 done with Mr. Spears, there's one more witness,  
14 and that's not taking into account any rebuttal  
15 testimony the Secretary may or may not elect to  
16 do. So that's it? That's the universe of your  
17 witnesses?

18 MR. TIDABACK: Yes, your Honor.

19 JUDGE MORAN: Okay. So continue with  
20 your questioning of Mr. Spears, please.

21 BY MR. TIDABACK:

22 Q Mr. Spears, okay, did you ever stop

1 anyone from making a safety complaint?

2 A No, sir.

3 Q Did you ever stop anyone from walking or  
4 talking?

5 A No, sir.

6 Q Were you in the conversation with Mr.  
7 Markeson regarding miners' pay about the -- from  
8 the 104 orders, the e-mail conversation that was  
9 going on?

10 MS. O'REILLY: Objection. He's  
11 testifying.

12 JUDGE MORAN: Right. Why don't you  
13 stick with the original part of the question. Did  
14 you have conversations with Inspector Markeson  
15 about employee pay in connection with the  
16 shutdown?

17 THE WITNESS: I believe we discussed it  
18 a couple -- at one point.

19 JUDGE MORAN: And was your purpose of  
20 that conversation to understand what your  
21 responsibilities were, the miners'  
22 responsibilities were?

1 THE WITNESS: Yes, sir.

2 JUDGE MORAN: And did he -- Did he  
3 inform you about what that was?

4 THE WITNESS: To the best of his  
5 ability, I believe so.

6 JUDGE MORAN: Okay. And this has been  
7 testified to earlier, so I can reference it. My  
8 understanding is that, in fact, the mine did pay  
9 these miners for the time that they were stopped  
10 from working; is that right?

11 THE WITNESS: Yes, sir.

12 JUDGE MORAN: That's your understanding?

13 THE WITNESS: Yes, sir.

14 JUDGE MORAN: Okay. Go ahead.

15 MR. TIDABACK: That's all. That's all  
16 the questions, your Honor.

17 JUDGE MORAN: You're done with your  
18 questions?

19 MR. TIDABACK: Yes, your Honor.

20 JUDGE MORAN: Okay. Thank you.

21 CROSS-EXAMINATION

22 BY MS. O'REILLY:

1           Q     Mr. Spears, prior to testifying today,  
2     have you learned anything about what has happened  
3     in this hearing so far?

4           A     No, ma'am.

5           Q     And you are the operations manager at  
6     American Tripoli, correct?

7           A     Yes, ma'am.

8           Q     And you have been employed there since  
9     August of 2022; is that correct?

10          A     Yes, ma'am.

11          Q     And Russell Tidaback is your boss,  
12     correct?

13          A     Yes, ma'am.

14          Q     And you kept Mr. Tidaback regularly  
15     updated about what was going on at the mine,  
16     correct?

17          A     Yes, ma'am.

18          Q     And you did this primarily by speaking  
19     to Mr. Tidaback via Messages on Microsoft Teams;  
20     is that correct?

21          A     Yes, ma'am.

22          Q     And you have authority at American

1 Tripoli to discipline employees, correct?

2 A Yes, ma'am.

3 Q You never disciplined Mr. Baumann while  
4 he was an employee at American Tripoli, correct?

5 A Yes, ma'am.

6 JUDGE MORAN: "Yes, ma'am, that's  
7 correct," you never disciplined him?

8 THE WITNESS: Not that I can remember.  
9 I don't remember ever doing any kind of a  
10 counseling notice or a write-up or anything like  
11 that.

12 JUDGE MORAN: Thank you. See, sometimes  
13 a "yes" answer can be confusing. That's why I  
14 asked for clarification.

15 THE WITNESS: Yes.

16 BY MS. O'REILLY:

17 Q You have given written discipline to  
18 other miners at American Tripoli, correct?

19 A Yes, ma'am, I have.

20 JUDGE MORAN: And have they been written  
21 disciplines or other forms?

22 THE WITNESS: Written discipline.

1 JUDGE MORAN: Okay.

2 BY MS. O'REILLY:

3 Q You have never -- You personally have  
4 never been disciplined while working at American  
5 Tripoli, correct?

6 A No, ma'am.

7 Q And it is your understanding that Mr.  
8 Baumann was terminated for production issues; is  
9 that correct?

10 A Yes, ma'am.

11 Q Earlier, you testified about, I believe,  
12 Mr. Baumann had expressed to you that meeting  
13 production quotas was too hard on the mill  
14 associates; is that correct?

15 A Yes, ma'am.

16 Q And he expressed that it was hard on the  
17 mill associates in that Mr. Baumann thought  
18 meeting the production quotas was not safe for the  
19 mill associates, correct? That was Mr. Baumann's  
20 thought or belief?

21 A I don't know whether he thought it was  
22 safe or not.

1           Q     Did he communicate that to you, though,  
2     that he thought it was unsafe for the mill  
3     associates to meet the production quotas?

4           A     Not as far as something being --  
5     specifically saying it was not safe, but he said  
6     he just didn't want to push the -- push the  
7     employees, you know, the mill associates any --  
8     you know, any harder than what -- you know, than  
9     what he thought, you know, the conditions, you  
10    know, would permit.

11          Q     Speaking of the production demands, the  
12    production demand for Mr. Tidaback was 40,000  
13    pounds per day; is that correct?

14          A     Yes, ma'am.

15          Q     However, that production demand of  
16    40,000 pounds has only been met about 20 to 30  
17    times in your entire time at the American Tripoli;  
18    is that correct?

19          A     I would say that's a fair number.

20          Q     And other than those 20 to 30 times, you  
21    did not meet that production quota regardless of  
22    who held the title of production supervisor,

1 correct?

2 A Yes, ma'am.

3 Q You walked around with MSHA inspectors  
4 during their inspections of the mine, correct?

5 A Yes, ma'am.

6 Q And you have seen Mr. Baumann speaking  
7 to MSHA inspectors, correct?

8 A Yes, ma'am.

9 Q And earlier, I think you testified, I  
10 just want to clarify, Mr. Baumann informed you he  
11 was a miners' rep before he was terminated?

12 A Yes, ma'am.

13 Q Whenever there was an MSHA inspection at  
14 the mine, you would notify Mr. Tidaback, correct?

15 A Yes, ma'am.

16 Q You never hired anyone to replace Mr.  
17 Baumann before he was terminated, correct?

18 A No, ma'am, not that I'm aware of.

19 Q So you did not hire someone before Mr.  
20 Baumann was terminated --

21 A No.

22 Q -- to replace him?

1 A No.

2 Q You walked around the mine on a daily  
3 basis. You walk around the mine on a daily basis  
4 while you're at work, correct?

5 A Yes, ma'am.

6 Q And you could have found the safety  
7 issues cited by MSHA when you walked around the  
8 mill, correct?

9 A Yes, ma'am.

10 MS. O'REILLY: No further questions.

11 JUDGE MORAN: Anything on redirect, sir?

12 REDIRECT EXAMINATION

13 BY MR. TIDABACK:

14 Q Mr. Spears, you stated that you never  
15 disciplined any miner. Did you verbally  
16 discipline any miner?

17 MS. O'REILLY: Misstates the testimony.

18 JUDGE MORAN: Rephrase the question.

19 Sustain the objection.

20 BY MR. TIDABACK:

21 Q Did you ever verbally discipline an  
22 employee, talk to them?

1           A       Yes.

2           Q       Sorry.

3                   JUDGE MORAN: Let him answer the  
4 question. Did you ever verbally discipline an  
5 employee?

6                   THE WITNESS: Yes.

7                   BY MR. TIDABACK:

8           Q       Do you recall what the termination  
9 letter stated for Mr. Baumann? Was it for  
10 performance, or was it for production?

11                   MS. O'REILLY: He is testifying and  
12 assumes facts not in evidence.

13                   JUDGE MORAN: No. I'll allow the  
14 question.

15                   MR. TIDABACK: Do you need a reference?

16                   JUDGE MORAN: Are you aware there was  
17 termination letter?

18                   THE WITNESS: Yes, sir.

19                   JUDGE MORAN: What is the reason you  
20 thought Mr. Baumann was terminated? What is your  
21 understanding?

22                   THE WITNESS: Performance.

1 JUDGE MORAN: For performance?

2 THE WITNESS: Yes, sir.

3 JUDGE MORAN: Not for production, or do  
4 you mean by production?

5 THE WITNESS: Well, I -- you know, I  
6 guess performance/production, you know. If your  
7 -- If your production's not showing what it's  
8 supposed to be, then it would be your performance  
9 toward that goal.

10 JUDGE MORAN: So are you telling me, are  
11 you telling us, that your evaluation of Mr.  
12 Baumann's -- You tell me if this is right now. Is  
13 your evaluation of Mr. Baumann's performance based  
14 upon production?

15 THE WITNESS: I'm not understanding the  
16 question, sir.

17 JUDGE MORAN: Well, you said that --  
18 Wasn't the gist of your answer a minute ago that  
19 the line between performance and production, they  
20 sort of cross one another, that they're related?

21 THE WITNESS: Yes, sir.

22 JUDGE MORAN: Okay. So now I'll ask you

1     again.   Was -- Was your evaluation of Mr.  
2     Baumann's performance related to the -- meeting  
3     production goals?

4                 THE WITNESS:   I would say that would be  
5     part of it, yes, sir.

6                 JUDGE MORAN:   And what would be the  
7     other part of it?

8                 THE WITNESS:   I would say it was his,  
9     Mr. Baumann's, reluctance to -- to try to meet  
10    that production goal due to whatever circumstances  
11    in the mill that he thought was relevant at the  
12    time.

13                JUDGE MORAN:   Okay.

14                BY MR. TIDABACK:

15                Q     You stated that we didn't hire any  
16    individuals to replace Mr. Baumann.   Did we  
17    discuss having to let Mr. Baumann go?

18                A     We did.

19                Q     And were these conversations months  
20    before his termination?

21                A     No.

22                Q     There were no conversations even in 2022

1 of having --

2 JUDGE MORAN: I believe he just answered  
3 that question. He said, "No."

4 MR. TIDABACK: So I'm just going --  
5 Okay. That's all, your Honor.

6 MS. O'REILLY: One clarification.

7 JUDGE MORAN: Well, you're not limited  
8 to one.

9 MS. O'REILLY: I think it's one.

10 RECROSS EXAMINATION

11 BY MS. O'REILLY:

12 Q Mr. Spears, it sounds like your only  
13 complaint with Mr. Baumann as an employee was that  
14 you believed he did not meet the production  
15 demands, correct?

16 A That's not my only complaint.

17 Q Do you -- So you're stating that you  
18 have more than just a complaint about him meeting  
19 production demands?

20 A Yes.

21 Q Do you recall having your deposition in  
22 this case?

1           A       Yes, ma'am, I remember.

2                   JUDGE MORAN: Is this an admitted --  
3 previously admitted exhibit?

4           MS. O'REILLY: Yes.

5           JUDGE MORAN: Okay.

6           BY MS. O'REILLY:

7           Q       And you gave that deposition on January  
8 30th?

9           A       Yes, ma'am.

10          Q       And you understood that you were under  
11 oath during that deposition?

12          A       Yes, ma'am.

13          Q       And that that deposition was given  
14 before a court reporter, correct?

15          A       Yes, ma'am.

16          Q       I'm going to have you refer to Exhibit  
17 P44 and go to page, well -- it would be a  
18 document.

19                   JUDGE MORAN: First time we're getting  
20 to Tab 3. P44?

21           MS. O'REILLY: Yeah. And Ms. Smith is  
22 going to direct him to the correct notebook.

1 JUDGE MORAN: Thank you.

2 THE WITNESS: Volume three there. Okay.

3 JUDGE MORAN: So help me save some time  
4 for you. What page on P44 are you going to be  
5 asking him about or pages?

6 MS. O'REILLY: It'll be page 9 of P44,  
7 and that's the page at the bottom, not the  
8 deposition transcript page.

9 JUDGE MORAN: Okay. You're talking  
10 about the page number that the Secretary has  
11 inserted?

12 MS. O'REILLY: Yes.

13 JUDGE MORAN: Okay. Page 9.

14 MS. O'REILLY: And then we're looking at  
15 deposition transcript page 29. You'll see there's  
16 four different boxes --

17 JUDGE MORAN: I do see that.

18 MS. O'REILLY: -- on 29 and then lines  
19 14 through 18.

20 JUDGE MORAN: Okay. So take a moment,  
21 Mr. Spears. Do you see page 29 on page 9 of  
22 Exhibit P44?

1 THE WITNESS: Yes, your Honor.

2 JUDGE MORAN: Okay. So the Secretary  
3 wants you to take a moment to look at -- What are  
4 the lines on page 29, Counsel?

5 MS. O'REILLY: 14 through 18.

6 BY MS. O'REILLY:

7 Q And in your deposition, you were asked:  
8 "So it sounds like overall, you didn't have a lot  
9 of complaints about Rob. Would you say your only  
10 complaint about him had to deal with meeting  
11 production quotas?" "Answer: Yes."

12 Did I read that correctly?

13 A Yes, you read it correctly.

14 Q And that -- And that is what you stated  
15 in your deposition, correct --

16 A Yes, ma'am.

17 Q -- when you were under oath on January  
18 30th?

19 A Yes, ma'am.

20 MS. O'REILLY: No further questions.

21 FURTHER REDIRECT EXAMINATION

22 BY MR. TIDABACK:

1           Q       On that same page, Mr. Spears -- I'm  
2       sorry. Yeah. It's okay.

3                   JUDGE MORAN: Take your time, please.

4                   BY MR. TIDABACK:

5           Q       Exhibit 44, page 10 --

6                   JUDGE MORAN: Page 10?

7                   MR. TIDABACK: Yes, sir, on page 10.

8                   JUDGE MORAN: Okay.

9                   MS. O'REILLY: I would object to him  
10       using the party admission in his own favor, and is  
11       he impeaching his witness on something? I don't  
12       know what's happening here.

13                   JUDGE MORAN: Why don't we wait to see  
14       what his question is.

15                   MS. O'REILLY: Okay.

16                   JUDGE MORAN: I mean, did you move for  
17       the introduction of 44?

18                   MS. O'REILLY: Yes. We had did that  
19       earlier today, in the morning.

20                   JUDGE MORAN: Okay. It was admitted?

21                   MS. O'REILLY: Yes.

22                   JUDGE MORAN: Okay. Let me see if I

1 have it. Yes, I do. It was just -- And following  
2 that was P35. Okay. So I do have that. Go  
3 ahead, Mr. Tidaback. You're directing Mr. Spears  
4 to page 10 --

5 MR. TIDABACK: Correct.

6 JUDGE MORAN: -- on page 44?

7 MR. TIDABACK: Page 10 of Exhibit P44,  
8 yes, your Honor.

9 JUDGE MORAN: Okay. And which page  
10 among those pages on P44 are you having him look  
11 at?

12 MR. TIDABACK: On the bottom right  
13 corner, it says page 33 and the box on the top  
14 right.

15 JUDGE MORAN: Okay. You want to ask him  
16 to read part of that or ask him a question about  
17 that, sir?

18 BY MR. TIDABACK:

19 Q On the left-hand side of that, it shows  
20 line No. 19, and then it goes through 21 in  
21 reference where it states, "Do you know why  
22 Baumann was terminated," at line 20A, "for his

1 lack of production and just an overall him just  
2 not being a productive employee," is line 21. Did  
3 I read that correctly?

4 A Yes.

5 MR. TIDABACK: Thank you, your Honor.

6 JUDGE MORAN: Okay.

7 MS. O'REILLY: No further questions.

8 JUDGE MORAN: All right. Mr. Spears,  
9 your testimony has concluded for now. Thank you  
10 for testifying. I don't know whether -- whether  
11 instructions for you are to remain in the witness  
12 room in case you are called back or whether --  
13 This is up to Mr. Tidaback, I guess.

14 MR. TIDABACK: I'm sorry. I'm sorry,  
15 your Honor.

16 JUDGE MORAN: Do you want to keep Mr.  
17 Spears available for potential --

18 MR. TIDABACK: No, your Honor. I don't  
19 believe --

20 MS. O'REILLY: We would like to have him  
21 available for the rest of the day.

22 JUDGE MORAN: Sure. So you're going to

1 have to stay here, okay, in the witness room, all  
2 right, sir?

3 THE WITNESS: Yes, sir.

4 JUDGE MORAN: All right. So if you go  
5 out, for, like, a cup of coffee, please come back  
6 promptly so that we don't have to wait a long time  
7 to retrieve you.

8 THE WITNESS: Yes, sir.

9 JUDGE MORAN: All right. Thank you.

10 MS. O'REILLY: And, your Honor, I'll  
11 just note we're going to hand him -- because we  
12 did Subpoena him, we're going to hand him the  
13 Subpoena witness forms. That's what we're handing  
14 him.

15 JUDGE MORAN: Yes. Good. Watch out for  
16 that tripod.

17 MR. SPEARS: Yes, sir.

18 JUDGE MORAN: I have tripped over my own  
19 tripod at home, so I know about this. If you want  
20 to say something about, "I need to go to the  
21 bathroom," or something like that, that's fine. I  
22 don't need an explanation because it would be

1 intrusive for me to even ask. You're free to go  
2 to the restroom. We'll wait for you to return.

3 MR. SPEARS: No, not right at this  
4 moment, your Honor, but if I --

5 JUDGE MORAN: Yes. It's not actually  
6 critical that you be in here at every moment, so,  
7 yes, whenever you need. Sure, sure.

8 Okay. So, folks, and I want to be sure  
9 this is well understood. I'm not rushing anybody  
10 in this proceeding, but we -- we have -- excluding  
11 lunch, we still have five hours here. So it is  
12 possible -- Depending upon the testimony from Mr.  
13 Tidaback and cross-examination of him and then  
14 whether there's rebuttal testimony, which I don't  
15 know if there will be any, it's possible that we  
16 could wrap this up.

17 But I will ask at the end of this  
18 proceeding, and this is to make sure there's no  
19 uncertainty here, that I customarily ask this,  
20 that the parties have to tell me whether or not  
21 they had a full opportunity to present their case.  
22 I do not -- I never want to leave here and have

1 someone -- it's never happened, by the way, but to  
2 have someone say, "Well, we were cut off, and we  
3 -- we needed more time to present our prosecution  
4 or our defense." So I will -- I will ask for that  
5 if it looks like we wrap up today. And if not,  
6 happy to come back here. As I said, it's a fine  
7 place, Joplin.

8 All right. So are we ready now, Mr.  
9 Tidaback, for you to testify?

10 MR. TIDABACK: Yes, your Honor.

11 JUDGE MORAN: Okay. And let me just  
12 give you a piece of advice about that. To some  
13 extent, I will allow you to testify in a narrative  
14 fashion, but it's helpful if -- if your daughter  
15 --

16 MR. TIDABACK: Jordan.

17 JUDGE MORAN: -- Jordan, I'm sorry,  
18 Tidaback is asking questions. It's smoother that  
19 way.

20 MR. TIDABACK: Yes, your Honor.

21 JUDGE MORAN: Remember, this is to give  
22 you some guidance about your testimony. If you

1 strain to things like opinion, et cetera, there's  
2 going to be some problems with that. But you can  
3 testify about, for example, this would be hearsay  
4 but hearsay is admissible, what Mr. Spears said to  
5 you about Mr. Baumann's job performance or what  
6 you observed about Mr. Baumann or paper that you  
7 issued to Mr. Baumann, if any, about criticizing  
8 his work performance or verbal exchanges you had.  
9 You can testify to that because we're talking  
10 about your memory of events where you had  
11 interactions with Mr. Baumann or with other  
12 people. You can testify about that, generally  
13 speaking. I'm not saying that's an absolute rule  
14 because it's in the context of the question. So  
15 you're prepared to come and testify now?

16 MR. TIDABACK: As far as I understand,  
17 yes.

18 JUDGE MORAN: Okay. Well, I'm sure  
19 there will be objections, and I may have some  
20 problems with some of your testimony, but I wanted  
21 to give you a broad outline about what a witness  
22 does. A witness testifies as to what they saw or

1 heard or did.

2 MR. TIDABACK: Correct, your Honor.

3 JUDGE MORAN: Okay. All right. So come  
4 on up here to the witness stand, and it's 11:36.  
5 We'll see how we progress. Let's plan to take a  
6 break at 12:30. But, again, if we're close to  
7 finishing, and it's probably in the interest of  
8 everybody if we're done, but I don't want to  
9 deprive anyone of needed lunch or other breaks,  
10 all right? We need to balance these things.  
11 Court reporter getting all of this?

12 THE VIDEOGRAPHER: Thumbs up.

13 JUDGE MORAN: Thumbs up. Okay. Well,  
14 you remember, Mr. Tidaback, you had multiple  
15 examples. I have to swear you in. Okay. Please  
16 raise your right hand, sir. Mr. -- It's Russell  
17 Tidaback?

18 THE WITNESS: Russell Tidaback, yes.  
19 Whereupon,

20 RUSSELL TIDABACK  
21 was called as a witness and, having been first  
22 duly sworn, was examined and testified as follows:

1 JUDGE MORAN: Okay. Have a seat, sir.  
2 And then you've seen from other witnesses. First  
3 you'll state your name, even though you just said  
4 it, because you'll be under oath now, and then  
5 spell it for us.

6 THE WITNESS: My name is Russell  
7 Tidaback, R-U-S-S-E-L-L, last name spelled T-, as  
8 in Tom, I-D, as in David, A-B-, as in boy, A-C, as  
9 in Charlie, K, as in king.

10 JUDGE MORAN: Okay. And I just want to  
11 note for the record that Mr. Tidaback's testimony  
12 is beginning at approximately 11:37 a.m. on  
13 Thursday, the 29th of February. Go ahead. Your  
14 questioning is being brought to us by?

15 MS. TIDABACK: Jordan Tidaback.

16 JUDGE MORAN: Jordan Tidaback?

17 MS. TIDABACK: Yes, sir.

18 JUDGE MORAN: Okay. Go ahead.

19 DIRECT EXAMINATION

20 BY MS. TIDABACK:

21 Q Mr. Tidaback, could you, please,  
22 describe your primary responsibilities at the

1 company and your title?

2 A Your Honor, can I stand up? I think  
3 better when I'm standing.

4 JUDGE MORAN: You're welcome to stand  
5 up, yes. Court reporter -- Is the court reporter  
6 getting Jordan Tidaback's statements? Is she  
7 hearing that? Do you have the microphone properly  
8 placed on you?

9 THE VIDEOGRAPHER: Thumbs up.

10 JUDGE MORAN: Thumbs up. Good.

11 BY MS. TIDABACK:

12 Q Do you need me to repeat the question?

13 A Please.

14 Q Could you, please, describe your primary  
15 responsibilities and title with the company.

16 A Managing member of American -- MOSeneca  
17 Manufacturer that is doing business as American  
18 Tripoli, and my roles and responsibilities are  
19 involved in every aspect of the company to make  
20 sure that it operates. That includes hiring and  
21 firing, and we have Mr. Spears as the operations  
22 manager that is in a position to run all of the

1 operations that are there. Sometimes I have  
2 communications with the employees, and sometimes I  
3 don't.

4 We use a product called Microsoft Teams  
5 to collaborate so that everyone is involved in  
6 everything that is happening in the operations  
7 within American Tripoli. There are different  
8 groups such as the mill management group which  
9 will be the mill management personnel which would  
10 be the shift lead, the operations manager  
11 logically and the safety and the maintenance.

12 And then we have a different group which  
13 deals with just the maintenance group which is  
14 just the maintenance personnel. The shift lead  
15 would be in that because the shift lead works with  
16 the maintenance personnel. When they notice  
17 something, they need work, it gets put in the --  
18 the maintenance log and also the daily inspection.  
19 That is what the maintenance personnel look at to  
20 determine what is going on, and Mr. Spears directs  
21 maintenance where to go.

22 The Teams also has the mill chat group,

1 if I remember correctly. And the mill chat group  
2 is basically led by the shift lead because that is  
3 how the shift lead communicates with all of the  
4 mill associates that work in the mine so that  
5 you've got to remember, the production floor,  
6 there are multiple things going on. There are  
7 multiple machines that are running, and the  
8 warehousing and forklift operations also happen  
9 there.

10 So the shift lead is directing those  
11 miners to go get materials, whether it be bags,  
12 pallets, slip sheets, product orders that are  
13 finished, the weighing of the pallets. That is  
14 all shared in that group because sometimes it is  
15 the shift lead that may be recording the weights  
16 of the pallets, and then there's also the times  
17 that the mill associates are reporting to the  
18 shift lead because it's the shift lead's  
19 responsibility to track that. Also part of that  
20 responsibility is to make sure that we are keeping  
21 accountability of product orders, scheduling,  
22 budgeting, everything that you'd expect at the

1 senior level to -- to manage within a company.

2 In our operations, we have a production  
3 schedule which is available publicly. That way,  
4 the customers -- it is limited so that their  
5 customer number, they only know what they're  
6 getting, but it shows how much lead time they can  
7 expect for their product. And in that group, in  
8 Teams on the mill management group, if I remember  
9 correctly, the shift lead has access to the files  
10 and the links to the daily -- the production  
11 schedule so that that is part of their tasks and  
12 duties that they are given and walked through,  
13 that they check that every single morning. And  
14 then with that, they -- they formulate what we are  
15 doing that day.

16 They take that information. They put it  
17 in -- in the break room, which is approximately 20  
18 feet away from the shift lead's office. He puts  
19 that information on the board so that the miners  
20 that are working in the mill, and including  
21 maintenance, knows what we are doing that day so  
22 they don't have to go to the shift lead and keep

1 interrupting him or her, could have been her,  
2 because they -- they could be out doing their  
3 walks. They could be out doing their walk-around  
4 inspections, stuff like that. All that  
5 information is there on the board. That way they  
6 know they've got to go get X amount of pallets.  
7 They've got to go X amount of bags. They have to  
8 go get all that material to finish that daily  
9 production.

10           Then production is -- the shift lead  
11 starts the equipment, runs through the production  
12 start-up checklist, is monitoring the equipment,  
13 monitoring all the -- the input of the feed into  
14 the material. He's watching the -- the key  
15 indicators for when the system is slowing down or  
16 empty so that he needs to speed up the production.

17           And then at the end of the shift, the --  
18 we give an hour, hour for start-up procedures in  
19 the morning, so that the mill associates can find  
20 out what they've got to do, go get the material  
21 because it takes time to go across the street to  
22 where our warehouse is to bring back the pallets

1 and the bags and everything and, you know, get  
2 themselves situated for that production day. We  
3 give an hour in the afternoon. Mr. Baumann -- The  
4 shift lead is the person that is controlling the  
5 feed of material into the system, so he knows when  
6 it stops and how long it takes before the system  
7 is empty so that the mill associates can complete  
8 their end-of-day checklists of the daily shutdown  
9 procedures.

10           So all of these procedures we've walked  
11 through based on the -- based on the history of  
12 the previous owners multiple times 'cause the  
13 company has been owned by many, many companies,  
14 been there a hundred-plus years. So all of these  
15 procedures and everything else, nothing has  
16 changed as far as what we do. All we did was  
17 document it and bring in the electronic components  
18 to it so that everybody knows it. And, you know,  
19 we even brought in Internet to the mill so that  
20 the mill associates didn't have to use their cell  
21 phone service or anything like that. It's all  
22 based off of WiFi that's in the mill. The -- my

1 -- My roles and responsibilities like -- as  
2 testimony -- other testimonies have shown, we are  
3 not there constantly. That's why we hire other  
4 people to make sure that it is doing what it's got  
5 to do.

6 In 2023, we -- it was a very rough year  
7 as far as attracting and obtaining and even  
8 retaining mill associates, period. Now, a mill  
9 associate, their tasks and duties only require,  
10 basically, a warm body. There's very limited  
11 prior experience, knowledge that they have to  
12 have. They don't have to have MSHA experience to  
13 run a machine. They take the MSHA training to  
14 understand mining. Now, why are we considered a  
15 mine when we're really just a manufacturing plant?

16 JUDGE MORAN: Okay. Now you're straying  
17 into --

18 THE WITNESS: Okay.

19 JUDGE MORAN: I think you've answered  
20 your question about your role and -- and given us  
21 a broad view of the operation. Do you have other  
22 questions to ask of Mr. Tidaback?

1 MS. TIDABACK: Yes, sir.

2 BY MS. TIDABACK:

3 Q So can you explain your background in  
4 relation to American Tripoli?

5 A Yes. So I spent -- I have 32 years of  
6 operational experience with the U.S. military. I  
7 retired a captain in an aviation unit, 1,300  
8 people underneath us at that time, still serving  
9 to this day.

10 My initial entry into manufacturing was  
11 in 1991 when I worked at Frito-Lay in Orlando,  
12 Florida, and they had an internship management  
13 progression track. My mother worked there, and  
14 that's how I got involved in that, and they led  
15 everything through production. And it is -- it is  
16 amazing today that most -- other than pulverizing  
17 material, they don't pulverize chips. They just  
18 cut potatoes.

19 It is the same process that American  
20 Tripoli does: Take the material, crush it, dry  
21 it, pulverize it and put it in the bag. That's  
22 what we do at American Tripoli, very simple

1 process. Frito-Lay is the same thing. They bring  
2 in material, they cut it up, they dry it, season  
3 it, put it in a bag.

4 JUDGE MORAN: Okay. I think -- It's  
5 been interesting, but I think you've covered that.  
6 We don't want to go too far into -- because it's  
7 not relevant to this proceeding, but your military  
8 background, which I respect, and it's interesting  
9 to hear about your background with Frito-Lay, and  
10 I let you talk about the analogy, but I was giving  
11 you some leeway there. I do like Cheetos Baked.  
12 They're very good, but I think it's time to move  
13 on to something else.

14 THE WITNESS: Okay.

15 MS. TIDABACK: Can I ask a follow-up  
16 question to that?

17 JUDGE MORAN: I'll let you know, or  
18 there will be an objection.

19 BY MS. TIDABACK:

20 Q So is it safe to say that you have  
21 multiple manufacturing experiences in your  
22 history?

1           A       Yes.

2                   JUDGE MORAN: Fair enough.

3                   MS. TIDABACK: Okay. I'll move on.

4                   BY MS. TIDABACK:

5           Q       How do you coordinate with Ms. Tidaback,  
6 myself, and Mr. Spears to provide support and  
7 ensure the company's operations run smoothly?

8           A       Everything in American Tripoli we run  
9 through Teams. Strictly communications is all  
10 done through Teams, all the files. We don't have  
11 paper files. Everything is done through Teams.

12                  JUDGE MORAN: Right, and you've  
13 testified about that already this morning.

14                  MS. TIDABACK: Okay.

15                  JUDGE MORAN: It's still this morning.  
16 Go ahead.

17                  BY MS. TIDABACK:

18           Q       Okay. And let's see. I'm moving on to  
19 operations. Can you just give us a brief  
20 explanation of what Tripoli is for the judge?

21           A       So Tripoli is a natural product. As the  
22 Secretary had pointed out, the chemical makeup of

1 it is 90 -- anywhere between 90 and 98 percent  
2 silicon dioxide, and the other particles could be  
3 numerous. The -- that's -- That's Tripoli in a  
4 whole. We don't add any chemicals. We don't  
5 change anything about the product. We just  
6 pulverize it.

7 Q Can you give us a brief explanation on  
8 Teams and how it works?

9 A Okay. So Teams is a collaboration --  
10 JUDGE MORAN: Do we need to have -- I  
11 mean, isn't it -- generally, it's just a way for  
12 your operation as well as other uses of Microsoft  
13 Teams --

14 THE WITNESS: May I get my water, your  
15 Honor? Sorry.

16 JUDGE MORAN: Of course. I mean, it's a  
17 way of communicating between employees --

18 THE WITNESS: Thank you.

19 JUDGE MORAN: -- at the mine. Different  
20 groups talk, and the -- and the communication is  
21 -- it's akin to e-mail, but it happens to be in an  
22 application called Microsoft Teams. Basically,

1 it's a communication tool?

2 THE WITNESS: It's a collaboration tool  
3 because it does include files.

4 JUDGE MORAN: Okay. And it includes  
5 files. Do you have a specific question about  
6 Microsoft Teams?

7 MS. TIDABACK: I'm sorry, sir?

8 JUDGE MORAN: Do you have other  
9 questions you have to ask about Microsoft Teams?

10 MS. TIDABACK: Yes, sir.

11 BY MS. TIDABACK:

12 Q Are there channels available to everyone  
13 at American Tripoli, such as a safety channel,  
14 that has all of our training files and our  
15 policies in it for safety?

16 A Correct.

17 Q Okay. Let's see. Can you explain your  
18 understanding of the roles and responsibilities of  
19 the shift lead?

20 A Yes. The shift lead is responsible for  
21 the mill operations. That position is -- monitors  
22 the production schedule which the sales team

1 builds for them. They -- They are the ones that  
2 control the inventory flow through the mill. They  
3 are the ones that also control the quality control  
4 of it leaving. They create the product. They  
5 ensure that it goes out properly. That's --  
6 That's really it for that role. They manage the  
7 workload of the mill associates. They're in  
8 there. That's their role. That's their primary  
9 role, to make sure that things get done in the  
10 mill.

11           On top of that, they're also responsible  
12 for the safety and -- of the mill associates.  
13 They're in that senior leadership position because  
14 it would be the senior person because the  
15 progression -- and this may help, your Honor, the  
16 progression of every mill associate is they start  
17 as a mill associate. Then they move to the shift  
18 lead. And then after the shift lead is when you  
19 come into a manager role where you can either  
20 become safety, the operations manager, the quarry  
21 manager, that stuff. So there is progression  
22 moving up, and that's one of the things that we

1 had for Mr. Baumann, and that's -- that's --  
2 that's why this is bothering me, so --

3 Q Let's see. So since you have just  
4 explained those roles and responsibilities, do you  
5 recall me, Jordan Tidaback, having to remind Rob  
6 to add mill Teams hours and shifts so too many  
7 days don't go by?

8 A Yes.

9 MS. O'REILLY: Objection. Ms. Tidaback  
10 is testifying what she did and hasn't really laid  
11 a foundation of how Mr. Tidaback would be aware of  
12 the instruction that she made to Mr. Baumann.

13 JUDGE MORAN: I'm going to allow the  
14 question, so -- so restate it --

15 MS. TIDABACK: Yes.

16 JUDGE MORAN: -- because we're trying to  
17 get -- trying to get to the heart of the matter  
18 here.

19 MS. TIDABACK: Okay.

20 JUDGE MORAN: All right. And you'll  
21 have an opportunity on cross-examination to pick  
22 that apart if you want to but -- so can you -- you

1 have the question written down?

2 MS. TIDABACK: Yes, sir.

3 JUDGE MORAN: Can you repeat it, please?

4 MS. TIDABACK: Reread the question?

5 JUDGE MORAN: Yes.

6 BY MS. TIDABACK:

7 Q Okay. Do you recall myself having to  
8 remind Rob to add mill Teams hours and shifts so  
9 too many days don't go by?

10 JUDGE MORAN: Do you recall that?

11 THE WITNESS: I do because it wasn't --

12 JUDGE MORAN: So he recalls it. Now, do  
13 you have another question about that? See, that's  
14 your question. Yes, he recalls. Now what do you  
15 want to ask him about it, if anything?

16 BY MS. TIDABACK:

17 Q Should we have to remind Rob?

18 A No, and this is not an only one-time  
19 incident. We had numerous instances, and most of  
20 the times, these were communicated in Teams. It  
21 got to the point where I personally had to call  
22 Mr. Baumann numerous times, and this was in his

1 early shifts after he had been trained for two  
2 months by our most senior person when he went to  
3 the night shifts by himself after talking with  
4 Christine, the operations manager at the time,  
5 about Mr. Baumann not doing what he's supposed to  
6 because if we don't get the updated production, I  
7 can't adjust -- I can't have the production  
8 schedule adjusted for the next day.

9 JUDGE MORAN: So -- So he's elaborated  
10 on that. Do you have more any questions along  
11 this line?

12 MS. TIDABACK: Yes, sir.

13 BY MS. TIDABACK:

14 Q Similarly, do you remember having to  
15 remind Rob to do this shift lead close-out at the  
16 end of each day?

17 A Yes. The shift lead close-out, again,  
18 inventory control, next-day production, this was  
19 not something that was just an incident or  
20 anything. We had conversations about, "How can  
21 you lead others if you can't do your own job?"

22 Q Okay.

1 JUDGE MORAN: So you've elaborated upon  
2 that.

3 BY MS. TIDABACK:

4 Q Can you explain the disciplinary process  
5 for American Tripoli?

6 A Right. The disciplinary process that we  
7 have at American Tripoli is documented in  
8 Missouri, which is a right-to-work state, can be  
9 fired at any time without any notification.

10 First is a verbal, okay. Second is a  
11 written. Third, if there is one, is immediate  
12 termination. No explanation is needed or anything  
13 like that. By that time, you know that you're  
14 going to be terminated. We don't like to  
15 terminate anybody. It is hard enough to get  
16 people.

17 JUDGE MORAN: Okay. But now you're  
18 going beyond the question that was asked. You've  
19 explained the termination process, sir.

20 BY MS. TIDABACK:

21 Q Okay. Can --

22 A Not all of it --

1 JUDGE MORAN: Okay.

2 THE WITNESS: -- because in that policy,  
3 it states that we can go any order. We don't have  
4 to follow that order.

5 JUDGE MORAN: Okay. That's an  
6 elaboration of your view of American Tripoli's own  
7 policy.

8 THE WITNESS: That's actually what it  
9 states, your Honor. That's not a lie.

10 JUDGE MORAN: Okay.

11 BY MS. TIDABACK:

12 Q So to confirm, it does state in there we  
13 can terminate anyone at any time just for any  
14 reason?

15 A That is what it states.

16 Q Could a reason be such as --

17 A Anything.

18 Q -- backtalking a manager or --

19 A That would be expected.

20 Q -- something extreme like sexual  
21 harassment or anything like that?

22 A Correct. That would be expected.

1           Q     Okay. So you mentioned employee  
2 retention rates were hard to come by. How does  
3 the company approach employee engagement and  
4 satisfaction to improve retention rates, and what  
5 role do you play in these efforts?

6           A     We try to do everything that we can to,  
7 one, retain people. We -- We explained in 2023,  
8 in a group, and if I'm not mistaken, it was in the  
9 break room the last time that I can remember,  
10 discussing about the difficulties of hiring new  
11 people and retaining people because there were  
12 some discussions from the mill associates about,  
13 "We need more people." So logically, as a  
14 supervisor, you have to explain, "This is why it  
15 is difficult to get people. This is why we are  
16 not going to just hire 50 people for small  
17 operations," so explaining to them. I mean, chat  
18 was open. Even in -- Even in initial interviews  
19 and communications, I give people my personal cell  
20 phone. If you had questions, you could call me  
21 directly, so --

22           JUDGE MORAN: Okay. But -- Excuse me.

1 We're getting afield from the retention policy.  
2 I'm characterizing your testimony as you tried  
3 hard to keep people. You wanted to retain people  
4 because it was difficult to get people in the  
5 first instance; is that correct?

6 THE WITNESS: Yes, your Honor.

7 JUDGE MORAN: Okay. And so I take it  
8 that the point of your talking about retention is  
9 to indirectly demonstrate that you didn't really  
10 want to have to terminate people because of that  
11 problem of retention. If at all possible, you  
12 wanted to keep people?

13 THE WITNESS: That's correct.

14 JUDGE MORAN: And so I take it from that  
15 that you're inferring that in a situation where  
16 things are so bad, in this case, you would allege  
17 Mr. Baumann's performance or work was so bad that  
18 despite your wish to retain people, you still had  
19 to terminate him; is that right?

20 THE WITNESS: And hire other people  
21 potentially to do so, yes, your Honor.

22 JUDGE MORAN: Okay. Well, you can ask

1 him questions about that, about whether he hired  
2 -- 'cause that's been an issue in this proceeding,  
3 whether he hired other people to replace Mr.  
4 Baumann and when that occurred.

5 So you've got to ask specific questions  
6 now, and try to confine your answer to what Jordan  
7 Tidaback is asking you. Sometimes you go on for a  
8 little bit there, and I've let you -- I've given  
9 you a lot of rope.

10 THE WITNESS: Yes, your Honor.

11 JUDGE MORAN: Okay.

12 BY MS. TIDABACK:

13 Q Okay. So to that question, did we hire  
14 other people to replace Mr. Baumann?

15 A Yes, we did.

16 Q Do you -- Are you aware of those dates,  
17 and can you provide them?

18 A I know we have them in exhibits. I  
19 would have to find them.

20 JUDGE MORAN: How about asking a broader  
21 question? How many people did your father hire  
22 for the purpose of replacing Mr. Baumann? How

1 many -- Do you know what the number was?

2 THE WITNESS: If I remember correctly,  
3 it was four.

4 JUDGE MORAN: Okay. And so then you  
5 might ask if he can recall -- And by the way, let  
6 me just interrupt myself. When you referred a  
7 moment ago, Mr. -- Mr. Tidaback, to an exhibit, is  
8 that an exhibit that's been admitted, if you  
9 recall?

10 THE WITNESS: No, it has not.

11 JUDGE MORAN: It has not been admitted  
12 into the record about -- about the people he hired  
13 or how long they stayed?

14 MS. TIDABACK: It has not been an  
15 exhibit.

16 THE WITNESS: Not yet.

17 MS. TIDABACK: Not yet.

18 THE WITNESS: It was not allowed under  
19 -- under that role, your Honor.

20 JUDGE MORAN: Okay. Are you going to  
21 ask him questions about that later or not?

22 THE WITNESS: Are you going to --

1 JUDGE MORAN: No?

2 MS. TIDABACK: Oh, am I going to ask him  
3 questions about what? I'm sorry.

4 JUDGE MORAN: About that exhibit and how  
5 it might demonstrate who -- who he hired and --

6 MS. TIDABACK: Yes. Yes, sir.

7 JUDGE MORAN: Okay. This is a little  
8 bit confusing. Let's back it up. You hired four  
9 people. Are those four people still working for  
10 American Tripoli?

11 MS. TIDABACK: No, sir. Sorry. I'm  
12 sorry.

13 THE WITNESS: Yeah. Those individuals  
14 were hired separate dates and times, not together.  
15 And, no, they are not still working for American  
16 Tripoli.

17 JUDGE MORAN: Okay. And what was the  
18 longest period of time that any one of those four  
19 employees worked for American Tripoli?

20 THE WITNESS: I don't have that  
21 information readily available.

22 JUDGE MORAN: Well, do you remember in

1 terms of whether it was weeks or months?

2 THE WITNESS: Oh, yeah. It was less  
3 than -- It was less than a month because initially  
4 when we hire someone, we have to do the 24-hour  
5 training. And in 2023, a lot of people didn't  
6 even stay for that training, so --

7 JUDGE MORAN: Okay. So is it fair to  
8 state that the longest any of these four  
9 employees, which you allege were hired to replace  
10 Mr. Baumann, none of them worked for more than a  
11 month for American Tripoli?

12 THE WITNESS: Without looking at  
13 documentation, that's fair to say, your Honor.

14 JUDGE MORAN: Okay. And I'm not going  
15 to ask any other questions about that. The  
16 Secretary may. But go ahead, Jordan Tidaback, if  
17 --

18 MS. TIDABACK: Okay.

19 JUDGE MORAN: -- about -- about this --  
20 questions you may have about this assertion that  
21 people were hired specifically to replace Mr.  
22 Baumann --

1 MS. TIDABACK: Okay.

2 JUDGE MORAN: -- if you have any other  
3 questions about that.

4 THE WITNESS: Just --

5 MS. TIDABACK: I have the exhibits, but  
6 let me just grab my --

7 JUDGE MORAN: Take a moment to find that  
8 exhibit. We'll go off the record for a moment.

9 MS. TIDABACK: Thank you.

10 (Discussion off the record.)

11 JUDGE MORAN: For purposes of  
12 identification, can you identify the exhibit that  
13 you're referring to?

14 MS. TIDABACK: Yes, sir. It is Exhibit  
15 RX.

16 JUDGE MORAN: RX?

17 MS. TIDABACK: Yes, sir, RX.

18 JUDGE MORAN: Okay.

19 MS. TIDABACK: And --

20 JUDGE MORAN: Just one second. I've got  
21 my --

22 MS. TIDABACK: Do we need to go back on

1 record? I thought you told her that we were going  
2 off.

3 THE VIDEOGRAPHER: She's on.

4 JUDGE MORAN: She's very good. That was  
5 my fault. That's right. So we are on the record,  
6 Mr. Holt?

7 THE VIDEOGRAPHER: Yes. Thumbs up.

8 JUDGE MORAN: Okay. Thank you, Jordan  
9 Tidaback.

10 MS. TIDABACK: Sure. Please let me know  
11 when you're ready.

12 JUDGE MORAN: I've got my wires  
13 literally crossed here. Okay. RX.

14 BY MS. TIDABACK:

15 Q Okay. Mr. Tidaback, do you identify  
16 this record or -- can you identify it?

17 A Actually, I see in here RW --

18 Q Let's see.

19 A -- RX, RY and RZ.

20 JUDGE MORAN: But, no, you see, you're  
21 being questioned, and so we're trying to keep some  
22 order here. Jordan Tidaback has asked you about

1 RX. Is that what you intended to ask about?

2 MS. TIDABACK: Yes, sir, RX.

3 JUDGE MORAN: Do you see RX?

4 BY MS. TIDABACK:

5 Q Do you see RX?

6 A I do.

7 Q Okay.

8 JUDGE MORAN: And do you have a question  
9 about RX?

10 MS. TIDABACK: Yes.

11 BY MS. TIDABACK:

12 Q Can you identify what this document is  
13 for the Court, please?

14 A This was a hiring document for a  
15 production shift manager.

16 Q Okay. And could you identify the  
17 person's name on it?

18 A Will Shellenberger.

19 Q Okay. Thank you. So the next page, can  
20 we, please, move to Exhibit RY?

21 JUDGE MORAN: Well, do you want -- do  
22 you want to admit RX?

1 MS. TIDABACK: Yes, sir. May I, please,  
2 admit RX?

3 JUDGE MORAN: Sure. Any objection to  
4 the admission of RX?

5 MS. O'REILLY: No objection.

6 JUDGE MORAN: Okay. RX is admitted.

7 MS. TIDABACK: Thank you.

8 BY MS. TIDABACK:

9 Q Are you on --

10 JUDGE MORAN: And I would just note --  
11 No, I will not note. There is a date of August  
12 24th, 2022. All right. And now we're talking  
13 about what, Ms. Tidaback?

14 MS. TIDABACK: RY.

15 JUDGE MORAN: RY?

16 MS. TIDABACK: Yes, sir. It's the next  
17 page.

18 JUDGE MORAN: Okay.

19 MS. SMITH: Your Honor, X, Y and Z were  
20 actually already admitted.

21 MS. TIDABACK: Oh, okay.

22 JUDGE MORAN: Who admitted that?

1 MS. SMITH: I don't know, but they  
2 were -- I can tell you. Hold on. These were  
3 admitted over objection on Wednesday. I think it  
4 might have been the witness that was seated at the  
5 time.

6 JUDGE MORAN: Okay. So I overruled your  
7 objection and admitted those?

8 MS. SMITH: Yes.

9 JUDGE MORAN: Well, that was prescient  
10 of me because I knew this would happen.

11 MS. TIDABACK: Okay.

12 JUDGE MORAN: I'm kidding. Okay. So  
13 you can still ask these questions, though.

14 MS. TIDABACK: Okay.

15 JUDGE MORAN: So RX, Y and Z are  
16 admitted or have been admitted. And so the second  
17 one, RY, do you recognize that exhibit, Mr.  
18 Tidaback?

19 THE WITNESS: Yes, your Honor.

20 BY MS. TIDABACK:

21 Q Can you identify what this document is  
22 for?

1           A       Yes. This is the hiring offer letter  
2       dated November 4 for Richard McCullen for the  
3       production shift lead.

4           Q       Okay. Thank you. And then let's see.  
5       Onto the next page which is Exhibit RZ --

6           A       Yes.

7           Q       -- are you there? Okay.

8                   JUDGE MORAN: Recognize that exhibit?

9                   THE WITNESS: Yes, yes.

10                  BY MS. TIDABACK:

11           Q       Do you recognize it? Oh, go ahead.  
12       Could you, please, identify what this document is  
13       for us?

14           A       Yes. This is the same. This is an  
15       offer letter for Alex Nigrass who's the production  
16       coordinator dated or -- his start date was 20  
17       March of 2023.

18                  JUDGE MORAN: And you're doing a fine  
19       job. This must be a bit of a stressful situation  
20       for you. I just want to reassure you, you're  
21       doing a fine job. You're asking professional  
22       questions, so that's fine. Keep it up.

1 MS. TIDABACK: Oh, okay. Thank you.

2 BY MS. TIDABACK:

3 Q Would these documents serve as proof  
4 that we had -- that American Tripoli had  
5 intentions to hire another person in place of Mr.  
6 Baumann?

7 A That is correct. We do not have to  
8 shift-lead positions.

9 JUDGE MORAN: Okay.

10 BY MS. TIDABACK:

11 Q Thank you. So your character or  
12 leadership style was brought up in a couple  
13 testimonies from yesterday. As an owner, how do  
14 you perceive your leadership style and its impact  
15 on company culture?

16 A That's a great question. My experience  
17 with leadership deals with ethos. You are hired  
18 in a paid position to perform a role at an agreed  
19 responsibility, position description, pay rate,  
20 paid at a certain date and time or events, and you  
21 are expected to accomplish that mission as well as  
22 support the organization that you are working for

1 or getting paid as a result.

2 Q Okay. And would you identify any  
3 specific type of leadership style you have?

4 A The hierarchy structure, that's  
5 military-based. It's also in many of the large  
6 organizations worldwide, even MSHA, the federal  
7 government. There's a hierarchy structure that  
8 should be followed.

9 Q Okay. Thank you. How do you and other  
10 leaders within the company work to maintain morale  
11 and a positive work environment despite stresses  
12 such as MSHA compliance and high-employee  
13 turnover?

14 A Open communication is how we want  
15 American Tripoli to feel. We don't want anybody  
16 to be afraid to come forward and say something to  
17 -- to anybody. That's why open communications  
18 because even in Teams, they are -- they are --  
19 they have the ability to create a private chat  
20 with just you, and no one else would see that chat  
21 so that you can communicate freely in that, and we  
22 established that even in the hiring process.

1           In the interview process, that is  
2   actually discussed. So that's -- that's why we  
3   want the morale that we are there as a team to get  
4   things done, and we -- it is not a one-man show.  
5   It requires us all to get things done.

6           Q     Okay. Thank you. So on the topic of  
7   MSHA, can you describe your involvement in any  
8   inspections?

9           A     There were a few inspections I walked  
10   around with the inspectors. That was early --  
11   early, you know. It's not all the time. We're  
12   not there all the time. So when they were there,  
13   I'm there to ask questions because, you know, I'm  
14   new to MSHA, and I'm trying to learn why we're  
15   getting citations, you know. What is -- Where is  
16   the fault so we can fix the problems so we don't  
17   have these again? So that was my involvement with  
18   the MSHA inspections.

19          Q     Thank you. Can you describe your  
20   thoughts on a miner's involvement in MSHA  
21   inspections?

22          A     Yes. Part of the MSHA training, you

1 know, miners have the rights, and -- and they're  
2 allowed to talk to and walk with MSHA inspectors.  
3 There's been numerous times that -- upon my  
4 personal observation that MSHA will be talking to  
5 R.J., which happens to be one of the mill  
6 associates, or talking with Rob or talking with a  
7 safety person at the time or talking even with the  
8 truckers that pick up our workloads. They would  
9 ask them questions.

10 No one stopped anybody. That was --  
11 that was not -- That is today still not anything  
12 that is not accepted or is normal. We don't -- We  
13 don't stop anybody from talking to an MSHA  
14 inspector, so it's free, open communication.

15 Q Do you feel that you are telling miners  
16 that they cannot speak with an MSHA inspector?

17 A No, never.

18 Q Do you feel that by stating the Miranda  
19 rights and that MSHA uses this is wrong?

20 A That's a great question. In learning  
21 this process, in our initial conversations with  
22 Mr. Markeson, during one of the debriefs, I had

1 asked him, "I see that you're making notes. What  
2 are the notes for?" You know, being a digital  
3 world, we keep everything digital, so I'm trying  
4 to figure it out. He told us in that --

5 MS. O'REILLY: I'm going to object as to  
6 hearsay, although I know we have somebody right  
7 here to hearsay. But, you know, Ms. Markeson was  
8 here. And if Mr. Tidaback had questions about his  
9 notes or his conversation that he had with him, he  
10 had the opportunity to ask him when he was here.

11 THE WITNESS: And I did.

12 JUDGE MORAN: Okay. Well, then if  
13 you've already asked him questions about that,  
14 then you're now reiterating --

15 THE WITNESS: We have.

16 JUDGE MORAN: -- and they were --  
17 assuming that that's correct, that representation  
18 that he asked him about this.

19 MS. SMITH: He asked him about some  
20 conversations that they had, and Mr. Markeson said  
21 "no" to the question.

22 MS. TIDABACK: Or he doesn't recall.

1           THE WITNESS: Not -- Yeah, not specific  
2 questions.

3           MS. TIDABACK: Yeah.

4           JUDGE MORAN: Okay. I do have a problem  
5 with you testifying about this given the remark by  
6 Attorney Smith, but -- so I'm going to hear a  
7 little bit of it. And then I -- if you have a  
8 problem with it, I'm assuming you're going to  
9 stand up and object further.

10          MS. SMITH: Sure.

11          THE WITNESS: So --

12          JUDGE MORAN: All right. Just to recap  
13 here, we'll reverse the tape, so to speak. You're  
14 telling me that -- This is my paraphrasing. You  
15 have questions or concerns because you see  
16 Inspector Markeson writing notes, and you asked  
17 him about that; is that right?

18          THE WITNESS: I asked him about that.

19          JUDGE MORAN: Okay.

20          THE WITNESS: And his statement to us,  
21 teaching us why he was writing notes, stated that  
22 the operators' comments, which he stated

1 yesterday, can be used against you.

2 JUDGE MORAN: Okay. So you assert he  
3 made that statement?

4 THE WITNESS: Yes.

5 JUDGE MORAN: All right.

6 THE WITNESS: So I took that  
7 interpretation, basically, the Miranda rights,  
8 anything you say can and will be used against you  
9 in a court of law just as his notes or any  
10 inspectors' notes, as we are experiencing today,  
11 are being used against someone that says  
12 something. So that is why that is communicated.

13 JUDGE MORAN: Okay. Well, just -- There  
14 wasn't a further objection, and that's fine. I  
15 wasn't saying there should have been, but I just  
16 want you to know that your impression about that  
17 this is akin to the Miranda rights are not -- I'm  
18 not buying into any of that, okay? You asked him  
19 a question about why he takes notes, and you  
20 assert that he said something about notes can be  
21 used against a mine operator. He told you that?

22 THE WITNESS: Oh, yes.

1 JUDGE MORAN: Okay. Well, that may be  
2 true. I don't know. I'm -- I'm outside of the  
3 ballpark right now when I'm hearing about this in  
4 terms of remember at the beginning of the  
5 proceeding what I'm focusing on?

6 THE WITNESS: Um-hum.

7 JUDGE MORAN: This is about Mr. Baumann  
8 and whether he was fired for -- after engaging in  
9 protected activity, if I make findings of fact  
10 based on the record that there was protected  
11 activity. And the thrust of your case has been  
12 not directed at that but that there was the second  
13 at bat, as I termed it at the beginning of this  
14 proceeding, which is that you would have fired him  
15 in any event because of improper or insufficient  
16 performance of his duties as the production  
17 supervisor. Am I using the right title?

18 THE WITNESS: Production lead.

19 MS. TIDABACK: Shift lead.

20 THE WITNESS: Shift lead.

21 JUDGE MORAN: Shift lead?

22 MS. TIDABACK: Yes, sir.

1 JUDGE MORAN: I'll rely upon the  
2 transcript. Don't worry if I -- if I  
3 mischaracterize the job title. It's all in the  
4 record, and that's the one I'll use when I write  
5 my decision. Okay. Do you have a question about  
6 this?

7 MS. TIDABACK: Yes.

8 BY MS. TIDABACK:

9 Q So do you feel you have discriminated  
10 against any miner at American Tripoli?

11 A Never.

12 Q Do you have problems with people  
13 bringing you safety concerns?

14 A No. Actually, we promote that they  
15 bring us safety concerns.

16 Q Did you receive safety concerns from Rob  
17 in any fashion, whether it be a phone call or a  
18 chat, that you recall?

19 A That I recall, no.

20 JUDGE MORAN: Okay. So your testimony  
21 is you never received any communication from Mr.  
22 Baumann about the broad topic of safety concerns.

1 That's your testimony?

2 THE WITNESS: In the numerous  
3 communications that we had, I do not recall any  
4 specific safety-relatable concerns from Mr.  
5 Baumann, no.

6 JUDGE MORAN: Okay.

7 BY MS. TIDABACK:

8 Q Have you ever communicated it to miners  
9 that if something is not getting resolved by their  
10 manager, then they should use the hierarchy and go  
11 to you?

12 A That is correct.

13 Q Okay.

14 A We establish that with every single  
15 employee that comes along because I want them to  
16 know that it is an open-communication company.

17 Q What would be the first question you  
18 would ask them if they brought something to you?

19 A "Have you spoken with -- about this with  
20 your supervisor?"

21 Q Okay.

22 A And Mr. Baumann did not.

1           Q     Okay. Do you feel any angst against Mr.  
2     Baumann?

3           A     None at all.

4           Q     All right. Do you -- Do you wish any  
5     harm towards Mr. Baumann because of any of this  
6     going on?

7           A     Not at all. I understand in my  
8     interpretation of the overall picture of  
9     everything that we're trying to provide the Court  
10    that Mr. Baumann was influenced by a vindictive  
11    MSHA inspector, and his --

12                MS. SMITH: Objection --

13                JUDGE MORAN: I -- I -- Yes. I  
14    absolutely sustain the objection.

15                THE WITNESS: So I --

16                JUDGE MORAN: Did you understand? I've  
17    --

18                THE WITNESS: Yes, sir.

19                JUDGE MORAN: -- terminated that  
20    response. So if there's another question from  
21    Jordan Tidaback, we'll listen to that.

22                THE WITNESS: Very good.

1 JUDGE MORAN: That wasn't an opportunity  
2 -- an invitation for you to continue.

3 THE WITNESS: Oh, sorry, your Honor.

4 BY MS. TIDABACK:

5 Q Okay. So taking that into  
6 consideration, can you advise us as to why you  
7 feel Mr. Baumann filed this complaint?

8 MS. SMITH: I'm going to object as to  
9 asking why he filed the complaint.

10 JUDGE MORAN: That objection is  
11 sustained.

12 MS. TIDABACK: Okay. I'll move on.

13 THE WITNESS: Do I --

14 BY MS. TIDABACK:

15 Q No. I'll ask. To your knowledge, are  
16 written counseling statements required by law, at  
17 least Missouri law?

18 A No. In many, many companies, there  
19 aren't counseling statements. They can all be  
20 verbal. It's based on the policy of that company.

21 Q Okay.

22 JUDGE MORAN: And just for the

1   edification of the respondents, I'm not -- my  
2   decisions and, in fact, no discrimination  
3   complaint under the Mine Act is bound by the  
4   particular rules of the given state. I explained  
5   at the beginning the ground rules long established  
6   by the Commission in establishing discrimination  
7   complaints and what -- what's required, okay. So  
8   it's interesting that he said that but not  
9   something that's going to weigh in my decision --

10           THE WITNESS: Yeah.

11           JUDGE MORAN: -- in any manner because  
12   it would be inappropriate for me to do that. If  
13   we had -- If you think about it, if you had an  
14   arrangement about that, the application of the  
15   Mine Act could vary from state to state. You  
16   can't have that.

17           MS. TIDABACK: Um-hum.

18           THE WITNESS: So am I correct? We're  
19   just trying to answer the three or the two  
20   allegations?

21           JUDGE MORAN: No. You have to do the  
22   question-and-answer format --

1 THE WITNESS: Oh, okay.

2 JUDGE MORAN: -- which you have  
3 succeeded to by having your daughter ask these  
4 questions.

5 MS. TIDABACK: Okay. Let's see. I -- I  
6 guess the reasoning for that question was because  
7 it was brought up.

8 JUDGE MORAN: You were talking --  
9 Remember, you were just talking about state law  
10 and how that's very different. I would agree with  
11 that, but that's not what controls my  
12 decision-making process at all.

13 MS. TIDABACK: Okay. Understood.

14 JUDGE MORAN: And just -- I couldn't  
15 think of the name for a second, but it's known as  
16 the Pasula-Robinette test. And when I issued one  
17 of my orders, I referenced that case with a  
18 citation to the Commission decisions, plural, that  
19 habitually refer to it and have not changed over  
20 decades, okay?

21 MS. TIDABACK: Okay.

22 JUDGE MORAN: So it's long-established

1 law.

2 MS. TIDABACK: Okay.

3 JUDGE MORAN: Super precedent --  
4 precedent to use a Summerton news reference. That  
5 might not be appreciated except by the attorneys  
6 in the room.

7 BY MS. TIDABACK:

8 Q Okay. Let's see. Please advise on your  
9 opinion of Mr. Baumann's deficiency on  
10 housekeeping.

11 A One, the citation violations, the record  
12 of it shows it. I do believe that the Secretary  
13 has that information presented in her exhibits as  
14 well.

15 Q Okay. Could you, please, advise us on  
16 what the purpose of hiring a production  
17 coordinator was for?

18 A The hiring of the production coordinator  
19 was to assist, was to take some of the  
20 responsibilities off of the shift lead, Mr.  
21 Baumann, because his performance was not -- he was  
22 not doing well. So we were trying to, how can we

1 fix the problem? And we hired the production  
2 coordinator assistant position for that purpose.

3 Q Let's see. Were you ever informed that  
4 Rob was a miners' rep?

5 A No.

6 Q Okay.

7 A Was not aware until we received the  
8 complaint.

9 Q May we, please, turn to Exhibit RJJ?

10 JUDGE MORAN: RJJ, sure.

11 BY MS. TIDABACK:

12 Q Yes, sir. Will you let me know when you  
13 get there, Mr. Tidaback?

14 A Yes.

15 Q Could you, please --

16 JUDGE MORAN: RJJ then is the last one,  
17 right?

18 MS. TIDABACK: Yes, sir. It is the last  
19 one.

20 JUDGE MORAN: Okay. So go ahead there,  
21 Ms. Tidaback.

22 BY MS. TIDABACK:

1           Q     Mr. Tidaback, could you, please,  
2     identify what this document is for us?

3           A     This looks like an e-mail chain. The  
4     last e-mail dated November 13th, 2023, was to Mr.  
5     Randall Boyd which appears to be the supervisor of  
6     special investigations.

7           Q     Can you --

8           A     And in this e-mail, it appears that I  
9     sent him an e-mail on the 13th that he responded  
10    to. And I asked, "Is there anyone" --

11                Let's see here. So the bottom of page 1  
12    from Russell Tidaback to Mr. Boyd Randall, and in  
13    the question underneath the caution block, it  
14    states, "Thanks for the quick response but most  
15    likely to another question, previous e-mails. Is  
16    there anyone listed as a miners' rep? As I am  
17    aware of, there aren't."

18                And as you can see in his response to my  
19    question on Monday, November 13th, 2023, at 10:54  
20    in the morning, he stated, "No one was listed when  
21    I checked this morning."

22           Q     Okay.

1           A       And then I responded to him saying,  
2       "Thanks. Okay. Thanks for letting me know. I  
3       was under the impression by an MSHA representative  
4       that we were not -- we did not have miners'  
5       representatives at that current time." I do  
6       believe in the e-mail it talks about previous --  
7       Yes. On the second -- page 2, and this is  
8       probably what led up to the questions of why --  
9       Let's see here. Okay.

10                   So on page 2, it talks about, did -- at  
11       the bottom of the page underneath the caution box,  
12       Sunday, November 12th at 2 or -- November 12th,  
13       2023, 1:38 in the afternoon, I had asked Mr. Boyd,  
14       "Mr. Boyd, did Mr. Drake, Randy or Max contact  
15       you?" I do believe that there was earlier  
16       communications with Mr. Boyd and -- we'll just  
17       stick to this document, Mr. Boyd about Mr. Drake  
18       -- Randy Drake and Max Drake which were American  
19       Tripoli's miner representatives before. They were  
20       listed as miners' representatives before, and I do  
21       -- There is also another document that the  
22       Secretary presented that actually shows their

1 names on that document.

2 JUDGE MORAN: Okay. Let me just try and  
3 truncate this. Mr. Tidaback, did at some point  
4 during Mr. Baumann's employment you -- did you  
5 become aware that he -- during his employment that  
6 he was a miners' rep?

7 THE WITNESS: No, your Honor.

8 JUDGE MORAN: All right. So is it fair  
9 to state that according to your testimony, and I  
10 don't know whether you knew or not -- I don't want  
11 to imply by my asking these questions that that is  
12 -- impacts the matters I have to decide in this  
13 case. All right. I want to make -- underscore  
14 that.

15 But is it your testimony that as of the  
16 date that he was fired, and I guess the fancy term  
17 being he was terminated, which sounds worse than  
18 being fired, terminated, but as of the date that  
19 he was terminated that at that moment of  
20 termination and any time prior to that, you did  
21 not know in any shape, manner or form that Mr.  
22 Baumann was a miners' rep?

1           THE WITNESS: The first indication any  
2   that I was identified that Mr. Baumann was a  
3   miners' rep was the date that we received the  
4   complaint from MSHA.

5           JUDGE MORAN: Okay. And so could you  
6   try and -- I feel like we're on a Sunday talk news  
7   show --

8           THE WITNESS: No.

9           JUDGE MORAN: -- where you ask a  
10   politician a question and you get an answer, but  
11   it doesn't answer the question.

12           So as of the date of Mr. Baumann's  
13   termination, firing, did you know that he was a  
14   miners' representative?

15           THE WITNESS: No, your Honor.

16           JUDGE MORAN: And let me just go a  
17   little further with that. And when you say you  
18   did not know, are you restricting your answer to  
19   -- by answering "no," do you mean that you had no  
20   piece of paper or formal word from -- is that --  
21   are you restricting your answer to that?

22           THE WITNESS: No -- No indication.

1 JUDGE MORAN: Of any kind?

2 THE WITNESS: Any means at all.

3 JUDGE MORAN: And that would include  
4 even a message from -- Mr. Baumann didn't inform  
5 you?

6 THE WITNESS: No.

7 JUDGE MORAN: That's correct?

8 THE WITNESS: Yes, that is correct. He  
9 did not.

10 JUDGE MORAN: And Mr. Spears did not  
11 inform you?

12 THE WITNESS: No.

13 JUDGE MORAN: And any employee from your  
14 operation inform you --

15 THE WITNESS: No.

16 JUDGE MORAN: -- prior to his  
17 termination?

18 THE WITNESS: No, your Honor.

19 JUDGE MORAN: So you knew zero about  
20 this --

21 THE WITNESS: Zero.

22 JUDGE MORAN: -- until after he was

1 terminated, and how soon after -- You said it was  
2 only when the complaint was filed that you learned  
3 he was the -- a miners' rep?

4 THE WITNESS: Of the -- I -- The date  
5 that we received the complaint was the first ever.

6 JUDGE MORAN: You said that. Okay. So  
7 it's after he was terminated?

8 THE WITNESS: That is correct, your  
9 Honor.

10 JUDGE MORAN: Okay. Did you  
11 subsequently learn from Mr. Spears that -- or  
12 anyone else that they knew Mr. Baumann was a  
13 miners' rep before he was terminated?

14 THE WITNESS: No, your Honor.

15 JUDGE MORAN: Okay. So -- so -- I'm  
16 talking about after the fact. He's now been  
17 terminated, and no one comes to you and says --

18 THE WITNESS: No.

19 JUDGE MORAN: -- "Well, you know,  
20 Russell," if I can be informal here --

21 THE WITNESS: Yes.

22 JUDGE MORAN: -- "Baumann was a miners'

1 rep"? You didn't --

2 THE WITNESS: No, your Honor.

3 JUDGE MORAN: You never learned that?

4 THE WITNESS: No, your Honor, and I  
5 asked everybody on our --

6 JUDGE MORAN: That answers my questions  
7 about that.

8 THE WITNESS: Okay.

9 JUDGE MORAN: Do you have other  
10 questions to ask?

11 MS. TIDABACK: Yes, sir.

12 JUDGE MORAN: Let me just -- I'm going  
13 to pause for a moment, okay? We're coming up at  
14 12:28, okay. And so -- And, again, I'll tell you.  
15 I ask this of everybody. This is not directed or  
16 a different rule book for you people, the  
17 respondents, than it is for the Secretary. Do you  
18 understand?

19 MS. TIDABACK: Yes, sir, I understand.

20 JUDGE MORAN: Can you give me an  
21 estimate of how much longer you will need, an  
22 estimate to conduct your direct examination of

1 your father, Russell Tidaback?

2 MS. TIDABACK: I have six questions  
3 left, but he's the long-winded one. I'm not, so  
4 may I ask him?

5 JUDGE MORAN: Well, no. You --

6 MS. TIDABACK: I can't. Okay.

7 JUDGE MORAN: That's fine. You have six  
8 questions, and you can't predict how long he'll  
9 take to answer them. Well -- And I may have to  
10 cut off the answers if he goes into -- beyond left  
11 field, out of the stadium itself, to use that  
12 analogy, okay?

13 MS. TIDABACK: Yes, sir.

14 JUDGE MORAN: Do you understand that?

15 MS. TIDABACK: I do.

16 JUDGE MORAN: Think of a baseball field,  
17 and you're in the parking lot.

18 MS. TIDABACK: Yes, sir.

19 JUDGE MORAN: Okay. That's not the  
20 field.

21 MS. TIDABACK: Yes, sir.

22 JUDGE MORAN: All right. Now I need

1 some input from the parties. Do you want to take  
2 a half-an-hour break?

3 MS. SMITH: If there's six questions  
4 left, it might be helpful to take those and then  
5 take our 30-minute break because that will allow  
6 us to streamline what we'll need to do for cross.

7 JUDGE MORAN: Okay. Is that acceptable  
8 to you? How are you bearing up, Ms. Tidaback?

9 MS. TIDABACK: Well, if it's okay, I  
10 would prefer to take a break now, but --

11 MS. SMITH: That's fine with us.

12 JUDGE MORAN: Okay. So we're going to  
13 take a pause on the hearing. And before we do  
14 sign off for a minute with the court reporter, can  
15 we agree to resume at 1:00, 30 minutes?

16 MS. SMITH: Yes.

17 JUDGE MORAN: Is that sufficient for  
18 you, Ms. Tidaback?

19 MS. TIDABACK: Yes, sir. Thank you.

20 JUDGE MORAN: All right. Court  
21 reporter, hear that?

22 THE VIDEOGRAPHER: Thumbs up.

1 JUDGE MORAN: Okay. And so we'll see  
2 you in 30 minutes, and you'll resume. You said  
3 five or six questions to ask your father?

4 MS. TIDABACK: Yes, sir.

5 JUDGE MORAN: Okay. So we're now going  
6 off the record.

7 (Recess)

8 JUDGE MORAN: And so, Jordan Tidaback,  
9 are you still holding to you have five or six more  
10 questions to ask of your father?

11 MS. TIDABACK: Yes, sir. Yes.

12 JUDGE MORAN: Okay.

13 MS. TIDABACK: So to start, may we,  
14 please, turn to Exhibit P38?

15 JUDGE MORAN: P38, sure. And so, Mr.  
16 Tidaback, are you on P38?

17 THE WITNESS: Yes, your Honor.

18 JUDGE MORAN: Okay. Thank you. Go  
19 ahead with your question.

20 BY MS. TIDABACK:

21 Q Mr. Tidaback, is it correct that this is  
22 Rob's termination letter?

1           A       That is the termination letter that I  
2 signed, yes.

3           Q       Okay. Based on that, could you, please,  
4 identify who decided to fire Rob on the  
5 termination order?

6           A       That was --

7                   JUDGE MORAN: I couldn't hear you.

8                   BY MS. TIDABACK:

9           Q       Oh. Could you, please, identify who  
10 made the termination or -- who was on the  
11 termination letter down at the bottom?

12          A       Yes.

13          Q       You terminated him?

14          A       I terminated him. I'm the one that  
15 fired Mr. Baumann, yes.

16          Q       Okay. Thank you.

17                   JUDGE MORAN: And we -- That's admitted  
18 already, right, P38?

19                   MS. SMITH: Yes, your Honor.

20                   JUDGE MORAN: Great.

21                   BY MS. TIDABACK:

22          Q       Mr. Tidaback, do you recall any verbal

1 counseling sessions with Mr. Baumann about raiding  
2 training files?

3 A Yes, numerous times, one specifically,  
4 and it was during the evening shift at that time  
5 with Mr. Baumann because it was a late evening for  
6 me, and I remember the phone call because Mr.  
7 Baumann was fairly new in the role. And we -- We  
8 talked about the training files and that he needed  
9 to read the files, all of them, so that he could  
10 be successful in his role so that we could  
11 progress him to become more than just his role,  
12 basically explaining that he had upward mobility.  
13 He just needed to become better at his role, and  
14 that was when he was starting to have issues in  
15 his role.

16 Q Okay.

17 A And my notes would show that in one of  
18 the exhibits.

19 JUDGE MORAN: Okay. Well, is that an  
20 exhibit that's been admitted?

21 THE WITNESS: It is. I don't recall if  
22 it has.

1 MS. TIDABACK: Let's see.

2 THE WITNESS: We had discussed it  
3 earlier, and you said that I had to do it under  
4 cross or -- testimony, your Honor. That is why it  
5 may be brought up here, Exhibit RB.

6 JUDGE MORAN: I -- I don't have -- I  
7 don't believe I admitted RB.

8 MS. SMITH: That is correct. It is not  
9 admitted.

10 MS. TIDABACK: May it, please, be  
11 admitted?

12 JUDGE MORAN: Do you want to ask your  
13 father questions about RB?

14 MS. TIDABACK: Yes, sir.

15 BY MS. TIDABACK:

16 Q Could you, please, give us a description  
17 of what Exhibit RB is?

18 A RB is the notes that I and the  
19 supervisor keep on the individuals in certain  
20 positions, and this one happens to be for Mr.  
21 Baumann. And it runs from July 26, 2022, through  
22 17 April of 2023.

1           Now -- Now, I will admit, the Secretary,  
2 she didn't like them, that I added it or -- added  
3 more to it after she received a copy, and I  
4 understand that. The additions -- now that I'm  
5 thinking about it since that's where all my notes  
6 go, so anything added after -- I don't know. That  
7 would be -- Yeah. So that would be after whatever  
8 the Secretary was given is what I would say would  
9 be what I would want to have in exhibits. Is that  
10 -- Is that fair to say?

11           JUDGE MORAN: Okay. Well, let's --  
12 let's nail this down a little bit.

13           MS. TIDABACK: Okay.

14           JUDGE MORAN: RB, okay, I just got it --

15           THE WITNESS: Yes, your Honor.

16           JUDGE MORAN: -- is a three-page  
17 exhibit. Do you agree with that, Mr. Baumann, I  
18 mean, Mr. Tidaback?

19           THE WITNESS: Yes, your Honor.

20           JUDGE MORAN: Okay. And at the top of  
21 the first page, it begins with your name -- with  
22 Mr. Baumann's name?

1 MS. TIDABACK: Yes, sir.

2 THE WITNESS: Correct.

3 JUDGE MORAN: Excuse me. And it's dated  
4 Thursday, April 27th -- April 27th --

5 MS. TIDABACK: Um-hum.

6 JUDGE MORAN: -- 2023 at 7:13 p.m.

7 THE WITNESS: The document date there,  
8 your Honor, doesn't -- it's a Team -- it's a  
9 Microsoft --

10 MS. TIDABACK: Notes.

11 THE WITNESS: -- Notes page that gets  
12 updated by the -- I have it in my folder on my  
13 thing, is a wipable notebook where I make my  
14 notes. And at the end of the day, they get  
15 transcribed into one note.

16 JUDGE MORAN: Okay.

17 THE WITNESS: It's very --

18 JUDGE MORAN: I'm not challenging that,  
19 but the -- let's just note for the record what  
20 this exhibit --

21 THE WITNESS: Yes.

22 JUDGE MORAN: -- is about. Now, you've

1 told me, Mr. Tidaback, that these are your  
2 personal notes about Mr. Baumann; is that right?

3 THE WITNESS: That is correct. I refer  
4 back to these type of notes for any type of bonus  
5 pay or progression to the next position, stuff  
6 like that.

7 JUDGE MORAN: Okay. So just so we  
8 understand what's in this exhibit, it's three  
9 pages, not three full pages. The first entry on  
10 page 1 is 26 July 2022, and the last -- the last  
11 entry is 17 April 2023.

12 THE WITNESS: Right.

13 JUDGE MORAN: Do we agree about that?

14 THE WITNESS: Correct.

15 MS. TIDABACK: Oh, yes, sir.

16 JUDGE MORAN: Okay. And are you moving  
17 for admission of these notes?

18 MS. TIDABACK: Yes, sir.

19 JUDGE MORAN: Do you have an objection  
20 to this?

21 MS. SMITH: Yes, we -- we do. As Mr.  
22 Tidaback testified, this document was not provided

1 to us. A version of this document was provided to  
2 MSHA during their inspection. However, the  
3 document has been modified since then that they're  
4 offering here as an exhibit.

5 Also, Mr. Tidaback puts in his cover  
6 page to his exhibit binder that this document is  
7 -- is an ongoing journal. And so it's not clear  
8 when this document was last updated or even the  
9 date here at the top here. It was after Mr.  
10 Baumann's termination, and so we object to the  
11 reliability and authenticity of this document and  
12 that it does vary from what was provided to the  
13 MSHA inspector during the investigation.

14 MS. TIDABACK: Ongoing means its  
15 multiple dates. It's not just one date.

16 JUDGE MORAN: You can't testify either.  
17 You just --

18 MS. TIDABACK: Oh, I'm testifying?

19 THE WITNESS: She knew what I was going  
20 to say.

21 MS. TIDABACK: Sorry.

22 JUDGE MORAN: Do you have telepathy

1 going on here?

2 THE WITNESS: We work so well together,  
3 your Honor. Sometimes, yes, we do.

4 JUDGE MORAN: Okay. Here's my ruling.

5 MS. TIDABACK: Yes, sir.

6 JUDGE MORAN: I'm going to allow Exhibit  
7 RB into the record and either Attorney Smith, who  
8 just spoke, or Attorney O'Reilly and -- deal with  
9 questions about this during cross-examination of  
10 Mr. Tidaback, all right?

11 (Respondent's Exhibit R-B was  
12 marked for identification and  
13 received in evidence.)

14 MS. SMITH: We have the document that  
15 was originally provided to MSHA during its  
16 inspection.

17 JUDGE MORAN: Yes.

18 MS. SMITH: And what we'd like to do, if  
19 now is the appropriate time, move to admit it for  
20 the limited purpose of just, you know, impeaching  
21 the credibility of the document that's been  
22 admitted as RB.

1 JUDGE MORAN: Absolutely. This is  
2 something that you have not -- For this limited  
3 purpose, this is not something I have until now?

4 MS. SMITH: Correct. We'd have to mark  
5 it and identify it as a new exhibit now.

6 JUDGE MORAN: Okay. Well, we'll do that  
7 during cross-examination, all right?

8 MS. SMITH: Okay. Thank you.

9 JUDGE MORAN: All right.

10 THE WITNESS: Yes.

11 JUDGE MORAN: Any other questions about  
12 RB which I've admitted?

13 MS. TIDABACK: No, sir, not at this  
14 time.

15 JUDGE MORAN: All right.

16 BY MS. TIDABACK:

17 Q Let's see. Okay. If -- Okay. I'm just  
18 going to read it. If someone was excellent at  
19 multiple parts of their job but lacked in one  
20 area, do you think you would terminate them?

21 A If they were successful at multiple  
22 parts of their job, so they were doing poorly at

1 just one part?

2 Q Yes, sir.

3 A No.

4 Q Okay. On the other hand, if someone  
5 lacked in multiple areas but may have been good in  
6 one area, do you think you would terminate them?

7 A So they were poor in multiple areas but  
8 good in one?

9 Q Yes, sir.

10 A Yes.

11 Q Okay. Could you, please, tell us the  
12 purpose of hiring a safety specialist.

13 A To keep us in compliance with MSHA and  
14 to keep the miners safe and operation safe, et  
15 cetera.

16 Q Okay. So why would American Tripoli  
17 hire someone specific to the safety role for the  
18 company? I'll end it at that. Why --

19 A Yeah. So why would we hire somebody in  
20 the safety role would be to keep everyone safe.  
21 We wouldn't necessarily need another miner trying  
22 to do that role, especially when they're

1 struggling in their own role.

2 Q Okay. So would you argue that hiring a  
3 safety person means that we do prioritize safety  
4 and compliance?

5 A Oh, yes. So I spent 13 years as an OSHA  
6 inspector for the Department of Defense, the  
7 Oklahoma Military Department, the Army or -- U.S.  
8 Army Aviation Center. I did a lot of accident  
9 investigations. Safety is very important to me.  
10 If you've ever dealt with aviation, you would  
11 understand that.

12 Q Okay. Is it correct that we have  
13 maintenance days every Wednesday on top of  
14 maintenance as needed?

15 A That is correct. If I remember  
16 correctly, during Mr. Baumann's tenure, every  
17 Wednesday between 8 and noon was scheduled  
18 maintenance. That is when they scheduled no  
19 production. And then every other Friday, there  
20 was a -- there was time allowed in the schedule  
21 for the full day every other Friday and then any  
22 other time that Mr. Baumann was in a position of

1 shift lead or Mr. Spears logically would say, "We  
2 need more production time, or we need more  
3 maintenance time, we need to change filters,  
4 replace bearings," stuff like that, yes.

5 Q Okay. So just to follow on that, since  
6 you brought up a good point, would you hold it  
7 against anyone at American Tripoli if we were down  
8 for maintenance or down for an MSHA shutdown of  
9 the production pounds as they've --

10 A No, because if we're shut down by MSHA,  
11 we can't -- we have to follow the guidelines of  
12 MSHA. So why would anybody get counseled for  
13 being down for MSHA? That's -- Yes.

14 Q Okay. Thank you. And just to wrap it  
15 up with a few clarifying questions, looking at the  
16 court complaint, do you feel any roles that you --  
17 that you did not discriminate against any miner or  
18 --

19 A I --

20 Q -- any particular activity?

21 A I do not feel that the company or myself  
22 discriminated against anyone or anything related

1 to MSHA, especially their protected rights.

2 Q Okay. Did you ever stop anyone from  
3 walking or talking with MSHA?

4 A No. We actually encouraged it.

5 Q And just to clarify, did you know Mr.  
6 Baumann was a miners' rep before he was  
7 terminated?

8 A No, I did not.

9 Q Okay. And then my final question, was  
10 Mr. Baumann fired about asking for compensation?

11 A No. We were actually having that  
12 discussion at the same time --

13 Q Okay.

14 A -- with Mr. Markeson.

15 MS. TIDABACK: Okay. Your Honor, that  
16 concludes my questions.

17 JUDGE MORAN: Okay. Are you ready for  
18 cross-examination?

19 MS. SMITH: Yes, we are.

20 CROSS-EXAMINATION

21 BY MS. SMITH:

22 Q Just briefly, during your testimony, you

1 testified as to Exhibit RJJ. I'd like you to turn  
2 to that page, please.

3 COURT REPORTER: Can I clarify who's  
4 questioning?

5 MS. SMITH: This is Elaine Smith.

6 JUDGE MORAN: Thank you, Court Reporter.  
7 RJJ; is that right?

8 MS. SMITH: Yes.

9 JUDGE MORAN: Which is the last exhibit  
10 in that binder.

11 BY MS. SMITH:

12 Q Yes. Are you there, Mr. Tidaback?

13 A Yes, I am.

14 Q And I'll draw your attention to the top  
15 of this e-mail that you discussed during your  
16 testimony. Would you agree with me that the date  
17 of this e-mail is Monday, November the 13th of  
18 2023?

19 A Which e-mail since it's multiples?

20 Q The top e-mail.

21 A From myself to Mr. Boyd?

22 Q Yes. The e-mail at the top of the page,

1 is that e-mail dated Monday, November 13th of  
2 2023?

3 A At 11:01:39 a.m.?

4 Q Is that "yes"?

5 A Yes.

6 MS. SMITH: Your Honor, may I approach  
7 the witness?

8 JUDGE MORAN: Yes. Is this in reference  
9 to the document you were talking about earlier?

10 MS. SMITH: Yes, your Honor.

11 JUDGE MORAN: Okay.

12 MS. SMITH: I'm going to ask him to  
13 identify it. Would you like a copy now or --

14 JUDGE MORAN: I would. I would like a  
15 copy now. Thank you.

16 BY MS. SMITH:

17 Q Mr. Tidaback, I've handed you a document  
18 I've identified as P45. Do you recognize this  
19 document? I'll hand this to you.

20 A Yes. It appears to be an e-mail from  
21 myself to Mr. Dillingham, cc'ing John Spears,  
22 Jordan Tidaback and myself, in regards to Mr.,

1 let's see, Larkins -- Mr. Larkins, Adam, cc'ing  
2 John Spears, Jordan Tidaback and myself requesting  
3 -- Mr. Dillingham was requesting -- Oh, excuse me.  
4 That wasn't actually to Mr. Larkins.

5 JUDGE MORAN: You have to speak up, sir.

6 THE WITNESS: That wasn't to Mr.  
7 Larkins, the second e-mail in that paragraph, but  
8 it does appear to be the correspondence between  
9 myself and Mr. Dillingham.

10 BY MS. SMITH:

11 Q I'm going to direct your attention to  
12 the first page of this document at the top. And  
13 it says "from," and then it says "Russell  
14 Tidaback," and it says "rtidaback@ddco.com." Is  
15 that your address?

16 A Yes.

17 Q Is that your e-mail address?

18 A One of the many, yes.

19 Q And then you sent this e-mail to a Mr.  
20 Michael Dillingham. Do you agree with that?

21 A That's what it shows, yes.

22 Q And Mr. Dillingham is the special

1 investigator of the complaint we've been  
2 discussing this week?

3 A Correct.

4 Q And this e-mail, as you flip through it,  
5 was in response to documents that Mr. Dillingham  
6 had requested during his investigation of Mr.  
7 Baumann's complaint?

8 A It appears -- And I would have to verify  
9 all the details, but it appears that way, yes.

10 Q If you could turn to page 2, and, again,  
11 at the top of this document, it says "from." And,  
12 again, it lists your e-mail address,  
13 rtidaback@ddco.com; is that correct?

14 A It appears out of sequence because the  
15 first page is May 10th. The --

16 JUDGE MORAN: No, no. The question --  
17 that's not -- She's not asking you about sequence.

18 THE WITNESS: Oh.

19 JUDGE MORAN: She's asking you to  
20 identify page 2 of Exhibit --

21 MS. SMITH: P43.

22 JUDGE MORAN: -- P45.

1 MS. SMITH: P45. Excuse me, your Honor.

2 JUDGE MORAN: Yes. So without talking  
3 about your critique of sequence, does it -- does  
4 it indicate what counsel for the Secretary, Ms.  
5 Smith, just said, May 14th -- Sunday, May 14th at  
6 12:43 from you to Mr. Dillingham? Is that what  
7 that page is about?

8 THE WITNESS: Can you ask your question  
9 again?

10 BY MS. SMITH:

11 Q Yes. Is this your e-mail address at the  
12 top, rtidaback@ddco.com?

13 A Yes.

14 Q And, again, you're sending this e-mail  
15 to Mr. Michael Dillingham; is that correct?

16 A Yes.

17 Q And further down at the top of this page  
18 in the header section, it says the word  
19 "Attachments." Do you see that?

20 A Yes.

21 Q And can you locate in that Attachment  
22 section where it says the attachment Rob space

1 Baumann space hyphen space notes dot PDF.

2 A Correct.

3 Q I'm going to direct your attention to  
4 the body of the e-mail address or -- the e-mail of  
5 this page. There's a No. 3. Do you see that?

6 A Where it starts --

7 Q With the No. 3.

8 A Referring to the statement below?

9 Q Yes. Are you there?

10 A Yes, ma'am.

11 Q I'm going to direct your attention to  
12 the second sentence that starts with, "I have  
13 attached." Please let me know when you're there.

14 A Yes.

15 Q This states, "I have attached a copy of  
16 the employee notes journal paren Rob Baumann space  
17 hyphen space notes dot PDF closed paren that I  
18 maintain on each employee." Did I read that  
19 correct?

20 A Yes.

21 Q I'm going to ask you to turn to pages 7,  
22 8 and 9 of this document. They're numbered on the

1 bottom right-hand side. Are you there?

2 A Yes, ma'am.

3 Q Do you recognize the pages identified as  
4 7, 8 and 9 as the document that was referred to in  
5 the e-mail, Rob Baumann hyphen notes dot PDF?

6 A Without looking at that e-mail, I  
7 wouldn't -- wouldn't know.

8 Q Do these -- Do you recognize these to be  
9 the notes that you provided Mr. Dillingham  
10 regarding Rob Baumann during Mr. Dillingham's  
11 investigation of the complaint?

12 A Without looking at that e-mail to verify  
13 it, no, I wouldn't.

14 Q What part of that e-mail is it that you  
15 need to look at to verify?

16 A To verify what attachments.

17 JUDGE MORAN: You have to keep your  
18 voice up. To verify what?

19 THE WITNESS: The attachments. Oh,  
20 sorry. This one, the attachments. I would need  
21 to verify the attachments to verify what was  
22 attached. I can't assume that this was. I don't

1 know.

2 BY MS. SMITH:

3 Q Is there anything about the documents in  
4 7, 8 and 9 that you would believe are not your Rob  
5 Baumann notes that you provided to Mr. Dillingham?

6 A Without verification, I just couldn't  
7 verify that.

8 Q All right.

9 JUDGE MORAN: No, but that's a fair  
10 question for counsel to ask.

11 THE WITNESS: Do I -- do I -- Can you  
12 ask it again? I'm sorry.

13 BY MS. SMITH:

14 Q Is there anything about the document  
15 attached on pages 7, 8 and 9 that you do not  
16 recognize as the notes regarding Rob Baumann that  
17 you provided to Mr. Dillingham during his  
18 investigation of this matter?

19 A No. I don't see anything that would say  
20 that it wouldn't be, but I don't -- I can't verify  
21 that.

22 MS. SMITH: Your Honor, at this time,

1 we'd move to admit Exhibit P45 for the limited  
2 purpose of impeaching respondent's Exhibit RB.

3 JUDGE MORAN: Is there any objection?

4 MS. TIDABACK: I don't have the  
5 document.

6 THE WITNESS: Oh, I see.

7 JUDGE MORAN: The question on the table  
8 for you, Jordan Tidaback, is if you have an  
9 objection to the admission of this exhibit.

10 MS. TIDABACK: I don't blatantly see why  
11 not. No, sir, I don't.

12 JUDGE MORAN: Okay. P45 is admitted.

13 (Complainant's Exhibit P-45 was  
14 marked for identification and  
15 received in evidence.)

16 JUDGE MORAN: You know, Counsel, you  
17 have to make sure that the respondent has a copy  
18 of this.

19 MS. SMITH: She can keep that copy.

20 JUDGE MORAN: Okay. And when we  
21 conclude this proceeding, whether it's this week  
22 or next week, you'll have to -- in addition to

1     courteously supplying, I appreciate this, the  
2     boxes of records that have been admitted in this  
3     record, you then have to send a second box of the  
4     exhibits to both sides to the Commission's  
5     Washington, D.C. address. I'll give you that in a  
6     conference call we'll have next week.

7                 MS. SMITH: Okay. No problem.

8                 JUDGE MORAN: Because normally, what  
9     happens in these proceedings, just for the  
10    edification of people, because this is an unusual  
11    technical arrangement, the court reporter leaves  
12    in all -- every case I've ever had, actually,  
13    until this one, if it wasn't a virtual, a Zoom  
14    hearing, I've had those, too, but the court  
15    reporter leaves physically with the exhibits. I  
16    take a set home. The court reporter takes a set  
17    home, and the parties go back with their own set  
18    as well. That's how it typically happens.

19                So we don't have a court reporter  
20    physically in the room, and I'm not putting this  
21    on Mr. Holt. So that's why the Secretary's going  
22    to have to submit two sets, one to me at my home

1 office, one to the Commission address, which I  
2 will direct you about.

3 MS. TIDABACK: Yes, your Honor.

4 JUDGE MORAN: Okay.

5 BY MS. SMITH:

6 Q I also have a question for you about  
7 that document.

8 A Yes.

9 Q I'm also going to ask you to return to  
10 Respondent's Exhibit B.

11 A B?

12 Q Yes, Mr. Tidaback. Please turn to  
13 Respondent's Exhibit B.

14 A Oh, respondent's.

15 JUDGE MORAN: Single B.

16 MS. SMITH: Single B. This document has  
17 been admitted.

18 JUDGE MORAN: Thank you.

19 THE WITNESS: So RB?

20 BY MS. SMITH:

21 Q Yes.

22 A Yes, I'm there.

1           Q     Mr. Tidaback, you agree with me that the  
2 document depicted in Exhibit RB is not identical  
3 to the document that's depicted in P45, pages 7, 8  
4 and 9, correct?

5           A     So you're just simply stating that there  
6 was more added?

7           JUDGE MORAN: No, no. The question is  
8 very simple.

9           THE WITNESS: Yes.

10          JUDGE MORAN: Do you agree that the  
11 document in RB is not identical to those pages  
12 which appear in P45? Is that a correct  
13 characterization of your question?

14          MS. SMITH: Yes. Yes, your Honor.

15          THE WITNESS: Yes, I agree.

16          JUDGE MORAN: Okay. He agrees they're  
17 not identical.

18          MS. SMITH: Thank you.

19          BY MS. SMITH:

20          Q     And continuing on Respondent's Exhibit  
21 B, you agree with me that Exhibit B contains an  
22 entry for February 14th of 2023, correct?

1           A       Yes.

2           Q       And you agree with me that that entry of  
3   February 14th, 2023, does not appear in the  
4   document P45 on pages 7, 8 and 9, correct?

5           A       That's correct.

6           Q       Turning back to Respondent's Exhibit B  
7   --

8                   JUDGE MORAN: By the way, let me  
9   interrupt because you're soft spoken at times.  
10   Court Reporter, did you hear the witness's answer,  
11   Mr. Tidaback? His last words were "correct."

12                   THE VIDEOGRAPHER: Thumbs up.

13                   JUDGE MORAN: Thank you.

14                   BY MS. SMITH:

15           Q       You agree with me that Respondent's  
16   Exhibit B includes an image of some Teams chat  
17   messages; is that correct?

18           A       That's correct.

19           Q       Previously, you testified that these  
20   notes are generated based on you writing in a  
21   wipable notebook and then that text being uploaded  
22   into one note; is that correct?

1           A       More to that, yes.

2           Q       You would agree with me that Teams chat  
3 messages are not something that you wrote in a  
4 wipable notebook, correct?

5           A       Teams chats are not writable, no.

6           Q       So you agree with that, correct?

7           A       I -- Yes.

8           Q       Continue looking at Respondent's Exhibit  
9 B. Can you locate the entry for November 5th of  
10 2022?

11          A       Yes.

12          Q       November 5th, 2022, is a Saturday; is  
13 that correct?

14          A       Correct.

15          Q       The mill was not running on that day,  
16 correct?

17          A       No. That would be the date that I added  
18 the entry, not the actual specific date.

19          Q       It's the date that you made an entry,  
20 but your entry is not about that date?

21          A       It doesn't have to be that date 'cause  
22 if I don't -- if I talk to him late on a Friday

1 evening, say, 4 November in this case and Saturday  
2 morning I make the notes, it's tracked as that  
3 date that I wrote the notes.

4 Q At the top of Respondent's Exhibit B,  
5 the date is Thursday, April 27th, 2023, at 7:13  
6 p.m. Did I read that correctly?

7 A Did you read that correctly? Yes.

8 Q I'm going to ask you to turn to P12.  
9 P12 has been previously admitted.

10 JUDGE MORAN: Thank you.

11 BY MS. SMITH:

12 Q Are you there, Mr. Tidaback?

13 A Yes, ma'am.

14 JUDGE MORAN: But give me a second to  
15 get there. P12?

16 MS. SMITH: Yes, your Honor.

17 JUDGE MORAN: Okay. I am now at P12.

18 BY MS. SMITH:

19 Q And, Mr. Tidaback, you responded to  
20 these interrogatories on behalf of the respondent,  
21 correct?

22 A That's correct.

1           Q     And you signed these interrogatories  
2 under the penalty of perjury, correct?

3           A     That's correct.

4           Q     Please turn to page 3.

5           A     I'm at page 3.

6           Q     Please direct your attention to  
7 interrogatory No. 5. This interrogatory asked you  
8 to set forth the reasons Mr. Baumann was  
9 terminated, who participated in the decision and  
10 when that date of that decision was made, correct?

11          A     That's what it states, yes, ma'am.

12               JUDGE MORAN: You're speaking so soft.

13               THE WITNESS: Sorry.

14               JUDGE MORAN: I want you to speak as you  
15 normally would so that you can be heard, sir.

16               THE WITNESS: Yes, sir.

17               BY MS. SMITH:

18          Q     And then please turn to page 4. Your  
19 response to this interrogatory identifies three  
20 individuals who participated in the decision to  
21 terminate Mr. Baumann. And those individuals were  
22 Russell Tidaback, Jordan Tidaback and, on page 5,

1 John Spears; is that correct?

2 A They are -- They are in the  
3 decision-making process, yes.

4 JUDGE MORAN: I'm sorry?

5 THE WITNESS: They are in the  
6 decision-making process.

7 JUDGE MORAN: She said, "Is that  
8 correct?"

9 THE WITNESS: Yes, sir. The final  
10 decision-maker is me.

11 MS. SMITH: I would ask that that  
12 response be stricken from the record as there was  
13 no question pending.

14 JUDGE MORAN: Yes. The answer is  
15 stricken from the record. However, if you ask  
16 questions on -- on redirect, Ms. Tidaback, you can  
17 ask who makes -- who makes the final decision and  
18 termination. You can ask that then if you wish.

19 MS. SMITH: Your Honor, may I briefly  
20 confer with my co-counsel?

21 JUDGE MORAN: Of course.

22 (Discussion off the record.)

1 MS. SMITH: Your Honor, we have no  
2 further questions of this witness.

3 JUDGE MORAN: Okay. Do you have some  
4 questions on redirect, Ms. Tidaback?

5 MS. TIDABACK: Yes, sir.

6 JUDGE MORAN: Okay.

7 REDIRECT EXAMINATION

8 BY MS. TIDABACK:

9 Q Mr. Tidaback -- Oh, Do I need to state  
10 my name? This is Jordan Tidaback.

11 JUDGE MORAN: Yes.

12 MS. TIDABACK: Good?

13 JUDGE MORAN: Thank you.

14 BY MS. TIDABACK:

15 Q Who makes the final decision in  
16 terminations?

17 A That would be me.

18 Q Okay. And then just for clarification,  
19 at any time -- have we ever run on Saturdays at  
20 any time?

21 A There may have been an opportunity for  
22 overtime sometime but not -- that is not a -- we

1 -- When we offer overtime or we were to run on a  
2 Saturday, it was because the mill was shut down  
3 during the week, and we want to make sure that all  
4 the employees would get their 40 hours. So we  
5 offered that time so they could get caught up on  
6 their hours. Or if the shift lead wanted to get  
7 the guys together to get some overtime for the  
8 hours based on the production shift, we -- we --  
9 we offered that. But it was rarely, rarely ever  
10 because most people said they didn't want to run.

11 MS. TIDABACK: I'm finished, sir.

12 JUDGE MORAN: Okay. Any questions from  
13 the Secretary?

14 MS. SMITH: We have no further questions  
15 for this witness.

16 JUDGE MORAN: Okay. Thank you, Mr.  
17 Tidaback, for your testimony.

18 THE WITNESS: Yes, sir.

19 JUDGE MORAN: Okay. So now, giving a  
20 moment for Mr. Tidaback to communicate with Jordan  
21 Tidaback, once you've had that moment, I need you  
22 to tell me if there are other witnesses the

1 respondent wishes to present or whether that  
2 concludes the respondent's testimony in this  
3 matter.

4 MR. TIDABACK: Thank you, your Honor.

5 (Discussion off the record.)

6 MR. TIDABACK: Sir, it's more  
7 housekeeping. There won't be another witness.

8 JUDGE MORAN: Okay. So there are  
9 housekeeping issues. That's a broad term. You  
10 want to identify the housekeeping issues?

11 MR. TIDABACK: Yes. Sorry.

12 JUDGE MORAN: Then after the  
13 housekeeping issues, that will -- am I correct  
14 that will complete your defense in this matter?

15 MS. TIDABACK: I believe so. I believe  
16 so, your Honor.

17 JUDGE MORAN: Okay. So let's go through  
18 the housekeeping matters one at a time then.

19 MR. TIDABACK: Just to clarify, the  
20 respondent's interrogatories, we've submitted them  
21 as RGG and RFF.

22 JUDGE MORAN: Okay. RGG and RFF, yes.

1 MR. TIDABACK: Were they submitted and  
2 accepted by your Honor previously?

3 JUDGE MORAN: I don't know, but I can  
4 easily cure that. Do you want to have RGG and RFF  
5 admitted into the record?

6 MR. TIDABACK: Yes, your Honor.

7 JUDGE MORAN: Do you see an objection to  
8 that?

9 MS. O'REILLY: We would just like to  
10 note -- we don't have an objection, but we will  
11 note for clarification that FF is the same as P39,  
12 and GG is the same as P34.

13 JUDGE MORAN: Okay. Thank you for that.  
14 The answer to your question, Mr. Tidaback, is that  
15 RGG and RFF are admitted into the record.

16 (Respondent's Exhibits R-GG and  
17 R-FF were marked for identification  
18 and received in evidence.)

19 JUDGE MORAN: And you remember, I made a  
20 reference to that in the e-mail to you people that  
21 said I've had other hearings when we've had the  
22 same exhibit introduced by both sides or maybe not

1 exactly the same but covering the same material.  
2 And that's not a problem, so they're admitted.  
3 Okay.

4 MR. TIDABACK: The reason for the  
5 question is I just wanted to make sure we didn't  
6 have to print more paper if it was already --

7 JUDGE MORAN: No. You're fine. RGG and  
8 RFF are in.

9 MR. TIDABACK: Okay. That was my  
10 question.

11 JUDGE MORAN: Do you have any other  
12 housekeeping matters?

13 MR. TIDABACK: That was all the ones,  
14 sir.

15 JUDGE MORAN: Okay. So now we have a  
16 question. The next in this procedure process --  
17 You don't have to stand, sir, unless you want to  
18 stand and if you feel more comfortable. You  
19 indicated you --

20 MR. TIDABACK: I do sometimes, your  
21 Honor.

22 JUDGE MORAN: I wish I could sometimes.

1     Okay. But it's a little awkward for me to stand  
2     during the course of a hearing. So now does the  
3     government have any -- intend to enter any  
4     rebuttal testimony?

5                 MS. SMITH: We do, your Honor. We'd  
6     like to recall Mr. Rob Baumann in rebuttal for the  
7     limited purpose that we've kind of discussed  
8     earlier.

9                 JUDGE MORAN: Okay. Watch that tripod.  
10    Now, Mr. Baumann, you're on the record. Court  
11    Reporter, thumbs up again? Did I get a thumbs up?

12                THE VIDEOGRAPHER: Thumbs up.

13                JUDGE MORAN: Okay. Mr. Baumann, put on  
14    your thing like you did yesterday. Do you  
15    understand you're still under oath, sir?

16                THE WITNESS: Yes, your Honor.

17    Whereupon,

18                         ROBERT BAUMANN  
19    was recalled as a witness and, having been  
20    previously duly sworn, was examined and testified  
21    further as follows:

22                JUDGE MORAN: Okay. And we're going to

1 have just for clarification, which, actually,  
2 Jordan Tidaback helped us out with that, right now  
3 we have questioning by Secretary's attorney Ms.  
4 O'Reilly. Proceed.

5 FURTHER REDIRECT EXAMINATION

6 BY MS. O'REILLY:

7 Q Mr. Baumann, you were never disciplined  
8 at American Tripoli for failing to guard  
9 machinery, correct?

10 A No, ma'am.

11 Q It's correct that you were never  
12 disciplined for failing to guard machinery?

13 A I was never disciplined for not -- for  
14 not guarding machinery.

15 Q And did you learn about MSHA's  
16 machine-guarding requirements after you started  
17 walking around with MSHA during the inspections?

18 A Yes, ma'am.

19 MS. O'REILLY: That's all we have.

20 JUDGE MORAN: Okay. Mr. Tidaback, do  
21 you have some questions to ask about this?

22 MR. TIDABACK: I do, actually. Trying

1 to transcribe one of them now, but I do have one  
2 before that.

3 JUDGE MORAN: Sure. Yep. Well, head up  
4 to the microphone.

5 MR. TIDABACK: Can you hear me?

6 THE VIDEOGRAPHER: Yes.

7 MR. TIDABACK: Okay. Thank you.

8 FURTHER RECROSS EXAMINATION

9 BY MR. TIDABACK:

10 Q First question, your Honor, Mr. Baumann,  
11 did you receive new miner training that discusses  
12 guarding?

13 MS. O'REILLY: Objection. Asked and  
14 answered.

15 JUDGE MORAN: I'm going to allow the  
16 question to be answered.

17 THE WITNESS: Yes. The initial 30, 45  
18 minutes of safety training I would have called it.

19 JUDGE MORAN: So his answer is "yes."

20 MR. TIDABACK: Yes, your Honor.

21 BY MR. TIDABACK:

22 Q Were -- Okay. So you had testified that

1     you were not disciplined for guarding machinery,  
2     but you were able to put guarding back on if it  
3     was off, or you tasked that out to have that  
4     guarding put back on, correct?

5           A     I don't -- guess I --

6           Q     If the guarding was off, would you do it  
7     yourself or task someone else to do it if you saw  
8     the guarding off?

9           A     Yes.

10           MR. TIDABACK:   Okay.   That's all, your  
11   Honor.

12           JUDGE MORAN:   Okay.

13           MS. O'REILLY:   No further questions,  
14   your Honor.

15           JUDGE MORAN:   All right.   That was  
16   brief, wasn't it?

17           THE WITNESS:   Yes, that was.   That was  
18   pleasant.   Thank you, your Honor.

19           JUDGE MORAN:   You're excused to go back  
20   to the seating area.   All right.   We may be on the  
21   verge of wrapping this proceeding up.   All right.  
22   Watch that tripod, okay?

1 MR. BAUMANN: Thank you.

2 JUDGE MORAN: Any further evidence or  
3 housekeeping matters from the Secretary of Labor?  
4 And we have Ms. Smith speaking.

5 MS. SMITH: Yes. Thank you, your Honor.  
6 Just one housekeeping item. Before we adjourn for  
7 the day, I would just like to go through and make  
8 sure we both have the same list of exhibits that  
9 have been admitted so that we don't get back home  
10 and are confused about what we have or have not  
11 admitted.

12 And along those lines, when we send you  
13 the notebook and we send the notebook for the  
14 court reporter, I think I understood your  
15 instruction earlier on Tuesday that we're to  
16 remove exhibits that were not admitted, so I  
17 wanted to clarify that procedure.

18 JUDGE MORAN: That's absolutely true,  
19 and I explained why. If I have extraneous  
20 exhibits, which I'm defining as exhibits that were  
21 not admitted into the record, it can be confusing.  
22 If, for instance, one side or the other, and

1 there's always one side or the happy that's  
2 unhappy with my decisions, I can tell you that,  
3 that if there are exhibits in there, a person that  
4 shouldn't be in there, a reviewing body like the  
5 Commission, could be confused, could see an  
6 exhibit and not be able to decipher why that's in  
7 there or what its purpose was or even  
8 inappropriately refer to such an exhibit.

9           So the -- the -- the Secretary of Labor,  
10 this is rather important, these three  
11 representatives, the term of art in our legal  
12 profession is they are officers of the court. In  
13 other words, they have duties to me and to any  
14 judge, all right. So they are under a strict  
15 obligation to follow my instructions faithfully in  
16 good faith and with due diligence. And so I have  
17 instructed them to go through the record and  
18 delete, that is, remove, those exhibits from  
19 either side that were not admitted into the  
20 record. And in the case of the respondent's  
21 exhibits, they can either return them to you or to  
22 keep -- keep them apart from but not submit it to

1 the Commission.

2 Now, I'll listen further, but to me --  
3 and I'm not degrading what you said, but it seems  
4 to me that the record has been very clear about  
5 what exhibits were admitted. So you're going to  
6 be reviewing that, and I don't expect these  
7 exhibits to be sent to me next week, okay?

8 MS. SMITH: Okay.

9 JUDGE MORAN: So you'll go through the  
10 transcript, and you should communicate out of  
11 courtesy, professional courtesy, to the Tidabacks  
12 that this is your list as opposed to taking time  
13 here. And, well, I didn't do a great job. I was  
14 writing them all down, but this is just a mess and  
15 -- because it's not my job tom as it is your job  
16 to, keep a record about the exhibits or admitted.  
17 But the transcript will very clearly speak to what  
18 was admitted, and if there's something wrong with  
19 one of the court reporters, I do have all these  
20 written down. I don't think we'll need that, but  
21 they're staying with me. All right.

22 So I'm declining your invitation to take

1 all the time to go through because that wouldn't  
2 be the last word. What if -- what if both of us  
3 missed one and the transcript -- transcript  
4 clearly says Exhibit P, whatever you want to put  
5 in there, is in there? We couldn't say, "Well, we  
6 talked at the -- near the end of the hearing and  
7 said it wasn't included, so, therefore we're not  
8 going to." That would be inane, right? We don't  
9 want to have inane results as much as we can avoid  
10 them, all right. So thank you, but that's the way  
11 we're going to proceed. So Mr. Tidaback has a  
12 question for me. No. That's fine.

13 MR. TIDABACK: And it's confusing  
14 because when we were -- I was standing there. I  
15 don't know what that position's called, but --

16 JUDGE MORAN: Podium.

17 MR. TIDABACK: -- yeah, podium and  
18 asking questions, and it was questions related to  
19 exhibits that we presented.

20 JUDGE MORAN: Yeah.

21 MR. TIDABACK: I couldn't -- I couldn't  
22 add that Exhibit 2 until I testified.

1 JUDGE MORAN: That's right, see, because  
2 there wasn't a foundation laid. You were asking  
3 witnesses about -- I'm speaking broadly now, but I  
4 remember we had at least a couple of instances  
5 where the -- you were asking questions of a  
6 witness who couldn't really authenticate or  
7 identify the document any more than I could.

8 So what you needed to do was to have  
9 either something that's self-authenticating, which  
10 for a small business like that you wouldn't have  
11 that, or the individual who generated the exhibit  
12 testify. That's why we were waiting for you or  
13 Mr. Spears, who were two witnesses in this matter  
14 for the respondent, to identify a particular  
15 exhibit in order to get it in unless it was -- see  
16 how it gets complicated, unless it was an official  
17 record I could take judicial notice of.

18 MR. TIDABACK: Right.

19 JUDGE MORAN: So if you're telling me in  
20 a roundabout way that there was some exhibit that  
21 you wished could be admitted --

22 MR. TIDABACK: Yes.

1 JUDGE MORAN: -- but through some  
2 deficiency such as not having laid a proper  
3 foundation, I'll give you a few moments now to  
4 identify such exhibits. I'll give you five  
5 minutes. There couldn't be many. But if there  
6 are some exhibits that you feel should be part of  
7 the record and through some deficiency I did not  
8 admit them, I'll give you an opportunity to try  
9 again, and I'll hear from the Secretary of Labor  
10 if you have an objection to that.

11 So take your time. It's 1:49. Take a  
12 few moments to see if there's something that you  
13 feel is important and, so that you get a fair  
14 hearing, should be considered.

15 MR. TIDABACK: I have 12. There's 12  
16 exhibits, your Honor.

17 JUDGE MORAN: 12 exhibits?

18 MR. TIDABACK: Oh, those are the ones  
19 you admitted. Okay. Sorry. That was a mistake.

20 JUDGE MORAN: Okay. Yeah. That's fine.

21 MR. TIDABACK: Yes. And since -- Yeah.  
22 So we have the 12 exhibits I referenced as being

1 admitted. How do we confirm that that was done?

2 JUDGE MORAN: You confirmed it by having  
3 -- You're going to order a copy of the transcript,  
4 okay, and the transcript will indicate which  
5 exhibits were admitted. We were pretty meticulous  
6 about this.

7 MR. TIDABACK: Okay. So does -- and --  
8 Does the Secretary just like on the -- what are  
9 those called, the depositions, do they provide  
10 that transcript to us, or do we need to do  
11 something different to get it?

12 MS. SMITH: In the Exhibit No. P44 and  
13 P45?

14 MR. TIDABACK: No, that's what I'm  
15 asking. The judge --

16 MS. O'REILLY: A transcript of this  
17 hearing is what you're asking about?

18 JUDGE MORAN: You're asking about the  
19 transcript of this hearing?

20 MR. TIDABACK: Isn't that what you're  
21 referring to, your Honor, when we have to look and  
22 see if the exhibits are --

1 JUDGE MORAN: Yes. If you're concerned  
2 that there was an exhibit -- The transcript will  
3 inform all of us which exhibits were admitted and  
4 which exhibits were not admitted, okay. What I've  
5 just given you an opportunity to, and you've not  
6 indicated any, any exhibits that were not admitted  
7 that you feel in fairness should be admitted. I  
8 would listen to those exhibits that you may  
9 identify, if there are any. I'm not saying there  
10 are. But I'm giving you, out of an abundance of  
11 fairness, an opportunity to go through your  
12 exhibits and see if there's something that through  
13 inadvertence or some other deficiency didn't get  
14 into the record, and then I will hear from the  
15 other side if there's an objection.

16 I don't know that there are any that you  
17 feel should have gotten in the record. But the  
18 other thing is you'll have to work with the court  
19 reporter. And if you e-mail me Monday, I will  
20 give you the court reporter's address, right,  
21 Court Reporter? Okay. Did I get a thumbs up?

22 THE VIDEOGRAPHER: Thumbs up.

1 JUDGE MORAN: And then you'll contact  
2 that person to make arrangements to have  
3 transcripts sent to you at a cost. I mean, I  
4 don't know what the fee is, but it's not free,  
5 okay. So you'll order a transcript, and I'm  
6 getting big smiles?

7 THE VIDEOGRAPHER: Big thumbs up.

8 JUDGE MORAN: Big thumbs up. All right.  
9 So I knew the court -- This is for the benefit of  
10 everybody. Typically -- And this is addressed to  
11 Madam Court Reporter, Ms. Schmaling. If I had a  
12 nickel for every time my name has been  
13 mispronounced, it's only five letters, but you can  
14 imagine.

15 Anyway, my understanding, Madam Court  
16 Reporter, is that you and your predecessor court  
17 reporters are to produce a copy of the transcript  
18 within ten business days of the conclusion of the  
19 hearing. So the first business day would be  
20 Friday and then not including weekends. Ten days  
21 after that, you are to have the transcripts  
22 prepared, and they will be sent to the parties

1 requesting it.

2           The Secretary of Labor will  
3 independently request a copy through their own  
4 procedures that they use. I won't elaborate upon  
5 that, and the Commission who has hired you, the  
6 Federal Mine Safety and Health Review Commission,  
7 they're under contract with maybe not you directly  
8 but through Anderson Reporting that you are to  
9 provide to the Commission and, therefore, to me  
10 with a copy of this transcript. Do you understand  
11 that? Do we get a thumbs up?

12           THE VIDEOGRAPHER: Thumbs up.

13           JUDGE MORAN: Okay. And this is for --  
14 Please communicate this to the other court  
15 reporter if it hasn't already been communicated.  
16 When you send me my copy, I get a Word version,  
17 okay, and I also get in that electronic version a  
18 four-page version where there are four pages of  
19 transcript on each page produced. Thumbs up?

20           THE VIDEOGRAPHER: Thumbs up, yes.

21           JUDGE MORAN: You've done this before?

22           THE VIDEOGRAPHER: Yes.

1 JUDGE MORAN: Good. Okay. So, Mr.  
2 Tidaback, you'll contact my office. Send me an  
3 e-mail Monday. I'll respond to it with the  
4 information for her of how to get a copy of the  
5 transcript sent to you. There's no rush because  
6 they won't even be prepared for ten business days  
7 starting tomorrow, so you'll place your order.  
8 And then I assume at roughly the same time I get  
9 my copy, you'll get yours.

10 MR. TIDABACK: Thank you.

11 JUDGE MORAN: All right. Now, remember  
12 I promised, this is important, no one reminded me  
13 but I'm reminding you, beginning with the  
14 government, did you have a full opportunity to  
15 present your complaint on behalf and -- of Mr.  
16 Baumann and the Secretary of Labor for  
17 interference and discrimination in this matter?

18 MS. SMITH: Yes, your Honor.

19 JUDGE MORAN: Okay. And that is Ms.  
20 Smith speaking?

21 MS. SMITH: Yes.

22 JUDGE MORAN: Okay. Now, Mr. Tidaback

1 and Jordan Tidaback, did you folks have a full  
2 opportunity to present your defense in this  
3 matter?

4 MR. TIDABACK: To the best of my  
5 ability, your Honor, yes, I do believe we did.

6 JUDGE MORAN: Okay. All right. Then --  
7 and I'll give anyone -- By the way, we left this  
8 hanging. Are there any exhibits, Mr. Tidaback,  
9 that you --

10 MR. TIDABACK: We're finishing up on  
11 that list, your Honor.

12 JUDGE MORAN: All right. So I'll give  
13 you a few more minutes to discuss that, and then  
14 we'll go around the table one more time. Is there  
15 anything else before we have this hearing come to  
16 a close?

17 MS. SMITH: Nothing further from the  
18 Secretary of Labor.

19 JUDGE MORAN: Okay. I want to thank Mr.  
20 Holt. Thank you very much for your valuable and I  
21 appreciate your good humor and technical  
22 expertise.

1 THE VIDEOGRAPHER: Any time.

2 (Discussion off the record.)

3 MR. TIDABACK: Just for clarification,  
4 so we don't duplicate it like you've mentioned,  
5 RRH and RRI are interrogatory answers/responses.

6 JUDGE MORAN: Let's just take them one  
7 at a time. RHH.

8 MR. TIDABACK: RHH.

9 JUDGE MORAN: And, of course, I don't  
10 have RHH as one of my multipage exhibits admitted.  
11 I have RH but not RHH.

12 MR. TIDABACK: Correct.

13 JUDGE MORAN: So he's asking if the RHH  
14 is in the record through one of the Secretary's  
15 exhibits; is that right, Mr. Tidaback?

16 MR. TIDABACK: Yes, your Honor.

17 MS. SMITH: Yes, your Honor. RHH is the  
18 same as P12, and P12 has been admitted.

19 JUDGE MORAN: Thank you. Next question.  
20 You had two. Another exhibit?

21 MR. TIDABACK: RII.

22 JUDGE MORAN: RII.

1 MS. SMITH: And, your Honor, RII is the  
2 same as P29, but P29 has not been admitted.

3 JUDGE MORAN: Okay. Let's take a look  
4 at P29. Okay. And so, Mr. Tidaback, is -- do you  
5 have P29 in front of you?

6 MR. TIDABACK: Yes, your Honor.

7 JUDGE MORAN: Okay. And your intention  
8 behind this is to have P29 admitted?

9 MR. TIDABACK: Yes, your Honor.

10 JUDGE MORAN: And, again, P29 is on your  
11 side. It's called what?

12 MR. TIDABACK: R --

13 JUDGE MORAN: Not R. Yes, R, yes.

14 MR. TIDABACK: RII.

15 JUDGE MORAN: All right. RII. Let me  
16 take a look at that, and does the Secretary of  
17 Labor agree RII is the same as P29?

18 MS. SMITH: Yes, your Honor, that's our  
19 position.

20 JUDGE MORAN: Okay. And I could take  
21 official notice of this submission, and it's among  
22 the Secretary's proposed exhibits anyway. I

1     assume you have no objection to P29?

2                   MS. SMITH:   Correct.   No objection to  
3     P29 or RII.

4                   JUDGE MORAN:   Very good.   Okay.   So  
5     those are in.

6                                 (Respondent's Exhibit R-II was  
7                                 marked for identification and  
8                                 received in evidence.)

9                   MR. TIDABACK:   So RJJ I do believe we  
10    just added when that was one on the -- Correct?

11                   JUDGE MORAN:   RJJ, did I admit that one?  
12    Let me take a look.

13                   MR. TIDABACK:   Right.   Yep.

14                   MS. SMITH:   Your Honor, RJJ has not been  
15    moved to be admitted into evidence.

16                   JUDGE MORAN:   Well, good, because I  
17    didn't find it among my -- my notes here.   Okay.  
18    So RJJ, and is RJJ also one of the Secretary's  
19    exhibits?

20                   MS. SMITH:   No, your Honor.

21                   JUDGE MORAN:   Okay.   So let's take a  
22    look at RJJ.   RJJ, this is my description, you can

1 tell me if you disagree with it, Mr. Tidaback, is  
2 a multipage exhibit. You were questioned about  
3 that, were you not?

4 MR. TIDABACK: Yes, I was.

5 MS. SMITH: That is correct, your Honor.

6 JUDGE MORAN: Okay. And that's Ms.  
7 Smith speaking. I'm admitting RJJ into the  
8 record.

9 MS. SMITH: Oh, we would like to just,  
10 for the record, lay -- issue an objection to the  
11 document on the basis of relevance because the  
12 date of the document, the e-mails that were  
13 exchanged, were on November 13th of 2023 which was  
14 seven months after Mr. Baumann's termination.

15 JUDGE MORAN: I understand, and -- and  
16 what you would do is it's entered into the record,  
17 but you can identify the shortcomings of that and  
18 that in effect how much, if at all, I would -- I  
19 would use that in deliberating on my decision.

20 MS. SMITH: Yes. Thank you.

21 JUDGE MORAN: Okay. I'm admitting this  
22 despite that flaw that you mentioned, Attorney

1 Smith, because I want to make sure that I've  
2 extended as far as I possibly can fairness to the  
3 respondent, Mr. Tidaback, and his daughter as they  
4 are pro se. But the fact it is admitted doesn't  
5 mean that it gets you there anywhere. It just  
6 means it's part of the record. So RJJ is  
7 admitted, okay?

8 (Respondent's Exhibit R-JJ was  
9 marked for identification and  
10 received in evidence.)

11 MR. TIDABACK: Can I ask a question?

12 JUDGE MORAN: Sure.

13 MR. TIDABACK: How would I get that  
14 information before he was fired?

15 JUDGE MORAN: Oh, no. Now you're  
16 challenging.

17 MR. TIDABACK: Okay. Sorry.

18 JUDGE MORAN: Okay.

19 MR. TIDABACK: So --

20 JUDGE MORAN: We're past that. The  
21 testimony's over.

22 MR. TIDABACK: Sorry, your Honor.

1 JUDGE MORAN: Okay.

2 MR. TIDABACK: So R echo, echo, so EE.

3 JUDGE MORAN: You have another one?

4 MR. TIDABACK: Yes, your Honor.

5 JUDGE MORAN: Okay. See, this is my  
6 problem for being too nice. REE?

7 MR. TIDABACK: Yes, your Honor.

8 MS. SMITH: Your Honor, this exhibit was  
9 previously offered, and it was not admitted.

10 JUDGE MORAN: Okay. It was previously  
11 offered, and I denied its admission?

12 MS. SMITH: You -- Yes. That's correct.  
13 You denied the admission at the time.

14 JUDGE MORAN: Okay. And I'm going to  
15 stick with my denial of the admission, so REE is  
16 not admitted for the reasons I articulated during  
17 the course of the hearing.

18 MS. SMITH: Yes, and this may be a flaw  
19 that could be cured at this point. At the time, I  
20 think Mr. Spears was testifying, and he was unable  
21 to lay a foundation for this document. So that  
22 may be a flaw that can be cured at this time.

1 JUDGE MORAN: Okay. And that's because  
2 he had no basis to testify about the document?

3 MS. SMITH: Yeah. That's what I recall.

4 JUDGE MORAN: So -- so you're suggesting  
5 out of generosity on the part of the Secretary of  
6 Labor that -- that you consent to REE being  
7 admitted?

8 MS. SMITH: No, your Honor. We have  
9 objections as to it. I just wanted to make it  
10 clear why you did not admit the --

11 JUDGE MORAN: I forgot on this  
12 particular, why I didn't.

13 MS. SMITH: I wanted to make it clear  
14 why you did not allow it to be admitted at that  
15 time. We do have objections as to this exhibit.

16 JUDGE MORAN: But didn't you say it  
17 could be -- objections could be cured?

18 MS. SMITH: The foundational issues, the  
19 reason why it wasn't admitted when it was first  
20 offered I think could be cured if -- if we wanted  
21 to relax the rules a little and allow the  
22 foundation to be laid at this time.

1 JUDGE MORAN: Sure. Well, that would  
2 mean that Mr. Tidaback would testify further; is  
3 that right?

4 MS. SMITH: I agree with that. It's not  
5 procedurally correct at this time. But if we are  
6 trying to, you know, in fairness and help things  
7 along, he may not have understood the procedure at  
8 the time he was testifying.

9 JUDGE MORAN: So that's what we're going  
10 to do. No one can accuse me of being unfair in  
11 this proceeding to the respondent, it would seem  
12 to me, by my decision about this.

13 So do you have REE in front of you, Mr.  
14 Tidaback?

15 MR. TIDABACK: Yes, your Honor.

16 JUDGE MORAN: Okay. Do you know what --  
17 And do you understand you're still under oath?

18 MR. TIDABACK: Yes, your Honor.

19 JUDGE MORAN: All right. Can you  
20 identify what REE is?

21 MR. TIDABACK: Yes, your Honor, a  
22 discussion regarding the withdrawal order and

1 miners' pay.

2 JUDGE MORAN: Okay. And the discussion  
3 is -- Identify who is in the discussion, please.

4 MR. TIDABACK: At the very top of the  
5 page, the unknown user, I have to assume that it  
6 is Jesse Malessy, as he would be the safety  
7 person. But when the printed document or -- the  
8 document was printed, he wasn't in our system. So  
9 it showed --

10 JUDGE MORAN: But you're not sure. You  
11 can't -- Because it's a deficiency in the system,  
12 you have to believe that it was some unknown user  
13 making the comment which is in the gray area?

14 MR. TIDABACK: Not necessarily unknown  
15 user because Jesse Malessy's employment as a  
16 safety person was during that time and in the  
17 safety group.

18 JUDGE MORAN: Okay. But it's still --  
19 It's still a deduction on your part that this is  
20 Jesse Malessy who's speaking in the gray portion?

21 MR. TIDABACK: Yes, your Honor.

22 JUDGE MORAN: Okay. And, again, the

1 purpose of the exhibit you say was to deal with  
2 the issue of payment to miners after the mine was  
3 shut down; is that right?

4 MR. TIDABACK: That is correct, your  
5 Honor.

6 JUDGE MORAN: Was there any other  
7 purpose behind this exchange in REE? Was it  
8 solely directed to that issue?

9 MR. TIDABACK: Yes. Yes, your Honor.

10 JUDGE MORAN: Do you have an objection  
11 to this?

12 MS. SMITH: We do object as to a lack of  
13 foundation. He doesn't know who the individual  
14 was that was initiating this conversation. And  
15 then also as to relevance, it's not related to Mr.  
16 Baumann's discrimination complaint or the reasons  
17 for his termination or protected activity.

18 JUDGE MORAN: Yes, and the second point  
19 is well-taken in terms of relevance. But, you  
20 know, I do have discretion on these matters. I'm  
21 admitting RE -- REE, but the admission of an  
22 exhibit is different from weight given to an

1 exhibit. And weight simply means, "How much do I  
2 pay attention to a particular exhibit?" And so I  
3 want you to be aware of that. I may decide even  
4 on the basis of being irrelevant to the proceeding  
5 that I -- maybe I'll drop a footnote and say,  
6 "Recognize this exhibit was there. It bears no --  
7 has no bearing on this matter. And, therefore,  
8 the Court will not make any further comment about  
9 this exhibit. It does not advance the  
10 respondent's defense." Don't -- That's not  
11 verbatim. That's off the top of my head as to  
12 what I might say in dealing with that.

13 MR. TIDABACK: Yes, sir.

14 (Respondent's Exhibit R-EE was  
15 marked for identification and  
16 received in evidence.)

17 JUDGE MORAN: I also want to caution  
18 people that with so many exhibits here, I -- I --  
19 typically, in a case such as this, I don't mean  
20 discrimination matters, I will say in my decision,  
21 which is true, that I consider all exhibits that  
22 were admitted, okay. And even though I may not

1 discuss every exhibit or every argument made in a  
2 post-hearing brief, that doesn't mean that I  
3 brushed it off. It just means that some things in  
4 my view do not warrant discussion in my final  
5 decision, and so that's -- that's why I put that  
6 in there. It's not that something is being  
7 overlooked, just not worthy of discussion.

8 MR. TIDABACK: Can I explain my reasons  
9 why I'm asking for these?

10 JUDGE MORAN: No. I think I've given  
11 you more than enough rope.

12 MR. TIDABACK: Okay. Yes, your Honor.

13 JUDGE MORAN: Are there any other  
14 exhibits?

15 MR. TIDABACK: There are, your Honor.

16 JUDGE MORAN: None?

17 MR. TIDABACK: No. There are, your  
18 Honor. RBB.

19 JUDGE MORAN: Oh. How many more do you  
20 have?

21 MR. TIDABACK: None, and they may be  
22 duplicates. That's what I'm trying to -- I don't

1 know if it is. Right.

2 JUDGE MORAN: Okay. Let's go through  
3 them. Go ahead. The next one is what?

4 MR. TIDABACK: RBB.

5 JUDGE MORAN: Double B?

6 MR. TIDABACK: Yes, your Honor, RBB.

7 JUDGE MORAN: Okay. RBB, I think it was  
8 not admitted.

9 MS. SMITH: That's correct, your Honor.  
10 It has not been offered to be admitted.

11 JUDGE MORAN: Yeah, and I'm not going to  
12 allow RBB into the record. It's -- You had an  
13 opportunity to introduce each of your exhibits,  
14 and that opportunity has passed. And I've already  
15 given you some leeway about other deficiencies in  
16 some of these exhibits that we're talking about in  
17 the last half an hour.

18 And these are assertions, and they would  
19 have to be subject to cross-examination. I'm not  
20 sure. In fact, I have doubts about the relevance  
21 of this to the matters that are in front of me in  
22 this proceeding, so that's my ruling. RBB is a

1 no.

2 MR. TIDABACK: Yes, your Honor.

3 JUDGE MORAN: Next.

4 MR. TIDABACK: RAA.

5 JUDGE MORAN: Okay. RAA. What's the  
6 deal on RAA? Does the Secretary --

7 MR. TIDABACK: Sorry, your Honor,  
8 excluding RAA. That was a misprint on mine.

9 JUDGE MORAN: No RAA?

10 MR. TIDABACK: Right.

11 JUDGE MORAN: You don't have any issue  
12 about that?

13 MR. TIDABACK: No, your Honor.

14 JUDGE MORAN: Okay. What's next?

15 MS. TIDABACK: RR --

16 (Discussion off the record.)

17 MR. TIDABACK: Yes. It's clarification  
18 that they have it already, RR which is the Kansas  
19 unemployment form.

20 JUDGE MORAN: R what?

21 MR. TIDABACK: Sorry. R.

22 JUDGE MORAN: Okay. One R --

1 MR. TIDABACK: Yes.

2 JUDGE MORAN: -- after the -- after the  
3 initial R. Okay. Hold on a second here.

4 MR. TIDABACK: Sorry.

5 JUDGE MORAN: I hope you two appreciate  
6 that I could have said "no" to all of this stuff,  
7 okay?

8 MR. TIDABACK: I appreciate yours and  
9 the Secretary's assistance. I do.

10 JUDGE MORAN: So now we have RR in front  
11 of us, and this was mentioned in some context. I  
12 can't remember now the details, but it's -- You  
13 have RR. Was RR admitted by the Secretary in some  
14 form?

15 MS. SMITH: No. This document has not  
16 been admitted into evidence.

17 JUDGE MORAN: Okay. And this deals with  
18 the issue of the individual filing a claim for  
19 unemployment insurance benefits, and I remember  
20 Mr. Baumann's testimony about this issue, and  
21 that's going to stand in -- in place of this, that  
22 RR will not be admitted.

1 MR. TIDABACK: Yeah. The only -- The  
2 only question you had on that, your Honor, was  
3 about the date. You asked me what RB --

4 JUDGE MORAN: I know, but Mr. Baumann  
5 testified about that, and RR is not in. Next.

6 MR. TIDABACK: RI.

7 JUDGE MORAN: Okay. RI is titled  
8 Production Lead Duties.

9 MR. TIDABACK: Yes, your Honor.

10 JUDGE MORAN: I take it this -- I take  
11 it this was not admitted into the record?

12 MS. SMITH: Correct. This is not  
13 admitted.

14 JUDGE MORAN: Okay. I am not allowing  
15 this exhibit into the record because you had an  
16 ample opportunity to introduce this either through  
17 Mr. Spears or through yourself, Mr. Tidaback. So  
18 -- And then, therefore, it's not -- then it's  
19 subject to cross-examination about it. Can't  
20 admit it. RII (sic) is a no.

21 MR. TIDABACK: RG.

22 MS. SMITH: Oh, sorry, your Honor. Just

1 for the record, I think you said "RII," and this  
2 is Exhibit RI.

3 JUDGE MORAN: Yes. I meant to say, if I  
4 didn't do that correctly, RI, one I, in other  
5 words, like the state of Rhode Island. All right.  
6 RI is not admitted. Thank you. What's next?

7 MR. TIDABACK: RG.

8 JUDGE MORAN: RG. All right. Tell me  
9 about RG, Secretary of Labor.

10 MS. SMITH: Sorry, your Honor. RG had  
11 not been admitted.

12 JUDGE MORAN: All right. I'm looking  
13 over RG, a rather lengthy exhibit, and the  
14 respondent having had adequate opportunity and  
15 ample time to attempt to introduce this exhibit  
16 either through Mr. Spears or Mr. Tidaback, RG is  
17 not admitted into the record, RG, one G, no double  
18 Gs.

19 MR. TIDABACK: I think the confusion  
20 lies is when I was standing here asking questions  
21 rather than asking the -- the time to ask for  
22 submission of exhibits I believe is the fault,

1 your Honor, not -- I'm not trying to waste the  
2 Court's time.

3 JUDGE MORAN: No. I know that. I don't  
4 take it that you're trying to waste the Court's  
5 time, but RG is not in the record.

6 MS. SMITH: And just -- just for  
7 clarification, RG and RH, RH has been admitted.  
8 And I think merely if not all of G is inside of H.  
9 So those exhibits are if not completely  
10 duplicative very, very close.

11 JUDGE MORAN: So you're saying RH is in  
12 the record?

13 MS. SMITH: Yes. Yes, your Honor.

14 JUDGE MORAN: And you're not warranting  
15 that they're identical?

16 MS. SMITH: Correct. I can't tell right  
17 now that they're exact. I know there are some  
18 differences, but I think all of G is inside of H,  
19 and H has been admitted.

20 JUDGE MORAN: Without 100 percent  
21 certainty about that representation, it's a  
22 multipage exhibit. It takes some time to compare

1 it line by line, page by page. Okay.

2 So what I said stands with the comment  
3 of Attorney Smith recognized, RG not admitted, and  
4 her comments about RH are noted on the record.  
5 Court Reporter, are you getting all of this?

6 THE VIDEOGRAPHER: Thumbs up.

7 JUDGE MORAN: Is that it?

8 MR. TIDABACK: RF.

9 JUDGE MORAN: Oh.

10 MR. TIDABACK: Just a few more.

11 JUDGE MORAN: Okay. RF. RF -- Was RF  
12 admitted into the record?

13 MS. SMITH: No, it was not.

14 JUDGE MORAN: Okay. RF is not admitted  
15 for the reasons I've articulated earlier. No RF  
16 in the -- is admitted.

17 MR. TIDABACK: RE, your Honor.

18 JUDGE MORAN: RE, not in the record?

19 MS. SMITH: Correct, not in the record.

20 JUDGE MORAN: Same reasoning as I've  
21 explained, RE, as in Edward, not admitted.

22 MR. TIDABACK: RC is the last one, your

1 Honor.

2 JUDGE MORAN: All right.

3 MR. TIDABACK: The reason I'm saying RC  
4 is -- it is the expanded version sideways rather  
5 than the exhibit Secretary has which is just the  
6 formatting of it. It's real hard to see it.  
7 That's why I think it's sideways.

8 MS. SMITH: Yeah. And, your Honor,  
9 Respondent's Exhibit C is not exactly identical to  
10 our Exhibit, I think, P14. There are different  
11 dates in those two exhibits.

12 MS. O'REILLY: We have more dates,  
13 right?

14 MS. SMITH: Yeah. Exhibit P14 contains  
15 more dates than what's reflected in Respondent's  
16 Exhibit RC.

17 JUDGE MORAN: And --

18 MR. TIDABACK: Then I'm okay. If it's  
19 got the same information, I'm okay. I know that  
20 it's easier to read.

21 JUDGE MORAN: You've indicated, Attorney  
22 Smith, that -- What was the other exhibit number?

1 Not RC, but the other one was what?

2 MS. SMITH: P14.

3 JUDGE MORAN: P14. It includes --  
4 You're representing it includes everything in RC  
5 and more?

6 MS. SMITH: Well, I'll say it. There  
7 are more dates in P14. Mr. Tidaback said the  
8 formatting's a little bit different. I don't know  
9 for sure that all of the same information is on  
10 there.

11 JUDGE MORAN: Okay.

12 MS. SMITH: And our Exhibit P14, your  
13 Honor, we did receive that from Mr. Tidaback  
14 during discovery. So it did come from him in  
15 discovery, P14.

16 MR. TIDABACK: Yes.

17 JUDGE MORAN: P14 came from the  
18 respondent?

19 MS. SMITH: Yes, during discovery, and  
20 it has been admitted. It's admitted.

21 MR. TIDABACK: So we don't need RC, your  
22 Honor.

1 JUDGE MORAN: Okay. You're withdrawing  
2 your request for RC?

3 MR. TIDABACK: Yes, your Honor, if it's  
4 in the paperwork. That is all, your Honor. Thank  
5 you for your time.

6 JUDGE MORAN: Okay. So anything else  
7 before I announce that the hearing has come to a  
8 close?

9 MS. SMITH: Nothing from the Secretary  
10 of Labor.

11 JUDGE MORAN: Thank you. Anything from  
12 the respondent?

13 MR. TIDABACK: No, your Honor.

14 JUDGE MORAN: Okay. Let me just wrap up  
15 with a couple of things here. It will be some  
16 time, but not an inordinate amount of time, before  
17 I issue a decision in this matter. You can  
18 imagine with the three days of testimony or nearly  
19 three, it'll take me a long time, and then I'll  
20 have to review the respondent's briefs.

21 What I'd like to do is have a conference  
22 call next week. And at that time, we'll establish

1 dates for -- the way this works, my -- to the  
2 Tidabacks here, addressing both of you, is that we  
3 set a time frame after receipt of the transcript  
4 for the initial briefs. Those have to be  
5 submitted simultaneously. There's no business  
6 where the Secretary submits it and then a week  
7 later the respondent submits it having read --  
8 They go out at the same time, the initial briefs,  
9 all right, and then whatever date we select for  
10 those to be submitted. All right. And it has to  
11 be through a tracking method so I can verify that  
12 -- that people complied and submitted the exhibits  
13 on or before the date that they're due, okay.  
14 Typically, it's the same day.

15           Then two weeks after that typically,  
16 reply briefs are in, and the reply briefs are  
17 limited. Reply briefs are not be to a  
18 regurgitation of what was said in the initial  
19 brief. Rather, the reply briefs challenge remarks  
20 made on each side's initial briefs. All right.

21           So, in other words, you're going to read  
22 -- in the case of the Tidabacks, you'll read the

1 Secretary's brief. And not saying there will be,  
2 but typically, there will be issues that you will  
3 raise or you say something such as, "Secretary  
4 omitted this or didn't characterize this  
5 correctly, and we point to pages in the exhibits  
6 or to testimony to show our side of this." In  
7 other words, put it more simply, each side is  
8 representing flaws, either factual or legal flaws,  
9 in their briefs, all right? All right. So that's  
10 -- That's one comment I wanted to make.

11           The second comment is that, and this is  
12 without deciding the case, I want everyone to pay  
13 attention to this. I have not decided this case,  
14 but there's nothing prohibiting the parties from  
15 settling this matter even now, I mean, even in the  
16 next week, for example. The parties can reach a  
17 settlement, and I can't get involved in that and  
18 would not get involved in that. But I can observe  
19 that based on my experience, if a case is  
20 demonstrated and the Secretary of Labor has  
21 confidence in their testimony and in the exhibits,  
22 there still can be room for an accommodation

1 having accepted that, and that area would be in  
2 the realm of the penalties that the Secretary is  
3 seeking.

4 In other words, this is hypothetically  
5 presented, and I'm not elbowing or pushing or  
6 nudging anyone to do this. But, for instance, in  
7 terms of a settlement, it is -- a possible  
8 scenario is Secretary agrees to reduce the  
9 penalties sought by X number of dollars for Count  
10 One and X number of dollars for Count Two, and  
11 that's the basis of the parties reaching a  
12 settlement. So that's something --

13 I didn't want you Tidaback folks to walk  
14 out of here thinking that that's not still an  
15 option. It is up until the time that I issue a  
16 decision. Then it's too late. So if the parties  
17 are inclined to want to work it out, and I've  
18 suggested how based on my past experience such  
19 matters can be worked out, but I'm not suggesting  
20 that in doing that that one party might say, "Oh,  
21 and there was no discrimination." I'm not  
22 suggesting that at all. I gave you the avenue

1 where parties could potentially at least reach a  
2 settlement, and that would be in the area of the  
3 penalties the Secretary is seeking.

4           They have the discretion to decide to  
5 lessen a penalty if the -- if the other side  
6 presents some reasons that they feel is justifying  
7 a reduced penalty on one or both of the accounts,  
8 okay.

9           Then my third and last point is let's  
10 assume that there is no settlement, which, again,  
11 I'm not suggesting there will be or should be, all  
12 right, totally neutral on that, and I issue a  
13 decision. The second phase of the decision would  
14 be -- and this would have to be in short order, is  
15 for my to assess damages, that is, Mr. Baumann's  
16 damages. And I could be wrong, but my impression  
17 on the testimony of that is that there needs to be  
18 more substantial information provided as to the  
19 damages that Mr. Baumann incurred as a result of  
20 being terminated, all right. And so that would  
21 require some documentation or an affidavit, but I  
22 can't just -- a figure can't be plucked off. "Oh,

1 I think I lost \$200 because I had gas or something  
2 driving from one point to another or workman's  
3 compensation, unemployment, whatever, unemployment  
4 compensation." It's got to be a little bit harder  
5 than that because I'm not going to do this. I  
6 don't do this. I can't go about making findings  
7 of fact as to what the damages were without  
8 documentation that I can rely upon for reaching  
9 it.

10 The Secretary has sometimes wanted to  
11 put that on me, and I've always pushed back and  
12 said, "I can't decide that. I need documents,"  
13 just as we needed documents for the exhibits here.  
14 So you understand that, Secretary of Labor, if we  
15 get to phase two? And that would be something --  
16 You could submit that in advance, and then you  
17 would share that documentation if I get to that  
18 point if I find, yes, Secretary established  
19 protected activity and interference, either or  
20 both. Then I move to the second part if there's  
21 no settlement which is what are the damages and --  
22 and other proscriptions which I would put in my

1 Order if I find that. Everybody understand that?

2 MS. SMITH: Yes, your Honor.

3 JUDGE MORAN: Okay. Okay. So we'll  
4 have a conference call sometime next week. I'll  
5 have my law clerk, Jose Natera, contact you.  
6 We'll arrange a time that's convenient for all of  
7 us. We'll establish dates for the post-hearing  
8 briefs, and the Secretary will advise me about  
9 this question of damages, what they intend to do  
10 about that.

11 All right. I want to thank you all for  
12 your courtesy and professionalism. It's been  
13 enjoyable to have a hearing, and I wish you all  
14 well. This hearing will now come to a close.

15 MS. SMITH: Thank you.

16 MR. TIDABACK: Thank you, your Honor.

17 (Whereupon, at 2:29 p.m., the  
18 HEARING was adjourned.)

**ACTING SECRETARY’S SUBMISSION OF ADMITTED EXHIBITS**

Pursuant to the Court’s orders during the post-hearing conference call held on March 7, 2024, the Acting Secretary of Labor, U.S. Department of Labor (the “Acting Secretary”) submits the exhibits admitted during the hearing in this matter. A hearing on this matter was held on February 27, 2024 through February 29, 2024 in Joplin, Missouri. The transcript of these proceedings was forwarded to the Acting Secretary on March 19, 2024.

After a review of the transcript the following exhibits were admitted:

For the Acting Secretary: P-1, P-2, P-4, P-7, P-8, P-9, P-10, P-11, P-12, P-13, P-14, P-16, P-17, P-19, P-20, P-21, P-22, P-23, P-25, P-26 (pages 2, 3, 4, 5, 6, and 9), P-27, P-28, P-29, P-31, P-32, P-34, P-35, P-38, P-39, P-40, P-41, P-42, P-43, P-44, and P-45.

For the Respondent: R.A, R.B, R.H, R.X, R.Y, R.Z, R.DD, R.EE, R.FF, R.GG, R.II, and R.JJ.

In addition to this electronic submission, a copy of the admitted exhibits will also be mailed to the Court and Respondent using the mailing addresses previously provided.

Respectfully submitted,

April 17,

4/17 10:51 AM

Changes made. Hopefully you like them.

Jim Hoover 4/17 12:36 PM

What you mean

4/17 12:53 PM

We are making a change... or have made a change.

Unfortunately, we had to let Rob go today. The data shows he wasn't meeting the daily quotas, or responding to John's suggestions and advice.

So... we are going to change how we operate.

When we get back to producing... probably Wednesday... We will have you run the control room.

YOU HAVE TO UNDERSTAND, the daily quota, per the production schedule is 42k lbs per day.

Some days it's 40k, some days 42k...

We cannot keep pushing production days back, and back, and back...

You won't have to do the computer work...

this will be for the Production Assistant...

The production assistant will be responsible for the administrative computer work. You will need to inform this person on how what was produced, how many bags produced, weights, etc. But this can be communicated via Teams.

or in person

each day

Jim Hoover 4/17 1:10 PM

Wait what are we talking about brother..

Jim Hoover 4/17 1:26 PM

So I'm guessing we are going to come to some sort of negotiation because from a year ago or even from June 15 two years ago I have learned more than you can imagine and worked with John on several projects and I know the mill office and I take maintenance to what needs fixed every time I know the flow of the product and will and can do anything in the mill that you ask and have so I want the mill running like it was a year ago and I know I can get those numbers without a doubt when John and I and RJ was running and I had John sit in the mill and had 20 pallets at lunch, it has been held back so we will need to talk before then, I am very confident and what can be produced at this mill.

4/17 2:01 PM

Jim, you kill me sometimes with these conversations... I have to assume you are referencing a pay increase.

A promotion in pay should be when you have proven yourself in a certain position.

We gave you a promotion last time to do certain things... and you didn't do so well at all of the expected tasks.

Then we had to hire Rob. We didn't want to take pay away from you so we left you at the \$20 /hr.

Now, we are making changes to accommodate or address your shortcomings with leadership of people, organization, and lack of computer skills.

You won't be managing people. You won't be responsible for using the computer. You will only be responsible for daily production of product, per the production schedule.

I'm not saying that you cannot get a pay increase BUT we need you to be successful in this newly assigned position for you to earn a pay increase.

Let's give yourself 12 months in this position, successfully meeting the production calendar quotas, getting product successfully out the door, working with John and the rest of the team, again successfully... THEN we can talk about a pay increase.

Jim Hoover 4/17 5:58 PM

So this 12 months again with the mill production like the last time around it wasn't the problem me running the mill that was the problem brother and you know that and so do I also you didn't fill your side of the deal within 90 days like you said. I let that go because I knew you wouldn't hold up your side of the deal. I always bend over backwards to you and Jordan to help you guys and I. The very first meeting you told us we wouldn't go backwards and that is all that has happen except the boots you have done that for us better but I just bought a different pair because the ones I got from red wings suck. you said we wouldn't go backwards and my pay has my insurance has nothing has went up my pay should of never went down period you have hired maintenance people after maintenance and then they watch me do there job and they are making more than I am for some reason I shouldn't be making less than what I was 2 years ago now for sure I have learned 10 times what I knew 2 years ago when you bought this company and what have I got for this like you said more I learn the better pay comes with learning I got the little mac air problem.fixed back to where it was after 8 maintenance guys look at it and still didn't fix it I run and go right to the problem.everytime boss and do everything that you would expect me to do it as loyal to you guys as they come but damn, I know you don't have money coming in I understand that and you have a scroll not paid for but I go in and give my all to keep hour business going. you taking me out of control room and putting rob in there caused more problems than you realize and I'm sure there will be more to come from that with him. he wasn't going to push to get a high count for you and push the fuck to get caught up there were days he didn't have shit running until I saw something then I would go fix it and then go tell him.

Jim Hoover 4/17 6:06 PM

I have done the mill for a year and I can run it great no questions ask so I think the negotiation that you have just told me isn't correct at all considering the things I do for you and Jordan. im not mad or pissed boss but I do things you don't even know about to keep this place going because one I love my job and two I want this place to be here a whole long ass time after im done and gone you need Saturdays im there you need Sundays I would be there you known will do whatever it takes to get us caught up...

Jim Hoover 4/17 6:12 PM

I'm not arguing with you but we are going to talk about this brother because this isn't a one sided conversation and there why you and I talk and why we are a great team.. I'm not mad or pissed boss but you just assume the worst out of me u guess when we talk.. Rob fucked you over so many times but if I would of told you that you wouldn't of listen to me would you the next one to go needs to be Ronald he calls msha every freaking day and it's bullshit

Worthless

Jim Hoover 4/17 6:19 PM

Anyway I will let you be boss im.sure you are busy. but we need to discuss what you want from me since you just put someone else in there that shouldn't of been there in first place and never lifted a finger to go and find the problem or the solution to fix it.. Anyway I will let you go and we can talk later I have worked with John 7 months and everytime I have ran this mill when rob was gone I got better numbers and know the numbers you want are reachable that is if equipment holds up which I think will just need to get the motor and that would help ten fold

Talk to you later brother

4/17 6:59 PM

Yep, now out of all that. Prove yourself, and let's get things done.

April 19

Jim Hoover 4/19 8:48 PM

This is some shit boss

4/19 8:49 PM

Yes it is!

I am trying my best to get you guys back to work brother.

Jim Hoover 4/19 8:50 PM

If I would of told you this shit was going to happen would you of believed me

4/19 8:50 PM

no, because this should have never happened

what you guys don't see is that we requested an extension..

to resolve these issues when the citation was given to us.

we requested this the day of the citation

Jim Hoover 4/19 8:51 PM

I'm talking as this whole bullshit mega

Msha

Someone that was making it worse

Is what im talking about

4/19 8:52 PM

as we knew it was going to take longer than a week to complete...

what? I don't know what you are referring to.

Jim Hoover 4/19 8:52 PM

Fuelling the fire

4/19 8:52 PM

?

Jim Hoover 4/19 8:54 PM

Not getting numbers... locking main down instead of just locking tube mill out. you lock it down. we don't run didn't have to lock mains down

Locking mains

4/19 8:54 PM

Are you referring to Rob?

Jim Hoover 4/19 8:54 PM

Yes

4/19 8:55 PM

yea I don't understand that who thing either...

to me, that was dumb on both Rob and the inspector...

there is a whole big case building on on this...

I've already got Senators involved and the heats coming...

they are fucking with your guys livelihood and that is wrong!

this is fucked up

I am fighting every single citation given...

I am doing everything I possibly can to get you guys back to work and us producing...

Jim Hoover 4/19 8:58 PM

Boss I was trying to tell you straight up months ago but you wouldn't of believed me but out of everyone there you should know my loyalty by now

4/19 8:59 PM

I've never questioned your loyalty Jim.

Jim Hoover 4/19 9:02 PM

That is bullshit and you tell me how Rob test came back the worst and full of shit you know and I know that was done on purpose and he didn't ever get dirty

4/19 9:03 PM

I don't know what was up with Rob. Why was he disgruntled?

Jim Hoover 4/19 9:03 PM

I don't talk to him really msha guy

4/19 9:03 PM

I don't get it...

I talked to Rob repeatedly about having the doors and windows open and the exhaust fans on...

I don't understand why he just didn't do as he was told...

John and I had been discussing him and counseling him for months now...

Jim Hoover 4/19 9:06 PM

I will tell you this I have went around behind and have had to turn on green dust collector green air compressor he doesn't turn on in order and that is how shit has got tore up and im being dead serious

That's was a lot of the problem

4/19 9:06 PM

then we had a guy who was suppose to replace him... he was supposed to start Monday and the fucker didn't show up for the training or call or respond to calls... nothing.

I knew Rob was lacking... but didn't know it was that bad.

I don't like letting people go but at some point... you just gotta cut the cord

this is why I think the best thing to do is ha e you in the control room... possibly the 6am-230pm shift like we talked before...

Jim Hoover 4/19 9:08 PM

You can't start the flour elevator first thing man he was doing that I said Rob it's going over the screens and screens aren't moving yet he said he was doing it that way I said well your going to fuck it up

4/19 9:09 PM

have a shift lead do all the shipment QC, time keeping, computer work etc...

good point about the flour elevator

that might be why the screens deteriorated so fast...

holding the weight of the cold material...

Jim Hoover 4/19 9:11 PM

There is a order to do this shit and it's in place for a reason I turn on and turn off same way everyday no questions ask and it doesn't take one hour and thirty minutes to clean out it takes 20 minutes period (FACT) .

That is correct

I would go up there and blow of that shit to get what we got

4/19 9:12 PM

Jim Hoover 4/19/2023, 9:11 PM

There is a order to do this shit and it's in place for a reason I turn on and turn off same way everyday no questions ask and it doesn't take...

Yep, I agree. I believe Rob was just being lazy

We will fix this...

I believe we learn from each new person we go through there...

Jim Hoover 4/19 9:13 PM

I was fighting a battle that shouldn't of been there you know

4/19 9:13 PM

Jim Hoover 4/19/2023, 9:13 PM

I was fighting a battle that shouldn't of been there you know

I know now...

we are going to try things different now...

Jim Hoover 4/19 9:13 PM

That's why I would take off running to top floor and unclog shit

Number one priority shit has to be hot

4/19 9:14 PM

to get better you have to make mistakes and learn from them.

Jim Hoover 4/19/2023, 9:14 PM

Number one priority shit has to be hot

exactly

Jim Hoover 4/19 9:15 PM

I told him a thousand times rob it has got to be hot if that yellow pipe is not hot you will have problems he didn't understand hot

I took Jeremy over to pipe said put hand on this you want to know the secret about Tripoli this is it, he said fuck that is hot as fuck I said that's the secret lol

Jim Hoover 4/19 9:18 PM

That's the difference between rob and me he didn't understand the material or the flow of the product or what breaker fixed what and so on you know you got to know that to run the mill.

4/19 9:19 PM

I don't think he was taking the time to learn it either...

Jim Hoover 4/19 9:19 PM

Once it gets hot you back down to where the percent can be as low as 60% and still hold best

4/19 9:19 PM

I think he had the best intentions at first but something fell apart. What? I don't know.

Jim Hoover 4/19 10:11 PM

I only ran one day for 3 hours I set up for John when rob wasn't there and it was John rj and myself and we kicked ass so I know for a fact it is doable

4/19 10:12 PM

I too believe that we will start doing really well once we get past this MSHA BS. This shit has been going on with them since January...

Jim Hoover 4/19/2023, 10:11 PM

I only ran one day for 3 hours I set up for John when rob wasn't there and it was John rj and myself and we kicked ass so I know for a fact i...

That was the deciding factor for John and I to terminate Rob.

Jim Hoover 4/19 10:12 PM

Yes it's costing me money and I don't like that

4/19 10:13 PM

Yes, it is! It really is...

Jim Hoover 4/19 10:14 PM

Oh shit my bad doesn't mean for him to look bad I just ran it like I do there is no other way to run it accept full throttle

I didnt mean to make him look bad I mean

4/19 10:14 PM

Nope... John and I were discussing Robs issues a long time ago... we just didnt know how to approach it.

You just put the icing on the cake.

Jim Hoover 4/19 10:15 PM

Oh shit

4/19 10:15 PM

It had nothing to do with you.

We knew there needed to be change but wanted to give the guy an opportunity to fix the issues we were seeing.

He didnt make improvement and... got terminated.

Jim Hoover 4/19 10:16 PM

I mean I had to tell him to put rock in to charge tube mill it was below 50 I said damn man we got to charge this

4/19 10:16 PM

yep, thats why he is no longer with us.

Tomorrow is a new day

Jim Hoover 4/19 10:17 PM

Yes sir

Jim Hoover 5/7 1:43 PM

Pat is going thru some shit not good but we had a talk Saturday I can't go into detail because I just can't it wouldn't be a good thing but he surprised me after the fact of what happen but long story short I will nip it in the bud

True story

Boss this Msha thing can I speak to you freely without you thinking I'm on there side because I'm not I always tell you what I hear

Those other guys think I'm a company man , if you want to call me that for doing what I do then I guess I am but I know that you ask of me to get a certain number and I know how to do that and she happens and I'm pushing them to get there ass in gear and I'm going out there and packing bagging and hand stacking and fork trucking pallets because I know if I don't go out and do that it will over flow that's how I run it I don't shut it off tell it can't handle no more you know but the shit is hot and I can't touch the yellow pipe you know

5/7 1:57 PM

Its not necessarily a MSHA thing or a "company man" thing...

hear me out...

Do you remember me talking with you a long time ago about Robs general negative attitude about everything?

Jim Hoover 5/7 1:58 PM

I didn't read the book on it rob telling them something and it not being true brother

Oh I know

You didn't have to tell me I worked with him

Or around him more less

5/7 1:59 PM

Well, IMO, this attitude bled over to RJ and I do believe Carson and Terry... then Patrick and probably Gage too

John and I both spoke to Rob about it many times...

Jim Hoover 5/7 2:00 PM

I had to go behind and fix shit

5/7 2:00 PM

he wanted to blame you guys all the time about not being able to get things done

stupid things like... cleaning the bathroom.

He lacked leadership skills

Jim Hoover 5/7 2:01 PM

I didn't know you all did I was trying to stay in my lane but I didn't want to be down longer

I agree

5/7 2:01 PM

I told him he needed to get use to reading online books

he told me he didnt like reading online

he was advised to take some leadership classes online..

I gave him plenty of resources to read about.... plenty of free classes

Jim Hoover 5/7 2:02 PM

Oh wow

5/7 2:02 PM

Then the whole MSHA thing in February...

Jim Hoover 5/7 2:02 PM

Oh he fucked us over on that deal sorry for cussing

5/7 2:03 PM

thats when Rob started to really buck back against what John was telling him to do

Jim Hoover 5/7/2023, 2:02 PM

Oh he fucked us over on that deal sorry for cussing

Oh I know...

again... we had to prioritize things...

Jim Hoover 5/7 2:03 PM

He was yelling at john alot screaming

5/7 2:03 PM

we were constantly looking at how to replace him

Alex was being trained to replace Rob..

then Alex quit

5/7 2:04 PM

We thought Kensley could...maybe... but she didnt work out either...

so, then we hired this last guy... what a f-ing hassle

We have requested MSHA to give us an exception to policy and let us fall under the Part 46 training requirements...

that way we would just have to provide 4 hours of initial safety training and then have the guy start working...

this way if he/she decided it wasnt for them we werent out the 3 days paid training AND the \$250 - \$400 instructor expense for EACH new hire.

MSHA is f-ing choking us out...

Rob's issues go way back- even before starting days...

Christine wanted to replace him...

Jeff didnt like him

Jessie didnt either...

Carson thought Rob was lazy

Jim Hoover 5/7 2:09 PM

Man if you put all his days together he wouldn't get as Dirty as Jordan working one day brother

5/7 2:09 PM

Rob's problem was he didnt want to take the advice of anyone else and thought he knew it all...

Jim Hoover 5/7/2023, 2:09 PM

Man if you put all his days together he wouldn't get as Dirty as Jordan working one day brother

Oh I know...

and now...

that he has made a friend at MSHA... Keith... Robs a fool to think Keith is his friend.

I'm just glad Rob is gone. That was a longggg time coming.

Jim Hoover 5/7 2:12 PM

Rob didn't know a thing .... My opinoin he would always come and ask me what to do or how to fix it I really wanted him to burn after the third day there when he started he told my guys I didn't know anything ... and then he comes and ask me shit 2 seconds later I just blew it off

5/7 2:12 PM

August of last year, Christine was telling me we need to replace Rob.

Jim Hoover 5/7 2:13 PM

I could of told you boss but you wouldnt of believed me

5/7 2:13 PM

Jim Hoover 5/7/2023, 2:12 PM

Rob didn't know a thing .... My opinoin he would always come and ask me what to do or how to fix it I really wanted him to burn after the...

yea, he was full of himself, I could see it back when we were having screen problems..

Jim Hoover 5/7/2023, 2:13 PM

I could of told you boss but you wouldnt of believed me

Its not that... its there are a lot of other pieces moving behind the scenes too

Jim Hoover 5/7 2:14 PM

I see these people come and go brother

Everyone of them

5/7 2:14 PM

See, im having to now fight MSHA because Rob thinks he was discriminated against

Jim Hoover 5/7 2:14 PM

I can tell you in the first 2 days if they will make it because of all the hear say bullshit

5/7 2:15 PM

I just dont understand why they cant just do what they are asked to do...

Jim Hoover 5/7 2:15 PM

Well probably are to lazy mother fuckers I can't stand shit like that

LoI

Do you want to know what he told me

5/7 2:16 PM

I just hope Patrick and RJ arent too infected by his BS

Jim Hoover 5/7/2023, 2:16 PM

Do you want to know what he told me

whats that?

Jim Hoover 5/7 2:17 PM

That you wanted to fire me long ass time ago then when Sara was here he told me again

That you told him this

5/7 2:17 PM

Jim Hoover 5/7/2023, 2:17 PM

That you wanted to fire me long ass time ago then when Sara was here he told me again

uh, no Rob and I were never that close..

Jim Hoover 5/7 2:17 PM

I said well it's his company to do with what he feels will help the company

I didn't lose any sleep over it brother

5/7 2:18 PM

I have only mentioned letting you go when you were having feet problem and not showing up to work as scheduled.

As ive told you before, its not personal

Jim Hoover 5/7 3:14 PM

See how the holes are rounded at some of the ends like a bigger hole

That's not good it's letting some of the small rocks get thru there but we got in there and fixed the serious problems that's for sure I told Jeremy we needed to get in there and look at that end and we found the problem it was killing the screens

On the fourth I told Rob the scrolls needed to be cut shorter he said no it will be alright I told him the product is going past the hole and covering the screens and making everything go back into return and he said how do you no that and I showed him and still blew me off

5/7 3:20 PM

he was a dick wad...

Jim Hoover 5/7 3:20 PM

It just really pissed me off that I would find the problem and he would just ignore it

I agree

Jim Hoover 5/7 3:25 PM

Also just to let you know Robs BS TALK ABOUT taking 1:30 mins to shut down and run product all out is total BS it takes 20 mins from start to finish approximately 30 at most

5/7 3:39 PM

30 mins is what we discussed before Rob... he was just lazy

Jim Hoover 5/7 4:03 PM

True

May 9

# Rob Baumann

Thursday, April 27, 2023 7:13 PM

26JUL2022 - Jeff states the shaker screen ripped because Rob didn't put bolts back in and just ran it like that. Rob told Miguel that he didn't care and that Miguel needed to get down. Rob shut things down sent everyone home early.

27JUL2022 - Christine states Rob is having the guys run straight 8 hours and bypassing the given break so they can go home earlier. I explained the break should be rotated so we can continue to produce for the 8.5 hours. The breaks are precautionary for employees dust exposure too. MO doesn't require breaks to be given. Plus they are only running bulk bags and that can be done with two people.

1AUG2022 - Christine states If Rob cannot get it done, we just need to replace him.

5AUG2022 - Jessie states there is no emphasis for the guys to help him. When he brings it to Rob, he shrugs his shoulders and walks away.

8AUG2022 - Christine wants to bring Rob to first shift as she doesn't believe Rob is doing what he is suppose to be doing without someone overseeing him. We cannot put Jim on nights due to being a single father and a young child at home.

9AUG2022 - Christine thinks we should train someone to replace Rob on the night shift.

16AUG2022 - Advised Christine to counsel Rob regarding shutting down and letting people go earlier than scheduled.

25AUG2022 - Rob needs counseling on filling out the BOL correctly. A shipper complained that he did it wrong and wasted their time.

31AUG2022 - Had discussion with Rob on the importance of inputting the daily production information in the spreadsheet. He said he would log in and get it done.

3SEP2022 - Had discussion with Rob regarding the daily production numbers and updating the spreadsheet accurately. I don't know if he is incompetent or just lazy.

28SEPT2022 - Rob not doing the CILAS reports as required for orders produced.

8OCT2022 - Jessie and Carson were waiting for Rob to get there. Rob was late getting there.

12OCT2022 - Had discussion with Rob regarding notifying and working with Carson to address the maintenance issues. Carson said Rob gets mad at everything and is hard to work with. I explained that getting angry and combative with others is not going to solve the issue any quicker.

13OCT2022 - Had to counsel Rob on following the production schedule as it is presented. He was not producing what was on the schedule. Rob said he didn't like having to check the computer or phone to do his job. I explained that the computer work was part of the role.

17OCT2022 - Had to explain Rob about the flow of the system and asked him why he wasn't reviewing the operating documents in the maintenance team files. His excuse was he didn't like to read on a computer.

26OCT2022 - Had to explain to Rob why the MAC vacuum system was spewing dust from the exhaust and that we had to shut the system down so DEQ doesn't get called. Jim states Rob doesn't know what he is doing.

2NOV2022 - John mentioned Rob showing his poor attitude again.

5NOV2022 - Had to get onto Rob about not properly keeping team shift hours correct in Shifts. He was writing them down on scratch paper and forgetting to update shifts. I don't know if he is just lazy or what. I explained that he can do this any time from the computer or his phone.

8NOV2022 - Had to inquire with Rob if he was shutting down early letting people go home early. The systems were showing shut down before the end of the shift.

1DEC2022 - While at AT had a discussion with Rob regarding his lack of attentiveness regarding ensuring the proper things were done with his team. The checklists weren't being completed. The inspections weren't being completed. The breakroom was a disaster. The fridge was disgusting. The trash wasn't taken out the day before, some of the windows were still open. The production floor was a mess. The back roll up door was off track. The bathroom was disgusting. The circuit breakers in Warehouse A was blocked by slip sheets.

16DEC2022 - Discussion regarding keeping the production team informed of what is expected to

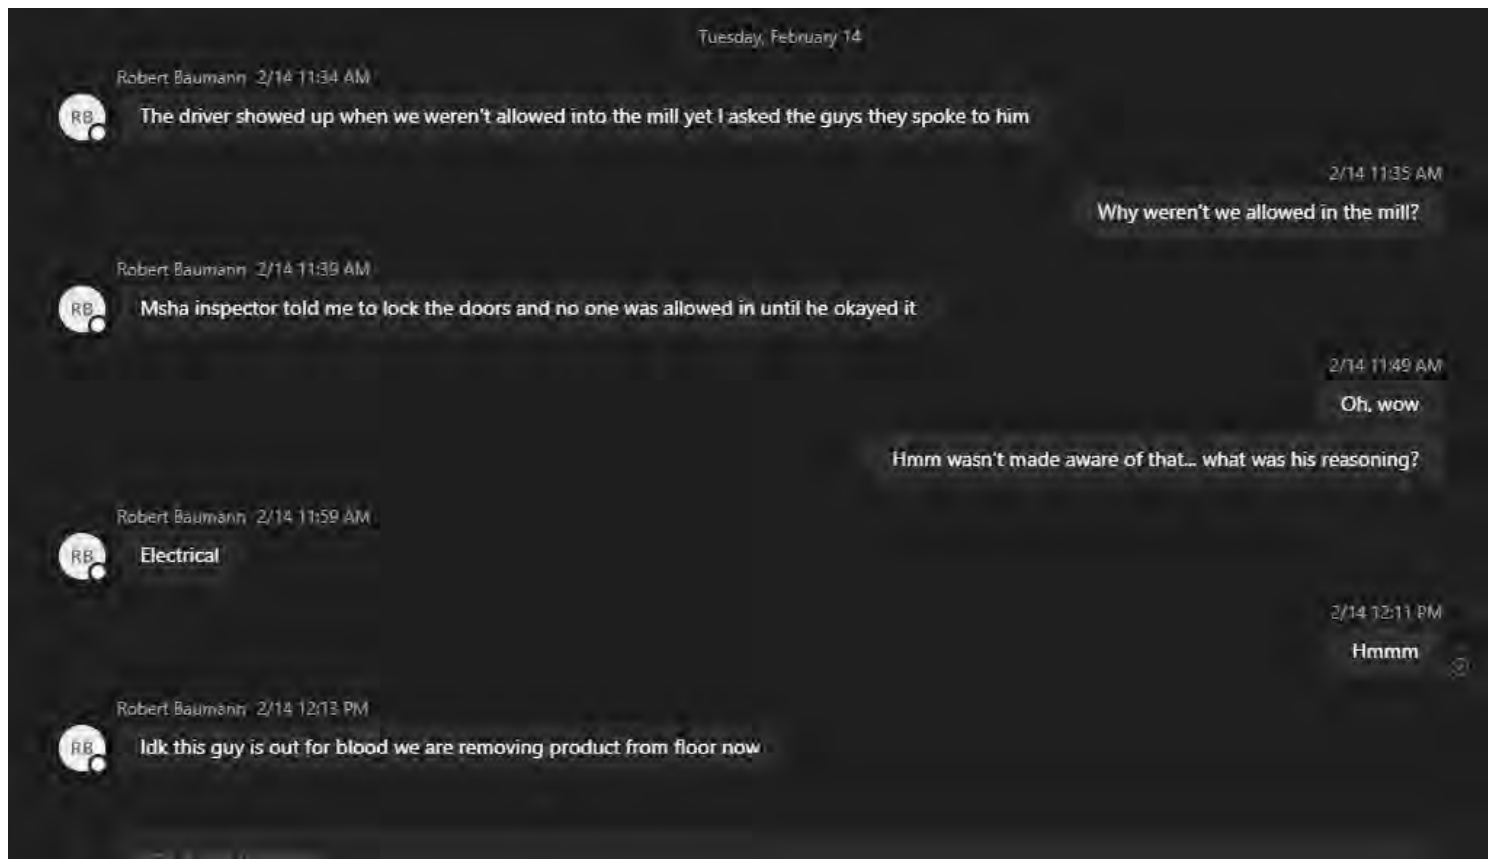

produce that day. Rob is lacking in managerial purpose for his team members.

26DEC2022 - Discussion with Rob regarding not meeting the daily production goals, team members complaining that he doesn't know what he is doing and that he just gets angry and stomps around like a child. He isn't a leader and allows his team to push him around. His response was just nodding his head. I stressed filling out the tasking board everyday and making sure the things get done. If he has problems with someone, take it to John and John will get it resolved. Jim blames Rob.

20JAN2023 - Kensley posted in the Ops chat group a pic of dust blowing out the back of the bldg. Again, had to stress to Rob that he needs to watch for any dust blowing out of the building. We can't have the Sheriff or DNR receiving complaints about us. We had to reiterate in the group that it was Rob's responsibility to be inputting in the daily production worksheet what was produced each day before he leaves for the day. This wasn't been done.

25JAN2023 - Had to get onto Rob regarding keeping the completed bag inventory up to date. John and I discussed Rob's attitude.

14FEB2023 - MSHA blocking shipments and Rob states the inspector is "out for blood".

28FEB2023 - discussed with Rob about the task board. Starting to think we need to let Rob go. His attitude is one that he doesn't care about getting things done. He jokingly mentioned he liked being paid for not working.

20MAR2022 - Alex Snodgrass hired to eventually replace Rob.

24MAR2023 - Discussion with John regarding Rob's push back on stacking the bags today. I believe Rob's attitude is infectious. We need Alex to take over for Rob and just let Rob go for performance issues.

30MAR2023 - ATMO Safety discussion with Jessie about ensuring that Rob gets the tasks done. The tasks are established, just not getting enforced by Rob.

5APR2023 - Alex informed us regarding accepting a neurology position at a hospital in Little Rock. Neurology is his degree in. John and I discussed just letting Rob go.

7APR2023 - John, Jordan and I discussed letting Rob go.

12APR2023 - Time to let Rob go. He is afraid to make the system work and can't meet the simple daily quotas. If Jim can get it done why can't Rob. Need to look at the mill structure again. Jim can run the Mill, we just need to get a manager of people to manage the team. Hopefully, Brian Edwards can do it. He

can manage the people, QC, inventory and the reporting. Jim can run the mill. Brian will need to learn how to as a back up to Jim.

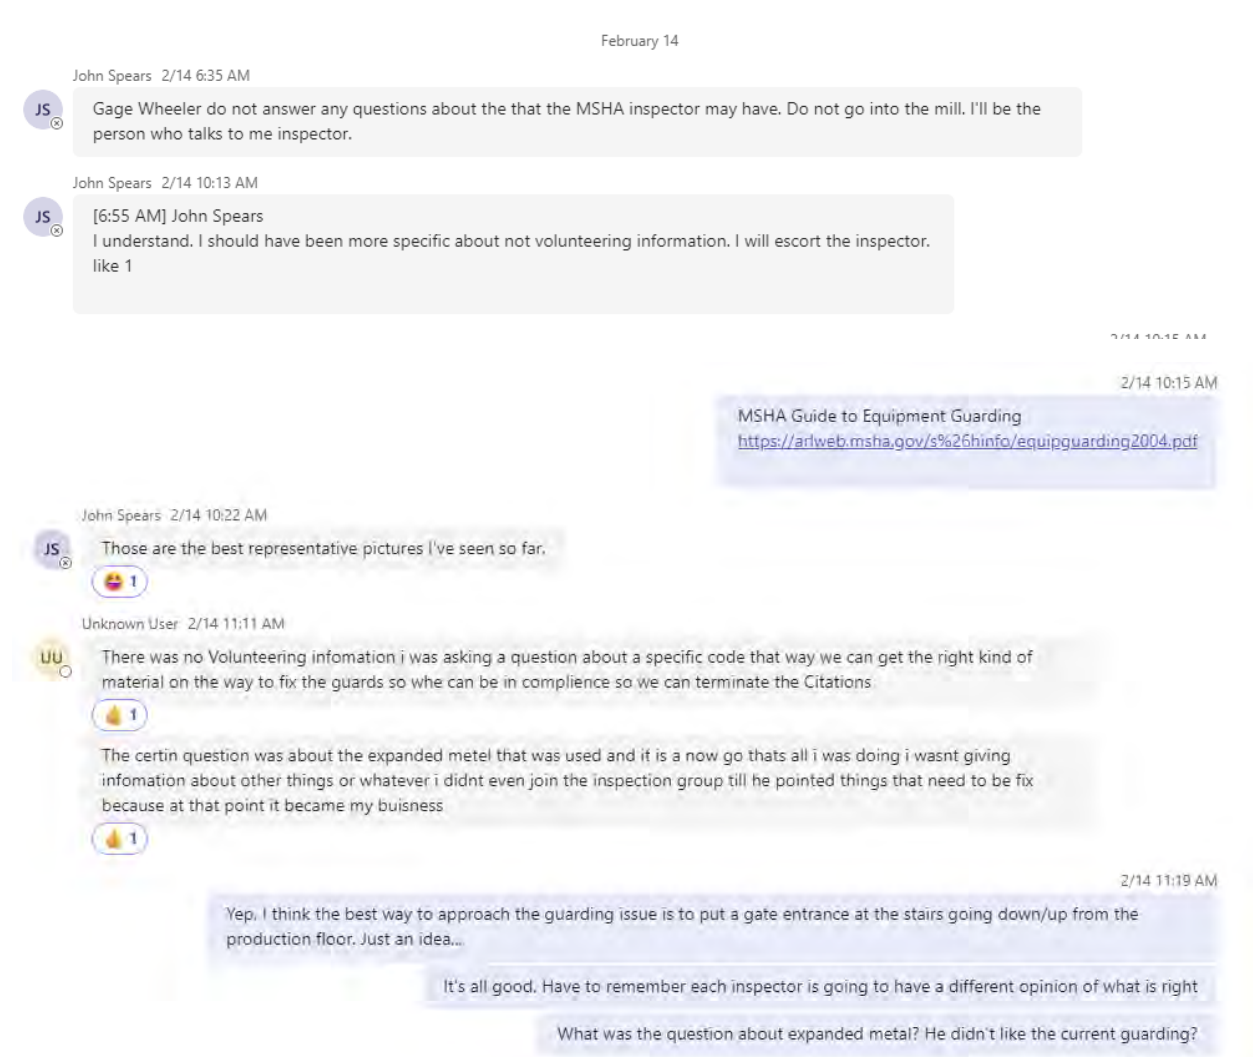

14APR2023 - Warned John about an MSHA complaint when we let Rob go. Robs termination will be based on production performance, not following guidance given by management, not ensuring the safety of the mill associated by utilizing the proper controls, etc. Send John the termination letter.

16APR2023 - Ask Keith about miner pay and withdrawl order. Robs termination letter sent to John.

17APR2023 - Keith replied about withdrawl order pay. Brian Edwards was a no show for the MSHA training.

The following is the chat between Gage Wheeler and John Spears in the Maintenance chat group.

Gage Wheeler=Unknown User

Unknown User 2/14 11:24 AM

UU

No he doesnt almost all of it is a no go Well regardless of that i wasnt volunteering infomation heres two logicly reasons why  
1. why would i create more work for myself than i have to 2. I dont have to point anything out if there is anything wrong with anything hes gonna find it and write it up without the help from anyone.

2/14 11:26 AM

Amen to That!!!

Oh well, thanks for just noddng and agreeing with the inspector. That's all we can do.

Unknown User 2/14 11:33 AM

UU

Well just make myself absoltely clear i wasnt giving up any infomation voluntarily thats wasnt directly asked of me by the msha inspector

And the only thing thats was asked that i told him was about the Ground testing documentation

2/14 11:36 AM

Yep. I didn't think you did or would.

Unknown User 2/14 11:40 AM

UU

Gage Wheeler do not answer any questions about the that the MSHA inspector may have. Do not go into the mill. I'll be the person who talks to me inspector.

Then whats this about and when i asked about it john said he didnt want me volunteering information because of the question i asked about a certin code to keep our Business in complience with msha.

2/14 11:48 AM

Ah... makes sense.

Gage Wheeler Mike Peterson from Premier Tech is going to call you to help with the bagger.

Jordan Tidaback 2/14 11:49 AM

Hi Gage, we spoke with John about that. You are absolutely allowed to answer questions the MSHA inspector has (obviously). I think John may have meant don't just go up to him and point out everything under the sun. We've had people do that, knowing very well its an issue being worked on.

The Ops Mgr and maintenance person usually work hand in hand when the inspector is there so we can fix the simple things quickly on site before he leaves.

Hope that makes sense? I know having the inspector there makes for a tense environment, but you guys are a good team and we are all trying our best to get ahead of all the things that need fixed.

smith.elaine.m@dol.gov

Dear Ms. Laura Orielly,

Responding to the interrogatories, requests for production of documents, and requests for admission on behalf of Respondent American Tripoli:

### **INTERROGATORIES**

**INTERROGATORY NO. 1:** State the facts you contend support your claim that you did not violate Section 105(c) of the of the Mine Act, 30 U.S.C. § 815(c), by terminating Robert Baumann.

**ANSWER:** The termination of Mr. Robert Baumann was not related to his engagement in protected activities under the Mine Act, but rather due to his consistently poor performance and the necessity for an appropriate timing of a new hire to replace him.

1. **Performance Issues:** Throughout Mr. Baumann's employment at American Tripoli, there were ongoing documented performance issues that were discussed for months prior to his termination. These issues included concerns about his competence, work ethic, and ability to fulfill his role as a shift lead. The decision to terminate Mr. Baumann's employment was primarily based on his performance during his tenure at American Tripoli. Numerous personal notes and discussions over the months prior to his termination demonstrate that his job performance was consistently unsatisfactory. These records attest to his inability to perform his duties satisfactorily as a shift lead, including failing to ensure proper work was completed within his specified work group, missing deadlines, and displaying an inability to accept

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

Office (239) 829-5457

and provide feedback to his team members.

Mr. Baumann consistently demonstrated incompetence and a poor work ethic, as evidenced by the excessive number of citations received for his area of responsibility during his relatively short employment with American Tripoli.

2. **Replacements and Competency:** American Tripoli made multiple efforts to find a suitable replacement for Mr. Baumann. The hiring of Mr. David Daigle in April 2022 was part of these efforts. Unfortunately, Mr. Daigle resigned a week later. Subsequent hires in August 2022 (Mr. Will Shallenburger), November 2022 (Mr. Richard McClelland), and March 2023 (Mr. Alex Snodgrass) were also made in an attempt to replace Mr. Baumann, each candidate demonstrating greater competency and leadership skills than Mr. Baumann. It is important to note that it was Mr. Alex Snodgrass's hiring in March 2023 that seemed to signal to Mr. Baumann that his tenure was being challenged, leading to a further decline in his attitude.
3. **Proactive Safety Measures:** American Tripoli is committed to maintaining a safe and compliant work environment. We have established policies and procedures that encourage open communication and reporting of safety concerns by all employees, including Mr. Baumann. Active communication channels were in place for all miners to express their concerns regarding safety and compliance. During his tenure, Mr. Baumann and other miners were encouraged to bring forward safety issues, and the mine operator consistently took swift action to address these concerns.
4. **Absence of Official Engagement in Protected Activities:** It is imperative to emphasize that Mr. Baumann did not serve as a designated representative of miners, nor did he submit any relevant information to the MSHA District Manager or to the mine operator, as required by 30 CFR Part 40. Every miner possesses the right to engage and accompany an MSHA inspector during an inspection, as stipulated by the Miner's Act. However, it's important to clarify that mere participation in such activities does not automatically confer upon a miner the designation of a miners' representative. In his claim, he states that he served as a representative of miners in an official capacity. However, the mine operator had no prior knowledge of any such intent or stated performance. If the mine operator had been

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

informed of Mr. Baumann's desire to act as a miners' representative, they would have readily provided support and assistance to facilitate their involvement. This support would have included a more comprehensive briefing on the operations, ensuring that the designated person had the necessary insights to effectively address any inquiries from an inspector. This, another example of Mr. Baumann's lack of communication and leadership skills or experience. Regrettably, the mine operator was only made aware of Mr. Baumann's claim or supposed intention to serve as a representative of miners when the complaint was received by the commission. These points clarify the timeline and the lack of awareness regarding Mr. Baumann's purported role as a representative of miners and that his termination was entirely unrelated to protected activities under the Mine Act.

5. **Inconsistent Claims:** Mr. Baumann's current assertions about unaddressed safety concerns are inconsistent with the documented history of safety communication and resolution during his tenure. It is crucial to consider the inconsistency between his current claims and the historical record of safety communication and resolution within the company.
6. **Questioning the Timing:** We urge you to consider the timing of Mr. Baumann's claims about any unresolved safety issues. The mine operator offers numerous communication channels to express or bring forward and safety concerns. If Mr. Baumann had concerns, he did not utilize any of the available opportunities. Notably, he has only made any claims such claims after his termination. This timing raises questions about his motives and the credibility of his assertions.
7. **Notice of Termination:** Mr. Baumann received his notice of termination on April 17, 2023. It is notable that, as evidenced by the Kansas Department of Labor's rules and Unemployment Benefits Form 2023, Mr. Baumann applied for unemployment insurance benefits on April 16, 2023, potentially indicating his intention to quit the next day. Therefore, his termination was not related to his protected activities, but rather based on his poor performance.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- 
8. **Legal and Ethical Obligations:** The mine operator has a legal and ethical obligation to ensure a safe work environment for all employees. We remain committed to supporting employees' rights to report safety issues without fear of retaliation.

In conclusion, American Tripoli vehemently denies that Mr. Baumann's termination was in violation of Section 105(c) of the Mine Act. The decision to terminate Mr. Baumann was a result of his consistent poor performance, inability to fulfill his responsibilities, and the company's efforts to maintain the safety and efficiency of its operations, and not because of any protected activities he may have engaged in under the Mine Act. The proposed civil penalty is excessive and unwarranted, considering the specific circumstances of the case.

**INTERROGATORY NO. 2:** State the facts you contend support your claim that you did not violate Section 105(c) of the Mine Act, 30 U.S.C. § 815(c) by interfering with miners' rights at the MoSenecaMfr LLC dba American Tr mine, as outlined in Count II of the Complaint filed in this docket.

**ANSWER:** In response to Count II of the Complaint, which alleges interference with miners' rights under Section 105(c)(1) of the Mine Act, the Respondent vehemently denies the allegations and submits the following arguments and facts to refute the claim of interference.

**1. INTENT OF COMMUNICATION:**

The primary argument against the interference complaint centers around the intent behind Mr. John Spears' message to Mr. Gage Wheeler during the MSHA inspection on 14FEB2023. The message was not intended to interfere with miners' rights but rather to facilitate communication and ensure accurate information transfer to the MSHA inspector. We want to clarify that the communication on February 14, 2023, was directed to a specific miner, Gage Wheeler, and was not a message sent to all miners. Mr. Gage Wheeler, who had a history of being confrontational during past MSHA inspections. Therefore, it was crucial to address potential issues in communication. This communication has been included in the "ALL Communications regarding MSHA.pdf, 14FEB2023 - John message to Gage about MSHA inspector.png, 14FEB2023 - John message to Gage about

MSHA inspector 2nd part.png, 14FEB2023 - Russell message to John about not telling Gage to speak with MSHA inspectors.png" document for your reference. See folder "Request for Documents 20". Therefore, it was crucial to address potential issues in communication. This is a testament to the mine operator's commitment to ensuring smooth inspection processes.

**2. RESPECT FOR MINER RIGHTS:**

The Respondent reaffirms its unwavering commitment to respecting miners' rights to report safety or health issues to MSHA and to participate in inspections without interference. The mine operator has always upheld these rights and encouraged employees to express their concerns regarding safety and compliance without fear of retaliation. This commitment to miner rights was consistently maintained throughout Mr. Baumann's tenure, as well as during the MSHA inspection in question. There were no actions taken to undermine miners' rights to engage with MSHA inspectors.

**3. DISMISSAL OF INTERFERENCE CLAIM:**

The allegations in the interference complaint, as detailed in Count II, are not substantiated by concrete evidence or facts. While the complaint alleges that Respondent interfered with miners' statutory rights, there is no proof that Mr. Baumann was told not to speak with MSHA inspectors or that his rights were compromised in any way. Furthermore, the Respondent addressed any potential misunderstandings with miners, such as Mr. Gage Wheeler, to clarify that they were free to speak with MSHA inspectors. Mr. Gage Wheeler, having undergone MSHA training on miners' rights, confirmed that he did not feel that Respondent's message interfered with his rights.

In conclusion, the interference allegations in Count II of the Complaint lack substantial evidence and should be dismissed. The Respondent's actions have consistently been aimed at ensuring safety and compliance while respecting miners' rights. The complaint does not establish any violation of Section 105(c)(1) of the Mine Act. The proposed civil penalty is unwarranted in this case, as there is no basis for the interference claim, and the Respondent remains committed to maintaining a safe and healthy work environment.

**INTERROGATORY NO. 3:** Set forth the job duties, title and responsibilities of Robert Baumann while he was employed by Respondent, including the dates of his employment in each role.

**ANSWER:** Mr. Robert Baumann served as a Shift Lead at our facility from June 16, 2022, to April 17, 2023. As a Shift Lead, Mr. Baumann had specific responsibilities to ensure the efficient and safe operation of our mill facility. His duties and responsibilities included but were not limited to the following:

**Shift Lead Duties:**

**Oversee Mill Associates:** While Mr. Baumann was not a supervisor, he provided guidance and support to Mill Associates, ensuring they carried out their tasks efficiently and complied with safety and operational guidelines.

**Daily Assignment of Start-Up and Shut-Down Tasks:** On a daily basis, Mr. Baumann was tasked to assign and ensured the completion of start-up and shut-down tasks on the boards located in the breakroom, contributing to the mill's daily operations efficiencies.

**Rotation Schedule and Task Assignments:** Daily, Mr. Baumann was tasked to assign roles, follow rotation schedules, and delegate specific tasks to Mill Associates to ensure the smooth functioning of the mill.

**Time Tracking:** Mr. Baumann was tasked to maintain records of worked hours, paid time off (PTO), or unpaid leave for Mill Associates, which was crucial for time management and payroll purposes.

**Enforcement of Safety Procedures:** He was responsible for reminding Mill Associates to wear appropriate personal protective equipment (PPE) and collaborated with the Environmental and Safety Specialist to ensure compliance with MSHA and company safety regulations. Which he lacked tremendously and the citations received during his tenure exemplify this.

**Utilization of MS Teams for Collaboration:** Mr. Baumann was tasked to actively use Microsoft Teams to foster collaboration and communication among team members, contributing to a cohesive and efficient work environment for which he failed at.

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

---

**Control Room Backup:** He was tasked as the backup for the control room, which entailed operating the control room in the absence of the more experience Mill Associate.

**Control Room Operation:** In the absence of the more senior Mill Associate due to leave or other circumstances, Mr. Baumann was tasked for operating the control room, which is a mission-critical aspect of mill operations.

**Startup and Shutdown Procedures:** Mr. Baumann was tasked with the startup and shutdown procedures of the mill, ensuring they were executed according to established protocols.

**Collaboration with Quarry Associate/Operations Manager:** He was tasked to collaborate with the Quarry Associate and Operations Manager, specifically regarding material deliveries, crushing operations, and any material-related requirements for mill production.

**Mill Product and Production Supply Inventory:** Mr. Baumann was tasked to conduct monthly inventory counts for various supplies and materials, including bags, pallets, stretch wrap rolls, slip sheets, and oil, ensuring accurate records for operational purposes for which he failed at miserably.

**Shipping/Receiving Paperwork:** He was tasked in the preparation and verification of shipping and receiving paperwork, ensuring all relevant documents were complete and accurate. He also assisted truck drivers with paperwork-related inquiries and processing for which he struggled with the entire time.

**Mailing/Preparing Easy-to-Handle Bags:** Mr. Baumann was tasked with preparation of easy-to-handle retail bags, contributing to our efficient order fulfillment process for which his performance was so lacking that we were never able to get him to do this tasking.

**Quality Control/CILAS Reports:** He was tasked to run CILAS (Coupled Ion Chromatography and Light Scattering) reports after each grade of product was produced, maintaining quality control records. Again his performance was so lacking that we were never able to get him to do this tasking.

**Preventive Maintenance Schedule:** Mr. Baumann was tasked to collaborate with the maintenance team to update the preventive maintenance schedule as tasks were completed or needed to be added, ensuring the

Office (239) 829-5457

equipment's reliability and longevity. Again, his performance was so lacking that we were never able to get him to do this tasking.

Mill Parts/Supplies Requests: He was tasked to work closely with the maintenance team to identify and request necessary parts and supplies, including online searches and submission of quotes to the Operations Manager for approval and purchasing. Again, his performance was so lacking that we were never able to get him to do this tasking.

Additional Tasks: Mr. Baumann struggled with effectively completing the above tasks and responsibilities as requested by different departments, showcasing his flexibility and dedication to the smooth operation of the facility that he was not respected by his peers.

Professional Development Counseling: He was tasked to work with the Operations Manager to conduct professional development counseling sessions, focusing on the growth and development of Mill Associates. These, due to his poor performance, never happened.

While Mr. Baumann was a shift lead, not a supervisor, this role is instrumental in various aspects of mill operations. This detailed overview of his job duties during his employment at our facility accurately represents the nature of his role at American Tripoli.

**INTERROGATORY NO. 4:** If Respondent claims that a defense or affirmative defense is applicable to the claims at issue in this case, please identify each such defense and state with particularity the material facts supporting such defense.

**ANSWER:** While we understand the need for transparency and adherence to legal processes, we firmly contend that requiring the immediate identification of defenses with particularity may not be suitable for the complex and evolving nature of this case. It is essential to uphold the principles of fairness, due process, and the right to develop a comprehensive defense. We propose that the Respondent be allowed to identify defenses as the case unfolds, ensuring that both parties have an equal opportunity to present their positions

effectively. This approach will safeguard the integrity of the legal process while preserving the rights of all parties involved.

**INTERROGATORY NO. 5:** Set forth the reasons Robert Baumann was terminated, who participated in the decision to terminate Robert Baumann, and the date such decision was made.

**ANSWER:** The termination of Mr. Robert Baumann was based on well-established principles of employment and operational policies. The decision to terminate an employee is never taken lightly and is made in consideration of multiple factors, including the overall safety and efficiency of our operations. Below, we provide a general outline of the principles that guided Mr. Baumann's termination and the individuals involved in the decision.

**Principles for Termination:**

Mr. Baumann's termination was the result of several factors, including but not limited to:

- **Poor Performance:** Mr. Baumann's performance as a shift lead consistently fell below acceptable standards, demonstrating an inability to fulfill his role effectively.
- **Lack of Leadership Skills:** Mr. Baumann's performance was hindered by a lack of leadership skills, which were essential for his position.
- **Failure to Follow Procedures and Guidance:** Despite several attempts to address these issues through coaching, feedback sessions, and open communication channels, Mr. Baumann did not exhibit any signs of improvement in his performance or attitude.
- **Safety Concerns:** Safety is a paramount concern in our operations. Mr. Baumann's disregard for safety guidelines, and failure to take safety matters seriously, created an unsafe work environment for himself and his colleagues.
- Also following the Missouri Department of Labor Discharged Employees and Final Wages, Missouri follows the Employment-At-Will doctrine. This means that both the employer and

**Mailing Address:**

employee can terminate the employment relationship at any time and for any reason, as long as there is no employment contract to the contrary, there is no discrimination under civil rights laws (based on race, color, age, national origin, religion, ancestry, sex, or physical/mental disability), no merit laws apply, or the state's limited public policy exception does not apply. (<https://labor.mo.gov/dls/general/termination-final-wages>)

**Participants in the Decision:**

The decision to terminate Mr. Baumann was made collectively by management personnel within our organization. It is important to emphasize that the decision was based on a thorough assessment of Mr. Baumann's performance, through different managers' feedback, in alignment with established company policies.

**Date of the Decision:**

The decision to terminate Mr. Baumann was made in accordance with company protocols and procedures, and it was communicated to Mr. Baumann on April 17, 2023. It is important to note that termination is not an abrupt action but a culmination of ongoing discussions, evaluations, and attempts to improve an employee's performance over time.

In conclusion, the decision to terminate Mr. Baumann was based on general principles of employment and operational policies to ensure the safety and efficiency of our operations. We remain committed to safeguarding both individual rights and operational integrity while adhering to legal and ethical standards.

**INTERROGATORY NO. 6:** Identify by name, job title, job duties, dates of employment, phone number, email address, and home address, each individual employed by Respondent at the MoSenecaMfr LLC dba American Tr mine from June 1, 2022 through April 17, 2023.

**ANSWER:** Respondent provides the following information regarding individuals employed at American Tripoli from June 1, 2022, through April 17, 2023:

**REQUESTS FOR PRODUCTION OF DOCUMENTS**

1. Produce all documents identified or referred to in your answers to the interrogatories above.

**RESPONSE:** In response to your request for production of documents, we have provided attachments that include all documents identified or referred to in our answers to the interrogatories. Please find these documents attached to this response in the respective labeled folder. If you have any specific questions or require further clarification regarding any of these documents, please do not hesitate to reach out, and we will be happy to assist further.

2. Produce the documents related to the terminations identified in response to Interrogatory No. 7.

**RESPONSE:** In accordance with your request to produce documents related to the terminations identified in response to Interrogatory No. 7, You will find these letters in the attached document labeled '*Individual name* - date - Termination Letter' in folder labeled "Request for Documents 2". If you require any further information or have additional questions, please feel free to contact us for clarification or any other assistance needed.

3. Produce all documents which you contend support any claims or defenses you have or may raise to the claims at issue in this docket.

**RESPONSE:** In response to your request to produce documents that support any claims or defenses we have or may raise in this docket, we acknowledge the importance of transparency and cooperation in the legal process. While we understand your desire for particularity, it's crucial to note the complex and evolving nature of this case. Requiring the immediate identification of defenses may not align with the principles of fairness, due process, and the right to develop a comprehensive defense.

We propose an approach that allows both parties to identify defenses as the case unfolds, ensuring a balanced opportunity to present positions effectively. This approach will safeguard the integrity of the legal process while respecting the rights of all parties involved.

**Mailing Address:**

Office (239) 829-5457

We are fully committed to complying with our legal obligations and cooperating in the discovery process. As such, we are providing all relevant documents and will promptly provide any additional relevant documents as they become available and maintain open communication with your team. If you require specific documents or have further inquiries related to this request, please do not hesitate to reach out to us for clarification and assistance.

4. Produce the documents pertaining to any of Respondent's denials that it did not commit the alleged 105(c) violations set forth in the Complaint in this docket.

**RESPONSE:** In response to your request to produce documents related to any of our denials concerning the alleged 105(c) violations set forth in the Complaint in this docket, we understand the significance of transparency and adherence to the legal process. We are fully committed to cooperating and complying with our legal obligations.

We have provided the Operator's Answer, Document No. CENT 2023-0251 – Operator's Answer.pdf, to the complaint, located in folder "Request for Documents 4", and will continue to promptly provide documents related to any denials as they become available in the course of this legal proceeding. This approach ensures that both parties have equal opportunities to present their positions effectively and maintains the integrity of the legal process.

If you require specific documents or have further inquiries concerning this request, please feel free to contact us for clarification and assistance. We are dedicated to upholding the principles of due process and a fair legal process, and we look forward to working cooperatively with your team throughout the discovery process.

5. Produce Robert Baumann's personnel file.

**RESPONSE:** In response to your request for Robert Baumann's personnel file, please find attached the requested personnel file for Robert Baumann labelled "Request for Documents 5". This file contains all

---

relevant information regarding his employment, performance, and any related matters during his tenure with our organization.

We are committed to providing the necessary documents and information as part of our cooperation in this legal process. If you have any further requests, require additional information, or have any specific questions regarding the personnel file, please do not hesitate to contact us. We are dedicated to ensuring a transparent and fair process throughout the course of this legal proceeding.

6. Produce the documents showing all training provided to Robert Baumann while he was employed by Respondent.

**RESPONSE:** We acknowledge your request for all training records related to Robert Baumann during his employment with our company. Please be advised that Robert Baumann received mandatory training required by the Mine Safety and Health Administration (MSHA) during his tenure with our organization. This training includes but is not limited to new miner training and other MSHA-required safety and health courses.

It's important to note that our company primarily provides MSHA-mandated training, and any additional training is often self-driven or related to specific tasks and equipment operation.

We will provide all records related to the MSHA-required training received by Robert Baumann as part of this response. However, please understand that there may be limited records for additional training beyond MSHA requirements as most of his responsibilities were covered by the mandatory safety training. All presented and available 24/7 employee training, see the documents in the attached folder labeled "Request for Documents 6".

If you have specific questions or require further clarification regarding the provided training records, please do not hesitate to contact us. We are dedicated to ensuring transparency and compliance with all aspects of this legal proceeding.

**Mailing Address:**

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

7. Produce the documents showing all payments and compensation made to Robert Baumann by Respondent.

**RESPONSE:** We acknowledge your request for documents showing all payments and compensation made to Robert Baumann by our company. Please find attached the document 'Robert Baumann Payroll Detail 07.01.22-04.21.23.pdf,' in folder "Request for Documents 7", which contains the relevant payroll information for Mr. Baumann during his employment with us.

The attached document includes detailed payroll records, payment history, and compensation breakdowns, and it should address your request adequately.

We are committed to providing any additional information or clarifications you may require during the discovery process. If you have any further questions or need additional documents, please don't hesitate to reach out.

8. Produce the documents showing all benefits provided to Robert Baumann by Respondent, including insurance benefits, retirement benefits, and paid leave.

**RESPONSE:** We provided Robert Baumann with the opportunity to enroll in medical and dental insurance benefits; however, he chose not to apply for these benefits during his employment with us. Additionally, Mr. Baumann was offered a Red Wing boot voucher but did not utilize it.

For a comprehensive overview of Mr. Baumann's benefits, including insurance benefits, retirement benefits, and paid leave, please refer to the attached document labeled "American Tripoli Employee Handbook.pdf." This document outlines the summary of benefits made available to him during his employment with Respondent.

In addition, for Mr. Baumann's accrued paid time off, consult the attached document titled "Paid Time Off Accruals for Mr. Baumann.pdf." This document provides details about his paid time off accruals. Both of the above-mentioned documents are in folder labelled "Request for Documents 8".

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

9. Produce the documents showing the hours worked by Robert Baumann while he was employed by Respondent.

**RESPONSE:** Please find attached the document labeled "Robert Baumann Payroll Detail 07.01.22-04.21.23.pdf." located in folder labelled "Request for Documents 9". This document provides a detailed record of the hours worked by Robert Baumann during his employment with Respondent, covering the period from July 1, 2022, through April 21, 2023. The hours worked are accurately recorded in this document.

10. Produce your employee handbook and/or any other documents which set forth the conditions and/or terms of employment for employees at the MoSenecaMfr LLC dba American Tr mine in effect at any time from June 1, 2022 through April 17, 2023.

**RESPONSE:** See attachments Robert Baumann\_American Tripoli Position Offer Letter.pdf and the American Tripoli Employee Handbook.pdf in folder labelled "Request for Documents 10".

11. Produce the documents reflecting any discipline of Robert Baumann.

**RESPONSE:** We acknowledge that there were instances where disciplinary actions were taken concerning Mr. Robert Baumann; however, it is important to note that the company's disciplinary process, as outlined in the employee handbook, allows for flexibility in addressing employment issues. While the handbook provides for a progressive discipline process, it also clarifies that the company is not bound by a specific sequence and reserves the right to address matters promptly, in accordance with the "at-will" employment relationship. We are committed to providing any available records reflecting the disciplinary actions taken. Please note that while the "written" part of the progressive discipline process was not consistently documented, appropriate actions were taken to address the concerns and maintain compliance with company policies.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

12. Produce the documents reflecting any safety complaints made or safety concerns raised by Robert Baumann to any of Respondent's managers, owners or supervisors.

**RESPONSE:** While we take safety concerns seriously and maintain a robust system for addressing them, we do not have specific documentation of safety complaints or concerns raised by Mr. Robert Baumann. Our safety protocols encourage open communication, and our managers, owners, and supervisors are committed to promptly addressing any safety-related matters. While we have not found records of such complaints or concerns pertaining to Mr. Baumann, we emphasize that we actively encourage employees to report any safety issues, and we remain vigilant in ensuring a safe working environment. If any specific concerns emerge during the course of this case, we will promptly provide relevant documentation.

13. Produce the documents reflecting Robert Baumann's designation as a representative of the miners at the MoSenecaMfr LLC dba American Tr mine.

**RESPONSE:** Mr. Robert Baumann never provided any documents designating himself as a representative of the miners at the MoSenecaMfr LLC dba American Tr mine. The first indication of such a designation came to our attention when the complaint was received by MSHA. We have not found any records or documents related to Mr. Baumann's official designation as a miner representative.

14. Produce the native document, in its native format with all metadata, of the PDF document Respondent produced to MSHA during the investigation of this case titled "Rob Baumann-Notes".

**RESPONSE:** The PDF document titled "Rob Baumann-Notes" produced to MSHA during the investigation of this case is the native document in its original format. Mr. Tidaback's personal notes regarding personnel matters are periodically transcribed from a Rocketbook wipeable notebook he carries with him. The PDF provided accurately represents the content and format of the original notes.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

15. Produce Robert Baumann's "employee journal" or any other document where you kept notes and/or information about Robert Baumann and his job performance.

**RESPONSE:** The document titled "Rob Baumann Russell Notes.pdf" produced to MSHA during the investigation of this case is the employee journal or document where notes and information about Robert Baumann and his job performance were kept. Please refer to this document for the requested information.

16. Produce the "employee journal" or any other documents where you kept notes and/or information about employees employed by Respondent at the MoSenecaMfr LLC dba American Tr mine at any time from June 1, 2022 through April 17, 2023.

**RESPONSE:** The attached documents titled "Rob Baumann Russell Notes.pdf," "Christine Schreiber Russell Notes.pdf," and "Jim Hoover Russell Notes.pdf", see folder labelled "Request for Documents 16", are the employee journals or documents where notes and information about employees employed by Respondent at the MoSenecaMfr LLC dba American Tr mine from June 1, 2022, through April 17, 2023, were kept. Please refer to these documents for the requested information.

17. Produce the workplace examinations and/or workplace inspections from the MoSenecaMfr LLC dba American Tr mine from June 1, 2022 through April 17, 2023.

**RESPONSE:** The workplace examinations and workplace inspections conducted at the MoSenecaMfr LLC dba American Tr mine from June 1, 2022, through April 17, 2023, are contained in the attached document titled "Daily Workplace Inspections 1JUNE2022 - 17APR2023.pdf.", see folder labelled "Request for Documents 17". Please refer to this document for the requested workplace examination and inspection information.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

18. Produce the Microsoft Teams chats or messages involving any employee of Respondent, including owners, managers, supervisors, maintenance personnel, etc., regarding Robert Baumann's discrimination complaint, Robert Baumann's termination, Robert Baumann's job performance, safety related concerns or complaints raised by Robert Baumann, complaints about Robert Baumann, and/or Robert Baumann's workplace examinations.

**RESPONSE:** Producing the entire Microsoft Teams chats or messages involving any employee of Respondent, as specified in your request, is overly broad and would entail disclosing vast amounts of irrelevant information. Unfortunately, we do not have the capacity to retrieve messages from employees' accounts, as they are maintained on their individual devices. Also unless Mr. Baumann's name is specifically in the messages there is no way to search for generics. To maintain the integrity of the discovery process, we propose a more targeted approach.

Given that the only employees still employed by Respondent since the termination of Mr. Baumann are Mr. Williams, and Mr. Spears, we can provide group messages involving these individuals for the specified purposes. If you could kindly specify the date ranges, topics, or any other relevant details for these chats and messages, we will make a good faith effort to assist in obtaining any relevant messages. In the folder labeled "Request for Documents 18", there is a document titled "Communication between Jim are Russ regard Rob post 17APR2023.pdf", this running conversation points out Mr. Jim Hoover's opinions, distrust, aggravation and hassle when dealing with Mr. Baumann. Mr. Hoover was the most senior employee with over four years of experience at the mine site.

19. Produce the documents reflecting any "counseling and guidance" provided to Robert Baumann while he was employed by Respondent.

**RESPONSE:** While we acknowledge that counseling and guidance were provided to Robert Baumann during his employment, these interactions were primarily conducted verbally, and no formal written records were maintained. Any guidance or counseling discussions were aimed at improving his job performance, ensuring compliance with safety protocols, and fostering a better work environment. We

---

remain committed to maintaining open lines of communication and providing support to our employees as needed.

20. Produce the text messages, emails, Microsoft Teams chat, and/or any other communication from John Spears to any employees regarding MSHA inspections, including the February 14, 2023 message to miners regarding MSHA's inspection.

**RESPONSE:** All communications related to MSHA inspections and interactions with MSHA inspectors have been consolidated into a comprehensive document labeled "ALL Communications regarding MSHA.pdf." This document contains a thorough record of all communications, including Microsoft Teams chats, text messages, and emails exchanged between employees of Respondent at the MoSenecaMfr LLC dba American Tr mine concerning MSHA inspections and interactions with MSHA inspectors.

By consolidating these communications into a single document, we aim to provide a complete and organized account of our interactions with MSHA and MSHA inspectors. This approach is intended to streamline the document production process and ensure clarity in our responses.

If you have any specific questions or need further information regarding these communications, please do not hesitate to contact us. We are committed to transparency and open communication throughout this process.

21. Produce the text messages, emails, Microsoft Teams chat, and/or any other communication from and/or between Robert Baumann, Respondent, John Spears, Russell Tidaback, and/or Jordan Tidaback regarding the MSHA 104(b) Order issued on April 12, 2023 or payment during the withdrawal order.

**RESPONSE:** Please find attached the requested communications regarding the MSHA 104(b) Order issued on April 12, 2023, and payment during the withdrawal order, "Request for Documents 21". We wish to emphasize that, in full compliance with MSHA regulations and with a commitment to the well-

**Mailing Address:**

Office (239) 829-5457

being of our miners, Respondent promptly paid the miners as required by the 104(b) Order, without any delay.

1. Chat messages between Robert Baumann to John Spears and John Spears to Ms. Tidaback and Mr. Tidaback (labeled as "14APR2022 – Chat messages showing Robs misunderstanding regarding a 104(b) order and pay.pdf").
2. Email chain involving Mr. Markeson, Respondent, John Spears, and Russell Tidaback (labeled as "Email Chain w Markeson regarding miner compensation - RE\_ 12APR2023 - B Order #9539789 & 9539790.pdf").
3. Text messages between Robert Baumann and John Spears (labeled as "12APR2023 - Text message between Mr. Baumann and Mr. Spears regarding work and being paid.png").

These documents encompass the pertinent communications and discussions surrounding the MSHA 104(b) Order and issues related to payment during the withdrawal order. We would like to reiterate that all miners were paid appropriately and without delay in accordance with MSHA regulations. Should you require any further specific information or have additional inquiries, please do not hesitate to reach out.

22. Produce Respondent's disciplinary policy in effect at the MoSenecaMfr LLC dba American Tr mine at any time from June 1, 2022 through April 17, 2023.

**RESPONSE:** Our disciplinary policy in effect at the MoSenecaMfr LLC dba American Tr mine during the specified period can be found in the attached document titled "American Tripoli Employee Handbook.pdf.", see folder labeled "Request for Documents 22". The relevant information regarding our Progressive Discipline policy can be located in the handbook, specifically in the paragraph that addresses Progressive Discipline.

23. Produce the documents reflecting any discipline given to employees of Respondent at the MoSenecaMfr LLC dba American Tr mine at any time from June 1, 2021 through April 17, 2023.

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

**RESPONSE:** Please find the attached documents in labelled folder “Request for Documents 23”, which reflect instances of discipline given to employees of Respondent at the MoSenecaMfr LLC dba American Tr mine during the specified timeframe from June 1, 2021, through April 17, 2023. These documents provide details of the written disciplinary actions, including warnings, reprimands, counseling, and terminations, that were administered and recorded in accordance with company policies and procedures.

Attached documents:

26APR2022 Jena Turner Reprimand.pdf

7JUNE2022\_Camrin Bindle Relieving Letter.pdf

7JUNE2022\_Camrin Bindle - Termination Letter.pdf

Seneca, MO 64865  
Office (239) 829-5457

24. Produce the documents reflecting any communications, including Microsoft Teams chats, text message, emails, to employees of Respondent at the MoSenecaMfr LLC dba American Tr mine regarding MSHA inspections and/or any MSHA inspectors.

**RESPONSE:** All communications related to MSHA inspections and interactions with MSHA inspectors have been consolidated into a comprehensive document labeled "ALL Communications regarding MSHA.pdf.", in folder labeled "Request for Documents 24". This document contains a thorough record of all communications, including Microsoft Teams chats, text messages, and emails exchanged between employees of Respondent at the MoSenecaMfr LLC dba American Tr mine concerning MSHA inspections and interactions with MSHA inspectors.

By consolidating these communications into a single document, we aim to provide a complete and organized account of our interactions with MSHA and MSHA inspectors. This approach is intended to streamline the document production process and ensure clarity in our responses.

If you have any specific questions or need further information regarding these communications, please do not hesitate to contact us. We are committed to transparency and open communication throughout this process.

If you have any additional requests or require further documents related to this matter, please feel free to specify your needs, and we will do our best to accommodate them. Your understanding and cooperation in this matter are greatly appreciated.

25. Produce the documents discussing Robert Baumann's termination.

**RESPONSE:** We appreciate your request. We want to clarify that discussions related to Mr. Baumann's termination primarily took place in person or during video calls, which may not have generated electronic records.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

Office (239) 829-5457

---

Should you need further clarification or additional information, please feel free to contact us, and we will do our best to assist.

26. Produce the documents you intend to use at the hearing in this matter.

**RESPONSE:** We are fully committed to complying with our legal obligations and cooperating in the discovery process. As such, we are providing all relevant documents and will promptly provide any additional relevant documents as they become available and maintain open communication with your team. If you require specific documents or have further inquiries related to this request, please do not hesitate to reach out to us for clarification and assistance.

### **REQUESTS FOR ADMISSION**

1. Admit that the MOSenecaMfr LLC dba American Tr mine is a mine as defined in Section 3(h) of the Federal Mine Safety and Health Act of 1977, 30 U.S.C. § 802(h).

**ANSWER:** Admit. The operator acknowledges that the MOSenecaMfr LLC dba American Tr mine falls within the definition of a mine as provided in the Mine Act. This acknowledgment is consistent with the operator's understanding of its activities and operations. However, this admission should not be construed as an admission of liability or wrongdoing with respect to the allegations in this case. The operator maintains that its operations have consistently aimed to comply with the Mine Act and relevant regulations, ensuring the safety and well-being of its workforce.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

2. Admit that the products of the MOSenecaMfr LLC dba American Tr mine enter commerce or the operations or products thereof affect commerce within the meaning and scope of the Federal Mine Safety and Health Act of 1977.

**ANSWER:** Admit. The operator acknowledges that, in the ordinary course of its mining operations, its products may be intended for commercial use or distribution, and as such, they have the potential to enter or affect commerce. However, this acknowledgment should not be construed as an admission of liability or wrongdoing with respect to the allegations in this case. The operator maintains that its operations have consistently aimed to comply with the Mine Act and relevant regulations, ensuring the safety and well-being of its workforce and the quality of its products.

3. Admit that MOSenecaManufacturer Limited Liability Company d/b/a American Tripoli is the operator of the MOSenecaMfr LLC dba American Tr mine and was the operator of the mine from at least June 1, 2022 through April 17, 2023.

**ANSWER:** Admit. MOSenecaManufacturer Limited Liability Company d/b/a American Tripoli, herein referred to as 'the operator,' is the entity responsible for the operation of the MOSenecaMfr LLC dba American Tr mine. The operator acknowledges that it assumed the role of the mine operator at the specified mine location, and this responsibility was held from at least June 1, 2022, through April 17, 2023.

While the operator admits to its role as the mine operator during the specified time frame, it is important to clarify that this acknowledgment does not constitute an admission of liability or wrongdoing with respect to the allegations contained within the case. The operator is committed to maintaining a safe and compliant workplace for its employees and remains steadfast in its position that the actions taken during this period were in accordance with applicable regulations and without any intent to discriminate or infringe upon the rights of miners.

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

4. Admit that while Robert Baumann was employed by Respondent at the MOSenecaMfr LLC dba American Tr mine he was a “miner” as defined in Section 3(g) of the Mine Act, 30 U.S.C. § 802(g).

**ANSWER:** Admit. While Robert Baumann was employed by Respondent at the MOSenecaMfr LLC dba American Tr mine, he met the criteria to be considered a 'miner' under the definition provided in Section 3(g) of the Mine Act, 30 U.S.C. § 802(g). The operator acknowledges that Mr. Baumann was an employee involved in mining operations at the specified mine location during the relevant timeframe.

It is essential to clarify that the acknowledgment of Mr. Baumann's status as a 'miner' does not alter the operator's position that the actions taken regarding his employment were based on performance issues and not related to any form of discrimination or interference with miner's rights. The operator remains committed to providing a safe and compliant workplace for all its employees, including those meeting the definition of a 'miner' under the Mine Act.

5. Admit that Robert Baumann served as a representative of miners at the MOSenecaMfr LLC dba American Tr mine from March 21, 2023 through April 17, 2023.

**ANSWER:** Deny. The mine operator was not made aware of Robert Baumann serving as a representative of miners at the MOSenecaMfr LLC dba American Tr mine from March 21, 2023, through April 17, 2023. To the best of our knowledge and records, no formal notification or communication regarding Mr. Baumann's representation of miners was received by the mine operator during the specified period.

The mine operator is committed to adhering to all relevant regulations and compliance requirements under the Mine Act, including those pertaining to miner's representatives. In the absence of formal notice or awareness of Mr. Baumann's role as a representative of miners, the operator was unable to address any concerns or considerations related to his representation.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

It is crucial to clarify that the mine operator is dedicated to maintaining a safe working environment and complying with all applicable legal obligations. We welcome a comprehensive review of the facts and evidence related to Mr. Baumann's representation during the specified timeframe to ensure a just and equitable resolution.

6. Admit that the Federal Mine Safety and Health Review Commission has jurisdiction over this case under Section 105(c)(2) and 113 of the Mine Act, 30 U.S.C. §§ 815(c)(2), 823.

**ANSWER:** Deny. The mine operator contests the assertion that the Federal Mine Safety and Health Review Commission (FMSHRC) has jurisdiction over this case under Section 105(c)(2) and 113 of the Mine Act, 30 U.S.C. §§ 815(c)(2), 823. The mine operator believes that the actions taken, including the dismissal of the miner, were solely based on performance issues and not discriminatory in nature. As such, it is our position that the circumstances of this case do not fall within the purview of the aforementioned statutory provisions.

The mine operator strongly maintains that the miner's dismissal was a result of legitimate performance-related concerns in accordance with the established company policies, the state of Missouri guidelines and not a violation of any miner's rights under the Mine Act. Therefore, we contend that the jurisdiction of the FMSHRC does not apply in this case. However, we are open to a thorough examination of the facts and circumstances surrounding this matter to arrive at a just resolution.

JOHN SPEARS	OPERATIONS MANAGER

**Section E -** If you desire that a copy of all correspondence addressed to you from MSHA be provided to a representative (e.g. Union representative, attorney, etc.) please give his/her name and address to the right.

Please use MSHA form 2000-124, Discrimination Report, to provide a summary of your complaint explaining what discriminatory action was taken against you, including the date, the time, and location of the action. Explain why you believe this action was discriminatory, and describe the relief being sought (for example, reinstatement, back pay, etc).

# Discrimination Report

Mine Safety and Health Administration

Discrimination Complaint of name(s)  
ROB BAUMANN

Case Number

## Summary of Discriminatory Action

On 4/17/2023, I was terminated without cause. The letter that I was given stated that I was not doing satisfactory work even though I've never had any type of write up. I believe that I was terminated due to speaking with MSHA regarding various issues. I oversee employees and they were worried about their pay when the operation was shut down on 4/12/2023 and I questioned management about everyone's pay. They sent me a text on 4/16 to come in at 8:00 on 4/17/2023. Upon arriving for the meeting, John Spears handed me a termination letter stating that I had been let go effective immediately based on my job performance or lack thereof, when I had never had issues before.

I want to receive compensation from my last day of employment until I find a new position elsewhere. *plus 2 weeks pay*

Unknown User 4/13/2023, 3:07 PM

Correct me if I am wrong but based off the email we have to get everyone medically check which I will by tomorrow and get a PAPR...

Jessie Moles following up on your inquiry... yes, with the information provided yesterday, link to the CDC and the TLV chart with the filter references, we now understand where the PAPR systems come into play. If this information was presented clearly at the beginning we would have understood.

We ordered the 4 masks. Should be delivered Mon-Wed of next week.

Once we get the masks, from what I am reading, Page 32-33

<https://arlweb.msha.gov/regs/complian/ppm/PDFVersion/PPM%20Vol%20IV.pdf>

we can had the order modified to operate.

I am still a little grey on the whole air resample process, and am inquiring Mr. Pratt about it all...

but, until we get a air resample done by MSHA, the miners exposed will have to wear the PAPR masks. The others... Rob, Maintenance, John, you, etc, from what I understand, since you arent over exposed due to different positions and exiting the mill periodically throughout the day, do not need to wear the PAPR masks. Remember, its amount of exposure over an 8-hr period not instant exposure, like a chemical.

N95 paper masks, doors and windows open, and the exhaust fans on... we should be fine.

once we get the giliblator back from service, do an air sample and let Keith know that we'd like an air sample redone based on your recent readings.

Then everything should work its way out.

Then everything should work its way out.

With the masks, hand receipt them to the individual miner. The hand receipts go to John, so we can store these in their personnel folder.

The mill associates who were overexposed are responsible to bring the masks, filter and battery to you at the end of their shift and you'll charge the battery.

Lets make sure we have an SOP on proper use, cleaning, and storage of these masks. Especially the batteries. We dont want them plugged in and overcharging (destroying themselves).

We can store the masks and filters in the vault. but the batteries, need to be stored in the closet by the back door. Labelled accordingly so we know what they are next time we need them.

Once we get the all clear on the air sample fiasco. Lets make sure we properly account for them, clean them and put them in storage.

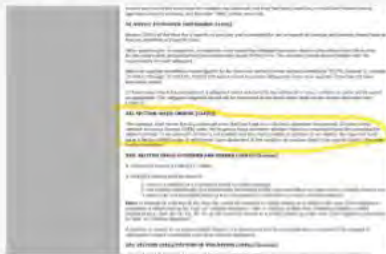

If need be, per the manufacture specs, creating a schedule to maintain them. Document this all in the Teams channel files.

Sir i just want to check for my understanding. A 104B order is not the same as a withdrawal order. I need to make sure i understand

4/14/23 10:06 AM

Yes that is my understanding as well. A 104 (b) is not a withdrawal order... a 104(d), 104(g), and a 107(a) ORDERS are withdrawal orders.

UU

Sorry just checking so many sources that i feel like differ or state different than others

4/14/23 10:09 AM

Oh no. I think you are doing a stand up job...

State to State will have different "guidelines".

Unfortunately, from an inspectors point of view, to protect yourself as an inspector, you need to be sure of your source and reference that source.

Unknown User 4/14/23 10:13 AM

UU

Working on making that SOP for the new PPE and gonna adjust the RPP to include the provided PFT test and new PPE. Also will upload these new med evaluations when they get back. Once I get this service code i can send in the Gilibrator so we can add that we do our own sampling and analysis into the RPP program

Hopefully they acknowledge that we are working on it

4/14/23 10:14 AM

yes, lets expedite the gilibrator service so the guys dont need the mask for too long.

Unknown User 4/14/23 10:14 AM

UU

I will send them a follow up email 🙏

4/14/23 11:50 AM

Jessie Moles thanks for including me in on emails to Keith... im responding now.

Unknown User 4/14/23 11:57 AM

UU

Of course

Was waiting for his responsec

4/14/23 2:55 PM Edited

As for the Withdrawal Order question... we will wait until we get clarification from MSHA.

I believe they are going to tell us that the 104(b) is a withdrawal order BUT they allowed us to work under certain guidelines.

Us sending mill associates home was because no production capability not because of the 104(b) order.

John Spears 4/14/23 2:56 PM

JS

Russell Tidaback 4/14/2023 2:55 PM

As for the Withdrawal Order question... we will wait until we get clarification from MSHA. I believe they are going to tell us that the...

Agreed.

"Production Lead, Seneca, MO" - Posted on April 17, 2023 Job Details \_ Indeed.com.pdf

Additionally, the mine operator utilized various online platforms, including Facebook community and job posting groups, to reach a broader audience for job postings and employment opportunities. These platforms were chosen to maximize the visibility of the job openings and attract potential candidates.

While the mine operator did post these job openings to replace Robert Baumann, it's important to note that records of job offers made to the numerous prospective employees who were not accepted with the intent to replace Robert Baumann were not retained by the mine operator. However, the mine operator can provide the names of the individuals who received job offers and subsequently accepted employment with the company:

Aaron Duke

Alex Snodgrass

David Dagle

Richard McClelland

Will Shallenburger

These individuals were extended job offers and accepted positions with the mine operator. Any additional details or documents related to these job offers or the hiring process can be provided upon further request.

**INTERROGATORY NO. 2:** To the extent you are making a financial hardship claim in this case, describe how the proposed penalties in this docket would affect Respondent's ability to remain in business, including a description of the current business climate as it relates to your business and how that has changed in the past two years. Such description should include any sales increases or decreases, opening/closing of different mines, and any unexpected expenses or loans.

**ANSWER:** In response to the interrogatory and regarding the financial impact of the proposed penalties, it is imperative to highlight the severe adverse effects that these penalties would have on American Tripoli's ability to remain in business. The current business climate has presented numerous challenges, and the imposition of substantial penalties would exacerbate the company's precarious financial situation.

Over the past two years, American Tripoli has faced several significant challenges that have strained its financial stability. These challenges include:

Employee High Turnover and Quiet Quitting: American Tripoli has experienced a high turnover rate among employees, with over 30 employees leaving the company since June 2021. This level of turnover is exceptionally high for a small company that typically employs 12-15 workers. The phenomenon of "quiet quitting," where employees disengage and become less productive, has also been a significant concern.

Impact of COVID-19: The aftermath of the COVID-19 pandemic has had a lasting impact on the business. The pandemic disrupted the labor market and created uncertainty in the workforce, making it challenging to attract and retain skilled workers.

Supply Chain Disruptions: The global supply chain disruptions in 2022 further compounded the challenges faced by American Tripoli. The costs of building a new mill, which might have allowed for expansion and increased revenue, were estimated to be prohibitively high, hindering any expansion plans.

Operational Shutdowns: The company has experienced prolonged operational shutdowns due to ongoing MSHA inspections and enforcement actions. These interruptions have cumulatively resulted in approximately 12 weeks of downtime, during which the company missed out on an estimated \$3,000,000 in revenue-generating operations. The company has asked the district numerous times for assisted visits to help us but to no avail.

Accumulated Debt: American Tripoli is currently burdened with a debt of approximately \$900,000, not including the \$2,000,000 balance on notes acquired to purchase the business.

Given the aforementioned challenges and the delicate financial state of the company, the proposed penalties in this docket would have a devastating impact on American Tripoli's ability to remain in business. These penalties would further exacerbate the company's debt burden, potentially pushing it towards bankruptcy.

The imposition of substantial fines by MSHA would strain the already limited financial resources, making it increasingly difficult for American Tripoli to meet its financial obligations, retain employees, and continue its operations. The company urges a thorough consideration of these

extenuating circumstances and the potential dire consequences of imposing such penalties.

### DECLARATION

I, RUSSELL TIDABACK state that I am authorized to answer the foregoing interrogatories on behalf of MoSenecaManufacturer Limited Liability Company d/b/a American Tripoli. I have read the foregoing interrogatories and answers thereto and know the content thereof. Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing answers to the interrogatories are true and correct.

## **REQUESTS FOR PRODUCTION OF DOCUMENTS**

1. Produce all documents identified or referred to in your answers to the interrogatories above.

RESPONSE: The inquiry and request for information regarding Interrogatory No. 1. To assist you in obtaining the necessary details related to this matter, we kindly direct your attention to the uploaded documents contained in our case file. These documents are organized into folders labeled "Interrogatory 1" and "Interrogatory 2."

For your convenience and to facilitate your review, we have included the relevant documents in the respective folders as follows:

Interrogatory 1 Folder:

June 13, 2022 - Robert Baumann Application - Candidates \_ Indeed.com.pdf

August 1, 2022 - Production Controller, Seneca, MO - Job Details \_ Indeed.com.pdf

August 1, 2022 - Production Control Manager, Seneca, MO - Job Details \_

Alex Snodgrass Resume.pdf

David Daigle Employment Offer Letter.pdf

Richard McClelland\_American Tripoli Position Offer Letter.pdf

Will Shallenburger - American Tripoli Position Offer Letter.pdf

Interrogatory 2 Folder:

MOSENECAMANUFACTURER LLC - 2021 Balance Sheet.pdf

MOSENECAMANUFACTURER LLC - 2021 Income Statement.pdf

MOSENECAMANUFACTURER LLC - 2021 Tax Returns.pdf

MOSENECAMANUFACTURER LLC - 2022 Balance Sheet.pdf

MOSENECAMANUFACTURER LLC - 2022 Income Statement.pdf

MOSENECAMANUFACTURER LLC - 2022 Tax Returns.pdf

MOSENECAMANUFACTURER LLC - 2023 Balance Sheet.pdf

MOSENECAMANUFACTURER LLC - 2023 Income Statement.pdf

These documents contain relevant information pertaining to the job postings, hiring process, and financial records as outlined in Interrogatory No. 1 and Interrogatory No. 2.

We encourage you to refer to these documents to access the specific details requested.

Should you require any further clarification or additional information, please do not hesitate to reach out to us. We are committed to providing a comprehensive and accurate response to your inquiries.

2. Produce documents reflecting the final paycheck provided to Robert Baumann, including any associated pay stub.

RESPONSE: We have reviewed our records and have identified that the requested document labeled "Robert Baumann Payroll Detail 07.01.22 - 04.21.23 (1).pdf" was already included in our initial response within the "First Interrogatories Responses" submission. This document was attached for your reference in that submission.

3. Produce records of hours worked by Baumann on a weekly or bi-weekly basis, including any pay stubs showing hours worked for each pay period.

RESPONSE: We have reviewed our records and have identified that the requested document labeled "Robert Baumann Payroll Detail 07.01.22 - 04.21.23 (1).pdf" was already included in our initial response within the "First Interrogatories Responses" submission. This document was attached for your reference in that submission.

4. Produce each pay stub related to each payment made by Respondent to Robert Baumann.

RESPONSE: Upon reviewing your request, we have noted that Request Number 4, which seeks "each pay stub related to each payment made by Respondent to Robert Baumann," appears to be a duplicate of Request Number 2, where we have already provided the requested document labeled "Robert Baumann Payroll Detail 07.01.22 - 04.21.23 (1).pdf."

To avoid redundancy and to streamline the document retrieval process, we kindly refer you to our response for Request Number 2, where you will find the document you are seeking. This document includes the necessary information related to Robert Baumann's pay stubs during the specified period.

5. Produce Respondent's No Gossip Policy or any similar policy and/or procedure regarding gossiping, including any documents regarding when this policy was implemented.

RESPONSE: The request for the production of documents, specifically regarding Respondent's No Gossip Policy or any similar policy and/or procedure related to gossiping.

We would like to inform you that the No Gossip Policy, which you have requested, was discussed and implemented at our organization with due consideration for guidelines set forth by the National Labor Relations Board (NLRB). Our intention in crafting this policy was to ensure a productive and respectful work environment, in compliance with the law and the protection of our employees' rights.

The No Gossip Policy was introduced during an employee meeting on 9th August 2022. This policy aligns with the NLRB's rulings and adheres to their guidelines, which we take very seriously. We recognize the importance of allowing employees to discuss work-

related matters, including wages, benefits, and terms and conditions of employment, without interference or discouragement.

To maintain clarity and transparency, our policy clearly is not intended to discourage concerted activity or the discussion of working conditions. It provides specific examples of prohibited conduct, such as abusive and profane language towards another individual not present or in a negative light, to ensure that our employees understand the boundaries of respectful communication.

Additionally, the policy avoids overly broad or ambiguous language, as we understand that ambiguous rules can be construed against the employer. We have taken care to define permissible conduct clearly to encourage a safe and open workplace environment where employees feel comfortable discussing protected activities.

Please see the file labeled “No gossip letter.pdf”.

6. Produce the original documents, including the Word documents, Excel spreadsheets, Microsoft Teams Notes from which such PDF’s originated, with all metadata intact for the following documents you produced in response to the Acting Secretary’s First Requests for Production of Documents: Carson Allman – 4NOV2022 -Termination Letter; Terry Newborn – 4NOV22 Termination Letter; Christine Schreiber Russell Notes; Jim Hoover Russell Notes; Daily Workplace Inspections 1JUNE2022 – 17APR2023; American Tripoli Employee Handbook; Robert Baumann\_American Tripoli Position Offer Letter; and 13OCT2022- Carson Allman – Letter of Reprimand.

RESPONSE: We appreciate your follow-up request regarding the production of original documents, including Word documents, Excel spreadsheets, and Microsoft Teams Notes, along with all metadata intact, for the documents previously provided in response to the Acting Secretary's First Requests for Production of Documents.

As you are aware, we take your requests seriously and have been diligently working to ensure full compliance with your inquiry. It's important to clarify that the documents you have listed, including termination letters, notes, workplace inspections, our Employee Handbook, position offer letters, and letters of reprimand, were provided in PDF format as part of our initial responses.

Regrettably, the documents you requested were initially produced as PDFs, and they were not originally created as Word documents or Excel spreadsheets. Additionally, the information contained in our Microsoft Teams Notes is not stored in a format that allows for direct extraction as Word or Excel documents.

Given the nature of these documents and the format in which they were originally created, we trust that the provided PDFs accurately represent the content and intent of the materials requested. However, if you require any specific information or additional details related to these documents, we are more than willing to assist you in any way possible to address your needs.

7. Produce the training documents you allege were used to provide New Miner Training to Robert Baumann on July 5, 2022.

RESPONSE: In response to your request for the production of training documents related to the New Miner Training provided to Robert Baumann on July 5, 2022.

The New Miner Training for Robert Baumann on July 5, 2022, was documented by Bonnie Bainter, our Safety and Environmental Specialist at the time. Mrs. Bainter followed the established training protocols and utilized a variety of training materials and documents to ensure that Mr. Baumann received comprehensive training in compliance with the required subjects.

It is important to note that during the New Miner Training sessions, trainers like Mrs. Bainter often employ a range of training aids, presentations, and reference materials to cover the necessary topics thoroughly. These training aids and documents may include, but are not limited to, written materials, presentations, handouts, safety guidelines, and other instructional resources. All the training files the company maintains were submitted in the first response files.

Given the dynamic nature of the training process and the need to adapt to participants' questions and specific needs, it is challenging to identify and isolate specific training documents that were utilized during a particular training session. Each instructor may use their own resources that fits best for their class and attendees. Furthermore, our training records encompass a wide array of subjects, which are part of the standard curriculum for New Miner Training, the specific subjects required by MSHA.

While we maintain records of training sessions, including signed forms such as the MSHA 5000-23, we do have a specific set of documents that represents the materials that could have been used during Mr. Baumann's training session on July 5, 2022. The training process is dynamic and customized to address the unique circumstances and questions that may arise during each training session. We would not have a record of the specific questions Mr. Baumann may have asked during the training that may have directed Mrs. Bainter to utilize different training resources.

However, we would like to highlight that Mr. Baumann verified his completion of the documented training by signing the MSHA 5000-23 form, which attests to his acknowledgment of having received the training and his understanding of the subject matter covered during the session on 07/05/2022. This form is a standard practice in our

training procedures, ensuring that employees acknowledge their training and affirm their commitment to safety.

We want to assure you that our commitment to safety and training is unwavering, and we take all necessary steps to ensure that our training programs comply with MSHA regulations and provide our employees with the knowledge and skills required for their roles.

8. Produce documents reflecting the Paid Time Off or vacation leave Baumann had accrued as of April 17, 2023, and any documents reflecting any payments to Baumann for any such accrued Paid Time Off or vacation leave.

RESPONSE: Upon reviewing your request, we have noted that Request Number 8, which seeks "reflecting the Paid Time Off or vacation leave Baumann had accrued as of April 17, 2023", please see document labeled "Robert Baumann Payroll Detail 07.01.22 - 04.21.23 (1).pdf."

9. To the extent you are making a financial hardship claim in this case, produce the following financial records for Respondent:

- a. Respondent's state and federal tax returns for the past three years.
- b. Any Tax Form K-1 for American Tripoli from the past three years.
- c. The balance sheets for Respondent, including year-end assets and liabilities of Respondent from the past three years.
- d. Income Statements, showing all revenue and expense items for Respondent from the last three years.
- e. Respondent's most recent auditor's report and footnotes, including details about the methods used to compile the accounting data.
- f. Any bankruptcy petition(s) filed by Respondent.

- g. Chart of the accounts, disbursements ledgers, journal entries, and general ledger, and accounting work papers for Respondent since June 2021.
- h. Documents showing any loans made to owners or managers of the company from Respondent from the past three years.
- i. Transfers of funds from Respondent to related companies or owners from the past three years.
- j. Transfers of funds from Respondent to any entity owned by any owner of Respondent from the past three years.

RESPONSE: In response to Request for Production No. 14 and in accordance with the financial hardship claim made in this case, please note that while American Tripoli is committed to providing the requested financial records, some records may not be immediately available, and the production timeline may vary depending on the complexity and availability of the documents. American Tripoli will make a good-faith effort to produce the requested financial records in a timely manner. If you have any further specific requests or need additional information, please feel free to contact us to facilitate the process.

10. Produce an unredacted, complete copy of Russell Tidaback's Microsoft Teams' communications with Jim Hoover from April 17, 2023 through May 7, 2023.

RESPONSE: Please see the following chat:

April 17

4/17 10:51 AM

Changes made. Hopefully you like them.

Jim Hoover 4/17 12:36 PM

What you mean

4/17 12:53 PM

We are making a change... or have made a change.

Unfortunately, we had to let Rob go today. The data shows he wasn't meeting the daily quotas, or responding to John's suggestions and advice.

So... we are going to change how we operate.

When we get back to producing... probably Wednesday... We will have you run the control room.

YOU HAVE TO UNDERSTAND, the daily quota, per the production schedule is 42k lbs per day.

Some days it's 40k, some days 42k...

We cannot keep pushing production days back, and back, and back...

You won't have to do the computer work...

this will be for the Production Assistant...

The production assistant will be responsible for the administrative computer work. You will need to inform this person on how what was produced, how many bags produced, weights, etc. But this can be communicated via Teams.

or in person

each day

Jim Hoover 4/17 1:10 PM

Wait what are we talking about brother..

Jim Hoover 4/17 1:26 PM

So I'm guessing we are going to come to some sort of negotiation because from a year ago or even from June 15 two years ago I have learned more than you can imagine and worked with John on several projects and I know the mill office and I take maintenance to what needs fixed every time I know the flow of the product and will and can do anything in the mill that you ask and have so I want the mill running like it was a year ago and I know I can get those numbers without a doubt when John and I and RJ was running and I had John sit in the mill and had 20 pallets at lunch, it has been held back so we will need to talk before then, I am very confident and what can be produced at this mill.

Jim, you kill me sometimes with these conversations... I have to assume you are referencing a pay increase.

A promotion in pay should be when you have proven yourself in a certain position.

We gave you a promotion last time to do certain things... and you didnt do so well at all of the expected tasks.

Then we had to hire Rob. We didnt want to take pay away from you so we left you at the \$20 /hr.

Now, we are making changes to accomodate or address your short comings with leadership of people, organization, and lack of computer skills.

You wont be managing people. You wont be responsible for using the computer. You will only be responsible for daily production of product, per the production schedule.

Im not saying that you cannot get a pay increase BUT we need you to be successful in this newly assigned position for you to earn a pay increase.

lets give yourself 12 months in this position, successfully meeting the production calendar quotas, getting product successfully out the door, working with John and the rest of the team, again successfully... THEN we can talk about a pay increase.

Jim Hoover 4/17 5:58 PM

So this 12 months again with the mill production like the last time around it wasn't the problem me running the mill that was the problem brother and you know that and so do I also you didn't fill your side of the deal within 90 days like you said . I let that go because I knew you wouldn't hold up your side of the deal. I always bend over backwards to you and Jordan to help you guys and I. The very first meeting you told us we wouldn't go backwards and that is all that has happen accept the boots you have done that for us better but I just bought a different pair because the ones I got from red wings suck. you said we wouldn't go backwards and my pay has my insurance has nothing has went up my pay should of never went down period you have hired maintenance people after maintenance and then they watch me do there job and they are making more than I am for some reason I shouldn't be making less than what I was 2 years ago now for sure I have learned 10 times what I knew 2 years ago when you bought this company and what have I got for this like you said more I learn the better pay comes with learning I got the little mac air problem.fixed back to where it was after 8 maintenance guys look at it and still didn't fix it I run and go right to the problem everytime boss and do everything that you would expect me to do it as loyal to you guys as they come but damn. I know you don't have money coming in I understand that and you have a scroll not paid for but I go in and give my all to keep hour business going. you taking me out of control room and putting rob in there caused more problems than you realize and I'm sure there will be more to come from that with him. he wasn't going to push to get a high count for you and push the fuck to get caught up there were days he didn't have shit running until I saw something then I would go fix it and then go tell him .

Jim Hoover 4/17 6:06 PM

I have done the mill for a year and I can run it great no questions ask so I think the negotiation that you have just told me isn't correct at all considering the things I do for you and Jordan. im not mad or pissed boss but I do things you don't even know about to keep this place going because one I love my job and two I want this place to be here a whole long ass time after im done and gone you need Saturdays im there you need Sundays I would be there you known will do whatever it takes to get us caught up...

Jim Hoover 4/17 6:12 PM

I'm not arguing with you but we are going to talk about this brother because this isn't a one sided conversation and there why you and I talk and why we are a great team.. I'm not mad or pissed boss but you just assume the worst out of me u guess when we talk.. Rob fucked you over so many times but if I would of told you that you wouldn't of listen to me would you the next one to go needs to be Ronald he calls msha every freaking day and it's bullshit

Worthless

Jim Hoover 4/17 6:19 PM

Anyway I will let you be boss im.sure you are busy, but we need to discuss what you want from me since you just put someone else in there that shouldn't of been there in first place and never lifted a finger to go and find the problem or the solution to fix it.. Anyway I will let you go and we can talk later I have worked with John 7 months and everytime I have ran this mill when rob was gone I got better numbers and know the numbers you want are reachable that is if equipment holds up which I think will just need to get the motor and that would help ten fold

Talk to you later brother

4/17 6:59 PM

Yep, now out of all that. Prove yourself, and let's get things done.

April 19

Jim Hoover 4/19 8:48 PM

This is some shit boss

4/19 8:49 PM

Yes it is!

I am trying my best to get you guys back to work brother.

Jim Hoover 4/19 8:50 PM

If I would of told you this shit was going to happen would you of believed me

4/19 8:50 PM

no, because this should have never happened

what you guys don't see is that we requested an extension...

to resolve these issues when the citation was given to us.

we requested this the day of the citation.

Jim Hoover 4/19 8:51 PM

I'm talking as this whole bullshit mega

Msha

Someone that was making it worse

Is what im talking about

4/19 8:52 PM

as we knew it was going to take longer than a week to complete...

what? I don't know what you are referring to.

Jim Hoover 4/19 8:52 PM

Fueling the fire

4/19 8:52 PM

?

Jim Hoover 4/19 8:54 PM

Not getting numbers , licking main down instead of just locking tube mill out. you lock it down we don't run didn't have to lock mains down

Locking mains

4/19 8:54 PM

Are you referring to Rob?

Jim Hoover 4/19 8:54 PM

Yes

4/19 8:55 PM

yea I don't understand that who thing either...

to me, that was dumb on both Rob and the inspector...

there is a whole big case building on on this...

I've already got Senators involved and the heats coming...

they are fucking with your guys livelihood and that is wrong!

this is fucked up

I am fighting every single citation given...

I am doing everything I possibly can to get you guys back to work and us producing...

Jim Hoover 4/19 8:58 PM

Boss I was trying to tell you straight up months ago but you wouldn't of believed me but out of everyone there you should know my loyalty by now

4/19 8:59 PM

I've never questioned your loyalty Jim.

Jim Hoover 4/19 8:59 PM

The dust collector is firing like a mother fucker

Like awesome as fuck

I haven't heard it fire that good in long time

Every 24 seconds

4/19 8:59 PM

that's good... now we just need to get past this air sample

as we've discussed before... maintenance has been the problem... since day one!

Jim Hoover 4/19 9:00 PM

Donaldson every four seconds and little mac every five seconds.

We just need the big mac firing I think it needs a memory board

4/19 9:00 PM

MSHA just compounds the problem 10x but not working with us and being fucking dicks

Jim Hoover 4/19 9:01 PM

100% agree

4/19 9:01 PM

This Keith jackass... he gets his jolly off handing out citations....

this fucker is a snake. When he's around, you'd better watch what you say and do...

he is out to fuck you or anyone else he can

Jim Hoover 4/19 9:02 PM

That is bullshit and you tell me how rob test came back the worst and full of shit you know and I know that was done on purpose and he didn't ever get dirty

4/19 9:03 PM

I don't know what was up with Rob. Why was he disgruntled?

Jim Hoover 4/19 9:03 PM

I don't talk to him really msha guy

4/19 9:03 PM

I don't get it...

I talked to Rob repeatedly about having the doors and windows open and the exhaust fans on...

I don't understand why he just didn't do as he was told...

John and I had been discussing him and counseling him for months now...

Jim Hoover 4/19 9:06 PM

I will tell you this I have went around behind and have had to turn on green dust collector green air compressor he doesn't turn on in order and that is how shit has got tore up and im being dead serious

That's was a lot of the problem

4/19 9:06 PM

then we had a guy who was suppose to replace him... he was supposed to start Monday and the fucker didn't show up for the training or call or respond to calls... nothing.

I knew Rob was lacking... but didn't know it was that bad.

I don't like letting people go but at some point... you just gotta cut the cord

this is why I think the best thing to do is ha e you in the control room... possibly the 6am-230pm shift like we talked before...

Jim Hoover 4/19 9:08 PM

You can't start the flour elevator first thing man he was doing that I said rob it's going over the screens and screens aren't moving yet he said he was doing it that way I said well your going to fuck it up

4/19 9:09 PM

have a shift lead do all the shipment QC, time keeping, computer work etc...

good point about the flour elevator

that might be why the screens deteriorated so fast...

holding the weight of the cold material...

ripping the edge...

until the system heated up...

Jim Hoover 4/19 9:11 PM

There is a order to do this shit and it's in place for a reason I turn on and turn off same way everyday no questions ask and it doesn't take one hour and thirty minutes to clean out it takes 20 minutes period (FACT) .

That is correct

I would go up there and blow of that shit to get what we got

4/19 9:12 PM

Jim Hoover 4/19/2023, 9:11 PM

There is a order to do this shit and it's in place for a reason I turn on and turn off same way everyday no questions ask and it doesn't

Yep, I agree. I believe Rob was just being lazy

We will fix this...

I believe we learn from each new person we go through there...

Jim Hoover 4/19 9:13 PM

I was fighting a battle that shouldn't of been there you know

4/19 9:13 PM

Jim Hoover 4/19/2023, 9:13 PM  
I was fighting a battle that shouldn't of been there you know  
I know now...

we are going to try things different now...

Jim Hoover 4/19 9:13 PM  
That's why I would take off running to top floor and unclog shit  
🔥 1  
Number one priority shit has to be hot

4/19 9:14 PM  
to get better you have to make mistakes and learn from them.

Jim Hoover 4/19/2023, 9:14 PM  
Number one priority shit has to be hot  
exactly

Jim Hoover 4/19 9:15 PM  
I told him a thousand times rob it has got to be hot if that yellow pipe  
is not hot you will have problems he didn't understand hot  
🔥 1  
I took Jeremy over to pipe said put hand on this you want to know the  
secret about Tripoli this is it, he said fuck that is hot as fuck I said that's  
the secret lol

4/19 9:17 PM  
I don't think he or anyone else (MSHA fuckers) are understanding that  
when it's hot, the material flows like water and doesn't create a lot of  
dust in the air.

Jim Hoover 4/19/2023, 9:16 PM  
I took Jeremy over to pipe said put hand on this you want to know  
the secret about Tripoli this is it, he said fuck that is hot as fuck I...  
yep... that is the secret!  
but we need to be efficient with the heat... we spend anywhere  
between \$8k - \$20k a month on natural gas for that heat.

Jim Hoover 4/19 9:18 PM  
That's the difference between rob and me he didn't understand the  
material or the flow of the product or what breaker fixed what and so  
on you know you got to know that to run the mill .

4/19 9:19 PM  
I don't think he was taking the time to learn it either...

Jim Hoover 4/19 9:19 PM  
Once it gets hot you back down to where the percent can be as low as  
60% and still hold best

4/19 9:19 PM  
I think he had the best intentions at first but something feel apart.  
What? I don't know.

Jim Hoover 4/19 9:19 PM  
Heat

4/19 9:19 PM  
Jim Hoover 4/19/2023, 9:19 PM  
Once it gets hot you back down to where the percent can be as  
low as 60% and still hold best  
yep, I agree.  
If we make it through this MSHA bullshit and get back to producing...  
part of our plans before it gets cold again is to enclose the classifier  
elevator etc outside...  
To retain the heat when it's cold outside...  
this winter was a bitch...

Jim Hoover - 4/19 9:21 PM

Jeremy is smart as hell to fixing shit and working on it for real I like the hell out of him we worked on dust collector today sharp he worked out on oil rigs where my brothers did but at different times

Boss I will be honest with you if you don't mind me saying

4/19 9:22 PM

That's cool. I like him too, I just hope he isn't a sprinter and can keep up the work ethic for the long haul

Jim Hoover - 4/19/2023, 9:22 PM

Boss I will be honest with you if you don't mind me saying

yes, this is a private chat, I always want you to be honest with me.

I may not do as you say or think that I should do but I do appreciate your input.

Jim Hoover - 4/19 9:24 PM

We never EVER took days off because cold its been below zero and the shit ran just fine we just have to have people get their earlier and tube mill running early to get hot

We have got to get the dry insulated this summer at some point

4/19 9:25 PM

I do not like to make decisions solely based on my opinions, I want feedback so I can make the best decision I can

Jim Hoover - 4/19/2023, 9:24 PM

We never EVER took days off because cold its been below zero and the shit ran just fine we just have to have people get their earlier...

I agree

Jim Hoover - 4/19/2023, 9:25 PM

We have got to get the dry insulated this summer at some point

I agree... the maintenance team and John are discussing it.

Jim Hoover - 4/19 9:29 PM

I promise you we do not need to shut down if its below 45 that's crazy talk the tube mill needs to be running everyday possible including Saturdays tell these orders are caught up my opinion just saying Sundays if need be but these customers have waited long enough damn brother 6 months who is going to wait 6 months from something to be delivered from Amazon NO ONE!! SO Let's get this shit out the door

❤️ 1

That's what I think about all this bullshit going on

🔥 1

Jim Hoover - 4/19 9:40 PM

Boss the palletizer I know you don't like it because old and all but less than a year ago I packed and put 140 bags a hour on myself that's why I know the numbers, also I will tell you this if we stack five highs on the palletizer two people would have to be down there and I would have to stop bagging because they couldn't keep up man couldn't keep up with the machine so I know 100 percent that is not the problem yes it's old but that bitch will run you just have to love on her you know

4/19 9:47 PM

its not that I dont like the palletizer... its just hard to get replacement parts for.

Jim Hoover - 4/19 9:49 PM

She will run if we take care of her

4/19 9:49 PM

Just like this motor... there were none available when ours went bad. There was one available but no gear...

Jim Hoover - 4/19 9:49 PM

Just like tube mill it will last as long as we take care of her you know

4/19 9:49 PM

I have found a couple but they are the 3HP and not the 5HP.

Jim Hoover 4/19/2023, 9:49 PM

Just like tube mill it will last as long as we take care of her you know

I know... the problem since we bought the company has been maintenance personnel.

plain and simple

Jim Hoover 4/19 9:50 PM

Jeff had one ordered but not sure where he had it ordered from

Correct

Motor for palletizer

4/19 9:51 PM

we have a good team now... we just need to get through the MSHA BS... understand WHY I tell you guys to do the shit on the board in the breakroom....doors and windows...

and get back to producing...

It isnt that we dont have Sales... we have plenty of sales....

we just cant seem to get a break on the production side,

Jim Hoover 4/19 9:52 PM

Oh I know we could have more if you open the flood gates

👍 1

4/19 9:52 PM

Common sense would tell you... no product going to the customers means no money coming in to replace equipment, parts, etc

Jim Hoover 4/19 9:52 PM

But producing is killing us and msha

I agree

4/19 9:52 PM

Jim Hoover 4/19/2023, 9:52 PM

Oh I know we could have more if you open the flood gates

OH YES WE COULD!!!

This is why we need to follow the instructions given... to make sure MSHA stays off our back

so we can produce...

Jim Hoover 4/19 9:54 PM

I know your philosophy I believe you that's why im still here

4/19 9:54 PM

but think about it... we have been through a lot of people this past year...

Jim Hoover 4/19 9:54 PM

To many

4/19 9:54 PM

you are our most experienced person...

you cant run the entire show off of one persons experience.

Jim Hoover 4/19 9:55 PM

I know I have learned that one loud and clear

4/19 9:55 PM

This is why its good that Patrick has hung around. John has hung around, Max...

we need RJ to stick around and work

Jim Hoover 4/19 9:55 PM  
 I was showing pat the control room 2 weeks ago and the flow of things  
 1

4/19 9:55 PM  
 we need Ronnell to mature some, grow up and hang around  
 We need Jessie to hang around and do his part...

Jim Hoover 4/19 9:56 PM  
 He needs to stop calling MSHA.

4/19 9:56 PM  
 EVERYONE needs to stop calling MSHA.

Jim Hoover 4/19 9:56 PM  
 No shit  
 Pisses me off

4/19 9:56 PM  
 I cannot terminate Ronnell just because he has called MSHA

Jim Hoover 4/19/2023, 9:56 PM  
 Pisses me off  
 Me too!

Jim Hoover 4/19 9:57 PM  
 I have been there along time and never have called them  
 1

4/19 9:57 PM  
 He will either get on board on he will get fired.  
 I know Ronnell is looking for work elsewhere...

Jim Hoover 4/19 9:58 PM  
 I will go for second one one  
 1

4/19 9:58 PM  
 I see his FB posts and even called him out on it.

Jim Hoover 4/19 9:58 PM  
 What you mean  
 LAZY LAZY LAZY BAD  
 1  
 I was wrapping ten highs today and he wouldn't even do that he thought to high I guess so I said I will do it if your worried about it

4/19 10:00 PM  
 he's such a pussy.

Jim Hoover 4/19 10:00 PM  
 I'm saying lazy he was in break room a lot

4/19 10:01 PM  
 Let john know... so John can counsel him and we can let him go

Jim Hoover 4/19 10:01 PM  
 I heard him say I wish dozer would get fixed

4/19 10:01 PM  
 He doesnt know it yet but we have a new quarry guy starting Monday...  
 Ronnells dozer days are pretty much done for a while

Jim Hoover 4/19 10:01 PM  
 I already did today he saw him in there eyes shut im pretty sure to me he is dead weight  
 Don't need him don't want him but I will make him or break him I will give him a chance and see if he can step up to plate  
 Like I always tell you I know who the next one will be brother

4/19 10:04 PM

Share with John your thoughts and what you see, in private of course.

I have no problem letting go dead weight.

Jim Hoover 4/19 10:05 PM

I always talk to John I really respect John damn good man

We talk in private a lot brother

4/19 10:05 PM

we just have to do the right process and the right thing. Counsel him and then let him go.

Jim Hoover 4/19/2023, 10:05 PM

I always talk to John I really respect John damn good man

I agree and that is good you guys talk.

Jim Hoover 4/19 10:05 PM

Our daughters are same age

4/19 10:06 PM

I didnt know that.

Jim Hoover 4/19 10:06 PM

He calls his daughter Button lol

Boss im telling you if that palletizer was going and msha wasn't on our ass being dicks I would gamble and say the equipment is at point when we would be running over 60K or better I haven't been able to talk to you but after I got the little mac suction going it takes longer that fuck to get the socks to fill-up on flour elevator

4/19 10:11 PM

yep, we will get there.

Jim Hoover 4/19 10:11 PM

I only ran one day for 3 hours I set up for John when rob wasn't there and it was John rj and myself and we kicked ass so I know for a fact it is doable

4/19 10:12 PM

I too believe that we will start doing really well once we get past this MSHA BS. This shit has been going on with them since January...

Jim Hoover 4/19/2023, 10:11 PM

I only ran one day for 3 hours I set up for John when rob wasn't there and it was John rj and myself and we kicked ass so I know f...

That was the deciding factor for John and I to terminate Rob.

Jim Hoover 4/19 10:12 PM

Yes it's costing me money and I don't like that

4/19 10:13 PM

Yes, it is! It really is...

Jim Hoover 4/19 10:14 PM

Oh shit my bad doesn't mean for him to look bad I just ran it like I do there is no other way to run it accept full throttle

I didnt mean to make him look bad I mean

4/19 10:14 PM

Nope... John and I were discussing Robs issues a long time ago... we just didnt know how to approach it.

You just put the icing on the cake.

Jim Hoover 4/19 10:15 PM

Oh shit

4/19 10:15 PM

It had nothing to do with you.

We knew there needed to be change but wanted to give the guy an opportunity to fix the issues we were seeing.

He didnt make improvement and... got terminated,

Jim Hoover 4/19 10:16 PM

I mean I had to tell him to put rock in to charge tube mill it was below 50 I said damn man we got to charge this

4/19 10:16 PM

yep, thats why he is no longer with us.

Tomorrow is a new day

Jim Hoover 4/19 10:17 PM

Yes sir

So are we going to do Saturdays or what's your game plan after this horse shit with msha when can we start running production

Jim Hoover 4/19 10:26 PM

Tomorrow is a new day also attitude is 95% of how your day is going to turn out good or bad, have good attitude have great day have bad attitude have bad day try learning something new everyday challenge yourself and things will be okay I have learned one day at a time brother

Sometimes hour by hour lol

4/19 10:26 PM

So... for the next two days we are only allowed to run to make repairs and adjustments to the filtration systems and the engineering controls (windows, doors and exhaust fan)

We will run as normal, get the system hot, produce and bag as instructed by Jessie and John.

Jim Hoover 4/19 10:27 PM

Good or bad we are in it together so let's just get this shit done and go sit on the beach

Sounds good to me

4/19 10:28 PM

We will need to stop the feed at noon, let maintenance do their checks, adjustments, and any repairs needed. Then we will start the feed again and produce until 3:30 as normal, shut down, let maintenance do their checks, adjustments, and any repairs needed.

and repeat Friday.

Jim Hoover 4/19 10:31 PM

Okay wait a second I was told we are doing a whole lot of cleaning tmrw so we are running from 8-12 then let them do there things then run tell 3:30 ?

4/19 10:31 PM

just follow Johns guidance tomorrow.

Jim Hoover 4/19 10:31 PM

Okay

So did you get assholes to let us take locks off yet

Msha I mean lol

4/19 10:32 PM

tomorrow morning...

Jim Hoover 4/19 10:32 PM

Good deal

So hopefully they will be there at 7:30

So msha said the control room doesn't have to have one of the new breathing things on when MSHA called Jessie this morning I had him ass them that and they said we didn't have to have on in mill control room break room or bathroom

Ask lol

4/19 10:37 PM

no, its based on position not people... so the bagger, palletizer and forklift driver...

dumb I know.

Jim Hoover 4/19 10:40 PM

Keith said the bagger would never pass one I call bullshit on that I have been studying that out if we put a bigger fan up where it would blow from the east to west up high blowing at angle down the bagger person would not get any of the dust because we get a little bit so if we could do that I think that would be a game changer for that spot you know

4/19 10:40 PM

Keith is a jackass...

Jim Hoover 4/19 10:40 PM

That is what rob said Keith said he didn't tell me that because I would of said bullshit to him

👍 1

4/19 10:40 PM

I personally... would just stay away from that guy. Intentionally, stay away

Jim Hoover 4/19 10:41 PM

Oh I know he thinks he is something

He has rob in back pocket

👍 1

Jim Hoover 4/19 10:48 PM

Well brother im going to get off here. I will talk to you tmrw brother at some point. Hopefully goes good tmrw. we need to get like 20 more double stacked pallets wrapped they were doing a pallet at a time not picking up the double stacked and setting up there to wrap. I said what are you doing pick the shit up and go guys come on.. They are afraid they will fall I said that is why when you double stack you make them straight and on top of each other perfect so you can double stack and wrap them together..

👍 1

Also did you see the picture on mill group chat in the green dust collector I put in there

4/19 10:49 PM

Jim Hoover 4/19 10:50 PM

👍 1

4/19 10:50 PM  
I dont know what that is.

Jim Hoover 4/19 10:51 PM

Those bars running across there with the holes facing down into the socks

That's the bars on side that hold them up they are all rusted out bad and one of those bars falls out of the slots

4/19 10:52 PM Edited  
You'll need to show Ryan/Jeremy

Jim Hoover 4/19 10:53 PM

Jeremy and I were discussing it today when we were up there

👍 1

I just wanted you to be aware of it to put your thinking cap on about what you think you would want to do with it if that is replaceable at some point

I'm sure Jeremy can design something he is pretty awesome at that shit he is by far better than anyone you have had in past as far as hands on and getting shit done ten fold

April 20

4/20 7:29 PM  
Better day?

April 28

Jim Hoover 4/28 8:49 AM

We are rolling

👍 1

4/28 8:50 AM  
Hey hey brother... let's do good things okay. Have a good day

Jim Hoover 4/28 8:50 AM

No dust either

👍 1

We will boss

👍 1

I gotcha you

4/28 8:51 AM  
We need you to make that place rock and roll. I need the justification since Robs complained to MSHA about being let go...

just need you to put the cherry on the cake that's all.

Jim Hoover 4/28 8:58 AM

Alright I will do my best we are rocking I haven't shut feed off yet and socks are still down so that's good

👍 1

4/28 8:59 AM  
RJ & Patrick bagging?

Jim Hoover 4/28 9:01 AM

Yes sir

4/28 9:02 AM

pretty steady?

Jim Hoover 4/28 9:02 AM

Yes sir

Im going to put load of rock in Saturday or Sunday going to have Rj jhelp me

Also still feeding socks still down whoop whoop

Jim Hoover 4/28 10:09 AM

8 ,000 pounds first hour

Jim Hoover 4/28 12:26 PM

On pallet 15

4/28 12:56 PM

Make sure to share this info in the Mill Group Chat.

Keep your and I chat as personal private.

Jim Hoover 4/28 1:38 PM

Ok

Jim Hoover 4/28 10:10 PM

Hey Brother how was your day

4/28 10:10 PM

Good and you?

Jim Hoover 4/28 10:11 PM

Oh well , not to bad

I think you will be happy with the number we got for today

4/28 10:12 PM

I heard... 52k lbs. Fucking ridiculous!!!!

Jim Hoover 4/28 10:12 PM

No we got 56

28 pallets

4/28 10:13 PM

Oh shit. that's awesome!

Jim Hoover 4/28 10:13 PM  
Not to bad, ran like gravy

4/28 10:14 PM  
That's awesome. You feel good about that.

Jim Hoover 4/28 10:15 PM  
Not one over flow or anything  
👍 1  
Oh well we could of done a couple things different . but first day we for sure are moving in right direction

4/28 10:17 PM  
Like what?

Jim Hoover 4/28 10:21 PM  
we just need another body out there because I packed 99% of the bags and ran the mill but I temped out a couple of times when I was bagging it kicked out, but the other person would be labeling and wrapping because they didn't get labeled or wrapped yet  
But I'm not complaining for first day they did pretty good.

4/28 10:22 PM  
I agree. Hopefully by next week. 2 peeps applied today so that's good...

Jim Hoover 4/28 10:23 PM  
For sure , John helped out a lot and so did Jeremy

4/28 10:23 PM  
that's good.

Jim Hoover 4/28 10:27 PM  
Jeremy stacked for me , he went over to yellow air pipe and felt pipe and goes damn . I said now you know secret to tripoli now .  
👍 1  
He couldn't believe the difference in flow  
👍 1

4/28 10:28 PM  
yep...gotta be hot to flow

Jim Hoover 4/28 10:28 PM  
He is damn good maint.  
👍 1  
Ryan I think is great in his own way  
👍 1  
As well

4/28 10:29 PM  
Me too. He's just quiet

Jim Hoover 4/28 10:29 PM  
He is more electronic and Jeremy more hands on get shit done  
👍 1  
Well maybe at first lol  
We would of Dust test today boss  
100% for sure  
The environmental lady came by did you hear about this

4/28 10:33 PM  
Yep from what I understand she was very pleased as well

Jim Hoover 4/28 10:33 PM  
Yes sir

4/28 10:34 PM  
Jim Hoover 4/28/2023, 10:31 PM  
We would of Dust test today boss  
all good, leta just repeat that one Monday

Jim Hoover 4/28 10:36 PM  
 We would of passed the Dust Test I mean . For sure will do as well or better

4/28 10:36 PM  
 Yep, we will get it monday

Jim Hoover 4/28 10:37 PM  
 The low bin light didnt come on one time before noon .

4/28 10:37 PM  
 Hmmm...

Jim Hoover 4/28 10:41 PM  
 Boss have good evening just wanted you to have some positive things from here I'm sure it has been awhile you know . also just wanted to thank you and Jordan for the paychecks im sure you haven't heard that in awhile but appreciate you guys hanging in there for me but us as a team .

4/28 10:41 PM  
 Brother, it's been tough. But we will get better  
 have a good night

Jim Hoover 4/28 10:47 PM  
 Thank goodness you two are tougher than the situation you know .

4/28 10:48 PM  
 I'm glad you think so. I dont do failure very well...

Jim Hoover 4/28 10:53 PM  
 I have noticed that lol ... As Im not a person that gives up and just quits when times get rough  
 1

May 1

Jim Hoover 5/1 5:07 AM  
 Hey I can text you private brother it's locked on adm: Side and mill side under mine anyway

5/1 6:28 AM  
 Did you call John?

Jim Hoover 5/1 6:04 PM  
 Hey Brother

5/1 6:33 PM  
 What's up

May 2

Jim Hoover 5/2 9:12 AM  
 Hanger Bering out on scroll bringing all the dust collector product in saw when doing walk thru this morning Jeremy is fixing it now . we have product coming out of finish pipe on outside from fourth floor socks one must have hole in it but blowing product out of it .

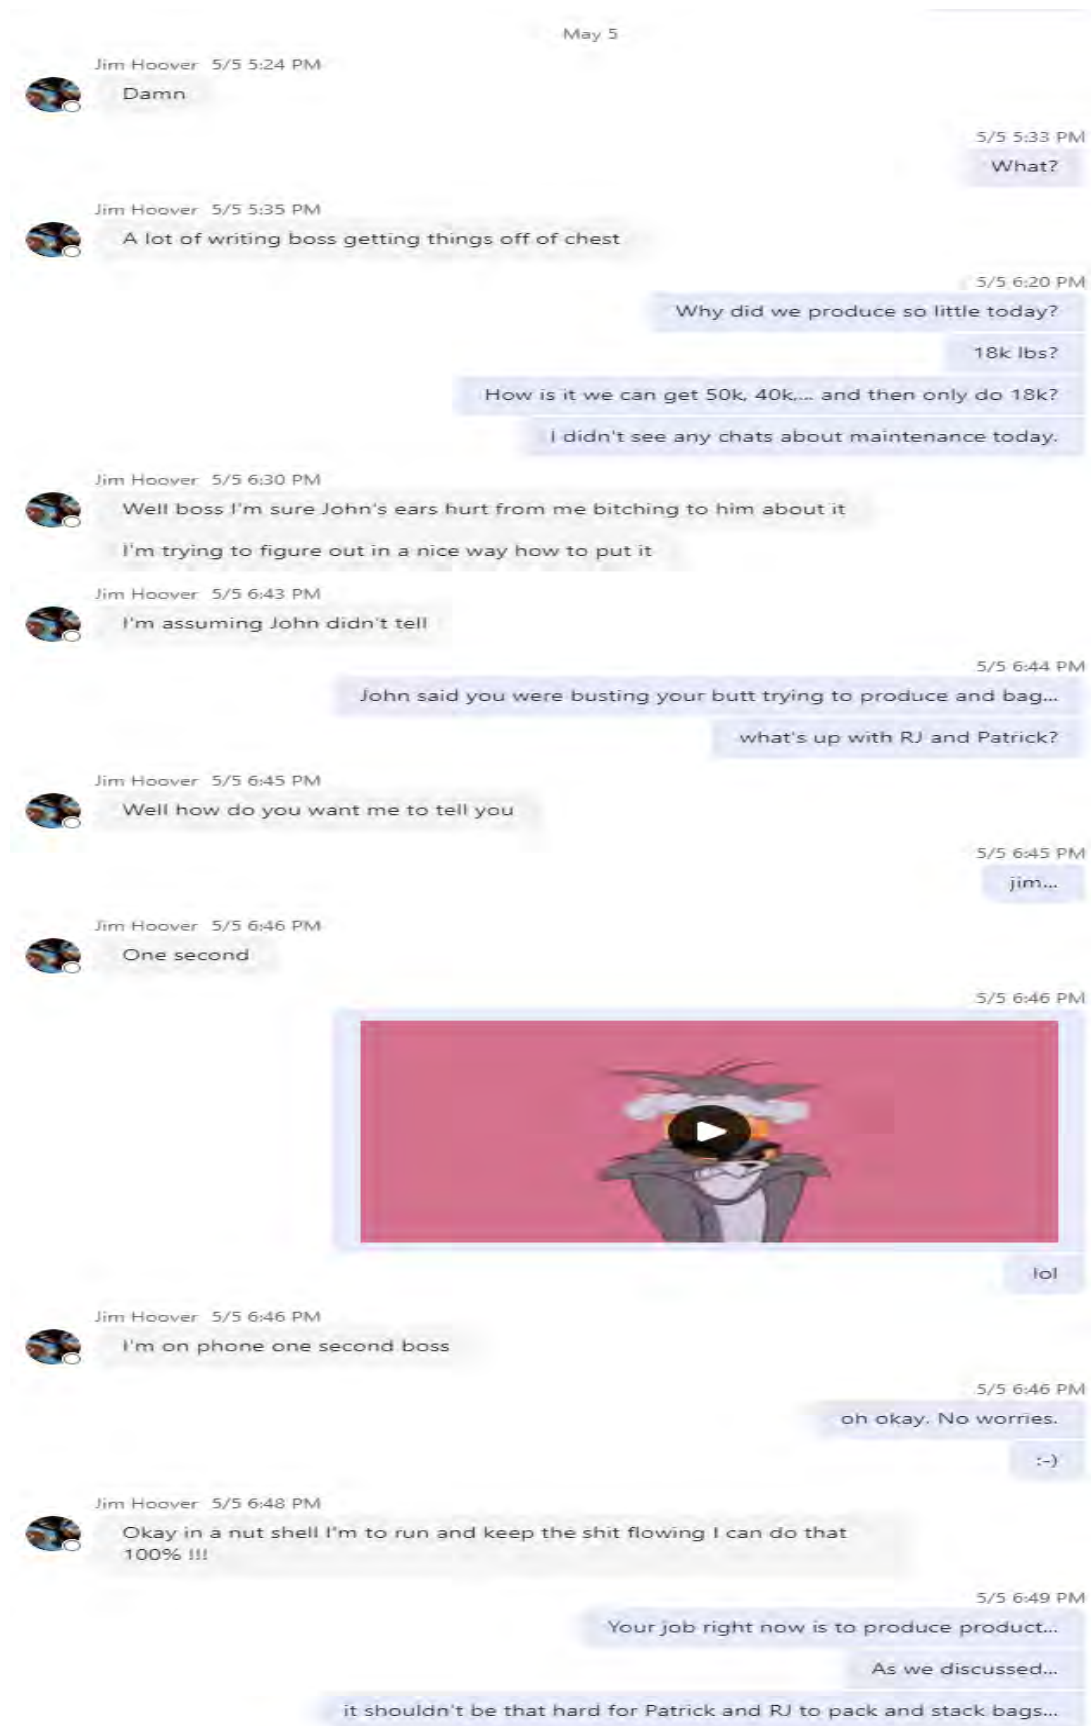

Jim Hoover 5/2 6:16 PM  
 Hey  
 Where is it to where I can text you private

5/2 7:30 PM  
 This is private, Just me and you.

May 3

Jim Hoover 5/3 8:52 PM  
 Hey boss

5/3 10:16 PM  
 What's up

Jim Hoover 5/5 6:49 PM  
 What I have a problem doing is I haven't to do the control room , then I go and pack bags , then I go hand stack then I go wrap the fucking pallets  
 I can't be in four places at once

5/5 6:49 PM  
 that's exactly what John said...

Jim Hoover 5/5 6:49 PM  
 I'm not cussing at you  
 1

5/5 6:50 PM  
 you can't do it all

Jim Hoover 5/5/2023 6:49 PM  
 I'm not cussing at you  
 I know. I'm not taking it that way.

Jim Hoover 5/5 6:50 PM  
 But I know boss but if you need a number it's my job to make sure it's done

5/5 6:50 PM  
 I'm upset with RJ and Patrick

Jim Hoover 5/5 6:50 PM  
 You don't know how pissed I am

5/5 6:50 PM  
 Jim Hoover 5/5/2023, 6:50 PM  
 But I know boss but if you need a number it's my job to make sure it's done  
 yep and I'm not faulting you.  
 I just don't understand...

Jim Hoover 5/5 6:51 PM  
 At 3oclock I shut it off  
 1

5/5 6:51 PM  
 what's up with these two guys...  
 I don't understand...

Jim Hoover 5/5 6:53 PM  
 Because I was wasting your money by running product then going out and bagging 4 bags then running around over there and stacking them so I said fuck it and I went and staged SO-323 A,B they are ready and weighed

5/5 6:53 PM  
 I guess we're are going to have to hire some contractors...

Jim Hoover 5/5 6:54 PM  
 They were pissed about there hours

5/5 6:54 PM  
 if RJ and Patrick pull this BS Monday, they are done.  
 what about their hours?

Jim Hoover 5/5 6:54 PM  
 John had a talk with them I think

5/5 6:54 PM  
 they were offered to work this weekend and turned it down.

Jim Hoover 5/5 6:54 PM  
 I was staging the orders

5/5 6:55 PM  
I can't help people who don't want to help themselves

Jim Hoover 5/5 6:55 PM  
And I'm going to work tmrw

5/5 6:55 PM  
you can't go in by yourself

Jim Hoover 5/5 6:56 PM  
I have got to get some room people fucking run into pallets some how  
fn stupid  
I know that boss  
👍 1  
You think I'm new hire lol  
👍 1

5/5 6:56 PM  
Make sure you work it out with John

Jim Hoover 5/5 6:57 PM  
I already told him I will call him later I was pissed

5/5 6:57 PM  
PLUS... gotta wear that fing mask

Jim Hoover 5/5 6:57 PM  
Only if we are running  
No machine is running

5/5 6:57 PM  
oh that's right...  
you are right.

Jim Hoover 5/5 6:57 PM  
I think John and myself could run more by ourself

5/5 6:58 PM  
I agree  
I don't understand what up with Patrick. Do you?

Jim Hoover 5/5 6:59 PM  
I get it they are tired of stacking I get it but they go to break lunch or  
whatever and they watch me go in control room keep in running go  
and put bags on them go stack them and move them with fork truck so  
tell me what the fuck is wrong with this picture brother  
I'm 50 and out work these two figure this one out

5/5 7:00 PM  
Yeah I don't understand where the laziness comes in...

Jim Hoover 5/5 7:00 PM  
In a nut shell that is why we only got 18 John wasn't there to help me  
with the control room  
But also I kept on having to go in control room because the product  
was damp or was different than normal and temperature dropped fast  
as shit you know  
Not making excuses for this just telling you

5/5 7:03 PM  
oh yeah I understand...  
I just don't understand wtf is up with these two guys...  
we have the palletizer motor on order...

Jim Hoover 5/5 7:04 PM  
I know my job is to produce what you need me to do but am I to tell  
them to speed the fuck up or what I know what you ask of me as to  
keep the shit going if I just do that it will be on the floor  
👍 1

Jim Hoover 5/5 7:04 PM

I know my job is to produce what you need me to do but am I to tell them to speed the fuck up or what I know what you ask of me as to keep the shit going if I just do that it will be on the floor

👍 1

5/5 7:04 PM

we can make them ship it any fmg faster...

you are doing fine... just keeping working with John...

Patrick and rjs days are probably done.

if they don't want to work then we will just get rid of them.

I told John to have a talk with all the guys...

on Monday morning

Jim Hoover 5/5 7:06 PM

Good deal...

5/5 7:06 PM

it's everyone's responsibility to ensure product gets produced and out the door...

if this doesn't happen everyone's job is in jeopardy.

too simple

Edited

we will replace those that don't want to work with the rest of the team

Jim Hoover 5/5 7:07 PM

I know without a shadow of doubt we can produce more than 50 thousand

👍 1

If we can just hang in there tell that motor

5/5 7:07 PM

I believe we can too... just need the right people with the right attitudes

the motor or palletizer shouldn't be the crutch...

I'm sure the motor will be delivered next Thursday, I believe

Jim Hoover 5/5 7:10 PM

I think there is other issues going on also

5/5 7:10 PM

What issues?

Jim Hoover 5/5 7:10 PM

If it was Rj and myself it's good

If it's pat and myself it's good

5/5 7:10 PM

??

RJ and Pat don't get along?

Jim Hoover 5/5 7:11 PM

But it's like those two together it's like pat and Landry if you get what I'm saying

Yes they get along to good

5/5 7:11 PM

??

Jim Hoover 5/5 7:11 PM

It's like if me and you are working we get shit done right

👍 1

Jim Hoover 5/5 7:11 PM  
 It's like if me and you are working we get shit done right  
 1

5/5 7:12 PM  
 who's making who lazy?  
 who's the bad seed?

Jim Hoover 5/5 7:13 PM  
 No grab assing just work right that is not the way it is if they are together

5/5 7:13 PM  
 or should i ask... who's next jim?  
 lol  
 50 - 50 guess or???

Jim Hoover 5/5 7:14 PM  
 That's funny shit  
 Well I will say this I could tell you that

5/5 7:15 PM  
 but...???

what's your guess?

Jim Hoover 5/5 7:15 PM  
 It's no guess  
 1

5/5 7:16 PM  
 I gotta run here in a few minutes...  
 who do you think "is next"?

Jim Hoover 5/5 7:18 PM  
 But If I tell you something you can not do anything about it , also you don't pay me enough to put up with this bullshit that happen I will talk to you in a bit boss text me when you are done  
 I'm serious  
 Text me later okay

5/5 7:19 PM  
 Tell me now... I'll be out for a couple of hours... probably after midnight.  
 You've got my attention... what's up?  
 jim???

Playing games huh???

unprofessional...

you don't end a conversation that way

May 6

5/6 12:24 AM  
 So???

5/6 9:21 AM

May 7

Jim Hoover 5/7 1:31 PM

Hey sorry boss

5/7 1:32 PM

lol...slacker. 🤔

Jim Hoover 5/7 1:32 PM

I will take care of the situation brother

5/7 1:32 PM

How was your weekend?

What was/is the situation?

Jim Hoover 5/7 1:36 PM

Oh same as always doing some things with Kennedy she walked up to me Saturday morning and gave me this

5/7 1:36 PM

So cute!

Girls will always love their dad!

Jim Hoover 5/5/2023, 7:18 PM

But if I tell you something you can not do anything about it , also you don't pay me enough to put up with this bullshit that happen...

Jim Hoover 5/5/2023, 7:10 PM

I think there is other issues going on also

What issues are you referencing?

Jim Hoover 5/7 1:40 PM

And this with a bracelet it was good I never think I'm doing enough for her that's for her we go on long walks in evening I got that good advice from you and Jordan and you don't think I listen to you

Well the Friday thing that was a problem

5/7 1:41 PM

just like planting a seed. If you take care of it while its young then it will grow bountiful.

the time you spend with her now, will pay off in the long run.

sometimes its hard to see but the simple things matter the most.

TIME/memories is more important than any object that can be bought.

Jim Hoover 5/7 1:43 PM

Pat is going thru some shit not good but we had a talk Saturday I can't go into detail because I just can't it wouldn't be a good thing but he surprised me after the fact of what happen but long story short I will nip it in the bud

True story

Boss this Msha thing can I speak to you freely without you thinking I'm on there side because I'm not I always tell you what I hear

Those other guys think I'm a company man , if you want to call me that for doing what I do then I guess I am but I know that you ask of me to get a certain number and I know how to do that and she happens and I'm pushing them to get there ass in gear and I'm going out there and packing bagging and hand stacking and fork trucking pallets because I know if I don't go out and do that it will over flow that's how I run it I don't shut it off tell it can't handle no more you know but the shit is hot and I can't touch the yellow pipe you know

5/7 1:57 PM

Its not necessarily a MSHA thing or a "company man" thing...

hear me out...

Do you remember me talking with you a long time ago about Robs general negative attitude about everything?

Jim Hoover 5/7 1:58 PM

I didn't read the book on it rob telling them something and it not being true brother

Oh I know

You didn't have to tell me I worked with him

Or around him more less

5/7 1:59 PM

Well, IMO, this attitude bled over to RJ and I do believe Carson and Terry... then Patrick, and probably Gage too

John and I both spoke to Rob about it many times...

Jim Hoover 5/7 2:00 PM

I had to go behind and fix shit

5/7 2:00 PM

he wanted to blame you guys all the time about not being able to get things done

stupid things like... cleaning the bathroom.

He lacked leadership skills

Jim Hoover 5/7 2:01 PM

I didn't know you all did I was trying to stay in my lane but I didn't want to be down longer

Jim Hoover 5/7 2:01 PM

I didn't know you all did. I was trying to stay in my lane but I didn't want to be down longer.

I agree

5/7 2:01 PM

I told him he needed to get use to reading online books

he told me he didnt like reading online

he was advised to take some leadership classes online...

I gave him plenty of resources to read about.... plenty of free classes

Jim Hoover 5/7 2:02 PM

Oh wow

5/7 2:02 PM

Then the whole MSHA thing in February...

Jim Hoover 5/7 2:02 PM

Oh he fucked us over on that deal sorry for cussing

5/7 2:03 PM

thats when Rob started to really buck back against what John was telling him to do

Jim Hoover 5/7/2023, 2:02 PM

Oh he fucked us over on that deal sorry for cussing

Oh I know...

again... we had to prioritize things...

Jim Hoover 5/7 2:03 PM

He was yelling at john alot screaming

5/7 2:03 PM

we were constantly looking at how to replace him

Alex was being trained to replace Rob...

then Alex quit

Jim Hoover 5/7 2:04 PM

Wow

5/7 2:04 PM

We thought Kensley could...maybe... but she didnt work out either...

so, then we hired this last guy... what a f-ing hassle

We have requested MSHA to give us an exception to policy and let us fall under the Part 46 training requirements...

that way we would just have to provide 4 hours of initial safety training and then have the guy start working...

this way if he/she decided it wasnt for them we werent out the 3 days paid training AND the \$250 - \$400 instructor expense for EACH new hire.

MSHA is f-ing choking us out...

Rob's issues go way back, even before starting days...

Christine wanted to replace him...

Jeff didnt like him

Jessie didnt either...

Carson thought Rob was lazy

Jim Hoover 5/7 2:09 PM

Man if you put all his days together he wouldn't get as Dirty as Jordan working one day brother

5/7 2:09 PM

Rob's problem was he didn't want to take the advice of anyone else and thought he knew it all.

Jim Hoover 5/7/2023, 2:09 PM

Man if you put all his days together he wouldn't get as Dirty as Jordan working one day brother

Oh I know...

and now...

that he has made a friend at MSHA... Keith... Robs a fool to think Keith is his friend.

Im just glad Rob is gone. That was a longggg time coming.

Jim Hoover 5/7 2:12 PM

Rob didn't know a thing .... My opinion he would always come and ask me what to do or how to fix it I really wanted him to burn after the third day there when he started he told my guys I didn't know anything , and then he comes and ask me shit 2 seconds later I just blew it off

5/7 2:12 PM

August of last year. Christine was telling me we need to replace Rob.

Jim Hoover 5/7 2:13 PM

I could of told you boss but you wouldnt of believed me

5/7 2:13 PM

Jim Hoover 5/7/2023, 2:12 PM

Rob didn't know a thing .... My opinion he would always come and ask me what to do or how to fix it I really wanted him to burn after...

yea, he was full of himself, I could see it back when we were having screen problems...

Jim Hoover 5/7/2023, 2:13 PM

I could of told you boss but you wouldnt of believed me

Its not that... its there are a lot of other pieces moving behind the scenes too

Jim Hoover 5/7 2:14 PM

I see these people come and go brother

Everyone of them

5/7 2:14 PM

See, im having to now fight MSHA because Rob thinks he was discriminated against

Jim Hoover 5/7 2:14 PM

I can tell you in the first 2 days if they will make it because of all the hear say bullshit

5/7 2:15 PM

I just dont understand why they cant just do what they are asked to do...

Jim Hoover 5/7 2:15 PM

Well probably are to lazy mother fuckers I can't stand shit like that

Loi

Do you want to know what he told me

5/7 2:16 PM

I just hope Patrick and RJ arent too infected by his BS

Jim Hoover 5/7/2023, 2:16 PM

Do you want to know what he told me

whats that?

Jim Hoover 5/7 2:17 PM

That you wanted to fire me long ass time ago then when Sara was here he told me again

That you told him this

5/7 2:17 PM

Jim Hoover 5/7/2023, 2:17 PM  
That you wanted to fire me long ass time ago then when Sara was here he told me again

uh, no Rob and I were never that close...

Jim Hoover 5/7 2:17 PM

I said well it's his company to do with what he feels will help the company

I didn't lose any sleep over it brother

5/7 2:18 PM

I have only mentioned letting you go when you were having feet problem and not showing up to work as scheduled.

As ive told you before, its not personal

Jim Hoover 5/7 2:18 PM

I know I got a new pair of boots by the way lol

Alot better now.

5/7 2:19 PM

I like you. or we wouldnt be chatting like we do...

Jim Hoover 5/7 2:19 PM

I know

5/7 2:19 PM

Jim Hoover 5/7/2023, 2:18 PM  
I know I got a new pair of boots by the way lol about time.

did you get to see a foot Dr?

Jim Hoover 5/7 2:19 PM

Wolverines

👍 1

I went to Dr. Just the one in Seneca

👍 1

5/7 2:19 PM

Hey if thats what you like... then thats your decision

Jim Hoover 5/7 2:20 PM

Witch doctor

👍 1

5/7 2:20 PM

Gotta take care of those feet.

Jim Hoover 5/7 2:20 PM

That's why the young guys can't keep up with me boss

She gave me witch med.

👍 1

5/7 2:21 PM

the younger guys just didnt have a good upbringing in my opinion... the work ethic isnt there for most of them.

Jim Hoover 5/7 2:21 PM

I feel no pain

❤️ 1

That's a fucking fact AMEN AMEN AMEN PREACH IT

👍 1

5/7 2:22 PM

So...

Jim Hoover 5/7 2:22 PM  
 so what are we looking at how far down

5/7 2:22 PM  
 Dude... we are REALLY behind...

Jim Hoover 5/7 2:22 PM  
 4 months

5/7 2:23 PM  
 no, more like 5 1/2 months behind

Jim Hoover 5/7 2:23 PM  
 Is that about right

Oh shit 6months half a year

5/7 2:23 PM  
 put in an order today and it gets scheduled for mid-september

yep, pretty much

AND that is with NO SALESMEN!

Jim Hoover 5/7 2:24 PM  
 We were only down 4 when I was in mill we were catching up

5/7 2:24 PM  
 just repeat business

Jim Hoover 5/7 2:24 PM  
 That won't work

5/7 2:24 PM  
 Jim Hoover 5/7/2023, 2:24 PM  
 We were only down 4 when I was in mill we were catching up  
 we will get there....

Jim Hoover 5/7 2:24 PM  
 Yes, we will

5/7 2:24 PM  
 it takes time... now, just as before, we need people to stay and just work...

thats it.

We have to keep MSHA off our back....

keep the maintenance team happy

keep production pumping.... EVEN when we are tired,

I want to replace the palletizer...with a robotic one but we have to catch up...

the schedule is FULL everyday

we can have these half-ass days....

each day, the minimum is 40k lbs.... per the sales orders....

that is what we have scheduled for...

just 40k lbs

Jim Hoover 5/7 2:27 PM  
 Boss I have done 140 a hour on palletizer find the parts and I will make it run , 100 run great on it swear

5/7 2:27 PM  
 if we do 50k, hey thats great

The palletizer motor will be here this week.

Jim Hoover 5/7 2:27 PM  
We don't have all pieces it though

5/7 2:27 PM  
the guys just need to know and take care of it when it is working...

Jim Hoover 5/7 2:27 PM  
For it though

5/7 2:28 PM  
you talking about the gear?

Jim Hoover 5/7 2:28 PM  
Yes and break

5/7 2:28 PM  
this isnt just any motor... its the same one that came off of it...

Jim Hoover 5/7 2:28 PM  
And another piece I heard

5/7 2:28 PM  
there is only one like it being sold...  
the palletizer is old  
thats why it took so long to get...  
the old one we have at CEMCO is/has been rebuilt

Jim Hoover 5/7 2:29 PM  
I know but john said there is parts on the other one up there that he needs for the motor

5/7 2:29 PM  
we are working with CEMCO to get the gear...  
the gear isnt the problem... its the motor  
the motor manufacturer has an 18-month backlog...

Jim Hoover 5/7 2:30 PM  
Okay awesome when that things gets going that will be a game changer

5/7 2:30 PM  
the factory rep says he has 6,000+ motors that he is being told not to expect delivery until 2025-26  
thats a lot of machines not running... and thats across the US

Jim Hoover 5/7 2:31 PM  
The guys will be much happier and less bitchy they tell me I'm working them like niggars I said I have to make up for robs lack of effort

5/7 2:31 PM  
stacking 5 highs... really?

Jim Hoover 5/7 2:32 PM  
They said that N word not me lol

5/7 2:32 PM  
thats not that damn hard...  
I mean come on...

Jim Hoover 5/7 2:32 PM  
I know right..  
I forgot to tell you something  
So you know how I do my calculations on the packer

5/7 2:33 PM

I also want to have a framer come in and give us a quote to frame and drywall off the production floor from the rest of the area so we can eliminate the air quality BS

Jim Hoover 5/7/2023, 2:32 PM  
I forgot to tell you something

whats that?

Jim Hoover 5/7 2:33 PM

I heard you telling john something how many bags we are doing time wise

Well so I timed it thru the day several times and I'm packing 3 bags in one minute 7 seconds

So not bad I think you had us only doing 2 bags a minute I think

5/7 2:35 PM

OGX, DGX, AFX, PremiumX, TrifilX:  
50 bags per hour production

Microgrades (X45 - X30):  
20 bags per hour production

Microgrades (X15 - X10):  
10 bags per hour production

Bulk bags:  
6 bulk bags per hour

Jim Hoover 5/7 2:35 PM

Plus socks are taking long ass time to feel up now

5/7 2:35 PM

thats good

Jim Hoover 5/7 2:36 PM

Which is good on elevator

5/7 2:36 PM

fixing the air leaks i think solved a lot of issues.

Jim Hoover 5/7 2:36 PM

Yes sir

So I think I got this insurance thing called AmBetter have you heard of it

5/7 2:38 PM

? no

Jim Hoover 5/7 2:38 PM

Which will pay for my insurance and Kennedy insurance so I won't have to carry it thru work

5/7 2:39 PM

If its cheaper... then by all means go for it.

Jim Hoover 5/7 2:39 PM

It's something you told me to look into so I did boss

5/7 2:39 PM

thats good.

Jim Hoover 5/7 2:40 PM

Just another example of me LISTENING to the man

Lol

5/7 2:40 PM

IMO, since the OBAMAcare BS... where the government requires you to have health insurance...

its sometimes better to get your own plan than it is through a company.

Jim Hoover 5/7 2:41 PM

God gave me two ears to listen more and one mouth to talk less

That's how I take it anyway

5/7 2:41 PM

let us know your premiums... so we can share with the rest of the guys....

Jim Hoover 5/7/2023, 2:41 PM

God gave me two ears to listen more and one mouth to talk less

only if we all took this advice more often...

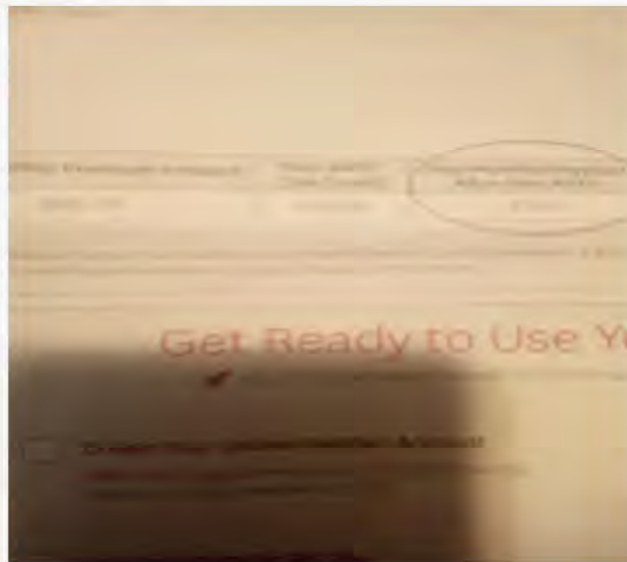

me too

Russell Tidaback 5/7/2023, 2:41 PM

let us know your premiums... so we can share with the rest of the guys....

if they can get cheaper rates then we should cancel the company plan.

Jim Hoover 5/7 2:43 PM

5/7 2:44 PM

as a company, we have to jump through hoops for insurance, that you dont as an individual.

Jim Hoover 5/7 2:44 PM

I hate that

I have another paper I'm looking for for you to see

5/7 2:45 PM

that looks like it \$900 monthly but at the end of the year they give you a tax credit..

Jim Hoover 5/7 2:45 PM

Max out of pocket is 1,700 I think

deductable?

I know she spent a lot of hours trying to find and negotiate the cheapest costs to you guys on the medical plans offered.

Specialist is 10 dollars  
RX(Generic/Brand ) 0/15

Jim Hoover 5/7/2023, 2:49 PM  
ER 25%

 1

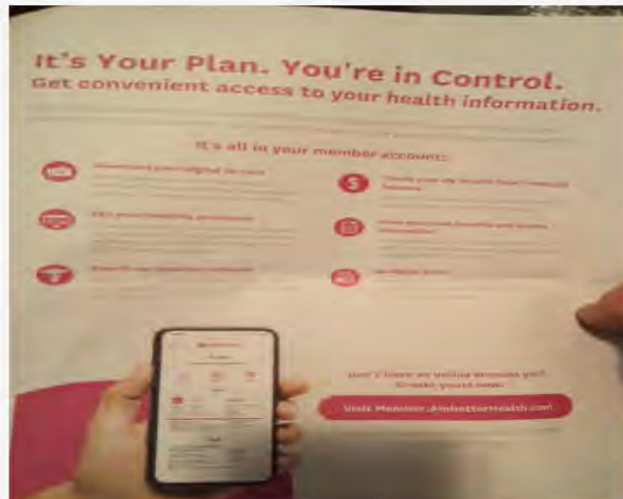

that means you should get a Health Savings Account (HSA) and put that \$1700 in there.

Jim Hoover 5/7/2023, 2:51 PM  
Urgent Care is zero copay

Id walk in with my arm cut off to the urgent care asking them to stitch it back on before Id go to the ER and get raped!

**arrabetto** www.arrabetto.it **Norma stabilizza l'asfalto**  
 P.O. Box 114004  
 Chicago, IL 60611-0004

Just showing if it helps

5/7 2:55 PM

if they are cheaper... thats good.

yeah

Jim Hoover 5/7 2:56 PM

Anyway so what is on your mind just keep running running running mill

5/7 2:58 PM

so, with the Mill.

We are interviewing a Production Assistant on Monday....

Jim Hoover 5/7 2:58 PM

Oh boy

5/7 2:58 PM

I think the PA. needs to be your back up...

you run the control room and just produce material....

Jim Hoover 5/7 2:59 PM

Yes

5/7 2:59 PM

the PA manages the workload

does all the paperwork

the QC

Jim Hoover 5/7 2:59 PM

100%

5/7 2:59 PM

etc...

Jim Hoover 5/7 2:59 PM

That's good

5/7 2:59 PM

BUT... he needs to know how to run the control room so when you take a vacation, sick, etc...

then John would be the PAs backup for the control room

I think your strength is producing product.

You can help the guys understand the machines... when issues arise

but you are at your best when producing product

NO EATING OR DRINKING IN THE CONTROL ROOM!

I repeat

Jim Hoover 5/7 3:01 PM  
 Yes sir glad you think that  
 I hear you

5/7 3:01 PM  
 NO EATING OR DRINKING...

Jim Hoover 5/7 3:01 PM  
 No eating or drinking

5/7 3:01 PM  
 okay so you hear me!

Jim Hoover 5/7 3:01 PM  
 Got that

5/7 3:02 PM  
 Now...

Jim Hoover 5/7 3:02 PM  
 GD IT JIM  
 1  
 Now ....?

5/7 3:02 PM  
 my thoughts are if we could get you and possibly Jeremy to come in at 6am and get the mill ready to produce...  
 at 8am...  
 then you two leave at 230pm...  
 that would, I believe help you with production numbers but also...  
 allow you to leave earlier in the day. when you start to peter out (tired)...

just my thoughts...

the mill associates and PA would come in at 8am - 430.  
 the PA would do the shut down...

Jim Hoover 5/7 3:05 PM  
 It takes 30 mintues to get the mill to roll 7 is plenty it would be rolling by 7:30

5/7 3:06 PM  
 7 would work too..

Jim Hoover 5/7 3:06 PM  
 I can have it rolling really in less than 20 mintues

5/7 3:06 PM  
 700 - 330

Jim Hoover 5/7 3:06 PM  
 Sure

5/7 3:06 PM  
 lets give the PA some time to get use to the shut down process... and then bring it to John.

Jim Hoover 5/7 3:07 PM  
 If that's what you want I will work tell 4:30 to help us get more of a number tell we start catching up

5/7 3:07 PM  
 would need to work it out with Jeremy or someone else to come in at 7am.

Jim Hoover 5/7 3:08 PM

I was thinking and talking to John the other day I have been walking Jeremy thru with me in mornings and since Ryan is there tell 4:30 having him walk with me at shut down what's your thoughts

I have been doing that

5/7 3:09 PM

either way... the maintenance guys need to know the start up and shut down process too.

the PA is your backup though.

Jim Hoover 5/7 3:09 PM

That's what I was thinking

Yes

WWRD

WHAT WOULD RUSS DO !!

That's what I came up with so I did that

5/7 3:10 PM

lol... you wouldnt want to know sometimes!!!

Jim Hoover 5/7 3:10 PM

With the maintenance

Lol your probably right

5/7 3:11 PM

Jim Hoover 5/7 3:11 PM

Tube mills is full charge 120 rolling

5/7 3:12 PM

yep, John sent a pic of it.

Jim Hoover 5/7 3:12 PM

Not below 100

5/7 3:12 PM

we need to watch the dates to see how long it lasts...

Jim Hoover 5/7 3:14 PM

See how the holes are rounded at some of the ends like a bigger hole

That's not good it's letting some of the small rocks get thru there but we got in there and fixed the serious problems that's for sure I told Jeremy we needed to get in there and look at that end and we found the problem it was killing the screens

On the fourth I told Rob the scrolls needed to be cut shorter he said no it will be alright I told him the product is going past the hole and covering the screens and making everything go back into return and he said how do you no that and I showed him and still blew me off

5/7 3:20 PM

he was a dick wad...

Jim Hoover 5/7 3:20 PM

It just really pissed me off that I would find the problem and he would just ignore it

I agree

Jim Hoover 5/7 3:25 PM

Also just to let you know Robs BS TALK ABOUT taking 1:30 mins to shut down and run product all out is total BS it takes 20 mins from start to finish approximately 30 at most

5/7 3:39 PM

30 mins is what we discussed before Rob... he was just lazy

Jim Hoover 5/7 4:03 PM

True

May 9

11. Produce an unredacted, complete copy the Mill Group Chat, Microsoft Teams chat, from June 26, 2023.

RESPONSE: Please see the chat on June 26, 2023:

June 26

Jim Hoover 6/26 8:19 AM

So who is helping Ron and Rj today do we have any takers since pat is crushing

John Spears 6/26 8:20 AM

Pat can get us started in the crush room. Jeremy can take over after he does his maintenance rounds. Ryan can run the packer of and on as well.

Jim Hoover 6/26 8:27 AM

Alrighty thanks 🙌

Jim Hoover 6/26 8:59 AM

Delta we have a problem , we are losing a lot of heat

John Spears 6/26 9:01 AM

That needs looked into. [Jeremy Talbert](#) go see Jim. I'm on my way.

Jim Hoover 6/26 9:02 AM

Ryan is down there

John Spears 6/26 9:03 AM

Very good.

Jim Hoover 6/26 9:23 AM

We are going to be down for a little to repair the dryer

6/26 2:06 PM

Everyone make sure we are using LOTO and the established safety procedures. There is no reason for anyone to get injured at our location.

<https://www.msha.gov/data-reports/fatality-reports/2023/june-8-2023-fatality/fatality-alert>

👍 1

You should expect MSHA to be diligently looking in the causes of this fatality at our location.

John Spears 6/26 2:09 PM

Russell Tidaback 6/26/2023, 2:08 PM

You should expect MSHA to be diligently looking in the causes of this fatality at our location.

That would not surprise me that we would be picked out.

👍 1

I am running samples on the Cilas machine.

June 27

12. Produce documents related to the fatality referred to in John Spears' Mill Group Chat message on June 26, 2023, produced by Respondent in the document titled ALL Communications regarding MSHA.

RESPONSE: In response to your request for the production of documents related to the fatality referred to in John Spears' Mill Group Chat message on June 26, 2023. We appreciate your inquiry and the opportunity to clarify the information requested.

In the Mill Group Chat conversation on June 26, 2023, the mine operator posted a link to the June 8, 2023, fatality alert notice issued by the Mine Safety and Health Administration (MSHA). The referenced fatality is the same incident that is detailed in the MSHA's official alert notice.

As the requested documents are directly related to the MSHA fatality alert notice, we would like to clarify that the details and information regarding this fatality are available in the official MSHA documentation, including the alert notice itself. We do not possess any additional internal documents or materials related to this specific incident beyond what has already been publicly communicated by MSHA.

To provide you with the most accurate and complete information regarding this fatality, we recommend referring directly to the official MSHA fatality alert notice dated June 8, 2023. This notice contains all relevant details and findings related to the incident, as compiled and reported by the regulatory authority responsible for investigating and documenting such events.

Should you require access to the official MSHA fatality alert notice or have any further questions related to this incident or other matters, please do not hesitate to let us know.

13. Produce the Microsoft Teams chats regarding the following incidents/entries into the document titled Rob Baumann-Notes from Russell Tidaback employee journal:

a. 26JUL2022 - Jeff states the shaker screen ripped because Rob didn't put bolts back in and just ran it like that. Rob told Miguel that he didn't care and that Miguel needed to get down. Rob shut things down sent everyone home early.

b. 27JUL2022 - Christine states Rob is having the guys run straight 8 hours and bypassing the given break so they can go home earlier. I explained the break should be rotated so we can continue to produce for the 8.5 hours. The breaks are precautionary for employees dust exposure too. MO doesn't require breaks to be given. Plus they are only running bulk bags and that can be done with two people.

c. 1AUG2022 - Christine states If Rob cannot get it done, we just need to replace him.

d. 5AUG2022 - Jessie states there is no emphasis for the guys to help him. When he brings it to Rob, he shrugs his shoulders and walks away.

e. 8AUG2022 - Christine wants to bring Rob to first shift as she doesn't believe Rob is doing what he is suppose to be doing without someone overseeing him. We cannot put Jim on nights due to being a single father and a young child at home.

f. 9AUG2022 - Christine thinks we should train someone to replace Rob on the night shift.

g. 16AUG2022 - Advised Christine to counsel Rob regarding shutting down and letting people go earlier than scheduled.

h. 25AUG2022 - Rob needs counseling on filling out the BOL correctly. A shipper complained that he did it wrong and wasted their time.

i. 31AUG2022 - Had discussion with Rob on the importance of inputting the daily production information in the spreadsheet. He said he would log in and get it done.

j. 3SEP2022 - Had discussion with Rob regarding the daily production numbers and updating the spreadsheet accurately. I don't know if he is incompetent or just lazy.

k. 28SEPT2022 - Rob not doing the CILAS reports as required for orders produced.

l. 8OCT2022 - Jessie and Carson were waiting for Rob to get there. Rob was late getting there.

m. 12OCT2022 - Had discussion with Rob regarding notifying and working with Carson to address the maintenance issues. Carson said Rob gets mad at everything and is hard to work with. I explained that getting angry and combative with others is not going to solve the issue any quicker.

n. 13OCT2022 - Had to counsel Rob on following the production schedule as it is presented. He was not producing what was on the schedule. Rob said he didn't like having to check the computer or phone to do his job. I explained that the computer work was part of the role.

o. 17OCT2022 - Had to explain Rob about the flow of the system and asked him why he wasn't reviewing the operating documents in the maintenance team files. His excuse was he didn't like to read on a computer.

p. 26OCT2022 - Had to explain to Rob why the MAC vacuum system was spewing dust from the exhaust and that we had to shut the system down so DEQ doesn't get called. Jim states Rob doesn't know what he is doing.

q. 2NOV2022 - John mentioned Rob showing his poor attitude again.

- r. 5NOV2022 - Had to get onto Rob about not properly keeping team shift hours correct in Shifts. He was writing them down on scratch paper and forgetting to update shifts. I don't know if he is just lazy or what. I explained that he can do this any time from the computer or his phone.
- s. 8NOV2022 - Had to inquire with Rob if he was shutting down early letting people go home early. The systems were showing shut down before the end of the shift.
- t. 1DEC2022 - While at AT had a discussion with Rob regarding his lack of attentiveness regarding ensuring the proper things were done with his team. The checklists werent being completed. The inspections werent being completed. The breakroom was a disaster. The fridge was disgusting. The trash wasn't taken out the day before, some of the windows were still open. The production floor was a mess. The back roll up door was off track. The bathroom was disgusting. The circuit breakers in Warehouse A was blocked by slip sheets.
- u. 16DEC2022 - Discussion regarding keeping the production team informed of what is expected to produce that day. Rob is lacking in managerial purpose for his team members.
- v. 26DEC2022 - Discussion with Rob regarding not meeting the daily production goals, team members complaining that he doesn't know what he is doing and that he just gets angry and stomps around like a child. He isnt a leader and allows his team to push him around. His response was just nodding his head. I stressed filling out the tasking board everyday and making sure the things get done. If he has problems with someone, take it to John and john will get it resolved. Jim blames Rob.
- w. 20JAN2023 - Kensley posted in the Ops chat group a pic of dust blowing out the back of the bldg. Again, had to stress to Rob that he needs to watch for any dust blowing out of the building. We cant have the Sheriff or DNR receiving complaints about us. We had to reiterate in the group that is was Robs responsibility to be inputting in the daily production worksheet what was produced each day before he leaves for the day. This wasn't been done.
- x. 25JAN2023 - Had to get onto Rob regarding keeping the completed bag inventory up to date. John and I discussed Robs attitude.
- y. 28FEB2023 - discussed with Rob about the task board. Starting to think we need to let Rob go. His attitude is one that he doesn't care about getting things done. He jokingly mentioned he liked being paid for not working.
- z. 20MAR2022 - Alex Snodgrass hired to eventually replace Rob.
- aa. 24MAR2023 - Discussion with John regarding Robs push back on stacking the bags today. I believe Robs attitude is infectious. We need Alex to take over for Rob and just let Rob go for performance issues.
- bb. 30MAR2023 - ATMO Safety discussion with Jessie about ensuring that Rob gets the tasks done. The tasks are established, just not getting enforced by Rob.
- cc. 5APR2023 - Alex informed us regarding accepting a neurology position at a hospital in Little Rock. Neurology is his degree is in. John and I discussed just letting Rob go.
- dd. 7APR2023 - John, Jordan and I discussed letting Rob go.
- ee. 12APR2023 - Time to let Rob go. He is afraid to make the system work and cant meet the simple daily quotas. If Jim can get it done why cant Rob. Need to look at the mill structure again. Jim can run the Mill, we just need to get a manager of people to manage the team. Hopefully, Brian Edwards can do it. He can manage the people, QC, inventory and the reporting. Jim can run the mill. Brian will need to learn how to as a back up to Jim.

ff. 14APR2023 - Warned John about an MSHA complaint when we let Rob go. Robs termination will be based on production performance, not following guidance given by management, not ensuring the safety of the mill associated by utilizing the proper controls, etc. Send John the termination letter.

gg. 16APR2023 - Ask Keith about miner pay and withdrawl order. Robs termination letter sent to John.

RESPONSE: These notes were from Mr. Tidabacks personal daily notes journal which is done on a Rocketbook wipeable notebook. These were not input into a Microsoft Teams Chat.

14. Produce all Microsoft Teams chats between Robert Baumann and any owner, supervisor or manager of Respondent.

RESPONSE: In your request for the production of all Microsoft Teams chats between Robert Baumann and any owner, supervisor, or manager of Respondent. We appreciate your patience as we work diligently to fulfill this highly technical request.

Due to the specialized nature of retrieving Microsoft Teams chats, we are currently in the process of coaching our managers and supervisors on the necessary steps to access and compile the requested information. This process involves ensuring that all relevant chats are securely retrieved and properly documented to meet your requirements.

We understand the importance of providing a comprehensive and accurate response to your request and are committed to delivering the requested Microsoft Teams chats as soon as they are available. Our team is actively working on this matter, and we anticipate completing the retrieval process within a reasonable timeframe.

Please be assured that we take your request seriously and are making every effort to facilitate the retrieval of the requested chats efficiently and effectively. We will notify you as soon as the information is ready for submission.

---

Mr. Simms.

I respect your opinion but do not see it that way. I can only express my concern based on the experiences we have with Mr. Markeson.

Ever since this all started 2 months ago. We have had MSHA inspectors come to our location, threaten our employees, threaten to have US Marshall's come down and throw them all in jail, close our plant, not once but twice, lock the doors, tell employees no one is allowed to enter, even when there is no present danger to them or anyone else. Both times, the mill was not running so clearly, there was no present danger to anyone. And ultimately worst thing is keeping us shut down for almost four weeks combined, losing approximately \$1,000,000 in revenue generating opportunity.

I have brought these issues forward to you directly. I requested, practically begged, for your presence at our site. And I am thankful that you did. When you did come for the short visit, I even discussed with you personally some of the citations issued by Mr. Markeson and was told by you that I should conference them. By this, even you noticed some of these citations were questionable.

I even noticed Mr. Markeson disrespectfully snap back at Mr. Pratt after Mr. Pratt asked Mr. Markeson to "hurry this up", the day we were all there on site. Mr. Pratt noticed that I noticed this rude and uncalled for exchange of words, made a facial expression to me and turned away. IMO, embarrassed by Mr. Markeson.

As a manager of people, there appears to be more going on internally and with Mr. Markeson than you may be aware of.

My first priority is and has to be with our miners. I do not believe Mr. Markeson is acting in good faith with the best interest of our miners. I too am a miner.

I am sure you have other inspectors that are more than willing and able to provide comparable, if not better, support for the needs of our miners and our location.

With all due respect sir, If you are not able to or willing to work with us, putting our miners interests first, please sir, you leave me no other option but to request the contact information for your supervisor so that I may properly utilize the MSHA chain of command and take my concerns and recent experiences to them.

I am more than willing to work with you as we have always tried to do but I do believe that I am within my rights to request to not have a inspector come to our site if I believe that the inspector is not acting in good faith for the safety and betterment of our miners.

Respectfully, please advise.

Russell,

Keith is one of the best inspectors we have in this district if not in MSHA. He has timely answered your questions, provided proper guidance regarding your recent overexposures, and has worked to address all of your concerns.

He has also spent a lot of time trying to educate you and your personnel on the seriousness of Silica overexposures and what is needed to bring your property back into compliance.

Mr. Pratt.

I do not believe Mr. Markeson is acting in good faith with the best interest of our miners. I am requesting that Mr. Markeson NOT to return to our site.

He has created an environment where our miners are confused, concerned for their jobs and the financial livelihood of their family.

We have asked repeatedly for assistance and I feel we keep getting the run-around from Mr. Markeson.

I am at a loss here and don't know what else to do.

I do apologize for having to bring this forward but as you can see after multiple attempts we are not getting from Mr. Markeson, which is representing MSHA, the support needed, which should be expected from an authoritative federal agency.

Please advise.

Mr. Markeson.

Sir, Thank you for your reply. It raises more questions.

1. No "related dust producing activities." Can we task our guys with tasks that are not "dust producing"? Such as cleaning the breakroom, cleaning the bathroom, lubricating and adjusting the rollup doors, adjusting/repairing the window pull cords, painting the safety handrails, and safety lines, removing the palletizer loader equipment, lubricating the

equipment, etc.

**These are all in the Mill but are not "dust producing activities." We understand no milling machinery use as this equipment generates dust. No sweeping or shoveling of spillage. No dust collector filter servicing. No dust producing activities.**

As per the verbiage on the 104(b) orders:

This order withdraws all miners from the mill building for all activities, with the exception of:

1. Using the forklift(s) to load already packaged product onto customer trucks.
2. Manually wrapping already stacked and packaged product with stretch wrap for shipping.
3. Working on the discharge end of the dust collectors (screw conveyors and airlocks) outside and,
4. Working in the shop attached to the mill building.

Any other activity without a modification to the 104(b) orders would be considered working in the face of an order.

**Im sure you can agree if anyone is in the mill, regardless of the tasking, the lighting should be on for safety purposes, and the windows, doors, and ventilation system should be open and on.**

The lights are already on.

**2. "An order issued under 104(b) of the Federal Mine Safety and Health Act of 1977 is a withdrawal order, and it does invoke the "Right to Pay for Miners Idled by a Withdrawal Order." Since we operate 8hrs a day MON-FRI, which applies to our mill associates?**

The miners are entitled to pay for the remainder of their shift for 4/12/2023 and for four hours for 4/13/2023. As per the Federal Mine Safety and Health Act of 1977:

#### ENTITLEMENT OF MINERS

SEC. 111. If a coal or other mine or area of such mine is closed by an order issued under section 103, section 104, or section 107, all miners working during the shift when such order was issued who are idled by such order shall be entitled, regardless of the result of any review of such order, to full compensation by the operator at their regular rates of pay for the period they are idled, but for not more than the balance of such shift. If such order is not terminated prior to the next working shift, all miners on that shift who are idled by such order shall be entitled to full compensation by the operator at their regular rates of pay for the period they are idled, but for not more than four hours of such shift.

**Im referencing the Miners Rights handbook, pages 12-13,**

**"If you are working on the shift when a withdrawal order is issued, and you are idled by the withdrawal order, you are entitled to your regular pay for the time lost; but only for the balance of the shift." So the Order was issued on 4/12/2023 at 0902. So the guys were advised to go home until we get this figured out. I agree they get paid for that day since they'd already made an effort to show up to work.**

This is where it gets confusing and why I tried to contact you on the 12<sup>th</sup>.

If we do not have electricity in the Mill for lights, but you "verbally" allowed the mill associates to operate in the Mill with no lighting, wouldn't this contradict citation 9539736 you issued on 2/22/2023 at 1013 marked "Lost Workdays or Restricted Duty for Injury or illness could be reasonably expected and a Moderate Negligence".

The citation states "None of the lights were working", "This condition creates a visibility hazard to the miner."

I stressed this specific issue with this citation to you in person, in front of Mr. Simms, Mr. Pratt and others. You stood your ground and emphasized to all of us present that without electricity/proper illumination, regardless of window or door access, it would be considered a violation.

Now with that said, it would be irresponsible to think that we would intentionally go against what we were cited for just two months earlier.

We had to keep the miners out of the Mill due to miscommunication, ill-proper documentation, and clarification needed to not only keep the miners safe but also ensure that we would not be cited again for making an assumption. I hope this explains why we needed and still need clarification from you.

I would assume for anyone, but if you can not get a hold of me via phone, please follow up with an email. I have no missed calls from you, and I receive many calls and voicemails each day. So, I cannot confirm you called, and I would have called you back if I did, as we have employees sitting at home.

I am not asking you to respond on my schedule; I'm just asking you to respond. Professionally, it is assumed a response will be within 24 hours. I know you are busy, and I don't control your task load. I did reach out to Mr. Pratt on April 12, 2023, at 3:14:16 PM. He called me, had to leave me a voice message, and I called him back immediately.

It was also brought to my attention that it was expressed to them at our site (quote from an employee) "There was also mention that MSHA may not be in a hurry to confirm any of this since there is clear evidence that we were not in a hurry to act on any of the citations."

Mr. Markeson, I am not stating you said this, as I was not present to hear it. I bring up this point because any comments like this from a person in your authoritative position make employees scared and concerned for their job, paycheck, and livelihood. As you should be well aware, it is challenging to hire new employees and retain those who want to work in our current economy.

This leads me back to the Miners Rights handbook, page 13, as it states, "If you are withdrawn from the mine or part of the mine and idled because the operator does not comply with any mandatory safety or health standard, you are to be paid for lost time at your regular rate for the time you are idled, or for one week, whichever is the lesser."

From what you are stating, they weren't idled because we could have put them to work according to the exceptions made and now updated Orders. This is why we need clarification from you.

The miners were idled due to a 104(b) withdrawal order. The "Right to Pay for Miners Idled By

a Withdrawal Order” comes into play because of this. Pages 12-13 of the Miners’ Rights book (OT-2) and Section 111 of the Federal Mine Safety and Health Act of 1977 do apply in this situation.

**3. Does the first paragraph apply to where our Mill associates are right to be paid for the entire day, the 12<sup>th</sup>, or are they “entitled to be paid for lost time”?**

The miners are entitled to pay for the remainder of their shift for 4/12/2023 and for four hours for 4/13/2023. As per the Federal Mine Safety and Health Act of 1977:

**ENTITLEMENT OF MINERS**

SEC. 111. If a coal or other mine or area of such mine is closed by an order issued under section 103, section 104, or section 107, all miners working during the shift when such order was issued who are idled by such order shall be entitled, regardless of the result of any review of such order, to full compensation by the operator at their regular rates of pay for the period they are idled, but for not more than the balance of such shift. If such order is not terminated prior to the next working shift, all miners on that shift who are idled by such order shall be entitled to full compensation by the operator at their regular rates of pay for the period they are idled, but for not more than four hours of such shift. If a coal or other mine or area of such mine is closed by an order issued under section 104 or section 107 of this title for a failure of the operator to comply with any mandatory health or safety standards, all miners who are idled due to such order shall be fully compensated after all interested parties are given an opportunity for a public hearing, which shall be expedited in such cases, and after such order is final, by the operator for lost time at their regular rates of pay for such time as the miners are idled by such closing, or for one week, whichever is the lesser.

The length of time that the plant is idled would determine the pay to which the employees are entitled for lost time, but for not more than one week.

**So now we have to deal with employees who read the Miners Rights book one way, and what we, the management side, have to deal with trying to get clarification from you.**

**I understand in the morning; you are coming back to the Mill "to tag out the specific pieces of equipment"so we can have lighting so the Mill Associates can work in the Mill.**

**Preferably, before you leave tomorrow morning, so we know precisely what we can and cannot task our mill associates within the Mill, and how to respond to their inquiries regarding the miners rights handbook, please reply to the three noted questions in this email.**

Jessie Molesi and John Spears were specifically asked twice, before I left the mine site, if they had any additional questions. Neither of them asked about tasks for the mill associates.

**Thank you.**

Hello Mr. Markeson.

I am glad you responded to my emails. I was beginning to wonder if you were just ignoring me. I emailed you on April 6, 2023, 10 AM asking for your assistance, but you never returned my email. Then I called you on April 12th and sent you a text message on April 12, 2023 at 13:40. As of this email you haven't responded to my previous emails, phone calls, or text messages. Please from now on, include John, Jordan, and myself in any MSHA communications regarding our site, and I will make sure our team does the same. This way we are all on the same page.

I apologize for the delays in my responses but I have many other duties that keep me away from my computer and I do not normally respond outside of my working hours. I did not respond to your e-mail on April 6<sup>th</sup> because I understood this to be a request for us to return to the mine site and perform a resample not as an e-mail requiring a written response. I did return to the mine site this past Wednesday and I was prepared to conduct a resample if one was warranted. Your call on April 12<sup>th</sup> and the following text message was received while I was on the phone with MSHA management, I did return your call immediately following my phone call however you did not answer and no voicemail ever picked up, therefore I was unable to leave a message. Do not assume that because I can't respond on your schedule that I am ignoring you.

Taking Mr. Pratt's advice, on any future MSHA inspection closeout, Jordan and or myself will be on a conference call to go over any citations/orders.

I think that this would be a good idea. It was discussed and offered for the closeout this past Wednesday.

I am asking for you to request from Mr. Simms to vacate this 104(d) order on the basis listed below and extend the termination date at least another couple weeks while we have the masks delivered, tested, the guys use them and the air quality devices serviced and returned.

1. We were addressing the 104(a) citation, RPP updates, physical updates, new PPE, etc...
2. Once we had the correct information as to WHY we had to order new equipment that the company hasn't used in over a decade, we did order the PAPR systems the very same day.
3. Our newly hired Safety Specialist is learning by fire hose regarding the specifics of MSHA.

We cannot control the hospitals schedules. Jessie scheduled the physicals as available and as you see, based on when we could get the exams done, they are getting done. If we would have spoke we could worked out the details and saved a lot of hassle.

The same goes with the RPP, with learning the WHY, and as I have asked numerous times, the CFR doesnt specifically state the PAPR is required. You know firsthand when we were at the site last time we were bombarded with tons and tons of paper. Plus you know Jessie is very, very new to the position. A little help or if someone would have referenced the NIOSH chart earlier, or again if we spoke... this all could have saved a lot of hassle.

Now that Jessie knows what PPE and equipment needs to be updated in the RPP, but when learning about it and while finding the specific makes, models, etc it would not make sense to change the document with wrong information. Again, we were working towards addressing the issues. Obviously 7 days, 5 business days, wasnt enough time to get it completely done but we were addressing it. Again, if we spoke... could have saved a lot of hassle here.

As for the plant power, unfortunately, asking the maintenance person regarding locking out the building power without discussing it with the person in charge of the operations there, John, was a mistake. As you can tell by the response of the "maintenance man" you spoke with, they were only concerned regarding their one part of the entire operation. The maintenance man doesnt know all of the operations occurring and the consequences of such.

At the time John was not on the mine property. I did discuss the issue with Rob Baumann, Jessie Moles, and the maintenance man (I apologize for no knowing his name, but he is new since I conducted the sampling). I was under the impression that I was talking with the designated person in charge when I was talking with Mr. Baumann and Mr. Moles while John was off site. In the future I will ask the appropriate questions to ensure that I am talking with the person in charge at the mine.

There are power junction boxes that can shut off specific equipment. This is why we are asking for an MSHA rep to go back to the Mill and "close tag" the equipment junction boxes for the specific equipment, the tube mill specifically and/or the pulverizer. Either of those TWO PIECES of equipment is what produces "the dust" and without those two pieces of equipment, we can not produce material.

This has been addressed with Jessie and John. Arrangements have been made to tag out the specific pieces of equipment.

Referring to your statement in an email sent to Jessie, "copies of the withdrawal orders", this is causing a lot of confusion... your statement of "withdrawal", now has our employees wondering if they are "Right to Pay for Miners Idled by a Withdrawal Order", page 12 of the Guide to Miners' Rights and Responsibilities (<https://arlweb.msha.gov/S&HINFO/minersrights/MinersRights.pdf>).

I still have issues with the order being issued, but Is the order 104(b) a WITHDRAWAL order?

An order issued under 104(b) of the Federal Mine Safety and Health Act of 1977 is a withdrawal order, and it does invoke the "Right to Pay for Miners Idled by a Withdrawal Order."

If so, how is it a withdrawal order but we can still allow employees to work in the mill, and that brings up another question, since other employees weren't overexposed, does the withdrawal only for the affected employees?

The 104(b) order applies to the area of the mill building and the related dust producing activities. This was discussed with Jessie Molesi and Rob Baumann and it was explained to them that the order prohibits all activity in the mill building with the exception of loading out product that has already been packaged. The order applies to an area, not to specific employees. One of the overexposed employees worked in all areas of the mill on the day he was sampled and that is the area to which the order of withdrawal applies. I made an exception for the loadout of already packaged product based on the argument made by Mr. Baumann that this does not produce dust and that there was no significant dust buildup on the packaged product for the miners to be exposed to. During a discussion with Mr. Baumann I also agreed that stacked, palletized, bags could be manually wrapped with stretch wrap for shipping as this would not expose the miners to dust with the rest of the plant not operating.

This is where I think the confusion lays, Turning off the power to either of the two pieces of equipment above, extending the citation termination date, working with Jessie and us specifically on the requirement would have solved any potential air quality hazard until the administrative controls were corrected. Really not a need to issue a 104(b).

There should be no confusion. When I left the plant, it was clearly stated, and Jessie and Rob stated that they understood, that the 104(b) orders prohibit all activity in the mill building with the exception of loadout of already packaged product and work on the discharge end of the dust collectors outside (airlocks and screw conveyors). Mr. Baumann called me after I left the mine site and asked if the stacked and palletized bags could be wrapped for shipment, and I agreed that could be done manually. Let me state that one more time to be perfectly clear:

The 104(b) orders issued, withdraw all miners from the mill building for all activities, with the exception of:

1. Using the forklift(s) to load already packaged product onto customer trucks.
2. Manually wrapping already stacked and packaged product with stretch wrap for shipping.
3. Working on the discharge end of the dust collectors (screw conveyors and airlocks) outside and,
4. Working in the shop attached to the mill building.

That is it, no other activity is permitted until the orders are modified. I have attached modifications to the orders to clarify the Area Affected.

I am not seeing in the CFR where a 104(b) is a withdrawal order. I can see where a 104(d), 104(g), and a 107(a) ORDERS are withdrawal orders but not a 104(b). Plus a 104(b) order abatement can be extended, just like requested on April 6<sup>th</sup> 2023 while we were addressing the 104(a) citation.

Can you point us to where in the CFR states a 104(b) is a withdrawal order?

It is not in the CFR, it is in Section 104(b) of the Federal Mine Safety and Health Act of 1977 which is available on our website [www.msha.gov](http://www.msha.gov).

CFR 104.2 Pattern criteria states:  
**104.2 Pattern criteria.**

(a) At least once each year, MSHA will review the compliance and accident, injury, and illness records of mines to determine if any mines meet the pattern of violations criteria. MSHA's review to identify mines with a pattern of S&S violations will include:

- (1) Citations for S&S violations;
- (2) Orders under section 104(b) of the Mine Act for not abating S&S violations;
- (3) Citations and withdrawal orders under section 104(d) of the Mine Act, resulting from the mine operator's unwarrantable failure to comply;
- (4) Imminent danger orders under section 107(a) of the Mine Act;
- (5) Orders under section 104(g) of the Mine Act requiring withdrawal of miners who have not received training and who MSHA declares to be a hazard to themselves and others;
- (6) Enforcement measures, other than section 104(e) of the Mine Act, that have been applied at the mine;
- (7) Other information that demonstrates a serious safety or health management problem at the mine, such as accident, injury, and illness records; and
- (8) Mitigating circumstances.

(b) MSHA will post the specific pattern criteria on its Web site.

Please respond with your intent of the requested items:

1. Request to vacate the 104(b) and extend the 104(a) termination date. Request denied, the 104(a) citations have been replaced with 104(b) orders 9539789 and 9539790. There is no extension needed as orders do not have a termination due date or time.
2. Is the 104(b) a withdrawal order? If so, how can we operate under a withdrawal order in the mill? The 104(b) orders are withdrawal orders and you cannot operate the mill with orders on it.
3. "Close tag" specific machines rather than the entire building for safety purposes of lighting. As stated above, arrangements have been made to do this as soon as practical.
4. Where in the CFR does it state the 104(b) is a withdrawal order, in regards to "Right to Pay for Miners Idled.." so we all will know. As above, a 104(b) order is a withdrawal order as defined in Section 104(b) of the Federal Mine Safety and Health Act of 1977 (The ACT). The reference for the "Right to Pay for Miners Idled..." is in Section 111 of The ACT.

Thank you.

+John Spears  
+Jessie Molesi

Hi Mr. Pratt.

Thank you for the detailed response. A couple questions come up with this...

1. Do you have a copy of this ANSI Z88.2-1969 being referenced? If so, please send a pdf copy. I would greatly appreciate it.

We cannot provide you a copy due to copyright however, one is available for your review at any MSHA District Office as stated in the standard 30CFR§56.5005(b) or a copy can be obtained from the American National Standards Institute (ANSI) at [ansi.org](http://ansi.org).

In regards to the <https://www.cdc.gov/niosh/npg/npgd0684.html> site, this helps make the air sample results mentioned in the citation understandable. With this, we ordered four 3M 6900PF Powerform face-mounted PAPRs, twenty 3M HE SP3 filters and two chargers.

2. "Keith told me this morning that he gave a copy and discussed this with Jordan." Not sure what this is in reference to and Jordan doesn't either. Please elaborate if you would.

A printed copy of the NIOSH document you referenced above was given to Jordan during your visit and I explained the different respirator requirements based on exposure. This was during our conversation about the disposable respirators in use at the mine vs half-mask respirations with replaceable cartridges.

Referring to the "closed tags", I understand the equipment that generates "the dust", but shutting the power of to the entire mill... and then telling the miners they can work in the mill to load trucks, maintenance, etc... without lights? That just doesn't make sense. I asked yesterday to have an MSHA rep come back out, untag the equipment that doesn't generate "the dust" so our guys could work. From what I understand this didn't happen and we couldn't just have guys sitting around not being able to work, so we had to send them home. These actions are not only harming this company financially, but it is harming our employees financially as well.

Just to clarify your statements above, the miners were not told that they can perform maintenance. They were told that the order did not prevent them from loading out product that had already been packaged. There was no discussion regarding lighting, it is up to the miners and mine operator to determine what lighting would be required to perform this task safely. If additional lighting is required to perform this task, portable lighting could be used or headlights on the forklifts could be a possibility. On the day that the orders were issued there was plenty of ambient light coming in from the windows to access the product stored around the bagging machine and the warehouse area behind the breakroom even after the lights were turned off.

I do not see why the electricity to the entire building was shut off and “closed tag”. The tube mill, yes. The pulverizer, yes. But the lights, etc... those have nothing to do with “the dust”.

The reason that the main breakers were tagged out as opposed to only tagging out the individual breakers was because the mine did not have the necessary lockout devices to lock out the individual circuits. I asked the miners, which included your maintenance man, how to lock out the production equipment, I was told that the two main breakers was how to do that. I then asked them to turn off the requisite breakers so that I could attach my tags. The two main breakers were what was turned off and tagged. A discussion was held with your production supervisor and your maintenance man regarding power to the mill shop. I was told that they could work out of the shop across the street for anything they needed power for and could run an extension cord from the office for anything else they needed in the mill shop.

When the mill is not running, there is no hazard present. I understand completely the purpose of not allowing the mill system to run as it creates a potential hazard but if the individual equipment is “closed tag” then there is no hazard. The operations team can resolve the administrative issues with the RPP, and the maintenance team can do what they were hired to do.

I am asking, no I am pleading with you to reconsider the “closed tags” issue, have someone come down and let us utilize electricity and the systems that don’t pulverize or crush the material. We have shipments needing to be loaded on trucks and to be safe, we need lights in the mill to do so.

It is hard enough to get people to work these days and having to tell them to go home or not come in due to an MSHA order... I’ll be surprised if any of the mill associates stick around long enough for us to resolve this and get them back to work.

I believe this whole issue has been grossly blown out of proportion. When the citation was issued, we stated addressing the issues. IF it was such as critical issue, why was the termination date put 7 days out? Plus why was the order called for when we were working towards solving the issue.

The termination was set out 7-days after discussion with Jessie Moles and John Spears to determine a reasonable abatement time to get started. It was determined that less than 7-days would not be reasonable for you to update the mine’s RPP, have all affected miners medically evaluated to be able to wear a respirator, order and obtain the required respirators, and to get them fit tested. The termination due time was set (as stated in the citations themselves) to allow a reasonable amount of time to complete these tasks. Jessie and John were also told that if these tasks were completed, the citations would be extended to allow time to start working on the dust controls at the plant. The orders were issued because none of the tasks listed above had been completed before the termination due date and time. When I arrived at the mine on Wednesday the RPP had not been updated, none of the affected miners (with exception of the two that already had been evaluated at the time

of sampling) had been medically evaluated, no approved respirators had been ordered or obtained, and no additional miners had been fit tested. When no apparent effort has been made to abate the condition, 104(b) orders for failure to abate were issued.

sorry, this all is very, very frustrating... we missed out on \$50k worth of production today!

I look forward to your response. Have a good night.

**Subject:** RE: 12APR2023 - B Order #9539789 & 9539790

- Mr. Pratt will inform us of the enforcement regarding the resample process and PAPR requirements

Please see the answers to your questions below.

- Mr. Pratt would inform us where in the CFR is states PAPRs are a requirement vs a N95/N100 non-PAPR mask.

**§ 56.5005 Control of exposure to airborne contaminants.**

Control of employee exposure to harmful airborne contaminants shall be, insofar

as feasible, by prevention of contamination, removal by exhaust ventilation, or by dilution with uncontaminated air. However, where accepted, engineering control measures have not been developed or when necessary by the nature of work involved (for example, while establishing controls or occasional entry into hazardous atmospheres to perform maintenance or investigation), employees may work for reasonable periods of time in concentrations of airborne contaminants exceeding permissible levels if they are protected by appropriate respiratory protective equipment. Whenever respiratory protective equipment is used a program for selection, maintenance, training, fitting, supervision, cleaning, and use shall meet the following minimum requirements:

(a) Respirators approved by NIOSH under 42 CFR part 84 which are applicable and suitable for the purpose intended shall be furnished and miners shall use the protective equipment in accordance with training and instruction.

(b) A respirator program consistent with the requirements of ANSI Z88.2-1969, published by the American National Standards Institute and entitled "American National Standards Practices for Respiratory Protection ANSI Z88.2-1969," approved August 11, 1969, which is hereby incorporated by reference and made a part hereof. This publication may be obtained from the American National Standards Institute, Inc., 25 W. 43rd Street, 4th Floor, New York, NY 10036; <http://www.ansi.org>, or may be examined in any Metal and Nonmetal Mine Safety and Health District Office of the Mine Safety and Health Administration.

(c) When respiratory protection is used in atmospheres immediately harmful to life, the presence of at least one other person with backup equipment and rescue capability shall be required in the event of failure of the respiratory equipment.

<https://www.cdc.gov/niosh/npg/npgd0684.html>

Keith told me this morning that he gave a copy and discussed this with Jordan.

Since the N100 non-PAPR masks are the same filtration rating, 99.97%, as a PAPR hood system, can we use the N100 masks to run the machinery for 8 hours to get the resample? No, see above.

- Mr. Pratt would inform us where in the regulations or PPM, in reference to Arlington, where it states the process we have to perform before MSHA will perform an air resample.

## **§ 56.5002 Exposure monitoring.**

Dust, gas, mist, and fume surveys shall be conducted as frequently as necessary to determine the adequacy of control measures.

If so, We will need an MSHA rep to remove the LOTO tags so we can run the mill for the 8 hours, possibly Saturday, the latest Monday the 17th.

Before the 104(b) order can be modified or the "Closed" tags can be removed; the mine's Respiratory Protection Program must be updated to meet the requirements of ANSI Z88.2-1969 (Jessi Moles and John Spears are aware of what the deficiencies are), all affected

miners must be medically evaluated to be able to wear a respirator, the Mill Associates must be provided with any powered, air-purifying respirator (PAPR) with a high-efficiency particulate filter or any supplied-air respirator operated in a continuous-flow mode, John Spears should be provided with a half-mask respirator with at least N95 filters however he can continue to use the disposable N95 respirators at the mine provided they are fit tested every time they are donned in accordance with the case insert instructions and ANSI Z88.2-1969, and all affected miners must be fit tested to ensure the efficacy of the respirators.

The "Closed" tags will then be removed and the 104(b) orders modified to allow the mine operator time to perform repairs to the dust control systems in the plant. These repairs should include patching of the holes in the dust collection pipes, replacing defective bags/filters in the dust collectors, repairing/replacing the airlocks on the dust collector discharges, and repairs to the automated bagging system in the plant. After repairs have been made, and the repairs confirmed by an Authorized Representative, the 104(b) orders will then be modified to allow the plant to run for you to perform sampling. Additional actions will be based on the results of that sampling.

... then we need to wait until the sample test results come back from the lab...

Correct, once the sample test results come back from the lab those results will determine whether an MSHA resample is warranted or if additional engineering controls need to be put into place to further reduce the miner's exposure.

... then do we need to wait again until an MSHA inspector comes and does another resample, or can we run production once the first sample test results come in?

This will be determined based on the sample results a modification to the 104(b) orders would be required to run production.

- Mr. Simms, Anthony  
+ Mr. Molesi, Jessie

Hello Mr. Pratt.

Thank you for taking my call.

Here is the reminder I mentioned I would email you.

- Mr. Pratt will inform us of the enforcement POC in Arlington, Mr. Gene ???, regarding the resample process and PAPR requirements
- Mr. Pratt would inform us where in the CFR is states PAPRs are a requirement vs a N95/N100 non-PAPR mask.
- Mr. Pratt would inform us where in the regulations or PPM, in reference to Arlington, where it states the process we have to perform before MSHA will perform an air resample.

Also, just so I am clear on what is needed...

Based on our phone conversation, we have contacted Employers Health & Safety, LLC in Joplin. For \$2,000, They perform the air samples.

Since the N100 non-PAPR masks are the same filtration rating, 99.97%, as a PAPR hood system, can we use the N100 masks to run the machinery for 8 hours to get the resample? This way, we don't have to purchase \$12,000 worth of PAPR hood system equipment that we will most likely never use.

We have five M3 N100 masks being delivered on Friday. On Friday, we can do the fit test.

If so, We will need an MSHA rep to remove the LOTO tags so we can run the mill for the 8 hours, possibly Saturday, the latest Monday the 17th.

... then we need to wait until the sample test results come back from the lab...

... then do we need to wait again until an MSHA inspector comes and does another resample, or can we run production once the first sample test results come in?

Is this the process?

Please advise.

Hello Mr. Pratt,

I left two messages with your office today, and on my last call, I was directed by your office to call Mr. Simms. I called Mr. Simms, and he stated that I needed to be talking and work with you and the inspector.

I also left a voice message and a text message with Mr. Keith Markeson in regards to today's issuance of B orders #9539789 and 9539790 and have been informed by company personnel,

"The main breaker to the mill has been red tagged, and is not to be removed. If it is, then there is a substantial fine that will charge by the minute. There is no power to the mill. We can, however load currently produced product onto trucks; we can work only in the maintenance shop, and the outside filtration systems; we cannot operate anything that produces dust, until we have everyone medically evaluated for respirator systems, have obtained approved respirator system, fit tested said individuals for respirator systems, and have an MSHA rep confirm all of this. There was also mention that MSHA may not be in a hurry to confirm any of this since there is clear evidence that we were not in a hurry to act on any of the citations."

When citations (9539786, 9539787, 9539788) were issued on 3/30/2023 at 1410, we reviewed them, discussed them, and started resolving the issues.

1. We have addressed the engineering controls we have in place, as recommended in the CFR.
2. We requested via email to Mr. Markeson an air quality resample a few days later.
3. We ordered and delivered more approved PPE.
4. We are getting our employees the health physicals (half of them were scheduled and at the Drs office having this done this morning)
- And 5. we are addressing the updating of our RPP (new safety manager, new PPE manufacturers, etc.)

We are making efforts to be compliant with the CFR.

Today, as I mentioned to you this morning over the phone, you had terrible reception, so I don't know if you were able to hear everything; Mr. Markeson issued an order against a citation that we have requested a time extension on and an air resample.

Mr. Makeson shut down our operations, which I do not think is appropriate or called for since we are working on the administrative processes to resolve the citations.

Every hour we are shut down costs us valuable time and revenue-generating opportunities. We had to send our employees home today due to this. This seems to be a reoccurring

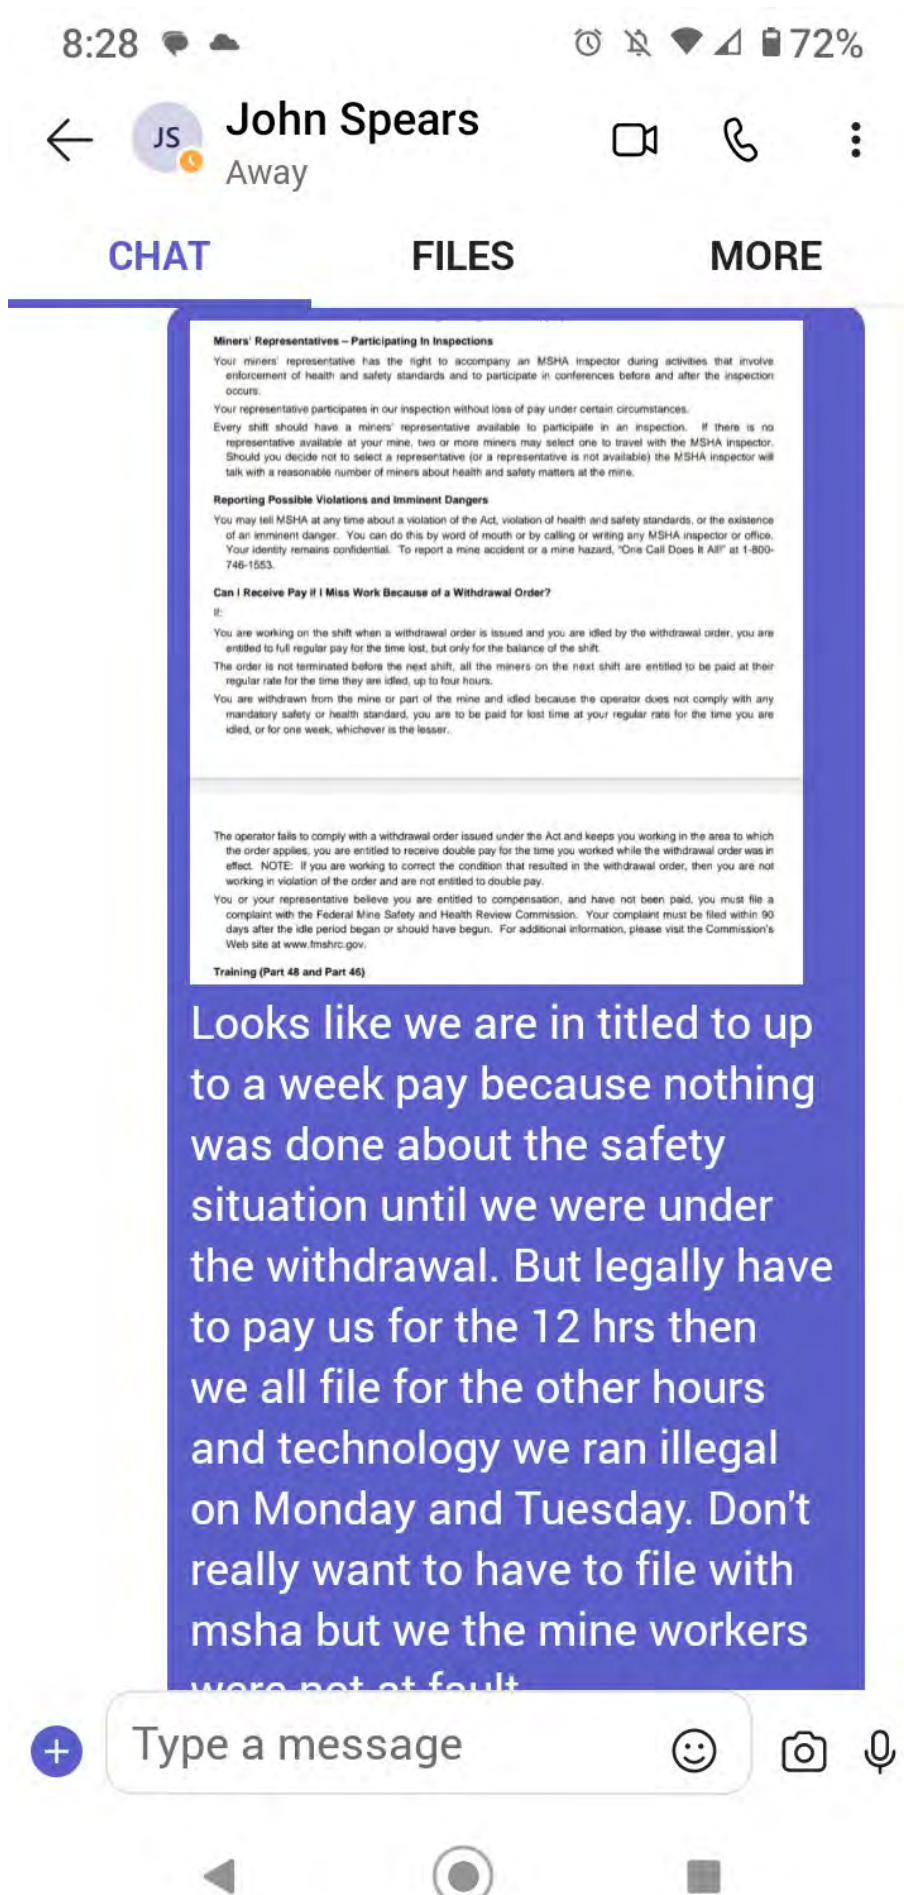

pattern, in my opinion, of overstepping what right and abusive authority is. These MSHA-directed shutdowns are causing our employees to search for jobs elsewhere for employment where MSHA is not involved.

I am pleading with you to CALL ME ASAP so we can get this resolved and not let this linger like it did last time for three-plus weeks.

Respectfully

Russell Tidaback

**Gage Wheeler** Did you get  
ahold of PremierTech?

February 14 6:35 AM

John S.

Gage Wheeler do not answer  
any questions about the that  
the MSHA inspector may  
have. Do not go into the mill.  
I'll be the person who talks to  
me inspector.

February 14 10:13 AM

John S.

**[6:55 AM] John Spears**

February 14

John Spears 2/14 6:35 AM

JS Gage Wheeler do not answer any questions about the that the MSHA inspector may have. Do not go into the mill. I'll be the person who talks to me inspector.

John Spears 2/14 10:13 AM

JS [6:55 AM] John Spears  
I understand. I should have been more specific about not volunteering information. I will escort the inspector.  
like 1

2/14 10:15 AM

MSHA Guide to Equipment Guarding  
<https://arlweb.msha.gov/s%26hinfo/equipguarding2004.pdf>

John Spears 2/14 10:22 AM

JS Those are the best representative pictures I've seen so far.

Unknown User 2/14 11:11 AM

UU There was no Volunteering information i was asking a question about a specific code that way we can get the right kind of material on the way to fix the guards so whe can be in complience so we can terminate the Citations

The certin question was about the expanded metel that was used and it is a now go thats all i was doing i wasnt giving infomation about other things or whatever i didnt even join the inspection group till he pointed things that need to be fix because at that point it became my buisness

2/14 11:19 AM

Yep, I think the best way to approach the guarding issue is to put a gate entrance at the stairs going down/up from the production floor. Just an idea...

It's all good. Have to remember each inspector is going to have a different opinion of what is right

What was the question about expanded metal? He didn't like the current guarding?

Unknown User 2/14 11:24 AM

UU No he doesnt almost all of it is a no go Well regardless of that i wasnt volunteering infomation heres two logicly reasons why 1. why would i create more work for myself than i have to 2. I dont have to point anything out if there is anything wrong with anything hes gonna find it and write it up without the help from anyone.

2/14 11:26 AM

Amen to That!!!

Oh well, thanks for just nodding and agreeing with the inspector. That's all we can do.

Unknown User 2/14 11:33 AM

UU Well just make myself absoltely clear i wasnt giving up any infomation volunterly thats wasnt directly asked of me by the msha inspector

And the only thing thats was asked that i told him was about the Ground testing documentation

2/14 11:36 AM

Yep, I didn't think you did or would.

**RESPONDENT RESPONSE TO ACTING SECRETARY OF LABOR'S FOURTH  
REQUESTS FOR PRODUCTION OF DOCUMENTS**

### **REQUESTS FOR PRODUCTION OF DOCUMENTS**

1. Produce the document, attached hereto as Exhibit A, which was produced by Respondent in docket CENT 2023-0196 in response to discovery, for the time period of January 1, 2022 through August 1, 2023. As the time period of November 3, 2022 through March 31, 2023 has already been produced in Exhibit A, to the extent it is easier to exclude these time periods from this production, that is acceptable.

RESPONSE: Attached is the document, labeled “Daily Production JAN 2022 - NOV 3 2022 AND APR 2023 - AUG 2023.xlsx” with the time periods as requested, January 1, 2022 – November 3, 2022, and April 1, 2023 – August 1, 2023.

Hello Mr. Boyd.

Sorry to bother you. I asked Mr. Zeman; he tried but didn't have access to find out and referred me to you.

Can you send us the citation/order for CENT 2023-0098 (attached)?

Also, can you guide me on how to :

1. lookup on the MSHA website, for example, the attached. I don't know what citation/order(s) this is for. If I could find it online, I wouldn't have to bother you guys.

You will not find any information concerning decisions issued by a judge on the MSHA website. You might start with Marcus Hughes at the Federal Mine Safety & Health Review Commission, 1331 Pennsylvania Ave., NW, Suite 520N, in Washington, DC 20004-1710, (p) 202.233.4011

2. Remove Max Drake and Randy Drake from our records. These gentlemen are listed as Miner's representatives on the attached but retired decades ago and have asked to be removed.

Max and Randy Drake are responsible for informing the District manager when they are unable to comply with the requirements of Part 40.3. At that point, MSHA will remove them from their designation. They do not have to be an employee to still be a miners rep. However, if you will send me your current employee roster, I will check our records to see if the confidential represented miners are still in fact employed. If they turn out to no longer work for American Tripoli, I will gladly handle working on your request for you.

I appreciate your help.

Hello Mr. Sparks,

Please remind me, what citation/order(s) is this for?

Hello,

Please see attached COV19 Default Order. Thank you.

***At this time, most case issuances of the Federal Mine Safety and Health Review Commission (FMSHRC), including inter alia notices, decision, and orders, will be sent only through electronic mail.***

***Further, FMSHRC will not be monitoring incoming physical mail or facsimile describer in 29 CFR 2700.5(c) (2). If possible, all filings should be e-filed as described in 29 CFR 2700.5(c)(1).***

## Reset Form

## Representative of Miners Designation Form

U.S. Department of Labor  
Mine Safety and Health Administration

Approved OMB Control Number 1219-0042, is approved for use through 12/31/2023

Purpose: 30 CFR 40.3 authorizes a written declaration of any person or organization which represents two or more miners at a coal or other mine.

Public reporting burden for this collection of information estimated to average 45 minutes per response; including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Persons are not required to respond to this collection of information unless it displays a current OMB Control Number. The DOL offers no pledge of confidentiality in association with these information collections unless Item 2 is checked and DOL will keep the miners' names and contact information confidential (Item 7) if Item 2 is checked. Section 103(f) and (g) of the Federal Mine Safety and Health Act, as amended, (30 U.S.C. § 813(f) and (g)) and 43 FR 29508, 29509. As a practical matter, the DOL would only release this information in accordance with provisions of the Freedom of Information Act (5 U.S.C. § 552); the Privacy Act (5 U.S.C. § 552a); and attendant regulations, 29 C.F.R. parts 70 and 71. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: **Office of Standards, Regulation and Variances, Mine Safety and Health Administration, 201 12th Street South, Suite 401, Arlington, VA 22202-5452. DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.** Instructions for this form contain further information on the need and use of this form. A false or representation is punishable under Section 110(a) and (f) of the Federal Mine Safety and Health Act, as amended (30 U.S.C. § 820 (a) and (f)).

Unknown User 2/14 11:33 AM

Well just make myself absolutely clear i wasn't giving up any information voluntarily that wasn't directly asked of me by the msha inspector

And the only thing that was asked that i told him was about the Ground testing documentation

2/14 11:36 AM

Yep, I didn't think you did or would.

Unknown User 2/14 11:40 AM

Gage Wheeler do not answer any questions about the that the MSHA inspector may have. Do not go into the mill, I'll be the person who talks to me inspector.

Then what's this about and when i asked about it John said he didn't want me volunteering information because of the question i asked about a certain code to keep our Business in compliance with msha

2/14 11:48 AM

Ah... makes sense.

Gage Wheeler Mike Peterson from Premier Tech is going to call you to help with the bagger.

Jordan Tidaback 2/14 11:49 AM

Hi Gage, we spoke with John about that. You are absolutely allowed to answer questions the MSHA inspector has (obviously). I think John may have meant don't just go up to him and point out everything under the sun. We've had people do that, knowing very well it's an issue being worked on.

The Ops Mgr and maintenance person usually work hand in hand when the inspector is there so we can fix the simple things quickly on site before he leaves.

Hope that makes sense? I know having the inspector there makes for a tense environment, but you guys are a good team and we are all trying our best to get ahead of all the things that need fixed.

February 15

Name	Inspection Date	Time	Examine the breakroom, note any safety issues.	Examine the Production Floor east storage area. Note any safety issues.	Examine the loading dock. Note any safety issues.
Bonnie Bainter	6/21/2022	8:00	Floor 1 could use some attention around the tube mill, along with floor 2 around bagger west side.	Yes	
Bonnie Bainter	6/22/2022	8:30 am	Area around tube mill needs to be cleaned up	Yes

 ATMO Safety | You, Don, John, +2

 John Spears 9/25 8:00 AM

Russell Tidaback Joshua Townsend John Spears Please ensure the **MSHA** Inspectors sign in to our visitor log, just like any other visitor, per **MSHA** - Metal and Nonmetal General Inspection Procedures Handbook - PH13-IV-1 ... Will do.

 ATMO Safety | You, Don, John, +2

 John Spears 8/29 1:01 PM

Joshua Townsend let the **MSHA** guys know that the burms are complete.

 Mill Group Chat | You, Brian, Don, +10

 John Spears 7/6 11:55 AM

Headed to the drying sheds with **MSHA**. And quarry.

 Mill Group Chat | You, Brian, Don, +10

 John Spears 6/26 2:09 PM

Russell Tidaback You should expect **MSHA** to be diligently looking in the causes of this fatality at our location. That would not surprise me that we would be picked out.

 ATMO Safety | You, Don, John, +2

 John Spears 5/30 10:50 AM

Jessie Molesi I calibrated the Escort Elf pumps and we have 6 operational ones that all ran and calibrated within **MSHA** standards of 1.7 LPM. 3 of the bad ones have deficient batteries that cannot hold a charge and the... Good deal. We should be able to run another good test.

 ATMO Safety | You, Don, John, +2

 John Spears 4/18 4:22 PM

Russell Tidaback perfect, then it shouldnt take tooo long. 😊 Then we play the whole waiting game on **MSHA**... Yes sir you are probably correct. Hurry up and wait.

 ATMO - Maintenance Group | You, Don, Joe, +3

 John Spears 4/16 8:45 PM

**MSHA** is supposed to be at the mill in the morning to turn on the power. The mill is still shut down until we get the PAPRs.

 ATMO Safety | You, Don, John, +2

 John Spears 4/14 2:07 PM

...Im telling you guys... Keith is a snake... be cautious on what you say to and around him. Any **MSHA** inspector really. Michael Van Dorn - Ex-**MSHA** employee... good reference 417-684-3288 I spoke with him and he gave me a good run down on Keith, Mr Pratt, etc. He said...

 ATMO Safety | You, Don, John, +2

 John Spears 4/14 1:56 PM

...As for the Withdrawal Order question... we will wait until we get clarification from **MSHA**. I believe they are going to tell us that the 104(b) is a withdrawal order BUT they allowed us to work under certain guidelines. Us sending mill associates home was because no production capability no.....

 ATMO Safety | You, Don, John, +2

 John Spears 4/13 3:53 PM

We'll need at least 4 units. I'm afraid **MSHA** will ask us about the maintenance personnel. I'm sure they'll be next to be tested.

 ATMO Safety | You, Don, John, +2

 John Spears 4/13 3:07 PM

...I like this model. The main question is what kind of filter do we need to meet the requirements for particulate size? Since P-100 mask are only good down to .3 micron and that's not good enough for **MSHA**. I'm researching filter cans now.

 Mill Group Chat | You, Brian, Don, +10

 John Spears 3/31 8:35 AM

Everyone. This is an **MSHA** Citation. Please re-hang all air hoses when finished using them. Everyone please respond.

 Mill Group Chat | You, Brian, Don, +10

 John Spears 3/14 8:06 AM

Jordan Tidaback Robert Baumann is this in reference to the horn? If so, I'll email the **MSHA** guys and get that citation terminated. Yes. The forklift is ready for use.

 ATMO - Maintenance Group | You, Don, Joe, +3

 John Spears 2/14 6:35 AM

Gage Wheeler do not answer any questions about the that the **MSHA** inspector may have. Do not go into the mill. I'll be the person who talks to me inspector.

 Mill Group Chat | You, Brian, Don, +10

 John Spears 1/16 10:21 AM

Be sure to complete the Workplace Exam and be sure to have the crew do the forklift exam as well. I'm afraid this is where **MSHA** will go next. Thanks.

 Mill Group Chat | You, Brian, Don, +10

 John Spears 1/11 8:26 AM

Robert Baumann John Spears Kensley Brewer we are ready for the labels for the 50 and 100 pound bags and shipping paperwork as soon as it's available for so-520 so 527 Julie Ann Cureg We're in **MSHA** training. She'll make them on our break in a little while. Thanks.

 Mill Group Chat | You, Brian, Don, +10

 John Spears 11/22/22 5:17 PM

Sure thing. Sounds good. I'm pretty sure we have smoothed things over with the **MSHA** inspectors. Bryceton is finishing up a couple welding repairs in the morning and that should be the final items on the list. We now have furnace heat in the office building as well. Jim is finished with the tube mill....

ATMO - Mill Mgmt | You, Don, John, +2

John Spears 11/9/22 5:11 PM

...Mr. Barlow and I have abated several of **MSHA**'s concerns. We'll keep plugging away at them. Craig from Bearing HQ is still looking for a less expensive bearing for the outside flour elevator. His only concern is the length of the base. I'm sure I can make an 11 inch base work for us....

Mill Group Chat | You, Brian, Don, +10

John Spears 11/8/22 9:56 AM

Russell Tidaback as of now we are bagging product. I have Mr. Barlow and I working on **MSHA** fixes.

Mill Group Chat | You, Brian, Don, +10

John Spears 11/2/22 12:51 PM

We got the fan shaft and installing now. Just broke for about 15 minutes to woof down a sandwich then back at it. **MSHA** was here doing an inspection and a group of mill wrights were here looking at the tube mill. Kinda put us behind a little. should be able to fire up when you get here.

Mill Group Chat | You, Brian, Don, +10

John Spears 10/26/22 3:27 PM

Is Justin Campbell's company email the same format as mine? He was not able to find the **MSHA** coarse. He was wondering if the material was sent to his personal email by chance.

**1. Compliance with Regulations:** Throughout the course of our operations, we have consistently prioritized compliance with all relevant regulations and guidelines, particularly those set forth by the Mine Safety and Health Administration (MSHA). We have diligently enforced safety protocols and measures in line with MSHA standards to ensure the safety of our workforce.

**2. Safety Measures and Training:** We have invested significant resources in training and educating our employees, emphasizing safety procedures and the importance of adhering to MSHA regulations. Our commitment to safety extends to providing comprehensive training programs and resources, which we have made available to all our employees, including Mr. Robert Baumann.

**3. Mitigation of Citations:** It is important to note that the mining industry can be inherently challenging in terms of regulatory compliance. Despite our best efforts, occasional citations may occur. Our defense involves demonstrating that we have taken prompt corrective actions in response to any citations received, including addressing safety concerns and implementing necessary changes to prevent recurrence.

**4. Employee Responsibilities:** Employees, including Mr. Baumann, have individual responsibilities under MSHA regulations to ensure their safety and that of their colleagues. These responsibilities include reporting unsafe conditions and practices, complying with safety guidelines, and actively participating in safety training. Our defense highlights the expectations placed on all employees, including Mr. Baumann, in fulfilling these responsibilities.

In conclusion, our defense in this case is built upon our unwavering commitment to safety, compliance, and the well-being of our workforce. The material facts supporting this defense include our rigorous safety measures, training programs, and our proactive approach to

addressing any citations received. We remain steadfast in our dedication to transparency, cooperation, and upholding the highest standards of safety within our operations. We have also included a November 13, 2023 email chain from Mr. Randall Boyd, Supervisory Special Investigations, Supervisory Conference & Litigations, Madisonville district office, stating there is not anyone recorded as a representative of miners at our location as Mr. Baumann has claimed he is/was one.

**INTERROGATORY NO. 5:** Set forth the reasons Robert Baumann was terminated, who participated in the decision to terminate Robert Baumann, and the date such decision was made.

**ANSWER:** A comprehensive response to your request regarding the reasons for the termination of Mr. Robert Baumann, the individuals involved in the decision, and the date when this decision was made. We understand the importance of clarity in this regard and aim to address your concerns.

**Reasons for Termination:**

The decision to terminate Mr. Robert Baumann was based on a combination of factors that collectively led to this outcome. It is important to emphasize that termination of employment is never taken lightly, and the welfare of our employees and the overall safety and efficiency of our operations remain paramount. The following factors contributed to Mr. Baumann's termination:

**Poor Performance:** Mr. Baumann's performance as a shift lead consistently fell below the acceptable standards established for his role. His inability to meet the performance expectations and responsibilities associated with his position was a primary concern.

**Lack of Leadership Skills:** As a shift lead, strong leadership skills are essential for success. Mr. Baumann's performance was hindered by his lack of effective leadership, which was a crucial aspect of his role.

**Failure to Follow Procedures and Guidance:** Despite several attempts to address these issues through coaching, feedback sessions, and open communication channels, Mr. Baumann did not demonstrate any substantial improvement in his performance or attitude. This failure to adapt to guidance and correct his behavior raised significant concerns.

**Safety Concerns:** Safety is a paramount concern in our operations. Mr. Baumann's disregard for safety guidelines, failure to take safety matters seriously, and his actions that created an unsafe work environment for himself and his colleagues were alarming.

**Compliance with Employment-At-Will Doctrine:** It is essential to note that Missouri follows the Employment-At-Will doctrine, allowing both the employer and employee to terminate the employment relationship at any time and for any non-discriminatory reason. This doctrine serves as the legal basis for Mr. Baumann's termination.

**Participants in the Decision:**

The decision to terminate Mr. Baumann was a collective one, involving key members of our management team. While we initially referred to "management personnel" in our previous response, we want to provide you with specific names and titles of the individuals who participated in this decision:

**Russell Tidaback:** As the final decision maker for the company, Mr. Russell Tidaback played a crucial role in the deliberation and final decision-making process.

**Jordan Tidaback:** As a decision maker for the company, Ms. Jordan Tidaback played a crucial role in the deliberation and decision-making process.

**John Spears:** As a member of our management team, Mr. John Spears was also involved in the decision-making process.

**Date of the Decision:**

The decision to terminate Mr. Baumann was reached during the evening of April 16, 2023. We recognize the importance of providing an exact date, and we sincerely apologize for any previous lack of specificity on this matter.

In conclusion, we hope this elaboration provides the clarity and detail you seek regarding Mr. Baumann's termination. We remain committed to cooperation and transparency throughout this process and appreciate your diligence in seeking this information.

DECLARATION

I, RUSSELL TIDABACK state that I am authorized to answer the foregoing interrogatories on behalf of MoSenecaManufacturer Limited Liability Company d/b/a American Tripoli. I have read the foregoing interrogatories and answers thereto and know the content thereof. Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing answers to the interrogatories are true and correct.

By: Russell Tidaback

Name: RUSSELL TIDABACK

Title: MANAGING MEMBER

Dated: 20NOV2023

## **FIRST DISCOVERY REQUESTS**

### **REQUESTS FOR PRODUCTION OF DOCUMENTS**

11. Produce the documents reflecting any discipline of Robert Baumann.

RESPONSE: In response to your request, we want to clarify the company's disciplinary process as outlined in our employee handbook. Our progressive discipline process is designed to provide associates with opportunities to address and correct behavior when possible. The handbook explicitly outlines the three steps of increasing severity in this process: verbal warning, formal meeting with a supervisor and written reprimand, and termination. It's important to note that managers have discretion in applying this process and may skip or repeat steps as necessary.

Considering this framework, we must emphasize that Robert Baumann's employment with American Tripoli was "at-will," as is the case with all our employees in the U.S. This means that either the employee or the company may terminate the employment relationship at any time and for any non-discriminatory reason. The termination of Mr. Baumann falls under the category of "for cause termination" as outlined in our handbook.

Regarding your specific request for discipline records for Mr. Baumann, we do not possess traditional documents reflecting discipline actions, such as written reprimands, in this case. The decision to terminate Mr. Baumann was the culmination of ongoing discussions, evaluations, and attempts to address performance issues and safety concerns, which are consistent with our progressive discipline process.

While we do not have written records of discipline actions in this case, we want to assure you that Mr. Baumann's termination was thoroughly assessed and justified based on well-established principles of employment and operational policies. Our commitment to acting fairly and lawfully is unwavering.

24. Produce the documents reflecting any communications, including Microsoft Teams chats, text message, emails, to employees of Respondent at the MoSenecaMfr LLC dba American Tr mine regarding MSHA inspections and/or any MSHA inspectors.

In addition, we ask that you also look for inspectors' names which would include either the first and last name together or just the first name or just the last name:

- Keith and Markeson
- Bryan and Licklider
- Randall or Randy and Hill
- Michael and/or Mike and Van Dorn and/or VanDorn
- David and/or Dave and Prewett
- Michael and/or Doc and Dillingham
- Shawn and Pratt
- Adam and Larkins
- Also inspector would be another relevant search term.

RESPONSE: In response to Request No. 24, we acknowledge the importance of providing relevant communications pertaining to MSHA inspections and inspectors. However, it is important to note that local communications at our mine, particularly below the level of the operations manager, often occur face-to-face or through other forms of verbal communication rather than electronic messages. As such, while we have made a diligent effort to retrieve electronic communications, we may not have specific messages that directly address MSHA inspections or inspectors. Below are what was found using the terms requested above, please let us know if you need further details surrounding any specific date & time message:

**Keith:**

ATMO Safety | You, Don, John, +2

John Spears 4/14 2:07 PM

...Im telling you guys... **Keith** is a snake... be cautious on what you say to and around him. Any MSHA inspector really....employee... good reference 417-684-3288 I spoke with him and he gave me a good run down on **Keith**, Mr Pratt, etc. He said he would help us in any w.....

ATMO Safety | You, Don, John, +2

You 4/14 10:50 AM

Jessie Molesi thanks for including me in on emails to **Keith**... im responding now.

ATMO Safety | You, Don, John, +2

You 4/14 7:16 AM

...once we get the gilirator back from service, do an air sample and let **Keith** know that we'd like an air sample redone based on your recent readings....

 ATMO Safety | You, Don, John, +2

 You 4/14 7:16 AM

...once we get the giliblator back from service, do an air sample and let **Keith** know that we'd like an air sample redone based on your recent readings....

 ATMO Safety | You, Don, John, +2

 You 4/12 2:00 PM

No worries... I want you to research the CFR based on the paperwork **Keith** gave you....I dont want **Keith's** opinion, I want you to research the details. Remember, an inspector is suppose to give you a non-bias, non-opinionated inspection....

 ATMO Safety | You, Don, John, +2

 JM Jessie Molesi 4/12 1:35 PM

I will check with **Keith** to find out what his exact source was and send it to you. I hate being confused and what to make sure I understand

 ATMO Safety | You, Don, John, +2

 You 4/12 1:28 PM

**Keith** likes to add too much of his own opinion rather than keeping to what the regulation guidelines are.

 ATMO Safety | You, Don, John, +2

 You 4/6 10:09 AM

So, Id expect **Keith** on site tomorrow.

 ATMO Safety | You, Don, John, +2

 You 4/6 10:04 AM

I will send **Keith** an email asking for an air resample.

 ATMO Safety | You, Don, John, +2

 You 4/3 8:34 AM

yes, the audiogram testing bus... we will have to look up who performed it in the past. It would be best to schedule it for a Wednesday morning. If we can get it scheduled, we can get an extension for the citation from **Keith**. John Spears we may need to assist Jessie with this since he in on Drill orders.

 ATMO Safety | You, Don, John, +2

 You 3/31 11:43 AM

Jessie Molesi **Keith** is a good guy, you may want to connect with him on how to build a good tracking and managing system for the citations.

### Markeson:

ATMO Safety | You, Don, John, +2

You 4/14 9:09 AM

Oh no, I think you are doing a stand up job... State to State will have different "guidelines". Unfortunately, from an **inspectors** point of view, to protect yourself as an **inspector**, you need to be sure of your source and reference that source.

ATMO Safety | You, Don, John, +2

You 4/12 2:00 PM

...I dont want Keiths opinion, I want you to research the details. Remember, an **inspector** is suppose to give you a non-bias, non-opinionated inspection....

ATMO Safety | You, Don, John, +2

Jessie Moles 4/12 11:01 AM

The MSHA **inspector** informed me that the doors and windows were open along with exhaust fans on on the day they did sampling. He also said that we cannot do production until we have the PAPR systems and everybody is medically evaluated and fit tested.

ATMO Safety | You, Don, John, +2

You 3/31 12:05 PM

...The thing to remember is the MSHA **inspector** has the cite you for going against a defined regulation. ANY opinion, and everyone has opinion, even MSHA **inspectors**, is not correct. Its not our job to argue with the **inspector**. After accepting the citation, we then need to justify his/her findings regarding the regulation....

ATMO Safety | You, Don, John, +2

You 3/31 11:45 AM

I will stress with you.... any MSHA **inspector** is not your friend. Anything you say to or in their presence can AND WILL be used against you in a court of law. Hopefully, this will never be needed BUT just be well aware.

ATMO Safety | You, Don, John, +2

Jessie Molesi 3/31 11:41 AM

Russell Tidaback who is our carrier insurance the MSHA **inspector** told me that I could contact them and see if they offer programs to send us the equipment we need to do air surveys and send the equipment back for analysis.

ATMO Safety | You, Don, John, +2

Jessie Molesi 3/30 10:05 AM

Of course and we are working on this other air tank so i can get the fire **inspector** out here for our pressure vessel inspection.

Jim Hoover

You 3/28 7:27 PM

who was the MSHA **inspector** today? Keith?

Jim Hoover

You 3/28 7:26 PM

without being combative, when an MSHA **inspector** states something, ask them for a reference so you can educate yourself on the proper regulations to keep everyone safe.

Jim Hoover

You 3/28 7:21 PM

Jim Hoover I get along with them great remember... MSHA **inspectors** are NOT your friend. They can and will us anything and everything against you in a court of law.

ATMO Safety | You, Don, John, +2

You 3/28 9:39 AM

Nice... then yes. Ask John, what is needed to hook up the other air tank before scheduling. This way we aren't having an empty tank sitting there and the **inspector** possibly need to come back. Are you familiar with the inspection? What they look for etc? If not, read up on it so we can be ahead of the **inspector**.

ATMO Safety | You, Don, John, +2

Jessie Molesi 3/28 9:32 AM

...I'm about to call the traveling **inspector** to set up an appointment for the pressure vessel inspection. I wanted to make sure that is fine before i call. They will also send the invoice to the office here and i wanted to know who i send that to once it arrives so we can pay them and get the object codes current.

ATMO Safety | You, Don, John, +2

Jordan Tidaback 3/28 8:33 AM

...Also, I did want to point these docs out to you in the link below, as the last MSHA **inspector** shared them with me. It includes the checklists MSHA uses when the do inspections....

ATMO Safety | You, Don, John, +2

Jordan Tidaback 3/24 4:04 PM

...These are the spots (in red) on the 5000-23 sheet that the MSHA **inspector** told me to fill out for tasks trainings. If you look in the 5000-23 booklet we have, you'll see one already filled out for Ronnell, Jim, Patrick, and RJ....

New Task Training 500... ...

ATMO Safety | You, Don, John, +2

Jordan Tidaback 3/24 1:47 PM

Did you see the 5000-23 book yesterday and the task trainings in it? The MSHA **inspector** recently showed me how to fill it out. I can show you, if needed.

You

Jim Hoover 3/22 11:10 PM

...we will wait till the complaints start pouring in, we just had **inspectors** tell us what to do if it starts dusting you told us what to do if it starts dusting but I guess it's okay if **inspectors** aren't there.

Mill Group Chat | You, Brian, Don, +10

You 3/21 11:07 AM

Also, ask the MSHA **inspector** for the MSHA reference as to how high a pallet can be stacked. We are not finding the reference.

ATMO - Maintenance Group | You, Don, Joe, +3

You 2/20 2:34 PM

Perfect. Hopefully the **inspector** will be there early and we will get to producing. Since that's done, can we get some time on the bagger switch?

Mill Group Chat | You, Brian, Don, +10

You 2/16 11:12 AM

Probably another reason why this MSHA **inspector** is here... [image]

 ATMO - Maintenance Group | You, Don, Joe, +3

Jordan Tidaback 2/14 11:49 AM

Hi Gage, we spoke with John about that. You are absolutely allowed to answer questions the MSHA **inspector** has (obviously)....The Ops Mgr and maintenance person usually work hand in hand when the **inspector** is there so we can fix the simple things quickly on site before he leaves....I know having the **inspector** there makes for...

 ATMO - Maintenance Group | You, Don, Joe, +3

Gage Wheeler 2/14 11:40 AM

Gage Wheeler do not answer any questions about the that the MSHA **inspector** may have. Do not go into the mill. I'll be the person who talks to me **inspector**....

You

Robert Baumann 2/14 11:39 AM

Msha **inspector** told me to lock the doors and no one was allowed in until he okayed it

 ATMO - Maintenance Group | You, Don, Joe, +3

You 2/14 11:27 AM

Oh well, thanks for just nodding and agreeing with the **inspector**. That's all we can do.

 ATMO - Maintenance Group | You, Don, Joe, +3

You 2/14 11:20 AM

It's all good. Have to remember each **inspector** is going to have a different opinion of what is right

 ATMO - Maintenance Group | You, Don, Joe, +3

John Spears 2/14 10:13 AM

[6:55 AM] John Spears I understand. I should have been more specific about not volunteering information. I will escort the **inspector**. like 1

 ATMO - Maintenance Group | You, Don, Joe, +3

 John Spears 2/14 6:35 AM

Gage Wheeler do not answer any questions about the that the MSHA **inspector** may have. Do not go into the mill. I'll be the person who talks to me **inspector**.

 Mill Group Chat | You, Brian, Don, +10

 John Spears 11/22/22 5:17 PM

Sure thing. Sounds good. I'm pretty sure we have smoothed things over with the MSHA **inspectors**. Bryceton is finishing up a couple welding repairs in the morning and that should be the final items on the list. We now have furnace heat in the office building as well. Jim is finished with the tube mill....

 Mill Group Chat | You, Brian, Don, +10

 You 11/14/22 11:48 AM

...Last I heard msha **inspector** said they was expired and terry our safety manager had to cut them up right on the spot . If you know where one is at please inform us...

 Mill Group Chat | You, Brian, Don, +10

 Benjamin Waters 11/14/22 11:12 AM

Last I heard msha **inspector** said they was expired and terry our safety manager had to cut them up right on the spot . If you know where one is at please inform us

 You

 Jim Hoover 11/8/22 10:42 PM

I'm not complaining about anything brother terry I'd working on the **inspectors** shit which is okay

 You

 Jim Hoover 11/7/22 12:48 PM

VID\_20221107\_124644271.mp4 Went and got the **inspector** and he said that's damn good

 ATMO - Operations | You, Don, Gwen, +4

 You 11/3/22 5:21 PM  
Terry Newburn did you receive the MSHA list from the **inspector**?

 Mill Group Chat | You, Brian, Don, +10

 You 11/2/22 6:32 PM  
...From what I understand today was a busy day with outside visitors, **inspectors** as well as the maintenance issue....

 Terry Newburn

 You 11/2/22 1:09 PM  
...to the Safety and Environmental channel and we can build a plan to address these ASAP so we wont have these come up again when the **inspector** comes back. The MSHA **inspector**, if its the same guy I spoke with, he is a pretty good guy. He's just doing his job and I dont question anything he finds....

 Mill Group Chat | You, Brian, Don, +10

 You 7/13/22 8:49 PM  
Just be cautious is the main point. Do what you know you should do, like wearing your hard hat in the mill at all times. Dont cut corners. The **inspector** is just doing his job.

 Mill Group Chat | You, Brian, Don, +10

 You 7/13/22 8:36 PM  
... 😬 and if you are asked a question by the **inspector** keep your answer short and simple. Dont be "that guy", Camrin lol, that thinks he knows it all and starts pointing out of all the faults etc. (I only name drop Camrin since he doesnt work with us any longer. 😬 )

 ATMO - Mill Mgmt | You, Don, John, +2

 Bonnie Bainter 7/6/22 4:17 PM  
Just a heads up, I received a call from Michael VanDorn our MSHA **inspector**. He advised that in compliance with the current Silica study each mill that has received violations in the past, are required to undergo an air and noise test....

Mill Group Chat | You, Brian, Don, +8

BW Benjamin Waters 12/14/22 9:39 AM

Russell Tidaback [Image] Robert **Baumann** I've located 10 OGR 2000 lb Bulk bags , none specified for any order. Theoretically we need 30 more Bulk bags OGR to complete both 286A & 284B unless my math is off , 7 OGR bulk bags in quarry garage 3 located on mill production floor.

 You and John

 **John Spears** 12/1/22 12:12 PM

Robert **Baumann** Yes a city worker just stopped at the road and said he caught an odor of gas. I told him they were looking into it He smelled the gas that remained in the pipe after we shut off the main valve. We disassembled the pipe to apply new pipe dope and Teflon tape. No bubbles after reassembled.

 You and John

Robert **Baumann** 9/12/22 11:57 PM

Yes sir it clouded up terrible for about 30 mins but clearing up quite a bit now...

ATMO - Mill Mgmt | You, Don, John, +2

Robert **Baumann** 9/12/22 11:55 PM

It started out absolutely horrible but finally doesn't look to bad, Jessie told me to just let it run as long as possible to get the crap cleaned out of the whole system so that's what I'm doing for as long as possible...

ATMO - Mill Mgmt | You, Don, John, +2

Robert **Baumann** 9/12/22 10:26 PM

Got it fixed puting it back together and firing up to see how it looks in a minute...

Russell Tidaback (You) 9/12/22 7:59 PM

Robert **Baumann** The studs were cross threaded when we tried to pull them last week Robert **Baumann** Did you message Jessie Hodge about this?

ATMO - Mill Mgmt | You, Don, John, +2

Russell Tidaback (You) 9/12/22 7:58 PM

I just called him and he is coming in to get these fixed so possibly you guys can run something tonight. Robert **Baumann**

ATMO - Mill Mgmt | You, Don, John, +2

RB Robert **Baumann** 9/12/22 7:56 PM

The studs were cross threaded when we tried to pull them last week...

ATMO - Mill Mgmt | You, Don, John, +2

RB Robert **Baumann** 9/12/22 7:54 PM

The lil Mac they pulled all the filters and broke a couple studs that holds the lids on then I broke one putting one back on tried rigging them up so we can run but they won't work.

ATMO - Mill Mgmt | You, Don, John, +2

Russell Tidaback (You) 9/12/22 7:49 PM

Fill me Robert **Baumann** I dont know what you are referencing.

ATMO - Mill Mgmt | You, Don, John, +2

RB Robert **Baumann** 9/12/22 7:48 PM

Russell Tidaback John Spears this is a no go without getting these studs replaced the lids won't stay on and it's dusting worse than it was when I tried to run...

ATMO - Mill Mgmt | You, Don, John, +2

RB Robert **Baumann** 9/11/22 8:01 AM

Dang it sorry. I will look closer from now on...

ATMO - Mill Mgmt | You, Don, John, +2

RB Robert **Baumann** 9/8/22 11:44 PM

It eats up a lot of time for sure. The Toyota fork truck literally just quit in the middle of the Isle just now also it won't even light up with key we ran what we could but will have to transfer a lot of this order to the shop for room...

ATMO - Mill Mgmt | You, Don, John, +2

Russell Tidaback (You) 9/8/22 11:25 PM

Thanks Robert **Baumann**. We are going to get a better seal process for that thing. It is ridiculous to have to waste you and RJs time searching for insulation just to seal the tube mill door.

ATMO - Mill Mgmt | You, Don, John, +2

RB Robert **Baumann** 9/8/22 10:18 PM

Completely took it off found some long piece's of insulation and it's good to go Jim Hoover John Spears Will Shallenburger Russell . It's 🔥 up on that tube mill...

ATMO - Mill Mgmt | You, Don, John, +2

RB Robert **Baumann** 9/8/22 8:47 PM

It lasted about 10 minutes I found some more insulation on 4th floor so gunna try again and get a few more washers...

ATMO - Mill Mgmt | You, Don, John, +2

JS John Spears 9/8/22 8:40 PM

7:30 am for Mr. Jim is fine. Robert **Baumann** were you able to stop the leak?

ATMO - Mill Mgmt | You, Don, John, +2

Russell Tidaback (You) 9/8/22 8:39 PM

Robert **Baumann**...Robert **Baumann** WHAT??? You mean an actual torque sequence to ensure things dont get warped when tightening?...

ATMO - Mill Mgmt | You, Don, John, +2

Russell Tidaback (You) 9/8/22 8:35 PM

Jim Hoover I will be TOBY 🐻 tmrw boss for cup 🍷 of 🌊 Boss Robert **Baumann** You're the man... [image]

ATMO - Mill Mgmt | You, Don, John, +2

Russell Tidaback (You) 9/8/22 8:18 PM

Robert **Baumann** Sorry we kind of ignored your message... did you find something to fix this leak?

ATMO - Mill Mgmt | You, Don, John, +2

WS Will Shallenburger 9/8/22 7:42 PM

Robert **Baumann** Jim Hoover is the huge ratchet for tube mill lid in shop we have product pouring out gunna have to shut down to fix. I'm not seeing it This why we requested insulation to keep this from happening, Jim and I watched the for awhile to make sure no product was coming out.

ATMO - Mill Mgmt | You, Don, John, +2

RB Robert **Baumann** 9/8/22 7:32 PM

Jim Hoover is the huge ratchet for tube mill lid in shop we have product pouring out gunna have to shut down to fix. I'm not seeing it...

ATMO - Mill Mgmt | You, Don, John, +2

RB Robert **Baumann** 9/8/22 7:16 PM

They are properly placed on pallet...

Mill Group Chat | You, Brian, Don, +8

JS John Spears 9/7/22 5:41 PM

Robert **Baumann** we should have the blower put together in time for you and RJ to run production tomorrow night. Please let RJ know.

ATMO - Mill Mgmt | You, Don, John, +2

Russell Tidaback (You) 9/7/22 4:02 PM

Robert **Baumann** Unfortunately not tonight. John Spears I would expect tomorrow night to run, probably not 1st shift though since UPS overnight delivery will probably occur around noon and then finishing up the repair in the afternoon timeframe.

ATMO - Mill Mgmt | You, Don, John, +2

JS John Spears 9/7/22 3:05 PM

Robert **Baumann** thanks.

ATMO - Mill Mgmt | You, Don, John, +2

 **Robert Baumann** 8/24/22 11:54 PM

Will do I couldn't find a tripped breaker and following electric lines now...

 ATMO - Mill Mgmt | You, Don, John, +2

 **Robert Baumann** 8/24/22 11:51 PM

Those have to be perfect to go on right. Motor still not turning. I'm gunna check what I can and we are gunna clean for a bit huge mess. Jessie Hodge Jim Hoover see if you guys can see the problem...

 ATMO - Mill Mgmt | You, Don, John, +2

 **Robert Baumann** 8/24/22 9:47 PM

These lids are making me feel dumb. I will update you in a bit...

 ATMO - Mill Mgmt | You, Don, John, +2

 **Robert Baumann** 8/24/22 9:42 PM

It didn't have hardly any thing in it when we changed them before about 6 weeks ago something can't be right. We just got it scooped out and trying to get lids on do you know a trick to that...

 ATMO - Mill Mgmt | You, Don, John, +2

 **Robert Baumann** 8/24/22 9:38 PM

They were changing filters in the Donaldson when we got here it was completely plugged up.

 ATMO - Mill Mgmt | You, Don, John, +2

 **Russell Tidaback (You)** 8/24/22 9:35 PM

**Robert Baumann** Where is this? What happened?

 ATMO - Mill Mgmt | You, Don, John, +2

 **Robert Baumann** 8/24/22 9:33 PM

Absolutely just packed in all the way down...

 ATMO - Mill Mgmt | You, Don, John, +2

 ATMO - Operations | You, Don, Gwen, +4

 John Spears 1/20 2:31 PM

Russell Tidaback John Spears / Kensley Brewer Okay, so... to unscrew this... how many bulk bags of OGR do we have on the production floor? We need 20 for SO-287-A. We'll get you an accurate count shortly. **Rob** and I have been looking at what we have.

 ATMO - Operations | You, Don, Gwen, +4

 Russell Tidaback (You) 1/20 1:32 PM

Yep, I understand. **Rob** should be inputting in the Daily Production spreadsheet what was produced each day before he leaves for the day. Kensley verifies the correct input with what is on the production floor and the spreadsheet.

 ATMO - Maintenance Group | You, Don, Joe, +3

 John Spears 1/18 1:00 PM

...The shaft that we used (had on hand) was 3-0 inches. I wanted to make sure the bearing slid onto the shaft easy enough so we wouldn't have to beat on it so bad. We experienced the oversized shaft problem with the little MAC blower outside. **Rob** can tell you about that.

 ATMO - Operations | You, Don, Gwen, +4

 Russell Tidaback (You) 1/17 9:45 AM  
Thanks **Rob**

 Quarry Operations | You, Gwen, John, +2

 Russell Tidaback (You) 1/16 10:50 AM  
**Rob** responded so I deleted my post.

 Quarry Operations | You, Gwen, John, +2

 Russell Tidaback (You) 1/16 10:49 AM  
Nope your fine... I didn't see **Rob** in the quarry group.

Mill Group Chat | You, Brian, Don, +8

Patrick Lewis 1/13 5:08 PM

Thats partially my fault. I failed to let **rob** know they were ready

Mill Group Chat | You, Brian, Don, +8

Gage Wheeler 1/6 11:04 AM

Hey **rob** give me a call

ATMO - Maintenance Group | You, Don, Joe, +3

John Spears 1/4 12:44 PM

Gage Wheeler **Rob** said there was a backup somewhere that he would like for you to check out and make sure there is nothing else.

Mill Group Chat | You, Brian, Don, +8

Benjamin Waters 12/30/22 2:16 PM

287 A is what we been producing the last few days . I asked for specifications and only received verbal comments from **Rob** regarding 287 A which we have OGR 17 bags done

ATMO - Mill Mgmt | You, Don, John, +2

John Spears 12/29/22 4:50 PM

Chuck's tips seemed to have worked. The problem looks to have been with the baffles being out of sync. Gage and **Rob** inched the mechanism along until the temp range became stable. We should be able to fire up in the morning, run bulk bags while the maintenance crew works on the packer.

ATMO - Mill Mgmt | You, Don, John, +2

Russell Tidaback (You) 12/29/22 2:02 PM

Thanks **Rob**. When we are producing we need to keep the mill team to the minimum. Can't keep paying people when we aren't producing.

Benjamin Waters Well at least we are having a nice dinner tomorrow! Yes sir! Also there may be some frozen chicken still in freezer, its free to whomever. Ask **Rob** if there is any left.

Quarry Operations | You, Gwen, John, +2

John Spears 12/22/22 8:54 AM

**Rob** has it warmed up. We should be able to run until 2.

ATMO - Maintenance Group | You, Don, Joe, +3

Russell Tidaback (You) 12/20/22 10:20 PM

...**Rob**, Over the past couple months, kept mentioning the elevator is full even with adding very little product.....

ATMO - Maintenance Group | You, Don, Joe, +3

Bryceton Williams 12/20/22 6:24 PM

...So **Rob** and I went back through all of the solenoids again to see if maybe one of those had stuck again, that was not it. So at the end of the day the last thing I can't think of besides some bit in the plc, is maybe the switch is bad....

Mill Group Chat | You, Brian, Don, +8

Benjamin Waters 12/19/22 10:44 AM

Nevermind. Thanks **Rob**

ATMO - Maintenance Group | You, Don, Joe, +3

John Spears 12/16/22 12:04 PM

This is what we came up with. I ground a "V" at the break the best I could. Bryceton welded it pretty good. We put a wedge under the other side because there was a space that caused the bearing to rock. Welded a bar strap over the top for further hold down. **Rob** and Bryceton are about to do a test run.

Office (239) 829-5457

ATMO - Mill Mgmt | You, Don, John, +2

Russell Tidaback (You) 3/30 10:33 AM

Yep, that's John's call. He is local. The palletizer doesn't slow the production down. Have to remember at one time the mill produced 100k lbs a day without a palletizer and 200lb bags.

ATMO - Mill Mgmt | You, Don, John, +2

RB Robert Baumann 3/30 10:32 AM

We were told yesterday that we weren't doing maintenance yesterday and if we get the palletizer fixed and all machines working correctly we could probably reach daily production goals...

ATMO - Mill Mgmt | You, Don, John, +2

Russell Tidaback (You) 3/30 10:21 AM **IMPORTANT**

"guys we are charging the tube mill and sealing up the elevator first thing in the morning"... okay, this is probably a good segway to bring us back together and iterate the importance of production urgency. The daily production goal is 50k lbs produced. Produced meaning to the final step of being stretch wrapped. The...

Everyone make sure to shave over the weekend so i can do a fit test Monday morning. Rob will send you over one at a time so not to interfere with production.

**Mill Group Chat** | You, Brian, Don, +8

**JS** John Spears 4/7 4:34 PM  
I picked these off of the pick belt before they went into the pulverizer. Whoever is tasked to operate the crusher please keep an eye out for big flint rocks. As you can see from the size of these they originally came from a bigger piece before it went through the crusher. Flint rocks this size can really reek havoc on...

If we do 1 bag per minute, switching out every 5 minutes...

Mill Group Chat | You, Brian, Don, +8

Russell Tidaback (You) 3/21 3:38 PM

Robert Baumann Problem is we don't really have the people to do that we are running half throttle now How many people do you think are needed? Robert Baumann...

Mill Group Chat | You, Brian, Don, +8

Russell Tidaback (You) 3/21 3:38 PM

The problem that I have seen is, during the startup and shutdown, many think this is goof off time instead of getting things ready for production today (startup) or getting things closed out for the day (shutdown). Its the mgmt teams responsibility to ensure everything gets done. Task out, verify when complete.

Mill Group Chat | You, Brian, Don, & 8

Russell Tidaback (You) 3/15 5:47 PM

Yep, glad it was discovered and no one got hurt by it. find where the wires are, trace the wire run back to the breaker box, make sure the power is turned off, remove the wires and conduit. Not a big deal but still something someone should have done back when they cut the wires at the floor when they removed whatever...

Mill Group Chat | You, Brian, Don, & 8

Russell Tidaback (You) 3/15 5:42 PM

lol... that place is crazy!

Mill Group Chat | You, Brian, Don, & 8

JS John Spears 3/15 5:41 PM

That's what we'll do. I thought I'd seen all of the oddities here at the mill. We'll get it traced down. Glad it was discovered.

Mill Group Chat | You, Brian, Don, & 8

Russell Tidaback (You) 3/15 5:37 PM

go ahead and tape the area off to keep people from walking near it until we can find what circuit breaker its on.

Mill Group Chat | You, Brian, Don, & 8

Russell Tidaback (You) 3/15 5:36 PM

stepping on it with boots on wouldnt shock you... walking across barefoot... yes then it would.

Mill Group Chat | You, Brian, Don, & 8

RB Robert Baumann 3/15 5:35 PM

John Spears I wonder how long it's been like that? I will cut power to the whole building in the morning and solve the issue I'm just thankful no one stepped on it...

Mill Group Chat | You, Brian, Don, & 8

Russell Tidaback (You) 3/15 5:35 PM

but yes, we need to find the breaker that controls those wires and if not used for anything else, lock it out until we can get the wires removed. In the meantime, do we have any rubberized dip like you dip your tool handle in to pour over the wires to protect from shocking anyone?

Mill Group Chat | You, Brian, Don, & 8

Russell Tidaback (You) 3/15 5:33 PM

Ask Jim if he knows if a machine was at that location during his employment. Is this area on your right as you are walking from the bagger stand to the control room? What would be on the first floor in that area? The tube mill gear box?

Russell Tidaback (You) 3/13 1:15 PM

From what I remember, Doug had that motor disconnected.

Mill Group Chat | You, Brian, Don, + 8

Russell Tidaback (You) 3/13 1:14 PM

The blower motor outside, by the roll up door by the ramp. I'm thinking the is giving us the excess dust. Ever since Jeff repaired that motor we've been dealing with excess dust. Robert Baumann turn that blower motor off and let's see if this solves any excess dust issue.

Mill Group Chat | You, Brian, Don, + 8

Ronnell Fondren 3/13 12:53 PM

Russell Tidaback Jordan Tidaback John Spears I have a guy that is needing work I've known him for 4 yrs and he is a very hard worker and always on time, he is a good fit maintenance and other tasks as well his name is Jeremy and he just put a resume on indeed and talked to John Spears this morning...

Mill Group Chat | You, Brian, Don, + 8

yep. No ones fault specifically but now we all have a glimpse at why the Production Assistant role of QC is important.

**Mill Group Chat** | You, Brian, Don, +8

**JS** John Spears 3/9 5:31 PM

I sure will. I have wondered about the use of another company's BOL.

**Mill Group Chat** | You, Brian, Don, +8

**Russell Tidaback (You)** 3/9 5:26 PM

Guys, remember the BOLs are very important in shipping. It's the official transfer of ownership and liability for the product. When it comes to BOLs make sure these are correct! And remember Rob won't know if it's our BOL or shipper specific. He is only tasked to make sure "a" BOL is signed and pics are taken. We have to...

**Mill Group Chat** | You, Brian, Don, +8

**Julie Ann Cureg** 3/9 5:23 PM

Russell Tidaback Julie Ann Cureg make sure we don't create two BOLs... okay 🙄 Doing so confuses the guys we they go to print the document. Ok. Sorry.

**Mill Group Chat** | You, Brian, Don, +8

**Russell Tidaback (You)** 3/9 5:22 PM

Julie Ann Cureg make sure we don't create two BOLs... okay 🙄 Doing so confuses the guys we they go to print the document.

**Mill Group Chat** | You, Brian, Don, +8

**Russell Tidaback (You)** 3/9 5:20 PM

John Spears Make sure you verify the BOL when printing. If you don't see a BOL in the folder, ask Julie Ann Cureg to create one as there may be a shipper specific one needed. Don't assume all BOLs are the same.

**Mill Group Chat** | You, Brian, Don, +8

**Russell Tidaback (You)** 3/9 5:18 PM

Contact with to pick up the order...

You talking about valve at the blue box by compressor there is a leak there so shut the valve so there is air in lines if we need air after shutting down compressor...
- ATMO - Maintenance Group** | You, Dan, Joe, +3
- JS** John Spears 4/10 10:49 AM  
Ryan Closser John the main valve to the air system coming right off the dryer was shut off. Nobody was notified that that Bell had gotten shut off so this morning it was never checked. I don't believe we need to be... Thanks. We'll keep that in mind.
- ATMO - Maintenance Group** | You, Dan, Joe, +3
- RC** Ryan Closser 4/10 10:42 AM  
...I don't believe we need to be locking the air our system and leaving it to stay there to accumulate moisture and rust the lines out. When we shut down we should bring the system and leave it vented to the **atmo**sphere. I don't know who closed me but nobody was ever notified.

Jeremy Talbert did the power flicker in the mill?

---

**ATMO - Maintenance Group** | You, Dan, Joe, i-3

**Russell Tidaback (You)** - 4/7 10:00 AM  
Jordan and Bonnie, two females, helped as well... just sharing so you know, this isnt the first time the palletizer hasnt worked and we had to hand stack bags.

---

**ATMO - Maintenance Group** | You, Dan, Joe, i-3

**Russell Tidaback (You)** - 4/7 9:58 AM  
we did 20 10-high pallets one day... sure it was a rough day but it is doable. Plus that was in the heat of summer...

---

**ATMO - Maintenance Group** | You, Dan, Joe, i-3

**Russell Tidaback (You)** - 4/7 9:57 AM  
Not a bad idea... but hopefully we get the palletizer fixed next week. We have had three people stacking before in the curve corner. 100# bags, two people at a time stacking, grab an end of bag, one person bagging and rotate every 4 bags. 50# bags one person grabs the bag, rotate to the next person, one person bagging...

Jeremy Talbert are you available to help Jim and I tomorrow to replace the shaker screens? I'll be glad to come by and pick you up in the morning.

**ATMO - Maintenance Group** | You, Don, Joe, + 3

Russell Tidaback (You) · 3/25 8:00 AM

Good Morning. While we are ordering three, possibly five, replacement diaphragm pulse valves (these are getting harder and harder to find since it is old technology) and we have repair kits on-hand already, lets repair what we have. I am researching, changing from a pneumatic to an electromechanical pulse valve system...

**ATMO - Maintenance Group** | You, Don, Joe, + 3

Russell Tidaback (You) · 3/24 5:50 PM

Thanks guys!

**JS** John Spears 3/24 5:45 PM  
Jeremy Talbert I'm out of town tomorrow but if you we can come to the mill one Sunday. I'll come get you.

**ATMO - Maintenance Group** | You, Don, Joe, +3

**R** Russell Tidaback (You) 3/24 5:44 PM  
Do we need to remove the valves, sandpaper off the corrosion and put back together?

**ATMO - Maintenance Group** | You, Don, Joe, +3

**JS** John Spears 3/24 5:43 PM  
Russell Tidaback I think we have the rebuild kits for the pulse valves. Correct, John Spears ? We have extra diaphragms but three of the pulse valves have corroded edges and do not want to seal. I was hoping that they would seal because new pulse valves are \$250 each.

**ATMO - Maintenance Group** | You, Don, Joe, +3

**R** Russell Tidaback (You) 3/24 5:42 PM  
Did all the mill associates get their 40 hours this week? If not John Spears maybe they will want to come in and work some hours over the weekend to get these repaired. We don't want to use production schedule time to do **maintenance**.

**ATMO - Maintenance Group** | You, Don, Joe, +3

**JT** Jeremy Talbert 3/24 5:40 PM  
I will check monday am...

**ATMO - Maintenance Group** | You, Don, Joe, +3

Jeremy Talbert Seems we are losing alot to box outside Yes. We need to replace three of the pulse valves.

**ATMO - Maintenance Group** | You, Don, Joe, 13

**Russell Tidaback (You)** 3/24 5:38 PM  
Jeremy Talbert Seems we are losing alot to box outside Yep, need to revist the diaphragms and see which ones need rebuilt.

**ATMO - Maintenance Group** | You, Don, Joe, 13

**JT** Jeremy Talbert 3/24 5:37 PM  
Yes we closed about half way and the inside tanks went from 100-140 psi...

**ATMO - Maintenance Group** | You, Don, Joe, 13

**JT** Jeremy Talbert 3/24 5:37 PM  
So with no regulator outside no way to see how much air is going to valves...

**ATMO - Maintenance Group** | You, Don, Joe, 13

**Russell Tidaback (You)** 3/24 5:36 PM  
So can you close the on off valve half way to build pressure?

**ATMO - Maintenance Group** | You, Don, Joe, 13

**JT** Jeremy Talbert 3/24 5:36 PM  
Seems we are losing alot to box outside...

**ATMO - Maintenance Group** | You, Don, Joe, 13

**Russell Tidaback (You)** 3/24 5:36 PM  
Jeremy Talbert If you shut off air valve to outside it builds up to 125 psi when opened it goes to barely 87 and if im correct for those valve to fire correctly needs 90-100 Yep, that's definitely a problem.

**ATMO - Maintenance Group** | You, Don, Joe, 13

**JS** John Spears 3/24 5:35 PM  
Russell Tidaback No leaks Fantastic.
